

December 30, 2021

Raytheon Co., Tucson, Arizona, is awarded a \$55,121,826 cost-plus-fixed-fee modification to a previously awarded contract (N0002421C5434) for engineering and technical services in support of the Evolved SeaSparrow Missile and NATO SeaSparrow Missile Systems programs. This contract combines purchases for the U.S. government (99%); and the governments of Japan and United Arab Emirates (1%) under the Foreign Military Sales (FMS) program. Work will be performed in Tucson, Arizona (82%); Portsmouth, Rhode Island (17%); Andover, Massachusetts (less than 1%); San Jose, California (less than 1%); Aranjuez, Spain (less than 1%); Brisbane, Australia (less than 1%); and Koropi Attica, Greece (less than 1%). Work is expected to be completed by December 2022. Fiscal 2022 other customer funds in the amount of \$18,590,172 (47%); fiscal 2022 operations and maintenance (Navy) funds in the amount of \$2,169,628 (5%); fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$4,368,863 (11%); fiscal 2022 other procurement (Navy) funds in the amount of \$2,987,831 (7%); fiscal 2022 weapon procurement (Navy) funds in the amount of \$11,591,952 (29%); FMS Japan funds in the amount of \$70,000 (less than 1%); and FMS United Arab Emirates funds in the amount of \$45,567 (less than 1%), will be obligated at time of award, and funds in the amount of \$2,169,628 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a \$30,890,765 not-to-exceed undefinitized contract action modification to a previously awarded contract (N00024-20-C-2120) for lead yard support and development studies and design efforts related to Virginia-class submarines. Work will be performed in Groton, Connecticut, and is expected to be completed by November 2024. Fiscal 2022 research, development, test, and evaluation (Navy) funding of \$8,000,000 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured. The statutory authority for this sole source award is in accordance with Defense Federal Acquisition Regulation 6.302-1(a)(2)(iii) - only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Alabama Shipyard, Mobile, Alabama, is awarded a \$25,964,083 firm-fixed-price contract (N3220522C4031) for a 150-calendar day shipyard availability for the regular overhaul and dry-docking of Military Sealift Command's hospital ship USNS Comfort (T-AH 20). This contract includes a base period and 11 options which, if exercised, would bring the cumulative value of this contract to \$28,535,957. Work will be performed in Mobile, Alabama, begin March 1, 2022, and is expected to be completed by July 28, 2022. Working capital funds (Navy) in the amount of \$25,964,083 are obligated for fiscal 2022 and will not expire at the end of the fiscal year. This contract was a small business set-aside with proposals solicited via the Government Point of Entry website with two offers received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220522C4031).

SAFE Boats International, Bremerton, Washington, is awarded a \$25,556,452 firm-fixed-price modification to a previously awarded contract (N00024-21-C-2201) for the exercise of options for construction, outfitting, reactivation, and training of two Mark VI (MK VI) patrol boats. Work will be performed in Tacoma, Washington, and is expected to be completed by March 2026. Fiscal 2021 Building Partner Capacity using Ukraine Security Assistance Initiative funds in the amount of \$25,556,452 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Electric Aviation, Lynn, Massachusetts, is awarded a \$13,275,057 cost-plus-fixed-fee order (N0042122F0065) against a previously issued basic ordering agreement (N0042119G0001). This order provides engineering services and engine system improvement support for the F408 engine component improvement program. Work will be performed in Lynn, Massachusetts, and is expected to be completed

in December 2022. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount \$5,000,000 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

December 29, 2021

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a not-to-exceed \$847,025,000 fixed-price incentive (firm-target) modification (P00009) to a previously awarded advance acquisition contract (N0001920C0009). This modification increases the scope to procure long lead materials, parts, components, and efforts associated with the production of 105 Lot 17 Joint Strike Fighter aircraft for the Air Force, Navy, Marine Corps, non-U.S. Department of Defense (DOD) participants and Foreign Military Sales (FMS) customers. Work will be performed in Fort Worth, Texas (57%); El Segundo, California (14%); Warton, United Kingdom (9%); Orlando, Florida (4%); Cameri, Italy (4%); Nashua, New Hampshire (3%); Baltimore, Maryland (3%); San Diego, California (2%); Nagoya, Japan (2%); and various locations outside the continental U.S. (2%), and is expected to be completed in May 2026. Fiscal 2022 aircraft procurement (Air Force) funds in the amount of \$292,685,000; fiscal 2022 aircraft procurement (Navy) funds in the amount of \$191,940,000; non-U.S. DOD participant funds in the amount of \$236,500,000; and FMS funds in the amount of \$125,700,000 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Bechtel Plant Machinery Inc., Monroeville, Pennsylvania, is awarded a \$707,194,284 cost-plus-fixed-fee modification to previously-awarded contract N00024-19-C-2114 for naval nuclear propulsion components. Work will be performed in Monroeville, Pennsylvania (70%); and Schenectady, New York (30%). Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$707,194,284 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

VT Halter Marine Inc., Pascagoula, Mississippi, is awarded a \$552,654,757 fixed-price incentive modification to previously awarded contract N00024-16-C-2210 to exercise an option for the detail design and construction of the second Coast Guard Polar Security Cutter. Work will be performed in Pascagoula, Mississippi (61%); Metairie, Louisiana (12%); New Orleans, Louisiana (12%); San Diego, California (4%); Mossville, Illinois (4%); Mobile, Alabama (2%); Boca Raton, Florida (2%); and other locations (3%), and is expected to be completed by September 2026. Fiscal 2021 procurement, construction, and improvement (Coast Guard) funds in the amount of 485,129,919 (80%); fiscal 2020 procurement, construction, and improvement (Coast Guard) funds in the amount of \$100,000,000 (17%); and fiscal 2019 procurement, construction, and improvement (Coast Guard) funds in the amount of \$20,000,000 (3%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin, Rotary and Mission Systems, Moorestown, New Jersey, is awarded a \$62,355,202 cost-plus-incentive-fee and cost-only modification to previously awarded contract N00024-19-C-5603 to exercise options for Ship Self-Defense System (SSDS) combat system engineering support. Work will be performed in Moorestown, New Jersey (85%); and San Diego, California (15%), and is expected to be completed by December 2022. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$3,016,667 (91%); fiscal 2022 operations and maintenance (Navy) funds in the amount of \$285,082 (8%); and fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$20,000 (1%) will be obligated at time of award and will have 2410a authority. Funds in the amount of \$305,082 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Northrop Grumman Systems Corp. Sperry Marine, Saint Rose, Louisiana (N3220522D0005); Northrop Grumman Systems Corp., Charlottesville, Virginia (N3220522D0006); NAV Systems Inc., Chesapeake, Virginia (N3220522D0007); and NAVTECH Marine Electronics, Honolulu, Hawaii (N3220522D0008), were awarded a multiple award, indefinite-delivery/indefinite-quantity contract with a shared ceiling of \$55,940,500. This award fulfills Military Sealift Command's (MSC) requirement to procure services and parts to maintain bridge electronic communication equipment, navigation equipment, steering gear, and various other navigational systems aboard MSC's government-owned, government-operated fleet of 15 fleet replenishment oilers (T-AO); three fleet ocean tugs (T-ATF); two hospital ships (T-AH); two rescue and salvage ships (T-ARS); two submarine tenders (AS); 14 dry cargo, ammunition ships (T-AKE); two fast combat support ships (T-AOE); and 12 expeditionary fast transport ships (T-EPF). This contract also provides stated services for MSC's government-owned, contract operated, large medium speed roll-on, roll-off ships USNS Seay (T-AKR 302); USNS Piliilau (T-AKR 304); USNS Sisler (T-AKR 311); and USNS Dahl (T-AKR 312). This contract includes one five-year ordering period that would with a cumulative contract ceiling value of \$55,940,500. Work will be performed worldwide and is expected to be completed by Dec. 21, 2026. Working capital funds (Navy) in the amount of \$2,500 for the minimum guarantee for each offer will be obligated at time of award. Orders may be placed throughout the single five-year ordering period. Funding for fiscal 2022, in which initial orders are placed, will be utilized at that time. This contract was in fulfillment of the open competition requirement procured via the beta.sam.gov website with four timely offers received. (Awarded Dec. 22, 2021)

