US Navy Contract 2026

June 12, 2026

Lockheed Martin Corp., Fort Worth, Texas, is awarded a $2,293,000,000 cost-plus-incentive-fee indefinite-delivery/indefinite-quantity contract to provide initial non-recurring sustainment activities and services, including site activation, interim contractor support, fleet management, and reliability and maintainability improvement plan in support of establishing new operational sites, one-time setup of both land-based and at-sea fleet support operations including initial engineering and technical sustainment services the F-35 Lightning II Joint Strike Fighter Air Systems for the Air Force, Marine Corps, Navy, Foreign Military Sales customers, and F-35 Cooperative Program Partners. Work will be performed in Fort Worth, Texas (85%); and Orlando, Florida (15%), and is expected to be completed in December 2028. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001926D0010).

Sikorsky Aircraft Corp., a Lockheed Martin Co., Stratford, Connecticut, is awarded a not-to-exceed $525,000,000 firm-fixed-price, cost-plus-fixed-fee, cost reimbursable indefinite-delivery/indefinite-quantity contract to provide highly specialized non-recurring engineering, integration, and flight-test support for the development and modernization of the Y/CH-53K Heavy Lift Helicopter program. Efforts include the design, development, testing, verification, and validation of product improvements, as well as the integration and qualification of advanced technologies to enhance aircraft capability, performance, and reliability for the Marine Corps, Navy and a Foreign Military Sales customer. Work will be performed in Stratford, Connecticut (65.2%); West Palm Beach, Florida (19.93%); Fort Worth, Texas (4.79%); Trumbull, Connecticut (3.16%); King of Prussia, Pennsylvania (1.43%); Rochester, Minnesota (1.12%); and various locations within the continental U.S. (4.37%), and is expected to be completed in June 2031. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001926D1005).

Krempp Construction Inc.* Jasper, Indiana, is awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity contract (N4008526-D-0013) with a maximum amount of $45,000,000 for magazine maintenance and repairs at Naval Weapons Station Crane. Work will be performed at Crane, Indiana. The term of the contract is not to exceed 60 months with an expected completion date of June 2031. Fiscal 2026 working capital (Army) contract funds in the amount of $2,500 are obligated at time of award and will not expire at

the end of the current fiscal year. This contract was competitively procured via Sam.gov, with one offer received. Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

Walashek Industrial & Marine Inc.,* Norfolk, Virginia, is awarded a $9,723,782 firm-fixed-price level-of-effort modification to a previously awarded contract (N00024-26-C-4434) to exercise an option for the accomplishment of maintenance, modernization, and repair of the steam propulsion plant systems on USS Iwo Jima (LHD 7) during the scheduled fiscal 2026 selected restricted availability. Work will be performed in Norfolk, Virgina, and is expected to be completed by May 2028. Fiscal 2026 other procurement, (Navy) funds in the amount of $9,723,782 will be obligated at the time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

June 11, 2026

Beast Code, LLC*, Fort Walton Beach, Florida (N6852026D1001); Falconwood, Arlington, Virginia (N6852026D1002); Nemean Agile JV LLC,* Sierra Vista, Arizona (N6852026D1005); Cameron Bell Corp.,* (N6852026D1006); Solute, San Diego, California (N6852026D1007); The Marlin Alliance, Inc.,* San Diego, California (N6852026D1008); Knowledge Management Inc.,* Tyngsboro, Massachusetts (N6852026D1009); Smartronix LLC, Hollywood, Maryland (N6852026D1010); Leidos Inc., Reston, Virginia (N6852026D1011); Andromeda Systems Inc., Virginia Beach, Virginia (N6852026D1012); Enterprise Horizon Consulting Group,* San Francisco, California (N6852026D1013); Pinao Consulting LLC,* Encinitas, California (N6852026D1014); VT Milcom Inc., Virginia Beach, Virginia (N6852026D1015); Cydecor Inc., Arlington, Virginia (N6852026D1016); TQI Solutions, Inc.,* Chesapeake, Virginia (N6852026D1017); Transtecs Corp.,* Washington, D.C. (N6852026D1018); PCG-SMX JV LLC,* Lexington Park, Maryland (N6852026D1019); KBR Wyle Services LLC, Lexington Park, Maryland (N6852026D1020); Agile Defense LLC, Reston, Virginia (N6852026D1021): FWG Solutions Inc.,* Washington, D.C. (N6852026D1022); Defense Systems Global LLC,* North Charleston, South Carolina (N6852026D1023); Peraton Inc., Herndon, Virginia (N6852026D1024); Deloitte Consulting LLP, Arlington, Virginia (N6852026D1025); Image One Technology and Management Ltd., Lexington Park, Maryland (N6852026D1026); VSOLVIT LLC, Ventura, California (N6852026D1027); Guidehouse Inc., McLean, Virginia (N6852026D1028); Science Applications International Corp., Reston, Virginia (N6852026D1029); Engineering Services Network Inc., Woodbridge, Virginia (N6852026D1030); Arazzo Government Solutions,* Philadelphia Pennsylvania (N6852026D1031); Akira Technologies Inc.,* Washington, D.C.

(N6852026D1032); Matanzas Engineering and Technology LLC,* St. Augustine, Florida (N6852026D1033); JMA Resources Inc.,* Mechanicsburg, Pennsylvania (N6852026D1034); Shadowobjects LLC,* Leonardtown, Maryland (N6852026D1035); C5MI Insight LLC, Jacksonville Beach, Florida (N6852026D1036); Obsidian Global LLC,* Washington, D.C. (N6852026D1037); StrongAI Solutions*, Henderson, Nevada (N6852026D1038); International Business Machines Corp., Bethesda, Maryland (N6852026D1039); Ascentium LLC,* Fairfax, Virginia (N6852026D1040); High Side Technology,* Johns Island, South Carolina (N6852026D1041); Lockheed Martin Corp., Orlando, Florida (N6852026D1042); TrustedQA Inc.,* Reston, Virginia (N6852026D1043); G2IT LLC,* Annapolis, Maryland (N6852026D1044); Desi-Spalding JV,* Lexington Park, Maryland (N6852026D1045); Spalding Consulting Inc., Lexington Park, Maryland (N6852026D10456); Accelint Global Inc., San Diego, California (N6852026D10457); Naval Systems Inc., Lexington Park, Maryland (N6852026D1048); Accelint Intelligent Systems LLC, Mullica Hill, New Jersey (N6852026D1049); Accenture Federal Services LLC, Arlington, Virginia (N6852026D1050); Cornerstone Bestica Federal Service LLC,* Honolulu, Hawaii (N6852026D1051); Technik Inc.,* Herndon, Virginia (N6852026D1052); Allies LLC,* Lexington Park, Maryland (N6852026D1053); CTM JV LLC, Hollywood, Maryland (N6852026D1054); Plateau Software Inc.,* Fairfax, Virginia (N6852026D1055); The Kenific Group LLC,* Leesburg, Virginia (N6852026D1056); DLH LLC, Bethesda, Maryland (N6852026D1057); Atechgov LLC,* Bethesda, Maryland (N6852026D1058); Basecamp Consulting and Solutions LLC,* Reston, Virginia (N6852026D1059); 22nd Century Technologies Inc., McLean, Virginia (N6852026D1060); Response AI Solutions,* Arlington, Virginia (N6852026D1061); and Intercon LLC,* Fredericksburg, Virginia (N6852026D1062), are awarded firm-fixed-price, cost-plus-fixed-fee, cost reimbursable, indefinite-delivery/indefinite-quantity contracts with an estimated aggregate ceiling of $249,900,000. These contracts provide for capability modernization, deployment, and support for Naval maintenance, repair, and overhaul; Naval supply chain management; Naval product lifecycle management; logistics integrated data environment; and integration and infrastructure capability solutions within the Integrated Platform and Development, Security, and Operations pipeline. The effort will modernize and sustain enterprise information technology systems that support Navy maintenance and logistics operations, improve data integration and accessibility across the naval enterprise, and accelerate the development and deployment of software capabilities to the fleet. Work will be performed at the contractor's location which will be determined as individual orders are issued and is expected to be completed in June 2031. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The contracts were competed in two lots (Lot A - open competition and

Lot B - small business set aside), 72 offers were received. Commander, Fleet Readiness Center, Patuxent River, Maryland, is the contracting activity.

Bechtel Plant Machinery Inc., Monroeville, Pennsylvania, was awarded a $128,400,000 cost-plus-fixed-fee modification to a previously awarded contract (N00024-24-C-2114) for Naval Nuclear Propulsion components. Work will be performed in Monroeville, Pennsylvania (36%); and Schenectady, New York (64%), and is expected to be completed by September 2035. Non-appropriated funds in the amount of $128,400,000 were obligated at time of award and funds will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Castelion Corp.,* Torrance, California, is awarded a $23,350,000 firm-fixed-price order (N6833526F1138) against a previously issued basic ordering agreement (N6833526G0006). This order is for the production and delivery of fifty early operational capability pre-production prototypes and fifty storage and shipping containers to the Navy in support of Small Business Innovation Research Phase III effort, topic AF231-D026, entitled “Low Cost Highly Manufacturable Long Range Strike Weapon Production”, in support of advancing the key enabling technology for a rapidly fieldable hypersonic weapon system. Work will be performed in Rio Rancho, New Mexico (75%); and Torrance, California (25%), and is expected to be completed in December 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $23,350,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract action was competed. Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

Walashek Industrial & Marine Inc.,* Norfolk, Virginia, is awarded a $9,723,782 firm-fixed-price level-of-effort modification to previously awarded contract (N00024-26-C-4434) to exercise an option for the accomplishment of maintenance, modernization and repair of the steam propulsion plant systems on USS Iwo Jima (LHD 7) during the scheduled fiscal 2026 selected restricted availability. Work will be performed in Norfolk, Virgina, and is expected to be completed by May 2028. Fiscal 2026 other procurement, (Navy) funds in the amount of $9,723,782 will be obligated at the time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

June 10, 2026

Florida State University - Center for Advanced Power Systems, Tallahassee, Florida, is awarded an $88,011,380 cost-plus-fixed-fee and cost only contract for research and

development activities associated with modeling-based systems engineering, simulation and testing of Navy advanced shipboard electrical power and energy systems and components. This contract includes options which, if exercised, would bring the cumulative value of this contract to $99,469,604. Work will be performed in Tallahassee, Florida (53%); Manassas, Virginia (10%); Columbia, South Carolina (10%); Menomonee Falls, Wisconsin (8%); Milwaukee, Wisconsin (8%); Laurel, Maryland (7%); West Lafayette, Indiana (3%); and Fairfax, Virginia (1%), and is expected to be completed by June 9, 2031. Fiscal 2026 research, development test and evaluation (Navy) funds in the amount of $1,350,000 will be obligated at time of award and will not expire at the end of the fiscal year. This contract was competitively procured via white paper selection under a broad agency announcement via the beta.SAM.gov website with multiple offers received. Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-26-C-4113).

Management Services Group Inc., doing business as Global Technical Systems,* Virginia Beach, Virginia, is awarded a $73,449,818 single award, hybrid, firm-fixed-price, cost-plus-fixed-fee, cost-reimbursable, indefinite delivery/indefinite-quantity contract for sustainment of the common processing system, including installation, procurement, engineering services and limited equipment production and delivery of ordnance alteration kits, spare parts and materials. The base contract includes a five-year ordering period. Work will be performed in Virginia Beach, Virginia (99%); and Mayport, Florida (1%), and is expected to be completed by June 2031. The initial task order will be awarded concurrently with the base contract and will consist of a 12-month base period with a value of $3,500,000 that will be completed in June 2027 and four 12-month option periods. The options, if exercised, would bring the cumulative value of the task order to $19,981,043 with a completion date in June 2031. Navy working capital funds in the amount of $30,000 will be obligated on the initial task order and will not expire at the end of the current fiscal year. This contract was competitively procured via the PIEE Solicitation Module and through the System for Award Management website as an unrestricted procurement with two offers received. Naval Surface Warfare Center, Port Hueneme Division, Port Hueneme, California, is the is the contracting activity (N6339426D4001).

Advanced Sciences and Technologies LLC, Berlin, New Jersey (N66001-21-D-0100); Bart & Associates Inc., Mclean, Virginia (N66001-21-D-0101); Dark Wolf Solutions LLC, Herndon, Virginia (N66001-21-D-0102), Data Intelligence LLC, Marlton, New Jersey (N66001-21-D-0103); Grove Resource Solutions Inc., Frederick, Maryland (N66001-21-D-0104); ODME Solutions LLC, San Diego, (N66001-21-D-0105); Solute Consulting, San Diego, California (N66001-21-D-0106); Sugpiat Defense, LLC (N66001-21-D-0107); Timitron Corporation,

Portsmouth, Virginia (N66001-21-D-0108); and Vector Planning & Services Inc., San Diego, California (N66001-21-D-0109), are awarded a combined $54,738,208 for a cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity, multiple award contract with a maximum value of $178,437,189 for systems lifecycle, engineering, cybersecurity and security engineering support services to Naval Information Warfare Center Pacific. This covers the entire lifecycle to include programmatic support, logistics support, supply support, maintenance planning, documentation and training development, cybersecurity, training implementation, customer support, information technology infrastructure, and business applications. These efforts address supportability, maintainability and sustainability issues during system development and throughout the systems life and retirement or recapitalization of the systems at end of life. Efforts also include systems engineering, hardware engineering, software engineering, network engineering, configuration management, and test and evaluation. All work is expected to be performed in Philadelphia, Pennsylvania. Work will be completed by June 2028. No funds will be obligated at the time of award. Funds will be obligated as task orders issued using research, development, test, and evaluation (Navy) funds; other procurement (Navy) funds; operations and maintenance (Navy) funds, working capital (Defense) funds, and Foreign Military Sales funds. This contract was competitively procured via Request for Proposal (N66001-20-R-0004) which was published on SAM.gov, and the Naval Information Warfare Systems Command E-Commerce Central website; 24 offers were received and 10 were selected for award. Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

Emprise Corp.*, Ledyard, Connecticut, was awarded $45,906,048 indefinite-delivery/indefinite-quantity, firm-fixed-price, level-of-effort bridge contract (N3220525D4036) to provide shipboard automated maintenance management. The contract contains a one-year base period. The contract will be performed on a worldwide basis beginning June 10, 2026, and will conclude on June 9, 2027. This contract was a sole source bridge, with proposals solicited directly from the incumbent contractor. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

RTX Corp., East Hartford, Connecticut, is awarded a $35,656,944 modification (P00004) to a fixed-price incentive (firm-target), cost-plus-incentive-fee, advanced acquisition contract (N0001926C0118). This modification increases the contract ceiling to authorize procurement of Lot 20 F135 Propulsion Systems and to procure advanced long lead time materials, parts, components, and efforts in support of the delivery schedule of 138 propulsion systems for the Air Force, Marine Corps, Navy, F-35 Cooperative Program

Partners, and Foreign Military Sales (FMS) customers. Work will be performed in East Hartford, Connecticut (17%); Indianapolis, Indiana (10%); Middletown, Connecticut (8%); Kent, Washington (7%); North Berwick, Maine (4%); EL Cajon, California (3%); Cromwell, Connecticut (3%); Whitehall, Michigan (3%); Portland, Orgeron (2%); San Diego, California (2%); South Bend, Indiana (2%); Columbus, Georgia (1%); Hampton, Virgina (1%); Manchester, Connecticut (1%); Cheshire, Connecticut (1%); Elmwood Park, New Jersey (1%); and various locations within the continental U.S. (34%), and is expected to be completed in May 2031. Fiscal 2026 aircraft procurement (Air Force) funds in the amount of $32,802,927; and fiscal 2026 aircraft procurement (Navy) funds in the amount of $2,854,017, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Metro Machine Corp General Dynamics NASSCO, Norfolk, Virginia is being awarded $17,572,357 modification to authorize new work on a previously awarded contract (N0002423D4100) for the USS Gerald R. Ford (CVN 78) Fiscal 2026 Emergent Maintenance Availability. Work will be performed in Norfolk, Virginia, and is expected to be completed by March 2027. Fiscal 2026 operations and maintenance and Navy funds in the amount of $17,572,357 will be obligated at the time of award and are not scheduled to expire until three months following the award. Mid-Atlantic Regional Maintenance Center, Norfolk, Virginia, is the contracting activity.

G2 ops Inc.,* Virgina Beach, Virgina, is awarded a $12,973,393 cost-plus-fixed-fee order (N6833526F1052) against a previously issued basic ordering agreement (N6833524G0043). This order provides for the continued maturation and enhancement of the Strategic Optics for intelligent analytics software platform, as well as integrated model-based systems engineering modeling and data transformation techniques, in support of Small Business Innovation Research (SBIR) Phase III Topic N181-051, “Unified Cybersecurity System Modeling of Naval Control Systems,” and SBIR Phase III Topic N202-135, “Model Based Systems Engineering for Tactical Data Link Systems”. This effort builds upon prior Phase I, II, and III SBIR work and supports the transition of demonstrated technologies for further experimentation, refinement, and integration. The resulting capabilities will advance cybersecurity risk analysis and assessment efforts envisioned for application to the AEGIS Combat System. Work will be performed in Virgina Beach, Virgina, and is expected to be completed in June 2028. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $1,726,875 will be obligated at the time of award, none of which will

expire at the end of the current fiscal year. This contract was competed. Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

June 9, 2026

Noblis MSD LLC, Philadelphia, Pennsylvania, is being awarded an indefinite-delivery/indefinite-quantity, cost-plus-fixed-fee/cost-only contract (N66001-26-D-0008), with an estimated value of $309,001,623, to provide management, basic research, end-to-end system design, prototype development, systems engineering, integration, environmental qualification testing, production, software loading, government acceptance testing and pre-installation test and checkout, deployment and life cycle support of command, control, communications, computer, intelligence, surveillance, and reconnaissance systems for the Network Integration Engineering Facility. Work will be performed in San Diego, California, and is expected to be completed in July 2031. No funds will be obligated at the time of award; however, a minimum-guarantee task order of $10,000 will be issued immediately after the award. Non-expiring, Naval Working Capital Funds of $10,000 will be obligated. Funds will not expire at the end of the current fiscal year. All other funding will be made available at the task order level as contracting actions occur. The contract was competitively procured via the SAM.gov with nine offers received. Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $153,900,000 modification (P00009) to a previously awarded fixed-price incentive (firm-target), advanced acquisition contract (N0001925C0070). This modification adds scope to procure long-lead materials, parts, and components necessary to support the production of 11 F-35 Lightning II aircraft for a Foreign Military Sales (FMS) customer. Work will be performed in Fort Worth, Texas (59%); El Segundo, California (14%); Warton, United Kingdom (9%); Cameri, Italy (4%); Orlando, Florida (4%); Nashua, New Hampshire (3%); Baltimore, Maryland (3%); San Diego, California (2%); and various locations outside the continental U.S. (2%), and is expected to be completed in December 2030. FMS funding in the amount of $153,900,000 will be obligated at the time of award. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

June 8, 2026

Woodward Inc., Fort Collins, Colorado, is awarded a $51,678,766 firm-fixed-price, indefinite-delivery/indefinite-quantity supply contract for the procurement of next generation ship service gas turbine generator full authority digital control cabinets. A

maximum quantity of 123 will be provided over the life of the contract. Work will be performed in Fort Collins, Colorado, and is expected to be completed by January 2031. Fiscal 2026 other procurement (Navy) funds in the amount of $1,536,056 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 3204(a)(1)-only one responsible source and no other supplies or services will satisfy agency requirements. Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity (N64498-26-D-1012).

Defense Martine Solutions Inc., Chesapeake, Virginia, is awarded a $12,477,576 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for various engineering services to include on-site repairs of Navy submarine propellers and propulsors. Work will be performed in Portsmouth, New Hampshire (15%); Norfolk, Virginia (15%); Cheatham, Virginia (15%); Bangor, Washington (15%); Barstow, California (15%); Santa Rita, Guam (15%); and San Diego, California (10%), and is expected to be completed by June 2031. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $500 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via System for Award Management website, with one offer received. The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity (N64498-26-D-1007).

Seemann Composites LLC, Gulfport, Mississippi, is awarded a $8,795,062 firm-fixed-price modification to previously awarded contract (N00024-24-C-2461) for production of composite components to Landing Craft Air Cushion 100-class craft. Work will be performed in Gulfport, Mississippi (76%); and Horsham, Pennsylvania (24%), and is expected to be completed by August 2029. Fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $8,795,062 will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

June 5, 2026

L3Harris Technologies, Millersville, Maryland, is awarded a $20,041,766 firm-fixed-price modification to a previously awarded contract (N00024-26-C-6205) to exercise options for production of systems and associated components in support of all new construction and in-service class submarines. Work will be performed in Bologna, Italy (78%); Northampton, Massachusetts (20%); and Millersville, Maryland (2%), and is expected to be completed by December 2029. Fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of

$20,041,766 will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

June 4, 2026

Everllence Middle East and Africa LLC, Dubai, United Arab Emirates (N3220526D1008); and Motor-Services Hugo Stamp Inc., Fort Lauderdale, Florida (N3220526D1010), is awarded a multiple-award, indefinite-delivery/indefinite-quantity contract, utilizing firm-fixed-price and time-and-materials orders, with a shared ceiling of $759,000,000, for supplies and services in support of Military Sealift Command's diesel engines aboard the command's fleet of ships. This award will provide parts and services for these diesel engines. Only original equipment manufacturer (OEM) parts and service technicians, and MSC-approved non-OEM service technicians are authorized to maintain the diesel engines aboard multiple classes of ships including MSC's submarine tenders, hospital ships, dry cargo ammunition ships, fleet replenishment oilers, expeditionary mobile bases, expeditionary transfer docks, large, medium speed roll-on/roll-off ships and the Kocak class of roll-on/roll-off container ships. Work will be performed worldwide, with an expected completion date of June 3, 2031. The maximum dollar value across awardees is $759,000,000. Working capital funds (Navy) in the amount of $3,500 (one order per awardee) are being obligated for the first orders of fiscal 2026 at time of award. Additional orders may be placed throughout the five-year ordering period. General Funds, operation and maintenance (Navy) and working capital funds (Navy) for the fiscal year in which orders are placed will be utilized at that time. This limited source contract was procured under solicitation number (N3220525R0010) via the government-wide Point of Entry website, and four timely offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

POWER-HDR JV, Hailey, Idaho, is awarded a $249,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract (N62742-26-D-1203) for architect-engineer services. This contract provides for various electrical related projects with associated multidiscipline Architect-Engineering support services under the cognizance of Naval Facilities Engineering Systems Command (NAVFAC) Pacific but may also include work worldwide. Work will be performed within the NAVFAC area of responsibility, including but not limited to Hawaii (24%), Guam (70%), Tinian (1%), Diego Garcia (1%), Australia (1%), Japan (1%), Korea (1%), and other Pacific Ocean areas (1%), and is expected to be completed by April 2031. The maximum dollar value, including one 12-month base period and four 12-month option periods, is $249,000,000. Fiscal 2023 military construction funds in the amount of $10,000 will be obligated at time of award to satisfy the minimum guarantee and funds will

not expire at the end of the current fiscal year. This contract was competitively procured via SAM.gov website, with two offers received. The Naval Facilities Engineering Systems Command, Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

Jacobs/HDR, JV, Arlington, Virginia, is awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity contract in support of the Navy's facility sustainment, restoration, and modernization program. Work will be performed at Navy installations worldwide and is expected to be completed by June 2031. The maximum dollar value, including the base period and four option years, is $90,000,000. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $10,000 will be obligated at time of award for the minimum guarantee and will expire at the end of the current fiscal year. This contract was competitively procured via the SAM.gov website with one offer received. Naval Facilities Engineering Systems Command Atlantic, Norfolk, Virginia, is the contracting activity (N62470-26-D-0008).

June 3, 2026

BlueForge Alliance, Bryan, Texas, was awarded a $400,000,000 firm-fixed-price modification to a previously awarded contract (N00024-24-C-2135) to support planning, resourcing, coordinating, and uplifting the Submarine Industrial Base. Work will be performed in Bryan, Texas, and is expected to be completed by September 2027. Non-appropriated funds in the amount of $200,000,000 (50%); fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $144,963,691 (36%); and fiscal 2025 shipbuilding and conversion (Navy) funding in the amount of $50,000,000 (13%), will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Air Center Helicopters Inc.* Burleson, Texas, was awarded an $82,842,593 firm-fixed-price contract (N3220526C1236) to provide Vertical Replenishment (VERTREP) services. The Detachment will be forward deployed worldwide for extensive periods at sea. It is anticipated that the detachment will be primarily assigned to Combat Logistics Force ships of the T-AKE class and used to meet Seventh and Fifth Fleet requirements. The contract contains a one-year base period, four one-year option periods, and an option to extend services for up to six months in accordance with Federal Acquisition Regulation 52.217-8. This contract will be funded incrementally in accordance with Defense Federal Acquisition Regulation Supplement 252.232-7007 using Navy appropriated funds that do not expire. Contract performance will commence on July 25, 2026, and will conclude on Jan. 24, 2032, if all options are exercised. The procurement was solicited via the Government Point of

Entry website, and one proposal was received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Detyens Shipyard Inc.,* North Charleston, South Carolina, is awarded a $13,425,560 firm-fixed-price contract (N3220526C0007) for the 90-calendar day shipyard availability for the post-shakedown availability of Military Sealift Command's expeditionary fast transport vessel USNS Point Loma (T-EPF 15). This contract includes a base work package and two unexercised options for additional work and time which, if exercised, would increase the cumulative value of this contract to $13,458,685. Work will be performed in North Charleston, South Carolina, beginning Aug. 3, 2026, and is expected to be completed by Oct. 31, 2026. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $13,425,560.00 are obligated and will expire at the end of the fiscal year. This contract was competitively procured with proposals solicited via the Government wide Point of Entry website and two offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

June 2, 2026

Fluor Marine Propulsion LLC, Arlington, Virginia, was awarded a $1,034,700,000 cost-plus-fixed-fee modification to previously awarded contract (N00024-18-C-2130) for naval nuclear propulsion work at the Naval Nuclear Laboratory. Work will be performed in Pittsburgh, Pennsylvania (47%), Schenectady, New York (45%), and Idaho Falls, Idaho (8%). Fiscal 2026 operation and maintenance (Navy) funding in the amount of $130,490,278 (56%), non appropriated funds in the amount of $54,500,000 (23%), fiscal 2026 shipbuilding and conversion (Navy) funding in the amount of $48,000,000 (21%), and fiscal 2026 research, development, test and evaluation in the amount of $50,000 (<1%) will be obligated at time of award, of which $130,490,278 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Raytheon Missiles and Defense, Marlborough, Massachusetts, was awarded a $515,822,691 cost-plus-fixed fee, firm-fixed-price, and cost-only modification to previously awarded contract N00024-25-C-5501 to exercise an option for continued integration and production support efforts for the Air and Missile Defense Radar AN/SPY-6(V). This contract combines the purchases for the U.S. Navy (74%) and the government of Germany with the potential for other countries to be added (26%) under the Foreign Military Sales program. Work will be performed in Marlborough, Massachusetts (54%); Pascagoula, Mississippi (14%); Moorestown, New Jersey (9%); Newport News, Virginia (6%); Kauai, Hawaii (5%); Wallops Island, Virginia (4%); Bath, Maine (2%); Chesapeake, Virginia (2%); Portsmouth,

Rhode Island (2%); Aurora, Colorado (1%), and San Diego, California (1%), and is expected to be completed by May 2027. Fiscal 2026 research, development, test, and evaluation (Navy) funds in the amount of $51,557,298 (45%), fiscal 2026 operations and maintenance (Navy) funds in the amount of $17,467,248 (15%), fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of $11,356,056 (10%), fiscal 2026 other procurement (Navy) funds in the amount of $8,419,857 (8%), fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of $5,769,523 (5%), fiscal 2023 shipbuilding and conversion (Navy) funds in the amount of $4,578,657 (4%), fiscal 2025 shipbuilding and conversion (Navy) funds in the amount of $4,222,988 (3%), fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $3,727,077 (2%), fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of $3,486,127 (2%), foreign military sales (Germany) funds in the amount of $3,430,300 (2%), fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of $956,135 (1%), fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of $279,477 (1%), fiscal 2024 shipbuilding and conversion (Navy) funds in the amount of $264,036 (1%), and fiscal 2024 other procurement (Navy) funds in the amount of $46,200 (1%), will be obligated at time of award, of which $17,467,248 will expire at the end of the fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Air Center Helicopters, Inc.* of Burleson, Texas was awarded a $82,842,593.00 firm-fixed-price contract (N3220526C1235) to provide Vertical Replenishment services. The Detachment will be forward deployed worldwide for extensive periods at sea. It is anticipated that the detachment will be primarily assigned to Combat Logistics Force ships of the T-AKE class and used to meet seventh and fifth fleet requirements. The contract contains a one-year base period, four one-year option periods, and an option to extend services for up to six months in accordance with FAR 52.217-8. This contract will be funded incrementally in accordance with DFARS 252.232-7007 using Navy appropriated funds that do not expire. Contract performance will commence on July 29, 2026, and will conclude on January 28, 2032, if all options are exercised. The procurement was solicited via the Government Point of Entry website and one proposal was received. The U.S. Navy’s Military Sealift Command, headquartered in Norfolk, Virginia, is the contracting activity.

Nakupuna Federal LLC, Arlington, VA (N0003926CG001) is awarded a $10,060,554.05 cost-plus-fixed-fee contract for Engineering and Professional Support Services to support Next-Generation Command, Control, Communications, Computers and Intelligence (C4I) Integration Requirements for PMW 760. These services cover the entire acquisition lifecycle, from pre-acquisition through sustainment, requiring both technical and

programmatic expertise to meet fleet demands for integrated products and services. The estimated value of the contract is $99,863,747.31. This contract has a one-year base period of performance with four one-year option periods and one six-month option period. The contract was awarded with an initial increment of Fiscal Year 2026 Operations and Maintenance and Fiscal Year 2026 Research, Development, Test and Evaluations funding. Work will be performed in San Diego, California; and other locations in the Continental United States (CONUS) and Outside the Continental United States (OCONUS). One company was solicited for this sole-source requirement pursuant to the authority set forth in 15 U.S. Code 637(a)(1), with one offer received. Naval Information Warfare Systems Command, San Diego, California is the contracting activity.

CORRECTION: BL Harbert International LLC, Birmingham, Alabama, was awarded a $156,104,687 firm-fixed price construction contract. Work to be performed includes construction of two recruit barracks in support of combined male and female recruit training. Work will be performed at Marine Corps Recruit Depot Parris Island, South Carolina, and is expected to be completed by June 2030. Fiscal 2022/2023 military construction funds in the amount of $156,104,687 will be obligated at the time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the SAM.gov website with four offers received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-26-C-0013).

June 1, 2026

BL Harbert International LLC, Birmingham, Alabama, was awarded a $156,104,687 firm-fixed price construction contract. Work to be performed includes construction of two recruit barracks in support of combined male and female recruit training. Work will be performed at Marine Corps Recruit Depot Parris Island, South Carolina, and is expected to be completed by June 2030. Fiscal 2023 military construction funds in the amount of $156,104,687 will be obligated at the time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the SAM.gov website with four offers received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-26-C-0008).

Northrop Grumman Systems Corp., Chandler, Arizona, is awarded a cost-plus-fixed-fee, cost reimbursable $99,959,797 indefinite-delivery/indefinite-quantity contract for the production and delivery of flight trajectories and technical data packages associated with Ground Launch Drone Missile GQM-163A aerial target launches. The contract also provides

for the operation, maintenance, and loading of GQM-163A targets onto launchers prior to target launch in support of the Navy's Pacific Target Marine Operations Division. Work will be performed in Chandler, Arizona (30%); Point Mugu, California (27%); Las Cruces, New Mexico (15%); Wallops Island, Virginia (12%); Barking Sands, Hawaii (6%); Hebrides, Scotland United Kingdom (6%); undisclosed location, Israel (3%); and Indianapolis, Indiana (1%) and is expected to be completed in May 2031. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competed. Naval Air Warfare Center Weapons Division, Point Mugu, California, is the contracting activity (N6893626D5002).

Northrop Grumman Corp., Northrop Grumman Missions Systems, Linthicum, Maryland, is awarded a $61,333,595 firm-fixed-price contract for the production and delivery of 28 B-Kit Shop Replaceable Assemblies in support of EA-18G AN/ALQ-218 Weapons Replaceable Assembly (WRA)-7 processor unit; 30 B-Kit SRAs in support of EA-18G AN/ALQ-218 WRA-8 Digital Measurement Receiver (DMR); and 77 Low Band Dedicated Receiver SRAs in support of EA-18G AN/ALQ-218 WRA-8 DMR as well as associated technical data in support of upgrading the AN/ALQ-218 tactical jamming receivers for the Navy. Work will be performed in Linthicum, Maryland (80%) and Bethpage, New York (20%), and is expected to be completed in February 2030. Fiscal 2026 aircraft procurement (Navy) funds in the amount of $61,333,595 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001926C0111).

The Boeing Co., St. Louis, Missouri, is awarded a $21,619,263 modification (P00091) to a previously awarded a fixed-price-incentive-fee, cost-plus-incentive-fee, cost-plus-fixed-fee contract (N00019-18-C-1012). This modification adds scope to provide non-recurring engineering, hardware, and associated components in support of laboratory testing required to certify the mission management system computer multi-level security (MLS) Switch and MLS guard to the National Cross Domain Strategy and Management Office lab-based security assessment standards. The effort supports the MQ-25A Program requirements for National Security Agency assessment of the cross-domain solution to raise the bar version 5.1 Increment 2 and Increment 3 standards. Work will be performed in St. Louis, Missouri (53.5%); Melbourne, Florida (25%); El Segundo, California (18%); Alameda, California (1.5%); Pleasanton, California (1%); and Heath, Ohio (1%) and is expected to be completed by December 2028. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $15,633,634 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not

competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

The Whiskey Project Group (TWPG) USA,* LLC, Edenton, North Carolina, is awarded a $17,500,000 firm fixed price other transaction agreement for six Multi Mission Reconnaissance Craft, an expeditionary watercraft platform to conduct littoral and distributed operations. This agreement includes options which, if exercised, would bring the cumulative value $36,000,000. Work will be performed in Edenton, North Carolina, and is expected to be completed by September 2029. Fiscal 2025 research, development, technology, and evaluation (Defense-Wide) funds in the amount of $17,500,000 (40%) will be obligated at time of award and will not expire at the end of the current fiscal year. This agreement was competitively procured through the Defense Innovation Unit's Commercial Solutions Opening process, and following successful completion of critical Prototype other transaction milestones. TWPG was selected for follow-on production OT as authorized under 10 U.S. Code §4022(f). Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-26-9-4136).

May 29, 2026

Oshkosh Defense LLC, Oshkosh, Wisconsin, is awarded a $70,623,709 hybrid firm-fixed-price, cost plus fixed fee delivery order for the procurement of Remotely Operated Ground Unit for Expeditionary Fires (ROGUE-Fires) carriers for use in the Navy/Marine Expeditionary Ship Interdiction System (NMESIS). Work will be performed in Oshkosh, Wisconsin (70%); Alexandria, Virginia (12.5%); Gaithersburg, Maryland (12.5%); and Pittsburgh, Pennsylvania (5%). Work is expected to be completed in September 2028. Fiscal 2025 procurement (Marine Corps) funds in the amount of $4,834,006 will be obligated at the time of the award and will not expire at the end of the current fiscal year. Fiscal 2026 procurement (Marine Corps) funds in the amount of $2,856,243 will be obligated at the time of the award and will not expire at the end of the current fiscal year. Fiscal 2026 procurement (Marine Corps) funds in the amount of $61,311,874 will be obligated at the time of the award and will not expire at the end of the current fiscal year. This action is a sole source delivery order in accordance with 10 U.S. Code § 3403(c). Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-26-F-1049).

L3Harris Fuzing and Ordnance Systems, Inc., Cincinnati, Ohio, is awarded a $48,513,271 firm-fixed-price contract for proximity fuzes to upgrade the Advanced Precision Kill Weapon System. This contract includes options which, if exercised, would bring the cumulative

value of this contract to $98,388,151. Work will be performed in Cincinnati, Ohio and is expected to be completed by July 2027. If all options are exercised, work will continue through September 2028. Fiscal 2026 procurement of ammunition (Air Force) funds in the amount of $27,876,980 (68%), fiscal 2026 procurement of ammunition (Navy and Marine Corps) funds in the amount of $6,569,468 (16%), fiscal 2025 procurement of ammunition (Navy and Marine Corps) funds in the amount of $3,344,296 (8%), fiscal 2026 working capital (Navy) funds in the amount of $1,991,841 (5%), and fiscal 2024 procurement of ammunition (Navy and Marine Corps) funds in the amount of $1,191,240 (3%) will be obligated at time of award, of which $1,191,240 will expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code §4022 and DFARS 206.001-70 (exception for protype projects for follow-on production contracts). Contract award is a follow-on production requirement for prototypes developed and successfully completed under Other Transaction Agreement (N001742390010) by L3 Harris Fuzing and Ordnance Systems, Inc. The Naval Surface Warfare Center Indian Head Division, Indian Head, Maryland, is the contracting activity (N00174-26-C-1001).

Leidos Inc., Reston, Virginia, is being awarded a $46,502,868 cost plus fixed fee, firm-fixed price and cost only modification to previously awarded contract (N00024-22-C-5231) to exercise the option for AN/SQQ-89 installation, spares procurement, integrated logistic support, fleet maintenance support, and lifecycle sustainment of the U.S. Navy's AN/SQQ-89 Surface Ship Undersea Warfare Combat Systems. This contract combines purchases for the U.S. Navy (85%) and the government of Japan (13%) and the government of Australia (2%) under the foreign military sales program. Work will be performed in Chesapeake, Virginia (49%); Seattle, Washington (17%); San Diego, California (12%); Mayport, Florida (12%); Bath, Maine (5%); Pascagoula, Mississippi (3%); Manassas, Virginia (1%); and Yokosuka, Japan (1%) and is expected to be completed by May 2027. Fiscal 2026 other procurement (Navy) funding in the amount of $8,525,351 (56%); fiscal 2025 other procurement (Navy) funding in the amount of $2,618,621 (17%); foreign military sales (FMS) Japan case funding in the amount of $1,951,915 (13%); fiscal 2024 shipbuilding and conversion (Navy) funding in the amount of $1,255,020 (8%); fiscal 2026 operations and maintenance (Navy) funding in the amount of $450,000 (3%); foreign military sales Australia case funding in the amount of $270,000 (2%); fiscal 2025 shipbuilding and conversion (Navy) funding in the amount of $129,000 (1%) will be obligated at the time of award, of which $450,000 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, District of Columbia, is the contracting activity.

US Navy Contract 2026

Lockheed Martin Space, Titusville, Florida, is being awarded a $41,196,364 Fixed Price Incentive Fee, Cost Plus Incentive Fee, and Cost-Plus Fixed Fee modification, P00012, to previously awarded and announced contract (N0003025C0100) for TRIDENT II (D5) missile production and deployed systems support. Work will be performed in Denver, Colorado (33%); Cape Canaveral, Florida (14%); Titusville, Florida (13%); City of Industry, California (7%); Joplin, Missouri (7%); Inglewood, California (6%); Lancaster, Pennsylvania (6%); Hollister, California (4%); Kings Bay, Georgia (4%); Poway, California (1%); Sunnyvale, California (1%) and locations less than 1.0 percent each, 4% total. Work is expected to be completed September 30, 2030. Fiscal 2026 weapons procurement (Navy) funds in the amount of $39,327,809, Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $1,661,567, Fiscal 2026 operation and maintenance, (Navy) funds in the amount of $206,988 will be obligated on this award. No funds will expire at the end of the current fiscal year. This contract is being awarded to the Contractor on a sole source basis under 10 U.S. Code 3204(a)(1) and was previously synopsized on the Systems for Award Management (SAM) website, with one proposal received. Strategic Systems Programs, Washington, District of Columbia, is the contracting activity.

Oshkosh Defense LLC, Oshkosh, Wisconsin, is awarded a $21,456,092 hybrid firm-fixed-price, cost plus fixed fee delivery order for the procurement of Remotely Operated Ground Unit for Expeditionary Fires carriers for use in the Navy/Marine Expeditionary Ship Interdiction System. Work will be performed in Oshkosh, Wisconsin (90%); and Alexandria, Virginia (10%). Work is expected to be completed in September 2028. Fiscal 2026 procurement (RDT&E) funds in the amount of $21,174,299 will be obligated at the time of the award and will not expire at the end of the current fiscal year. This action is a sole source delivery order in accordance with 10 U.S. Code § 3403(c). Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-26-F-1037).

Oceaneering International, Inc., Hanover, Maryland, is awarded a $13,982,887 cost-plus-fixed-fee modification to previously awarded contract (N00024-24-C-4301) to exercise options for continued support of the U.S. Navy’s transfer under pressure capability, engineering and modernization, including Surveillance Towed Array Sensor System (SURTASS-E) support. Work will be performed in Hanover, Maryland (70%), San Diego, California (15%), Norfolk, Virginia (15%), and is expected to be completed by June 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $1,558,000 (50%); and fiscal year 2024 other procurement (Navy) funds in the amount of $1,571,000 (50%) will be obligated at time of award, of which $3,129,000 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

US Navy Contract 2026

Pacific Rim Constructors Inc., Tamuning, Guam, was awarded a $12,748,020 modification to previously-awarded contract (N62742-24-C-1331) for construction of housing. This award brings the total cumulative face value of the contract to $191,399,635. This contract modification provides for six additional housing units. Work will be performed at Andersen Air Force Base, Guam and is expected to be completed by June 2027. Fiscal 2023, Fiscal 2024, and Fiscal 2026 Family Housing funding in the amount of $12,748,020 will be obligated and funds will not expire at the end of the current fiscal year. The Naval Support Activity, Guam is the contracting activity.

May 28, 2026

CH2M Hill Inc., Denver, Colorado, is awarded a $480,000,000 cost-plus-award-fee, indefinite-delivery/indefinite-quantity contract for comprehensive long-term environmental action services. Work will be performed at Navy and Marine Corps sites in North Carolina (25%), Puerto Rico (25%), Virginia (25%), Maryland (10%), Washington, D.C. (3%), West Virginia (3%), and other areas (9%), with an expected completion date of May 2031. Fiscal 2026 environmental restoration, Navy funds in the amount of $200,000 will be obligated at time of award and will expire at the end of the fiscal year. This contract was competitively procured via SAM.gov website, with two offers received. The Naval Facilities Engineering Systems Command, Atlantic, Norfolk, is the contracting activity (N62470-26-D-0002).

Booz Allen Hamilton, McLean, Virginia (N6600126D0072); Epsilon C5I Inc., San Diego, California (N6600126D0077); General Dynamics Information Technology Inc., Falls Church, Virginia (N6600126D0078); HII Mission Technologies Corp., McLean, Virginia (N6600126D0073); KBR Wyle Services LLC, Lexington Park, Maryland (N6600126D0070); Leidos Inc., Reston, Virginia (N6600126D0079); MAG DS Corp., Fairfax, Virginia (N6600126D0071); Parsons Government Services Inc., Centreville, Virginia (N6600126D0080); Peraton Inc., Herndon, Virginia (N6600126D0074); Prescient Edge Corp., McLean, Virginia (N6600126D0075); Science Applications International Corp., Reston, Virginia (N6600126D0081); Scientific Research Corp., Atlanta, Georgia (N6600126D0082); Sev1Tech LLC, Woodbridge, Virginia (N6600126D0076); T2S LLC, Belcamp, Maryland (N6600126D0085); Vickers & Nolan Enterprises LLC, Stafford, Virginia (N6600126D0083); and VT Milcom Inc., Virginia Beach, Virginia (N6600126D0084), are being awarded a $349,993,874 indefinite-delivery/indefinite-quantity, multiple award contract with cost-plus-fixed-fee and cost-no-fee pricing. Technical support includes systems engineering, program and configuration management, hardware and software development, installation, maintenance, sustainment, and training in support of intelligence, surveillance and reconnaissance (ISR) activities, ISR systems, information

operations, and cybersecurity operations. Work will be performed in San Diego, California (90%); and outside the continental U.S. (10%). The period of performance is May 28, 2026, through May 30, 2033. Awardees will have the opportunity to compete for task orders during the ordering period. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured via a Request for Proposal (N6600126R0019) published on the SAM.gov website and the Procurement Integrated Enterprise Environment (PIEE) Solicitation Module. Thirty-one offers were received and sixteen were selected for award. Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

Deloitte Consulting LLP, Arlington, Virginia, is awarded a $278,530,968 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the modernization of information technology and operational technology systems. Work will be performed across the Naval Facilities Engineering Systems Command (NAVFAC) area of responsibility worldwide with an expected completion date of May 2031. Fiscal 2026 operations and maintenance, Navy funds in the amount of $6,817,802 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was not competitively procured as it is being awarded under the Small Business Innovation Research program under the authority provided in Navy Marine Corps Acquisition Regulation Supplement 5219.201(c)(10)(A)(ii). The NAVFAC Expeditionary Warfare Center, Port Hueneme, California, is the contracting activity (N39430-26-D-5001).

Lockheed Martin Corp., Rotary and Mission System, Orlando, Florida, is awarded a $200,823,547 cost-plus-fixed-fee, firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the delivery of comprehensive support services to Surface Combat Systems Training Command in support of AEGIS training requirements under Foreign Military Sales (FMS) cases for Australia, Canada, Japan, Norway, South Korea, and Spain. Specifically, the contractor will provide program management support for all assigned FMS cases. This procurement includes program management support, contractor instructor and subject matter expert services, development and maintenance of a curriculum, development of technology and training tools for interactive courseware, and preparation of technical documentation. Work will be performed in various cities within Japan (41%); Chinhae, South Korea (18%); Dahlgren, Virginia (13%); Moorestown, New Jersey (8%); Halifax, Nova Scotia (8%); Sydney, Australia (4%); Watson, Australia (4%); and Rota, Spain (4%), and is expected to be completed in June 2031. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was non-

competitively competed. Naval Air Warfare Center Training Systems Command, Orlando, Florida, is the contracting activity (N6134026D0002).

Reliance Test and Technology LLC, Crestview, Florida, is awarded a $93,323,522 modification (P00080) to a previously awarded cost-plus-fixed-fee contract (N0042120C0033). This modification exercises an option to provide continued research, development, test, evaluation, engineering, fleet and management support services required to perform aircraft engineering and developmental flight tests, as well as fleet training events for the Navy and Marine Corps air vehicle systems and trainers in support of the Atlantic Ranges and Targets Department. Work will be performed in Patuxent River, Maryland (78%); Norfolk, Virginia (13%); Dam Neck, Virginia (5%); and various locations within the continental U.S. (4%), and is expected to be completed in June 2027. Fiscal 2026 research, development, test, and evaluation (Navy) funds in the amount of $14,760,200; fiscal 2026 working capital (Navy) funds in the amount of $10,932,062; fiscal 2026 research, development, test and evaluation (Defense Wide) funds in the amount of $705,000; and fiscal 2026 operations and maintenance (Navy) funds in the amount of $261,494, will be obligated at time of award, $261,494 of which will expire at the end of the current fiscal year. The option was not competed, but the initial contract was competed. Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

Sea Pea Engineering Inc., Los Angeles, California, is awarded a $49,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for facilities renovations, repairs, maintenance, replacements, alterations, and demolition. Work will be performed in the Resident Officer in Charge of Construction Bahrain area of responsibility, including Bahrain and the United Arab Emirates, with an expected completion date of May 2031. Fiscal 2026 operations and maintenance, Navy funds in the amount of $5,000 will be obligated at the time of award to satisfy the minimum guarantee and will expire at the end of the current fiscal year. This contract was competitively procured via the SAM.gov website, with thirteen offers received. The Naval Facilities Engineering Systems Command Europe Africa Central, Naples, Italy, is the contracting activity (N33191-26-D-0008).