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a not-to-exceed \$40,861,960 fixed-price incentive (firm-target), cost-plus-fixed-fee, cost-plus-incentive-fee modification (P00013) to a previously awarded contract (N0001920C0032) in support of the F-35 Lighting II Program for Air Force, Marine Corps, Navy, non-U.S. Department of Defense (DOD) participants and Foreign Military Sales (FMS) customers. This modification adds undefinitized scope for the production, delivery, installation, and configuration of 29 Operational Data Integrated Network/Autonomic Logistics Information System kits as well as engineering evaluation and on-aircraft evaluation tests on Multi-Path Support Equipment (MPSE) candidates to demonstrate MPSE functionality to meet aircraft support requirements. This modification also adds definitized scope for a depot optimization study that evaluates optimal F-35 solutions for future depot component repair capabilities and material lay-in. Work will be performed in Orlando, Florida (80%); and Fort Worth, Texas (20%), and is expected to be completed in July 2026. Fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$8,965,342; fiscal 2021 aircraft procurement (Navy) funds in the amount of \$7,258,523; FMS funds in the amount of \$49,417; and non-U.S. DOD participant funds in the amount of \$4,799,310 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Sikorsky, a Lockheed Martin Company, Stratford, Connecticut, is awarded a \$30,730,499 modification (P00001) to a firm-fixed-price order (N0001921F0709) against a previously issued basic ordering agreement (N0001919G0029). This modification increases the scope to procure 681 spare parts for the CH-53K low-rate initial production configuration aircraft. Work will be performed in Stratford, Connecticut (48.97%); Windsor Locks, Connecticut (8.7%); St. Marcel, France (6.73%); Vancouver, Washington (3.68%); Quebec, Canada (3.14%); Fort Walton Beach, Florida (2.12%); Bridgeport, West Virginia (2.04%); Louisville, Kentucky (2%); Waltham, Massachusetts (1.59%); Charlotte, North Carolina (1.5%); Redmond, Washington (1.43%); Rockmart, Georgia (1.27%); Kent, Washington (1.22%); Boylston, Massachusetts (1.1%); and various locations within the continental U.S. (14.51%), and is expected to be completed in December 2026. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$30,730,499 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Katmai Technical Services LLC,\* Anchorage, Alaska, is awarded a \$21,126,941 firm-fixed-price contract for Ground Training Systems Support-West. The work to be performed provides range management services to include systems operation, equipment maintenance, inventory management, and landscaping.

Ranges supported will include ground, air-to-ground, air combat, and small arms ranges. This contract contains two unexercised options, which if exercised would increase cumulative contract value to \$21,126,941. Work will be performed at multiple Marine Corps installations and is expected to be completed by Nov. 4, 2023. Fiscal 2022 operations and maintenance (Marine Corps) funds in the amount of \$9,577,403 are obligated on this award and will expire at the end of the current fiscal year. This contract was a sole source acquisition under the authority of 15 U.S. Code 637(a). Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-22-C-8012).

General Atomics, San Diego, California, is awarded a \$14,456,036 firm-fixed-price order (N0001922F0893) against a previously issued basic ordering agreement (N0001921G0014). This order provides facilities, labor, material, and logistics services in support of the correction of deficiencies identified during prior qualification cycles for the block A21/A22 sustainment phase of the advanced arresting gear for CVN 78 and testing sites. Work will be performed in San Diego, California (91.42%); Boston, Massachusetts (7.52%); Lakehurst, New Jersey (1%); and Tupelo, Mississippi (0.06%), and is expected to be completed in April 2023. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$11,689,199 will be obligated at the time of award, all of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

L3 Technologies Inc., Northampton, Massachusetts, is awarded an \$8,813,711 firm-fixed-price modification to previously awarded contract N00024-21-C-5322 to exercise options for MK 20 electro-optical sensor systems, radar cross section kits, installation and checkout and onboard repair parts kits, engineering support, and depot spares. Work will be performed in Northampton, Massachusetts, and is expected to be completed by April 2024. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$2,275,846 (26%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$1,671,227 (19%); fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$1,300,667 (15%); fiscal 2021 other procurement (Navy) funds in the amount of \$1,272,151 (14%); fiscal 2022 other procurement (Navy) funds in the amount of \$1,218,126 (14%); and fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$1,075,694 (12%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

UPDATE: ECC Environmental LLC,\* Burlingame, California (N62473-22-D-2211), has been added to the multiple award contract announced Sept. 20, 2021, to TFS-APTIM JV LLC,\* Wasilla, Alaska (N62473-21-D-2213); Bethel-Tech Pacific JV,\* Anchorage, Alaska (N62473-21-D-2214); North Wind-CDM JV LLC,\* San Diego, California (N62473-21-D-2215); OCH JV,\* Milwaukee, Wisconsin (N62473-21-D-2216); and EA-Wood-1 MP JV,\* Hunt Valley, Maryland (N62473-21-D-2217), for environmental remediation projects located primarily within the Naval Facilities Engineering Systems Command (NAVFAC) Southwest area of operations and other locations nationwide. The maximum dollar value for all six contracts is \$240,000,000. (Awarded Dec. 28, 2021)

December 28, 2021

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$492,685,342 cost-plus-fixed-fee, cost-plus-incentive-fee, fixed-price-incentive, firm-fixed-price, cost reimbursable modification (P00027) to a previously awarded contract (N0001921C0020). This modification exercises options to provide logistics support to include ground maintenance activities, action request solutions, depot activities, automatic logistics information system operation and maintenance, reliability and maintainability, supply chain management, pilot training, maintainer training, and training system sustainment in support of delivered F-35 Lightning II Joint Strike Fighter aircraft systems for the Air Force, Marine Corps, Navy, non-U.S. Department of Defense (DOD) participants and Foreign Military Sales (FMS) customers. Work will be performed in Fort Worth, Texas (57%); Orlando, Florida (26%); Greenville,

South Carolina (11%); Samlesbury, United Kingdom (4%); and El Segundo, California (2%), and is expected to be completed in December 2022. Fiscal 2022 operation and maintenance (Air Force) funds in the amount of \$147,198,032; fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$70,486,732; fiscal 2022 operation and maintenance (Navy) funds in the amount of \$33,273,400; non-U.S. DOD participant funds in the amount of \$167,620,202; and FMS funds in the amount of \$74,106,976 will be obligated at time of award, \$250,958,164 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

AECOM Technical Services Inc., Los Angeles, California, is awarded a \$97,000,000 cost-plus-award-fee modification to indefinite-delivery/indefinite-quantity contract N62742-17-D-1800. This modification increases the maximum dollar value for architect-engineering services for comprehensive long-term Navy environmental action at various sites within the Naval Facilities Engineering Systems Command (NAVFAC) Pacific area of operations. Work will be performed at various sites in Hawaii (50%); Guam (25%); Southwest and Northwest regions of the U.S. (16%); Atlantic and Mid-Atlantic regions of the U.S. (7%); and Japan, Okinawa, Diego Garcia, and other areas in the Pacific and Indian Oceans (2%). The contract expected completion date is August 2022. No funds will be obligated at time of award. Funds will be obligated on individual task orders as they are issued. Future task orders and modifications will be primarily funded by environmental restoration (Navy); base realignment and closure; and customer reimbursable funds. After award of this modification, the total cumulative contract value will be \$317,000,000. NAVFAC Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

General Atomics, San Diego, California, is awarded a \$69,803,720 firm-fixed-price contract that provides non-recurring engineering and program management services in support of the Electromagnetic Aircraft Launch System (EMALS) and Advanced Arresting Gear (AAG) system for the CVN 81 aircraft carrier, minus energy storage subsystem. Specifically, this contract provides for the evaluation, production, manufacture, assembly, integration and test of engineering changes to product hardware, software, technical data, and logistics products throughout the configuration management process associated with the EMALS and AAG system for the CVN 81 aircraft carrier, minus the energy storage subsystem. Work will be performed in San Diego, California (99.6%); and various locations within the continental U.S. (.4%), and is expected to be completed in December 2023. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount \$1,188,188; and fiscal 2022 shipbuilding and conversion (Navy) funds in the amount \$670,407 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922C0033).

Motorola Solutions Inc., Chicago, Illinois, is awarded a \$29,175,066 firm-fixed-price modification to contract N39430-20-C-2214. This modification provides for the exercise of Option Year Two for life cycle sustainment of the Enterprise Land Mobile Radio System for Naval Facilities Engineering Systems Command Anti-Terrorism/Force Protection Ashore Program systems at various Navy installations worldwide. The contract also contains two unexercised options, which if exercised, would increase cumulative contract value to \$96,062,416. Work will be performed worldwide and is expected to be completed by December 2022. If all options are exercised, work will continue through June 2023. Fiscal 2022 operation and maintenance (Navy) contract funds in the amount of \$29,175,066 are obligated on this award and will expire at the end of the current fiscal year. This contract was solicited on a sole source basis. The Naval Facilities Engineering Systems and Expeditionary Warfare Center, Port Hueneme, California, is the contracting activity.

Raytheon Co., McKinney, Texas, is awarded a \$23,175,000 firm-fixed-price order (N0016422FJ026) under basic ordering agreement N0016417GJQ02 for the procurement of multi-spectral targeting systems for the U.S. Navy Triton unmanned aircraft system (UAS) and for the Royal Australian Air Force (RAAF). These systems provide intelligence, surveillance and reconnaissance (ISR) detection, identification and targeting capability in day/night operations for both manned and unmanned platforms. Work will be

performed in McKinney, Texas, and is expected to be complete by March 2023. Funding in the amount of \$15,450,000 for the RAAF (66.67%); fiscal 2021 funds in the amount of \$5,150,000 (22.22%); and fiscal 2020 aircraft procurement (Navy) funds in the amount of \$2,575,000 (11.11%) will be obligated at time of award and will not expire at the end of the current fiscal year. In accordance with 10 U.S. Code 2304(c)(1), this contract was not competitively procured — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Surface Warfare Center, Crane, Indiana, is the contracting activity (N0016417GJQ02-0015).