Bird-Johnson Propeller Co. LLC, Walpole, Massachusetts, is being awarded $21,569,620 for a firm-fixed-price contract for the procurement of eight ship propeller hubs for the Lewis-class fleet replenishment oilers in support of Military Sealift Command. The contract does not contain an option provision and work will be completed by June 2028. Work will be performed in Walpole, Massachusetts (75%); and Pascagoula, Mississippi (25%). Fiscal 2026 working capital funds (Navy) in the contract's full amount of $21,569,620 will be

obligated at time of award and those funds will not expire at the end of the applicable fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1) with one offer received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity (N00104-26-C-TA08).

May 27, 2026

Dell Federal Systems, L.P., Round Rock, Texas, is being awarded a single-award, firm-fixed-price blanket purchase agreement (BPA) under the Department of War (DOW) Enterprise Software Initiative. The overall estimated value of this BPA is $9,690,000,000. The award is in accordance with Defense Federal Acquisition Regulation Supplement 208.74 and Department of Defense (DOD) Directive 8470.01E dated Sept. 6, 2018, DOD Executive Agent for Commercial Software Product Management of Core Enterprise Technology Agreements. This second-generation (that is, follow-on) DOW Enterprise Software Agreement (ESA II) BPA will streamline and consolidate software acquisition across the DOW, the Intelligence Community, and the Coast Guard. The agreement will enable customers to procure Microsoft software licenses, cloud subscriptions, and Software Assurance. The ESA II is scoped to accommodate the DOW's existing reliance on Microsoft products (Windows Enterprise Operating System, Office Professional Plus) and the growing need for cloud and hybrid capabilities through tiered Microsoft 365 licenses and specialized bundles, such as the "Disconnected No Cloud Access" license. The limited scope for Microsoft Azure is included to support the transition of specific workloads to the Joint Warfighting Cloud Capability contract. The Naval Information Warfare Center Pacific is the contracting activity for BPA No. (N66001-26-A-0051).

The Boeing Co., Seattle, Washington, is awarded an $854,672,911 modification (PZ0001) to a firm-fixed-price, cost-plus-fixed-fee contract. This modification adds scope for the production and delivery of four P-8A Lot 13 aircraft to Foreign Military Sale (FMS) customers, as well as provides additional non-recurring engineering for P-8A diminishing manufacturing sources and material shortages, software integration, and hardware updates for the Navy and FMS customers. Work will be performed in Seattle, Washington (98.22%); Huntington Beach, California (1.1%); and various locations within the continental U.S. (0.68%), and is expected to be completed by September 2030. Fiscal 2024 aircraft procurement (Navy) funds in the amount of $2,083,585 and foreign military sales customer funds in the amount of $852,589,326 will be obligated at the time of award, $2,083,585 of which will expire at the end of the current fiscal year. This contract was not

competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Fuse Integration Inc.,* San Diego, California, is awarded a $96,091,173 firm-fixed-price order (N0042126F0369) against a previously issued basic ordering agreement (N0042122G1002). This order is for the production, engineering, testing, and delivery of a variety of compliant systems to support aircraft and fleet introduction of the KRAKEN. The contractor shall provide CORE 5 network controller kits and KRAKEN systems using Tactical Edge Network for Targeting in a Contested Long-Range Environment architecture, in multiple configurations, based on requirements identified as deliverables, in support of Beyond Line of Site mesh networks. 40 CORE 5 network controller kits; 32 KRAKENs; and 12 KRAKEN Mobile Videos will be procured. Work will be performed in San Diego, California (80%); and Naval Air Station Patuxent River, Maryland (20%), and is expected to be completed in February 2028. Fiscal 2026 research development, test and evaluation (Navy) funds in the amount of $30,583,200 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contact action was not competed. Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

AMP United LLC,* Dover, New Hampshire; International Marine and Industrial Applicators LLC, Spanish Fort, Alabama; and Q.E.D. Systems Inc.,* Virginia Beach, Virginia, are awarded a combined $67,825,152 in firm-fixed-price, indefinite-delivery/indefinite-quantity modifications to previously awarded multiple award contracts (N42158-21-D-S001, N42158-21-D-S002, and N42158-21-D-S003). This modification exercises Federal Acquisition Regulation 52.217-8 (Option to Extend Services) to extend the period of performance for an additional six months for the preservation and maintenance of Navy submarines. Work will be performed in Portsmouth, Virginia (80%); and Kittery, Maine (20%), and is expected to be completed by December 2026. No funding will be obligated at the time of modification. Funding will be obligated at the task order level as individual task orders are issued. The Norfolk Naval Shipyard, Portsmouth, Virginia, is the contracting activity.

Amentum Technology Inc., Tullahoma, Tennessee, is awarded a $50,214,669 modification to previously awarded contract (N69450-20-D-0045) for base operations support services at Naval Submarine Base Kings Bay and outlying areas. This modification exercises Option Period Five under the basic contract. This award brings the total cumulative face value of the contract to $303,508,249. Work will be performed in Kings Bay, Georgia (99%); and outlying areas (1%), and is expected to be completed by May 2027. No funds will be

obligated at time of award. Fiscal 2026 operations and maintenance, (Navy); fiscal 2026 Defense health program; and fiscal 2026 family housing operations and maintenance contract funds, in the amount of $40,647,589 for recurring work will be obligated on individual task orders issued during the option period. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity.

AN41-AAK JV LLC, Visalia, California (N6247822D4012); DSQ-API JV LLP, Mililani, Hawaii (N6247822D4013); Hawk-Niking LLC, Wahiawa, Hawaii (N6247822D4014); Tokunaga-Elite JV LLC, Pearl City, Hawaii (N6247822D4015); and Warfeather-GM JV LLC, Coweta, Oklahoma (N6247822016), are awarded a $35,000,000 modification to previously-awarded firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple award, design-build/design-bid-build contracts for new construction, repair, alteration, and related demolition of existing infrastructure. The cumulative face value of the contract is $133,000,000. Work will be performed primarily within the Naval Facilities Engineering Systems Command (NAVFAC) Hawaii area of operations and is expected to be completed by May 2027. No funds will be obligated at time of award. Task orders will be primarily funded by operations and maintenance (Navy) and military construction defense agencies contract funds. Funds will be obligated on individual task orders as they are issued. NAVFAC Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

May 26, 2026

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $100,455,916 firm-fixed-price order (N0001926F0266) against a previously issued basic ordering agreement (N0001924G0010). This order procures 1,459 brake assembly heat sinks, including 1,075 for the F-35A Lightning II conventional takeoff and landing aircraft and 384 for the F-35B Lightning II short takeoff and vertical landing aircraft in support of depot-level brake repairs. This effort supports resolution of existing thermal management constraints, ensures the reliability of critical avionics, and supports forecasted fleet requirements for serviceable brakes to sustain warfighter operational requirements for the Air Force, Navy, Marine Corps, F-35 program partners, and Foreign Military Sales (FMS) customers. Work will be performed in South Bend, Indiana, and is expected to be completed by March 2030. Fiscal 2026 aircraft procurement (Air Force) funds in the amount of $43,795,721; fiscal 2026 aircraft procurement (Navy) funds in the amount of $28,597,475; FMS customer funds in the amount of $10,907,840; and F-35 program partner funds in the amount of $17,154,880, will be obligated at the time if award, none of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Chase Supply Inc., of Hampton, VA, is awarded a $30,470,162.50 indefinite-delivery/indefinite-quantity, firm-fixed-price contract (N3220526D1004) to provide portable lube oil filtering equipment to support machinery operation and maintain fleet readiness. The contract will contain a five year ordering period, and one six-month option period. The contract will be performed beginning May 26, 2026, and will conclude on Nov. 25, 2031, if options are exercised. This contract was full and open and solicited via the Government Point of Entry website; two timely proposals were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

May 22, 2026

Polaris Government & Defense, Medina, Minnesota, is awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity contract with a maximum contract ceiling, including all ordering years, of $98,245,654. This contract is for Ultra-Light Tactical Vehicle Production of Logistics and High-Power variants to provide to the operational forces capable of internal transport on MV-22 tilt rotor and HC-53 rotary wing aircraft for employment during littoral operations. This procurement will meet Force Design 2030 priority integration and fielding of systems in accordance with fielding schedules of III Marine Expeditionary Force (MEF), II MEF, supporting establishments, and integrated programs. Work will be performed in Medina, Minnesota, and shipped according to each individual delivery order based upon the fielding schedules and needs of the MEF's or supporting establishments and to the extent that funds are authorized and appropriated by Congress with an expected completion date of May 2031. No funds will be obligated at time of award of the indefinite-delivery/indefinite-quantity contract. Funds will be obligated on individual delivery orders as they are issued. This contract was a sole source acquisition pursuant to Federal Acquisition Regulation 6.302-1(a)(2)(iii). Program Acquisition Executive - Marine Corps, Quantico, Virginia, is the contracting activity (M67854-26-D-0053).

BAE Systems Norfolk Ship Repair Inc., Norfolk, Virginia, is awarded a $17,450,962 modification to exercise options on a previously awarded contract (N00024-26-C-4405) for the USS Iwo Jima FY 26 Selected Restricted Availability. Work will be performed in Norfolk, Virginia, and is expected to be completed by May 2028. Fiscal 2026 Other Procurement, Navy funds in the amount of $17,450,962 will be obligated at the time of award and are not scheduled to expire in the current fiscal year. Mid Atlantic Regional Maintenance Center, Norfolk, Virginia, is the contracting activity.

Lockheed Martin Missiles and Fire Control, Orlando, Florida, is awarded a $16,006,069 modification (P00002) to a firm-fixed-price contract (N0001925C0009). This modification is

for the procurement of 239 Acalis 3U VPX commercial off the shelf cards to address obsolescence and ensure continued support for the Infrared Search and Track Processor System. Work will be performed in Orlando, Florida, and is expected to be completed in December 2028. Fiscal 2025 aircraft procurement (Navy) funds in the amount of $6,295,274; fiscal 2024 aircraft procurement (Navy) funds in the amount of $9,375,940; and Foreign Military Sales funds in the amount of $334,855 will be obligated at the time of award, $9,375,940 of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

May 21, 2026

Management Services Group doing business as Global Technical Systems, Virginia Beach, Virginia (N0003926D9501); Leidos, Reston, Virginia (N0003926D9502); Serco, Herndon, Virginia (N0003926D9503); Systems Engineering Support Co., San Diego, California (N0003926D9504); and VT Milcom, a wholly-owned subsidiary of VT Group Holdings Inc., Virginia Beach, Virginia (N0003926D9505), are each being awarded an indefinite-delivery/indefinite-quantity, firm-fixed-price contract for Automated Digital Network System production units, components, COTS software, spares, lab material, future cyber threat upgrades and mission focused upgrades to support required target inventory objectives for shore and afloat platforms and airborne routing systems. The estimated, cumulative, value of the multiple award contracts is $452,930,000. This contract has an eight-year ordering period up to the contract award ceiling amount. There are no options. Work will be performed in San Diego, California; Herndon, Virginia; Manassas, Virginia; Reston, Virginia; and Virginia Beach, Virginia. Work is expected to be completed by May 2034. Naval Information Warfare Systems Command, San Diego, California, is the contracting activity.

Science Applications International Corp., Reston, Virginia, is awarded a $112,302,900 firm-fixed-price, cost-plus-fixed-fee, and cost-only modification to previously awarded contract (N00024-22-C-6419) to exercise options for the production, spares, production support material, engineering support, and hardware repair of components for MK 48 Heavyweight Torpedo All Up Round. This modification is in support of the MK 48 MOD 7 Heavyweight Torpedo program. This contract combines purchases to support the Navy (99%); and the Royal Australian Navy (1%), under the Foreign Military Sales program. Work will be performed in Bedford, Indiana (80%); and Middletown, Rhode Island (20%), and is expected to be completed by April 2029. Fiscal 2025 weapons procurement (Navy) funds in the amount of $94,774,762 (86%); fiscal 2026 weapons procurement (Navy) funds in the

amount of $12,786,942 (12%); fiscal 2024 weapons procurement (Navy) funds in the amount of $1,868,254 (1%); and foreign partner funds in the amount of $917,625 (1%), will be obligated at the time of award, of which, $1,868,254 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Rotary and Missions Systems, Owego, New York, is awarded a $54,103,975 firm-fixed-price, cost-plus-fixed-fee order (N0001926F1033) against a previously issued basic ordering agreement (N0001923G0002). This order provides non-recurring engineering support for the development, integration, testing, and deployment of the MH-60 product line System Configuration 28 fleet release. Efforts include systems and software development, hardware and software obsolescence integration, and other non-recurring activities required to sustain systems and software development labs, integration labs, and test labs, as well as support all Navy and Foreign Military Sales (FMS) MH-60 air platform variants. Work will be performed in Owego, New York, and is expected to be completed in October 2028. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $3,631,759; and FMS customer funds in the amount of $19,521,098, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Konecranes Nuclear Equipment and Services LLC, New Berlin, Wisconsin, is awarded a $51,162,117 modification to previously awarded contract (N62470-20-C-0002). This award brings the total cumulative face value of the contract to $348,501,960. The contract modification provides for construction of a 175-ton heavy-lift portal crane to be installed at Portsmouth Naval Shipyard, Kittery, Maine. Work will be performed in New Berlin, Wisconsin, and is expected to be completed by November 2029. Fiscal 2025 other procurement, (Navy) funds in the amount of $51,162,117 are obligated on this award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Atlantic, Norfolk, Virginia, is the contracting activity.

Huntington Ingalls Inc., Newport News, Virginia, is awarded a $24,000,000 cost-plus-fixed-fee modification to a previously awarded contract (N00024-20-C-2109) for engineering, technical, trade, and program management support of industrial type work for submarine availabilities, facilities, and conversion. Work will be performed in Newport News, Virginia (90%); Kings Bay, Georgia (3%); Bremerton, Washington (2%); Pearl Harbor, Hawaii (2%); Kittery, Maine (2%); and Groton, Connecticut (1%), and is expected to be completed by September 2026. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $9,000,000 (97%); and fiscal 2026 shipbuilding and conversion (Navy) funds in the amount

of $282,280 (3%), will be obligated at time of award and funds in the amount of $9,000,000 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington D.C., is the contracting activity.

Rockwell Collins Inc., Cedar Rapids, Iowa, is awarded a $16,650,285 modification (P00004) to a cost-plus-fixed-fee order (N0001925F0087) against a previously issued basic ordering agreement (N0001924G0017). This modification exercises an option to provide continued software sustainment support and cyber security lifecycle support for the E-6B aircraft for the Navy. Work will be performed in Richardson, Texas (95%); Tinker Air Force Base, Oklahoma (3%); and Patuxent River, Maryland (2%), and is expected to be completed in June 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $4,018,603 will be obligated at the time of award, all of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

General Atomics, San Diego, California, is awarded a $15,575,652 modification (P00116) to a firm-fixed-price contract (N0001914C0037). This modification adds scope to provide non-recurring engineering and implementation for the Electromagnetic Aircraft Launch System network upgrade to single mode fiber and Prime Power Interface Subsystem Transformer Rectifier deficiency corrections and installation on the USS Enterprise (CVN-80) future Gerald R. Ford-class aircraft carrier for the Navy. This modification also exercises options for hardware storage management. Work will be performed in San Diego, California (70.7%); Boston, Massachusetts (18.9%); Tupelo, Mississippi (9.1%); and Lakehurst, New Jersey (1.3%), and is expected to be completed in April 2028. Shipbuilding and conversion (Navy) funds in the amount of $15,575,652 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

May 20, 2026

ACTS-MELTECH JV3,* Virginia Beach, Virginia (N40080-26-D-2001); Capital Brand Group,* Beltsville, Maryland (N40080-26-D-2002); DWS HUANG-GAGHAN JV,* Alexandria, Virginia (N40080-26-D-2003); Encon Desbuild JV,* Hyattsville, Maryland (N40080-26-D-2004); and Plenary Enterprises,* Washington, D.C. (N40080-26-D-2005), are awarded a $249,000,000 indefinite-delivery/indefinite-quantity multiple award construction contract for mechanical services. Work to be performed includes construction, repair, alteration and related demolition of mechanical projects. Work will be performed primarily in Virginia (50%), Maryland (40%), and Washington, D.C. (10%) with an expected completion of May 2034.

US Navy Contract 2026

Fiscal 2026 operations and maintenance, (Navy) funds in the amount of $5,000 will be obligated to each awardee at time of award to satisfy the minimum guarantee and will expire at the end of the current fiscal year. Future task orders will be primarily funded by operations and maintenance, (Navy) and military construction funding. There is no seed task order. This contract was competitively procured via the SAM.gov website with 12 proposals received. The Naval Facilities Engineering Systems Command, Washington, D.C., is the contracting activity.

D Square Construction LLC, Tucson, Arizona (N6247822D4000); Dawson Technical Inc., Irvine, California (N6247822D4001); Environet Inc., Kamuela, Hawaii (N6247822D4002); Glen/Mar-Hensel Phelps JV, Clackamas, Oregon (N6247822D4003); Insight Pacific LLC, Brea, California (N6247822D4004); and Su-Mo Builders Inc., Honolulu, Hawaii (N6247822D4005), are awarded a $193,000,000 modification to previously-awarded contracts for new construction, repair, alteration, and related demolition of existing infrastructure. This award brings the cumulative face value of the contracts to $692,000,000. Work will be performed within the Naval Facilities Engineering Systems Command (NAVFAC) Hawaii area of operations and is expected to be completed by November 2026. No funds will be obligated at time of award. Task orders will be funded by operations and maintenance (Navy) and military construction defense agency contract funds. Funds will be obligated on individual task orders as they are issued. NAVFAC Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

Innovative Defense Technologies LLC,* Arlington, Virginia, is awarded a cost-plus-fixed-fee completion type contract for a Small Business Innovative Research (SBIR) Phase III effort entitled, “Paladin.” This contract provides for conducting advanced Automated Test and Re-Test (ATRT) SBIR enterprise capabilities and advanced ATRT technology development to assist in the execution of the Navy’s ATRT Commercialization Plan into Programs of Record. This includes applying ATRT technologies to conduct advanced test and evaluation of artificial intelligence (AI) applications from traditional and nontraditional companies prior to adoption into Navy programs. It further includes modifying and advancing ATRT technologies and products by incorporating AI. This may include partnering with AI companies to incorporate their algorithms, data models and applications into the ATRT environment. Work will be performed in Arlington, Virginia, and is expected to be completed in May 2028. If options are exercised, work could continue to May 2031. The total cumulative value of this contract, including a 24-month base period and three 12-month option periods, is $96,269,982. Fiscal 2025 and 2026 research, development, test and evaluation (Navy) funds in the amount of $4,717,964 and $14,000,000, respectively,

are obligated at the time of award. Funds in the amount of $4,717,964 will expire at the end of the current fiscal year. This contract was competitively procured under long range broad agency announcement (BAA) (N0001425SB001) entitled “Long Range Broad Agency Announcement (BAA) for Navy and Marine Corps Science and Technology.” Since proposals will be received throughout the year under the Long-Range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N0001426C1127).

Bollinger Shipyards Lockport LLC, Lockport, Louisiana, is awarded a $95,000,000 firm-fixed-price modification to previously awarded contract (N00024-18-C-2207) for additional pre- and post-delivery requirements for the Navajo-class Towing Salvage, and Rescue Ships, including industrial services and shipyard support, claims settlement, and extended warranties. Work will be performed in Houma, Louisiana (12%); and Pascagoula, Mississippi (88%), and is expected to be completed by January 2030. Fiscal 2025 shipbuilding and conversion (Navy) funds in the amount of $95,000,000 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract is awarded with funding from the One Big Beautiful Bill Act (Public Law 119-21) and directly supports the national effort to revitalize and rebuild American shipbuilding. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Core Services Group Inc.,* Virginia Beach, Virginia, was awarded $38,823,638 for a firm-fixed-price, indefinite-delivery/indefinite-quantity contract in support of Operational Test and Evaluation Force providing the Aviation Warfare Division 50 with analytical operational test and evaluation support services. The contract will include a five-year ordering period and a six-month option pursuant to Federal Acquisition Regulation (FAR) 52.217-8 which if exercised will bring the total estimated value of the contract to $42,986,844. Work under the contract will only be performed in response to awarded task orders. The specific places of performance for the test and evaluations are unknown at this time as they will be performed in various locations across the U.S. and overseas locations based on the needs of Aviation Warfare Division 50. The ordering period for the contract is anticipated to begin in May 2026 and continue through May 2031 and if the six-month option period is exercised the ordering period would continue through November 2031. Fiscal 2025 (Navy) research, development, test and evaluation funds in the contract’s minimum amount of $2,500 will be obligated at the time of award and will expire September 2026. Subsequent task orders under the resultant contract will be funded with appropriate fiscal year research, development, test and evaluation funds and the expiration of those funds will depend on the funds used when the orders are issued. This contract was competitively procured

through the System for Award Management website (Sam.gov) with the solicitation posted as a service-disabled veteran-owned small business set-aside that provided for the award of a contract pursuant to FAR Part 15 (Contracting by Negotiation) with two offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Regional Directorate, Norfolk, Virginia, is the contracting activity (N00189-26-D-W007). (Awarded on May 19, 2026)

AERMOR LLC,* Virginia Beach, Virginia, is being awarded $33,635,343 for a firm-fixed-price, indefinite-delivery/indefinite-quantity contract in support of Operational Test and Evaluation Force providing the Information Warfare Division 60 analytical operational test and evaluation support services. The contract will include a five-year ordering period and a six-month option pursuant to Federal Acquisition Regulation (FAR) 52.217-8 which if exercised will bring the total estimated value of the contract to $37,201,420. Work under the contract will only be performed in response to awarded task orders. The specific places of performance for the test and evaluations are unknown at this time as they will be performed in various locations across the U.S. and overseas locations based on the needs of Information Warfare Division 60. The ordering period for the contract is anticipated to begin in May 2026 and continue through May 2031 and if the six-month option period is exercised the ordering period would continue through November 2031. Fiscal 2026 (Navy) research, development, test and evaluation funds in the contract's minimum amount of $2,500 will be obligated at the time of award and will expire September 2026. Subsequent task orders under the resultant contract will be funded with appropriate fiscal year research, development, test and evaluation funds and the expiration of those funds will depend on the funds used when the orders are issued. This contract was competitively procured through the System for Award Management website (Sam.gov) with the solicitation posted as a service-disabled veteran-owned small business set-aside that provided for the award of a contract pursuant to FAR Part 15 (Contracting by Negotiation) with five offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Regional Directorate, Norfolk, Virginia, is the contracting activity (N00189-26-D-W004).

RTX Corp., Pratt and Whitney Military Engines, East Hartford, Connecticut, is awarded a $30,827,207 modification (P00016) to a cost-plus-incentive-fee, fixed-price-incentive fee contract (N0001923C0030). This modification exercises an option for the production of F135 initial global spares engines and initial spare modules to support Lot 18-19 F-35 aircraft production aircraft delivery schedule for the Joint Strike Fighter program for the Air Force, Marine Corps, Navy, F-35 Cooperative Program Partners, and Foreign Military Sales customers. Work will be performed in Cromwell, Connecticut (18.78%); San Diego,

California (14.82%); Portland, Oregon (13.09%); Dover, New Jersey (10%); East Hartford, Connecticut (8.45%); Coldwater, Michigan (7.60%); Whitehall, Michigan (6.52%); Red Oak, Texas (5.30%); Minerva, Ohio (3.24%); Wickliffe, Ohio (2.65%); Dayton, Ohio (2.36%); Blue Ash, Ohio (2.11%); and various locations within the continental U.S. (5.08%), and is expected to be completed in May 2031. Fiscal 2026 research, development, test and evaluation (Air Force) funds in the amount of $12,481,304; fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $12,481,304; and F-35 cooperative program partner funds in the amount of $5,864,599, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Huntington-Ingalls Industries - Ingalls Shipbuilding, Pascagoula, Mississippi, is awarded a $12,475,983 definitized fixed-price incentive modification to previously awarded Unpriced Change Order to contract (N00024-23C-2307) for Arleigh Burke-class guided-missile destroyers 141, 142, 143, 145, 146, 147, and 150, to incorporate Engineering Change Proposal 51-2059R1, Install Hull, Mechanical, and Electrical Condition System. Work for 51-2059R1 will be performed at Ingalls Shipbuilding in Pascagoula, Mississippi, and is expected to be completed by October 2035. Fiscal 2023 ($1,737,421, DDG 141), ($1,741,715, DDG 142), 2024 ($1,763,932, DDG 143), 2025 ($1,787,619, DDG 145), ($1,805,499, DDG 146), 2026 ($1,814,455, DDG 147), and 2027 ($1,825,342, DDG 150) shipbuilding and conversion (Navy) funds will be used for a total amount of $12,475,983, which will be obligated at time of award and will not expire at the end of each fiscal year. Supervisor of Shipbuilding Gulf Coast, Pascagoula, Mississippi, is the contracting activity.

May 19, 2026

Northrop Grumman Systems Corp., Baltimore, Maryland, was awarded a maximum ceiling $697,000,000, firm-fixed-price and cost-plus-fixed-fee, basic ordering agreement (BOA) for the procurement of follow-on sustainment engineering and logistics services (SELS) for Program Manager Expeditionary Radars. The work to be performed includes engineering changes, contractor logistics support, depot life cycle support, software support activity support, diminishing manufacturing sources and material shortages support, technical refresh, and studies and analyses. Additionally, the SELS BOA will provide for operational spares buys, as well as software development for current and future radar systems. Work locations will be determined by individual task orders and is expected to be completed by May 14, 2031. No funds will be obligated at the time of award. Funds will be obligated on individual task orders as they are issued. The contract was not competitively procured

pursuant to Federal Acquisition Regulation 6.302-1(a)(2)(ii)(A) and (B) and (iii)(A) and (B), and 10 U.S. Code 3204(a)(1). Portfolio Acquisition Executive Marine Corps, Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-26-G-0003).

The Boeing Co., St. Louis, Missouri is awarded a $251,063,227 firm-fixed-price, cost-plus-fixed-fee contract for the procurement, software development, integration, installation, and acceptance of P-8A Poseidon training systems for the government of Germany to include delivery of multiple training devices and support systems including operational and weapons tactics trainers, maintenance trainers, electronic classrooms, briefing/debriefing stations, and mission systems trainers. Additionally, this contract provides logistics, engineering, management, inspection, and technical support required to field the P-8A training capability, as well as incorporates cost-sharing for common software development requirements supporting the government of Canada's future P-8A training system procurement, reducing overall development costs through shared investment. Work will be performed in St. Louis, Missouri (90%); and Nordholz, Germany (10%), and is expected to be completed by August 2031. Foreign Military Sales customer funds in the amount of $228,783,604 will be obligated at the time if award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity (N6134026C1006).

May 18, 2026

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded an $879,098,832 firm-fixed-price order (N0001926F0233) against a previously issued basic ordering agreement (N0001924G0010). This order provides for the production and delivery of Lot 18-19 aircraft armament equipment which includes various missile launchers, bomb racks, gun systems, pylons, and adapters in support of ensuring the functionality and readiness of various armaments to support F-35 aircraft delivery schedules for the Air Force, Marine Corps, Navy, Foreign Military Sales (FMS) customers, and non-U.S. Department of War (DOW) participants. Work will be performed in Fort Worth, Texas, and is expected to be completed by February 2030. Fiscal 2026 aircraft procurement (Air Force) funds in the amount of $83,618,024; fiscal 2026 aircraft procurement (Navy) funds in the amount of $53,104,049; fiscal 2025 aircraft procurement (Navy) funds in the amount of $74,860,927; fiscal 2025 aircraft procurement (Air Force) funds in the amount of $37,345,787; fiscal 2024 aircraft procurement (Navy) funds in the amount of $79,203,534; fiscal 2024 aircraft procurement (Air Force) funds in the amount of $78,184,878; FMS customers funds in the amount of $333,601,044; and non-U.S. DOW participants funds in the amount of $139,180,588, will be obligated at the time if award, $157,388,412 of which

will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Mechworks Mechanical Contractors Inc.,* Beaufort, North Carolina (N40085-20-D-0076); North State Mechanical Inc.,* Jacksonville, North Carolina (N40085-20-D-0077); and R&W Construction Co. Inc.,* Jacksonville, North Carolina (N40085-20-D-0078), are awarded a $60,000,000 modification to a previously awarded multiple award construction contract. This award brings the total cumulative face value of the contracts to $300,000,000. The contract modification increases the capacity of the existing contract. Work will be performed in North Carolina (90%), Georgia (3%), South Carolina (3%), Virginia (3%), and other areas of the U.S. (1%) within the Marine Corps Installations East area of responsibility and is expected to be completed by August 2026. No funds will be obligated at time of award. Fiscal 2026 operations and maintenance (Marine Corps) funds will be obligated on individual task orders. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

Northrop Grumman Systems Corp., Charlottesville, Virginia, is awarded $22,985,844 for a fixed-price contract for the procurement of various quantities of five parts for the Integrated Bridge Navigation System in support of guided missile destroyer ship classes. The contract does not contain an option provision. All work will be performed in Charlottesville, Virginia, and is expected to be completed by November 2027. Fiscal 2026 working capital funds (Navy) in the contract's full amount of $22,985,844 will be obligated at the time of award and will not expire at the end of the current fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity (N00104-26-C-JA07).

Integrated Procurement Technologies, Vandalia, Ohio, is awarded a $19,304,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for wattmeter calibration systems. The contract will include a five-year ordering period. Work will be performed in Vandalia, Ohio, and is expected to be completed by May 2031. Fiscal 2026 aircraft procurement (Navy) funds in the amount of $3,424,500 will be obligated at time of award. This contract was competitively procured via SAM.gov, with one offer received. Naval Surface Warfare Center, Corona Division, Norco, California, is the contracting activity (N6426726D1003).

Ultra Electronics Ocean Systems Inc., Braintree, Massachusetts, is awarded a $14,308,006 cost-plus-fixed-fee and cost-type modification to previously awarded contract (N00024-25-C-4127) to exercise options for engineering support and other direct costs in

connection with the production of AN/SPS-73(V) Next Generation Surface Search Radar systems. Work will be performed in Chantilly, Virginia (70%) and Wake Forest, North Carolina (30%), and is expected to be completed by March 2027. Fiscal 2025 other procurement (Navy) funds in the amount of $7,000,357 will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

May 15, 2026

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $991,127,074 firm-fixed-price order (N0001926F0301) against a previously issued basic ordering agreement (N0001924G0010). This order provides for the production and delivery of 432 material modification kits (97 for the Air Force, 54 for the Marines, 42 for the Navy, 106 for Foreign Military Sales (FMS) customers, and 133 for non-U.S. Department of War (DOW) participants) in support of F-35 Joint Strike Fighter aircraft modifications and retrofit efforts associated with modernization of the electronic warfare system and related capability upgrades. Work will be performed in Fort Worth, Texas, and is expected to be completed by March 2032. Fiscal 2026 aircraft procurement (Air Force) funds in the amount of $82,150,190; fiscal 2026 aircraft procurement (Navy) funds in the amount of $115,048,244; fiscal 2025 aircraft procurement (Air Force) funds in the amount of $140,758,499; fiscal 2025 aircraft procurement (Navy) funds in the amount of $75,306,828; fiscal 2024 aircraft procurement (Navy) funds in the amount of $29,999,052; FMS customers funds in the amount of $288,825,371; and non-U.S. DOW participants funds in the amount of $259,038,890, will be obligated at the time of award, $29,999,052 of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Northrop Grumman Systems Corp., San Diego, California, is awarded a $196,066,981 modification (P00037) to a cost-plus-fixed-fee contract (N0001924C0005). This modification exercises options to provide continued logistics and test support, and continued field service representatives technical support, as well as supports reach-back engineering support to ensure that the MQ-4C Triton air vehicle are mission-capable for Intelligence, Surveillance and Reconnaissance missions in support of the Navy and the Royal Australian Air Force (RAAF). Work will be performed in San Diego, California (37.1%); Patuxent River, Maryland (14.8%); Jacksonville, Florida (10.7%); Okinawa, Japan (7.2%); Mayport, Florida (6.9%); Whidbey Island, Washington (4.4%); Baltimore, Maryland (3.5%); Chantilly, Virginia (3.1%); Yigo, Guam (1.3%); various locations within the continental U.S. (CONUS) (2.4%); and various locations outside of the CONUS (8.6%), and is expected to be

completed in May 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $51,093,769; fiscal 2026 aircraft procurement (Navy) funds in the amount of $21,087,224; fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $1,000,000; and RAAF Cooperative partner funds in the amount of $7,500,000, will be obligated at the time of award, $51,093,769 of which will expire at the end of the current fiscal year. This effort was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Young & Rubicam LLC, New York, New York, is awarded $84,020,164 for modification P00023, increasing the ceiling available to a previously awarded, indefinite-delivery/indefinite-quantity, firm-fixed-price contract (N00189-21-D-Z024). This modification will provide for marketing and advertising services in support of the Navy Recruiting Command advertising program. This modification will bring the estimated cumulative value of the total contract value from the previously modified $579,182,742 to $663,902,206. The original contract included a one-year base ordering period that began in May 2021 with four one-year ordering period options that was to end May 2026. The modification extends the contract's performance period for eight months and as a result the ordering period will be completed by January 2026. The extension is pursuant to the authority of Federal Acquisition Regulation (FAR) 6.10302, unusual and compelling urgency. Work will be performed in Memphis, Tennessee (59%); and New York, New York (41%). No new funding will be obligated at time of award. Operations and maintenance (Navy) funds will fund individual orders with appropriate fiscal year appropriations at the time of their issuance. This contract modification action is being executed on a non-competitive basis pursuant to FAR 52.212-4. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department Philadelphia Office, Philadelphia, Pennsylvania, is the contracting activity.

Central Maine Power, Augusta, Maine, is awarded a $44,000,000 firm-fixed-price contract for electrical services at Portsmouth Naval Shipyard, Kittery, Maine. These services include, but are not limited to, construction of substations, administration of transmission, distribution and supply services for electricity, metering, and energy services. Work will be performed at Portsmouth Naval Shipyard, Kittery, Maine, and is expected to be completed by May 2036. Operations and maintenance, (Navy) contract funds will be obligated annually. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N4008526C0009).

The Boeing Co., Huntington Beach, California, is awarded an $18,614,280 cost-plus-fixed-fee modification to a previously awarded contract (N00024-23-C-4103) to exercise Option

US Navy Contract 2026

Year Three for continued AN/USQ-82(V) program design agent and technical engineering support. This contract combines purchases for the Navy (93%) and the governments of Canada (3%); Australia (2%), Japan (1%); and Korea (1%), under the Foreign Military Sales (FMS) program. Work will be performed in Huntington Beach, California (68%); Bath, Maine (12%); Pascagoula, Mississippi (9%); Arlington, Virginia (6%); Annapolis Junction, Maryland (3%); and Tukwila, Washington (2%), and is expected to be completed by May 2027. Fiscal 2026 other procurement, (Navy) funds in the amount of $ $6,817,746 (37%); fiscal 2024 shipbuilding and conversion (Navy) funds in the amount of $1,978,247 (11%); fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of $1,371,756 (7%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of $1,192,130 (6%); fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of $1,186,611 (6%); fiscal 2023 shipbuilding and conversion (Navy) funds in the amount of $1,038,215 (5%); fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of $801,173 (4%); fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of $718,139 (4%); fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $681,851 (4%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of $672,694 (4%); FMS (Canada) funds in the amount of $527,383 (3%); FMS (Australian) funds in the amount of $456,972 (2%); fiscal 2026 operation and maintenance (Navy) funds in the amount of $356,165 (2%); FMS (Japan) funds in the amount of $256,959 (1%); fiscal 2016 shipbuilding and conversion (Navy) funds in the amount of $237,883 (1%); FMS (Korea) funds in the amount of $237,603 (1%); and FMS (Germany) funds in the amount of $82,754 (1%) will be obligated at time of award, and funds in the amount of $356,165 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

BAE Space and Mission Systems Inc., Boulder, Colorado, was awarded a $9,847,465 hybrid cost plus fixed fee, firm fixed price modification to previously awarded contract (N0016424DJQ04) for sustainment, test, teardown, and evaluation and refurbishment support of the Stalker Long Range Electro Optic Sensor System AN/SAY-3 system. Work will be performed in Boulder, Colorado, and is expected to be completed by June 2027. Fiscal 2025 other procurement (Navy) funds in the amount of $546,303 will be obligated on a delivery order after award and will not expire at the end of the current fiscal year. The Naval Surface Warfare Center, Crane Division, Crane, Indiana, is the contracting activity. (Awarded May 14, 2026).

May 14, 2026

US Navy Contract 2026

WSP Solutions Inc., Tacoma, Washington, was awarded a $249,000,000 indefinite-delivery/indefinite-quantity contract for architect-engineer services. This contract provides for marine waterfront architect and engineering services. Work will be performed at locations under the Naval Facilities Engineering Systems Command Northwest area of responsibility. The contract was competitively procured via the SAM.gov website, with two offers received. The Naval Facilities Engineering Systems Command, Northwest, Silverdale, Washington, is the contracting activity (N44255-26-D-0001). (Awarded May 13, 2026).

InfraTech International LLC,* Harmon, Guam, is awarded a $100,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity construction contract. Work to be performed includes general construction and repair services. Work will be performed at locations within the Naval Facilities Engineering Systems Command (NAVFAC) Marianas area of responsibility, including but not limited to Guam (80%); the Commonwealth of the Northern Marianas Islands (10%); and the Federated States of Micronesia and Palau (10%), and is expected to be completed by May 2033. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $5,000 will be obligated at time of award to satisfy the minimum guarantee and will expire at the end of the fiscal year. This contract was competitively procured via SAM.gov website, with three offers received. NAVFAC Marianas, Guam, is the contracting activity (N40192-26-D-9006).

InfraTech International LLC,* Harmon, Guam, is awarded a $100,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity construction contract. Work to be performed includes general construction and repair services. Work will be performed at locations within the Naval Facilities Engineering Systems Command (NAVFAC) Marianas area of responsibility, including but not limited to Guam (80%); the Commonwealth of the Northern Marianas Islands (10%); and the Federated States of Micronesia and Palau (10%), and is expected to be completed by May 2033. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $5,000 will be obligated at time of award to satisfy the minimum guarantee and will expire at the end of the fiscal year. This contract was competitively procured via SAM.gov website, with three offers received. NAVFAC Marianas, Guam, is the contracting activity (N40192-26-D-9026).

W.S. Darley & Co., Itasca, Illinois is awarded a firm-fixed-price indefinite-delivery/indefinite-quantity $43,377,568 contract (N66001-26-D-0035) for Fueltrax portable measuring units in support of the Marine Corps Fuel Automated Reporting System program, providing the Marine Corps with a system to monitor fuel in near real-time, enabling better-informed decisions in contested and austere environments. This contract

was not competitively procured because it is a sole source acquisition pursuant to the authority of 10 U.S. Code 2304(c)(1) - Only One Responsible Source (Federal Acquisition Regulation subpart 6.302-1). While Nautical Control Solutions (NCS) is the manufacturer of the Fueltrax product, NCS uses a sole distributor, W.S. Darley & Co., to sell its products to the government. Work will be performed in Spring, Texas and is expected to be completed by May 2031. No funding will be obligated under the basic contract. Funding will be provided for each individual delivery order. Funding anticipated to be obligated from multiple sources; funding will primarily consist of Marine Corps Systems Command research and development funds; and Marine Corps Systems Command procurement funds. Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

Marine Polymer Inc., Stevensville, Maryland, is awarded $11,475,000 for a firm-fixed-price contract for spare tiles supporting the auxiliary system belonging to special hull treatment for both Seawolf and Virginia class submarines. The contract does not contain an option provision. All work will be performed in Stevensville, Maryland, and is expected to be completed by December 2028. Fiscal 2026 working capital funds (Navy) in the contract's full amount of $11,475,000 will be obligated at the time of award and will not expire at the end of the current fiscal year. The requirement was procured in accordance with 10 U.S.C. 3204(a)(1) through the System for Award Management website (Sam.gov) as a limited-competitive procurement with two qualifying offers received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity (N00104-26-C-YA28).

May 13, 2026

Huntington Ingalls Industries Fleet Support Group, LLC (HII-FSG), Virginia Beach, Virginia, is awarded a $220,654,563 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity modification to a previously awarded contract (N00024-21-D-4114) to provide Navy aircraft carrier engineering maintenance assist team and surface engineering maintenance assist team in support of maintenance and planning for the overhaul and repair of equipment and systems associated with Navy aircraft carriers and west coast Navy surface ships. Work will be performed aboard Navy aircraft carriers within the continental U.S.; outside the continental U.S.; and forward deployed locations, and is expected to be completed by February 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

US Navy Contract 2026

Conrad Shipyard LLC,* Morgan City, Louisiana, is awarded a $122,375,200 firm-fixed-price modification to a previously awarded contract (N00024-22-C-2253) for the detail, design, and construction of four additional Yard Repair, Berthing, and Messing. Work will be performed in Amelia, Louisiana, and is expected to be completed by July 2029. Fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $122,375,200 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract action was not competitively procured in accordance with 10 U.S. Code 3204(a)(3) (industrial mobilization). Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics Information Technology Inc., Falls Church, Virginia, is awarded a $39,198,688 modification (N00039) to a previously awarded cost-plus-fixed-fee contract (N0003923C0002). This modification provides for the ongoing sustainment of the Navy Standard Integrated Personnel System, the Navy's primary personnel management platform supporting active and reserve sailors worldwide. This modification includes a one-year base period and four three-month option periods. The option periods, if exercised, would bring the cumulative value of this modification to $79,315,988. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $3,870,000 will be obligated at the time of award. Work will be performed in New Orleans, Louisiana (60%); and Arlington, Virginia (40%), with a contract completion date, if all options are exercised, of May 14, 2028. This sole source contract was not competitively procured in accordance with 10 U.S. Code 3204(a)(1) - Only One Responsible Source (Federal Acquisition Regulation subpart 6.103-1). The Naval Information Warfare Systems Command, San Diego, California, is the contracting activity.

ECS Construction Services Inc.,* Raymond, Maine, is awarded an $18,521,581 firm-fixed-price contract for structural repairs at Berth 13, Portsmouth Naval Shipyard. This project will restore deck loading capacity and extend the usable life of the structure. Work will be performed in Kittery, Maine, and is expected to be completed by April 2028. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $13,777,188 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the SAM.gov website, with two offers received. The Officer in Charge of Construction Portsmouth Naval Shipyard, Kittery, Maine, is the contracting activity (N62470-26-C-0004).

BAE Systems Information & Electronic Systems Integration Inc., Merrimack, New Hampshire, is awarded a cost-plus-fixed-fee contract for the UnderSea Advantage Block Upgrade (USABU) Future Naval Capability (FNC) program. This contract provides for the development and demonstration of a new, advanced sonar system. BAE Systems, in

partnership with Sparton, will achieve this by integrating BAE's new sonar technology into existing sonobuoy components from Sparton. This collaboration will produce a new sonobuoy that has greater capability than the current version, all while fitting into a standard 'A'-size deployment package. The project will conclude with a successful at-sea test, where the prototype will be deployed to collect acoustic data. This effort directly supports the objectives of the Navy's USABU FNC program. Work will be performed in Merrimack, New Hampshire (65%); and DeLeon Springs, Florida (35%). Work is expected to be completed in September 2029. The total cumulative value of this contract, including a 40-month base period, one 12-month option period, and one six-month option period, is $12,562,662. Options, if exercised, are expected to run concurrently with the base period and to finish before the 40-month base period ends. Fiscal 2025 and 2026 research, development, test and evaluation (Navy) funds in the amount of $1,808,283 and $445,000, respectively, are obligated at the time of award. Funds in the amount of $1,808,283 will expire at the end of the current fiscal year. This contract was competitively procured under long range broad agency announcement (BAA) N0001424SB001 entitled "Long Range Broad Agency Announcement (BAA) for Navy and Marine Corps Science and Technology." Since proposals were received throughout the year under the Long-Range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval **Research, Arlington, Virginia, is the contracting activity (N0001426C2205).**

May 12, 2026

Naval Information Warfare Center Pacific, San Diego, California, is awarding a $349,393,234 indefinite-delivery/indefinite-quantity, multiple award contract with cost-plus-fixed-fee and cost-no-fee pricing to the following nine companies: Abbott On Call Inc., Vienna, Virginia (N6600126D0055); Astrion Group, LLC, Huntsville, Alabama (N6600126D0056); HII Mission Technologies Corp., McLean, Virginia (N6600126D0057); Mantech Advanced Systems International, Inc., Herndon, Virginia (N6600126D0058); Naval Systems Inc. Lexington Park, Maryland (N6600126D0059); Peraton Inc., Herndon, Virginia (N6600126D0060); Prescient Edge Corp., McLean, Virginia (N6600126D0061); Science Applications International Corp., Reston, Virginia (N6600126D0062); and Serco Inc., Herndon, Virginia (N6600126D0063). Technical support includes specification and design, fabrication, development, integration, assembly, installation, test, evaluation, demonstration, fielding, operations, maintenance, training, logistics, documentation, administration, configuration management, and program management in support of unmanned maritime systems. Work will be performed in San Diego, California (90%); and outside the continental U.S. (10%) The period of performance is May 12, 2026, through May

13, 2034. Awardees will have the opportunity to compete for task orders during the ordering period. No funds will be obligated at the time of award; funds will be obligated on individual order as they are issued. This contract was competitively procured via a Request for Proposal (N6600126R0018) published on the SAM.gov website and the Procurement Integrated Enterprise Environment PIEE Solicitation Module. 21 offers were received and nine were selected for award. Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

COLSA Corp., Huntsville, Alabama, is awarded a $59,398,717 indefinite-delivery/indefinite-quantity, cost plus fixed fee contract (N66001-26-D-0006). With a five-year ordering period from May 2026 through May 2031 to provide engineering services supporting development, maintenance, interoperability and operations of the data link tactical tool, gateway systems, and mini-rack systems. Work will be performed at government facilities in San Diego, California (90%) and at contractor's facilities in Huntsville, Alabama (10%). Fiscal 2026 research, development, test and evaluation, Navy funds are obligated at the time of award. Funds in the amount of $10,000 are obligated at the time of award and will not expire at the end of the fiscal year. This contract was awarded as a sole-source acquisition pursuant to 10 U.S. Code 3204(a)(1). Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

AERMOR LLC,* Virginia Beach, Virginia, is being awarded $36,884,782 for a firm-fixed-price, indefinite-delivery/indefinite-quantity contract in support of the Operational Test and Evaluation Force providing the Surface Warfare Division 70 with analytical operational test and evaluation support services. The contract will include a five-year ordering period and a six-month option pursuant to Federal Acquisition Regulation (FAR) 52.217-8 which, if exercised, will bring the total estimated value of the contract to $40,808,795. Work under the contract will only be performed in response to awarded task orders. The specific places of performance for the test and evaluations are unknown at this time as they will be performed in various locations across the U.S.; and overseas locations, based on the needs of Surface Warfare Division 70. The ordering period for the contract is anticipated to begin in May 2026 and continue through May 2031 and if the six-month option period is exercised the ordering period would continue through November 2031. Fiscal 2025 (Navy) research, development, test and evaluation funds in the contract's minimum amount of $2,500 will be obligated at the time of award and will expire September 2026. Subsequent task orders under the resultant contract will be funded with appropriate fiscal research, development, test and evaluation funds and the expiration of those funds will depend on the funds used when the orders are issued. This contract was competitively procured

through the System for Award Management website (Sam.gov) with the solicitation posted as a service-disabled veteran-owned small business set-aside that provided for the award of a contract pursuant to FAR Part 15 (Contracting by Negotiation) with two offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Regional Directorate, Norfolk, Virginia, is the contracting activity (N00189-26-D-W003).