December 27, 2021

Bechtel Plant Machinery Inc., Monroeville, Pennsylvania, is awarded a \$621,969,749 cost-plus-fixed-fee modification to previously-awarded contract N00024-19-C-2115 for naval nuclear propulsion components. Work will be performed in Monroeville, Pennsylvania (77%); and Schenectady, New York (23%). Fiscal 2022 shipbuilding and conversion (Navy) funding in the amount of \$498,923,330 (80%); and fiscal 2019 shipbuilding and conversion (Navy) funding in the amount of \$123,046,419 (20%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Bechtel Plant Machinery Inc., Monroeville, Pennsylvania, is awarded a \$201,576,723 cost-plus-fixed-fee modification to previously-awarded contract N00024-19-C-2112 for naval nuclear propulsion components. This modification includes options which, if exercised, would bring the cumulative value of this modification to \$249,866,231. Work will be performed in Schenectady, New York (96%); and Monroeville, Pennsylvania (4%). Fiscal 2022 other procurement (Navy) funds in the amount of \$160,293,432 (79%); and fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$8,000,000 (21%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Corp., Fort Worth, Texas, is awarded a \$49,059,494 cost-plus-incentive-fee-contract that provides engineering and other related activities in support of the design and development of a Joint Strike Fighter aircraft variant tailored for an unspecified Foreign Military Sales (FMS) customer. Work will be performed in Fort Worth, Texas (77%); Redondo Beach, California (14%); Orlando, Florida (6%); Baltimore, Maryland (1%); Owego, New York (1%) and Samlesbury, United Kingdom (1%), and is expected to be completed in December 2026. FMS funds in the amount \$49,059,494 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922C0015).

Stratascorp LLC, doing business as Stratascorp Technologies, Virginia Beach, Virginia (N3220522F0258), is awarded a \$31,167,252 firm-fixed-priced task order to previously awarded, firm-fixed-price, indefinite-delivery/indefinite-quantity contract (N3220519D1000) for continued command, control, communications, and computers (C4) afloat operations and sustainment support. The contractor will provide technical support services for the various C4 capabilities aboard Military Sealift Command's (MSC) fleet of ships, the operation and sustainment of the MSC Network Operations Centers (MNOC) and future C4 capabilities hosted at the U.S. Navy Fleet Network Operation Centers (FLTNOCs). The support provided includes, but is not limited to, knowledge management, cybersecurity, maintenance and sustainment, modernization, equipment and asset management, MSC MNOC, future FLTNOCs, and training. Work under this task order will be performed at various world-wide locations and is expected to be completed by Dec. 31, 2022. The task order period of performance commences Jan. 1, 2022, through Dec. 31, 2022. Fiscal 2022 working capital funds (Navy) in the amount of \$24,976,300; and fiscal 2022 working capital funds (Transportation) in the amount of \$6,190,952 are being incrementally funded for at the time of award. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

General Electric Aviation, Lynn, Massachusetts, is awarded an \$18,425,844 cost-plus-fixed-fee order (N0042122F0026) against a previously issued basic ordering agreement (N0042119G0001). This order provides engineering and engine system improvement services for F414 engine component improvements in support of the Joint Strike Fighter aircraft. Work will be performed in Lynn, Massachusetts, and is expected to be completed in December 2022. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$5,000,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

Agile Life Cycle Solutions JV LLC,\* Oklahoma City, Oklahoma, is awarded an \$11,507,468 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides requirements and tasks associated with the production and delivery of the ADU-1053/E transport and loading cradle, HLU-529/E hoisting trolley, ADU-1054/E A-frame POD stand adapter, MSU-245/E Universal POD Stand (UPS), and the ADU-1051/E UPS cradle adapter in support of the Next Generation Jammer Program. Work will be performed in Philadelphia, Pennsylvania, and is expected to be completed in December 2026. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-5. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N6833522D0001).

Valiant/ALCA JV LLC, Clarksville, Tennessee, is awarded a \$7,528,791 firm-fixed-price, indefinite-delivery/indefinite-quantity modification to contract (N62470-18-D-3010). This modification provides for the exercise of Option Two for base operating support services at Naval Air Station Sigonella and its outlying support sites. After award of this option, the total cumulative contract value will be \$26,479,177. Work will be performed in Sicily, Italy. This option period is from Jan. 1, 2022, to Dec. 31, 2022. No funds will be obligated at time of award. Fiscal 2022 operation and maintenance (Navy); fiscal 2022 operation and maintenance (Marine Corps); fiscal 2022 operation and maintenance (Air Force); fiscal 2022 operation and maintenance (Army); fiscal 2022 working capital funds (Navy); and fiscal 2022 working capital funds (Defense-wide) in the amount of \$6,146,045 for recurring work will be obligated on individual task orders issued during the option period. These funds will expire at the end of fiscal 2022. The Naval Facilities Engineering Systems Command Europe Africa Central, Naples, Italy, is the contracting activity.

December 23, 2021

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$324,141,425 modification (P00020) to a cost-plus-fixed-fee, firm-fixed-price order (N0001920F0571) against a previously issued basic ordering agreement (N0001919G0008). This modification exercises options to support calendar year 2022 modification and retrofit activities for the F-35 Joint Strike Fighter program to include the procurement of material modification kits as well as program management, non-recurring engineering, aircraft induction, contractor field, depot site and laser shock peening site support. Additionally, this modification adds scope for the procurement of material kits as well as special tooling and test equipment necessary to support F-35 Joint Strike Fighter aircraft retrofit and modification efforts for the Air Force, Navy, Marine Corps, non-U.S. Department of Defense (DOD) participants and Foreign Military Sales (FMS) customers from the governments of Israel, Japan and the Republic of Korea. Work will be performed in Fort Worth, Texas (74.8%); Nagoya, Japan (8.3%); Cameri, Italy (7.2%); Williamstown, Australia (3.5%); Cherry Point, North Carolina (3.3%); and Ogden, Utah (2.9%); and is expected to be completed in January 2027. Fiscal 2022 aircraft procurement (Air Force) funds in the amount of \$73,608,286; fiscal 2022 aircraft procurement (Navy) funds in the amount of \$61,458,715; fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$56,367,878; fiscal 2021 aircraft procurement (Navy) funds in the amount of \$20,030,656; non-U.S. DOD participant funds in the amount of \$65,798,505; and FMS funds in the amount of \$46,877,385 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Raytheon Co., El Segundo, California, is awarded a \$226,732,672 fixed-price-incentive modification (P00005) to a previously awarded contract (N0001921C0053). This modification exercises options for the production and delivery of five Next Generation Jammer-Mid Band low rate initial production lot II ship sets. Additionally, this modification provides for the production and delivery of associated spares, peculiar support equipment, gold units for operational test program set development, travel and associated data. Work will be performed in Forest, Mississippi (53%); McKinney, Texas (38%) and El Segundo, California (9%), and is expected to be completed in September 2024. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$226,732,672 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

BAE Systems Land & Armaments L.P., Sterling Heights, Michigan, is awarded a \$169,334,012 modification (P00139) to previously awarded firm-fixed-price contract (M67854-16-C-0006) for Amphibious Combat Vehicles (ACV). The total value of the contract if all options are exercised is \$3,354,159,920. This modification provides for the exercise of options for the procurement of 33 full rate production ACVs and associated production, and fielding and support costs. Work will be performed in York, Pennsylvania (60%); Aiken, South Carolina (15%); San Jose, California (15%); Sterling Heights, Michigan (5%); and Stafford, Virginia (5%), with an expected completion date of August 2023. Fiscal 2022 procurement (Marine Corps) funds in the amount of \$169,334,012 will be obligated at the time of award, and will not expire at the end of the current fiscal year. Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-16-C-0006).

Kay and Associates Inc., Buffalo, Illinois, is awarded a \$72,777,290 cost-plus-fixed-fee, cost reimbursable contract to provide maintenance, operation, and management support services for the F/A-18C/D/E/F aircraft and associated equipment, as well as maintenance repair and storage facilities for the Government of Kuwait. Work will be performed in undisclosed locations in Kuwait, and is expected to be completed in January 2023. Foreign Military Sales funds in the amount of \$52,921,055 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-4(a)(2). The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity (N0042122C0013).