Moog Military Aircraft LLC, Elma, New York, is being awarded $25,928,981 for a firm-fixed-price, long-term contract for the repair of components on four bladefold actuators and one power module supporting V-22 Osprey aircraft sustainment. All work will be performed in Torrance, California, and work is expected to be completed by May 2029. No funding is being obligated at time of award. Delivery orders under the resultant contract will be funded with appropriate fiscal year working capital funds (Navy) and those funds will not expire. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-26-D-0007).

Evaltek, Inc.,* Virginia Beach, Virginia, is being awarded $18,315,034 for a firm-fixed-price, indefinite-delivery/indefinite-quantity contract in support of Operational Test and Evaluation Force providing the Expeditionary Warfare Division 80 with analytical operational test and evaluation support services. The contract will include a five-year ordering period and a six-month option pursuant to Federal Acquisition Regulation (FAR) 52.217-8 which, if exercised, will bring the total estimated value of the contract to $21,162,828. Work under the contract will only be performed in response to awarded task orders. The specific places of performance for the test and evaluations are unknown at this time as they will be performed in various locations across the U.S.; and overseas locations, based on the needs of Expeditionary Warfare Division 80. The ordering period for the contract is anticipated to begin in May 2026 and continue through May 2031 and if the six-month option period is exercised the ordering period would continue through November 2031. Fiscal 2025 (Navy) research, development, test and evaluation funds in the contract's minimum amount of $2,500 will be obligated at the time of award and will expire September 2026. Subsequent task orders under the resultant contract will be funded with appropriate fiscal research, development, test and evaluation funds and the expiration of those funds will depend on the funds used when the orders are issued. This contract was competitively procured through the System for Award Management website (Sam.gov) with the solicitation posted as a service-disabled veteran-owned small business set-aside that provided for the award of a contract pursuant to FAR Part 15 (Contracting by Negotiation)

with four offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Regional Directorate, Norfolk, Virginia, is the contracting activity (N00189-26-D-W006).

Forward Slope Inc., San Diego, California, is being awarded a $12,388,535 cost-plus-fixed-fee/cost-reimbursable contract (N0003926CE002) to deliver Command, Control, Communications, and Computers, enterprise services, and cybersecurity capabilities in support of U.S. government international agreements with the Taipei Economic and Cultural Representative Office. The effort will provide Taiwan installation, training, and engineering services in the continental U.S. (CONUS); and Taiwan, to include program management, engineering, technical, integration, installation, test, and training support. The contract is a one-year base with four one-year option periods. The option periods, if exercised, would bring the cumulative value of this contract to an estimated $68,065,325. Work will be performed both in the CONUS; and outside the continental U.S., Taiwan and is expected to be completed in April 2027. If options are exercised, work could continue until April 2031. This contract will utilize Foreign Military Sales funding. The contract was competitively procured via Procurement Integrated Enterprise Environment Solicitation Module and System for Award Management (SAM.gov) website with one offer received. The Naval Information Warfare Systems System Command, San Diego, California, is the contracting authority.

May 11, 2026

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a not-to-exceed $2,305,530,000 undefinitized contract action modification to a previously awarded contract (N00024-24-C-2110) for long lead time material and early manufacturing (pre-construction award) efforts associated with Virginia-class Block VI submarines. Work will be performed in Sunnyvale, California (30%); Chesapeake, Virginia (4%); Minneapolis, Minnesota (4%); York, Pennsylvania (3%); Tucson, Arizona (3%); Spring Grove, Illinois (3%); Jacksonville, Florida (3%); Stoughton, Massachusetts (2%); Newport News, Virginia (2%); Warren, Massachusetts (2%); Windsor Locks, Connecticut (2%); South El Monte, California (2%); Portsmouth, New Hampshire (2%); Milwaukee, Wisconsin (1%); Goose Creek, South Carolina (1%); El Cajon, California (1%); and all other locations less than 1% (35%), and is expected to be completed by September 2035. Fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $1,972,897,500 (93%); and fiscal 2025 shipbuilding and conversion (Navy) funds in the amount of $150,000,001 (7%) will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

US Navy Contract 2026

Parker Hannifin Corp., Irvine, California, is awarded $11,567,431 for a firm-fixed-price delivery order (N00383-26-F-BN0B) under a previously awarded basic ordering agreement (N00383-24-G-BN01) for the overhaul of the 583 Secondary Bleed Air Pressure Regulating Valves used on the F/A-18 aircraft. All work will be performed in Irvine, California, and is expected to be completed by December 2028. Fiscal 2026 working capital funds (Navy) in the contract's full amount of $11,567,431 will be obligated at time of award and those funds will not expire at the end of the applicable fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

May 8, 2026

CACI Inc. - Federal, Chantilly, Virginia (N3220526F0025), is awarded a $113,760,906 firm-fixed-price and cost-plus-fixed-fee contract to support Military Sealift Command's Integrated Business Systems. This contract includes a two-month phase in period, a ten-month base period, four one-year option periods, and one six-month option to extend. Work will be performed worldwide and will begin May 8, 2026, and conclude Oct. 31, 2031, if options are exercised. This contract was full and open competition solicited via the Government Point of Entry website and four proposals received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Applied Research Associates Inc., Albuquerque, New Mexico, is awarded a $111,500,000 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract for the Center for High Performance Computing, research and development efforts. The contract does not include options and has a cumulative value of $111,500,000. A $14,682,541 cost-plus-fixed-fee task order was issued concurrently. The task includes options and has a cumulative value of $44,566,270. Work for the initial task order will be performed at the U.S. Naval Research Laboratory, Washington, D.C., and is expected to be completed by May 2027. Fiscal 2026 research, development, evaluation and testing (Defense) funds in the amount of $492,326; fiscal 2026 research, development, evaluation and testing (Navy) funds in the amount of $955,901; fiscal 2026 other procurement (Navy) funds in the amount of $438,169; and working capital funds (Defense) in the amount of $613,600, will be obligated at the time of award and will not expire at the end of the fiscal year. This contract was competitively procured with three offers received via Contract Opportunities on SAM.gov. The U.S. Naval Research Laboratory, Washington, D.C., is the contracting activity (N0017326D2432, N0017326F2410).

US Navy Contract 2026

Lockheed Martin Rotary and Mission Systems, Moorestown, New Jersey, is awarded a $75,645,678 fixed-price-award-fee, cost-plus-award-fee, cost-plus-incentive-fee, and cost-plus-fixed-fee type modification to previously-awarded contract N00024-23-C-5117 for systems engineering and software integration for the integrated combat systems across the Navy and Coast Guard surface force portfolio. Work will be performed in Moorestown, New Jersey (41%); Columbia, Maryland (30%); Norfolk, Virginia (7%); Middletown, Rhode Island (6%); College Park, Maryland (5%); Mount Laurel, New Jersey (4%); Huntsville, Alabama (3%); Wallops Island, Virginia (1%); Arlington, Virginia (1%); San Diego, California (1%); and Herndon, Virginia (1%), and is expected to be completed by September 2026. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $73,878,213 (98%); fiscal 2026 operations and maintenance (Navy) funds in the amount of $1,709,605 (2%); and fiscal 2024 procurement (Navy) funds in the amount of $57,860 (<1%), will be obligated at time of award, of which $1,767,465 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C. is the contracting activity (N00024-23-C-5117).

Huntington Ingalls Inc., Newport News, Virginia, is awarded a $22,000,000 cost-reimbursable modification to previously awarded contract N00024-15-C-2114 to revise a special incentive for Pier 3 North facility structural, electrical and mechanical upgrades for Nimitz-class aircraft carrier defueling and inactivation and to support Gerald R. Ford-class aircraft carriers. Work will be performed in Newport News, Virginia, and is expected to be completed by September 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $22,000,000 will be obligated at time of award and will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

May 7, 2026

General Dynamics Mission Systems Inc., Manassas, Virginia, is awarded a $66,176,980 cost-plus-fixed-fee, and cost only, indefinite-delivery/indefinite-quantity type contract (N66604-26-D-B600) for continued Small Business Innovative Research (SBIR) Phase III development of the Data Acquisition and Retrieval System in support of the Virginia- and Columbia-class test program. This contract includes an ordering period of five years. Work will be performed in Groton, Connecticut (80%); Newport, Rhode Island (10%); Port Canaveral, Florida (5%); and Andros Island, Bahamas (5%), and is expected to be completed by May 2031. Fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $567,377 (51%); fiscal 2023 shipbuilding and conversion (Navy) funds in the amount of $369,216 (33%); and fiscal 2024 shipbuilding and conversion (Navy) funds in the

amount of $174,487 (16%), will be obligated on the first task order immediately following award of the basic contract, none of which expire at the end of the current fiscal year. This contract is a SBIR Phase III sole source contract and was not competitively procured on the SAM.gov website, in accordance with 10 U.S. Code 3204(a)(5), as implemented by Federal Acquisition Regulation 6.302-5, authorized or required by statute. Naval Undersea Warfare Center Division, Newport, Newport, Rhode Island, is the contracting activity.

Huntington Ingalls Industries Unmanned Systems, Pocasset, Massachusetts, is awarded a $36,985,007 firm-fixed-price modification to previously awarded contract (N00024-23-C-6308) to exercise an option for Lionfish Small Unmanned Undersea Vehicle production, support equipment, and ancillary equipment. Work will be performed in Pocasset, Massachusetts (99%); and Hampton, Virginia (1%), and is expected to be completed by May 2027. Fiscal 2025 other procurement (Navy) funds in the amount of $36,985,007 will be obligated at the time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

SEACORP LLC,* Middletown, Rhode Island, is awarded a $31,953,501 cost-plus-fixed-fee, and cost only, indefinite-delivery/indefinite-quantity type contract (N66604-26-D-C600)for the development of payload control system technology in support of Navy submarines. This contract includes an ordering period of five years. Work will be performed in Middletown, Rhode Island (40%); Newport, Rhode Island (31%); the United Kingdom (4%); Australia (4%); Washington, D.C. (3%); San Diego, California (3%); Pearl Harbor, Hawaii (3%); Groton, Connecticut (3%); Dahlgren, Virginia (1%); Kings Bay, Georgia (1%); Bangor, Washington (1%); Austin, Texas (1%); Denver, Colorado (1%); Laurel, Maryland (1%); Manassas, Virginia (1%); Norfolk, Virginia (1%); and Pittsfield, Massachusetts (1%), and is expected to be completed by May 2031. Fiscal 2026 other procurement (Navy) funds in the amount of $264,917 will be obligated on the first task order immediately following award of the basic contract, which will not expire at the end of the current fiscal year. This contract is a Small Business Innovative Research Phase III sole source contract and was not competitively procured on the SAM.gov website, in accordance with 10 U.S. Code 3204(a)(5), as implemented by Federal Acquisition Regulation 6.302-5, authorized or required by statute. Naval Undersea Warfare Center Division, Newport, Newport, Rhode Island, is the contracting activity.

Huntington Ingalls Inc., Newport News, Virginia, is awarded an undefinitized $29,375,000 cost plus fixed fee modification to previously awarded contract (N00024-16-C-2116) for select long lead time material procurement, assembly, and associated production efforts for main turbine generator spares in support of the Gerald R. Ford-class shore-based

spares program. Work will be performed in Sykesville, Maryland (67%); Sunnyvale, California (22%); and Cheswick, Pennsylvania (11%), and is expected to be completed by December 2030. Fiscal 2026 shipbuilding and conversion (Navy) funding in the amount of $22,031,248 will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

ICR Inc.,* Aurora, Colorado, is awarded a $16,340,190 cost-plus-fixed-fee order (N6833526F1046) against a previously issued basic ordering agreement (N6833525G0033). This order provides for continued enhancement of workflow application for recording production and targeting history, its deployment of additional combat commands, training of joint targeting circle users, and necessary upgrades to ensure the warfighter is fully equipped and ready for action when required in support of Small Business Innovation Research (SBIR) Phase III effort for Topic AF191-009 entitled, “Pitch Day in Command, Control, Communications, Intelligence, and Network (C3I&N)”, for advancing the key enabling technology for the workflow manager. Work will be performed in Chantilly, Virgina (92%); Tampa, Florida (2%); Bellevue, Nebraska (2%); Honolulu, Hawaii (2%); and Ramstein, Germany (2%), and is expected to be completed in May 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $1,920,457 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was competed. Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

May 6, 2026

San Diego Gas and Electric Co., San Diego, California, is awarded a $51,244,157 firm-fixed-price task order (N62473-21-G-4402/N6247326F0173) for utility energy conservation. This task order provides for energy conservation and resiliency projects comprised of various energy conservation measures affecting multiple facilities across Marine Corps Base Camp Pendleton. Work will be performed at Oceanside, California, and is expected to be completed by May 2031. No funds will be obligated at the time of award. This project will utilize third party financing through the utility company and will not expire at the end of the current fiscal year. This contract was not competitively procured and solicited as a sole source. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity.

Parker Hannifin Corp., Irvine, California, is awarded a $17,799,177 firm-fixed-price delivery order (N00383-26-F-BN0C) under a previously awarded basic ordering agreement (N00383-24-G-BN01) for the overhaul of 443 hydraulic horizontal stabilator servo cylinders

used on the F18 E/F aircraft. Work will be performed in Irvine, California (75%); and San Diego, California (25%). All work is expected to be completed by October 2028. Fiscal 2026 working capital funds (Navy) in the contract's full amount of $17,799,177 will be obligated at time of award and those funds will not expire at the end of the applicable fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204(a)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

Nikira Labs Inc.,* Mountain View, California, is awarded an $11,091,577 cost-plus-fixed-fee, firm-fixed-price, and cost only modification to a previously awarded contract (N00024-25-C-4303) to exercise options for continued development, production, and installation for the Spectroscopic Total Air Monitor. Work will be performed in Mountain View, California, and is expected to be completed by April 2030. Fiscal 2023 shipbuilding and conversion (Navy) funds in the amount of $1,713,000 will be obligated at the time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

May 5, 2026

Tyto Athene LLC, Reston, Virginia, is awarded $35,981,560 for a firm-fixed-price, indefinite-delivery/indefinite-quantity contract (N00189-26-D-L003) in support of Fleet Cyber Command/ U.S. Tenth Fleet (FCC/C10F) to establish the Shore Equipment Installation and Maintenance Management Program (SEIMMP). The SEIMMP program will provide technical direction and labor for engineering, installation and maintenance for electronic systems and equipment and their associated infrastructure in support of FCC/C10F's missions for security, cyber and information technology. The contract will include a five-year ordering period and a six-month option pursuant to Federal Acquisition Regulation 52.217-8 which if exercised will bring the total estimated value of the contract to $40,000,000. Work under the contract will only be performed in response to awarded task orders. Work under the contract will be performed at the following locations: Fort Meade, Maryland (30%); Chesapeake, Virginia (30%); and Oahu, Hawaii (30%). The remaining 10% of work under the contract will be performed at various stateside and overseas locations that cannot be determined at this time and will be based on task order requirements. The ordering period for the contract is anticipated to begin in June 2026 and continue through May 2031; and if the six-month option period is exercised the ordering period would continue through November 2031. Fiscal 2026 operations and maintenance funds (Navy) in the contract's minimum amount of $10,000 will be obligated at the time of award and will expire at the end of the current fiscal year. Subsequent task orders under the resultant contract will be

funded with appropriate fiscal year operation and maintenance funds and the expiration of those funds will depend on the funds used when the orders are issued. This contract was competitively procured through the System for Award Management website (Sam.gov) as an unrestricted procurement with five offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Norfolk, Virginia, is the contracting activity.

Dominion Energy Inc., Richmond, Virginia, is awarded a $19,855,574 modification to a previously awarded contract (N4008518F9951) for upgrades to the Navy-owned Gosport Tie Station, increasing both circuit capacity and spares to account for future Navy needs at Norfolk Naval Shipyard. This award brings the total cumulative funded amount of the contract to $21,320,302. Work will be performed at Norfolk Naval Shipyard, Norfolk, Virginia, and is expected to be completed by September 2032. Fiscal 2026 military construction (Department of War) funds in the amount of $19,855,574 are obligated on this award and will expire at the end of fiscal 2030. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $14,545,797 cost-plus-incentive-fee order (N0001926F0304) against a previously issued basic ordering agreement (N0001924G0010). This order provides for the procurement and installation of flight test instrumentation on CF-5 wings to mitigate the F-35 testing capability gap in support of carrier-variant ship suitability flight testing, bridging test capacity until the flight sciences aircraft are delivered. Work will be performed in Fort Worth, Texas (81%); Orlando, Florida (7%); Linthicum, Maryland (3%); Nashua, New Hampshire (3%); San Diego, California (2%); El Segundo, California (2%); Samlesbury, United Kingdom (1%); various locations within the continental U.S (CONUS) (1%); and various locations outside CONUS (1%), and is expected to be completed in May 2028. Fiscal 2025 research, development, test and evaluation (Navy) funds in the amount of $4,000,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

May 4, 2026

Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded an $18,638,744 modification (P00018) to a previously awarded cost-plus-fixed-fee contract (N0001924C0011). This modification increases the not-to-exceed value of the contract to procure additional special tooling and test equipment in support of F-35 canopy tooling for the Joint Strike Fighter program for the Air Force, Marine Corps, Navy, and non-U.S.

Department of War (DOW) participants. Work will be performed in Graden Grove, California, and is expected to be completed in January 2027. Fiscal 2024 aircraft procurement (Air Force) funds in the amount of $5,716,379; fiscal 2024 aircraft procurement (Navy) funds in the amount of $5,716,380; and non-U.S. DOW funds in the amount of $2,546,299, will be obligated at the of award, $11,432,759 of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Sikorsky Aircraft Corp., Stratford, Connecticut, is being awarded $18,616,507 for firm-fixed price delivery order (N00383-26-F-Y61F) under previously awarded basic ordering agreement (N00383-22-G-Y601) for the purchase of 91 rotary rudder blades in support of the H60 aircraft. All work will be performed in Stratford, Connecticut, and work is expected to be completed by May 2041. This contract involves Foreign Military Sales (FMS) to Taiwan (48%), Norway (18%), Australia (11%), Republic of Korea (8%), Greece (7%), Spain (4%), India (2%), and Israel (2%). FMS funds (Taiwan) in the amount of $9,001,388 (48%); FMS funds (Norway) in the amount of $3,273,232 (18%); FMS funds (Australia) in the amount of $2,045,770 (11%); FMS funds (Republic of Korea) in the amount of $1,432,039 (8%); FMS (Greece) funds in the amount of $1,227,462 (7%); FMS (Spain) funds in the amount of $818,308 (4%); FMS (India) funds in the amount of $409,154 (2%); and FMS (Israel) funds in the amount of $409,154 (2%), will be obligated at time of award and funds will not expire at the end of the current fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

Peraton Inc., Herndon, Virginia, is awarded a $17,383,492 cost reimbursement contract (N6600126C0039) for Expeditionary Unmanned Systems Operations and fleet support representative support at Naval Information Warfare Center Pacific and Fleet commands which have fielded MK 18 systems. Work will be performed in San Diego, California (65%); Little Creek, Virginia (15%); and various locations outside the continental U.S., including Spain, Bahrain and Okinawa (20%). This one-year contract includes four one-year options which, if exercised, would bring the overall potential value of this contract to an estimated $90,685,458. The period of performance of the base award is from May 4, 2026, to May 3, 2027. If all options are exercised, the period of performance would extend through May 2031. Funds from operations maintenance (Navy); and research, development, test, and evaluation, will be obligated at the time of award, of which $6,475.333 will expire at the end of the current fiscal year. This contract was awarded as a sole-source acquisition pursuant

to 10 U.S. Code 3204(a)(1). Naval Information Warfare Center Pacific in San Diego, California, is the contracting activity.

Packet Digital LLC,* Fargo, North Dakota, is awarded a $9,799,991 order (N6833526F1090) against a previously issued basic ordering agreement (N6833522G0020). This order provides for the installation and commissioning of manufacturing equipment, procurement of raw materials, battery pack testing, and execution of pilot and low-rate production runs of battery cells for the Navy's advanced family of batteries. This effort is a Small Business Innovation Research Phase III award under Topic N07-160, "Power Suite for Distributed Operations." The work also supports domestic production of lithium-based battery cells and battery packs for Department of War applications under the Accelerate the Procurement and Fielding of Innovative Technologies program. In addition, it advances the localization of battery manufacturing in the U.S., enabling a family of modular batteries designed and produced domestically and reducing reliance on foreign sources. Work will be performed in Fargo, North Dakota (98%); Minneapolis, Minnesota (1%); and Gainesville, Georgia (1%), and is expected to be completed in November 2027. Fiscal 2025 research, development, test and evaluation (Navy) funds in the amount of $2,472,323; and fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $7,327,668, will be obligated at the time of award, $2,472,323 of which will expire at the end of the current fiscal year. This contract was competed. Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

L3 Technologies Inc., Herdon, Virginia, is awarded a $9,076,589 cost-plus-fixed-fee and cost only modification to exercise the option for program management, systems engineering, software development, risk management, algorithm and software prototype development, configuration management, and information assurance in support of Undersea Warfare and Surface Warfare systems. Work will be performed in Herndon, Virginia (88%) Keyport, Washington (6%); and San Diego, California (6%), and is expected to be completed by May 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $743,000 (39%); fiscal 2026 other procurement (Navy) funds in the amount of $610,000 (32%); fiscal 2025 RECON operations and maintenance (Navy) funds in the amount of $432,000 (23%); and Foreign Military Sales (Australia) funds in the amount of $119,132 (6%), will be obligated at the time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

US Navy Contract 2026

ASIS Boats USA LLC, doing business as Ocean Craft Marine,* Annapolis, Maryland (N00024-26-D-2210); Brig USA LLC, doing business as Fluid Marine Response,* Franklinton, North Carolina (N00024-26-D-2211); Ghostworks Marine Inc.,* Holland, Michigan (N00024-26-D-2212); Ribcraft USA LLC,* Marblehead, Massachusetts (N00024-26-D-2213); St. Johns Ship Building Inc.,* Palatka, Florida (N00024-26-D-2214); Structural Composites Inc.,* Melbourne, Florida (N00024-26-D-2215); United States Marine Inc.,* Gulfport, Mississippi (N00024-26-D-2216); and The Whiskey Project Group USA LLC,* Edenton, North Carolina (N00024-26-D-2216), are awarded a $325,944,120 firm-fixed-price, indefinite-delivery/indefinite-quantity multiple award contract for the procurement of up to 474 composite rigid hull inflatable boats. These contracts, if exercised, would bring the maximum cumulative value to $650,102,911 over a 10-year period to the eight vendors. Each awardee will be awarded $1,000 (minimum contract guarantee per awardee) at contract award. Work will be performed in the various geographic locations as indicated above and the first orders are expected to be completed by July 2026. Fiscal 2024 other procurement (Navy) funds in the amount of $8,000 will be obligated at time of award and will expire at the end of the current fiscal year. All other funding will be made available at the delivery order level as contracting actions occur. This contract was competitively procured via the Procurement Integrated Enterprise Environment with 15 offers received. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

L3 Harris Technologies Inc., Interstate Electronics Corp., Anaheim, California, is being awarded a $77,246,424 cost-plus-fixed-fee and cost-plus-incentive-fee modification (P00046) for new procurement options under a previously awarded and announced contract (N0003022C2001) to provide services and support for Flight Test Instrumentation systems for the Trident II Strategic Weapon System. Work will be performed in Yorba Linda, California (55%); Cape Canaveral, Florida (30%); Washington, D.C. (7%); Barrow-in-Furness, United Kingdom (3%); Bremerton, Washington (2%); Kings Bay, Georgia (2%); and Groton, Connecticut (1%). Work is expected to be completed by February 2029. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $46,666,841; fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $5,751,300; fiscal 2026 other procurement (Navy) funds in the amount of $6,560,811; and fiscal 2026 weapons procurement (Navy) funds in the amount of $613,523, are being obligated at time of award. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $46,666,841 will expire at the end of the current fiscal year. The total value of the modification, including options, is $77,246,424. The total amount of U.S. appropriated funds obligated under this action is $59,592,475. This action also benefits a Foreign Military Sale. The contract action is being awarded on a sole source basis under 10 U.S.

Code 3204(a)(1) and was previously synopsized on the System for Award Management online portal. Strategic Systems Programs, Washington, D.C., is the contracting activity.

Cruz Associates, Inc.,* Yorktown, Virginia, is awarded a $22,961,438 cost-plus-fixed fee modification to previously awarded contract (N0017425C0001) to exercise an option for manufacturing and technical expertise services in all areas relative to energetics development. Work will be performed in Indian Head, Maryland (98%); and Yorktown, Virginia (2%), and is expected to be completed May 2027. Fiscal 2026 working capital fund funds in the amount of $21,870,307 (95%), fiscal 2026 operations and maintenance (Army) funds in the amount of $835,681 (4%), and fiscal 2026 operations and maintenance (Navy) funds in the amount of $255,450 (1%) will be obligated at time of award and $1,091,131 will expire at the end of the current fiscal year. Naval Surface Warfare Center Indian Head Division, Indian Head, Maryland, is the contracting activity.

Huntington Ingalls Industries, Ingalls Shipbuilding, Pascagoula, Mississippi, is awarded a cost-only modification to previously awarded contract (N00024-18-C-2307) for shipyard infrastructure investments and implementation of the distributed shipbuilding model. Work will be performed in Pascagoula, Mississippi, and is expected to be completed by July 2032. Fiscal 2026 shipbuilding and conversion (Navy) funds will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

April 30, 2026

Raytheon Co., Tucson, Arizona, was awarded a $335,110,022 firm-fixed-price modification to a previously awarded contract (N00024-25-C-5409) to exercise options and provide funding for the manufacturing, assembly, test, and delivery of Standard Missile-6 Tactical All-Up Rounds. Work will be performed in Tucson, Arizona (35%); East Camden, Arkansas (35%); Wolverhampton, United Kingdom (8%); Elma, New York (3%); Middletown, Ohio (3%); Anniston, Alabama (2%); and various other locations each less than 1% (13%), and is expected to be completed by May 30, 2030. Fiscal 2025 weapons procurement (Navy) funding in the amount of $295,978,952; and fiscal 2026 weapons procurement (Navy) funding in the amount of $39,131,070, was obligated at the time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded on April 24, 2026).

Ocean Shipholdings Inc.,* Houston, Texas, is being awarded a $96,712,459 firm-fixed-price, with pass through item on, contract (N3220526C1237) for the operation and maintenance of two expeditionary transfer dock vessels USNS Montford Point (T-ESD 1) and USNS John

Glenn (T-ESD 2). Both vessels will continue supporting Military Sealift Command's pre-positioning requirements on a worldwide basis. This contract includes one 12-month base period. The contract will be performed on a worldwide basis beginning May 2, 2026, and will conclude on May 1, 2027. Working capital funds (Navy) in the amount of $4,945,070 are obligated for fiscal 2026, and will not expire at the end of the fiscal year. This contract will be non-competitively awarded under the authority of 10 U.S. Code 3204(a)(1) Only One Responsible Source No Other Supplies or Services Will Satisfy Agency Requirements, as captured on the Government Point of Entry website. Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220526C1237).

Miller Electric Co. Inc., doing business as PEC Contracting and Engineering,* Reno, Nevada, is awarded a $49,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity construction contract. The work to be performed provides for new construction, renovation, and repair of all other specialty trade projects as defined under North American Industry Classification System 238990. Work will be performed in Nevada (80%), California (18%), Colorado (1%), and Utah (1%). All work is expected to be completed by April 2031. Fiscal 2026 operations and maintenance, Navy funds in the amount of $5,000 will be obligated at the time of award to satisfy the minimum guarantee and will expire at the end of the current fiscal year. This contract was competitively procured via the SAM.gov website as a historically underutilized business zone small business set-aside with four offers received. Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity (N62473-26-D-0049).

The Boeing Co., St. Louis, Missouri, is awarded a $40,397,647 firm-fixed-price, cost-plus-fixed-fee and cost modification to previously awarded contract (N00024-22-C-6407) to exercise options for the production of High Altitude Anti-Submarine Warfare (ASW) Weapon Capability air launch accessory equipment, related engineering and hardware support, and other direct costs. This contract combines purchases from the Navy (41%); the government of Germany (36%); and the government of Canada (23%), under the Foreign Military Sales (FMS) program. Work will be performed in St. Charles, Missouri (58%); Brisbane, Australia (16%); Salt Lake City, Utah (13%); Claremore, Oklahoma (4%); Joplin, Missouri (2%); Chandler, Arizona (2%); Minneapolis, Minnesota (1%); Piedmont, Missouri (1%); Lexington, Kentucky (1%); Wichita, Kansas (1%); and Kansas City, Missouri (1%), and is expected to be completed by December 2028. Fiscal 2025 weapons procurement (Navy) in the amount of $16,551,074 (41%); FMS (Germany) funds in the amount of $14,538,992 (36%); and FMS (Canada) funds in the amount of $9,307,581 (23%), will be obligated at the time of award

and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Coronet Machinery Corp.,* Bethel, Connecticut, is awarded a $35,259,100 firm-fixed-price modification to a previously awarded contract (N0017424D0003) to increase option values and concurrently exercise the next option period for the manufacturing of Mark152 bases and cases hardware. Work will be performed in Bethel, Connecticut, and is expected to be completed by May 2027. No funds will be obligated with this modification. Naval Surface Warfare Center, Indian Head Division, Indian Head, Maryland, is the contracting activity.

April 29, 2026

Raytheon Co., Tucson Arizona, was awarded a $832,997,256 firm-fixed-price modification to previously-awarded contract (N00024-24-C-5408) to exercise the options for Evolved SEASPARROW Missile Blk 2 Guided Missile Assemblies and to award container requirements for Australia, Belgium, Canada, Denmark, Germany, Greece, Netherlands, Norway, Portugal, Spain, Türkiye, and the U.S. Work will be performed in Tucson, Arizona (12%); Edinburgh, Australia (11%); Mississauga, Canada (10%); San Jose, California (9%); Raufoss, Norway (9%); Hengelo OV, Netherlands (5%); Ottobrunn, Germany (5%); Cambridge, Canada (4%); Nashua, New Hampshire (4%); Koropi Attica, Greece (3%); Lystrup, Denmark (2%); Ankara, Turkey (2%); Andover, Massachusetts (2%); Torrance, California (2%); Westlake Village, California (2%); Grenaa, Denmark (2%); Eight Mile Plains Brisbane, Australia (2%); Tomago, Australia (1%); Canton, New York (1%); Camden, Arkansas (1%); Aranjuez, Spain (1%), Milwaukie, Oregon (1%), and various other locations each less than 1% (9%), and is expected to be completed by September 2030. Fiscal 2026 weapons procurement (Navy) funds in the amount of $413,302,253 (50%); fiscal 2026 other customer funds in the amount of $409,228,809 (49%); fiscal 2025 other customer funds in the amount of $4,119,626 (<1%); fiscal 2022 other customer funds in the amount of $2,120,293 (<1%); fiscal 2024 other customer funds in the amount of $1,670,455 (<1%); fiscal 2025 weapons procurement (Navy) funds in the amount of $1,429,528 (<1%); and fiscal 2024 weapons procurement (Navy) in the amount of $803,734 (<1%), were obligated at the time of award and $803,734 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded April 24, 2026).

MANCON LLC, Virginia Beach, Virginia, is being awarded $87,272,727 for an indefinite-delivery/indefinite-quantity contract in support of the Norfolk Super Servmart store where the contractor is responsible for the provision of supplies, parts, equipment, and store operation services required by Naval Supply Systems Command Fleet Logistics Center

Norfolk for the Norfolk Super Servmart. The five-year contract is fixed-price with provisions for economic price adjustments that will include terms and conditions for the placement of firm-fixed-price delivery orders. The contract will include a five-year ordering period and a six-month option pursuant to Federal Acquisition Regulation 52.217-8 which if exercised will bring the total estimated value of the contract to $96,000,000. Work under the contract will only be performed in response to awarded delivery orders. All work under the contract will be completed in Norfolk, Virginia. The ordering period for the contract is anticipated to begin in May 2026 and continue through April 2031 and if the six-month option period is exercised the ordering period would continue through October 2031. Fiscal 2026 operations and maintenance (Navy) funds in the contract's minimum guarantee amount of $10,000 will be obligated at the time of award and will expire at the end of the current fiscal year. Subsequent delivery orders under the resultant contract will be funded with appropriate fiscal year operation and maintenance funds and the expiration of those funds will depend on the funds used when the orders are issued. This contract was competitively procured through the System for Award Management website (Sam.gov) with four offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Norfolk, Virginia, is the contracting activity. (N00189-26-D-L008).

Fuse Integration Inc.,* San Diego, California, is awarded a $48,201,649 modification (P00013) to a cost-plus-fixed-fee order (N0042125F0484) against a previously issued basic ordering agreement (N0042122G1002). This modification increases the order ceiling by realigning the option years to the base year, extending the base year period of performance to support experimentation and risk reduction of Tactical Edge Networking Targeting in a Contested Long-Range Environment network architectures in support of advancing Line of Site and Beyond Line of Site mesh networks. Additionally, the contractor will deliver and demonstrate systems for experimentation and developmental test events, as well as fleet exercises to support various platforms and configurations in assessing interoperability and resiliency with mesh networks for the Navy and Air Force. Work will be performed in Patuxent River, Maryland (22.6%); China Lake, California (17%); Point Mugu, California (10.1%); Washington, D.C. (8.5%); Naval Air Station Fallon, Nevada (8.5%); Camp Pendleton, California (8.5%); Melbourne, Florida (5.6%); Shreveport, Louisiana (5.6%); Joint Base Pearl Harbor, Hickman, Hawaii (3.4%); Tinker Air Force Base, Oklahoma (3.4%); Dyess Air Force Base, Texas (3.4%); Andersen Air Force Base, Guam (1.7%); and Anchorage, Alaska (1.7%), and is expected to be completed in April 2030. Fiscal 2026 research development, test and evaluation (Navy) funds in the amount of $1,349,020; fiscal 2026 research development, test and evaluation (Air Force) funds in the amount of $106,664; and fiscal 2025 research development, test and evaluation (Air Force) funds in the amount

of $2,464,301, will be obligated at the time of award, $2,464,301 of which will expire at the end of the current fiscal year. This contact action was not competed. Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Syracuse, New York, is awarded a $15,304,000 cost-plus-incentive fee contract modification to a previously awarded delivery order (N00024-25-F-6260) under an indefinite-delivery/indefinite quantity contract (N00024-25-D-6211) for engineering support related to submarine electronic warfare systems on new construction and in-service submarines. Work will be performed in Syracuse, New York, and is expected to be completed by February 2027. Fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $6,000,000 (95%); fiscal 2026 other procurement (Navy) funds in the amount of $204,000 (3%); and fiscal 2026 operations & maintenance (Navy) funds in the amount of $100,000 (2%) will be obligated at the time of award and funds in the amount of $100,000 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

April 28, 2026

Huntington Ingalls Industries, Ingalls Shipbuilding, Pascagoula, Mississippi, is being awarded a $282,885,933 cost-plus-award-fee contract for FF(X) class frigate lead yard support. Work will be performed in Pascagoula, Mississippi, and is expected to be completed by April 2028. Fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $59,092,397 (73%); and fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $21,500,339 (27%), will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 3204(a)(2) (unusual and compelling urgency). Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-26-C-2306).

Raytheon Corp., Fullerton, California, is awarded a $206,227,000 cost-plus-incentive-fee contract. This contract provides for the design, engineering, integration, testing, and verification/validation of M-Code Global Positioning System capabilities into the AN/USN-3(V)1 Joint Precision Approach and Landing System, as well as for the procurement of four engineering development models for the Navy. Work will be performed in Fullerton, California (60%); and Cedar Rapids, Iowa (40%), and is expected to be completed in April 2030. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $11,500,000 will be obligated at the time of award, none of which will expire at the end of

the current fiscal year. The contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001926C0133).

Prescient Edge Corp., McLean, Virginia, is awarded an $11,302,394 cost-reimbursement contract (N6600126C0027) for specialized technical support to the Navy's Project Overmatch program for the end-to-end testing, refinement, and rapid operationalization of its robotic autonomous systems. Work will be performed in San Diego, California; Port Hueneme, California (30%); the National Capital Region, including Lexington Park, Maryland; Laurel, Maryland; Tysons, Virginia; and Washington, D.C. (30%); various locations within the continental U.S., including Stennis, Mississippi; Norfolk, Virginia; Jacksonville, Florida; Key West, Florida; and Tampa, Florida (20%); and various locations outside the continental U.S., including Portugal, Germany, Bahrain, Ecuador, Panama, and Honduras (20%). This one-year contract includes four one-year options which, if exercised, would bring the overall potential value of this contract to an estimated $59,309,378. The period of performance of the base award is from April 28, 2026, through April 27, 2027. If all options are exercised, the period of performance would extend through April 2031. Funds from research, development, test, and evaluation will be obligated at the time of award, of which $1,560,063 will expire at the end of the current fiscal year. This contract was awarded as a sole-source acquisition pursuant to 10 U.S. Code 3204(a)(1). Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

April 27, 2026

Ocean Ships, Inc.,* Houston, Texas, is being awarded a $1,114,495,567 firm-fixed-price contract (N3220526C1224), inclusive of pass-through expenses for the operation and maintenance of seven government-owned Oceanographic Survey (T-AGS) vessels. The contract includes a 12-month base period, four 12-month option periods, and one six-month option period pursuant to Federal Acquisition Regulation 52.217-8. Work will be performed on a worldwide basis with the delivery of the vessels in 2026 and will conclude five-years and six months later in 2032, if all options are exercised. Working capital funds (Navy) in the amount of $22,383,823 are obligated for fiscal 2026 and will not expire at the end of the fiscal year. This contract was competitively solicited as a total small business set-aside via the Government Point of Entry website, and three proposals were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Patriot Contract Services LLC,* Concord, California, is being awarded a $746,045,386 firm-fixed-price award fee contract (N3220526C4070) inclusive of pass-through expenses for the operation and maintenance of U.S. States Naval Ship Transportation Auxiliary General

US Navy Contract 2026

Ocean Surveillance (T-AGOS) and Transportation Auxiliary General Missile Range Instrumentation (T-AGM) referred to collectively as the T-AGOS/T-AGM fleet. This contract contains a 12-month base period with four 12-month option periods and one six-month option period under Federal Acquisition Regulation 52.217-8. The contract will be performed on a worldwide basis beginning with the delivery of the vessels in 2026 and will conclude five years and six-months later in 2032, if all options are exercised. Working capital funds (Navy) in the amount of $18,165,081 are obligated for fiscal 2026 and will not expire at the end of the fiscal year. This contract was solicited as a total small business set aside, via the Government Point of Entry website and four proposals were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Lockheed Martin Rotary and Missions Systems, Owego, New York, is awarded a $99,481,601 cost plus fixed fee order (N0001926F0174) against a previously issued basic ordering agreement (N0001923G0002). This order is for design, development, integration, and test of the radar data processor technology refresh into the MH-60R AN/APS-153 radar system for both domestic and Foreign Military Sales (FMS) variants. Work will be performed in Farmingdale, New York (68%); Owego, New York (31%); and Stratford, Connecticut (1%), and is expected to be completed in April 2031. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $6,500,000; and FMS funds in the amount of $14,500,000, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

General Electric Aerospace, Lynn, Massachusetts, is awarded a $46,532,340 modification (P00005) to a firm-fixed-price contract (N0001924C0019). This modification adds scope for the procurement of nine T408-GE-400 turboshaft engines, for Lot 10 variation in quantity, in support of CH-53K full-rate production aircraft for the Marine Corps. Work will be performed in Lynn, Massachusetts (labor surplus area), and is expected to be completed by September 2032. Fiscal 2026 aircraft procurement (Navy) funds in the amount of $46,532,340 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

SeaShield Technologies LLC,* Suffolk, Virginia, is being awarded $27,041,424 for a firm-fixed-price, indefinite-delivery/indefinite-quantity contract in support of the Operational Test and Evaluation Force providing the Undersea Warfare Division 40 with analytical operational test and evaluation support services. The contract will include a five-year ordering period and a six-month option pursuant to Federal Acquisition Regulation (FAR)

52.217-8 which if exercised will bring the total estimated value of the contract to $29,921,764. Work under the contract will only be performed in response to awarded task orders. The specific places of performance for the test and evaluations are unknown at this time as they will be performed in various locations across the United States and overseas locations based on the needs of Undersea Warfare Division 40. The ordering period for the contract is anticipated to begin in May 2026 and continue through May 2031 and if the six-month option period is exercised the ordering period would continue through November 2031. Fiscal 2025 (Navy) research, development, test and evaluation funds in the contract's minimum amount of $2,500 will be obligated at the time of award and will expire September 2026. Subsequent task orders under the resultant contract will be funded with appropriate fiscal year research, development, test and evaluation funds and the expiration of those funds will depend on the funds used when the orders are issued. This contract was competitively procured through the System for Award Management website (Sam.gov) with the solicitation posted as a service-disabled veteran-owned small business set-aside that provided for the award of a contract pursuant to FAR Part 15 (Contracting by Negotiation) with four offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Regional Directorate, Norfolk, Virginia, is the contracting activity (N00189-26-D-W002).

Avian Inc.,* Lexington Park, Maryland, is awarded a $14,003,997 modification (P00086) to a previously awarded cost-plus-fixed-fee contract (N0042122C0020). This modification exercises an option to provide continued engineering, program management and administrative support in support of the design, execution, analysis, evaluation, and reporting of tests and experiments for various aircraft, unmanned air systems, weapons, and weapons systems in support of the Test and Evaluation Program Leadership Division within the Naval Test Wing Atlantic for the Navy and Foreign Military Sales customers (FMS). Work will be performed in Patuxent River, Maryland, and is expected to be completed in April 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $4,205,901; fiscal 2026 aircraft procurement (Navy) funds in the amount of $818,520; fiscal 2026 operations and maintenance (Navy) funds in the amount of $700,468; fiscal 2026 weapons procurement (Navy) funds in the amount of $330,153; working capital (Navy) funds in the amount of $191,500; fiscal 2026 other procurement (Navy) funds in the amount of $187,017; and FMS customer funds in the amount of $1,355,048, will be obligated at the time of award, $700,468 of which will expire at the end of the current fiscal year. This contract was competed. Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

April 24, 2026

US Navy Contract 2026

Castelion Corp.,* Torrance, California, is awarded a $104,998,566 modification (P00001) to a firm-fixed-price order (N6833526F1022) against a previously issued basic ordering agreement (N6833526G0006). This modification exercises an option in support of Small Business Innovation Research Phase III effort, topic AF231-D026, entitled “Low Cost Highly Manufacturable Long Range Strike Weapon Production”, to provide final early operational capability requirements, provide test and integration configurations of the Blackbeard Hypersonic Weapon, and complete live fire test events in the Indo-Pacific Command area of responsibility. Work will be performed in Torrance, California and is expected to be completed in January 2028. Fiscal 2025 research, development, test and evaluation (Navy) funds in the amount of $33,983,566; and fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $71,015,000, will be obligated at the time of award, $33,983,566 of which will expire at the end of the current fiscal year. This contract action was competed. Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $29,329,364 cost-plus-fixed-fee contract to provide project management, logistics, sustainment, and systems engineering support. These efforts will support requirements definition, decomposition, and related studies for an F-35 Foreign Military Sales (FMS) customer to assist with defining requirements and prepare for operating and maintaining the F-35 Lightning II aircraft. Work will be performed in Fort Worth, Texas, and is expected to be completed in October 2027. FMS customer funds in the amount of $29,329,364 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001926C0138).

RCT Systems Inc.,* located in Baltimore, Maryland, is awarded a $18,291,139 cost-plus-fixed-fee modification to a previously awarded contract (N00024-21-C-4109) for research and development activities associated with advancement and improvement in current and future shipboard electric power and energy systems. Work will be performed in Baltimore, Maryland (68%); Fayetteville, Arkansas (19%); Tuscaloosa, Alabama (10%); and Tallahassee, Florida (3%), and is expected to be completed by March 2028. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $7,712,000 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Vectrus Systems Corp., Colorado Springs, Colorado, is being awarded $17,289,633 for firm-fixed-price modification P00011 to exercise Option Year Two under a previously

awarded contract (N00604-24-C-0006) for the operation and maintenance of Navy communication, electronic and computer systems in support of the Naval Computer and Telecommunications Area Master Station Pacific. The exercise of this option will bring the estimated current value of the contract to $49,683,391. The original contract included a 12-month base period, four 12-month options and a six-month extension option in accordance with Federal Acquisition Regulation 52.217-8. The total value of the contract will be $92,761,973 if all options are exercised. Since the original contract award on April 29, 2024, the contract value has increased by $4,814,177. This increase is due to modifications arising from a newly negotiated collective bargaining agreement amounting to $4,564,212, as well as an increase in the ceiling for cost no-fee reimbursements totaling $249,964 to support ongoing and future maintenance requirements. Work will be performed on Oahu, Hawaii (94%); and in Geraldton, Australia (6%). Work is expected to be completed by April 2027; if all options are exercised, work will be completed by October 2029. Fiscal 2026 operations and maintenance (Navy) funds in the full amount of $17,289,633 will be obligated at the time of award and these funds will remain available through the duration of the option period, which extends until April 2027, the end of option year two. This requirement was originally solicited on a full and open, unrestricted basis with three offers received. Naval Supply Systems Command Fleet Logistics Center, Pearl Harbor, Hawaii, is the contracting activity.

Metron Inc., Reston, Virginia, is awarded a $9,568,357 cost-plus-fixed fee and cost only modification to exercise the option for development of Combat System signal processing, tracking algorithms, tools and display technologies for Undersea Warfare Systems including the Undersea Warfare Decision Support System and Advanced Processing and Capability Builds for Surface Ship and Submarine systems. Work will be performed in Reston, Virginia (95%); and Portland, Oregon (5%), and is expected to be completed by September 2027. Fiscal 2026 research, development, test and evaluation (Navy) funding in the amount of $1,423,260 will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

SteelRock Technologies Ltd., London, United Kingdom, is awarded a $9,515,508 firm-fixed-price and cost reimbursement contract (M67854-26-C-0048) for the procurement of NightFighter Mini Systems and spares in support of Program Manager Ground Based Air Defense, Organic-Counter small Unmanned Aerial Systems (O-CsUAS). The O-CsUAS is an Urgent Statement of Need designed for air self-defense against the sUAS threat. Work will be performed in London, United Kingdom (100%). The delivery of supplies will be on or

before Aug. 25, 2026. Fiscal 2024 procurement (Marine Corps) funds in the amount of $9,515,508 will be obligated at the time of award. This contract was awarded under the authority of 10 U.S. Code 2304(a)(2) Unusual and Compelling Urgency for other than full and open competition. Marine Corps System Command, Quantico, Virginia, is the contracting activity (M67854-26-C-0048).

April 23, 2026

RTX Corp., East Hartford, Connecticut, is awarded a $369,856,548 modification (P00003) to a fixed-price incentive (firm-target), cost-plus-incentive-fee, advanced acquisition contract (N0001926C0118). This modification adds scope to authorize procurement of Lot 21 F135 Propulsion Systems and to procure advanced long lead time materials, parts, components, and efforts in support of the F135 Propulsion System Lot 20 delivery schedule of 138 propulsion systems for the Air Force, Marine Corps, Navy, F-35 Cooperative Program Partners, and Foreign Military Sales (FMS) customers. Work will be performed in East Hartford, Connecticut (17%); Indianapolis, Indiana (10%); Middletown, Connecticut (8%); Kent, Washington (7%); North Berwick, Maine (4%); EL Cajon, California (3%); Cromwell, Connecticut (3%); Whitehall, Michigan (3%); Portland, Orgeron (2%); San Diego, California (2%); South Bend, Indiana (2%); Columbus, Georgia (1%); Hampton, Virginia (1%); Manchester, Connecticut (1%); Cheshire, Connecticut (1%); Elmwood Park, New Jersey (1%); and various locations within the continental U.S. (34%), and is expected to be completed in May 2031. Fiscal 2026 aircraft procurement (Air Force) funds in the amount of $51,085,000; fiscal 2026 aircraft procurement (Navy) funds in the amount of $56,588,000; fiscal 2025 aircraft procurement (Air Force) funds in the amount of $1,739,139; fiscal 2025 aircraft procurement (Navy) funds in the amount of $23,095,553; F-35 cooperative program partner funds in the amount of $80,191,258; and FMS funds in the amount of $157,157,598, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a $196,554,317 cost-plus-fixed-fee contract to support engineering, technical, design agent and design transfer activities for nuclear submarine capabilities and their sustainment, in support of foreign military sales requirements. This contract includes options which, if exercised, would bring the cumulative value of this contract to $930,409,844. Work will be performed in Groton, Connecticut (70%); North Kingstown, Rhode Island (7%); Pearl Harbor, Hawaii (5%); Washington, D.C. (1%); Portsmouth, New Hampshire (1%); Newport, Rhode Island (1%); Norfolk, Virginia (1%); and various foreign locations (13%), and is expected to be

completed by April 2027. If all options are exercised, work will continue through April 2031. No U.S. funding is included in this contract. Foreign Partner funds in the amount of $28,050,000 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 3204(a)(1) (only one responsible source and no other supplies or services will satisfy agency requirements). Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-26-C-2132).

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $177,493,428 modification (P00022) to a cost-plus-incentive-fee contract (N0001923C0003). This modification adds scope to provide all touch labor and reach-back engineering required to build and deliver three flight science aircraft, one for each variant (F-35A, F35B and F35-C) to replace the aging original flight science aircraft in support of preventing a capability gap for flight test and allow for future, holistic testing of Block Four capabilities and other future capabilities for the Joint Strike Fighter program. Work will be performed in Fort Worth, Texas (30%); El Segundo, California (25%); Warton, United Kingdom (20%); Orlando, Florida (10%); Nashua, New Hampshire (5%); Grenaa, Denmark (5%); and Baltimore, Maryland (5%), and is expected to be completed in April 2031. Fiscal 2025 research, development, test and evaluation (Air Force) funds in the amount of $18,836,324; fiscal 2025 research, development, test and evaluation (Navy) funds in the amount of $18,836,324; and F-35 cooperative program partner funds in the amount of $8,390,436 will be obligated at the time of award, $37,672,648 of which will expire at the end of the current fiscal year. The contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin, Rotary and Mission Systems, Moorestown, New Jersey, was awarded a $49,893,672 cost-plus-incentive-fee and cost only modification to previously awarded contract (N00024-20-C-560)1 to exercise options for sustainment of the Littoral Combat Ship Component Based Total Ship System-21st Century and associated combat system elements. Work will be performed in Moorestown, New Jersey (87%); Camden, New Jersey (5%); Virginia Beach, Virginia (5%); Orlando, Florida (1%); and various other locations (2%), and is expected to be completed by April 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $4,284,181 (85%); and fiscal 2026 operations and maintenance (Navy) funds in the amount of $772,583 (15%), and will be obligated at time of award, of which $772,583 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded April 22, 2026).

US Navy Contract 2026

Kratos Unmanned Aerial Systems Inc., Sacramento, California, is awarded a $10,816,371 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the procurement of BQM-177A Subsonic Aerial Target pre-expended bin replenishment components and post-flight consumable components in support of required flight testing for the Navy. Work will be performed in Point Mugu, California, and is expected to be completed in April 2030. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competed. Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity (N6893626D0004).

Lockheed Martin Corp., Chelmsford, Massachusetts, is being awarded $9,397,208 for a ceiling-priced undefinitized contract action delivery order (N00383-26-F-F110) under a previously awarded contract (N00383-26-G-0017) for the procurement of 103 pulse generators in support of the common aircraft system. All work will be performed in Chelmsford, Massachusetts, and work will be completed by April 2027. Fiscal 2026 working capital funds (Navy) in the amount of $7,047,906 will be obligated at time of award and those funds will not expire at the end of the applicable fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1) and one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

CORRECTION: The contract announced on April 21, 2026, for Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas (N0001925C0080), for a $70,107,750 modification (P00001), was announced with an incorrect contract number. The correct contract number is N0001926C0115. The contracting activity is Naval Air Systems Command, Patuxent River, Maryland.

April 22, 2026

Orbis Sibro, Inc.,* Charleston, South Carolina (N00024-26-D-4343), is awarded (along with several other vendors announced on Sept. 2, 2025 Sept. 30, 2025) a combined $1,123,590,000 firm-fixed-price, cost-plus-fixed-fee, and cost-only, indefinite-delivery/indefinite-quantity, multiple award contract for discrete production, non-discrete production, and other production work to support the public shipyards in accomplishing repair, maintenance, and modernization of nuclear-powered attack submarines undergoing scheduled Chief of Naval Operations maintenance availabilities. This contract includes options which, if exercised, across the various vendors, would bring the cumulative value to $1,906,010,000. Work will be performed in Norfolk, Virginia (35%); Bremerton, Washington (25%); Kittery, Maine (20%); and Pearl Harbor, Hawaii (20%), and is

expected to be completed by August 2030. If all options are exercised, work will continue through August 2033. No funds will be obligated at the time of the award; funds will be obligated at the delivery order level as contracting actions occur. This contract was competitively procured via the System for Award Management website, with 29 offers received. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics, Bath Iron Works, Bath, Maine, is being awarded a $230,495,111 cost-plus-award-fee modification, against previously awarded contract (N00024-24-C-4212) for integrated planning yard services and long lead-time material for Arleigh Burke-class guided missile destroyers. Work will be performed in Bath, Maine, and is expected to be completed by July 2027. If all options are exercised, the contract value is expected to total $895 million. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $10,191,244 (4%) will be obligated at time of award and will expire at the end of the fiscal year. The Supervisor of Shipbuilding, Conversion, and Repair, Bath, Maine, is the contracting activity.

BAE Systems Technology Solutions & Services Inc., Rockville, Maryland, is being awarded a $45,524,438 cost-plus-fixed-fee contract modification (P00051) to a previously awarded and announced contract (N00030-22-C-6001) to provide support services for the U.S. Trident II D5 Strategic Weapon Systems Program, Attack Weapon System Program, and the Nuclear Weapon Security Program. Tasks to be performed include systems engineering and integration, test engineering, data analysis, and safety engineering. This contract award also benefits a Foreign Military Sale to the United Kingdom. Work will be performed in Rockville, Maryland (49%); Washington, D.C. (18%); Cape Canaveral, Florida (5%); Frederick, Maryland (5%); Silverdale, Washington (4%); Saint Mary's, Georgia (3%); King's Bay, Georgia (2%); York, Pennsylvania (2%); Fort Walton Beach, Florida (2%); Rochester, United Kingdom (1%); Conway, South Carolina (1%); and various other locations (less than 1% each, 8% total). Work is expected to be completed Sept. 30, 2026. This action is awarded subject to the availability of funds, and no funding will be obligated upon time of award. This contract was awarded as a sole-source acquisition pursuant to 10 U.S. Code 2304(c)(1) and 10 U.S. Code 2304(c)(4) and was previously synopsized on the System for Award Management (SAM.gov) online portal. PAE Strategic Systems Programs, Washington, D.C., is the contracting activity.

Domino Data Lab, San Francisco, California, is awarded a $16,596,632 firm-fixed-price contract (N0003926CA001) for machine learning. The contract will acquire and field software solutions that will sustain and advance the performance of systems throughout the Department of War. The contract includes a 12-month base period and four 12-month

option periods. The option periods, if exercised, would bring the cumulative value of this contract to an estimated $99,745,337. Work will be performed in San Francisco, California, and is expected to be completed in April 2027. If options are exercised, work could continue until April 2031. Contract funds will not expire at the end of the current fiscal year. This requirement was solicited using full and open competition via Tradewind Solutions Marketplace. The Naval Information Warfare Systems Command, San Diego, California, is the contracting activity (N00039).

Sedna Digital Solutions LLC,* Manassas, Virginia, is being awarded a $9,100,000 cost-plus-fixed-fee and cost contract modification to previously awarded contract (N00024-23-C-6109) to exercise options for supporting materials for Sound Navigation and Ranging (SONAR) systems. Work will be performed in Manassas, Virginia, and is expected to be completed by December 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $2,778,939 (71%); fiscal 2026 other procurement (Navy) in the amount of $686,000 (18%); and fiscal 2025 other procurement (Navy) in the amount of $445,198 (11%), will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

April 21, 2026

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $70,107,750 modification (P00001) to a cost-plus-fixed-fee, firm-fixed-price contract (N0001925C0080). This modification adds scope to provide for ongoing integration efforts for the government of Romania as F-35 Foreign Military Sales (FMS) customer to include program management, logistics and sustainment, and systems engineering. Work will be performed in various undisclosed locations within and outside the continental U.S. and is expected to be completed in November 2028. FMS customer funds in the amount of $70,107,750 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is awarded a $36,973,224 cost-plus-incentive-fee modification to previously awarded delivery order N00024-26-F-6241 under an indefinite-delivery/indefinite-quantity contract (N00024-26-D-6203) to exercise an option for engineering and technical support in support of the Integrated Submarine Imaging System. Work will be performed in Manassas, Virginia, and is expected to be completed by March 2027. Fiscal 2026 research, development, test and

evaluation (Navy) funds in the amount of $3,500,000 will be obligated at the time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Corp., Manassas, Virginia, is being awarded $20,492,194 for a firm-fixed-price contract for the purchase of 180 spare high-frequency chin array acoustic modules used in Block IV Virginia-class submarines. The contract does not contain an option provision. Work under the contract will be performed in multiple locations: Hingham, Massachusetts (37%); Oldsmar, Florida (36%); Liverpool, New York (23%); and Manassas, Virginia (4%). Work is expected to be completed by June 2031. Fiscal 2026 working capital funds (Navy) in the contract's full amount of $20,492,194 will be obligated at time of award and those funds will not expire at the end of the applicable fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1) and one offer received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity (N00104-26-C-NA12).

April 20, 2026

Raytheon Missiles and Defense, Tewksbury, Massachusetts, is awarded a $213,387,048 cost-plus-incentive-fee, cost-plus-fixed-fee, and cost-only modification to a previously-awarded contract (N00024-22-C-5522) to exercise options in support of combat system installation, integration, development, testing, correction, maintenance, and modernization of Zumwalt-class mission systems and mission system equipment. Work will be performed in Portsmouth, Rhode Island (39%); Tewksbury, Massachusetts (32%); Pascagoula, Mississippi (14%); Nashua, New Hampshire (9%); San Diego, California (5%); and Fort Wayne, Indiana (1%), and is expected to be complete by April 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $29,756,012 (59%); fiscal 2025 shipbuilding and conversion (Navy) funds in the amount of $8,260,020 (17%); fiscal 2026 other procurement (Navy) funds in the amount of $4,748,140 (10%); fiscal 2025 other procurement (Navy) funds in the amount of $3,664,044 (7%); fiscal 2025 research, development, test and evaluation (Navy) funds in the amount of $2,499,641 (5%); and fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $1,179,374 (2%), will be obligated at time of award, of which $32,255,653 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

US Navy Contract 2026

Veltre Engineering, Inc.,* San Diego, California, is awarded a $30,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity, architect-engineering contract for fire protection engineering services. Work provides for design and engineering services for design-build projects. Work will be performed at various military installations in the Naval Facilities Engineering Systems Command (NAVFAC) Southwest area of operations, to include California (90%), Arizona (6%), Colorado (1%), Nevada (1%), New Mexico (1%), and Utah (1%), and is expected to be completed by April 2031. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $5,000 (minimum contract guarantee) will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the SAM.gov website with five offers received. NAVFAC Southwest, San Diego, California, is the contracting activity (N62473-26-D-0005).

The Marlin Alliance,* San Diego, California, is awarded a $21,999,852 firm-fixed-price, indefinite-quantity/indefinite-delivery contract (N66001-26-D-0007) for Robotic Process Automation (RPA) Bot development and delivery. This contract supports the enhancement of RPA and Artificial Intelligence technologies to improve the operational efficiency of Naval Information Warfare Center (NIWC) Pacific. The contractor shall provide expert-level support for the design, development, delivery, and initial configuration of automation solutions. Incidental services, such as training, briefings, and minor sustainment actions, may be required to enable successful delivery and use of automation bots but are not stand-alone service deliverables. Any requirements for significant support efforts or recurring services will be separately scoped at the delivery order level or handled via contract modification. The contract includes a single five-year ordering period. Work will be performed remotely or in San Diego. Contract funds will not be obligated at the time of award. NIWC Pacific, San Diego, California, is the contracting activity.

The Boeing Co., Seattle, Washington, is awarded a $11,952,154 modification (P00047) to a cost-plus-fixed fee order (N0001920F0647) against a previously issued basic ordering agreement (N0001916G0001). This modification exercises an option to procure one P-8A Increment 3 retrofit kit installation and associated ancillary support in support of the Anti-Submarine Warfare capabilities upgrades for the Navy. Work will be performed in Jacksonville, Florida (79.6%); St. Louis, Missouri (10.9%); and Mesa, Arizona (9.5%), and is expected to be completed in October 2026. Fiscal 2026 aircraft procurement funds in the amount of $11,952,154 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

April 17, 2026

US Navy Contract 2026

Lockheed Martin Corp., Rotary and Mission Systems, Littleton, Colorado, is being awarded a $30,000,000 modification to a previously awarded indefinite-delivery/indefinite-quantity, cost-plus-fixed-fee, and firm-fixed-price contract (N00039-19-D-0006). This modification is for continued support of the Navy and other agencies' Radiant Mercury (RADMERC) operations to securely transfer data across different security domains. The contract provides for the installation, program management, maintenance, modernization and sustainment of RADMERC systems. It will also provide system security authorization support, along with logistics and training services. No funds will be obligated at the time of award; they will be obligated on individual delivery orders. This modification increases the estimated value of the contract from $104,242,344 to $134,242,344. The current option period's performance is from Oct. 27, 2021, to Sept. 30, 2029, and will not be extended by this modification. The Naval Information Warfare Center Pacific, San Diego, is the contracting activity.

Raytheon Co., Tewksbury, Massachusetts, is awarded a cost-plus-fixed-fee contract for the Subarray Transmit Orthogonality for Receive Multiplexing (STORM) program. This contract provides for the expansion and exploitation of transmit multiplexing for SPY-6. STORM introduces two capabilities in the base program: Subarray-Level Independent Transmit and Directional Modulation. Work will be performed in Tewksbury, Massachusetts (40%); Marlborough, Massachusetts (40%); and Portsmouth, Rhode Island (20%). Work is expected to be completed in April 2029. The total cumulative value of this contract, including a 36-month base period and four option periods that may run concurrently throughout the period of performance, is $22,652,908. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $6,043,980 are obligated at the time of award and will not expire at the end of the current fiscal year. This contract was competitively procured under long range broad agency announcement (BAA) (N0001425SB001) entitled "Long Range Broad Agency Announcement (BAA) for Navy and Marine Corps Science and Technology." Since proposals were received throughout the year under the Long-Range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N0001426C1110).

April 16, 2026

Vigor Marine LLC, Portland, Oregon, was awarded a $252,849,606 firm-fixed-price contract action for maintenance, modernization, and repair of USS Sampson (DDG 102) Fiscal 2026 Depot Modernization Period. The scope of this acquisition includes all labor, supervision, equipment, production, testing, facilities, and quality assurance necessary to prepare for

and accomplish the Chief of Naval Operations Availability for critical modernization, maintenance, and repair programs. This contract includes options which, if exercised, would bring the cumulative value of this contract to $253,195,124. Work will be performed in Seattle, Washington, and is expected to be completed by March 2028. Fiscal 2026 other procurement, (Navy) funds in the amount of $237,096,356 (94%); fiscal 2025 operations and maintenance, (Navy) funds in the amount of $15,167,771 (5%); working capital funds in the amount of $455,304 (<1%); fiscal 2025 other procurement, (Navy) funds in the amount of $60,731 (<1%); fiscal 2024 other procurement, (Navy) funds in the amount of $69,445 (<1%), of which, $15,167,771 will expire at the end of the current fiscal year. This contract was not competitively procured, but in accordance with 10 U.S. Code 3204 (a) (3) (Industrial Mobilization). The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N0002426C4411).

Northrop Grumman Systems Corp., Melbourne, Florida, is awarded $9,704,396 cost-plus-fixed-fee order (N0001926F0262) against a previously issued basic ordering agreement (N0001925G0003). This order provides the required aircrew, flight test engineering, instrumentation, aircraft maintenance, and test management personnel to support integrated test and evaluation, to include test planning, execution, reporting, and deficiency disposition in accordance with approved test plans for the E-2D Advanced Hawkeye for the Navy. Work will be performed in Patuxent River, Maryland (83%); Melbourne, Florida (14.2%); and Liverpool, New York (2.8%), and is expected to be completed in March 2027. Fiscal 2026 research, development, test, and evaluation (Navy) funds in the amount of $9,704,396 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

April 15, 2026

Lockheed Martin Space, Titusville, Florida, is being awarded a $850,410,935 cost-plus-incentive-fee modification (P00024) to a previously awarded and announced contract (N0003024C0100) for TRIDENT II (D5) Life Extension 2 SSP Alteration Advanced Design and Development Program efforts. Work will be performed in Denver, Colorado (55.20%); Cape Canaveral, Florida (8.06%); Magna, Utah (4.04%); Titusville, Florida (3.35%); Elkton, Maryland (2.61%); Culpepper, Virginia (2.59%); Sunnyvale, California (2.44%); Orlando, Florida (1.70%); Clearwater, Florida (1.22%); and Folsom, California (1.17%); and locations less than 1.0% each (17.62%). Work is expected to be completed Sept. 30, 2030. Fiscal 2026 weapons procurement (Navy) funds in the amount of $850,410,935 will be obligated on this modification award and no funds will expire at the end of the current fiscal year. This

contract is being awarded to the contractor on a sole source basis under 10 U.S. Code 2304(a)(1) and was previously synopsized on the Systems for Award Management (SAM) website, with one proposal received. Strategic Systems Programs, Washington, D.C., is the contracting activity.

The University of Texas at Arlington, Arlington, Texas, was awarded a $75,480,869 cost-only contract for surface combatant ship design and engineering efforts for land-based testing of shipboard power systems. This contract includes options which, if exercised, would bring the cumulative value of the contract to $86,416,590. Work will be performed in Arlington, Texas, and is expected to be completed by April 2031. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $7,875,275 (88%); and fiscal 2025 research, development, test and evaluation (Navy) funds in the amount of $1,058,164 (12%), will be obligated at time of award, of which $1,058,164 will expire at the end of the current fiscal year. This contract was competitively procured via white paper selection under a broad agency announcement, with multiple offers received. Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded April 10, 2024).

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a $37,604,626 cost-plus-fixed-fee modification to a previously awarded contract (N00024-20-C-2120) for lead yard support and development studies and design efforts related to Virginia-class submarines. This contract modification includes options which, if exercised, would bring the cumulative value of the contract change to $71,029,423. Work will be performed in McLeansville, North Carolina, and is expected to be completed by April 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $23,000,000, will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Ayuda Companies, Denver, Colorado is awarded a $35,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for environmental compliance services. Work to be performed includes environmental services to ensure operations demonstrate and maintain compliance with all applicable federal, U.S. territory, and local environmental statutes and regulations. Work will be performed at Joint Region Marianas, Guam, and is expected to be completed by April 2031. Fiscal 2026 operations and maintenance, (Navy) funds in the amount of $2,554,071 will be obligated at time of award, and will expire at the end of the current fiscal year. This contract was competitively procured via SAM.gov website with six offers received. The Naval Facilities Engineering Systems Command Marianas, Santa Rita, Guam, is the contracting activity (N4019226D5000).

US Navy Contract 2026

Architects Pacific Inc., Honolulu, Hawaii, is awarded a $20,000,000 firm-fixed price, indefinite-delivery/indefinite-quantity contract for architect-engineer-services. Work will be performed within the Naval Facilities Engineering Systems Command (NAVFAC) Hawaii area of responsibility and is expected to be completed by April 2031. Fiscal 2026 operation and maintenance, (Navy) funds in the amount of $10,000 will be obligated at time of award for the minimum guarantee, and funds will expire at the end of the current fiscal year. This contract was competitively procured via the sam.gov website, with eight offers received. NAVFAC Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62478-26-D-5042).

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $17,519,461 modification (P00006) to a cost-plus-fixed-fee, firm-fixed-price order (N0001925F2558) against a previously issued basic ordering agreement (N0001924G0010). This modification adds scope to procure material modification kits and special test and tooling equipment necessary to support retrofit and modification efforts for the F-35 Joint Strike Fighter program for the Air Force, Marine Corps, Navy, Foreign Military Sales, and non-U.S. Department of War (DOW) participants. Work will be performed in Fort Worth, Texas, and is expected to be completed in December 2028. Fiscal 2024 aircraft procurement (Navy) funds in the amount of $5,029,653; fiscal 2025 aircraft procurement (Navy) funds in the amount of $4,120,008; fiscal 2025 aircraft procurement (Air Force) funds in the amount of $4,635,895; and non-U.S. DOW participant funds in the amount of $3,733,905, will be obligated at the time of award, $5,029,653 of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Union Paving & Construction Co. Inc., Mountainside, New Jersey, is awarded a $17,154,700 firm-fixed-price construction contract. Work to be performed includes repair of 16 degraded corrugated metal pipe culverts supporting the Normandy Road Ammunition Rail, Naval Weapons Station Earle, Colts Neck, New Jersey, and is expected to be completed by July 2027. Fiscal 2026 Commander, Navy Installations Command operations and maintenance, (Navy) funds in the amount of $17,154,700 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the SAM.gov website with three offers received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-26-C-0008).

D. Gillette Industrial Service's Inc.,* Easton Pennsylvania, is awarded $14,714,694 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the procurement of up to 130

quick engine change assembly and propeller maintenance dollies, as well as associated adapter assemblies in support of the Navy's E2-D aircraft program and both the Navy and Air Force C-130 aircraft programs to support all variants of the E-2D and C-130 at the organizational and intermediate levels to perform T56 engine and propeller maintenance. Work will be performed in Easton, Pennsylvania, and is expected to be completed by April 2029. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was non-competitively competed. Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N6833526D0008).

Platform Systems Inc.,* doing business as Platform Aerospace, Hollywood, Maryland, is awarded a $12,893,010 firm-fixed-price modification to a previously awarded job order contract (N0016425FJ608) for Vanilla Long Endurance Unmanned Aircraft Systems, supporting hardware, spare parts, engineering support, and logistics support. Work will be performed in Hollywood, Maryland, and is expected to be completed by August 2026. Fiscal 2026 research development, test, and evaluation (Navy) funds in the amount of $12,893,010 will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Surface Warfare Center, Crane Division, Crane, Indiana, is the contracting activity.

April 14, 2026

Castellano Cobra UTE MACC LEY 18-1982, Cádiz, Spain (N3319126D0002); Constructora San Josa SA, Sevilla, Spain (N3319126D0003); Elecnor Servicios y Projectos, Sevilla, Spain (N3319126D0004); Environmental Chemical Corp. Italy S.R.L., Sevilla, Spain (N3319126D0005); Sociedad Espanola de Montajes Industriales SA, Cádiz, Spain (N3319126D0006); and UTE MACC Rota 2024, Sevilla, Spain (N3319126D0007), are awarded a combined $100,000,000 indefinite-delivery/indefinite-quantity, design-build, design-bid-build, multiple award, construction contract. This contract provides for new construction, repair, alteration, and related demolition of existing infrastructure. Work will be performed at Naval Station Rota, Spain, and may include work at other facilities in Spain and Portugal, and is expected to be completed by March 2034. Fiscal 2026 operations and maintenance (Navy) (O&M, N) funds in the amount of $25,000 will be obligated to five awardees at time of award to satisfy the minimum guarantee and will expire at the end of the current fiscal year. Sociedad Espanola de Montajes Industriales SA is being awarded the initial task order at $4,944,139 for major interior and exterior renovation to the Pinz Bowling Center at Naval Station Rota, Spain. Work for this task order is expected to be completed by August 2028. Future task orders will be primarily funded by O&M, N; and

military construction defense agencies contract funds. This contract was competitively procured via SAM.gov website, with 13 offers received. The Naval Facilities Engineering Systems Command Europe, Africa, Central Command, Naples, Italy, is the contracting activity.

Baker Jacobs JV, Pittsburgh, Pennsylvania, is awarded a $95,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for multi-discipline, architect-engineer services. This contract provides architect-engineer services for general type facilities located throughout the Naval Facilities Engineering Systems Command area of operations worldwide, with an expected completion date of April 2031. Fiscal 2026 operations and maintenance, Navy funds in the amount of $10,000 will be obligated at time of award to satisfy the minimum guarantee and will expire at the end of the current fiscal year. This contract was competitively procured via SAM.gov website, with six qualification packages received. The Naval Facilities Engineering Command, Atlantic, Norfolk, Virginia, is the contracting activity (N62470-26-D-0006).

Marinette Marine Corp., Marinette, Wisconsin, is awarded a $30,000,000 not-to-exceed undefinitized contract action for advance procurement of long lead time material and associated engineering and design activities in support of four Medium Landing Ship Block 1. Work will be performed in Marinette, Wisconsin (46%); De Pere, Wisconsin (39%); and Kenner, Louisiana (15%). Work is expected to be completed by September 2027. Fiscal 2025 shipbuilding and conversion (Navy) funding in the amount of $15,000,000 will be obligated at award and will not expire at the end of the current fiscal year. This contract was not competitively procured. This contract is based on Section 128(b) of the Servicemembers Quality of Life Improvement and National Defense Authorization Act for Fiscal Year 2025, Pub. L. No. 118-159. Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-26-C-2430).

Raytheon, Tucson, Arizona, was awarded a $14,055,719 modification to a previously awarded contract (N00024-26-C-5434) for technical and design agent engineering in support of the Evolved SeaSparrow Missile and NATO SeaSparrow Missile Systems programs. This modification combines purchases for the Navy (66%); and the governments of Australia, Belgium, Canada, Denmark, Germany, Greece, Netherlands, Norway, Portugal, Spain, and Türkiye under Memorandum of Agreements (34%). Work will be performed in Tucson, Arizona (97%); and Portsmouth, Rhode Island (3%), and is expected to be completed by Dec. 31, 2030. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $7,794,089 (28%); fiscal 2025 other customer funds in the amount of $6,900,597 (25%); fiscal 2026 weapons procurement (Navy) funds in the

amount of $6,073,872 (22%); fiscal 2025 operations and maintenance (Navy) funds in the amount of $2,941,473 (10%); fiscal 2026 other customer funds in the amount of $2,755,875 (10%); fiscal 2026 other procurement (Navy) funds in the amount of $1,077,196 (4%); fiscal 2025 weapons procurement (Navy) funds in the amount of $382,045 (1%); and fiscal 2025 research, development, test, and evaluation (Navy) $200,000 (<1%), were obligated at time of award, of which $2,941,473 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Apr. 10, 2026).

Iris Technology Corp.,* Irvine, California, is awarded a $13,113,437 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the procurement of uninterruptible power supplies and cables for the Radio Integration System Family of Systems in support of integrated command, control and intel systems for the Navy. Work will be performed in Irvine, California and is expected to be completed by April 2031. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was non-competitively competed. Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N6833526D1013).

April 13, 2026

Fontaine Consulting LLC,* East Moline, Illinois (N00023-26-D-0025); International Trade Management Group LLC,* Leesburg, Virginia (N00023-26-D-0026); and Exclusive Tent Rentals Inc.,* Upland, California (N00023-26-D0027), are being awarded a $55,000,000,000 multiple award, firm-fixed price, indefinite-delivery/indefinite-quantity Worldwide Expeditionary Multiple Award Contract (WEXMAC) Territorial Integrity of the U.S. (TITUS) contract. The WEXMAC Titus 2.2 contract will provide supplies and services in support of but not limited to supporting the six phases of the continuum of military operations in support of the geographic Combatant Command’s joint operations, coalition partners, and other U.S. federal agencies in setting and sustaining the theater through the following requirements: theater opening (includes reception, staging, onward-movement, and integration support); sustainment; theater distribution; and stability operations and Defense Support of Civil Authorities support. The WEXMAC TITUS description of contractual scope provides that services and supplies provided through the performance of this contract include but are not limited to humanitarian assistance/disaster relief, contingency, exercise, lodging, logistics, water-based and land-based support. The contracts will run concurrently. The base performance period for these new awardees will begin April 2026 and is expected to be completed by December 2029. If the option is exercised, the performance period will be completed by December 2034. Work will be

performed in the U.S. and outlying territories, but due to the fact that specific requirements cannot be predicted at this time, more specific information about the percentage of work and where it will be performed cannot be currently provided. Fiscal 2026 operations and maintenance funds in the amount of $1,500 will be obligated ($500 on each of the three new contracts to fund the contracts' minimum amounts) at time of award and funds will expire at the end of the current fiscal year. Additional funds will be obligated at the task order level with the appropriate fiscal year funding as issued by the customers for each area of responsibility. The requirement was competitively procured as full and open competition with 36 offers received. Naval Supply Systems Command, Mechanicsburg, Pennsylvania, is the contracting activity.

Data Link Solutions LLC, comprised of BAE Systems, Wayne, New Jersey, and Rockwell Collins Inc., Cedar Rapids, Iowa (N0003926DE001), and L3 Technologies Inc. (N0003926DE002), Salt Lake City, Utah, are each being awarded a hybrid, firm-fixed-price, cost-plus-fixed-fee, cost-reimbursable, multiple award contract, indefinite-delivery/indefinite-quantity for production of multifunctional information distribution system (MIDS) low volume terminals (LVT), line replaceable unit and shop replaceable unit (SRUs) spares, MIDS-LVT Block Upgrade 2 retrofits, and engineering services to include repairs. Throughout the duration of the awarded contracts, the total obligated amount on orders for awarded contracts combined will not exceed $307,743,354. Fiscal 2026 through fiscal 2031 funds from various sources will be identified and obligated under individual task orders to include operations and maintenance (Navy); research and development (Navy); other procurement (Navy); Foreign Military Sales; International 6502 MIDS International Program Office Nations; and other customer funds. Work will be performed in Wayne, New Jersey, for BAE; Cedar Rapids, Iowa, for Collins; and Salt Lake City, Utah, for L3, and is to be executed over the course of the five-year ordering period beginning on the date of contract award. Funding will be obligated at the time of award on the first delivery order to each awardee for Enhanced Signal Message Processors SRUs, to include warranties. Additional funding will be obligated as individual delivery and task orders are issued. This contract was awarded following a full and open competition, ensuring broad participation in accordance with FAR 6.101. The solicitation was posted on the SAM.gov website and the Naval Information Warfare Systems Command E-Commerce website and yielded two competitive offers. The Naval Information Warfare Systems Command, San Diego, California, is the contracting activity (N00039).

General Dynamics NASSCO-Norfolk, Norfolk, Virginia, is awarded a $183,228,722 firm-fixed-price contract action for maintenance, modernization, and repair of USS Truxtun

(DDG 103) Fiscal 2026 Depot Modernization Period. This contract includes options which, if exercised, would bring the cumulative value of this contract to $183,581,496. Work will be performed in Norfolk, Virginia, and is expected to be completed by April 2028. Fiscal 2026 other procurement, (Navy) funds in the amount of $172,220,253 (94%); fiscal 2026 operations and maintenance, (Navy) funds in the amount of $10,976,728 (6%), fiscal 2025 other procurement, (Navy) funds in the amount of $593,427 (<1%); and defense wide procurement funds in the amount of $31,742 (<1%), of which $10,976,728 will expire at the end of the current fiscal year. This contract was competitively procured using full and open competition via the System for Award (SAM) website, with two offers received. Naval Sea Systems Command (NAVSEA), Washington, D.C., is the contracting activity (N0002426C4410).

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a $55,545,298 cost-plus-fixed-fee modification to a previously awarded contract (N00024-23-C-4300) to exercise options for continued New England Maintenance Manpower Initiative support of non-nuclear maintenance for submarines based at Naval Submarine Support Facility New London. Work will be performed in Groton, Connecticut, and is expected to be completed by April 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $20,000,000 will be obligated at time of award and will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a $34,679,581 cost-plus-fixed-fee modification to a previously awarded contract (N00024-23-C-4307) to exercise options for continued Nuclear Regional Maintenance Department support at Naval Submarine Support Facility New London. Work will be performed in Groton, Connecticut, and is expected to be completed by April 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $20,000,000 will be obligated at time of award and will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $23,312,570 modification (P00022) to a previously awarded cost-plus-fixed-fee contract (N0001922C0046). This contract provides maintenance and sustainment operations of the U.S. Reprogramming Laboratory and Partner Support Complex facilities and systems, to include consumables and field service representative support. These efforts are in support of the Department of the Air Force, the Department of the Navy, the F-35 Lightning II program’s non-U.S. Department of War (DoW) participants, and the F-35 Lightning II program’s Foreign Military Sales participants. Work will be performed in Eglin, Florida

(80%); and Fort Worth, Texas (20%), and is expected to be completed in April 2027. Non-DOW participant funds in the amount of $842,228; fiscal 2026 operations and maintenance (Navy) funds in the amount of $11,235,171; and fiscal 2026 operations and maintenance (Air Force) funds in the amount of $11,235,171, will be obligated at the time of award, $22,470,342 of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

April 10, 2026

Bell Boeing Joint Program Office, Amarillo, Texas, is awarded an undefinitized, not-to exceed $157,000,000 firm-fixed-price order (N0001926F0141) against a previously issued basic ordering agreement (N0001922G0002). This order procures ten Nacelle Improvements Kits and three shipsets of Pylon Support Assemblies for retrofit in support of enhancing the operational capabilities of the MV-22 and CMV-22 aircraft for the Navy and Marine Corps. Work will be performed in Amarillo, Texas (84%); Fort Worth, Texas (15%); and Ridley Park, Pennsylvania (1%), and is expected to be completed in December 2028. Fiscal 2026 aircraft procurement (Navy) funds in the amount of $16,252,973; and fiscal 2025 aircraft procurement (Navy) funds in the amount of $60,677,027, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This order was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Gentex Corp., Simpson, Pennsylvania, is awarded a $128,484,849 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the Integrated Helmet Systems. This contract provides for the procurement of Integrated Helmet Systems with associated components and accessories. The ordering period will be a maximum of five years and is expected to be completed in April 2031. Work will be performed in Simpson, Pennsylvania. No funds will be obligated at time of award. Funds will be obligated on individual task/delivery orders as they are issued. The requirement was procured under the authority of 10 U.S. Code 4022(f) as a follow-on production agreement to the prototype agreement (M67854-20-9-1000). Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-26-D-5401).

Lockheed Martin Rotary and Mission Systems, Moorestown, New Jersey, is being awarded a $36,439,220 cost-plus-incentive-fee, cost-plus-award-fee, and cost-only contract modification to previously awarded contract (N00024-15-C-5151) for new construction test support, post-delivery, fleet readiness, in-service ship integration and test, modernization

waterfront integration test support, and AEGIS Ashore Planning. Work will be performed in Moorestown, New Jersey (44%); San Diego, California (19%); Norfolk, Virginia (18%); Bath, Maine (10%); Pascagoula, Mississippi (9%), and is expected to be completed by July 2028. If all options are exercised, work will continue through July 2028. Fiscal 2023 shipbuilding and conversion (Navy) funds in the amount of $14,413,559 (50%); fiscal 2026 operations and maintenance (Navy) funds in the amount of $6,246,503 (22%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of $4,143,180 (14%); fiscal 2025 other procurement (Navy) funds in the amount of $3,805,820 (13%); and fiscal 2024 other procurement (Navy) funds in the amount of $194,959 (1%), will be obligated at time of award, of which $6,441,462 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics Electric Boat Corp., Groton, Connecticut, was awarded a $10,610,029 cost-plus-fixed-fee, level of effort contract for the operation, maintenance, and protection of the government-owned, contractor-operated floating dry dock, Shippingport (ARDM-4). This contract includes options which, if exercised, would bring the cumulative value of this contract to $57,087,819. Work will be performed in Groton, Connecticut, and is expected to be completed by March 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $10,610,029 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 3204(a)(1). Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-26-C-4311).

April 9, 2026

BAE Systems, Maritime Solutions San Diego, San Diego, California, is awarded a $33,513,369 firm-fixed-price contract action for maintenance, modernization and repair of USS Augusta (LCS 34) Fiscal 2026 Docking Selected Restricted Availability. The scope of this acquisition includes all labor, supervision, equipment, production, testing, facilities, and quality assurance necessary to prepare for and accomplish the Chief of Naval Operations Availability. This contract includes options which, if exercised, would bring the cumulative value of this contract to $35,705,364. Work will be performed in San Diego, California, and is expected to be completed by August 2027. Fiscal 2026 other procurement, (Navy) funds in the amount of $31,670,301 (95%); and fiscal 2026 operations and maintenance, (Navy) funds in the amount of $1,843,068 (5%), will be obligated at the time of award, of which $1,843,068 will expire at the end of the current fiscal year. This contract was competitively procured using full and open competition via the System for

Award Management website, with three offers received. Naval Sea Systems Command, Washington, D.C., is the contracting activity (N0002426C4420).

April 8, 2026

General Dynamics Mission Systems, Manassas, Virginia, is awarded a $55,059,996 cost-plus-fixed-fee and cost modification to a previously awarded contract (N00024-19-C-6407) to exercise options to design, develop, integrate, test, and deliver the tactical control system for the AN/BYG-1 submarine combat control system. Work will be performed in Manassas, Virginia, and is expected to be completed by July 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $2,690,377 (5%) will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

April 7, 2026

CDM Federal Programs Corp., Fairfax, Virginia, is awarded a $90,000,000 indefinite-delivery/indefinite-quantity contract to assist in management of the Navy's electric, civil, and mechanical utility systems. Work will be performed within the Naval Facilities Engineering Systems Command (NAVFAC) area of responsibility worldwide, and is expected to be completed by April 2031. Fiscal 2026 operations and maintenance, (Navy) funds in the amount of $10,000 will be obligated at time of award for the minimum guarantee, and will expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management (SAM) Contract Opportunities website with three offers received. NAVFAC Atlantic, Norfolk, Virginia, is the contracting activity. (N62470-26-D-0007).

General Atomics, San Diego, California, is awarded a not-to-exceed $53,286,025 cost reimbursable order (N0001926F0134) against a previously issued basic ordering agreement (N0001921G0014). This order provides non-recurring engineering, to include detailed system design and development efforts, production of prototype test articles, testing and development of all supporting technical and logistical documentation, for an Advanced Arresting Gear Engine Room Isolation solution in support of the Ford Class Carriers for the Navy. Work will be performed in San Diego, California (82%); Tupelo, Mississippi (14%); and Boston, Massachusetts (2%), and is expected to be completed in October 2028. Fiscal 2026 research, development, test, and evaluation (Navy) funds in the amount of $8,493,868 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air System Command, Patuxent River, Maryland is the contracting activity.

US Navy Contract 2026

Detroit Defense Inc., Troy, Michigan, is awarded $17,515,766 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the delivery of technical support to the Standard Portable Electronic Maintenance Aids Cyber Solution (SPECS) information technology (IT) solution to include monthly cybersecurity packages, quarterly maintenance service packages, and modification support to SPECS IT system, and updates relevant to configuration management as required. Work will be performed in Troy, Michigan, and is expected to be completed by April 2031. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N6833526D1011).

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded an $11,437,794 modification (P00032) to a previously awarded cost-plus-incentive-fee contract (N0001921C0040). This modification adds scope to provide three additional software data loads productionized plus builds, off of the existing enterprise software baselines, in support of the Israel System Development and Design Phase II efforts to include software development and systems engineering for the F-35 Joint Strike Fighter aircraft. Work will be performed in Fort Worth, Texas (80%); and undisclosed locations outside the continental U.S. (20%), and is expected to be completed in March 2030. Foreign Military Sales customer funds in the amount of $11,437,794 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

April 6, 2026

Packet Digital LLC.,* Fargo North Dakota, is awarded a $26,999,999 firm-fixed-price order (N6833526F1047) against a previously issued basic ordering agreement (N6833522G0020). This order is a Small Business Innovation Research (SBIR) Phase III effort for Topic N07-160 entitled, “Power Suite for Distributed Operations”. This effort derives from Phase I and II efforts and supports the domestic production of lithium-based battery cells and battery packs for Department of War applications under the Accelerate the Procurement and Fielding Innovative Technologies program. This effort is to execute pilot prototype development, raw-material procurement, pilot production, Low-Rate Initial Production (LRIP)-1, and LRIP-2 manufacturing of pouch-cell lithium-ion batteries. The effort includes cell manufacturing, testing of battery cells, integration of cells into multiple battery-pack designs, and testing and delivery of battery packs. Work will be performed in Fargo, North Dakota (100%), and is expected to be completed in April 2028. Fiscal 2025 procurement (Defense Wide) funds in the amount of $26,999,999 will be obligated at the time of award,

none of which will expire at the end of the current fiscal year. This contract was competed, and one offer was received. Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

Component Repair Technologies Inc., Mentor, Ohio, is awarded a $18,850,639 indefinite-delivery, indefinite-quantity, firm-fixed-price service contract for repair and upgrade of LM2500 turbine mid frames, a subset of LM2500 single shank turbine gas generator assemblies. Work will be performed at the Contractor's facility in Mentor, Ohio, and is expected to be completed by April 2031. Fiscal 2026 other procurement (Navy) funds in the amount of $1,813,806 (<1%) will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management (SAM) website, with one offer received. Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity (N64498-26-D-1002).

General Dynamics Mission Systems, Pittsfield, Massachusetts, is being awarded a $15,422,686 modification (P00002) to a previously awarded contract (N0003025C1024) to provide services to complete capital maintenance projects. Projects completed as part of this effort are limited to non-severable improvements, repair, or modifications of Navy-owned land, buildings, and support utilities. Work will be performed in Pittsfield, Massachusetts. Work is expected to be completed April 28, 2029. Fiscal 2024 other procurement (Navy) funds in the amount of $1,365,944; fiscal 2025 other procurement (Navy) funds in the amount of $7,499,120; and fiscal 2026 other procurement (Navy) funds in the amount of $6,557,622, will be obligated on this award. Fiscal 2024 other procurement (Navy) funds in the amount of $1,365,944 will expire at the end of this fiscal year. This contract was awarded as a sole source acquisition pursuant to 10 U.S. Code 2304(c)(1). Strategic Systems Programs, Washington, D.C., is the contracting activity.

Northrop Grumman Systems Corp., Linthicum Heights, Maryland, is awarded a $12,846,275 cost-plus-fixed-fee and cost-only ceiling increase modification to a previously awarded contract (N00024-22-C-5520) for Surface Electronic Warfare Improvement Program Block 3 Electronic Attack systems design agent engineering support. This contract includes options which, if exercised, would bring the cumulative value of this contract action to $52,011,440. Work will be performed in Baltimore, Maryland, and is expected to be completed by August 2026. If all options are exercised, work will continue through August 2027. Fiscal 2026 other procurement (Navy) funds in the amount of $5,379,390 (81%); fiscal 2026 operations and maintenance (Navy) funds in the amount of $905,815 (14%); and fiscal 2026 research, development, test, and evaluation funds in the amount of

$331,550 (5%), will be obligated at time of award, of which $905,815 will expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) (only one responsible source and no other type of property or services will satisfy the needs of the agency). Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-5520).

April 3, 2026

Huntington-Ingalls Industries Inc., Ingalls Shipbuilding Division, Pascagoula, Mississippi, is being awarded a $83,623,165 hybrid cost-plus award fee, and cost only modification to a previously awarded contract (N00024-25-C-4229), a continuation contract for (N00024-21-C-4205) to exercise options for the accomplishment of the planning yard support for amphibious transport dock ships, amphibious assault ships, dock landing ships, and amphibious command ships. Work will be performed in Pascagoula, Mississippi (75%), with on-site technical support for Chief of Naval Operations availabilities at Norfolk, Virginia (24%); San Diego, California (< 1%); and Sasebo, Japan (< 1%). Work is expected to be completed by May 2027. No funding will be obligated at the time of award. This contract was competitively awarded. Naval Sea Systems Command, Washington, D.C, is the contracting activity.

L3Harris Technologies, Millersville, Maryland, was awarded a $20,216,616 firm-fixed-price and cost-plus-fixed-fee contract for production and engineering and technical support for submarine universal modular masts on new construction submarines. This contract includes options which, if exercised, would bring the cumulative value of this contract to $147,498,082. Work will be performed in Bologna, Italy (78%); Northampton, Massachusetts (20%); and Millersville, Maryland (2%), and is expected to be completed by April 2031. Fiscal 2025 shipbuilding and conversion (Navy) funds in the amount of $19,701,200 will be obligated at the time of award and will not expire at the end of the current fiscal year. The requirement was not competitively procured in accordance with 10 U.S. Code 3204(a)(1). Naval Sea Systems Command, Washington, D.C, is the contracting activity (N00024-26-C-6205).

Raytheon Technologies, Marlborough, Massachusetts, is awarded a $18,801,948 cost-plus-fixed-fee and cost order under basic ordering agreement (N0002422G5311) to redesign the OT-134A transmitter in the MK 99 Continuous Wave Illuminator. This order will provide all engineering and technical support for the OT-134A redesign through preliminary design review. This contract involves Foreign Military Sales (FMS) to the Republic of Korea. Work will be performed in Marlborough, Massachusetts and is expected to be completed

by January 2027. FMS (Republic of Korea) funds in the amount of $18,801,948 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 3204(a)(4) (International Agreement). Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-26-F-5387).