Kratos Unmanned Aerial Systems Inc., Sacramento, California, is awarded a \$50,917,490 contract modification (P00007) to a previously awarded firm-fixed-price contract (N0001920C0075). This modification exercises an option to procure 65 BQM-177A Subsonic Aerial Targets, 50 for the Navy, seven for the government of Japan, and eight for the government of Saudi Arabia, as well as associated technical and administrative data in support of full rate production lot three. Work will be performed in Sacramento, California (55.41%); Dallas, Texas (17.36%); Fort Walton Beach, Florida (4.67%); Blacksburg, Virginia (2.9%); Newton, Kansas (2.11%); Santa Ana, California (2.03%); Concord, California (1.94%); Milwaukie, Oregon (1.83%); Chatsworth, California (1.48%); Greybull, Wyoming (1.17%); and various locations within the continental U.S. (9.1%), and is expected to be completed in February 2024. Fiscal 2022 weapons procurement (Navy) funds in the amount of \$37,600,608; fiscal 2021 weapons procurement (Navy) funds in the amount of \$1,566,692 that were Foreign Military Sales (FMS) funds converted to weapons procurement (Navy) for the replacement of two targets expended by the government of Australia; and FMS funds in the amount of \$11,750,190 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

The Lockheed Martin Corp., Rotary and Mission Systems, Mitchell Field, New York, is awarded a \$29,781,688 cost-plus-incentive-fee and cost-plus-fixed-fee contract modification (P00039) to a previously awarded and announced contract (N00030-20-C-0045) for the United States and United Kingdom to provide Strategic Weapon System Trident Fleet Support, Trident II SSP Shipboard Integration (SSI) Increment 8, SSI Increment 16, Columbia-class and U.K. Dreadnought-class navigation subsystem

development efforts. Work will be performed in Mitchel Field, New York (47%); Huntington Beach, California (36%); Clearwater, Florida (9%); Cambridge, Massachusetts (6%); and Hingham, Massachusetts (2%) with an expected completion date of November 30, 2023. Fiscal 2022 other procurement (Navy) funds in the amount of \$23,629,506, are anticipated to be available and fully funded via contract modification. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$4,992,600 and Fiscal 2022 shipbuilding and conversion funds in the amount of \$1,159,582 are subject to availability of funds via contract modification. No funds will expire at the end of the current fiscal year. This contract was a sole-source acquisition in accordance with 10 U.S. Code 2304(c)(1) and (4). Strategic Systems Programs, Washington, D.C., is the contracting activity.

CACI Enterprise Solutions Inc., Chantilly, Virginia, was awarded a \$28,712,723 firm-fixed-price, cost-plus-fixed-fee modification (P00019) to previously awarded contract N3220519F1044. This modification exercises Option Year Three of four planned options for continued integrated business systems support to Military Sealift Command's (MSC) business systems and ashore operations. The contract assists, manages, operates, and maintains the command's business systems, as well as interfaces with the Navy enterprise defense business systems. Additionally, this contract allows MSC to integrate all of its business systems into a single, integrated business system to meet emergent and newly mandated requirements, specifically, federal compliance mandates such as financial improvement and audit readiness, growing cybersecurity concerns, cloud migration, and interoperability and integration with U.S. Navy and federal programs of records. Navy working capital funds (Navy) in the amount of \$22,830,227; and transportation working capital funds (Transportation) in the amount of \$5,882,495 are obligated for fiscal 2022. This modification exercises and funds Option Year Three, a 12-month period of performance commencing Jan. 1, 2022, through Dec. 31, 2022. Work under this modification will be performed in Norfolk, Virginia. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity. (Awarded Dec. 23, 2021)

Crowley Government Services Inc., Jacksonville, Florida, is awarded a \$16,116,593 firm-fixed-price with reimbursable elements contract for time charter of one U.S.-flagged Ice-class tanker vessel Stena Polaris, to support for the Department of Defense's world-wide bulk fuel requirements. This contract includes a 12-month base period with three 12-month option periods and one 11-month option period, which, if exercised, would bring the cumulative value of this contract to \$98,683,511. Work will be performed worldwide and is expected to be completed if all options are exercised, by Aug. 31, 2026. Working capital funds (Transportation) in the amount of \$16,116,593 are obligated for fiscal 2022, and will expire at the end of the fiscal year. This contract was competitively procured with proposals solicited via the Federal Business Opportunities website and six offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220522C4172).

Huntington-Ingalls Industries - Newport News Shipbuilding, Newport News, Virginia, was awarded a \$14,640,966 cost-plus-fixed-fee modification to previously awarded contract N00024-15-C-2114 for the procurement of material and labor associated with contractor furnished on-board repair parts for the outfitting of CVN 79. Work will be performed in Newport News, Virginia, and is expected to be completed by June 2024. Fiscal 2021 shipbuilding and conversion (Navy) funding in the amount of \$14,640,966 will be obligated at time of award and will not expire at the end of the current fiscal year. The Supervisor of Shipbuilding, Newport News, Virginia, is the contracting activity. (Awarded Dec. 21, 2021)

Raytheon Missiles & Defense, Tewksbury, Massachusetts, is awarded a \$9,503,770 firm-fixed-price and cost modification to previously awarded contract N00024-17-C-5145 to exercise options for the fiscal 21 DDG 1000 Class Diminishing Manufacturing Sources and Material Shortages (DMSMS) tech refresh life type buy requirement. Work will be performed in Portsmouth, Rhode Island (90%); and Tewksbury, Massachusetts (10%), and is expected to be completed by June 2023. Fiscal 2022 other procurement (Navy) funds in the amount of \$9,503,770 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was procured under the statutory authority of 10 U.S. Code

2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Engineer Coil Co., doing business as DRS Marlo Coil (DRS Marlo), High Ridge, Missouri, was awarded an \$8,936,180, cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract for the procurement of engineering and technical services of in support of all DRS Marlo manufactured heating, ventilation, air conditioning, and refrigeration equipment. Work will be performed in Philadelphia, Pennsylvania (20%); Norfolk, Virginia (20%); San Diego, California (20%); Yokosuka, Japan (20%); and Bremerton, Washington (20%), as determined by the individual task orders. Work is expected to be completed by December 2026. Fiscal 2022 working capital (Navy) funds in the amount of \$500 (\$500 minimum guarantee for contract), was obligated at the time of award, and will not expire at the end of the current fiscal year. This contract was not procured competitively via the beta.sam.gov website in accordance with 10 U.S. Code 2304(c)(1), this order was not competitively procured — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity (N64498-22-D-4002). (Awarded Dec. 22, 2021)

Rolls-Royce Marine North America Inc., Walpole, Massachusetts, was awarded an \$8,603,691 firm-fixed-price, basic ordering agreement order for the procurement of one LPD-17 port hub, one LPD-17 starboard blade set, one LHA 6 starboard hub, one DDG-51 Fleet starboard blade set, two DDG-51 ATD port blade sets, and two DDG-51 ATD starboard blade sets. Work will be performed in Walpole, Massachusetts, and is expected to be completed by December 2023. Fiscal 2022 other procurement (Navy) funds in the amount of \$8,603,691 will be obligated at time of award, and will not expire at the end of the current fiscal year. This order was not procured competitively via the beta.sam.gov website in accordance with 10 U.S. Code 2304(c)(1), this order was not competitively procured — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity (N64498-22-F-4013). (Awarded Dec. 21, 2021)

IAP Worldwide Services Inc., Cape Canaveral, Florida, was awarded an \$8,149,084 fixed-price, indefinite-delivery/indefinite-quantity modification to contract N62470-18-D-3000. This modification provides for the exercise of Option Year Four for recurring and non-recurring work for base operating support services at U.S. Naval Support Activity (NSA) Souda Bay. Work will be performed in Souda Bay, Greece. With the award of this option, the total cumulative contract value is \$38,180,210. This option period is from Jan. 1, 2022, to Dec. 31, 2022. No funds were obligated at time of award. Fiscal 2022 operation and maintenance, (Navy) in the amount of \$4,825,737 for recurring work will be obligated on individual task orders issued during the option period. These funds will expire at the end of fiscal 2022. Naval Facilities Engineering Systems Command, Europe Africa Central, Naples, Italy, is the contracting activity. (Awarded Dec. 1, 2021)

December 22, 2021

Northrop Grumman Systems Corp., Military Aircraft Systems, Melbourne, Florida, is awarded a \$353,584,118 fixed-price incentive (firm target) modification (P00034) to a previously awarded contract (N0001918C1037). This modification provides for the production and delivery of three E-2D Advanced Hawkeye aircraft for the government of France. Work will be performed in St. Augustine, Florida (27.52%); Syracuse, New York (19.07%); Melbourne, Florida (6.66%); Indianapolis, Indiana (5.32%); Menlo Park, California (4.31%); El Segundo, California (4.21%); Rolling Meadows, Illinois (2.22%); Aire-sur-l'Adour, France (2.16%); Owego, New York (1.62%); Edgewood, New York (1.42%); Marlboro, Massachusetts (1.35%); Woodland Hills, California (1.29%); Greenlawn, New York (1.24%); Windsor Locks, Connecticut (1.15%); various locations within the continental U.S. (20.06%); and various locations outside the continental U.S. (0.42%), and is expected to be completed April 2027. Foreign Military Sales

funds in the amount of \$353,584,118 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Northrop Grumman Systems Corp., Linthicum, Maryland, is awarded a \$245,789,116 modification for the firm-fixed-price portion of a previously awarded contract (M67854-19-C-0043). The total cumulative face value of the contract is \$963,173,943. This modification provides for the exercise of five option contract line items to procure eight Ground/Air Task Oriented Radar systems, and associated spares, data, and travel in support of Program Executive Officer Land Systems, Quantico, Virginia. Work will be performed in Linthicum, Maryland, and is expected to be completed in January 2025. Fiscal 2022 procurement (Marine Corps) funds in the amount of \$245,789,116 will be obligated at the time of award and will not expire at the end of the current fiscal year. The contract modification was not competitively procured. The base contract was not competitively procured pursuant to Federal Acquisition Regulation 6.302-1 and 10 U.S. Code § 2304(c)(1). The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-19-C-0043).