April 2, 2026

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a $1,265,790,364 cost-plus-fixed-fee modification to a previously awarded contract (N00024-20-C-2120) for lead yard support and development studies and design efforts related to Virginia-class submarines. This contract modification includes options which, if exercised, would bring the cumulative value of the contract change to $2,491,982,722. Work will be performed in Groton, Connecticut (91%); Newport News, Virginia (8%); Newport, Rhode Island (<1%); and Quonset Point, Rhode Island (<1%), and is expected to be completed by April 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $139,997,575 (64%); fiscal 2023 shipbuilding and conversion (Navy) funds in the amount of $46,977,000 (22%); fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of $10,706,000 (5%); fiscal 2024 shipbuilding and conversion (Navy) funds in the amount of $11,583,799 (5%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of $3,476,681 (2%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of $1,500,000 (1%); fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $2,400,000 (1%); fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of $750,000 (<1%); and fiscal 2025 research, development, test and evaluation (Navy) funds in the amount of $1,092,340 (<1%), will be obligated at time of award, of which $1,092,340 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics Mission Systems Inc., Pittsfield, Massachusetts, was awarded a $60,811,614 cost-plus-fixed-fee modification to previously awarded contract (N6339424C0004) to exercise options for design agent services and lifecycle sustainment services in support of Independence-variant Littoral Combat Ships. Work will be performed in San Diego, California and is expected to be completed by March 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $494,072 (30%); fiscal 2025 other procurement (Navy) funds in the amount of $490,000 (30%); fiscal 2025 research, development, test and evaluation (Navy) funds in the amount of $306,000 (18%); fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $200,000 (12%); fiscal 2026 other procurement (Navy) funds in the amount of $109,862 (7%); and

fiscal 2024 other procurement (Navy) funds in the amount of $58,131 (4%) will be obligated at time of award, of which $858,203 will expire at the end of the fiscal year. Naval Surface Warfare Center Port Hueneme Division, Port Hueneme, California, is the contracting activity. (Awarded March 30, 2026).

Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $48,544,341 modification (P00017) to a previously awarded cost-plus-fixed-fee contract (N0001924C0011). This modification adds scope to procure special tooling and test equipment in support of F-35 production and modifications for the Joint Strike Fighter program for the Air Force, Marine Corps, Navy, and F-35 Cooperative Program Partners. Work will be performed in Fort Worth, Texas (48.1%); Marietta, Georgia (26.9%); Westminster, Colorado (20.7%); Palmdale, California (2.1%); various locations outside the continental U.S. (2%); and various locations within the continental U.S. (0.2%), and is expected to be completed in March 2031. Fiscal 2025 aircraft procurement (Air Force) funds in the amount of $19,129,490; fiscal 2025 aircraft procurement (Navy) funds in the amount of $18,914,989; and F-35 cooperative program partner funds in the amount of $8,061,920, will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Professional Contract Services Inc., Austin, Texas, was awarded a $40,865,883 modification to a contract (N40085-20-D-0040) for base operations support services. This modification provides for the exerciser of option six of the original award and brings the estimated total cumulative contract value to $281,489,230. Work will be performed at Naval Medical Center Portsmouth, Virginia, and its outlying support sites and will be completed by March 2027. Fiscal 2026 operation and maintenance, (Navy) funds in the amount of $38,233,793 for the recurring work portion will be obligated via task order, and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Portsmouth, Virginia, is the contracting activity. (Awarded April 1, 2026).

The Boeing Co., St. Louis, Missouri, is awarded a $12,074,613 cost-plus-fixed-fee order (N0001926F0221) against a previously issued basic ordering agreement (N0001921G0006). This order is for the phase I structural repair manual general development procedures to provide the Government with the ability to perform basic inspection, repair evaluation, and structural repairs for negligible/minor damage and, when applicable, corrosion mitigation procedures for all engineering, development and manufacturing and system demonstration test articles for MQ-25A aircraft. Work will be performed in St. Louis,

Missouri and is expected to be completed in March 2028. Fiscal 2025 research, development, test and evaluation funds in the amount of $4,255,948 will be obligated at the time of award, all of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

April 1, 2026

Bird-Johnson Propeller Co. LLC, Walpole, Massachusetts (N3220526D1001); and Kongsberg Maritime Inc., Houston, Texas (N3220526D1002), are each awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity contract. The shared ceiling for both is $49,000,000. These contracts provide for long-standing, recurring requirements covering a broad range of propulsion systems, steering gear, engines, and associated parts service and supply in support of the following, but not limited to, MSC class vessels: T-AKE (dry cargo/ammunition); T-AO (fleet replenishment oiler); T-AKR (large, medium-speed roll-on/roll-off); T-ESB (expeditionary sea base), and T-ESD (expeditionary sea dock). The government is contracting not only for specific original equipment manufacturer products, but also for delivery and service within specific time constraints as defined by the contract. The contract contains a five-year ordering period and one six-month option. The contract will be performed on a worldwide basis beginning April 1, 2026, and will conclude on Sept. 30, 2031, if option is exercised. No funding is being obligated, as this is an indefinite-delivery/indefinite-quantity contract, where funding is obligated at the order level. Funding for the fiscal year in which orders are placed will be utilized at that time. This contract was procured utilizing other than full and open competition, solicited via the Government Point of Entry website; two offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

American Bureau of Shipping (ABS), Spring, Texas, was awarded a $21,562,923 modification under a previously awarded firm-fixed-price contract (N3220522C4029) to exercise a one-year option period (P00029) for the continued regulatory service to survey and audit ships. The contract also conducts plan reviews to verify, confirm, and document that U.S. government vessels owned by Military Sealift Command are maintained in class or can be placed in class with the ABS. Work will be performed worldwide and is expected to be completed by March 31, 2027. This contract includes one 12-month base period and four 12-month option periods which, if exercised, would bring the cumulative value of this contract to $98,385,173. Working capital funds (Navy) in the amount of $3,000,000; and fiscal 2026 operations and maintenance (Navy) funds in the amount of $3,078,013, were obligated upon the exercise of this option. The remaining amount of $15,484,910 will be

incrementally funded as funding becomes available in accordance with Defense Federal Acquisition Regulation Supplement 252.232-7007, Limitation of Government's Obligation. Fiscal 2026 funding in the amount of $3,921,987 will be obligated no later than quarter four; and fiscal 2027 funding in the amount of $11,562,923, will be obligated no later than quarter two. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

March 31, 2026

Lockheed Martin Space of Littleton, Colorado, is being awarded a cost-plus-incentive-fee and cost-plus-fixed-fee contract modification (PZ0088) with a value $1,356,115,974 to previously awarded unpriced letter contract modifications (P00043, P00050, P00062, P00067, and P00070) as well as new scope under contract N00030-22-C-1025. This value includes optional line items. The effort will provide program management, engineering development, systems integration, long lead material, testing, and special tooling and equipment in support of missile and launching platform production for Conventional Prompt Strike. Work will be performed in Denver, Colorado (55%); Sunnyvale, California (16%); Magna, Utah (8%); Courtland, Alabama (7%); Simsbury, Connecticut (4%); Pittsfield, Massachusetts (3%); East Aurora, New York (2%); Owego, New York (2%); and various other locations (less than 1% each, totaling 3%). Work is expected to be completed on Sept. 30 2032. Fiscal 2025 Army Missile Procurement, Army (MIP,A) funds in the amount of $72,101,362; fiscal 2026 MIP,A funds in the amount of $120,953,815; fiscal 2026 research, development, test and evaluation, Navy funds in the amount of $208,629,867; fiscal 2026 other procurement, Navy funds in the amount of $89,075,983; and fiscal 2026 operations and maintenance, Navy funds in the amount of $2,000,000. $2,000,000 of funds will expire at the end of the current fiscal year. This contract was awarded as a sole source acquisition pursuant to 10 U.S. Code 3204 (a)(1) and was previously synopsized on the System for Award Management (SAM.gov) online portal. Strategic Systems Programs, Washington, D.C., is the contracting activity.

Collins Elbit Vision Systems LLC, Cedar Rapids, Iowa, is awarded $585,007,226 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the production and delivery of Lot 18 and Lot 19 Helmet mounted display hardware, to include active matrix liquid crystal display and organic light emitting diode configurations of helmet display units, helmet assembly units, and other helmet related components, as well as associated program management for the Air Force, Marine Corps, Navy, F-35 Cooperative Program Partners, and Foreign Military Sales customers. Work will be performed in Wilsonville, Oregon (80%); and Fort Worth, Texas (20%), and is expected to be complete by July 2029. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are

issued. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001926D0004).

DRS Systems Inc., Melbourne, Florida, is awarded $533,287,672 firm-fixed-price, cost-plus-fixed-fee, cost reimbursable, indefinite-delivery/indefinite-quantity contract for the production and delivery of distributed aperture infrared countermeasure weapons replaceable assemblies and shop replaceable assemblies in the low rate initial production configurations to include a maximum of 690 Sensors, 134 Processors, 134 Laser I, 52 fiber optic cables I, and 52 FOCA II, as well as associated engineering support for the Navy and Army. Additionally, this contract provides for multi-spectral test sets, field service representatives, far field test station upgrades, and electrical equivalent test benches. Work will be performed in San Diego California (50%); Dallas, Texas (43%); and Fort Walton Beach, Florida (7%), and is expected to be complete by April 2030. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001926D1002).

AAR Government Services Inc., Wood Dale, Illinois, is awarded $305,668,725 firm-fixed-price indefinite-delivery/indefinite-quantity contract to provide contractor logistics support for the Navy and Marine Corps C-40A fleet to ensure the operational capabilities for the use and sustainment of the aircraft These efforts include main operating base logistics and material support; field team and detachment support; scheduled and unscheduled depot level aircraft and component maintenance, modification, and repair; commercial line maintenance; and scheduled and unscheduled organizational level and depot level support equipment maintenance, modification, and repair. Work will be performed in Indianapolis, Indiana (40%); Fort Worth, Texas (22.5%); Kaneohe Bay, Hawaii (17.5%); Jacksonville, Florida (5%); North Island, California (5%); Oceana, Virginia (5%); and Whidbey Island, Washington (5%) and is expected to be complete by March 2031. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competed; four offers were received. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001926D0003).

Raytheon Missiles & Defense Naval Surface & Undersea Systems, Portsmouth, Rhode Island, is awarded a $74,156,196 firm-fixed-price, cost-plus-fixed fee, and cost only modification to a previously awarded contract (N00253-24-C-0001) to exercise an option for production and engineering support for common parts related to the MK 54 Lightweight Torpedo. Work will be performed in Portsmouth, Rhode Island (98%); and Poulsbo, Washington (2%), and is expected to be completed by October 2030. Fiscal 2024 weapons

procurement (Navy) funds in the amount of $28,426,189 (40%); fiscal 2025 weapons procurement (Navy) funds in the amount of $41,430,574 (58%); and fiscal 2026 weapons procurement (Navy) funds in the amount of $1,560,322 (2%), will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management, with one offer received. Naval Undersea Warfare Center, Keyport, Washington, is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $56,645,000 modification (P00007) to a previously awarded fixed-price incentive (firm-target), advanced acquisition contract (N0001922C0046). This modification adds scope to procure long lead material, parts, and components in support of five production F-35 Lightning II aircraft for the Marine Corps in Lot 21. Work will be performed in Fort Worth, Texas (59%); El Segundo, California (14%); Warton, United Kingdom (9%); Cameri, Italy (4%); Orlando, Florida (4%); Nashua, New Hampshire (3%); Baltimore, Maryland (3%); San Diego, California (2%); and various locations outside the continental U.S. (2%), and is expected to be completed in December 2030. Fiscal 2026 aircraft procurement (Navy) funding in the amount of $56,645,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is awarded a $50,132,505 cost-plus-incentive-fee modification to a previously awarded contract (N00024-20-C-6117) to exercise options for U.S. Navy hardware procurement to support SONAR systems and spares. Work will be performed in Manassas, Virginia (65%); Clearwater, Florida (32%); Syracuse, New York (2%); and Marion, Florida (1%), and is expected to be completed by November 2030. Fiscal 2026 other procurement (Navy) funds in the amount of $35,623,657 (71%); and fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $14,511,848 (29%), will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

The Whiting-Turner Contracting Co., Baltimore, Maryland, is awarded a $30,873,170 firm-fixed-price construction contract for a new fuel pier. Work will be performed at Marine Corps Air Station, Beaufort, South Carolina, and is expected to be completed by September 2028. Fiscal 2022 military construction (MILCON) funds in the amount of $4,108,031; and fiscal 2025 MILCON funds in the amount of $26,765,139, will be obligated at time of the award and will not expire at the end of the fiscal year. This contract was competitively procured via the www.SAM.gov website, with five offers received. The Naval

US Navy Contract 2026

Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N4008526C0002).

Huntington Ingalls Industries, Pascagoula, Mississippi, was awarded a $17,244,674 cost-plus-award-fee modification to previously awarded contract (N00024-26-C-2443) to exercise two option years for the execution of LPD 30 Industrial Post Delivery Availability, and LPD 29 Material and Support for the LPD 17 Class Program. Work will be performed in Pascagoula, Mississippi, and is expected to be completed by December 2028. Fiscal 2025 shipbuilding and conversion, Navy funds in the amount of $2,894,579; fiscal 2026 shipbuilding and conversion, Navy funds in the amount of $2,842,796; fiscal 2024 shipbuilding and conversion, Navy funds in the amount of $688,901; fiscal 2026 research, development, test and evaluation, Navy funds in the amount of $600,000; fiscal 2023 shipbuilding and conversion, Navy funds in the amount of $320,017; and fiscal 2017 shipbuilding and conversion, Navy funds in the amount of $234,260, will be obligated at award, of which, funds in the amount of $234,260 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-26-C-2443). (Awarded March 26, 2026).

NCS/EML SB JV LLC, Louisville, Kentucky, is awarded a $13,965,038 modification to a previously awarded contract (N69450-19-D-1740) for base operations support services. This award brings the total cumulative face value of the contract to $102,567,332. Work will be performed in Milton, Florida, and outlying areas, and is expected to be completed by March 2027. No funds will be obligated at time of award. Fiscal 2026 operations and maintenance, Navy O&M, N; fiscal 2026 defense health program; fiscal 2026 family housing O&M, N; fiscal 2026 defense working capital funds; and fiscal 2026 operations and maintenance, Air Force funds in the amount of $10,277,336, for recurring work will be obligated on an individual task order issued during the option period. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity.

Diversified Service Contracting Inc., Dunn, North Carolina, is awarded a $9,613,035 modification to previously awarded contract (N40080-21-D-0006) for facilities support services. This modification provides for the exercise of Option Five of the contract, and includes $8,739,615 for recurring services and not-to-exceed $873,420 for non-recurring work, at Naval Air Station Patuxent River, Maryland. This award brings the total cumulative face value of the contract to $77,883,728. Work will be performed in Maryland and is expected to be completed by September 2026. The funding sources are as follows; fiscal 2026 defense health services funds in the amount of $2,656; fiscal 2026 operation and

maintenance, (Navy) funds in the amount of $6,046,748; and fiscal 2026 non-appropriated funds in the amount of $5,350. Fiscal 2026 Navy working capital funds in the amount of $2,684,861 will be obligated on a task order and will expire at the end of the current fiscal year. Naval Facilities Engineering Systems Command Washington, Resident Officer in Charge of Construction Patuxent River, Maryland, is the contracting activity.

March 30, 2026

RTX Corp., East Hartford, Connecticut, is awarded a $3,813,591,875 modification (P00013) to a cost-plus-incentive-fee, fixed-price incentive undefinitized contract (N0001923C0030). This modification definitizes Lot 18 F135 propulsion system production, as well as provides for the production of F135 propulsion systems in support of lot 19 F-35 aircraft production for the Joint Strike Fighter program for the Air Force, Marine Corps, Navy, F-35 Cooperative Program Partners, and Foreign Military Sales (FMS) customers. Work will be performed in East Hartford, Connecticut (17%); Indianapolis, Indiana (10%); Middletown, Connecticut (8%); Kent, Washington (7%); North Berwick, Maine (4%); El Cajon, California (3%); Cromwell, Connecticut (3%); Whitehall, Michigan (3%); Portland, Oregon (2%); San Diego, California (2%); South Bend, Indiana (2%); Columbus, Georgia (1%); Hampton, Virginia (1%); Manchester, Connecticut (1%); Cheshire, Connecticut (1%); Elmwood Park, New Jersey (1%); various locations within the continental U.S. (27%); and various locations outside the continental U.S. (7%), and is expected to be completed in March 2028. Fiscal 2024 aircraft procurement (Navy) funding in the amount of $224,247,042; fiscal 2024 aircraft procurement (Air Force) funding in the amount of $206,647,419; fiscal 2025 aircraft procurement (Navy) funding in the amount of $800,283,358; fiscal 2025 aircraft procurement (Air Force) funding in the amount of $730,249,239; F-35 cooperative program partner funds in the amount of $383,896,514; and FMS funds in the amount $1,468,268,302, will be obligated at the time of award, $430,894,461 of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

CAE USA Inc., Tampa, Florida (N6134022D100-1P00005); BGI-Aero Simulation Inc. (ASI) JV LLC, Mount Pleasant, South Carolina (N6134022D1002 P00005); Valiant Global Defense Services Inc., Herndon, Virginia (N6134022D1003-P00005); Delaware Resource Group of Oklahoma LLC, Oklahoma City, Oklahoma (N6134022D1004-P00007); Fidelity Technologies Corp., Reading, Pennsylvania (N6134022D1005); FlightSafety Defense Corp., Fort Worth, Texas (N6134022D1006 P00005); LB&B Associates Inc., Columbia, Maryland (N6134022D1007-P00005); Engineering Support Personnel Inc.,* Orlando, Florida (N6134022D2001-P00005); and LTSS JV,* Minot, North Dakota (N6134022D2002-P00007),

are awarded modification to a firm-fixed-price, indefinite-delivery/indefinite-quantity contract with the estimated aggregate ceiling of the modifications being $1,200,000,000, increasing the total contract ceiling from $1,310,000,000 to $2,510,000,000. These modifications increase the aggregate ceiling of the contracts to provide continued sustainment services and training requirements in support of fielded training systems to include, training simulator contractor operation and maintenance services and contractor instructional services, with minor training simulator modifications, training simulator relocations, training systems management, in-service engineering office support, spares and product support, and other related support services performed ancillary to contractor operation and maintenance services and contractor instructional services for the Naval Air Warfare Center Training Systems Division. Companies have an opportunity to compete for individual orders. Percentages for work performed at each location is unknown until award of task orders under this contract, however work will be performed at Navy installations in Mayport, Florida; Norfolk, Virginia; Jacksonville, Florida; Whidbey Island, Washington; Key West, Florida; Fallon, Nevada; Pensacola, Florida; Lakehurst, New Jersey; New Orleans, Louisiana; Ft. Worth, Texas; Naval Submarine Base New London Groton, Connecticut; and Marine Corps Air Station Cherry Point, North Carolina, and is expected to be completed in August 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The original contracts were competed. Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity.

Hexagon US Federal Inc., Huntsville, Alabama, is awarded a $34,732,868 firm-fixed-price modification (P00030) to previously awarded firm-fixed-price contract (M67854-23-C-4902) for sustainment of the Consolidated Emergency Response System (CERS) to provide hardware, software, and services to sustain and maintain CERS at Marine Corps installations. The total cumulative face value of this contract is $34,732,868. The contract modification is to exercise Option Year Three, 12-month period for the sustainment of the existing CERS. Work will be performed at Iwakuni, Japan (8.8%); Cherry Point, North Carolina (7.6%); Quantico, Virginia (7.6%); Camp Butler, Okinawa, Japan (7.6%); Beaufort, South Carolina (7.6%); Parris Island, South Carolina (7.6%); Albany, Georgia (7.6%); Camp Pendleton, California (7.6%); Barstow, California (7.6%); 29 Palms, California (7.6%); Miramar, Florida (7.6%); Camp Lejeune, North Carolina (7.6%); and Yuma, Arizona (7.6%), with an expected completion date of March 31, 2027. Fiscal 2026 operations and maintenance (Marine Corps) funds in the amount of $9,854,274 are obligated at time of award. Contract funds in the amount of $9,854,274 will expire at the end of the current fiscal year. This procurement is a sole source award to a large business in accordance with

Federal Acquisition Regulation 6.302-1, authorized or required by statue. The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity.

Kittery Water District, Kittery, Maine is awarded a $25,000,000 firm-fixed-price contract for water services at Portsmouth Naval Shipyard. Work will be performed on the Portsmouth Naval Shipyard, Kittery Maine, and is expected to be completed by March 22, 2036. Operation and maintenance, (Navy) contract funds will be obligated annually. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N4008526C0001).

Bell Boeing Joint Program Office, Amarillo, Texas, is awarded a $18,789,439 cost-plus-fixed-fee order (N0001926F0002) against a previously issued basic ordering agreement (N0001922G0002). This order provides continued flight test support for all test activities for the MV-22, CMV-22, CV-22 in support of the Marine Corps, Air Force, Navy, U.S. Special Operations Command and the government of Japan. Work will be performed in Patuxent River, Maryland (55%); Ridley Park, Pennsylvania (22%); Fort Worth, Texas (17%); and Hurlburt Field, Florida (6%), and is expected to be completed in January 2031. Fiscal 2024 procurement (Defense Wide) funds in the amount of $272,330; fiscal 2025 procurement (Defense Wide) funds in the amount of $472,805; fiscal 2026 aircraft procurement (Navy) funds in the amount of $5,105,291; fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $7,660,086; fiscal 2026 aircraft procurement (Air Force) funds in the amount of $1,305,549; fiscal 2026 research, development, test and evaluation (Defense Wide) funds in the amount of $10,000; and Foreign Military Sales funds in the amount of $1,375,495, will be obligated at the time of award, $272,330 of which will expire at the end of the current fiscal year. This order was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

March 27, 2026

Fairbanks Morse LLC, Beloit, Wisconsin (P00008, N3220521D4106); and MAN Energy Solutions Middle East LLC, Dubai, United Arab Emirates (P00007, N3220521D4105), are receiving modifications to previously awarded multiple-award, firm-fixed-price, indefinite-delivery/indefinite-quantity contracts to increase the shared contract ceiling amount. A five-year ordering period with a shared contract ceiling of $333,000,000 is currently on these contracts. With the execution of these proposed modifications, the shared contract ceiling would increase by $137,000,000 to a value of $470,000,000. These are hybrid contracts with firm-fixed-price, and time-and-material orders. These modifications will allow continuous procurement of parts and services from the original equipment

manufacturer (OEM) for ships' diesel engines, and OEM authorized parts and service technicians in order to maintain the diesel engines aboard multiple classes of ships including Military Sealift Command's submarine tenders, hospital ships, dry cargo ammunition ships, fleet replenishment oilers, expeditionary mobile bases, expeditionary transfer docks, large, medium speed roll-on/roll-off ships and the Kocak class of roll-on/roll-off container ships. Work will be performed worldwide, with the period of performance ending May 20, 2026. No funding is being obligated via these modifications, as this is an indefinite-delivery/indefinite-quantity contract, where funding is obligated at the order level. Funding for the fiscal year in which orders are placed will be utilized at that time. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Northrop Grumman Systems Corp., Rolling Meadows, Illinois, is awarded a $96,129,279 modification (P000026) to a previously awarded fixed-price incentive (firm-target) contract (N0001922C0042). This modification procures the necessary hardware and systems engineering technical support, analysis, and studies to install the Department of Navy (DON) Large Aircraft Infrared Countermeasure (LAIRCM) system onto Department of War aircraft for DON and other customers. Hardware for this procurement includes the following weapon replaceable assemblies: 153 advanced threat warning sensors for the Navy; 13 control indicator unit replaceable replacements for the Navy, and 20 for the Air Force; 30 DON LAIRCM processor units for the Navy, and 17 for the Air Force; 52 guardian laser transmitter assemblies for the Navy; 20 high capacity cards for the Navy, and 29 for the Air Force; 29 smart connector assemblies for the Navy, and 18 for the Air Force; and 76 battery kits for the Navy, and 23 for the Air Force. Work will be performed in Rolling Meadows, Illinois (32%); Goleta, California (18%); Longmont, Colorado (10%); Apopka, Florida (8%); Blacksburg, Virginia (7%); Westminster, Colorado (6%); Verona, Wisconsin (4%); Ashburn, Virginia (4%); Carlsbad, California (3%); Lewisburg, Tennessee (3%); Salt Lake City, Utah (2%); Tipp City, Ohio (2%); and Amherst, New York (1%), and is expected to be completed in July 2028. Fiscal 2026 aircraft procurement (Navy) funds in the amount of $74,528,543; fiscal 2026 aircraft procurement (Air Force) funds in the amount of $6,336,620; fiscal 2026 research, development, test and evaluation funds in the amount of $40,000; fiscal 2025 aircraft procurement (Navy) funds in the amount of $9,532,674; fiscal 2025 aircraft procurement (Air Force) funds in the amount of $1,485,048; and Navy working capital funds in the amount of $4,206,394, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

US Navy Contract 2026

Lockheed Martin Corp., Syracuse, New York, is awarded a $20,000,000 cost-plus-incentive fee contract modification to a previously awarded delivery order (N00024-25-F-6260) under an indefinite-delivery/indefinite-quantity contract for engineering support related to submarine electronic warfare systems on new construction and in-service submarines. Work will be performed in Syracuse, New York, and is expected to be completed by February 2027. Fiscal 2026 research, development, test & evaluation (Navy) funds in the amount of $4,682,823 (66%); fiscal 2024 other procurement (Navy) funds in the amount of $2,046,713 (29%); and fiscal 2025 other procurement (Navy) funds in the amount of $400,000 (5%), will be obligated at the time of award, of which $2,046,713 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-25-D-6211).

March 26, 2026

HDR Engineering Inc., Honolulu, Hawaii, is awarded a $249,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity, architect-engineering contract for civil engineering projects. This contract provides for civil design and engineering services. Work will be performed at Navy and Marine Corps installations within the Naval Facilities Engineering Systems Command (NAVFAC) Hawaii area of responsibility and is expected to be completed by March 2031. Fiscal 2026 operations and maintenance, (Navy) funds in the amount of $3,000 will be obligated at time of award for the minimum guarantee, and funds will expire at the end of the current fiscal year. This contract was competitively procured via the sam.gov website, with four offers received. NAVFAC Hawaii, Joint Base Pearl Harbor, Hawaii, is the contracting activity (N62478-26-D-5043).

National Technologies Associates Inc., California, Maryland, is awarded a $ 235,996,762 cost reimbursable and cost-no-fee, indefinite-delivery/indefinite-quantity contract for contractor support for organizational, intermediate and depot-level tasks in support of presidential helicopter platforms and technical service requirements to perform planned and unplanned maintenance, modification and instrumentation of presidential helicopter aircraft and is expected to be complete by November 2031. Work will be performed in Patuxent River, Maryland (98%); and various other contiguous U.S. locations, each under 1% (2%). No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This effort was procured competitively, with three offers received. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001926D0013).

US Navy Contract 2026

Northrop Grumman Corp., Chandler, Arizona is awarded a $127,319,699 firm-fixed-price contract (N0001926C0122). This contract will procure the GQM-163A Coyote Supersonic Sea-skimming Target Full Rate Production Lot 18. This procurement consists of 28 GQM-163A targets and associated support, and related technical and administrative data in support of the Navy; the government of Japan; and the government of Korea. Work will be performed in Camden, Arizona (53%); Chandler, Arizona (31%); St. Petersburg, Florida (6%); Oconomowoc, Wisconsin (4%); Montville, New Jersey (4%); Manassas, Virginia (1%); and various other contiguous U.S. locations under 1%, and is expected to be completed in August 2030. Fiscal 2026 weapon procurement (Navy) funds in the amount of $58,623,999; fiscal 2025 weapon procurement (Navy) funds in the amount of $9,676,624; and Foreign Military Sales funds in the amount of $9,019,076, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Austal USA LLC, Mobile, Alabama, is awarded a $126,500,000 firm-fixed-price modification to previously awarded contract (N00024-21-C-2209). This modification exercises an option for a special performance incentive for the detail design and construction of T-ATS 11-13. Work is expected to complete by May 2029. Fiscal 2025 shipbuilding and conversion (Navy) funding in the amount of $126,500,000 will be obligated at time of contract award and will not expire at the end of the current fiscal year. This contract is awarded with funding from the One Big Beautiful Bill Act (Public Law 119-21) and directly supports the national effort to revitalize and rebuild American shipbuilding. Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-C-2209).

Excelerate Gas Marketing Ltd. Partnership,* The Woodlands, Texas, is awarded a $69,543,975 firm-fixed price, requirements contract for the supply and delivery of liquefied natural gas (LNG). This contract provides for the supply and delivery of an estimated 4,053,860 million British thermal units of LNG during a five-year ordering period. Deliveries will be made to Naval Station Guantanamo Bay, Cuba, and are expected to be completed by April 2031. No funds will be obligated at the time of award. Fiscal 2026 operations and maintenance (Navy), funds will be obligated on individual delivery orders issued during the current fiscal year. This contract was competitively procured via SAM.gov website, with four offers received. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity (N69450-26-D-0015).

Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $23,677,655 modification (P00021) to a previously awarded cost-plus-fixed-fee contract (N0001922C0046). This modification exercises an option to provide continued

maintenance and sustainment operations of the Australia, Canada, and United Kingdom reprogramming laboratory facilities and systems, to include consumables and field service representative support in support of the F-35 Lightning II program's non-U.S. Department of War (DOW) participants. Work will be performed in Eglin, Florida (80%); and Fort Worth, Texas (20%), and is expected to be completed in April 2027. Non-DOW participant funds in the amount of $23,677,655 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Stellant Systems Inc., Torrance, California, is being awarded $20,109,586 for ceiling-priced, not-to-exceed delivery order (N00383-26-F-SW00) under a previously awarded basic ordering agreement (N00383-24-G-SW01) for the purchase of 58 electron tubes used on the F/A-18 aircraft. All work will be performed in Torrance, California, and work is expected to be completed by December 2027. Fiscal 2026 working capital funds (Navy) in the amount of $9,853,697 (49% or less of the total contract value) will be obligated at time of award and funds will not expire at the end of the current fiscal year. The balance of committed funds in the amount of $10,255,889 will be held in reserve by the contracting activity to fund the definitization upon completion of negotiations. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

Sedna Digital Solutions LLC,* Manassas, Virginia, is awarded a $14,395,395 cost-plus-fixed-fee and cost contract modification to a previously awarded contract (N00024-23-C-6109) to exercise options for Navy engineering design, development, and supporting material and travel for Sonar systems. Work will be performed in Manassas, Virginia, and is expected to be completed by March 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $500,000 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Raytheon Co., Indianapolis, Indiana, is awarded a $13,777,380 cost-plus-fixed-fee modification (P00018) to a previously issued order (N0001924F2603) against a previously awarded basic ordering agreement (N0001920G0007). This modification exercises an option period for continued sustainment of delivered block fleet releases, as well as ongoing development of flight test and fleet releases and analysis in support of implementation of future sustainment block fleet releases for the V-22 avionics systems for the Navy, Marines, and Air Force. Work will be performed in Indianapolis, Indiana, and is

expected to be completed in March 2027. Fiscal 2026 operations and maintenance (Air Force) funds in the amount of $4,944,955; fiscal 2026 operations and maintenance (Navy) funds in the amount of $4,723,948; fiscal 2026 operations and maintenance (U.S. Special Operations Command) funds in the amount of $2,899,109; fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $560,539; and fiscal 2026 aircraft procurement (Navy) funds in the amount of $221,007, will be obligated at the time of award, $12,568,012 of which will expire at the end of the current fiscal year. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Microwave Power Products of Palo Alto, California, is awarded an $9,658,872 non-commercial; firm-fixed-price, indefinite-delivery/indefinite-quantity contract (N0016426DLL12) for production, repairs, and rebuilds of Continuous Wave Illuminator Traveling Wave Tubes. Work will be performed in Palo Alto, California, over five, one-year ordering periods with the last expected to be completed by March 2031. Fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $1,747,089 (43%); fiscal 2025 shipbuilding and conversion (Navy) funds in the amount of $1,164,726 (29%); and fiscal 2025 Defense Procurement (Navy) funds in the amount of $1,164,726 (29%), will be obligated at the time of award and will not expire at the end of the fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 3204(a)(1), only one responsible source and no other supplies or services will satisfy agency requirements. Naval Surface Warfare Center, Crane Division, Crane, Indiana, is the contracting activity (N0016426DLL23).

March 25, 2026

General Dynamics Electric Boat Corp., Groton, Connecticut, was awarded a $95,000,000 cost-plus-fixed-fee modification to a previously awarded contract (N00024-24-C-2124) for engineering, technical, design agent, and planning yard support for operational strategic and attack submarines. Work will be performed in Groton, Connecticut (70%); Kings Bay, Georgia (13%); Bangor, Washington (10%); Pearl Harbor, Hawaii (3%); North Kingston, Rhode Island (2%); and Newport, Rhode Island (2%), and is expected to be completed by June 2026. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $2,600,000 (54%); fiscal 2026 operations and maintenance (Navy) funds in the amount of $1,793,786 (37%); and fiscal 2024 other procurement (Navy) funds in the amount of $425,176 (9%), were obligated at time of award, of which $ $2,218,962 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity. This contract was awarded on March 23, 2026.

US Navy Contract 2026

March 24, 2026

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is awarded a $478,359,847 cost only, cost-plus-incentive-fee, firm-fixed-price, and fixed-price incentive, indefinite-delivery/indefinite-quantity contract for engineering and technical support and production of the Integrated Submarine Imaging System for new-construction and in-service submarines. This contract includes options which, if exercised, would bring the cumulative value of this contract to $1,187,724,017. Work will be performed in Manassas, Virginia, and is expected to be completed by March 2036. Fiscal 2025 other procurement (Navy) funds in the amount of $600,000 will be obligated to satisfy the minimum guarantee and begin engineering efforts under delivery order N00024-26-F-6241, and the funds will not expire at the end of the current fiscal year. The requirement was competitively procured through full and open competition with one offeror received in response to this solicitation. Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-26-D-6203).

General Atomics, San Diego, California, is awarded a $23,400,000 firm-fixed-price modification (P00003) to a previously issued order (N0001925F0028) against a previously issued basic ordering agreement (N0001921G0014). This not-to-exceed long-lead procurement contract action is to procure electromagnetic aircraft launch system and advanced arresting gear long-lead material and technical data in support of the Future French Carrier production. Work will be performed in Tupelo, Mississippi (51%); Cincinnati, Ohio (30%); Spring Grove, Illinois (13%); and San Diego, California (6%), and is expected to be completed in March 2028. Foreign Military Sales funds in the amount of $23,400,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

JCB Inc., Pooler, Georgia, was awarded $16,866,274 for a firm-fixed-price delivery order (M67854-26-F-5309) under indefinite-delivery/indefinite-quantity contract M67854-26-D-5300 for Tractor, Rubber Tired, Articulated-Steering Multi-Purpose (TRAM) vehicle. This delivery order provides TRAM vehicles, operating training, training packages, and product verification test training. Work will be performed in the United Kingdom (80%); and in Pooler, Georgia (20%). Work is expected to be completed in January 2028. Fiscal 2026 (Marine Corps and Navy) funds in the amount of $16,866,274 are being obligated at time of award, none of which will expire at the end of the current fiscal year. Marine Corps Systems Command, Quantico, Virginia, is the contracting activity.

March 20, 2026

Amee Bay LLC,* Anchorage, Alaska (N42158-26-D-S001); AMP United LLC,* Dover, New Hampshire (N42158-26-D-S002); Delphinus Engineering Inc.,* Newtown Square, Pennsylvania (N42158-26-D-S003); Get It Industrial Marine LLC,* Portsmouth, Virginia (N42158-26-D-0004); Glotech Inc.,* Rockville, Maryland (N42158-26-D-S005); Mid Atlantic Engineering Technical Services Inc.,* Chesapeake, Virginia (N42158-26-D-S006); Mills Marine & Ship Repair LLC,* Suffolk, Virginia (N42158-26-D-S007); Orbis Sibro Inc., doing business as Orbis,* Charleston, South Carolina (N42158-26-D-S008); Owl International Inc., doing business as Global a 1st Flagship Co.,* Irvine, California (N42158-26-D-S009); Q.E.D. Systems Inc.,* Virginia Beach, Virginia (N32253-26-D-S010); and Tecnico Corp.,* Chesapeake, Virginia (N42158-26-D-S011), were awarded a combined $114,021,616 firm-fixed-price level-of-effort, indefinite-delivery/indefinite-quantity contract for the procurement involving specific supply of production touch labor to support the repair, maintenance and alterations requirements for U.S. Navy waterborne vessels, surface ships and submarines at any location under Norfolk Naval Shipyard Naval Support Activity and Lead Maintenance Activity cognizance. Each awardee will be awarded $1,000 (minimum contract guarantee per awardee) at the task order level upon contract award. These contracts bring a cumulative value of $114,021,616 over a five-year ordering period to the eleven vendors combined. Work will be performed in the state of Virginia and is expected to be completed by March 2031. Fiscal 2026 operations and maintenance (Navy) funding in the amount of $11,000 will be obligated at the task order level after award and will expire at the end of the current fiscal year. All other funding will be made available at the task order level as contracting actions occur. This contract was competitively procured via the SAM.gov website, with 13 offers received. Norfolk Naval Shipyard, Portsmouth, Virginia, is the contracting activity. (Awarded March 4, 2026).

Vertex Modernization and Sustainment LLC, Indianapolis, Indiana, was awarded $87,077,655 for a firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the repair of SUU-79 pylons used on the F/A-18 aircraft. The contract does not contain an option provision. All work will be performed in Indianapolis, Indiana, and is expected to be completed by January 2029. Fiscal 2026 working capital funds (Navy) in the amount of $12,006,400 will be obligated at the time of award to fund delivery order (N00383-26-F-EP00) that will be awarded concurrently with the contract. Funds will not expire at the end

of the current fiscal year. Subsequent delivery orders under the contract will be funded with appropriate fiscal year working capital funds (Navy) at the time of their issuance and those funds will not expire at the end of the applicable fiscal year. The requirement was competitively procured through the System for Award Management website (Sam.gov) as an unrestricted, competitive procurement with three offers received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-26-D-0005).

Huntington-Ingalls Industries-Ingalls Shipbuilding, Pascagoula, Mississippi, is awarded a not-to-exceed $19,334,820 fixed-price incentive, unpriced change order modification to a previously awarded contract (N00024-18-C-2406) for high temperature superconducting degaussing system in support of Engineering Change Proposal 2724 on the future USS Pittsburgh (LPD 31). Work will be performed in Pascagoula, Mississippi, and is expected to be completed by October 2028. Fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $8,754,542 will be obligated at time of award and will not expire at the end of the current fiscal year. The Supervisor of **Shipbuilding Gulf Coast, Pascagoula, Mississippi, is the contracting activity.**

March 19, 2026

Blue Steel Marine LLC,* Talofofo, Guam, is awarded a $249,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract (N4044626D2001) for general ship repair of Military Sealift Command vessels. This action represents a rolling admission to a previously awarded multiple-award contract. Work will be performed in Guam and is expected to be completed by November 2027. This contract includes a five-year ordering period. Fiscal 2026 operation and maintenance (Navy) funds in the amount of $3,500 (minimum guarantee) will be obligated at the time of award and will expire at the end of the current fiscal year. All other funding will be provided on individual delivery orders as they are issued. This contract was a HUBZone set-aside, solicited via the Government Point of Entry website, with two proposals received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Commdex LLC,* Smyrna, Georgia, is awarded a $34,946,592 firm-fixed-price contract for the design and construction of low altitude radio communication system communication towers at Marine Air Ground Task Force Training Command, Twentynine Palms, California. All work will be performed in Twentynine Palms, California, and is expected to be completed by March 2030. Fiscal 2024 military construction (Navy) funds in the amount of $34,946,592 will be obligated at the time of award and will expire in September 2028. This

contract was competitively procured via the SAM.gov contract opportunities website with two offers received. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-26-C-0013).

Lockheed Martin Rotary and Mission Systems, Moorestown, New Jersey, is awarded a $16,921,471 cost-plus-fixed-fee modification to a previously awarded contract (N00024-23-C-5123) for software development, integration, test, and evaluation in support of current configurations of the AEGIS combat system. Work will be performed in Moorestown, New Jersey, and is expected to be completed by December 2026. Fiscal 2025 other procurement (Navy) funds in the amount of $8,460,680 will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Atomics, San Diego, California, is awarded a $10,187,443 firm-fixed-price modification (P00002) to a previously issued order (N0001925F0029) against a previously issued basic ordering agreement (N0001921G0014). This order adds scope to procure 40 support equipment requirement data, two detailed functional description document packages, 11 support equipment tools, and logistics support in support of the Depot Stand-Up Phase II for the Electromagnetic Aircraft Launch System Ford Class. Work will be performed in San Diego, California (96%); Tupelo, Mississippi (2%); and various locations within the continental U.S. (2%), and is expected to be completed in September 2027. Fiscal 2026 other procurement (Navy) funds in the amount of $10,187,443 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

Northrup Grumman Systems Corp., Magna, Utah, is being awarded a $9,894,043 cost-plus-fixed-fee contract (N0003026C2038). The contract provides for services to complete capital maintenance projects and related capital maintenance studies. Projects completed as part of this effort are limited to non-severable improvements, repair, or modifications of Navy-owned land, buildings, and support utilities. Work will be performed in Magna, Utah. Work is expected to be completed April 1, 2030. Fiscal 2024 weapons procurement (Navy) funds in the amount of $34,344; fiscal 2025 weapons procurement (Navy) funds in the amount of $196,872; and fiscal 2026 weapons procurement (Navy) funds in the amount of $9,662,827, will be obligated on this award. Fiscal 2024 weapons procurement (Navy) funds in the amount of $34,344 will expire at the end of this fiscal year. This contract was awarded as a sole source acquisition pursuant to 10 U.S. Code 2304(c)(1). Strategic Systems Programs, Washington, D.C., is the contracting activity.

US Navy Contract 2026

March 18, 2026

General Dynamics Electric Boat Corp., Groton, Connecticut, was awarded a $15,383,494,792 cost-plus-incentive-fee and cost-plus-fixed-fee modification to a previously awarded contract (N00024-17-C-2117) for additional Columbia-class ballistic missile submarines design, class lead yard support and sustainment, integrated enterprise plan initiatives for the class, and submarine industrial base supplier development enhancement efforts to support Columbia-class ballistic missile submarine program execution. The industrial base development work is for the furtherance of the Navy's plan of serial production of Columbia- and Virginia-class attack submarines. Funding is pursuant to the Consolidated Appropriations Act 2026 (Public Law 119-75). Work will be performed in Groton, Connecticut (21%); Newport News, Virginia (6%); Sunnyvale, California (5%); Menomonee, Wisconsin (4%); Quonset Point, Rhode Island (4%); Fitchburg, Massachusetts (3%); Philadelphia, Pennsylvania (3%); Mobile, Alabama (2%); Bethlehem, Pennsylvania (1%); and other locations less than 1% (51%), and is expected to be completed by June 2035. Fiscal 2026 national sea-based deterrence fund funds in the amount of $3,068,073,260 (95%); fiscal 2025 maritime industrial base funds in the amount of $74,000,000 (2%); fiscal 2025 research, development, test and evaluation (Navy) funds in the amount of $73,214,000 (2%); and fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $2,837,000 (<1%), will be obligated at the time of award, of which $3,144,910,260 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Advanced Technology International, Summerville, South Carolina, is awarded an indefinite-delivery/indefinite-quantity contract for the Manufacturing Technology (ManTech) Composites Manufacturing Technology Center of Excellence VI. This contract provides for the operation and management of the Composites Manufacturing Technology Center of Excellence (the Center) in its mission to identify, develop, and facilitate the transition of composite, polymeric, and other non-metallic manufacturing technologies to composites fabricators and other relevant industrial facilities to reduce the cost and time to build and repair key naval platforms. In addition to accomplishing the Center's core mission, the contractor shall manage, operate, sustain and enhance the Center's ability to function as an Office of Naval Research (ONR) ManTech Center of Excellence. Work will be performed in Summerville, South Carolina, and is expected to be completed in June 2036. The total cumulative value of this contract is $349,000,000. Two task orders will be awarded after release of the contract. The first and second task orders will be funded with an initial obligation of $375,000 and $310,000, respectively, from fiscal 2026 research,

development, test and evaluation (Navy) funds. These funds will not expire at the end of the current fiscal year. This contract was competitively procured under (N0001425R7004). Two proposals were received in response to the solicitation. ONR, Arlington, Virginia, is the contracting activity (N0001426D7001).

L3Harris Interstate Electronics Corp., Anaheim, California, is awarded a $77,818,794 cost reimbursable and firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract is for the sustainment of the kineto tracking mount including all associated subassemblies and subsystems that are utilized by Department of Defense, Department of Energy, and NASA test ranges for the collection of precision optical time space position information data and is expected to be complete by March 2031. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This effort was procured competitively, with only one offer received. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0042126D1002).

Global Connections to Employment Inc., an AbilityOne company, Pensacola, Florida, is being awarded $18,019,905 for full food services and mess attendant services in support of Commander, Navy Region Southeast. The services include preparing, serving, and replenishing food; cleaning facilities, equipment, and utensils; preparation of all salads and fruits; and operation of sculleries. The contract includes a one-year base period of performance and four one-year option periods pursuant to Federal Acquisition Regulation 52.217-9 which, if all options are exercised, would bring the cumulative value of this contract to $99,845,457. Work will be performed as follows: full food services at Naval Air Station, Pensacola, Florida (85%); mess attendant services at Naval Construction Battalion Center, Gulfport, Mississippi (10%); and full food services at Naval School Explosive Ordnance Disposal, Eglin Air Force Base, Niceville, Florida (5%). Work is expected to be completed by March 2027; if all options are exercised, work will be completed by March 2031. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $18,019,905 will be incrementally funded throughout the period of performance, and funds will not expire at the end of the current fiscal year. Option periods will be funded with appropriate fiscal year operation and maintenance (Navy) funds. This contract was solicited as a sole-source requirement pursuant to the authority set force in 41 U.S. Code 8504(a) under the AbilityOne Program with one offer received. Naval Supply Systems Command Fleet Logistics Center Jacksonville, Florida, is the contracting activity (N68836-26-C-0004).

Kratos Unmanned Aerial Systems Inc., Sacramento, California, is awarded a $13,290,600 cost reimbursable, indefinite-delivery/indefinite-quantity contract. This contract is for test, teardown, and evaluation and repair services in support of the BQM-177A Subsonic Aerial

Target System, a subsonic, recoverable, aerial target system used in weapon systems test and evaluation and Fleet training. Work will be performed in Sacramento, California, and is expected to be complete by December 2030. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001926D0006).

March 17, 2026

Ashford Leebcor Enterprises IV LLC, Williamsburg, Virgina (N69450-22-D-0002); CCI Solutions LLC, Anchorage, Alaska (N69450-22-D-0003); Dawson Enterprises LLC, Honolulu, Hawaii (N69450-22-D-0004); P&S Construction Inc., North Chelmsford, Massachusetts (N69450-22-D-0005); Southeastern Industrial Barlovento JV-2, Destin, Florida (N69450-22-D-0006); VHB LLC, Boyds, Maryland (N69450-22-D-0007); Walga Ross Group 3, Joplin, Missouri (N69450-22-D-0008); and Webb LLC, Springfield, Virgina (N69450-22-D-0009), are awarded a combined-maximum-value $93,000,000 firm-fixed-price modification to increase the capacity of their respective, previously-awarded contracts for general building type projects. Award of this modification brings the total cumulative value for all eight contracts combined to $504,000,000. Work will be performed in Florida (40%); and Georgia (60%), is expected to be completed by November 2026. No funds will be obligated at time of award. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity.