Raytheon Technologies Corp., Pratt and Whitney Military Engines, East Hartford, Connecticut, is awarded a \$218,162,159 cost-plus-incentive-fee, fixed-price incentive (firm target) modification (P00002) to a previously awarded contract (N0001920C0011). This modification adds scope to procure long-lead items in support of Lot 16 propulsion systems for F-35 Lighting II Joint Strike Fighter aircraft for the Air Force, Marine Corps, Navy, Foreign Military Sales (FMS) customers, and Non-U.S. Department of Defense (DOD) participants. Work will be performed in Indianapolis, Indiana (44%); Windsor Locks, Connecticut (33%); Bristol, United Kingdom (16%); and Phoenix, Arizona (7%), and is expected to be completed in December 2024. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$66,812,836; fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$56,564,199; FMS funds in the amount of \$43,871,979; and Non-U.S. DOD participant funds in the amount of \$50,913,145 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Fort Worth, Texas, is awarded a \$211,223,665 firm-fixed-price undefinitized contract modification (P00001) to an order (N0001921F0398) against a previously issued basic ordering agreement (N0001919G0008). This modification adds scope to procure ancillary mission equipment in support of Lots 15 and 16 F-35 Joint Strike Fighter production aircraft for the Air Force, Foreign Military Sales (FMS) customers, and non-Department of Defense (DOD) partners. Work will be performed in Fort Worth, Texas, and is expected to be completed in December 2024. Fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$68,860,141; FMS funds in the amount of \$52,813,715; and non-DOD partner funds in the amount of \$89,549,809 will be obligated on this award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Space, Titusville, Florida, is awarded a \$70,123,973 fixed-price-incentive, cost-plus-incentive-fee, and cost-plus-fixed-fee modification (P00006) to exercise options under a previously awarded contract (N0003021C0100) for TRIDENT II (D5) missile production and deployed systems support. Work will be performed in Cape Canaveral, Florida (34%); Borgo San Dalmazzo, Italy (13.6%); Johnstown, Pennsylvania (9.9%); Denver, Colorado (6.7%); Titusville, Florida (6.4%); Endicott, New York (6%); Cincinnati, Ohio (3.5%); Sunnyvale, California (2.8%); Modesto, California (2.5%); Merritt Island, Florida (1.8%); City Of Industry, California (1.4%); Rockford, Illinois (1.4%); Kingsbay, Georgia (1%); and other various locations (less than 1.0% each, 9.0% total). Work is expected to be completed Sept. 30, 2026. Fiscal 2021 weapons procurement (Navy) funds in the amount of \$4,300,336; and fiscal 2022 weapons procurement (Navy) funds in the amount of \$65,823,637 will be obligated on this award, none of which will expire at the end of the current fiscal year. This contract is being awarded to the contractor on a sole source basis under 10 U.S. Code 2304(c)(1) and was previously synopsisized on the Federal

Business Opportunities website. Strategic Systems Programs, Washington, D.C., is the contracting activity.

JLL-Midnight Sun IFMS LLC\*, Vienna, Virginia, is awarded \$31,480,019 for indefinite-delivery/indefinite-quantity modification to contract (N69450-19-D-1750). This modification provides for the exercise of Option Year Three for base operating support services at Naval Air Station Jacksonville, Bureau of Medicine and Surgery Jacksonville, and outlying areas. After award of this option, the total cumulative contract value will be \$122,541,987. Work will be performed in Jacksonville, Florida (99%) and outlying areas (1%). This option period is from January 2022 to December 2022. No funds will be obligated at time of award. Fiscal 2022 operation and maintenance, Navy (O&M,N); fiscal 2022 O&M, Marine Corps; fiscal 2022 Navy working capital funds; and fiscal 2022 family housing O&M, N contract funds in the amount of \$25,249,105 for recurring work will be obligated on individual task orders issued during the option period. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity.

Sikorsky Aircraft Corp., a Lockheed Martin Co., Stratford, Connecticut, is awarded a not-to-exceed \$30,506,177 undefinitized cost-plus-fixed-fee order (N0001922F1147) against a previously issued basic ordering agreement (N0001919G0029). This order provides non-recurring engineering efforts for the integration, testing, and qualification of the re-designed Data Concentrator Unit (DCU) and Blade Fold Distributor (BFD) units that will mitigate component obsolescence and outdated test equipment used for the DCU and BFD hardware for the CH-53K aircraft. Work will be performed in Torrance, California (65%); Stratford, Connecticut (31%); Fort Worth, Texas (2%); and Owego, New York (2%), and is expected to be completed in May 2024. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$14,733,682 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Sikorsky, a Lockheed Martin Co., Stratford, Connecticut, is awarded a \$29,457,101 cost-plus-fixed-fee order (N0001922F1147) against a previously issued basic ordering agreement (N0001919G0029). This order procures logistics support analysis and products resulting from production engineering changes and diminishing manufacturing sources and material shortages to include technical publications, logistics support analysis and logistics product data in support of CH-53K aircraft production and fielding. Work will be performed in Stratford, Connecticut (83.01%); Bohemia, New York (7.27%); Windsor Locks, Connecticut (1.11%); various locations within the continental U.S. (7.67%); and various locations outside the continental U.S. (.94%), and is expected to be completed in December 2022. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$15,000,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$23,792,332 cost-plus-fixed-fee modification (P00767) to a previously awarded contract (N0001902C3002). This modification adds scope to provide support required to implement, integrate, test, and support accreditation of the F-35 in-a-box model and its required interfaces for use in the joint simulation environment. Development and support to integrate the models are required to fulfill operational test and evaluation goals and objectives to validate F-35 Block 3F capabilities in support of the Navy, Marine Corps and Air Force. Work will be performed in Fort Worth, Texas (85%); and Patuxent River, Maryland (15%), and is expected to be completed in July 2023. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$4,000,000; and fiscal 2022 research, development, test and evaluation (Air Force) funds in the amount of \$685,858 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Honeywell International Inc., Phoenix, Arizona, is awarded a \$22,467,124 cost-plus-fixed-fee contract for the development, build and demonstration of the Compact Rubidium Extended Stability Timing (CREST) — a ruggedized atomic clock module with a unique combination of performance and size, weight and power, capable of the absolute accuracy of a commercial cesium beam clock in a VPX-card-like form-factor. The CREST module will be designed to provide uninterrupted Global Positioning System (GPS)-quality timing holdover in challenging military environments. Work will be performed in Phoenix, Arizona, with an expected completion date of Dec. 21, 2026. The maximum dollar value, including a 24-month base period, one 24-month option period and one 12-month option period, is \$22,467,124. Fiscal 2021 research, development, test and evaluation (Defense-wide) funds in the amount of \$2,630,000 are obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured under long range broad agency announcement (BAA) N00014-21-S-B001. Since proposals are received throughout the year under the long range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-22-C-1043).

Northrop Grumman Systems Corp., San Diego, California, is awarded a \$22,163,146 cost-plus-fixed-fee modification (P00016) to a previously awarded contract (N0001920C0025). This modification exercises options to provide software and engineering sustainment services, to include, logistics, cyber security and program related engineering in support the MQ-8 Fire Scout unmanned air systems. Work will be performed in San Diego, California, and is expected to be completed in December 2022. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$6,336,707; and fiscal 2022 aircraft procurement (Navy) funds in the amount of \$595,834 will be obligated at time of award, \$6,336,707 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Raytheon Missiles & Defense, Tucson, Arizona, is awarded a \$21,164,178 firm-fixed-price, undefinitized contract for the production of the Navy/Marine Corps Expeditionary Ship Interdiction System (NMESIS) naval strike missile (NSM) launcher unit (NLU) and weapon control system (WCS) production representative models. NMESIS is a land-based missile launcher platform that provides the Fleet Marine Force with an anti-ship capability. NMESIS integrates a NLU, capable of launching two NSMs, onto a Remotely Operated Ground Unit for Expeditionary Fires carrier. The NLU is controlled by the WCS located externally in a command and control vehicle. Work will be performed in Kongsberg, Norway (70%); Tucson, Arizona (15%); and Mooresville, North Carolina (15%). Work is expected to be completed in April 2023. Fiscal 2022 research, development, test and evaluation (Marine Corps) funds in the amount of \$9,466,190 are being obligated at time of award and will not expire at the end of the current fiscal year. This action is a follow-on production contract in accordance with 10 U.S. Code § 2371b(f). Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-22-D-1000).

Lockheed Martin Corp., Missile and Fire Control, Orlando, Florida, is awarded a \$17,554,362 cost-plus-fixed fee order (N0001922F0978) against a previously issued basic ordering agreement (N0001919G0011). This order provides for implementation and required repairs of a software update to the Long Range Anti-Ship Missile that will allow the weapon communication subsystems to meet cryptographic modernization requirements in support of Weapon Data Link retrofit efforts. Work will be performed in Troy, Alabama, and is expected to be completed in December 2024. Fiscal 2022 weapons procurement (Navy) funds in the amount of \$2,803,513; and fiscal 2022 operation and maintenance (Navy) funds in the amount of \$68,216 will be obligated at the time of award, \$68,216 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

L3Harris Technologies, Space and Airborne Systems, Clifton, New Jersey, is awarded an \$11,249,980 firm-fixed-price modification (P00008) to an order (N0001919F0046) against a previously issued basic ordering agreement (N0001916G0003). This modification adds scope for the production and delivery of

35 Generation 2 Digital Receiver/Technique Generator production retrofit kits comprised of 210 shop replaceable assemblies and 70 switch board assemblies in support of the ALQ-214. Work will be performed in Clifton, New Jersey (76%); Purchase, New York (14%); and Phoenix, Arizona (10%), and is expected to be completed in December 2023. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$964,284; and fiscal 2021 aircraft procurement (Navy) funds in the amount of \$10,285,696 will be obligated on this award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Bethel-Garney Federal JV,\* Anchorage, Alaska, is awarded a \$10,073,000 firm fixed-price task order (N6247322F4129) under a multiple award construction contract (N62473-19-D-1201) for repair of water treatment plant inlet works and clarifier at Naval Air Station Lemoore. The work to be performed provides for all labor, materials, equipment, transportation, supervision, and incidental related work to repair the inlet works and clarifier of the potable water treatment plant, Building 722. Work will be performed in Lemoore, California, and is expected to be completed by July 2023. Fiscal 2022 operation and maintenance, Navy contract funds in the amount of \$10,073,000 are obligated on this award and will expire at the end of the current fiscal year. The solicitation was competitively procured on a multiple award construction contract with three proposals received. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity.

December 21, 2021

Raytheon Missiles & Defense, Tucson, Arizona, was awarded a \$578,314,177 firm-fixed-price modification to a previously awarded contract (N00024-21-C-5411) to procure Standard Missile-2 (SM-2) production requirements including all up rounds, instrumentation kits, engineering services and spares; and to definitize the long-lead-material undefinitized contract action in support of the Navy and the governments of Korea, Denmark, Taiwan, Netherlands, Spain, Chile, Japan and Germany. This contract includes an option which, if exercised, would bring the cumulative value of this contract to \$586,834,591. Work will be performed in Tucson, Arizona (45%); Huntsville, Alabama (9%); Andover, Massachusetts (8%); Hengelo OV, Netherlands (7%); McKinney, Texas (4%); Anniston, Alabama (2%); Joplin, Missouri (2%); Camden, Arkansas (2%); San Diego, California (2%); San Jose, California (1%); Peabody, Massachusetts (1%); Anaheim, California (1%); Keene, New Hampshire (1%); Philadelphia, Pennsylvania (1%); Chandler, Arizona (1%); Mountain View, California (1%); Elma, New York (1%); Clearwater, Florida (1%); and other miscellaneous locations (10% total), and is expected to be complete by December 2026. Foreign Military Sales (FMS) (Korea) funds in the amount of \$231,687,410 (40%); FMS (Denmark) funds in the amount of \$97,952,805 (17%); FMS (Taiwan) funds in the amount of \$57,583,218 (10%); Memorandum Of Understanding (Netherlands) funds in the amount of \$52,977,595 (9%); FMS (Spain) funds in the amount of \$50,199,713 (9%); fiscal 2021 weapons procurement (Navy) funds in the amount of \$36,789,237 (6%); FMS (Chile) funds in the amount of \$33,078,183 (5%); FMS (Japan) funds in the amount of \$10,808,242 (2%); FMS (Germany) funds in the amount of \$4,968,817 (1%); and FMS (Australia) funds in the amount of \$2,268,957 (1%) will be obligated at time of award and will not expire at the end of the fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Dec. 17, 2021)

The Boeing Co., St. Louis, Missouri, is awarded \$30,355,000 for a ceiling-priced delivery order (N00383-22-F-A30Q) under a previously awarded basic ordering agreement (N00383-17-G-A301) for the repair of 93 EA horizontal stabilizers used on the F/A-18 E/F and EA-18G aircraft. The period of performance for this delivery order begins January 2022 and will be completed by September 2023 with no option periods. Work will be performed in Jacksonville, Florida (71%); St. Louis, Missouri (27%); and various other supplier locations that cannot be determined at this time (2%). Working capital funds (Navy) in the amount of \$14,873,950 will be obligated at the time of award, and will not expire at the end of the current fiscal year. One firm was solicited for this non-competitive requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

Northrop Grumman Systems Corp., Woodland Hills, California, is awarded a \$24,320,573 modification (P00002) to a previously awarded firm-price-incentive-fee contract (N0001921C0073). This modification exercises options to procure 25 Link 16 production B kits, three Link 16 B kit spares, and two Link 16 flight training device B kits in support of UH-1Y and AH-1Z Helicopter modification efforts for the Navy. Additionally, this modification extends services in support of Link-16 systems engineering, program management and logistics support. Work will be performed in Woodland Hills, California (92%); and San Diego, California (8%), and is expected to be completed in June 2024. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$24,320,573 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Peraton Inc., Herndon, Virginia, is being awarded a \$23,516,605 cost-plus-fixed-fee contract (N00173-22-C-2002) for the research and prototype development of spacecraft electronics and space/airborne electronic systems, to include experiment, mission, and space flight systems. The services to be acquired consist of a wide range of spacecraft research, analysis, prototype development, integration, test, operation, demonstration, data processing and documentation to include associated logistical, administrative, management and support activities. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$120,717,552. Work will be performed in Washington, D.C., and is expected to be completed by Dec. 16, 2026. Fiscal 2021 research, development, test, and evaluation (RDT&E) (Navy) funds in the amount of \$85,000 (36%); and fiscal 2022 RDT&E (Navy) funds in the amount of \$150,000 (64%) will be obligated at time of award. The fiscal 2021 RDT&E (Navy) funds will expire at the end of the current fiscal year. This contract was a negotiated acquisition under the authority of Title 10 U.S. Code 2304(a)(1), as stated in Federal Acquisition Regulation 6.101(b). The U.S. Naval Research Laboratory, Washington, D.C., is the contracting activity.

BAE Systems Information and Electronic Systems Integration Inc. FAST Labs (BAE), Merrimack, New Hampshire, is awarded a Phase 2 effort to a previously awarded cost-plus-fixed-fee contract (N65236-20-C-8015) in the amount of \$17,788,715 for research in areas of tactical uses for very low frequency transmissions. Work will be performed in Merrimack, New Hampshire, and is expected to be completed by January 2024. This modification brings the total cumulative value of the contract to \$35,021,303. Fiscal 2021 research, development, testing, and evaluation (Department of Defense) funds in the amount of \$192,210 will be obligated at time of modification. Funds will expire at the end of the fiscal year. Naval Information Warfare Center Atlantic, Charleston, South Carolina, is the contracting activity.

The University of South Carolina, Columbia, South Carolina, is awarded a \$10,019,055 cost-plus-fixed-fee contract for science and technology research into digital twin technologies for Navy power and energy systems. This contract provides for commissioning a land-based, ship-like electrical grid testbed to enable experimentation, validation and demonstration of component and system-level digital twins, as well as digital twin-informed tactical energy management on a physical testbed, extendable with real-time simulation and power hardware in-the-loop capacity. The principal objective of the implemented system of digital twins will be on assuring the best delivery of power and energy to mission systems, within existing constraints, to best achieve the impending mission objectives. Work will be performed in Columbia, South Carolina, with an expected completion date of Dec. 20, 2024. The maximum dollar value, including a 36-month base period and no option periods, is \$10,019,055. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$9,999,605 are obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured under long range broad agency announcement (BAA) N00014-21-S-B001. Since proposals are received throughout the year under the long range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-22-C-1003).