The Boeing Co., Tukwila, Washington, was awarded a $38,670,859 cost-plus-fixed-fee order (N0001926F0190) against a previously issued basic ordering agreement (N0001921G0006). This order is to develop and install an updated software load for the Republic of Korea P-8A aircraft. The new software will consist of updated fleet release for the Tactical Open Mission Software version 105K to include diminishing manufacture sources and material shortages improvements, Multi-Static Active Coherent and Harpoon II capabilities. Work will be performed in Seattle, Washington (45%); Huntington Beach, California (30%); St. Louis, Missouri (10%); Patuxent River, Maryland (10%); and Pohang, South Korea (5%), and is expected to be completed in January 2029. Foreign Military Sales customer funds in the amount of $38,670,859 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity. (Awarded on March 13, 2026).

US Navy Contract 2026

Amentum Services Inc., Chantilly, Virginia, is awarded a $26,257,128 modification to a previously awarded contract (N62742-22-C-3507) for support services to Department of War components. This award brings the total cumulative face value of the contract to $156,367,882. Work will be performed primarily in the Philippines, and may include other locations in Southeast Asia, and is expected to be completed by March 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $9,445,746 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Pacific, Pearl Harbor, Hawaii, is the contracting activity.

Northrop Grumman Aeronautics Systems, Melbourne, Florida, was awarded an $11,980,190 cost-plus-fixed-fee and cost-only modification to previously awarded contract (N00024-22-C-6418) to exercise options for safety, logistics, engineering and depot support for airborne laser mine detection systems. Work will be performed in Melbourne, Florida, and is expected to be completed by March 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $796,788 will be obligated at time of award and will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

March 16, 2026

Raytheon Co., Sterling, Virginia, is being awarded a $40,254,004 cost-plus-fixed-fee contract for operations and maintenance services in support of the relocatable over-the-horizon radar at the Forces Surveillance Support Center, Chesapeake, Virginia. The contract will include a one-year base period of performance and four one-year option period pursuant to Federal Acquisition Regulation 52.217-9, which if exercised will bring the total estimated value of the contract to $212,119,774. Work will be completed by April 2027; if all options are exercised, work will be completed by April 2031. Services under the contract will be performed in multiple locations: Chesapeake, Virginia (48%); Freer, Texas (10%); Premont, Texas (10%); New Kent, Virginia (9%); Juana Diaz, Puerto Rico (9%); Vieques Diaz, Puerto Rico (9%); Dallas, Texas (3%); and Fairfax, Virginia (2%). Fiscal 2026 operations and maintenance (Navy) funds in the amount of $1,000,000 will be obligated at time of award to incrementally fund the contract's base period of performance and funds will expire at the end of fiscal 2026. Option periods will be funded with appropriate fiscal year operation and maintenance (Navy) funds. The requirement was competitively procured through the System for Award Management website (Sam.gov) as an unrestricted, competitive procurement with one offer received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department, Philadelphia, Pennsylvania, is the contracting activity (N00189-26-C-Z013).

US Navy Contract 2026

Defense Maritime Solutions Inc., Chesapeake, Virginia (N6449826D1006); and Bird-Johnson Propeller Co. LLC, Walpole, Massachusetts (N6449826D1005), were awarded a combined $40,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple award contract for the procurement of Monobloc propellers and caps. Work will be performed in Chesapeake, Virginia; and Walpole, Massachusetts, and is expected to be completed in March 2034. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $1,000 ($500 minimum contract guarantee per awardee) will be obligated at time of award and will expire at the end of the current fiscal year. All other funding will be made available at the delivery order level as contracting actions occur. This contract was competitively procured via the System for Award Management (SAM) website, with two offers received. Naval Surface Warfare Center, Philadelphia Division is the contracting activity (N6449826D1006 and N6449826D1005). (Awarded March 13, 2026)

CAES Systems LLC, Lansdale, Pennsylvania, is awarded a $20,701,961 firm-fixed-price contract (N0001926C0132). This procurement will implement an engineering change proposal developed under a previous contract and includes the production and delivery of up to 85 modified low-band transmitters (LBT) to low-band consolidation (LBC) transmitters, associated spare components, and up to 11 -501 LBCs to -503 variant supporting changes required to address emerging threats and obsolescence. To maximize reusing, the existing LBTs will be provided to CAES as government furnished property modified, tested, and delivered as LBC transmitters. Work will be performed in Lansdale, Pennsylvania (44%); Patterson, New York (15%); Peabody, Massachusetts (8%); Mt. Laurel, New Jersey (4%); Lancaster, Pennsylvania (3%); Woburn, Massachusetts (3%); Hatfield, Pennsylvania (2%); Shelton, Connecticut (2%); Ventura, California (1%); Carson, California (1%); and various other continental U.S. locations less than 1% each (14%), and is expected to be completed in December 2030. Fiscal 2026 aircraft procurement (Navy) funds in the amount of $20,701,961 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Science Applications International Corp., Reston, Virginia, was awarded a $16,790,854 cost-plus-fixed-fee and cost-reimbursable contract (N0003926CE001) to provide program management, systems engineering, operations and maintenance, and logistics support services for the portfolio of Kingdom of Saudi Arabia Foreign Military Sales (FMS) C4I, Surveillance and Reconnaissance (C4ISR) cases with an option for Surge efforts as well as an option for Communication Security (COMSEC) custodial services. The contract is a one-year basis with four one-year option periods. The option periods, if exercised, would bring

the cumulative value of this contract to an estimated $123,209,148. Work will be predominantly performed outside continental U.S., Saudi Arabia and is expected to be completed in March 2027. If options are exercised, work could continue until March 2031. This contract will utilize FMS funding. The contract was competitively procured via Procurement Integrated Enterprise Environment Solicitation Module and System for Award Management (SAM.gov) website with three offers received. The Naval Information Warfare Systems System Command, San Diego, California, is the contracting authority.

March 13, 2026

The Boeing Co., St. Louis, Missouri, is awarded a not-to-exceed $489,306,966 cost, undefinitized order (N0001926F1055) against a previously issued basic ordering agreement (N0001921G0006). This order is for the procurement of non-recurring engineering and associated test assets, to include four Beowulf A-Kits, four Gunbay Pallet A-Kits, 12 Beowulf B-Kits, 15 sensor control unit B-Kits, and nine power control unit B-Kits, as well as support equipment in support of the design, development, and integration of the AN/ALQ-264(V) Beowulf upgrade to the existing EA-18G platform. Work will be performed in Baltimore, Maryland (61%); St. Louis, Missouri (28%); and Bethpage, New York (11%), and is expected to be completed in February 2030. Fiscal 2026 research, development, test and evaluation funds in the amount of $33,988,353 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This order was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Huntington Ingalls Inc., Newport News, Virginia, is awarded an option exercise of $95,703,960 cost-plus-fixed-fee modification to previously awarded contract (N00024-25-C-2127) for advance planning and long-lead-time material procurement to prepare and make ready for the accomplishment of the inactivation and defueling of USS Nimitz (CVN 68). Work will be performed in Newport News, Virginia, and is expected to be completed by March 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $32,695,077 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 3204(a)(1), (only one responsible source and no other supplies or services will satisfy agency requirements). Naval Sea Systems Command, Washington, D.C., is the contracting activity.

The Boeing Co., St. Louis Missouri, is awarded a $60,103,735 cost-plus-fixed-fee modification (P00006) to an order (N0001924F0259) against a previously issued basic ordering agreement (N0001921G0006). This modification adds scope for the procurement

of developmental and operational test support, developmental and operational test aircraft installation and capability validation activities, including avionics and airframe material, to support the Growler Block II Phase I upgrade, known as the Next Generation Electronic Attack Unit. Additionally, this modification adds non-reoccurring engineering, consisting of anti-tamper requirements, functional and physical configuration audits, systems engineering, software development and integration, human engineering, test and evaluation requirements, developmental and operational ground and flight testing, product support requirements, and additional software requirement changes. Work will be performed in Linthicum, Maryland (16.3%); Bethpage, New York (37.9%); Minneapolis, Minnesota (27.4%); and St. Louis, Missouri (18.4%), and is expected to be completed in February 2029. Fiscal 2026 research, development, test, and evaluation funds in the amount of $13,082,629 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This order was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Southwest-Environmental Planning JV, Charlottesville, Virginia, is awarded a $55,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for architect-engineer environmental support services. This contract provides for the preparation of Navy and Marine Corps environmental planning documents and tasks. Work will be performed at Navy and Marine Corps government facilities within the Naval Facilities Engineering Systems Command (NAVFAC) Southwest area of responsibility and is expected to be completed by March 2031. Fiscal 2026 operations and maintenance; Navy funds in the amount of $5,000 will be obligated at time of award to satisfy the minimum guarantee and will expire at the end of the current fiscal year. This contract was competitively procured via the SAM.gov website, with two offers received. NAVFAC Southwest, San Diego, California, is the contracting activity (N62473-26-D-0010).

Kongsberg Defence and Aerospace, Kongsberg, Norway, is awarded a $45,544,458 firm-fixed-price contract for a Naval Strike Missile Coastal Defense System for the Republic of Latvia. This contract includes options which, if exercised, would bring the cumulative value of this contract to $56,344,728. This contract involves Foreign Military Sales (FMS) to Latvia. Work will be performed in Kongsberg, Norway (63%); Kangasala, Finland (9%); Turin, Italy (9%); Andøya, Norway (3%); Billingstad, Norway (2%); Vigrestad, Norway (1%); Hvidovre, Denmark (1%); Cambridge, United Kingdom (1%); and various locations all less than 1% (11%), and is expected to be completed by July 2030. If all options are exercised, work will continue through November 2031. FMS (Latvia) funds in the amount of $45,544,458 will be obligated at time of award and will not expire at the end of the current

fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 3204(a)(4) (international agreement). Naval Sea Systems Command (NAVSEA), Washington, D.C., is the contracting activity (N00024-26-C-5432).

The Boeing Co., St. Louis, Missouri, is awarded a $38,899,972 firm-fixed-price order (N0001926F0220) against a previously issued basic ordering agreement (N0001921G0006). This order is for the procurement of 44 advanced capabilities mission computer units, to include 26 spares for the Naval Supply Systems Command and 18 laboratory assets for the Navy. Work will be performed in Bloomington, Minnesota (68%); St. Louis Missouri (22%); and Linthicum Heights, Maryland (10%), and is expected to be completed in June 2029. Fiscal 2026 aircraft procurement (Navy) funds in the amount of $168,400; fiscal 2026 aircraft procurement (Navy) funds in the amount of $15,844,734; and fiscal 2026 working capital (Navy) funds in the amount of $22,886,838, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Detyens Shipyards Inc.,* North Charleston, South Carolina, is awarded a $31,378,288 firm-fixed-price contract (N3220526C1231) for the 166-calendar day shipyard availability for the regular overhaul and dry docking of Military Sealift Command's fleet ordinance and dry cargo vessel USNS Supply (T-AOE 6). This contract includes a base work package and four unexercised options for additional work and time, which if exercised, would increase the cumulative value of this contract to $31,625,677. Work will be performed in North Charleston, South Carolina, beginning May 4, 2025, and is expected to be completed by Oct. 16, 2026. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $31,378,288 are obligated and will expire at the end of the fiscal year. This contract was competitively procured with proposals solicited via the Governmentwide Point of Entry website and two offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

J&J and ALMS Mission Support Solutions LLC,* Anchorage, Alaska, is awarded a $31,213,019 firm-fixed-price, indefinite-delivery/indefinite-quantity modification to previously awarded contract (N69450-22-D-0043) for base operation support services. This award brings the total cumulative face value of the contract to $117,324,293. The contract modification is for the exercise of option period three for base operations support services at Naval Air Station Pensacola, Saufley Field, Corry Station, and Bronson Field. Work will be performed in Pensacola, Florida, and is expected to be completed by March 2027. Fiscal 2026 Defense Health Program; fiscal 2026 operations and maintenance, (Navy); fiscal 2026

operations and maintenance, (Marine Corps); fiscal 2026 family housing operations and maintenance ; fiscal 2026 operation and maintenance, (Air Force); fiscal 2026 operations and maintenance, (Army Reserve); and fiscal 2026 Defense working capital funds, will be obligated on individual task orders issued during the option period. No funds will be obligated at time of award. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity.

Bollinger Mississippi Shipbuilding, Pascagoula, Mississippi, is awarded a $14,922,120 cost reimbursable contract modification to a previously awarded contract (N00024-19-C-2210) for long lead time material for the Polar Security Cutter land-based test facility and production integration facility. Work will be performed in Pascagoula, Mississippi, and is expected to be completed by September 2027. Fiscal 2025 procurement, construction, and improvement (Coast Guard) funds in the amount of $7,494,138 will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

March 12, 2026

Bechtel Plant Machinery Inc., Monroeville, Pennsylvania, was awarded a $112,833,315 cost-plus-fixed-fee modification to previously awarded contract (N00024-24-C-2115) for Naval Nuclear Propulsion Components. Work will be performed in Monroeville, Pennsylvania and is expected to be completed by September 2034. Fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $112,833,315 will be obligated at the time of award and funds will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity. The modification was executed on March 5. 2026.

Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $111,500,000 firm-fixed-price order (N0001926F0203) against a previously issued basic ordering agreement (N0001924G0010). This order procures F-35 Drag Chute System in support of Lot 18-19 aircraft delivery in support of Non-U.S. DOW Participants and Foreign Military Sales (FMS) customer's operational aircraft. Work will be performed in Fort Worth, Texas, and is expected to be completed in October 2030. FMS funds in the amount of $11,408,536, and cooperative program partners funds in the amount of $11,408,536, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This order was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

US Navy Contract 2026

The Boeing Co., St. Louis, Missouri, is awarded a $38,899,972 firm-fixed-price order (N0001926F0220) against a previously issued basic ordering agreement (N0001921G0006). This order is for the procurement of 44 advanced capabilities mission computer units, to include 26 spares for the Naval Supply Systems Command and 18 laboratory assets for the Navy. Work will be performed in Bloomington, Minnesota (68%); St. Louis Missouri (22%); and Linthicum Heights, Maryland (10%), and is expected to be completed in June 2029. Fiscal 2026 aircraft procurement (Navy) funds in the amount of $168,400; fiscal 2026 aircraft procurement (Navy) funds in the amount of $15,844,734 and fiscal 2026 working capital (Navy) funds in the amount of $22,886,838, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Gibbs & Cox Inc., Arlington, Virginia, is awarded a $30,699,293 cost-plus-award-fee and cost-plus-fixed-fee modification to a previously awarded contract (N00024-22-C-2313) to exercise options for surface combatant ship design and engineering efforts for the U.S. Navy's future surface combatant force, as well as other emerging ship concepts, and feasibility studies as part of supporting the broader Navy fleet. Work will be performed in Washington, D.C. (60%); Arlington, Virginia (35%); and Philadelphia, Pennsylvania (5%), and is expected to be completed by February 2027. Fiscal year 2025 research, development, test and evaluation (Navy) funds in the amount of $3,852,465 will be obligated at time of award and will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a $14,446,239 firm-fixed-price order (N0001926F0216) against a previously issued basic ordering agreement (N0001921G0006). This order provides for the procurement of 522 A Kits necessary for the implementation of the Growler capability modification. Work will be performed in Mesa, Arizona (95%); St. Louis, Missouri (3%); and San Antonio, Texas (2%), and is expected to be completed in November 2027. Fiscal 2024 aircraft procurement (Navy) funds in the amount of $3,337,284 and fiscal 2025 aircraft procurement (Navy) funds in the amount of $11,108,955 will be obligated at the time of award, $3,337,284 of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lynntech Inc.,* College Station, Texas, is awarded a $9,999,992 firm-fixed-price order (N6833526F1004) against a previously issued basic ordering agreement (N6833525G0017). This is a Small Business Innovation Research Phase III effort, Topic N132-093 entitled

"Mask-on Hypoxia Training Device" that will procure, deliver, and support 35 hypoxia and dynamic breathing threat training systems comprised of flight breathing awareness trainers and simulation-based aviation flight stations. Work will be performed in College Station, Texas (89%), Jacksonville, Florida (1%); Cherry Point, North Carolina (1%); Whidbey Island, Washington (1%); Norfolk, Virginia (1%); Pensacola, Florida (1%); Lemoore, California (1%); Patuxent River, Maryland (1%); Miramar, California (1%); and various within the continental U.S. (3%), and is expected to be completed in March 2029. Fiscal 2026 procurement (Defense Wide) funds in the amount of $9,999,992 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was competed, and one offer was received. Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

March 11, 2026

General Dynamics Bath Iron Works, Bath, Maine, is awarded a $19,516,047 cost-plus-award-fee and cost modification to previously awarded contract (N00024-24-C-2331) to exercise options for the accomplishment of Zumwalt-class Planning Yard requirements. Work will be performed in Bath, Maine (99%) and other locations (less than 1% each, and collectively totaling 1%), and is expected to be completed by March 2027. Fiscal 2025 other procurement (Navy) funds in the amount of $9,895,750 (84%); and fiscal 2026 operation and maintenance (Navy) funds in the amount of $1,875,210 (16%), will be obligated at the time of award and funds in the amount of $1,875,210 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Science Applications International Corp., Reston, Virginia, is awarded a $16,790,854 cost-plus-fixed-fee and cost reimbursable contract (N0003926CE001) to provide program management, systems engineering, operations and maintenance, and logistics support services for the portfolio of Kingdom of Saudi Arabia Foreign Military Sales (FMS) C4I, surveillance and reconnaissance cases with an option for Surge efforts as well as an option for communication security custodial services. The contract is a one-year basis with four one-year option periods. The option periods, if exercised, would bring the cumulative value of this contract to an estimated $123,209,148. Work will be predominantly performed outside the continental U.S. in Saudi Arabia and is expected to be completed in March 2027. If options are exercised, work could continue until March 2031. This contract will utilize FMS funding. The contract was competitively procured via Procurement Integrated Enterprise Environment Solicitation Module and System for Award Management (SAM.gov) website with three offers received. The contract on behalf of the Program Executive Office,

US Navy Contract 2026

Command, Control, Communication, Computers and Intelligence International C4I Integration Program Office, by the contracting authority, the Naval Information Warfare Systems System Command, San Diego, California.

March 9, 2026

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $700,400,000 modification (P00006) to a previously awarded fixed-price incentive (firm-target), undefinitized, advanced acquisition contract (N0001925C0070). This modification adds scope to procure long lead material, parts, and components in support of Lots 20 and 21 of F-35 production aircraft for the government of Denmark. Additionally, this modification provides additional funding to previously awarded scope that procures long lead materials, parts, and components in support of Lots 20 and 21 of F-35 production aircraft for F-35 Cooperative Program Partners and Foreign Military Customers. Work will be performed Fort Worth, Texas (59%); El Segundo, California (14%); Warton, United Kingdom (9%); Cameri, Italy (4%); Orlando, Florida (4%); Nashua, New Hampshire (3%); Baltimore, Maryland (3%); San Diego, California (2%); and other various locations outside of the continental U.S. (2%), and is expected to be completed December 2030. F-35 cooperative program partner funds in the amount of $305,900,000; and Foreign Military Sales customer funds in the amount of $394,500,000, will be obligated at the time of award, none of which expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Moorestown, New Jersey, is being awarded $60,643,363 for a firm-fixed-price contract for the repair of 123 components that support the SPY-1 Radar System for the Aegis Weapon System. The contract does not contain an option provision. All work will be performed in Moorestown, New Jersey, and ordering under the contract is expected to be completed by March 2031. No funding will be obligated at the time of award. Individual delivery orders will be funded with appropriate fiscal year working capital funds (Navy) at the time of their issuance and those funds will not expire at the end of the applicable fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1) and one offer received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity (N00104-26-D-0001).

US Navy Contract 2026

L3 Technologies Inc., L-3 Telemetry and Radio Frequency Products, San Diego, California, is awarded a $38,313,299 modification (P00028) to a previously awarded firm-fixed-price contract (N0001921C0064). This modification adds scope for the production and delivery of 627 modernized radios, to include 356 for the Navy, 13 for the Marine Corps and 258 for Foreign Military Sales (FMS) customers. Work will be performed in San Diego, California, and is expected to be completed in August 2028. Fiscal 2024 weapons procurement (Navy) funds in the amount of $1,222,115; fiscal 2025 weapons procurement (Navy) funds in the amount of $2,871,970; fiscal 2025 other procurement (Marine Corps) funds in the amount of $794,374.62; fiscal 2026 weapons procurement (Navy) funds in the amount of $17,659,559; and FMS customer funds in the amount of $15,765,281 will be obligated at the time of award, $1,222,115 of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Massa Products Corp.,* Hingham, Massachusetts, is awarded a $23,479,329 indefinite-delivery/indefinite-quantity contract containing firm-fixed-price provisions. This contract is for the manufacture of acoustic equipment for submarines: TR-302D and TR-355 transducers as well as spare parts which include acoustic assembly windows, acoustic windows, receptacle connectors, T2 and T3 transformer assemblies, bulkhead receptacle connectors, transformer assembles and TR-355A conversion kits. Work will be performed in Hingham, Massachusetts, and the ordering period will be completed in March 2031. Fiscal 2025 other procurement (Navy) funds in the amount of $559,850 will be obligated at time of award on the first delivery order and will not expire at the end of the current fiscal year. This contract was competitively procured using full and open competition via the System for Award Management website with one offer received. Naval Undersea Warfare Center, Division Newport, Newport, Rhode Island, is the contracting activity (N66604-26-D-E600).

Fincantieri Marine Systems North America, Chesapeake, Virginia, is being awarded $17,307,657 to execute the fourth and final option year (modification P00010) on previously awarded firm-fixed-price, indefinite-delivery/indefinite-quantity contract N00406-22-D-0002 for the scheduled maintenance, repairs, and technical support for the Isotta Franschini diesel engines used on the Navy's Mine Countermeasure Class ships. The contract also provides for the purchase of necessary repair parts, replacement components and related supplies to keep the engines operational. The original contract was awarded with a base year and four one-year option periods. The execution of Option Year Four represented in this award will bring the contract to its full term and the contract's

total amount to $77,605,845. All work under the contract is expected to be completed by March 2027. Work will be performed in Manama, Bahrain (50%); and Sasebo, Japan (50%). No funding will be obligated at time of award. Individual task orders will be subsequently funded with appropriate fiscal year operation and maintenance (Navy) funds at the time of their issuance and will expire at the end of the applicable fiscal year. One company was originally solicited for this sole-source, non-competitive requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1) and one offer received. Naval Supply Systems Command Fleet Logistics Center Puget Sound, Bremerton, Washington, is the contracting activity.

2 Circle Inc.,* Arlington, Virginia, is awarded a $13,292,184 cost-plus-fixed-fee contract. This contract facilitates the continued development of the Reconstruction and Assessment of Proficiency in an Integrated Debrief software under Small Business Innovation Research (SBIR) Phase III. The project will refine the software's analytical tools to provide a comprehensive assessment of warfighting capabilities across live, virtual, and constructive training and testing environments for the US Department of Defense and its international partners in support of the mission and functions of the Naval Surface Warfare Center (NSWC), Corona Division, Range Systems Department. This contract includes options which, if exercised, would bring the cumulative value of this contract to $65,694,779. Work will be performed in Norco, California (3%); various locations throughout the continental U.S. (84%); and various partner nation training locations outside the continental U.S. (13%). Work is expected to be completed by March 2027. If all options are exercised, work will continue through March 2031. Fiscal 2026 working capital (Navy) funds in the amount of $30,000 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 15 U.S. Code 638(r)(4), as it is a SBIR Phase III for work derived from prior SBIR contract efforts. NSWC, Corona Division, Corona, California, is the contracting activity (N6426726C7300).

Ultra Maritime, Braintree, Massachusetts, is awarded a $9,355,203 firm-fixed-price delivery order (N00024-26-F-6229) under a previously awarded indefinite-delivery/indefinite-quantity contract (N00024-26-D-6214). The delivery order covers production of Acoustic Device Countermeasures for in-service submarines. Work will be performed in Braintree, Massachusetts, and is expected to be completed by August 2027. Fiscal 2025 research, development, testing and evaluation (Navy) funds in the amount of $9,355,203 will be obligated at the time of award, of which $9,355,203 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C, is the contracting activity (N00024-26-F-6229)

US Navy Contract 2026

March 6, 2026

Anglicotech LLC, Arlington, Virginia; CANA LLC, Haymarket, Virginia; IT Partners Inc., Herndon, Virginia; KSA Integration LLC, Stafford, Virginia; SteerBridge Strategies LLC, Vienna, Virginia; Targeted Approach LLC, Manassas, Virginia; and Unico Government Solutions LLC, Oxon Hill, Maryland, are awarded multiple award contracts with a combined estimated value of $96,000,000. This hybrid firm-fixed-price and cost, indefinite-delivery/indefinite-quantity contract is to provide professional services support to the Marine Corps Logistics Plans, Policies, and Strategic Mobility Division and its subordinate elements. Work will be performed at government facilities, primarily in the National Capital Region, and at contractor facilities, with an expected completion date of March 8, 2031. Fiscal 2025 operations and maintenance (Marine Corps) funds in the amount of $35,000 ($5,000 per awardee) are obligated at the time of award and will expire at the end of the current fiscal year. All other funding will be made available as task orders are awarded. This contract was competitively procured via SAM.gov with19 proposals received. Marine Corps Installations Command Headquarters, Arlington, Virginia, is the contracting activity.

Global PCCI, Irvine, California, is awarded a $50,000,000 cost-plus-award-fee and cost-plus-fixed-fee modification to a previously awarded indefinite-delivery/indefinite-quantity contract (N00024-19-D-4323) for the emergency ship salvage material system. This modification increases the contract ordering ceiling from $366,800,000 to $416,800,000. Work will be performed in Irvine, California, and other locations worldwide, and is expected to be completed by November 2026. No funding will be obligated at the time of award; all funding will be made available at the task or delivery order level as contracting actions occur. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Northrop Grumman Systems Corp., Sykesville, Maryland, is awarded a $12,689,872 modification (P00010) to a previously awarded cost-plus-fixed-fee contract (N6833523C0248). This modification increases the contract ceiling to support additional tasking within scope in support of finalizing the development of the Advanced Recovery Control (ARC) phase III upgrade efforts. These efforts include the construction of ARC prototype systems, requirements and design verification, environmental testing, and engineering and test support for validation in support of the advancement in the Navy's aircraft recovery operations. Work will be performed in Sykesville, Maryland, and is expected to be completed in December 2027. Fiscal 2026 research, development, test, and evaluation (Navy) funds in the amount of $1,151,250 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not

competed. Naval Air Warfare Command Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

March 5, 2026

AMETEK SCP Inc., Westerly, Rhode Island (N66604-26-D-J601); Epsilon Systems Solutions Inc.,* Portsmouth, Virginia (N66604-26-D-J602); Massa Products Corp.,* Hingham, Massachusetts (N66604-26-D-J603); SyQwest LLC, Cranston, Rhode Island (N66604-26-D-J604; and Teledyne D.G. O'Brien, Portsmouth, New Hampshire (N66604-26-D-J605), are each awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple award contract for the design, manufacture, test, package, and delivery of TR-317 Series Hull Penetrator assembly first article and production units. The maximum dollar value for all five contracts combined is $99,613,488. Epsilon Systems Solutions, Inc. is being awarded $2,500; Massa Products Corp. is being awarded $2,500; Teledyne D.G. O'Brien is being awarded $62,696; AMETEK SCP Inc. is being awarded $469,936; and SyQwest LLC is being awarded $915,856, toward a total contract ceiling value of $99,613,488. Work will be performed in Westerly, Rhode Island (20%); Portsmouth, Virginia (20%); Hingham, Massachusetts (20%); Cranston, Rhode Island (20%); and Portsmouth, New Hampshire (20%), and is expected to be completed by December 2031. Fiscal 2024 other procurement (Navy) funds in the amount of $1,453,488 (1%) will be obligated at the time of award and will expire at the end of the current fiscal year. All other funding will be made available at the delivery order level as contracting actions occur. This contract was competitively procured via the System for Award Management website, with seven offers received. Naval Undersea Warfare Center Division, Newport, Rhode Island, is the contracting activity.

RTX Corp., Pratt and Whitney Military Engines, East Hartford, Connecticut, is awarded a $256,255,777 modification (P00022) to a previously awarded firm-fixed-price, cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract (N0001920D0013). This modification adds scope to procure advanced long lead materials for the production and delivery of the F135 propulsion system spares for depot lay-in material, the F-35 global spares pool, and country unique spares in support of the Joint Strike Fighter program for the Air Force, Marine Corps, Navy, non-Department of War participants, F-35 Cooperative Program Partners, and Foreign Military Sales customers. Work will be performed in East Hartford, Connecticut (73.8%) (labor surplus area); Cromwell, Connecticut (19.8%); North Berwick, Maine (3.3%); Palm Bay, Florida (1.3%); various locations within the continental U.S. (CONUS) (0.9%); and various locations outside the CONUS (0.9%), and is expected to be completed in December 2029. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The contract that is being modified

was not competed. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity

Lockheed Martin Corp. ,Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $132,919,645 modification (P00069) to a previously awarded cost-plus-incentive-fee contract (N0001922C0041). This modification exercises options to provide continued flight test support to include administrative, maintenance, and test preparation for training systems labs, flight test labs, and Autonomic Logistics Information System/Operational Data Integrated Network labs in support of testing of new capabilities for the F-35 air system for the Air Force, Navy, Marine Corp, and non-Department of War (DOW) participants. Work will be performed in Fort Worth, Texas (30%); Palmdale, California (26%); Patuxent River, Maryland (23%); Orlando, Florida (11%); San Diego, California (3%); Linthicum, Maryland (2%); Manchester, New Hampshire (2%); Los Angeles, California (1%); Samlesbury, United Kingdom (1%); and various locations within the continental U.S. (1%), and expected to be completed in March 2027. Fiscal 2026 operations and maintenance (service) funds in the amount of $4,499,998 will be obligated at the time of award, all of which expire at the end of the current fiscal year. This modification was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a not-to-exceed $83,687,039 undefinitized modification (P00016) to a previously awarded cost-plus-fixed-fee contract (N0001924C0011). This modification adds scope to procure special tooling and test equipment in support of F-35 canopy tooling for the Joint Strike Fighter program for the Air Force, Marine Corps, Navy, and non-Department of War (DOW) participants. Work will be performed in Garden Grove, California, and is expected to be completed in January 2027. Fiscal 2024 aircraft procurement (Air Force) funds in the amount of $18,503,833; fiscal 2024 aircraft procurement (Navy) funds in the amount of $18,503,834; and non-U.S. DOW participants funds in $8,242,333 will be obligated at time of award, $37,007,667, of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Huntington Ingalls Inc., Newport News, Virginia, is awarded a $60,000,000 cost-plus-fixed-fee modification to a previously awarded contract (N00024-24-C-2106) for additional long lead-time material required for the accomplishment of the USS Harry S. Truman (CVN 75) refueling and complex overhaul. Work will be performed in Newport News, Virginia and is expected to be completed by September 2026. Funding will not be obligated at time of award. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

US Navy Contract 2026

VetPride-EMI Maintenance Solutions LLC, Raleigh, North Carolina, is awarded a $27,622,484 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for High Voltage Electrical (HVE) maintenance services within the Naval Facilities Engineering Systems Command (NAVFAC) Southwest area of operations. Work to be performed provides for facilities support services under Annex 1502000 Facility Investment. Work will be performed at, but is not limited to, Naval Base San Diego, Naval Base Coronado, Naval Base Point Loma, Marine Corps Air Station Miramar, and Naval Medical Center San Diego, and will be completed by June 2031. Fiscal 2026 HVE funds in the amount of $4,163,875 will be obligated on a separate task order after time of award. This contract was competitively procured via the Department of Defense solicitation portal in the Procurement Integrated Enterprise Environment and the Contract Opportunities website, with five proposals received. NAVFAC Southwest, San Diego, California, is the contracting activity (N62473-26-D-0009).

Frontgrade Technologies Inc., Plainview, New York, is being awarded $11,436,957 for a firm-fixed-price contract for the procurement of 23 common frequency generators in support of the AN/SPQ-9B radar set. The contract does not contain an option provision. All work will be performed in Plainview, New York, and all work is expected to be completed by January 2029. Fiscal 2026 working capital funds (Navy) in the contract's full amount of $11,436,957 will be obligated at time of award and funds will not expire at the end of the current fiscal year. Two companies were solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1) and one offer received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity (N00104-26-P-JA86).

March 4, 2026

March 3, 2026

General Electric Aerospace, Lynn, Massachusetts, is being awarded $31,302,761 for a fixed-price, long-term contract with prospective price redetermination for repair support for the T-64 engine. This is a five-year contract with a three-year base contract period and one two-year option period. All work will be performed in Cherry Point, North Carolina. Work is expected to be completed by March 2029 and if the option period is exercised by March 2031. Fiscal 2026 working capital funds in the amount of $6,853,829 will be obligated at the

time of award to fund delivery order (N00383-26-F-0U10) that will be awarded concurrently with the contract and funds will not expire at the end of the current fiscal year. One source was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1) and one offer was received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-26-D-U101).

Raytheon Co., Tewksbury, Massachusetts, is awarded a cost-plus-fixed-fee contract for the BladeRunner program. The total cumulative value of this contract, including a 24-month period of performance, is $26,842,534. This contract provides for the integration of ultra-wideband, low-latency processing housed in a standardized 6U VPX form-factor with a multi-beam, multi-polarization phased array and system controller to create a system prototype. Work will be performed in McKinney, Texas (48.2%); Tewksbury, Massachusetts (44.3%); and Arlington, Virginia (7.5%). Work is expected to be completed in February 2028. Fiscal 2025 and 2026 research, development, test and evaluation (Navy) funds in the amounts of $450,000 and $225,000, respectively, are obligated at the time of award. Funds in the amount of $450,000 will expire at the end of the current fiscal year. This contract was competitively procured under long range broad agency announcement (BAA) N0001425SB001 entitled "Long Range Broad Agency Announcement (BAA) for Navy and Marine Corps Science and Technology." Since proposals were received throughout the year under the Long-Range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-26-C-1106).

BlueHalo Labs LLC., Albuquerque, New Mexico, is awarded a $22,813,536 firm-fixed-price and cost reimbursement modification to a previously awarded contract M67854-25-C-0104 for the procurement of Titan SV MPv3 Systems in support of Program Manager Ground Based Air Defense, Organic-Counter small Unmanned Aerial Systems (O-CsUAS). The O-CsUAS is Urgent Statement of Need designed for air self-defense against the sUAS threat. The modification provides for the procurement of additional Titan SV MPv3 Systems and Spare Parts Kits. Work will be performed in Loudon, Virginia (100%). The delivery of supplies will be on or before July 1, 2026. Fiscal 2025 procurement (Marine Corps) funds in the amount of $22,813,536 will be obligated at the time of award. This contract was awarded under the authority of 10 U.S. Code 2304(a)(2) Unusual and Compelling Urgency for other than full and open competition. Marine Corps System Command, Quantico, Virginia, is the contracting activity (M67854-25-C-0104 P00001).

US Navy Contract 2026

CAE United States of America Inc., Tampa, Florida, is awarded a $19,575,000 firm-fixed-price indefinite-delivery/indefinite-quantity contract to provide logistics and maintenance support for the KC-130J weapon system trainer and the flight training center in support of the government of Kuwait. Work will be performed in West Al Mubarrak, Kuwait, and is expected to be complete by March 2031. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competed. Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity (N6134026D1005).

Vigor Marine, LLC, Portland, Oregon, was awarded a $17,967,447 firm-fixed-price contract (N3220526C1230) for a 75-calendar day shipyard availability for the mid-term availability of Military Sealift Command's replenishment oiler USNS Guadalupe (T-AO 200). This contract includes a base work package and three unexercised options for additional work and time, which if exercised, would increase the cumulative value of this contract to $21,639,539. Work will be performed in Portland, Oregon, beginning Sept. 20, 2026, and is expected to be completed by Dec. 3, 2026. Fiscal 2026 operation and maintenance (Navy) funds in the amount of $17,957,447 are obligated and will expire at the end of the fiscal year. This contract was competitively solicited via the Governmentwide Point of Entry website and one offer was received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Sociedad Española de Montajes Industriales S.A., Madrid, Spain, is awarded a $15,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for construction services. This contract provides for paving of roads and parking lots, interior and exterior painting of facilities, and inspection and repairs to roofs. Work will be performed at Naval Station Rota, Spain, with an expected completion date of March 2031. The maximum dollar value for the 60-month base ordering period is $15,000,000. Fiscal 2026 operations and maintenance, Navy funds in the amount of $7,667 will be obligated at the time of award to satisfy the minimum guarantee and will expire at the end of the current fiscal year. This contract was competitively procured via SAM.gov website, with three offers received. The Naval Facilities Engineering Systems Command, Europe Africa Central is the contracting activity (N33191-26-D-0001)

Precise Systems Inc., Lexington Park, Maryland, is awarded $14,743,228 modification (P00005) to a previously awarded cost-plus-fixed-fee contract (N0042125C0009). This modification adds scope to provide continued project management, program management, change management, business management, configuration and data management, risk management, foreign military sales efforts associated with the

governments of the United Kingdom, Australia, Netherlands, Canada, and Japan, and operations activities support services. Work will be performed in Patuxent River, Maryland, and is expected to be completed in February 2027. Foreign Military Sales customer funds in the amount of $4,103,089 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity

March 2, 2026

Northrop Grumman Systems Corp., Melbourne, Florida, is awarded a $225,109,424 modification (P00011) to a cost-plus-incentive-fee contract (N0001925C0130). This modification exercises options for the design, development, and delivery of all E-130J training weapons systems training materials/courseware, formerly known as E-XX prior to official designation, in support of the Take Charge and Move Out recapitalization program for the Navy. Work will be performed in Orlando, Florida (64%); Oklahoma City, Oklahoma (31%); and Melbourne, Florida (5%), and is expected to be completed in March 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $54,904,255 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Q.E.D. Systems Inc., * Virginia Beach, Virginia, was awarded a $69,601,486 cost-plus-award-fee modification to previously awarded contract (N0002424C4201) to exercise options for specification development and availability execution support requirements for various U.S. Navy surface combatants. Work will be performed in Virginia Beach, Virginia (50%); San Diego, California (30%); Marysville, Washington, in the amount of (10%); and Atlantic Beach, Florida, (10%) and is expected to be completed February 2027. Fiscal 2024 other procurement (Navy) funds in the amount of $8,300,000 (51%); fiscal 2026 operations and maintenance (Navy) funds in the amount of $7,765,600 (48%); fiscal 2025 other procurement (Navy) funds in the amount of $61,071 (less than 1%); fiscal 2025 defense-wide procurement funds in the amount of $5,800 (less than 1%); fiscal 2026 other procurement (Navy) funds in the amount of $34,800 (less than 1%); and fiscal no-year other procurement (Navy) funds in the amount of $2,900 (less than 1%), will be obligated at the time of award, of which $16,065,600 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Feb. 27, 2026)

US Navy Contract 2026

Complete Parachute Solutions Inc., Deland, Florda, is being awarded $15,607,494 for a firm-fixed-price, indefinite-delivery/indefinite-quantity contract. The contract will include a two-year ordering period, with a value of $15,607,494 and a six-month option pursuant to Federal Acquisition Regulation 52.217-8, with a value of $4,107,896. The total estimated value of the contract, if the option is exercised, is $19,715,390. Work will be performed at the contractor's facility in Coolidge, Arizona (100%). The base ordering period is expected to be completed by March 31, 2028. If the option is exercised, ordering will end on Sept. 30, 2028. Fiscal 2026 operation and maintenance (Navy) appropriations of $5,000 will be obligated to fund the contract's minimum amount. These appropriations will expire at the end of the current fiscal year on Sept. 30, 2026. The requirement was solicited as a sole source procurement, and therefore only one offer was received. The contract action was procured under sole-source procedures under the authority of 10 U.S. Code 3204(a)(1) as implemented by FAR 6.302-1, only one responsible source and no other supplies or services will satisfy agency requirements. Naval Supply Systems Command, Fleet Logistics Center Norfolk Contracting Department, Norfolk, Virginia, is the contracting activity (N00189-26-D-L001).

Lockheed Martin Rotary Mission Systems, Moorestown, New Jersey, is awarded a $13,716,095 cost-plus-fixed-fee modification to previously awarded contract (N6339424C0003) to exercise options for in-service engineering agent services in support of command, control, communications, computers, combat systems, and intelligence system elements specific to the Littoral Combat Ship Freedom-variant. Work will be performed in Mayport, Florida (50%); Moorestown, New Jersey (20%); San Diego, California (10%); Baltimore, Maryland (5%); Oldsmar, Florida (5%); Orlando, Florida (5%); and Virginia Beach, Virginia (5%), and is expected to be completed in February 2026. Fiscal 2026 other procurement (Navy) funds in the amount of $22,000 (58%); and fiscal 2024 other procurement (Navy) funds in the amount of $15,679 (42%), will be obligated at time of award, of which $15,679 will expire at the end of the fiscal year. Naval Surface Warfare Center, Port Hueneme Division, Port Hueneme, California, is the contracting activity.

February 27, 2026

Hornbeck Offshore Operators LLC, Covington, Louisiana, was awarded a $291,794,000 firm-fixed-price contract (N3220526C4004) to provide operation and maintenance of four government-owned Transportation Auxiliary General Submarine Escort (T-AGSE) vessels. The vessels under this contract will include United States Naval Ship (USNS) Arrowhead, USNS Eagleview, USNS Westwind, and USNS Black Powder. The contract includes a one-year base period, four 12-month options, and a six-month option under Federal Acquisition

US Navy Contract 2026

Regulation 52.217-8. The contract will be performed in Kings Bay, Georgia; and Bangor, Washington, beginning March 1, 2026, and will conclude Aug. 31, 2031, if all options are exercised. Working capital funds (Navy) in the amount of $46,574,000 are obligated for fiscal 2026 and will not expire at the end of the fiscal year. This contract is Sole Source under the authority of 10 U.S. Code 3204(a)(1). Military Sealift Command, Norfolk, Virginia, is the contracting activity.

The Boeing Co., Seattle, Washington, is awarded $166,841,462 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract to provide engineering analysis, software maintenance, software support services, and modernizations and improvements to software and associated hardware capabilities in support of P-8A systems and software engineering sustainment tasks associated with obsolescence, improvements and enhancements for the Navy. Work will be performed in Seattle, Washington (78%); St. Louis, Missouri (12%); and Huntington Beach, California (9%), and is expected to be complete by December 2030. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001926D0003).

L3 Harris Maritime Services Inc., Norfolk, Virginia (N3220526D1005); L3 Technologies Inc. Herndon, Virginia (N3220526D1006); and Sea Wrench LLC, * Bedford, New Hampshire (N3220526D1007), are each being awarded an indefinite-delivery/indefinite-quantity firm-fixed-price contract to provide engine room control system maintenance and repair onboard Military Sealift Command vessels. The shared ceiling for all three contracts is $49,000,000 with the companies having the opportunity to compete for individual firm-fixed-price orders. This contract contains a five-year ordering period and one six-month option. The contract will be performed on a worldwide basis beginning Feb. 27, 2026, and ending Aug. 26, 2031, if option is exercised. This contract was procured utilizing other than full and open competition, solicited via the Government Point of Entry website; four offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

General Dynamics Mission Systems Inc., Pittsfield, Massachusetts, is being awarded an undefinitized contract action with a not-to-exceed amount of $36,150,000 under contract N0003026C7000, for technical and engineering services for fire control efforts in support of the Nuclear-armed, Sea-Launched Cruise Missile Program. Work will be performed from March 2026 through March 2027, and performed in Pittsfield, Massachusetts (80%); and Manassas, Virginia (20%). Research, development, test, and evaluation (Navy) funding, as

provided in the 2025 One Big Beautiful Bill Act, in the amount of $18,075,000 will be obligated on this award. No funds will expire at the end of the current fiscal year. This contract action is being awarded on a sole source basis under 10 U.S. Code 3204(a)(1) and was previously synopsized on the System for Award Management online portal. Strategic Systems Programs, Washington, D.C., is the contracting activity.

Textron Systems Corp., Hunt Valley, Maryland, is awarded a $32,034,493 cost-plus-fixed-fee and cost modification to a previously awarded contract (N00024-25-C-6309) to exercise an option for Mine Countermeasures Unmanned Surface Vehicle software development and sustainment support. Work will be performed in Hunt Valley, Maryland (60%); Panama City, Florida (30%); and Arlington, Virginia (10%), and is expected to be completed by February 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $1,427,108 (4%) will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics Electric Boat, Groton, Connecticut, is awarded a $44,977,880 cost-plus-fixed-fee modification to a previously awarded delivery order (N00024-24-F-4319) to provide unique parts and specialized material, including initial spares, for Virginia-class submarines. Work will be performed in Groton, Connecticut, and is expected to be completed by September 2028. Fiscal 2025 other procurement (Navy) funds in the amount of $44,977,880 will be obligated at the time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Raytheon Co., Tucson, Arizona, is awarded a $10,762,308 cost-plus-fixed-fee modification to previously awarded contract (N00024-23-C-5401) to exercise options for design agent and engineering support for the rolling airframe missile. Work will be performed in Tucson, Arizona, and is expected to be completed by March 2028. Fiscal 2026 weapons procurement (Navy) funds in the amount of $11,251,387 (89%); fiscal 2026 other procurement (Navy) funds in the amount of $1,100,000 (9%); and fiscal 2025 research, development test and evaluation (Navy) funds in the amount of $300,000 (2%), will be obligated at time of award, of which $300,000 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $9,600,963 modification (P00008) to a previously awarded cost-plus-fixed-fee indefinite delivery/indefinite quantity contract (N0001922D0024). This modification adds scope to provide all required

maintenance and support for the F-35 product support aircraft in support of F-35 acceptance flights for the Air Force, Marines, Navy, Foreign Military Sales customers, and non-U.S. Department of War participants. Work will be performed in Fort Worth, Texas, and is expected to be completed in December 2026. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Innovative Defense Technologies LLC, * Arlington, Virginia, is awarded a $9,364,049 modification (P00009) to contract (N0001423C1006) for the "Naval Digital Engineering Ecosystem (NDEE)" effort. The modification provides for the design, development and accelerated deployment of NDEE-derived Counter-/C5ISRT S&T solutions for field-testing adoption by Naval forces. Innovative Defense Technologies is proposing to refine prototype AI agents and optimization algorithms and integrate these into its Automated Test Re-Test Enterprise Platform AI framework. Work will be performed in Arlington, Virginia. The modification will increase the value of contract line-item number 0006 by $9,364,049 from $9,999,993 to $19,364,042 and extend the period of performance to March 23, 2027. After execution of the modification, the total cumulative value of this contract will be $62,332,183. Fiscal 2025 research, development, test and evaluation (Navy) funds in the amount of $9,293,544 are obligated at time of award and will not expire at the end of the current fiscal year. The Office of Naval Research, Arlington, Virginia, is the contracting activity.

February 26, 2026

The Charles Stark Draper Laboratory, Cambridge, Massachusetts, is being awarded a cost-plus-fixed-fee contract modification (P00028) against a previously awarded and announced contract (N0003024C6001). The total value of the modification award is $179,900,000. This contract award provides Guidance System and Sub-Assembly Repair work. Work will be performed in Cambridge, Massachusetts (15%); Pittsfield, Massachusetts (65%); and Clearwater, Florida (20%), with an expected completion date of Sept. 30, 2027. The contract will be incrementally funded, and no funds will currently expire at the end of the fiscal year. This contract modification was awarded as a sole-source acquisition pursuant to 10 U.S. Code 2304(c)(1) and U.S. Code 2304(c)(4) and was previously synopsized on the System for Award Management (SAM.gov) online portal. Strategic Systems Programs, Washington, D.C., is the contracting activity.