Raytheon Co., McKinney, Texas, is awarded an \$8,638,884 modification (P00002) to a firm-fixed-price, cost-plus-fixed-fee order (N0001921F0810) against a previously issued basic ordering agreement

(N0001920G0007). This modification exercises an option to procure nine Night Vision System AN/AAQ-44 Forward Looking Infrared kits for Lot 6 CH-53K production aircraft. Work will be performed in McKinney, Texas, and is expected to be completed in May 2024. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$8,638,884 will be obligated at time of award, none of which will expire at the end of the fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

December 20, 2021

Raytheon Co., Goleta, California, is awarded a \$102,591,251 firm-fixed-price, performance-based logistics requirements contract for the repair, upgrade or replacement, required availability, configuration management, inventory management, and obsolescence management in support of the ALR-67(V)3 radar warning system. Work will be performed in Jacksonville, Florida (40%); Goleta, California (30%); Point Magu, California (15%); Tucson, Arizona (10%); El Segundo, California (3%); and Forest, Mississippi (2%). This contract includes a five-year base period with no options. Work is expected to be completed by December 2026. Working capital funds (Navy) in the amount of \$23,919,850 will be issued for delivery order (N00383-22-F-0T00) that will be awarded concurrently with the contract and will initially be obligated at the time of award, and funds will not expire. Funds will not expire at the end of the current fiscal year. One company was solicited for this non-competitive requirement under authority 10 U.S. Code 2304 (c)(1) with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity. (N00383-22-D-T001)

Raytheon Missiles & Defense, Tucson, Arizona, is awarded a \$59,145,208 cost-plus-fixed-fee contract for design agent engineering and technical support services for the Phalanx Close-In Weapon System, SeaRAM, and Land-based Phalanx Weapon System. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$302,339,573. This contract combines purchases for the Navy (57%); Army (33%); and the governments of Australia (1%); Canada (1%); Greece (1%); Japan (1%); South Korea (1%); New Zealand (1%); Saudi Arabia (1%); Taiwan (1%); Turkey (1%); and the United Kingdom (1%) under the Foreign Military Sales (FMS) program. Work will be performed in Tucson, Arizona (46%); Yuma Arizona (15%); At Sea / Shipboard (7%); El Segundo, California (5%); Louisville, Kentucky (3%); Ft. Sill, Oklahoma, Ft. Lee, Virginia, Ft. Campbell, Kentucky (2% total); China Lake, California (2%); outside the continental U.S. at various FMS locations (1% total - Australia, Canada, Greece, Japan, Korea, New Zealand, Saudi Arabia, Taiwan, Turkey, United Kingdom); Forest, Mississippi (1%); Dallas, Texas (1%); Picatinny, New Jersey (1%); and various locations (each under 1%; 16% total), and is expected to be completed by January 2023. If all options are exercised, work will continue through January 2027. FMS funds in the amount of \$1,560,000 (63%); and fiscal 2022 weapons procurement (Navy) funds in the amount of \$927,539 (37%) will be obligated at time of award, and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-5405).

Progeny Systems Corp.,\* Manassas, Virginia, is awarded a \$44,276,348 modification to previously awarded contract N00024-18-C-6410 to exercise options for the production of MK54 MOD 1 lightweight torpedo (LWT) kits, associated spares, and engineering services and hardware support. Work will be performed in Charleroi, Pennsylvania (70%); Salt Lake City, Utah (26%); and Manassas, Virginia (4%), and is expected to be completed by December 2024. Fiscal 2022 weapons procurement (Navy) funds in the amount of \$43,527,702 (98%); and fiscal 2021 weapons procurement (Navy) funds in the amount of \$748,646 (2%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

BAE Systems Land & Armaments L.P., Minneapolis, Minnesota, is awarded a \$40,034,504 firm-fixed-price modification to previously awarded contract N00024-20-C-5380 to refurbish MK 25 Mod 0 canisters

and to exercise options for the procurement of MK 21 Mod 3 and Mod 4 canisters and ancillary hardware. This contract combines purchase for the Navy (93%); and the government of the Netherlands (3%) under the NATO Seasparrow Consortium. Work will be performed in Aberdeen, South Dakota (90%); and Minneapolis, Minnesota (10%), and is expected to be completed by February 2024. Fiscal 2022 weapons procurement (Navy) funds in the amount of \$35,306,304 (88%); fiscal 2021 weapons procurement (Navy) in the amount of \$3,738,998 (9%); and other customer funds in the amount of \$989,202 (3%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington D.C., is the contracting activity.

Jacobs-EwingCole JV, Pasadena, California, is awarded a \$40,000,000 firm-fixed-price modification to increase the maximum dollar value of previously-awarded indefinite-delivery/indefinite-quantity contract (N62473-18-D-5801) for multi-discipline architect-engineering services for large projects under the military construction program within the Naval Facilities Engineering Systems Command (NAVFAC) Southwest area of responsibility. Award of this modification brings the total cumulative contract value to \$270,000,000. Work will be performed at various Navy and Marine Corps facilities and other government facilities within the NAVFAC Southwest AOR including, but not limited to, California (87%); Arizona (5%); Nevada (5%); Colorado (1%); New Mexico (1%); and Utah (1%), and is expected to be completed by November 2022. No funds will be obligated at time of award; funds will be obligated on individual task orders as they are issued. Task orders will be primarily funded by military construction (Navy). The Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity.

Lockheed Martin Corp., Owego, New York, is awarded a \$21,706,620 firm-fixed-price indefinite-delivery/indefinite-quantity contract. This contract provides tear down and evaluation of the P3-C aircraft mission systems hardware, as well as obsolescence studies and technical support to maintain the P3-C mission systems for the government of Taiwan. Work will be performed in Owego, New York (50%); and Clearwater, Florida (50%), and is expected to be completed in December 2026. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Federal Acquisition Regulation 6.302-4. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N6833522D0004).

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$19,421,059 cost-plus-fixed-fee modification (P00005) to a previously awarded indefinite-delivery/indefinite-quantity contract (N0001918D0129). This modification exercises an option to provide continuing emerging capabilities and analysis systems engineering. These efforts include programmatic and logistics tasks that will analyze the F-35 air system's ability to meet future operational requirements; investigating cost and weight reduction program options; conducting modeling and simulation activities; and analyzing changes to design life, operational readiness, reliability, and air system design and configuration assessments. Work will be performed in Fort Worth, Texas, and is expected to be completed in December 2022. No funds are being obligated at time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., a Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$11,886,422 cost-plus-fixed-fee modification (P00003) to a previously awarded contract (N0001920C0052). This modification exercises options and adds scope to provide field service representative, maintenance and sustainment operation support for the Norway Italy Reprogramming Laboratory systems and consumables in support of the F-35 Joint Strike Fighter aircraft for the governments of Norway and Italy. Work will be performed at Eglin Air Force Base, Florida, and is expected to be completed in December 2022. Non-U.S. Department of Defense participant funds in the amount of \$11,886,422 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Textron Systems Corp., Hunt Valley, Maryland, is awarded an \$11,053,383 firm-fixed-price order (N0001922F1175) against a previously issued basic ordering agreement (N0001921G0008). This order provides unmanned aircraft systems intelligence, surveillance, and reconnaissance data collection support services for the Department of Defense, other government agencies, and domestic and overseas contingency operations. Work will be performed in Hunt Valley, Maryland (20%); and various locations outside the continental U.S. (80%), and is expected to be completed in March 2025. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$11,053,383 will be obligated at time of award, all of which will expire at the end of the fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a \$9,425,756 firm-fixed-price modification (P00001) to an order (N0001921F0024) against a previously issued basic ordering agreement (N0001921G0006). This modification procures 94 satellite communication retrofit kits, including 82 for the Navy (32 for EA-18G aircraft; 25 for F/A-18E aircraft; and 25 for F/A-18F aircraft); and 12 for the government of Australia AEA-18G aircraft. Work will be performed in El Segundo, California (80%); and St. Louis, Missouri (20%), and is expected to be completed in April 2025. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$8,289,810; and Foreign Military Sales funds in the amount of \$1,135,946 will be obligated at time of award, none of which will expire at the end of the fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is awarded an \$8,286,142 cost-plus-incentive-fee and cost modification to previously awarded contract N0002418C5218 to exercise options and incrementally fund existing contract line items for program management and engineering labor, travel, material, and other direct costs to support AN/SQQ-89A(V)15 development, integration, manufacture, production, and testing. Work will be performed in Manassas, Virginia (83%); Lemont Furnace, Pennsylvania (10%); Syracuse, New York (6%); and Hauppauge, New York (1%), and is expected to be completed by December 2022. Fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$3,388,646 (27%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$2,826,941 (23%); fiscal 2022 other procurement (Navy) funds in the amount of \$2,129,626 (17%); fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$1,113,553 (9%); Foreign Military Sales (FMS) (Japan) funds in the amount of \$1,000,000 (8%); FMS (Australia) funds in the amount of \$650,000 (5%); fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$570,164 (4%); fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$333,801 (3%); fiscal 2021 research, development, test, and evaluation (Navy) funds in the amount of \$115,909 (1%); fiscal 2021 other procurement (Navy) funds in the amount of \$82,549 (1%); fiscal 2016 shipbuilding and conversion (Navy) funds in the amount of \$58,970 (1%); and fiscal 2022 operations and maintenance (Navy) funds in the amount of \$20,085 (1%) will be obligated at time of award, and funds in the amount of \$135,994 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