US Navy Contract 2026

M.C. Dean Inc., Tysons, Virginia, is being awarded a $99,997,217 firm-fixed-price, indefinite-delivery/indefinite-quantity contract (N6523626D1023). This commercial contract is for the design, development, delivery, and sustainment of electronic security system and emergency management system solutions for Department of Defense and federal agencies at shore installations worldwide. The contract includes a five-year ordering period. Fiscal 2026 operations and maintenance, Marine Corps funds in the amount of $552,345 will be obligated at time of award. The obligated funds will expire at the end of the current fiscal year. Work will be performed in Washington, D.C. (50 %); and Charleston, South Carolina (50%), and is expected to be completed by February 2031. The contract was competitively procured by full and open competition via the System for Award Management website, with three offers received. Naval Information Warfare Center Atlantic, Charleston, South Carolina, is the contracting activity.

Honeywell International Inc., Minneapolis, Minnesota, is awarded a $30,807,000 firm-fixed-price order (N0001926F0151) against a previously issued basic ordering agreement (N0001921G0020). This order is for the production and delivery of 1,890 Advanced Anti-Radiation Guided Missile Extended Range Inertial Measurement units' life of type buy, to include 703 for the Navy, 530 for the Air Force, 104 for the government of Italy, and 553 for multiple, Foreign Military Sales (FMS) customers. Work will be performed in Minneapolis, Minnesota and is expected to be completed in December 2027. Fiscal 2026 weapons procurement (Navy) funds in the amount of $8,916,100; fiscal 2026 weapons procurement (Air Force) funds in the amount of $8,639,000; fiscal 2024 weapons procurement (Navy) funds in the amount of $2,542,800; Italian cooperative program funds in the amount of $1,695,200; and FMS customer funds in the amount of $9,013,900, will be obligated at the time of award, $2,542,800 of which will expire at the end of the current fiscal year. This order was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Alabama Shipyard LLC, * Mobile, Alabama, is awarded a $21,499,729 firm-fixed-price contract (N3220526C1217) for a 106-calendar day shipyard availability for the mid-term availability of Military Sealift Command's fleet replenishment oiler USNS Kanawha (T-AO 196). This contract includes a base work package and two unexercised options for additional work and time, which if exercised, would increase the cumulative value of this contract to $21,581,625. Work will be performed in Mobile, Alabama, beginning Aug. 5, 2026, and is expected to be completed by Nov. 19, 2026. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $21,499,729 are obligated and will expire at the end of the fiscal year. This contract was a small business set-aside solicited via the

US Navy Contract 2026

Government wide Point of Entry website and three offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Rolls-Royce Corp., Indianapolis, Indiana, is awarded a $18,606,058 firm-fixed-price modification to a previously awarded contract for production of four MT7 turboshaft engines, ancillary parts, and installation kits in support of the Ship to Shore Connector program, Landing Craft, Air Cushion craft. Work will be performed in Indianapolis, Indiana, and is expected to be completed by September 2029. This contract is awarded with funding from the One Big Beautiful Bill Act (Public Law 119-21) and directly supports the national effort to revitalize and rebuild American shipbuilding. One Big Beautiful Bill act funds in the amount of $18,606,058 will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-25-C-2405).

Alabama Shipyard LLC,* Mobile, Alabama, is awarded a $18,205,703 firm-fixed-price contract (N3220526C1226) for a 101-calendar day shipyard availability for the regular overhaul and dry dock availability of Military Sealift Command's replenishment oiler USNS Laramie (T-AO 203). This contract includes a base work package and three unexercised options for additional work and time, which if exercised, would increase the cumulative value of this contract to $18,401,676. Work will be performed in Mobile, Alabama, beginning April 20, 2026, and is expected to be completed by July 29, 2026. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $18,205,703 are obligated and will expire at the end of the fiscal year. This contract was full and open competition solicited via the Government wide Point of Entry website and three offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $17,857,824 modification (P00030) to a previously awarded cost-plus-incentive-fee contract (N0001921C0040). This modification adds scope to provide continued Program Management Office Foreign Liaison Office and process meeting development capability support in support of the ongoing development and integration efforts for the government of Israel as an F-35 Foreign Military Sales (FMS) customer. Work will be performed in Fort Worth, Texas (80%); and undisclosed locations outside the continental U.S. (20%) and is expected to be completed in December 2027. FMS customer funds in the amount of $17,857,824 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

US Navy Contract 2026

Rolls Royce Solutions America Inc., Novi, Michigan, is awarded a $14,659,615 modification to exercise Option Year Three of a previously awarded firm-fixed-price, indefinite-delivery/indefinite-quantity contract (N5523623D0001) in support of the original equipment manufacturer for the Littoral Combat Ships Independence-variant vessels for main propulsion diesel engines, ship service diesel generators, and hydraulic prime movers. The total contract value ceiling remains unchanged at $71,198,157. Work shall be performed in Mayport, Florida (40%); San Diego, California (40%); and various locations which shall be determined at the delivery order level (20%). No funds shall be obligated at the time of this modification award, instead funds shall be obligated per individual delivery orders as they are issued. Southwest Regional Maintenance Center located in San Diego, California, is the contracting activity.

Alabama Shipyard LLC,* Mobile, Alabama, is awarded a $14,309,575 firm, fixed-price contract (N3220526C1209) for lay berth of Military Sealift Command's expeditionary sea base vessel USNS Robert E. Simanek (ESB 7). This contract includes unexercised options for extended lay berth, industrial assist periods, and a mid-term availability, which if exercised, would increase the cumulative value of this contract to $30,716,954. Work will be performed in Mobile, Alabama, and is expected to be completed by Sept. 30, 2027, if all options are exercised. Contract is incrementally funded. Working capital funds (Navy) in the amount of $7,835,745 are obligated for fiscal 2026 and will not expire at the end of the fiscal year. Operations and maintenance (Navy) funds in the amount of $1,250,000 are obligated for fiscal 2026 and will expire at the end of the fiscal year. This contract was a small business set-aside solicited via the sam.gov website and two offers received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

February 25, 2026

Castelion Corp.,* Torrance, California, is awarded a $49,998,005 firm-fixed-price order (N6833526F1022) against a previously issued basic ordering agreement (N6833526G0006). This order provides full-scale prototypes, flight testing, and operational fielding to continue to expedite the Blackbeard Hypersonic Weapons development, integration, testing, and early operational capability in support of Small Business Innovation Research Phase III effort, topic AF231-D026, entitled "Low Cost Highly Manufacturable Long Range Strike Weapon Production." Work will be performed in Torrance, California, and is expected to be completed in November 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $49,998,005 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract action was competed. Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

US Navy Contract 2026

KTH Services JV LLC,* is awarded a $41,369,267, firm-fixed-price, indefinite-delivery/indefinite-quantity contract for regional base operations support services. This contract provides day-to-day operations, including supervision, management, tools, material, equipment, facilities, and transportation necessary to support base operations support services. Work will be performed at various locations within the Naval Facilities Engineering Systems Command Naval District Washington area of responsibility including, but not limited to, Maryland (54%); Washington, D.C. (35%); and Virginia (11%) and is expected to be completed by April 30, 2034. The maximum dollar value, including one 12-month base period and seven 12-month option periods, is $333,942,384. Fiscal 2026 operations and maintenance (Navy) funds will be obligated on individual task orders and will expire at the end of the current fiscal year. This contract was competitively procured via the SAM.gov website, with three offers received. The Naval Facilities Engineering Systems Command Washington, Washington Navy Yard, D.C., is the contracting activity (N40080-26-D-1004).

Lockheed Martin Space of Titusville, Florida, is being awarded an $18,867,588 cost-plus-fixed-fee modification (P00022) to a previously awarded and announced contract (N0003024C0100) for Trident II (D5) Life Extension 2 SSP Alteration Advanced Design and Development Program efforts. Work will be performed in Huntsville, Alabama (30%); Denver, Colorado (17%); Gilroy, California (12%); Folsom, California (12%); McDonald, Tennessee (8%); Palo Alto, California (5%); Sunnyvale, California (5%); Lanham, Maryland (5%); Titusville, Florida (3%); and locations less than 1.0 % each (3%). Work is expected to be completed Aug. 30, 2030. This action will be awarded using fiscal 2026 weapons procurement (Navy) funds in the amount of $18,867,588 and no funds will expire at the end of the current fiscal year. This contract is being awarded to the Contractor on a sole source basis under 10 U.S. Code 2304(a)(1) and was previously synopsized on the Systems for Award Management (SAM) website, with one proposal received. Strategic Systems Programs, Washington, D.C., is the contracting activity. The information contained in the announcement is unclassified.

February 24, 2026

Jacobs Government Services Co., Arlington, Virginia, is awarded a $99,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for architect-engineer services. This contract provides for planning, design, and engineering services to support various project types throughout the Naval Facilities Engineering Systems Command (NAVFAC) Southeast area of responsibility and is expected to be completed by February 2031. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $1,000 will be obligated at time

of award to satisfy the minimum guarantee. Additional funds will be obligated on task orders as they are issued. This contract was competitively procured via contract opportunities on SAM.gov, with 18 offers received. NAVFAC Southeast, Jacksonville, Florida, is the contracting activity (N69450-26-D-0013).

February 23, 2026

BKM Prime AE SB JV LLC,* Baltimore, Maryland, was awarded a $50,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for mechanical, electrical, plumbing, and fire protection architect-engineering services. Work will be performed at Navy and Marine Corps installations in Virginia (40%), Washington, D.C. (20%), and Maryland (40%), and is expected to be completed by February 2031. The maximum dollar value, including the base period and one option period, is $50,000,000. Fiscal 2026 operations and maintenance (Navy) funding in the amount of $5,000 will be obligated at time of award for a minimum guarantee, of which $5,000 will expire at the end of the current fiscal year. This contract was competitively procured via SAM.gov website, with 20 offers received. Naval Facilities Engineering Systems Command Washington, Washington Navy Yard, Washington, D.C., is the contracting activity (N40080-26-D-0002).

Summer Consultants Inc.,* McLean, Virginia, was awarded a $50,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for mechanical, electrical, plumbing, and fire protection architect-engineering services. Work will be performed at Navy and Marine Corps installations in Virginia (40%), Washington, D.C. (20%), and Maryland (40%), and is expected to be completed by February 2031. The maximum dollar value, including the base period and one option period, is $50,000,000. Fiscal 2026 operations and maintenance (Navy) funding in the amount of $5,000 will be obligated at time of award for minimum guarantee, of which $5,000 will expire at the end of the current fiscal year. This contract was competitively procured via SAM.gov website, with 20 offers received. Naval Facilities Engineering Systems Command Washington, Washington Navy Yard, Washington, D.C., is the contracting activity (N40080-26-D-0003).

EVAC North America Inc., Cherry Valley, Illinois, is being awarded $19,874,003 for a firm-fixed-price contract for the procurement of 295 sewage pumping units in support of guided missile destroyer and amphibious transport dock ship classes. The contract does not contain an option provision. Work will be performed in Cherry Valley, Illinois (62%); and Greenville, South Carolina (38%). All work is expected to be completed by March 2027. Fiscal 2026 working capital funds (Navy) in the contract's full amount of $19,874,003 will be obligated at time of award and funds will not expire at the end of the current fiscal year.

US Navy Contract 2026

One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1) and one offer received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity (N00104-26-C-JA05).

GSE Dynamics LLC, Hauppauge, New York, is awarded a $12,778,131 hybrid, cost-plus-fixed-fee services and firm-fixed-price supplies, indefinite-delivery/indefinite-quantity contract for submarine fiberglass fabrication and repair. Work will be performed in Hauppauge, New York, and is expected to be completed by February 2031. Fiscal 2026 other procurement (Navy) funds in the amount of $500 will be obligated at the time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management (SAM) website, with one offer received. Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity (N64498-26-D-1004).

February 20, 2026

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is being awarded a $78,429,802 cost-plus-incentive-fee and cost only contract for engineering labor, program management, engineering other direct costs, travel, and material in support of development, qualification, certification, and integration initiatives required to maintain fielded AN/SQQ-89A(V)15 Surface Ship Undersea Warfare Combat System baselines and perform integration and certification of future baselines. This contract combines purchases for the Navy (82%); and the governments of Japan (13%); and Australia (5%), under the Foreign Military Sales program. This contract includes options which, if exercised, would bring the cumulative value of this contract to $479,933,956. Work will be performed in Manassas, Virginia (73%); Fairfax, Virginia (12%); Uniontown, Pennsylvania (8%); Reston, Virginia (6%); and San Diego, California (1%), and is expected to be completed by February 2027. If all options are exercised, work will continue through February 2031. Fiscal 2023 shipbuilding and conversion (Navy) funds in the amount of $4,098,645 (55%); fiscal 2024 shipbuilding and conversion (Navy) funds in the amount of $2,486,759 (33%); fiscal 2025 shipbuilding and conversion (Navy) funds in the amount of $516,538 (7%); fiscal 2026 research, development, test, and evaluation (Navy) funds in the amount of $250,000 (3%); and fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of $115,993 (2%), will be obligated at the time of award and will not at expire the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 3204(a)(1), only one responsible source and no other supplies or services will satisfy agency

requirements. Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-26-C-5203).

Oshkosh Defense LLC, Oshkosh, Wisconsin, is awarded a $16,858,705 hybrid firm-fixed-price, cost-plus-fixed-fee, modification to the delivery order for the procurement of Remotely Operated Ground Unit for Expeditionary Fires carriers for use in the Navy and Marine Expeditionary Ship Interdiction System. Work will be performed in Oshkosh, Wisconsin (60%); Gaithersburg, Maryland (20%); Alexandria, Virginia (10%); and Pittsburgh, Pennsylvania (10%). Work is expected to be completed in December 2026. Fiscal 2026 procurement (Marine Corps) funds in the amount of $12,270,247 will be obligated at the time of the modification and will not expire at the end of the current fiscal year. Fiscal 2026 research, development, test and evaluation (Marine Corps) funds in the amount of $4,588,459 will be obligated at the time of the modification and will not expire at the end of the current fiscal year. This action is a negotiated modification to the delivery order in accordance with 10 U.S. Code 3403(c). Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-22-F-1005-P00008).

Detyens Shipyards Inc.,* North Charleston, South Carolina, is awarded a $15,145,663 firm-fixed-price contract (N3220526C0008) for the 76-calendar day shipyard availability for the mid-term availability of Military Sealift Command's fleet replenishment oiler vessel USNS Patuxent (T-AO 201). This contract includes a base work package and two unexercised options for additional work and time which, if exercised, would increase the cumulative value of this contract to $15,227,744. Work will be performed in North Charleston, South Carolina, beginning Jume 8, 2026, and is expected to be completed by Aug. 22, 2026. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $15,145,663 are obligated and will expire at the end of the fiscal year. This contract was competitively procured with proposals solicited via the Government wide Point of Entry website and four offers were received. The U.S. Navy 's Military Sealift Command, headquartered in Norfolk, Virginia, is the contracting activity.

February 19, 2026

Mathtech Inc.,* Falls Church, Virginia, is being awarded $10,555,868 for a firm-fixed-price contract for the procurement of 123 Intercommunication Systems (96 for the Navy, 23 for France and four for Japan) in support of the E-2D Advanced Hawkeye Airborne Command and Control platform. The contract does not contain an option provision. All work will be performed in Falls Church, Virginia, and work is expected to be completed by August 2027. This contract involves Foreign Military Sales (FMS) to France (20%), and Japan (3%). Fiscal

2026 working capital funds (Navy) in the amount of $8,132,019 (77%), FMS funds (France) in the amount of $2,064,760 (20%); and FMS funds (Japan) in the amount of $359,089 (3%), will be obligated at time of award and funds will not expire at the end of the current fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1) and one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-26-C-LA25).

Huntington Ingalls Industries, Pascagoula, Mississippi, is awarded a $9,708,500 cost-plus-award-fee modification to a previously awarded contract (N00024-25-C-2400) to exercise an option for the execution of industrial post-delivery availability for the Landing Helicopter Assault Replacement program. Work will be performed in Pascagoula, Mississippi, and is expected to be completed by December 2027. Fiscal 2026 post-delivery shipbuilding and conversion (Navy) funding in the amount of $3,128,806 will be obligated at award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

February 17, 2026

Conrad Shipyard LLC,* Morgan City, Louisiana, is awarded a $29,382,496 firm-fixed-price modification to a previously awarded contract (N00024-22-C-2253) for the detail, design, and construction of one additional Yard Repair, Berthing, and Messing craft and facility improvement incentive. Work will be performed in Amelia, Louisiana, and is expected to be completed by April 2028. Fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $29,045,674 (99%); and fiscal 2022 shipbuilding and conversion (Navy) in the amount of $336,822 (1%), will be obligated at time of award and will not expire at the end of the current fiscal year. This contract action was not competitively procured in accordance with 10 U.S. Code 3204(b)(B) (property or services considered to be available from only one source). Naval Sea Systems Command, Washington, D.C., is the contracting activity

Creare LLC,* Hanover, New Hampshire, was awarded a $20,282,232 firm-fixed-price contract for the production and delivery of 3,000 full-rate production helmets, which includes basic helmets, communication boom helmets, communication cup helmets, helmets with communication for sound, accessories, and spare parts in support of the Small Business Innovation Research (SBIR) Phase III effort based on Phase II SBIR Topic N04-255, titled “Advanced Helmet for Maintainer Head and Hearing Protection” for the Navy. Work will be performed in Salem, Oregon (39%); Carpentersville, Illinois (25%); Lebanon, New Hampshire (18%); Hanover, New Hampshire (16%); Hillsboro, Oregon (1%);

and Ottawa, Ohio (1%), and is expected to be completed in May 2028. Fiscal 2026 other procurement (Navy) funds in the amount of $20,282,232 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity (N0042126C1004). (Awarded on Feb. 12, 2026)

General Electric Co., Lynn, Massachusetts, is being awarded $20,085,584 for a firm-fixed-price delivery order (N00383-26-F-TF04) under a previously awarded basic ordering agreement (N00383-22-G-TF01) for the repair of 16 components supporting the F404 engine, for a total of 275 repairs. The delivery order does not include an option provision. All work will be performed in Lynn, Massachusetts. Work is expected to be completed by December 2027. Fiscal 2026 working capital funds (Navy) in the amount of $20,085,584 will be obligated at the time of award and funds will not expire at the end of the current fiscal year. One source was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1) and one offer was received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

February 13, 2026

Aim World Services Inc., Spring, Texas (N00023-26-D-0001); Alliance Global Group, Owings Mills, Maryland (N00023-26-D-0002); Ami Expeditionary Healthcare LLC, Reston, Virginia (N00023-26-D-0003); Atlas Advisors LLC, Columbus, Ohio (N00023-26-D-0004); Cart.com Inc., Houston, Texas (N00023-26-D-0005); Dynamic Group LLC, Baton Rouge, Louisiana (N00023-26-D-0006); Global Dimensions LLC, Fredericksburg, Virginia (N00023-26-D-0007); King & George LLC, Fort Worth, Texas (N00023-26-D-0008); Liberation Technology Services Inc., Tampa, Florida (N00023-26-D-0009); Longview International Technology Solutions Inc., Herndon, Virginia (N00023-26-D-0010); Luke & Associates Inc., Rockledge, Florida (N00023-26-D-0011); Metrea Special Aerospace ISR Inc., Tampa, Florida (N00023-26-D-0012); MLU Services LLC, Bogart, Georgia (N00023-26-D-0013); Parliament LLC, Beachwood, Ohio (N00023-26-D-0014); Recovery Logistics LLC, Apex, North Carolina (N00023-26-D-0015); RK Strategic Management Solutions LLC, San Antonio, Texas (N00023-26-D-0016); Rock-It Cargo USA LLC, Lititz, Pennsylvania (N00023-26-D-0017); Shipping Consultants Associated USA Inc., St. Johns, Florida (N00023-26-D-0018); Starside Security & Investigation Inc., Diamond Bar, California (N00023-26-D-0019); The Geo Group Inc., Boca Raton, Florida (N00023-26-D-0020); The Millennium Group Int'l LLC, Reston, Virginia (N00023-26-D-0021); World Kinect Government Solutions Inc., Miami, Florida (N00023-26-D-0022); ISS Action Inc., Punta Gorda, Florida (N00023-26-D-0023);

and Planate Management Group LLC, Alexandria, Virginia (N00023-26-D-0024), are being awarded a $55,000,000,000 multiple award, firm-fixed price, indefinite-delivery/indefinite-quantity Worldwide Expeditionary Multiple Award Contract (WEXMAC) Territorial Integrity of the U.S. (TITUS) contract. The WEXMAC Titus 2.2 contract will provide supplies and services in support of, but not limited to, supporting the six phases of the continuum of military operations in support of the geographic Combatant Command's joint operations, coalition partners, and other U.S. federal agencies in setting and sustaining the theater through the following requirements: theater opening (includes reception, staging, onward-movement, and integration support); sustainment; theater distribution; and stability operations and Defense Support of Civil Authorities support. The WEXMAC TITUS description of contractual scope provides that services and supplies provided through the performance of this contract include but are not limited to humanitarian assistance/disaster relief, contingency, exercise, lodging, logistics, water-based, and land-based support. The contracts will run concurrently. The base performance period for these new awardees will begin February 2026 and is expected to be completed by December 2029. If the option is exercised, the performance period will be completed by December 2034. Work will be performed in the U.S. and outlying territories, but because specific requirements cannot be predicted at this time, more specific information about the percentage of work and where it will be performed cannot be currently provided. Fiscal 2026 operations and maintenance funds in the amount of $12,000 will be obligated ($500 on each of the 24 new contracts to fund the contracts' minimum amounts) at time of award and funds will expire at the end of the current fiscal year. Additional funds will be obligated at the task order level with the appropriate fiscal year funding as issued by the customers for each area of responsibility. The requirement was competitively procured as full and open competition with 36 offers received. Naval Supply Systems Command, Mechanicsburg, Pennsylvania, is the contracting activity.

Crowley Government Services Inc., Jacksonville, Florida (N00023-25-D-0018); and SGK Global Services LLC, Stafford, Texas (N00023-25-D-0155), are being modified to increase their base period contract ceiling with the amount of $45,000,000,000 to support Worldwide Expeditionary Multiple Award Contract (WEXMAC) Territorial Integrity of the U.S. (TITUS). WEXMAC TITUS will provide supplies and services in support of but not limited to supporting the six phases of the continuum of military operations in support of the geographic Combatant Command's joint operations, coalition partners, and other U.S. federal agencies in setting and sustaining the theater through the following requirements: theater opening (includes reception, staging, onward-movement, and integration support; sustainment; theater distribution; and stability operations and Defense Support of Civil

Authorities support. The WEXMAC TITUS description of contractual scope provides that services and supplies provided through the performance of this contract include but are not limited to humanitarian assistance and disaster relief, contingency, exercise, lodging, logistics, water-based, and land-based support. The base period began in January 2025 and is expected to be completed by December 2029; if all options are exercised, the performance period will be completed by December 2034. The increased contract ceiling modifications will be incorporated into the contractors' existing base performance period with one five-year option with individual requirements performed under task orders when specific dates and locations are identified. If the option period is exercised, the total estimated contract maximum for each contractor could be $65,000,000,000. Work will be performed in the U.S. and outlying territories outlined in the original contract. Since the specific requirements cannot be predicted at this time, more specific information about the percentage and where the work will be performed cannot be currently provided. Due to the minimum guarantee already being fulfilled, no funding will be obligated for these modifications. Additional funds will be obligated at the task order level with the appropriate fiscal year funding as issued by the customers for each area of responsibility. The requirement was competitively procured as full and open competition with 111 offers received. 114 incumbent offerors were found compliant and responsible and will receive modifications to their existing contracts. Naval Supply Systems Command, Mechanicsburg, Pennsylvania, is the contracting activity.

Vigor Marine LLC, Portland, Oregon, is awarded a $73,424,356 firm-fixed-price contract (N3220526C1223) for a 215-calendar day shipyard availability for the regular overhaul and dry dock availability of Military Sealift Command's submarine tender vessel USS Emory S. Land (AS 39). This contract includes a base work package and five unexercised options for additional work and time, which if exercised, would increase the cumulative value of this contract to $74,812,111. Work will be performed in Portland, Oregon, beginning May 1, 2026, and is expected to be completed by Dec. 1, 2026. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $68,477,669 are obligated and will expire at the end of the fiscal year. Fiscal 2026 Navy working capital funds in the amount of $4,946,687 are obligated and will not expire at the end of the fiscal year. This contract was competitively procured with proposals solicited via the government wide Point of Entry website and one offer was received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Lockheed Martin Rotary and Mission Systems, Moorestown, New Jersey, is awarded a $26,254,791 cost-plus-incentive-fee modification to a previously awarded contract

(N00024-24-C-5131) to exercise options for AEGIS development and test sites operation and maintenance at the Combat Systems Engineering Development Site, SPY-1A Test Facility and Naval Systems Computing Center. This contract combines purchases for the government of Japan (52%); the Republic of Korea (19%); the government of Canada (13%), the government of Australia (10%); the government of Norway (4%); the government of Germany (<1%); and the government of Spain (<1%), under the Foreign Military Sales (FMS) program. Work will be performed in Moorestown, New Jersey, and is expected to be completed by January 2027. FMS (Japan) funds in the amount $8,845,002 (52%); FMS (Korea) funds in the amount of $3,226,571 (19%); FMS (Canada) funds in the amount of $2,326,946 (13%); FMS (Australia) funds in the amount of $1,717,561 (10%); FMS (Norway) funds in the amount of $789,754 (4%); FMS (Germany) funds in the amount of $155,014 (<1%); and FMS (Spain) funds in the amount of $72,593(<1%), will be obligated at the time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a $24,619,976 modification (P00063) to a previously awarded firm-fixed-price contract (N0001920C0009). This modification adds scope to provide on-site engineering, specialized ground test software data loads for various systems, maintenance, and subject matter expert troubleshooting in support of the development and execution of the Electromagnetic Environmental Effects production acceptance compliance tests for F-35 production aircraft for the Air Force, Navy, Marine Corps, and non-U.S. Department of War (DOW) participants. Work will be performed in Fort Worth, Texas and is expected to be completed in June 2027. Fiscal 2025 aircraft procurement (Air Force) funds in the amount of $7,417,958; fiscal 2025 aircraft procurement (Navy) funds in the amount of $7,417,958; and non-U.S. DOW partner funds in the amount of $9,784,060, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Environmental Chemical Corp., Burlingame, California, is awarded a $15,637,425 firm-fixed-price construction contract for mobile operating rooms at Naval Medical Center Camp Lejeune. Work will be performed at Marine Corps Base Camp Lejeune, North Carolina, and is expected to be completed by March 2026. Fiscal 2026 Defense Health program funds in the amount of $15,637,425 will be obligated at time of the award and will expire at the end of the fiscal year. This contract was not competitively procured under the authority of 10 U.S. Code 3204(a)(2), as implemented by Federal Acquisition Regulation

6.302-2, Unusual and compelling urgency. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-26-C-0006).

February 12, 2026

The Raytheon Co., McKinney, Texas, is being awarded $12,975,258 for a ceiling-price not-to-exceed delivery order (N00383-26-F-SV00) under a previously awarded basic ordering agreement (N00383-23-G-SV01) for the repair of six weapon repairable assemblies-for a total quantity of 87 repairs-in support of the F/A-18 aircraft system. The delivery order does not include an option provision. All work will be performed in McKinney, Texas. Work is expected to be completed by December 2028. Fiscal 2026 working capital funds in the amount of $9,731,444 will be obligated at the time of award and funds will not expire at the end of the current fiscal year. One source was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 3204 (a)(1) and one offer was received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

February 11, 2026

BAE Systems Land & Armaments L.P., Maple Grove, Minnesota, was awarded a $23,747,748 indefinite-delivery/indefinite-quantity contract (N00167-26-D-4700) for engineering and fabrication services for propulsor demonstration hardware. This contract includes an option which, if exercised, would bring the cumulative value of this contract to $24,481,470. Work will be performed in Louisville, Kentucky (90%); and Minneapolis, Minnesota (10%). This contract includes a five-year ordering period, inclusive of the option. Fiscal 2025 National Sea-Based Deterrence Fund funds in the amount of $1,863,387 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management (Sam.gov), with three offers received. Naval Surface Warfare System Carderock Division, Bethesda, Maryland, is the contracting activity. (Awarded Feb. 9, 2026)

Applied Physical Sciences, Corp., Groton, Connecticut was awarded a $12,530,528 contract modification to a previously awarded cost-plus-fixed-fee contract (N66001-23-C-4037) for the development of innovative payloads to conduct acoustic warfare to counter active surface sonars, bringing the cumulative face value of the contract to $27,763,578. Work will be performed in Orange, California; Groton, Connecticut; Pawcatuck, Connecticut; Concord, Massachusetts; Arlington, Virginia; and Reston, Virginia. The expected completion date is Feb. 10, 2027. This modification exercises and incrementally funds the first option of the contract. At the time of modification execution, $800,000 in

fiscal 2026-2027 research, development, test and evaluation funds from the Defense Advanced Research Projects Agency were obligated. The contract funds will not expire at the end of the current fiscal year. NIWC Pacific, San Diego, California, is the contracting activity.

February 10, 2026

L3Harris Technologies, Communication Systems-West, Salt Lake City, Utah, is being awarded $11,955,764 for a firm-fixed-price long-term contract for the repair of one component in support of the Multifunctional Information Distribution Systems Low Volume Terminal Block Upgrade 2 with the Common Systems Integrated Weapon Support Team. The contract does not include an option provision. All work will be performed in Salt Lake City, Utah. Work is expected to be completed by February 2031. Applicable fiscal year working capital funds (Navy) will fund the award, but no funds are being obligated at the time of award. One source was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1) and one offer was received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-26-D-U001).

February 9, 2026

RSI Amentum Environmental Solutions LLC, San Francisco, California (N62473-26-D-5205); Aptim Radiological Services LLC, San Diego, California (N62473-26-D-5206); ECC Expeditionary Constructors LLC, Burlingame, California (N62473-26-D-5207); Ferma Corp., Newark, California (N62473-26-D-5208); and Integrated Demolition and Remediation Inc., Anaheim, California (N62473-26-D-5209), were awarded a combined $999,000,000 indefinite-delivery/indefinite-quantity contract for demolition services at the former Hunters Point Naval Shipyard at San Francisco, California, and other large-scale demolition requirements within the Naval Facilities Engineering Systems Command (NAVFAC) Southwest area of operations. Fiscal 2026 operations and maintenance (Navy) funding in the amount of $25,000 will be obligated at contract award. Each contract consists of a base period of two years and three one-year option periods. This contract was competitively procured via the Sam.gov Contract Opportunities website, with five offers received. NAVFAC Southwest, San Diego, California, is the contracting activity. (Awarded Feb. 5, 2026)

RTX Corp., East Hartford, Connecticut, is awarded a not-to-exceed $230,559,766 fixed-price-incentive (firm target), cost-plus-incentive-fee, advanced acquisition, undefinitized contract for the procurement of long lead time materials, parts, components, and efforts

necessary to protect the F135 Lot 20 propulsion system delivery schedule in support of the production of 138 propulsion systems for the Air Force, Marine Corps, Navy, non-U.S. Department of Defense (DOD) partners, and Foreign Military Sales (FMS) customers. Work will be performed in East Hartford, Connecticut (17%); Indianapolis, Indiana (10%); Middletown, Connecticut (8%); Kent, Washington (7%); North Berwick, Maine (4%); EL Cajon, California (3%); Cromwell, Connecticut (3%); Whitehall, Michigan (3%); Portland, Orgeron (2%); San Diego, California (2%); South Bend, Indiana (2%); Columbus, Georgia (1%); Hampton, Virgina (1%); Manchester, Connecticut (1%); Cheshire, Connecticut (1%); Elmwood Park, New Jersey (1%); and various locations within the continental U.S. (34%), and is expected to be completed in May 2031. Fiscal 2025 aircraft procurement (Air Force) funds in the amount of $35,220,000; fiscal 2025 aircraft procurement (Navy) funds in the amount of $26,627,000; non-U.S. DOD partner (Navy) funds in the amount of $42,683,926; and FMS funds in the amount of $126,028,840, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001926C0118).

Telephonics, Farmingdale, New York, is awarded a $16,022,537 modification (P00002) to a previously awarded firm-fixed-price cost-plus-fixed-fee contract (N0001925C0115). This modification adds scope for the production and delivery of 29 P-8A AN/UPX-43(V) Identification Friend Foe Interrogators (IFFI) to include eight sets for the Navy, 14 sets and three spares for the government of Canada, and three sets and one spare for the government of Germany, and 25 P-8A IFFI-Trays. Additionally, this contract procures associated repair of repairables, technical support, and firmware updates in support of the P-8A aircraft. Work will be performed in Farmingdale, New York, and is expected to be completed in April 2028. Fiscal 2024 aircraft procurement (Navy) funds in the amount of $4,932,817; and Foreign Military Sales customer funds in the amount of $11,089,721, will be obligated at the time of award, $4,932,817 of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

February 6, 2026

Northrop Grumman Systems Corp., Melbourne, Florida, is being awarded a $198,000,000 ceiling-priced delivery order (N00383-26-F-S50R) under previously awarded basic ordering agreement (N00383-22-G-S501) for the purchase of 608 power amplifier module spares in support of the E-2D Advanced Hawkeye aircraft. The delivery order does not include an option period. All work will be performed in Melbourne, Florida. Work is expected to be

completed by February 2029. This announcement involves Foreign Military Sales (FMS) from Japan. Working capital funds (Navy) in the amount of $64,307,666; and FMS funds in the amount of $32,712,334, will be obligated at time of award, and funds will not expire at the end of the current fiscal year. One firm was solicited for this non-competitive requirement pursuant to the authority set forth in 10 U.S. Code. 3204 (a)(1), with one offer received. Naval Supply Systems Command, Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

Bechtel Plant Machinery Inc., Monroeville, Pennsylvania, was awarded a $69,235,114 cost-plus-fixed-fee modification to previously awarded contract (N00024-24-C-2112) to exercise an option for Naval Nuclear Propulsion Components. Work will be performed in Monroeville, Pennsylvania (61%); and Schenectady, New York (39%), and is expected to be completed by September 2033. Fiscal 2026 other procurement (Navy) funds in the amount of $11,209,535 was obligated at time of award and funds will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Jan. 30, 2026)

General Atomics, San Diego, California, is awarded a $43,349,633 modification (P00002) to a firm-fixed-price, cost-plus-fixed-fee order (N0001925F0028) against a previously issued basic ordering agreement (N0001921G0014). This modification exercises options to provide continued advancement of the design and development of the future French carrier configuration of the Electromagnetic Aircraft Launch System and Advanced Arresting Gear through the critical design review, resulting in a configuration baseline being established as well as procures technical data to support the configuration. Work will be performed in San Diego, California (89%); Lakehurst, New Jersey (5.5%); Tupelo, Mississippi (3.5%); Boston, Massachusetts (1%); and Patuxent River, Maryland (1%), and is expected to be completed in January 2028. Foreign Military Sales customer funds in the amount of $43,349,633 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This order was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

February 5, 2026

Lockheed Martin Corp., Fort Worth, Texas, is awarded a $47,753,808 modification (P00007) to a previously awarded cost-plus-fixed-fee, level-of-effort, indefinite-delivery/indefinite-quantity contract (N0001920D0007). This modification increases the ceiling to provide for the ongoing development, installation, integration, testing, training, and delivery of the F-35 Autonomic Logistics Information System (ALIS) and Operational Data Integrated Network

(ODIN), to include new capability development and current software modifications. Additionally, this modification continues support for the ALIS-to-ODIN re-architecture endeavor to modernize ALIS in accordance with information technology and software development best practices for the Air Force, Marine Corps, Navy, Foreign Military Sales customers, and F-35 Cooperative Program Partners. Work will be performed in Orlando, Florida (95%); and Fort Worth, Texas (5%), and is expected to be completed in December 2026. No funds are being obligated at time of award; funds will be obligated on individual orders as they are issued. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Blair Remy Merrick MP JV LLC, Oklahoma City, Oklahoma, is awarded a $33,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for architect-engineer design and related services. The work to be performed provides for professional engineering services for the preparation of design-bid-build documents and design-build request for proposals. Work will be performed at locations within the Naval Facilities Engineering Systems Command (NAVFAC) Southeast area of operations and is expected to be completed by February 2031.Fiscal 2026 operations and maintenance, (Navy) funds in the amount of $1,000 will be obligated at time of award to satisfy the minimum contract guarantee. Additional funds will be obligated on individual task orders as they are issued. This contract was competitively procured via contract opportunities on Sam.gov, with 14 offers received. NAVFAC Southeast, Jacksonville, Florida, is the contracting activity (N69450-26-D-0002).

General Dynamics Mission Systems, Taunton, Massachusetts, was awarded a $21,543,345 fixed-price incentive modification to a previously awarded contract (N00024-21-C-6425) to exercise options for Hammerhead mine system assets. Work will be performed in Taunton, Massachusetts, and is expected to be completed by January 2027. Fiscal 2025 weapons procurement (Navy) funds in the amount of $21,543,345 will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Jan. 30, 2026)

February 2, 2026

Lockheed Martin Corp., Liverpool, New York, is awarded a $249,000,000 cost-plus-fixed-fee and firm-fixed-price, indefinite-delivery/indefinite-quantity contract for spares, repairs, engineering services, and depot stand-up support for Surface Electronic Warfare Improvement Program Block Two Electronic Support Anti-Ship Missile Defense System integration. Work will be performed in Liverpool, New York, and is expected to be

completed by February 2031. Fiscal 2025 other procurement (Navy) funds in the amount of $344,788 will be obligated at the time of award, of which none expires at the end of the current fiscal year. This contract was not competitively procured via the System for Award Management website. The contract is a sole-source award under 10 U.S. Code 3204(a)(1) Only one responsible source and no other supplies or services will satisfy agency requirements. Naval Surface Warfare Center Crane, Crane, Indiana, is the contracting activity (N0016426DWM41). (Awarded Feb. 3, 2026)

Kay and Associates Inc., Buffalo Grove, Illinois, was awarded a $165,935,469 modification (P00015) to a previously awarded, cost-plus-fixed-fee, cost reimbursable contract (N0042122C0013). This modification exercises an option to provide maintenance, operation, and management support services for the F/A-18 organizational level, intermediate level, and missile maintenance repair and storage facilities for the government of Kuwait. Work will be performed in undisclosed locations in Kuwait and is expected to be completed in January 2027. Foreign Military Sales customer funds in the amount of $86,567,735 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity. (Awarded Jan. 29, 2026)

WSP-BV Southeast JV, Arlington, Virginia, is awarded a $99,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for multi-discipline architectural and engineering design and related services in support of waterfront projects. Work will be performed at various locations within the Naval Facilities Engineering Systems Command (NAVFAC) Southeast area of operations and is expected to be completed by January 2031. The contract will be funded at the time of award of each task order. This contract was competitively procured via the System for Award Management website, with five offers received. NAVFAC Southeast, Jacksonville, Florida, is the contracting activity (N69450-26-D-0001). (Awarded Feb. 3, 2026)

Tetra Tech/Mason & Hangar JV, Ann Arbor, Michigan, is awarded a $99,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for architect-engineer services. This contract provides for planning, design, and engineering services to support project types throughout the Naval Facilities Engineering Systems Command (NAVFAC) Southeast area of responsibility and is expected to be completed by February 2031. The contract will be funded at the time of award of each task order. This contract was competitively procured via SAM.gov website, with 18 offers received. NAVFAC Southeast, Jacksonville, Florida, is the contracting activity (N69450-26-D-0011). (Awarded Feb. 3, 2026)

US Navy Contract 2026

Kratos Unmanned Aerial Systems Inc., Sacramento, California, is awarded a $61,068,139 modification (P00018) to a previously awarded firm-fixed-price contract (N0001923C0021). This modification exercises options to procure full rate production Lot Seven of the BQM-177A Surface Launched Aerial Targets and 70 Rocket-Assisted Takeoff attachment kits, as well as associated technical and administrative data in support of weapons system test and evaluation and fleet training for the Navy. Work will be performed in, Sacramento, California (50%); Dallas, Texas (20%); Fort Walton Beach, Florida (5%); Blacksburg, Virigina (4%); Santa Ana, California (2%); Newton, Kansas (2%); Concord, California (2%); Milwaukie, Oregon (2%); Chatsworth, California (2%); and various locations within the continental U.S. (11%), and is expected to be completed in August 2028. Fiscal 2024 Weapons Procurement (Navy) funds in the amount of $872,402; fiscal 2025 Weapons Procurement (Navy) funds in the amount of $ $3,489,608; and fiscal 2026 Weapons Procurement (Navy) funds in the amount of $56,706,129, will be obligated at the time of award, $872,402 of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity. (Awarded Feb. 3, 2026)

Aerovironment Inc., Simi Valley, California, is awarded a $23,956,873 firm-fixed-price order (N6833526F0005) against a previously issued basic ordering agreement (N6833524G0056). This order is to perform applied research and development of computer vision and machine learning algorithms and related video/imagery processing software, facilitate transition into operational systems, and provide maintenance and support of deployed instances of these technologies. This contract will include applied research and advanced technology development of concepts for integrating computer vision capabilities with Uncrewed Surface Vessel and other unmanned systems to enable advanced autonomous and swarming behaviors. Work will be performed in Simi Valley, California (11%); Port Heneme, California (11%); San Diego, California (11%); Norfolk, Virgina (11%); Dahlgren, Virgina (11%); Centreville, Virgina (11%); Dugway Proving Ground, Utah (11%); Atlanta, Georgia (11%); and Baltimore, Maryland (12%), and is expected to be completed in February 2031. Fiscal 2025 research, development, test and evaluation (Navy) funds in the amount of $2,812,074 will be obligated at the time of award, all of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Lakehurst, New Jersey, is the contracting activity. (Awarded Feb. 3, 2026)

Detyens Shipyard Inc., North Charleston, South Carolina, is awarded a $19,473,441 firm-fixed-price contract (N3220526C1207) for 88-calendar day shipyard availability for the mid-term availability of Military Sealift Command's fleet replenishment oiler USNS Oscar V.

Peterson (T-AO 206). This contract includes a base work package and three unexercised options for additional work and time which, if exercised, would increase the cumulative value of this contract to $19,715,351. Work will be performed in North Charleston, South Carolina, beginning Feb. 20, 2026, and is expected to be completed by May 18, 2026. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $19,473,441 are obligated and will expire at the end of the fiscal year. This contract was a small business set-aside solicited via the Government wide Point of Entry website and four offers received. Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220526C1207). (Awarded Feb. 3, 2026)

Alabama Shipyard LLC, Mobile, Alabama, was awarded a $14,629,165 firm-fixed-price contract (N3220526C1206) for a 73-calendar day shipyard availability for the mid-term availability of Military Sealift Command's replenishment oiler USNS Joshua Humphreys (T-AO 188). This contract includes a base work package and three unexercised options for additional work and time which, if exercised, would increase the cumulative value of this contract to $14,899,577. Work will be performed in Mobile, Alabama, beginning March 26, 2026, and is expected to be completed by June 6, 2026. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $14,629,165 are obligated and will expire at the end of the fiscal year. This contract was a small business set-aside solicited via the Government wide Point of Entry website and three offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220526C1206). (Awarded Feb. 3, 2026)

Outdoor Venture Cooperation-Engineered Solutions LLC, Stearns, Kentucky, is awarded a $12,293,636 delivery order to a previously awarded firm-fixed-price, indefinite-delivery/indefinite-quantity contract (M67854-25-D-5002) for Multi-Refrigerant TRICON (MRT) production units, MRT Training Systems, and to provide instructor, key personnel and new equipment training. Work will be performed in Stearns, Kentucky, and is expected to be completed in February 2027. Contract funds in the amount of $12,293,636 will not expire at the end of the current fiscal year. This contract was a sole-source acquisition under authority 15 U.S. Code 638(r)(4). Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-26-F-5308). (Awarded Feb. 3, 2026)

January 30, 2026

General Dynamics Mission Systems Inc., Pittsfield, Massachusetts, is being awarded a $255,134,514 hybrid, cost-plus-incentive-fee, cost-plus-fixed-fee, and cost-only contract

(N0003026C1005) for the fiscal 2026-2027 Strategic Weapon System (SWS) Fire Control Subsystem (FCS) efforts. The contract has options in the amount of $485,309,314. This contract award also benefits a Foreign Military Sale to the United Kingdom. Tasks to be performed include FCS development, production, sustainment, modernization, repair, installation, training, and technical engineering services support for the U.S. SSBN, UK SSBN, and SSGN fleets. Work will be performed in Pittsfield, Massachusetts (87%); United Kingdom (4%); Groton, Connecticut (3%); Quonset Point, Rhode Island (2%); Cape Canaveral, Florida (2%); Bangor, Washington (1%); and Kings Bay, Georgia (1%). Work is expected to be completed on June 1, 2033. Fiscal 2026 other procurement (Navy) funds in the amount of $29,638,636; fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $4,430,533; fiscal 2026 weapons procurement (Navy) funds in the amount of $65,721; fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $13,850,000; fiscal 2025 other procurement (Navy) funds in the amount of $1,490,687; fiscal 2025 shipbuilding and conversion (Navy) funds in the amount of $7,429,268; fiscal 2025 weapons procurement (Navy) funds in the amount of $3,800,228; fiscal 2024 shipbuilding and conversion (Navy) funds in the amount of $22,659,599; fiscal 2023 shipbuilding and conversion (Navy) funds in the amount of $31,459,487; and fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of $613,811, are being obligated on this award. Fiscal 2022 shipbuilding and conversion (Navy) funds will expire at the end of the current fiscal year. This contract was awarded as a sole source acquisition pursuant to 10 U.S. Code 3204(a)(1) and was previously synopsized on the System for Award Management (SAM.gov) online portal. Strategic Systems Programs, Washington, D.C., is the contracting authority.

Vigor Marine LLC, Portland, Oregon, is awarded an $89,003,482 firm, fixed-price contract (N3220526C0006) for a 185-calendar day shipyard availability for the regular overhaul and dry dock availability of Military Sealift Command's hospital ship USNS Mercy (T-AH 19). This contract includes a base work package and three unexercised options for additional work and time, which if exercised, would increase the cumulative value of this contract to $90,220,312. Work will be performed in Portland, Oregon, beginning March 20, 2026, and is expected to be completed by Sept. 20, 2026. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $89,003,482 are obligated and will expire at the end of the fiscal year. This contract was competitively procured with proposals solicited via the Government wide Point of Entry website and one offer was received. Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220526C006).

US Navy Contract 2026

Katmai North America LLC, Anchorage, Alaska, is being awarded a $37,600,000 firm-fixed-price and cost reimbursement (travel and other direct cost only) indefinite delivery, indefinite quantity contract with a five-year ordering period for business and operations services in support of the Marine Corps Warfighting Laboratory. The contract ordering period is from Feb.15, 2026 to Feb. 14, 2031. This contract requires performance primarily at the Marine Corps Base Quantico, Virginia. Fiscal 2026 operations and maintenance (Marine Corps) funds in the amount of $1,565,091; and 2026 research and development (Navy) funds in the amount of $579,225, will be obligated at the time of award for task order one. Subsequent task orders will utilize fiscal year operations and maintenance (Marine Corps) and Research and Development (Navy) funds available at time of task order award. This contract was procured as a sole source to an Alaskan Native company under Federal Acquisition Regulation 6.302-5(b)(4), 6.303-1(b), 6.303-2(d), 19.808-1(a) and Class Deviation 2020-O0009.The Marine Corps Installations National Capital Region-Regional Contracting Office, Quantico, Virginia, is the contracting activity (M00264-26-D-0003).

Raytheon Co., Tewksbury, Massachusetts, is awarded a $29,420,128 cost-plus-fixed-fee modification to a previously awarded contract (N00024-22-C-5501) to exercise the Option Year 3 line items for dual band radar (DBR) design agent and technical engineering follow-on requirements support of the DBR systems installed aboard Gerald R. Ford-class aircraft carriers and Zumwalt-class destroyers. Work will be performed in Tewksbury, Massachusetts (40%); Marlborough, Massachusetts (20%); San Diego, California (15%); Norfolk, Virginia (10%); Andover, Massachusetts (5%); Portsmouth, Rhode Island (5%); and Chesapeake, Virginia (5%), and is expected to be completed by January 2027. Fiscal 2026 other procurement (Navy) funds in the amount of $6,115,607 will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Young & Rubicam LLC, New York, New York, is being awarded $29,000,000 for a modification (P00021) increasing the ceiling available to a previously awarded, indefinite-delivery/indefinite-quantity, firm-fixed-price contract (N00189-21-D-Z024). This modification will provide for marketing and advertising services in support of the Navy Recruiting Command advertising program. This modification will bring the estimated cumulative value of the total contract value from the previously modified $550,182,742 to $579,182,742. The original contract included a one-year base ordering period that began in May 2021 with four one-year ordering period options. The contract is in its final fourth-year option ordering period, and the ordering period will be completed by May 2026. Work will be performed in Memphis, Tennessee (59%); and New York, New York (41%). No new

funding will be obligated at time of award. Operations and maintenance (Navy) funds will fund individual orders with appropriate fiscal year appropriations at the time of their issuance. This contract modification action is being executed on a non-competitive basis pursuant to Federal Acquisition Regulation 52.212-4. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department Philadelphia Office, Philadelphia, Pennsylvania, is the contracting activity.

Detyens Shipyards Inc., North Charleston, South Carolina, is awarded a $28,193,867 firm-fixed-price contract (N3220526C1222) for a 136-calendar day shipyard availability for the Post Shakedown Availability of Military Sealift Command's fleet replenishment oiler USNS Robert F. Kennedy (T-AO 207). This contract includes a base work package and four unexercised options for additional work and time, which if exercised, would increase the cumulative value of this contract to $29,016,429. Work will be performed in North Charleston, South Carolina, beginning March 2, 2026, and is expected to be completed by July 15, 2026. Fiscal 2026 operation and maintenance (Navy) funds in the amount of $28,193,867 are obligated and will expire at the end of the fiscal year. This contract was competitively procured with proposals solicited via the Government wide Point of Entry website and four offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220526C122).

The Boeing Co., St. Louis, Missouri, is awarded a $25,507,850 modification (P00004) to a firm-fixed-price order (N0001922F2016) against a previously issued basic ordering agreement (N0001921G0006). This modification adds scope for the production and delivery of 16 infrared search and track (IRST) pod block II weapon replaceable assemblies to include16 fuel tank assemblies, 16 sensor assembly structures, and final system integration and acceptance testing of 16 IRST pods, as well as providing non-recurring engineering, sustainment, and tooling in support of IRST low-rate initial production Lot Eight for the Navy. Work will be performed in St. Louis, Missouri (79.7%); and Santa Ana, California (20.3%), and is expected to be completed in August 2028. Fiscal 2024 aircraft procurement (Navy) funds in the amount of $25,507,850 will be obligated at the time of award, all of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Rotary and Mission Systems, Liverpool, New York, is awarded a $19,079,792 cost-plus-incentive-fee modification to a previously awarded contract (N00024-23-C-6106) to exercise options for engineering and maintenance services at Intermediate Maintenance Activity, Pearl Harbor, Hawaii, in support of the MK48

heavyweight torpedo efforts. Work will be performed in Pearl Harbor, Hawaii, and is expected to be completed by February 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $3,732,335 will be obligated at the time of award and will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Detyens Shipyards Inc., North Charleston, South Carolina, is awarded a $11,028,108 firm-fixed-price contract (N3220526C1220) for a 75-calendar day shipyard availability for the regular overhaul and dry-docking availability of Military Sealift Command's expeditionary fast transport USNS Cody (T-EPF 14). This contract includes a base work package and four unexercised options for additional work and time, which if exercised, would increase the cumulative value of this contract to $11,307,404. Work will be performed in North Charleston, South Carolina, beginning March 30, 2026, and is expected to be completed by June 12, 2026. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $11,028,108 are obligated and will expire at the end of the fiscal year. This contract was a small business set-aside solicited via the Government wide Point of Entry website and three offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Systems & Technology Research LLC, Woburn, Massachusetts (N6600123C4037) was awarded a $9,565,901 contract modification to a previously awarded cost-plus-fixed-fee contract for the development of innovative payloads to conduct acoustic warfare to counter active surface sonars, bringing the cumulative face value of the contract to $20,467,210. Work will be performed in Braintree, Massachusetts; Springfield, Massachusetts; Woburn, Massachusetts; South Kingstown, Rhode Island; and Arlington, Virginia. The expected completion date is Jan. 3, 2027. This modification exercises and incrementally funds the first option of the contract. At the time of the award, $3,000,000 in fiscal 2026-2027 research, development, test, and evaluation funds from the Defense Advanced Research Projects Agency were obligated. The contract funds will not expire at the end of the current fiscal year. NIWC Pacific, San Diego, California, is the contracting activity.

January 29, 2026

Jacobs/B&M JV, Arlington, Virginia, is awarded a $249,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for architect-engineer (A-E) services. This contract provides for multi-discipline A-E projects primarily in the Pacific and Indian Ocean areas under the cognizance of Naval Facilities Engineering Systems Command (NAVFAC),

Pacific. Work will be performed at various locations within the NAVFAC Pacific area of responsibility including, but not limited to Guam (50%), Hawaii (15%), Tinian (10%), Philippines (10%), Australia (10%), and Diego Garcia (5%). The term of the contract is not to exceed 60 months with an expected completion date of January 2031, or until all task orders have been completed. Fiscal 2025 planning and design (Navy) funds in the amount of $10,000 are obligated for the minimum guarantee of this award and will not expire at the end of the current fiscal year. Future task orders will be primarily funded by military construction and operation and maintenance funds. This contract was competitively procured via the sam.gov website with three proposals received. NAVFAC Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-26-D-1206).

Port Madison Construction Corp., Poulsbo, Washington (N44255-23-D-1600); Ayko Group WA Patriot JV, Honolulu, Hawaii (N44255-23-D-1601); Blue Trident Newton JV2, Bainbridge Island, Washington (N44255-23-D-1602); Bristol Prime Contractors, Anchorage, Alaska (N44255-23-D-1603); Doyon Management Services, LLC, Federal Way, Washington (N44255-23-D-1604); DTS P&L JV2, Oak Harbor, Washington (N44255-23-D-1605); Grenlar Shape JV, LLC, Poulsbo, Washington (N44255-23-D-1606); TriCoast – PacTech JV, Longview, Washington (N44255-23-D-1607); Chugach Solutions Enterprise, Anchorage, Alaska (N44255-23-D-1608); and GSINA PAC II JV LLC, Flemmington, New Jersey (N44255-23-D-1609); are awarded a $110,000,000 multiple award construction contract modification for new construction, renovation, alteration, demolition, and repair of facilities. The maximum dollar value, including one three-year base period and one five-year option period, for all 10 contracts combined is $510,000,000. Work will be performed within the Naval Facilities Engineering Systems Command (NAVFAC) Northwest area of responsibility, including Washington (90%), Alaska, Idaho, Iowa, Minnesota, Montana, Nebraska, Oregon, North Dakota, South Dakota, and Wyoming (1% each). Work is expected to be completed by July 2031. Future task orders will be primarily funded by operations and maintenance (Navy), and military construction funds. No funds will be obligated at time of award. This contract was competitively procured via the SAM.gov with twenty-two proposals received. Awardees may compete for task orders under the terms and conditions of the awarded contract. NAVFAC Northwest, Silverdale, Washington, is the contracting activity.

AECOM-BAKER ATLANTIC PLANNING JV, Arlington, Virginia, is awarded a $95,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for multi-discipline architect-engineer services. This contract provides for planning and engineering services for Navy and Marine Corps projects throughout the Naval Facilities Engineering Systems Command (NAVFAC) Atlantic area of operations, with an expected completion date of January 2031.

US Navy Contract 2026

Fiscal 2026 operations and maintenance, Navy funds in the amount of $10,000 will be obligated at time of award to satisfy the minimum guarantee and will expire at the end of the current fiscal year. This contract was competitively procured via SAM.gov website, with two qualification packages received. NAVFAC Atlantic, Norfolk, Virginia, is the contracting activity (N62470-26-D-0003).

Helicopter Institute Inc., Fort Worth, Texas, was awarded $57,484,392 firm-fixed-price indefinite-delivery/indefinite-quantity contract. This contract provides designated Rotary-Wing Naval Flight Students with basic, primary flight instruction in a commercial helicopter in support of the Chief of Naval Air Training. Work will be performed at the Joint Reserve Base, Fort Worth, Texas, and is expected to be complete by October 2030. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competed as a Small Business set-aside, and two offers were received. Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity (N6134026D0001). (Awarded on Jan. 28, 2026)

CCI CAPCO LLC, Grand Junction, Colorado, is being awarded a $38,177,056 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the manufacture of airborne expendable countermeasure devices. This contract includes a five-year ordering period with no options. All work will be performed in Grand Junction, Colorado, and all work is expected to be completed by January 2031. This announcement involves Foreign Military Sales (FMS) to Canada (32%), Israel (12%), Denmark (2%), South Korea (2%), Belgium (1%), Italy (1%), Germany (1%), Japan (1%), Netherlands (1%), Norway (1%), Poland (1%), Switzerland (1%), and the United Kingdom (1%). FMS funds in the amount of $2,993,440 (57%); fiscal 2024 procurement of ammunition (Air Force) funds in the amount of $1,299,993 (24%); fiscal 2025 procurement of ammunition (Navy and Marine Corps) funds in the amount of $631,051 (11%); fiscal 2025 procurement of ammunition (Air Force) funds in the amount of $197,680 (4%); fiscal 2024 procurement of ammunition (Navy and Marine Corps) funds in the amount of $81,847 (2%); fiscal 2026 procurement of ammunition (Navy and Marine Corps) funds in the amount of $79,347 (1%); and fiscal 2025 aircraft procurement (Air Force) funds in the amounts of $35,582 (1%), will be obligated at the time of award to fund delivery order N00104-26-F-BF01 at a total amount of $5,318,940 that will be awarded concurrently with the contract. All fiscal 2024 funds will expire at the end of the current fiscal year and other funds utilized will not. This requirement was solicited as a full and open competition with one offer received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity (N00104-26-D-BF01).

US Navy Contract 2026

Lockheed Martin Rotary and Missions Systems, Owego, New York, is awarded an $18,700,806 modification (P00003) to a firm-fixed-price order (N0001924F1883) against a previously issued basic ordering agreement (N0001923G0002). This modification exercises options to procure 24 digital magnetic anomaly detection kits and associated hardware for the Navy as well as provide associated program management support. Work will be performed in Owego, New York and is expected to be completed in April 2027. Fiscal 2026 aircraft procurement (Navy) funds in the amount of $11,701,750; and fiscal 2024 aircraft procurement (Navy) funds in the amount of $6,999,056, will be obligated at the time of award, $6,999,056 of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Detyens Shipyard's Inc., North Charleston, South Carolina, is awarded a $17,517,910 firm-fixed-price contract N3220526C1221 for a 62-calendar day shipyard availability for the regular overhaul availability of Military Sealift Command's USNS Robert E. Peary (T-AKE 5). This contract includes a base work package and two unexercised options for additional work and time, which if exercised, would increase the cumulative value of this contract to $17,676,554. Work will be performed in North Charleston, South Carolina, beginning April 1, 2026, and is expected to be completed by June 1, 2026. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $17,517,910 are obligated and will expire at the end of the fiscal year. This contract was a small business set-aside solicited via the government wide Point of Entry website and three offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220526C1221).

January 28, 2026

CAPE-APTIM JV1 LLC, Norcross, Georgia, is awarded a $95,000,000 cost-plus-award-fee, indefinite-delivery/indefinite-quantity contract for environmental remedial action services at environmentally contaminated sites. Work will be performed at Navy and Marine Corps installations and other government agencies throughout the Naval Facilities Engineering Systems Command (NAVFAC) Atlantic area of responsibility and is expected to be completed by January 2031. The maximum dollar value, including the base period and four option years, is $95,000,000. Fiscal 2026 environmental restoration, (Navy) funds in the amount of $10,000 will be obligated at time of award to satisfy the minimum guarantee and will expire at the end of the current fiscal year. This contract was competitively procured via SAM.gov website, with three offers received. NAVFAC Atlantic, Norfolk, Virginia, is the contracting activity (N62470-26-D-0004).

US Navy Contract 2026

Ultra Maritime, Braintree, Massachusetts, was awarded a $59,603,232 firm-fixed-price, cost-plus-fixed-fee, and cost indefinite-delivery/indefinite-quantity contract for production of acoustic device countermeasures MK3 and MK4 for in-service submarines. Work will be performed in Braintree, Massachusetts, and is expected to be completed by January 2031. Fiscal 2026 other procurement (Navy) funds in the amount of $8,500,333 (88%); and fiscal 2025 other procurement (Navy) funds in the amount of $1,152,032 (12%), will be obligated for production of acoustic device countermeasures and launch tubes under delivery order N00024-26-F-6227 and will not expire at the end of the current fiscal year. The requirement was competitively procured through full and open competition via System for Award Management with one offer received in response to this solicitation. Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-26-D-6214). (Awarded Jan. 26, 2026)

Black Hills Ammunition Inc., Rapid City, South Dakota, is being awarded a $28,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for 5.56mm reduced ricochet limited penetration MK 255 MOD 1 ammunition. This contract does not include options. Work will be performed in Rapid City, South Dakota, and is expected to be completed by January 2031. Fiscal 2026 Defense procurement funding in the amount of $455,664 will be obligated at the time of award and will not expire at the end of the current fiscal year. This contract was competitively procured on the basis of 100% Small Business Set-Aside, and four offers were received via the Procurement Integrated Enterprise Environment Solicitation module. Naval Surface Warfare Center, Crane Division, Crane, Indiana, is the contract activity (N0016426DJN17).

American Structurepoint Inc., Indianapolis, Indiana, is awarded a combined $12,000,000 firm-fixed-price, single award, indefinite-delivery/indefinite-quantity contract (N0016426D1025) for architect-engineer services related to construction projects located at Naval Support Activity Crane, Indiana, inclusive of Lake Glendora Test Facility. American Structurepoint Inc. will be awarded $491 (minimum contract guarantee) at contract award. This contract is for a cumulative value of $12,000,000 over a five-year period. Work will be performed at Naval Support Activity Crane, Crane, Indiana (90%); and Lake Glendora Test Facility, Sullivan, Indiana (10%), and is expected to continue through January 2031. Fiscal 2026 working capital funding in the amount of $491 will be obligated at the time of award and will not expire at the end of the current fiscal year. All other funding will be made available at the task order level as contracting actions occur. This contract was competitively procured via the System for Award Management website with four offers

received. Naval Surface Warfare Center, Crane Division, Crane, Indiana, is the contracting activity.

Sikorsky Aircraft Corp., a Lockheed Martin Co., Stratford, Connecticut, is awarded a $9,542,931 firm-fixed-price order (N0001926F1020) against a previously issued basic ordering agreement (N0001923G0002). This order is for the production and delivery of tooling in support of CH-53K gearbox and main rotor head maintenance, repair, and overhaul for the CH-53K rotary wing aircraft for the Marine Corps. Work will be performed in Stratford, Connecticut, and is expected to be completed in August 2027. Fiscal 2024 aircraft procurement (Navy) funds in the amount of $9,542,931 will be obligated at the time of award, all of which will expire at the end of the current fiscal year. This contract action was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Syracuse, New York, is awarded a $9,500,000 cost-plus-incentive-fee and cost contract modification to a previously awarded delivery order (N00024-25-F-6260) under an indefinite-delivery/indefinite-quantity contract (N00024-25-D-6211) to exercise options for engineering support related to submarine electronic warfare systems on new construction and in-service submarines. Work will be performed in Syracuse, New York, and is expected to be completed by February 2027. Fiscal 2026 other procurement (Navy) funds in the amount of $4,867,641 will be obligated at the time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

January 27, 2026

TriPoint Solutions LLC, Arlington, Virginia, is being awarded an estimated $36,328,451 firm-fixed-price, indefinite-delivery/indefinite-quantity contract to provide digital integration services including the integration, configuration, customization, and maintenance of the eLearning ecosystem supporting up to 25,000 students yearly, combing software and systems in support of the U.S. Naval Community College. Additionally, the contractor must develop and optimize complex scripts, queries, manage security, workflows, and system configurations to ensure seamless automation, optimal performance, and robust data integration across multiple systems and multi-cloud environments. The contract will include a 60-month base ordering period with an additional six-month ordering period pursuant to Federal Acquisition Regulation 52.217-8. If the option period is exercised, the total estimated value of the contract will have a value of $39,838,083. The base period is expected to begin immediately when awarded in January 2026 and be completed by

January 2031; if the option is exercised, ordering will be completed by July 2031. Work will be performed in Arlington, Virginia (95%); and Quantico, Virginia (5%). Fiscal 2026 operations and maintenance (Navy) funds in the amount of $5,000 will be obligated at time of award to fund the contract's minimum amount, and funds will expire at the end of the current fiscal year. Subsequent task orders will be funded with appropriate fiscal year operations and maintenance funds. The contract was competitively procured with the solicitation posted on the System for Award Management website with five offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk Contracting Dept, Philadelphia, Pennsylvania, is the contracting activity (N00189-26-D-Z004).

Kongsberg Defence & Aerospace, Kongsberg, Norway, is awarded a $22,412,881 firm-fixed-price modification to the previously awarded contract action (M67854-25-C-2023) for Amphibious Combat Vehicle medium caliber cannon protector remote turret 20, hereafter referred to as the "Turret." The total value of the contract, if all options are exercised, is $282,820,227. This contract modification provides for the exercise of the option for the procurement of 16 Turrets for the Advanced Reconnaissance Vehicle program. Work will be performed in Johnstown, Pennsylvania (62%); and Kirkegaardsveien, Norway (38%), with an expected completion date of June 2, 2028. Fiscal 2026 research, development, test and evaluation (Marine Corps) funds in the amount of $8,900,000 will be obligated at the time of award and will not expire at the end of the fiscal year. Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-25-C-0023).

Vectrus Systems LLC, Colorado Springs, Colorado, is awarded a $11,255,401 firm-fixed-price, indefinite-delivery/indefinite-quantity modification to a previously awarded contract (N62470-24-D-0018). This award brings the total cumulative value to $22,852,729. This modification provides for the exercise of Option One for base operating support services at Naval Support Facility Redzikowo. Work will be performed in Redzikowo, Poland, and is expected to be completed by January 2027. No funds will be obligated at time of award. Fiscal 2026 operations and maintenance (Navy) funds will be obligated on individual task orders, subject to the availability of funds. The Naval Facilities Engineering Systems Command, Europe, Africa, Central, is the contracting activity.

January 26, 2026

Skookum Educational Programs, doing business as Tessera, Bremerton, Washington, is awarded a $798,485,058 firm-fixed-price, indefinite-delivery/indefinite-quantity. This contract provides for base operations services within the Naval Facilities Engineering Systems Command Northwest (NAVFAC) area of responsibility, including Naval Base

Kitsap Bangor (54%); Naval Base Kitsap Bremerton (30%); Naval Base Kitsap Keyport (10%); Naval Magazine Indian Island (5%); and other outlying locations (1%). Work is expected to be completed by Sept. 30, 2031. The maximum dollar value, including the base period and four option years, is $798,485,058. No funds will be obligated at time of award. Fiscal 2026 operations and maintenance (Navy); Defense Health Fund; operations and maintenance (Marine Corps); and Family Housing operations and maintenance (Navy) in the amount of $91,425,936, will be obligated for recurring work via task order. This contract was not competitively procured via SAM.gov website. It is a Sole Source Award, AbilityOne, under Federal Acquisition Regulation 8. NAVFAC Northwest, Silverdale, Washington, is the contracting activity (N44255-26-D-0005).

L3Harris Corp., Millersville, Maryland, is awarded a $22,900,118 fixed-price incentive (firm-target) contract N00024-26-C-6100 for production of Towed Body 34A towed array production, integration, and testing. This contract includes options which, if exercised, would bring the cumulative value of this contract to $65,470,348. Work will be performed in Millersville, Maryland (25%); Liverpool, New York (40%); and Ashaway, Rhode Island (35%), and is expected to be completed by July 2028. Fiscal 2024 shipbuilding and conversion (Navy) funding in the amount of $1,964,476 (11%); fiscal 2025 shipbuilding and conversion (Navy) funding in the amount of $1,964,476 (11%); and fiscal 2026 other procurement (Navy) funding in the amount of $14,518,946 (78%), will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management website with two offers received. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics Mission Systems, Manassas, Virginia, is awarded a $22,984,706 cost-plus-fixed-fee modification to a previously awarded contract (N00024-24-C-6240) to exercise options for engineering and technical development and production procurement. Work will be performed in Manassas, Virginia (30%); Groton, Connecticut (25%); Port Orchard, Washington (15%); Las Vegas, Nevada (10%); Cleveland, Ohio (10%); Chesapeake, Virginia (4%); Pearl Harbor, Hawaii (2%); San Diego, California (2%); and Kings Bay, Georgia (2%), and is expected to be completed by January 2027. Fiscal 2026 other procurement (Navy) funds in the amount of $1,700,000 (73%); and fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $625,000 (27%), will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Detyens Shipyards Inc., North Charleston, South Carolina, was awarded a $15,376,216 firm-fixed-price contract (N3220526C0005) for the 76-calendar day shipyard availability for

the midterm availability of Military Sealift Command's fleet replenishment oiler USNS Leroy Grumman (T-AO 195). This contract includes a base work package and two unexercised options for additional work and time which, if exercised, would increase the cumulative value of this contract to $15,507,715. Work will be performed in North Charleston, South Carolina, beginning Feb. 1, 2026, and is expected to be completed by April 17, 2026. Fiscal 2026 operation and maintenance (Navy) funds in the amount of $15,376,216 are obligated and will expire at the end of the fiscal year. This contract was a small business set-aside with proposals solicited via the Government wide Point of Entry website and three offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220526C0005).

January 23, 2026

BAE Systems Information and Electronic Systems Integration Inc., Nashua, New Hampshire, is awarded a $73,798,992 modification (P00006) to a previously awarded firm-fixed-price contract (N0001924C0003). This modification exercises the option to procure 1,248 radio frequency countermeasures in support of the U.S. and Foreign Military Sales (FMS) fighter aircraft. Work will be performed in Nashua, New Hampshire (40%); Elkton, Maryland (16%); Chatsworth, California (7%); Rosamond, California (4%); Dover, New Hampshire (4%); Rochester, New York (4%); Topsfield, Massachusetts (3%); Poughkeepsie, New York (1%); and other various locations within the continental U.S. (21%), and is expected to be completed in February 2029. Fiscal 2025 procurement of ammunition (Navy and Marine Corps) funds in the amount of $3,551,657; fiscal 2026 procurement of ammunition (Navy and Marine Corps) funds in the amount of $9,441,486; fiscal 2026 aircraft procurement (Air Force) funds in the amount of $19,355,045; and FMS funds in the amount of $41,450,803, will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract modification was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Systems Planning and Analysis Inc., Alexandria, Virginia, is being awarded a $67,519,083 cost-plus-fixed-fee term (including option years) task order (N00030-26-F-3021) to support the Trident II Submarine Launched Ballistic Missile Strategic Weapons System (SWS). Tasks to be performed include systems engineering and analysis support, technical assessments and future studies, arms control and treaty support, risk assessment and high consequence event prevention framework, nuclear deterrence mission oversight counsel technical support, program integration support, strategic deterrent industrial base studies, technical studies, technical assessment and systems engineering analysis support, program assistance and analytic support, strategic partner technical studies, enterprise

data management, alteration support, and SWS United Kingdom (U.K.) unique systems engineering and program support. This contract benefits a Foreign Military Sale to the U.K. Work will be performed in Alexandria, Virginia (50%); Washington, D.C. (35%); Arlington, Virginia (5%); Silverdale, Washington (4%); Kings Bay, Georgia (2%); Cape Canaveral, Florida (2%); and the U.K. (2%). Work is expected to be completed on September 30, 2030. Fiscal 2026 operations and maintenance, Navy funds in the amount of $3,406,963, and Fiscal 2026 weapons procurement, Navy funds in the amount of $942,040 will be obligated on this award. Funds in the amount of $3,406,963 will expire at the end of the current fiscal year. This Task Order will be awarded as a sole source acquisition with the authority of 15 U.S. Code 638 Research and Development and was previously synopsized on the System for Award Management (SAM.gov) online portal. Strategic Systems Programs, Washington, D.C., is the contracting activity.

Oceanetics Inc., Annapolis, Maryland, is awarded $20,000,000 for a firm-fixed price, cost-plus-fixed-fee modification to a previously awarded contract (N39430-23-D-4050). This modification provides for an increase in contract capacity. Work will be performed within the Naval Facilities Engineering and Expeditionary Warfare Center (NAVFAC EXWC) area of operations and is expected to be completed by May 2028. This award brings the total cumulative face value of the contract to $149,989,368. No funds will be obligated at time of award. Future task orders will be primarily funded by operations and maintenance, (Navy); Navy working capital fund; research, development, test and evaluation; and other procurement, (Navy) funds. NAVFAC EXWC, Port Hueneme, California, is the contracting activity.

Raytheon Co., Tucson, Arizona, is awarded a $19,299,600 cost-plus-fixed-fee modification to previously awarded contract (N00024-23-C-5401) to exercise options for design agent and engineering support for the Rolling Airframe Missile. This contract combines purchases for the Navy (69%); the government of Japan (25%); the government of Qatar (3%); the government of South Korea (2%); and the government of Canada (1%), under the Foreign Military Sales (FMS) program. Work will be performed in Tucson, Arizona, and is expected to be completed by March 2028. FMS (Japan) funds in the amount of $4,499,906 (25%); fiscal 2025 weapons procurement (Navy) funds in the amount of $4,464,824 (25%); fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $3,539,029 (20%); fiscal 2026 weapons procurement (Navy) funds in the amount of $2,334,251 (13%); fiscal 2026 other procurement (Navy) funds in the amount of $1,815,000 (10%); FMS (Qatar) funds in the amount of $699,964 (3%); FMS (South Korea) funds in the amount of $514,536 (2%); fiscal 2025 research, development, test and evaluation (Navy) funds in the

amount of $97,451 (1%); and FMS (Canada) funds in the amount of $29,919 (1%), will be obligated at time of award, of which $97,451 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Northrop Grumman Systems Corp., Melbourne, Florida, is awarded a $11,506,788 modification (P00119) to a previously awarded cost-plus-fixed-fee contract (N0001918C1037). This modification adds scope for the production and delivery of 82 obsolescence redesign weapons displays (67 for the Navy and 15 for the government of Japan) in support of E-2D Advanced Hawkeye aircraft modernization efforts. Work will be performed in Largo, Florida (89%); and Melbourne, Florida (11%), and is expected to be completed in March 2029. Fiscal 2024 aircraft procurement (Navy) funds in the amount of $9,388,857; and Foreign Military Sales customer funds in the amount of $2,117,931, will be obligated at the time of award, $9,388,857 of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

January 22, 2026

Moffatt & Nichol – Burns & McDonnell Hawaii, Large Business, Honolulu, Hawaii, is awarded an $84,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity modification to a previously awarded contract (N62478-20-D-5035) for architect-engineer services. This award brings the total cumulative face value of the contract to $264,000,000. The contract modification is for design and engineering services for various waterfront projects. Work will be performed at various locations within the Naval Facilities Engineering Systems Command (NAVFAC), Hawaii area of responsibility, including Hawaii (95%); and other South Pacific islands (5%), and is expected to be completed by March 2026. No funds will be obligated at time of award. Fiscal 2026 operation and maintenance (Navy) funds and military construction funds will be obligated on individual task orders. NAVFAC Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62478-20-D-5035).

Corvid Technologies LLC, Mooresville, North Carolina, is awarded a $21,152,050 modification to previously awarded contract (N6339425C0003) for the design, manufacture, and delivery of short/medium range sub-orbital vehicles, including provision of ground test hardware, special test equipment, and materials and engineering and launch support services. This contract combines purchases for the Navy (70%); and the government of Japan (30%), under the foreign military sales program. Work will be performed in Moorestown, North Carolina (37%); White Sands Missile Range, New Mexico (24%); Glen Burnie, Maryland (20%); Benbecula, Scotland (6%), Las Cruces, New Mexico

(4%); Woomera, Australia (3%); Conroe, Texas (2%); Huntsville, Alabama (1%); San Nicolas Island, California (1%); Kekaha, Hawaii (1%); and Wallops Island, Virginia (1%), and is expected to be completed by January 2027. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $3,105,020 (70%); and fiscal 2026 Foreign Military Sales (Japan) funds in the amount of $1,351,992 (30%), will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Surface Warfare Center, Port Hueneme, White Sands Detachment, Port Hueneme, California, is the contracting activity.

Lockheed Martin Corp., Rotary and Mission Systems, Moorestown, New Jersey, is awarded a $9,582,053 cost-plus-incentive-fee, and cost-only modification to a previously awarded contract (N00024-21-C-5105) to exercise options for combat system ship integration and testing on littoral combat ships and unmanned surface vessels. Work will be performed in Seattle, Washington (45%); Moorestown, New Jersey (32%); San Diego, California (7%); Camden, New Jersey (6%); Pascagoula, Mississippi (4%); Jacksonville, Florida (3%); Washington, D.C. (1%); Virginia Beach, Virginia (1%); and Marinette, Wisconsin (1%), and work is expected to be completed by February 2027. Fiscal 2026 other procurement (Navy) funds in the amount of $1,500,000 (88%); and fiscal 2025 other procurement (Navy) funds in the amount of $195,057 (12%), will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command in Washington, D.C., is the contracting activity.

January 21, 2026

Bechtel Plant Machinery Inc., Monroeville, Pennsylvania, was awarded an $812,147,242 cost-plus-fixed-fee contract for naval nuclear propulsion components. Work will be performed in Monroeville, Pennsylvania (80%); and Schenectady, New York (20%), and is expected to be completed by September 2034. Fiscal 2026 shipbuilding and conversion (Navy) funds in the amount of $488,708,740 were obligated at time of award and funds will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 3204(a)(1) (only one responsible source and no other supplies or services will satisfy agency requirements). Naval Sea Systems Command, Washington, D.C., is the contracting activity 2026 (N00024-24-C-2115). (Awarded Jan. 16, 2026)

Raytheon Co., Tucson, Arizona, is awarded a $380,809,286 fixed-price incentive and firm-fixed-price modification (P00010) to a contract (N0001925C0071). This modification definitized the contract for a total of $476,519,069 and adds scope for the Lot Five and Lot Six recertification and modernization of Tomahawk Missiles; depot operations;

recertification hardware; and Tomahawk Spares and/or replacement components, including rotable pool assets. Work will be performed in Tucson, Arizona (30%); Boulder, Colorado (28%); Pontiac, Michigan (11%); Lincoln, Nebraska (6%); Clearwater, Florida (6%); Irvine, California (5%); East Camden, Arkansas (3%); Keyser, West Virginia (2%); Chandler, Arizona (1%); Huntsville, Arkansas (1%); Ontario, California (1%); Los Alamitos, California (1%); Midland, Canada (1%); and various other continental U.S. locations (6%), and is expected to be completed in April 2029. Fiscal 2024 missile procurement (Army) funds in the amount of $7,297,580; fiscal 2024 procurement (Marine Corp) funds in the amount of $4,776,598; fiscal 2024 weapon procurement (Navy) funds in the amount of $202,131,943; fiscal 2025 weapon procurement (Navy) funds in the amount of $155,042,288; and Foreign Military Sales funds in the amount of $99,449,027, will be obligated at the time of award, $214,206,121 of which will expire at the end of the current fiscal year. This contract was not competed. Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001925C0071).

Critical Communications, Controls and Instruments LLC, Exeter, New Hampshire (N6833526D0005); Calzoni S.R.L, Caldereara di Reno, Italy (N6833526D0006); and Valkyrie Enterprisers LLC, Virginia Beach, Virginia (N6833526D0007), are each awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple award contract. The estimated aggregate ceiling for all contracts is $70,000,000, with the companies having an opportunity to compete for individual orders. These contracts procure Horizon Reference Systems (HRS) for various Navy vessels for the aircraft launch and recovery equipment program office. The HRS scope includes design, installation, and support requirements to equip future Freedom and Independence class littoral combat ships, Arleigh Burke class guided missile destroyers, and possible future ship classes not yet defined with a HRS. Additionally, retrofit legacy HRS may be installed on Arleigh Burke class guided missile destroyers and Ticonderoga class guided-missile cruiser ship classes under this effort. Work will be performed in Exeter New Hampshire; Caldereara di Reno, Italy; and Virginia Beach, Virginia. The percentage of work performed at each location is not known until award of individual orders and is expected to be completed in January 2031. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. These contracts were competitively procured as an unrestricted full and open competition; three proposals were received. The Naval Air Systems Command, Lakehurst, New Jersey, is the contracting activity.

Raytheon Co., Tucson, Arizona, was awarded a $58,994,042 cost-plus-fixed-fee modification to a previously awarded contract (N00024-23-C-5410) to exercise options for

US Navy Contract 2026

Standard Missiles 2 and 6 (SM-2/6) engineering and technical support. This contract involves Foreign Military Sales to Australia, Chile, Denmark, and South Korea. Work will be performed in Tucson, Arizona, and is expected to be completed by March 2028. Fiscal 2026 research, development, test and evaluation (Navy) funds in the amount of $1,525,000 (50%); Foreign Military Sales (FMS) (South Korea) funds in the amount of $746,250 (25%); FMS (Chile) funds in the amount of $311,850 (10%); FMS (Denmark) funds in the amount of $295,000 (10%); and FMS (Australia) funds in the amount of $148,000 (5%), will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Jan. 20, 2026)

Lockheed Martin Rotary and Mission Systems Moorestown, New Jersey, is awarded a $22,220,762 cost-plus-fixed-fee contract for lifecycle logistics, and engineering and technical services for all in-service or post-production Aegis Weapon System combatant ships, Coast Guard cutters, the Surface Combat Systems Center, the AEGIS Training and Readiness Center, and the Integrated Warfare Systems Laboratory. This contract includes options which, if exercised, would bring the cumulative value of this contract to $99,903,347. Work will be performed in Moorestown, New Jersey, and is expected to be completed by January 2027. If all options are exercised, work will continue through January 2031. Fiscal 2026 operation & maintenance (Navy) funds in the amount of $1,611,973 will be obligated at the time of award and will expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 3204(a)(1), only one responsible source and no other supplies or services will satisfy agency requirements. Naval Surface Warfare Center Port Hueneme Division, Port Hueneme, California, is the contracting activity (N6339426C4001).

Integer Technologies LLC, Columbia, South Carolina, is awarded a $10,657,183 option exercise contract modification (P00001) to a contract (N0001425C2204) for the “Intelligent Autonomous Systems for Seabed Warfare” effort. The modification provides continuing science and technology research into an operational decision-support tool for intelligent autonomous systems conducting seabed warfare and undersea missions. The tool consists of physics and data-based models, deployed at the edge, that allow for real-time processing of seabed warfare sensor datasets, monitoring of the evolving environmental conditions in an area of operation, and real-time adaptation of onboard data collection, data processing, and vehicle command parameters to maximize the likelihood of mission success. The tool has the potential to improve the intelligence and independence of autonomous systems employed on seabed warfare missions, to enable multi-domain seabed warfare missions, and allow for autonomous systems to operate for significantly

longer with minimal human intervention. The project will develop and demonstrate the application of edge deployed modeling and simulation tools, combined with artificial intelligence and machine learning to real-time decision making for intelligent autonomous systems. Work will be performed in Columbia, South Carolina, and is expected to be completed in January 2029. The total cumulative value of this contract is $24,803,999, inclusive of the base amount of $4,377,498; the Option One amount of $10,657,183; and the Option Two amount of $9,769,318. The base is fully funded in the amount of $4,377,498, while Option One will be incrementally funded with an initial obligation of $6,630,250. Fiscal 2025 research, development, test and evaluation (Navy) funds in the amount of $6,630,250 are obligated at time of award and will expire at the end of the current fiscal year. The Office of Naval Research, Arlington, Virginia, is the contracting activity.

January 16, 2026

WEXMAC TITUS will provide supplies and services in support of but not limited to supporting the six phases of the continuum of military operations in support of the geographic Combatant Command's joint operations, coalition partners, and other federal agencies in setting and sustaining the theater through the following requirements: theater opening (includes reception, staging, onward-movement, and integration support; sustainment; theater distribution; and stability operations and Defense Support of Civil Authorities support. The WEXMAC TITUS description of contractual scope provides that services and supplies provided through the

performance of this contract include but are not limited to humanitarian assistance/disaster relief, contingency, exercise, lodging, logistics, water-based, and land-based support. The base period began in January 2025 and is expected to be completed by December 2029; if all options are exercised, the performance period will be completed by December 2034. The increased contract ceiling modifications will be incorporated into the contractors' existing base performance period with one five-year option with individual requirements performed under task orders when specific dates and locations are identified. If the option period is exercised, the total estimated contract maximum for each contractor could be $65,000,000,000. Work will be performed in the U.S. and outlying territories outlined in the original contract. Due to the fact that the specific requirements cannot be predicted at this time, more specific information about the percentage and where the work will be performed cannot be currently provided. Due to the minimum guarantee already being fulfilled, no funding will be obligated for these modifications. Additional funds will be obligated at the task order level with the appropriate fiscal year funding as issued by the customers for each area of responsibility. The requirement was competitively procured as full and open competition with 109 offers received. 114 incumbent offerors were found compliant and responsible and will receive modifications to their existing contracts. Naval Supply Systems Command, Mechanicsburg, Pennsylvania, is the contracting activity.

BAE Systems, Maritime Solutions Norfolk, Norfolk, Virginia, was awarded a $204,160,189 firm-fixed-price (FFP) contract action for maintenance, modernization and repair of USS Iwo Jima (LHD 7) fiscal 2026 Selected Restricted Availability (SRA). The scope of this acquisition includes all labor, supervision, equipment, production, testing, facilities, and quality assurance necessary to prepare for and accomplish the Chief of Naval Operations Availability for critical modernization, maintenance, and repair programs. This contract includes options, which, if exercised, would bring the cumulative value of this contract to $255,879,128. Work will be performed in Norfolk, Virginia, and is expected to be completed by February 2028. Fiscal 2026 other procurement, (Navy) funds in the amount of $119,289,270 (58%); fiscal 2026 operations and maintenance, (Navy) funds in the amount of $83,921,516 (41%); fiscal 2025 other procurement, (Navy) funds in the amount of $753,338 (<1%); and navy working capital funds in the amount of $196,065 (<1%), will be obligated at the time of award and $83,921,516 will expire at the end of the current fiscal year. This contract was competitively solicited using full and open competition via the System for Award Management website, with three offers received. Naval Sea Systems Command, Washington, D.C., is the contracting activity (N0002426C4405).

US Navy Contract 2026

Harbert International LLC, Birmingham, Alabama (N62473-21-D-1203); Clark Construction Group – California LP, Irvine, California (N62473-21-D-1204); ECC Infrastructure LLC, Burlingame, California (N62473-21-D-1205); Harper Construction Co., Inc., San Diego, California (N62473-21-D-1206); Heffler Contracting Group, El Cajon, California (N62473-21-D-1207); Korte Construction Co., doing business as The Korte Co., St. Louis, Missouri (N62473-21-D-1208); M. A. Mortenson Co., doing business as M.A. Mortenson Construction, Minneapolis, Minnesota (N62473-21-D-1209); R. A. Burch Construction Co. Inc., Ramona, California (N62473-21-D-1210); RQ Construction LLC, Carlsbad, California (N62473-21-D-1211); Sundt Construction Inc., Tempe, Arizona (N62473-21-D-1212); Walsh Federal LLC, Chicago, Illinois (N62473-21-D-1213); Webcor Construction LP, doing business as Webcor Builders, Alameda, California (N62473-21-D-1214); and The Whiting-Turner Contracting Co., Baltimore, Maryland (N62473-21-D-1215), was awarded a combined $149,000,000 modification to a previously awarded multiple award construction contract. This award brings the total cumulative face value of the contract to $2,944,000,000. This contract modification provides for new construction, renovation, and repair of commercial and institutional facilities at various locations in the Naval Facilities Engineering Systems Command (NAVFAC) Southwest area of operations and is expected to be completed by November 2026. No funds were obligated at time of award. Future task orders will be primarily funded by military construction (Navy), operation and maintenance (O&M) (Navy), or O&M (Marine Corps). This contract was competitively procured via the sam.gov website, with 28 offers received. NAVFAC Southwest, San Diego, California, is the contracting activity. (Awarded Dec. 23, 2025.)

ShadowObjects LLC, Leonardtown, Maryland, was awarded $49,989,400 firm-fixed-price, level-of-effort, indefinite-delivery/indefinite-quantity contract to provide comprehensive lifecycle functional and technical coordination for the Naval Air Systems Command (NAVAIR) Contracts eBusiness Systems, ensuring seamless operation, modernization, and alignment with NAVAIR's strategic objectives. These services encompass the sustainment

and eventual sunsetting of existing systems and the implementation, data migration, and strategic documentation required for future systems. A key focus of this effort is the integration of contract writing systems, enterprise resource planning systems, and associated eBusiness systems to enhance operational efficiency and compliance. Work will be performed in Patuxent River, Maryland (86%); St. Inigoes, Maryland (2%); Orlando, Florida (2%); Jacksonville, Florida (2%); Washington D.C. (2%); Lakehurst, New Jersey (2%); and various locations within the continental U.S. (4%), and is expected to be complete by December 2030. No funds will be obligated at the time of award; funds will be obligated as orders are issued. This contract was not competed. NAVAIR, Patuxent River, Maryland, is the contracting activity (N0042126D0008).

AAR Government Services Inc., Wood Dale, Illinois, was awarded a $21,467,918 modification (P00014) to a firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This modification exercises options to provide continued contractor logistics support services required for operating and maintaining the C-40A aircraft, aircraft subsystems, appliances and support equipment, including depot-level maintenance, main operating base and supply support, and commercial line maintenance for the Navy. Work will be performed in Indianapolis, Indiana (40%); Fort Worth, Texas (22.5%); Kaneohe Bay, Hawaii (17.5%); Jacksonville, Florida (5%); North Island, California (5%); Oceana, Virginia (5%); and Whidbey Island, Washington (5%), and is expected to be completed by June 2026. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competed (for). Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Rockwell Collins Inc., doing business as Collins Aerospace Government Systems, Cedar Rapids, Iowa, was awarded a $20,338,803 modification (P00002) to a firm-fixed-price, cost reimbursable order (N0001925F0025) against a previously issued basic ordering agreement (N0001924G0017). This modification exercises an option for the production and delivery of three E-6B full rate production high power transmit set modernization kits for the Navy. Work will be performed in Richardson, Texas, and is expected to be completed in June 2027. Fiscal 2026 aircraft procurement (Navy) funds in the amount of $20,338,803 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This order was not competed (for). Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Alabama Shipyard LLC, Mobile, Alabama, is awarded a $16,840,735 firm, fixed-price contract (N3220526C0004) for the 98-calendar day shipyard availability for the deactivation of Military Sealift Command's fleet oiler vessel USNS John Ericsson (T-AO

194). This contract includes a base work package and three unexercised options for additional work and time, which if exercised, would increase the cumulative value of this contract to $17,159,569. Work will be performed in Mobile, Alabama, beginning Feb. 28, 2026, and is expected to be completed by June 5, 2026. Fiscal 2026 operation and maintenance (Navy) funds in the amount of $16,840,735 are obligated and will expire at the end of the fiscal year. This contract was small business set aside solicited via the government wide Point of Entry website and three offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220526C0004).

Bell Textron Inc., Fort Worth, Texas, was awarded a $14,071,857 modification (P00012) to a cost-plus-fixed-fee order (N0001924F2602) against a previously issued basic ordering agreement (N0001921G0012). This modification exercises options to provide continued program management, engineering, and logistics services for calendar year 2026 in support of modification integration and sustainment efforts for the AH-1Z Viper and UH-1Y Venom helicopters for the Marine Corps; and the governments of Bahrain, and the Czech Republic. Work will be performed in Fort Worth, Texas (80%); and Patuxent River, Maryland (20%), and is expected to be completed in December 2026. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $1,931,180; fiscal 2026 aircraft procurement (Navy) funds in the amount of $363,332; and Foreign Military Sales customer funds in the amount of $4,342,043, will be obligated at the time of award, $1,931,180 of which will expire at the end of the current fiscal year. The order and contract being modified were not competed (for). Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Virginia Pilot Association, Virginia Beach, Virginia, was awarded $13,101,154 firm-fixed-price, indefinite-delivery/indefinite-quantity contract to provide pilot services in support of Commander, Navy Region Mid-Atlantic Port Operations to assist with the navigation of ships in and out of areas from Cape Henry to the Potomac River and Chesapeake Bay areas. The contract will include a 60-month base ordering period with an additional six-month option pursuant to Federal Acquisitions Regulation (FAR) 52.217-8, which if exercised, will bring the total value to $14,485,330. The base ordering period is expected to be completed by December 2030 and if the option is exercised by June 2031. All work will be performed in navigable waterways in the Hampton Roads, Virginia, area with the program management team based in Norfolk, Virginia. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $199,567 will be obligated to fund the contract's minimum amount and funds will expire at the end of the current fiscal year. Subsequent task order under the contracts will be funded with appropriate fiscal year

operations and maintenance (Navy) funds. This contract was competitively procured under a small business set-aside requirement via the System for Award Management (SAM.gov) website pursuant to FAR Part 15 (Contracting by Negotiation) with one offer received. Naval Supply Systems Command Fleet Logistics Center Norfolk Regional Directorate, Norfolk, Virginia, is the contracting activity (N00189-26-D-0003).

General Dynamics Information Technology Inc., Falls Church, Virginia, was awarded a $12,584,393 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the management, technical services, labor, material, support services, equipment, and facilities to accomplish repair and refurbishment of MK-41 Vertical Launch Systems on board Navy and/or other military type vessels. This contract includes options and if all options are exercised the total value will be $25,542,731. Work will be primarily performed within a 50-mile radius of Norfolk, Virginia, and is expected to be completed by Dec. 23, 2026. If all options are exercised, work will continue until Dec. 23, 2027. Fiscal 2026 operations and maintenance (Navy) funds in the amount of $2,000 will be obligated for the minimum guarantee and will expire at the end of the current fiscal year. This contract was procured as full and open competition via the System for Award Management website with two offers received. Mid-Atlantic Regional Maintenance Center, Norfolk, Virginia, is the contracting activity (N50054-26-D-0007).