#### December 17, 2021

The CNA Corp., Arlington, Virginia, was awarded a \$1,217,000,000 sole-source indefinite-delivery/indefinite-quantity contract for the Navy Studies and Analysis Federally Funded Research and Development Center (FFRDC). This contract provides for independent, authoritative studies, analysis and technical support that is focused on major present and future issues affecting the Navy, Marine Corps, and other intelligence and Department of Defense organizations. Work will be performed in Arlington, Virginia, and is expected to be completed by Dec. 31, 2031. The maximum dollar value, including a 60-month base period, and five 12-month option periods, is \$1,217,000,000. Fiscal 2022 operation and maintenance (Air Force) funds in the amount of \$2,180,000 will be obligated on a cost-plus-fixed-fee task order at time of award, and will expire at the end of the current fiscal year. This contract was solicited on a sole source basis under the authority of 10 U.S. Code 2304(c)(3)(B) and was procured under solicitation

(N00014-21-R-SS16). The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-22-D-7001). (Awarded Dec. 15, 2021)

AgustaWestland Philadelphia Corp., Philadelphia, Pennsylvania, is awarded a \$159,421,443 firm-fixed-price modification (P00016) to a previously awarded contract (N6134020C0007). This modification exercises options for the production and delivery of 36 TH-73A aircraft Lot III and initial spares in support of the Advanced Helicopter Training System program. Work will be performed in Philadelphia, Pennsylvania (85%); Mineral Wells, Texas (5%); and various locations outside the continental U.S. (10%), and is expected to be completed in December 2023. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$159,421,443 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

BAE Systems Land & Armaments L.P., Minneapolis, Minnesota, is awarded a \$24,468,051 firm-fixed-price contract to provide all necessary material and services required for the procurement and support of an ordnance alteration to modify the MK38 MOD3 machine gun system. This contract combines purchases for the Navy (81%); and the Republic of the Philippines (21%) under the Foreign Military Sales (FMS) program. Work will be performed in Hafia, Israel (67%); and Louisville, Kentucky (33%), and is expected to be completed by May 2023. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$19,802,757 (81%); and FMS Republic of the Philippines funds in the amount of \$4,665,294 (19%) will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Surface Warfare Center Indian Head Division, Indian Head, Maryland, is the contracting activity (N00174-22-C-0005).

Huntington Ingalls Inc., Ingalls Shipbuilding Division, Pascagoula, Mississippi, is awarded a \$24,282,603 cost-plus-fixed-fee modification to exercise options on previously-awarded contract N00024-21-C-2443 for life cycle engineering and support for the LPD 17 Class Amphibious Transport Dock Ship Program. Work will be performed in Pascagoula, Mississippi (95%); and Norfolk, Virginia (5%), and is expected to be completed by December 2022. Fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$5,499,135 (52%); fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$3,621,692 (32%); fiscal 2016 shipbuilding and conversion (Navy) funds in the amount of \$1,513,260 (14%); fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$100,000 (1%); and fiscal 2022 operation and maintenance (Navy) funds in the amount of \$5,000 (1%) will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics Information Technology Inc., Falls Church, Virginia, is awarded an \$8,215,675 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract procures 324 Avionics Test Set Cable assemblies and associated individual cable assemblies in support of testing avionics systems onboard F-15, F-16, and F-18 aircraft for the Air Force, and the governments of Germany, Taiwan, and Bahrain. Work will be performed in Chesapeake, Virginia, and is expected to be completed in December 2026. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; one offer was received. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity (N6893622D0013).

December 16, 2021

Jacobs Technology Inc., Tullahoma, Tennessee, is awarded a \$30,384,218 firm-fixed-price, indefinite-delivery/indefinite-quantity modification to exercise Option Three to extend services for base operations support services at Naval Station Mayport, Marine Corps Support Facility Blount Island, Florida, and outlying areas. Award of this option brings the total cumulative contract value to \$117,390,473. Work will be performed in Jacksonville, Florida (62%); Blount Island, Florida (37%); and outlying areas (1%), and is expected to be completed by December 2022. No funds will be obligated at time of award. Fiscal 2022 operation and maintenance (Navy); fiscal 2022 operation and maintenance (Marine Corps); fiscal 2022 working capital (Navy) funds; and fiscal 2022 family housing operation and maintenance (Navy) funds in the amount of \$24,629,181 for recurring work will be obligated on individual task orders issued during the option period. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity (N69450-18-D-1800).

RELYANT Global LLC, Maryville, Tennessee, is awarded a \$28,999,210 firm-fixed-price contract for design and construction of eight new earth-covered munitions storage magazines at Andersen Air Force Base, Guam. The contract also contains four options which will be exercised at time of award. Work will be performed in Yigo, Guam, and is expected to be completed by February 2025. Fiscal 2020 military construction (Air Force) funds in the amount of \$28,999,210 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with four proposals received. The Naval Facilities Engineering Systems Command Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-22-C-1320).

Orion Government Services LLC, Houston, Texas, is awarded a \$28,293,111 firm-fixed-price contract for the repair of Atlantic Undersea Test and Evaluation Center (AUTEC) Facility 1902 pier at Andros Island, Bahamas. Work will be performed in Andros Island, Bahamas, and is expected to be completed by July 2024. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$28,293,111 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with three proposals received. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity (N69450-22-C-0006).

Northrop Grumman Systems Corp., Melbourne, Florida, is awarded a \$21,477,974 modification to a firm-fixed-price order (N0001921F0064) against a previously issued basic ordering agreement (N0001920G0005). This modification exercises an option to provide installation of five aerial refueling retrofit kits on the E-2D Advanced Hawkeye. Work will be performed in Ronkonkoma, New York (44.53%); Baltimore, Maryland (16.62%); Irvine, California (6.48%); Hauppauge, New York (5.85%); Columbia, Maryland (4.75%); Dorset, England (3.17%); East Aurora, New York (2.64%); North Hollywood, California (2.02%); and various locations within the continental U.S. (13.94%), and is expected to be completed in May 2023. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$21,477,974 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Nan Inc., Honolulu, Hawaii, is awarded an \$18,416,100 firm-fixed-price task order (N6247822F4009) under previously-awarded multiple-award construction contract N62478-20-D-4014 for replacement of the low pressure air system at Joint Base Pearl Harbor-Hickam, Hawaii. Work will be performed in Honolulu, Hawaii, and is expected to be completed by February 2024. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$18,416,100 will be obligated at time of award and will expire at the end of the current fiscal year. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

December 15, 2021

Bell Textron Inc., Fort Worth, Texas, is awarded a \$21,608,360 cost-plus-fixed-fee order (N0001922F0974) against a previously issued basic ordering agreement (N0001921G0012). This order provides engineering and logistics support, to include support for AH-1Z production aircraft and sustainment efforts for UH-1Y and AH-1Z aircraft for the Marine Corps; support for AH-1Z production aircraft for the government of Bahrain; and support for UH-1Y and AH-1Z production aircraft for the government of the Czech Republic. Work will be performed in Fort Worth, Texas (80%); and Patuxent River, Maryland (20%), and is expected to be completed in February 2023. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$1,475,713; fiscal 2022 operation and maintenance (Navy) funds in the amount of \$1,000,000; fiscal 2021 aircraft procurement (Navy) funds on the amount of \$207,429; and non U.S. Department of Defense funds in the amount of \$11,066,109 will be obligated at time of award; \$1,000,000 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Raytheon Co., McKinney, Texas, is being awarded \$15,133,628 for a ceiling-priced delivery order (N00383-22-F-WV01) under a previously awarded basic ordering agreement (N00383-20-G-VW01) for the repair of pod aircraft unit components of the advanced targeting forward-looking infrared radar system in support of the F/A-18 aircraft. Work will be performed in Basildon, Essex, England (65%); and McKinney, Texas (35%). Work is expected to be completed by May 2025. Annual working capital (Navy) funds in the amount of \$7,415,478 will be obligated at the time of award, and funds will not expire at the end of the current fiscal year. One company was solicited for this sole-source requirement under authority 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

Methuen Construction, Plaistow, New Hampshire, is awarded \$12,209,397 for a firm-fixed-price modification to contract N40085-21-C-005. This modification provides for the exercise of Option 12 under a contract for construction of the Dry Dock 2 complex located at the Portsmouth Naval Shipyard. This option will provide for a 120-day award of all work in connection with the Enclosure 6 modifications and the fit up test in dock. The work for the requested option is for all work associated with the Shiplside Complex (RAE and RAE-SP) Volume 3 of the plan set, including Enclosure 5 and 7, the fit up test, and the support towers. After award of these options, the total cumulative contract value will be \$74,850,697. Work will be performed in Kittery, Maine, and is expected to be completed by October 2023. Fiscal 2022 other procurement (Navy) contract funds in the amount of \$12,209,397 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the [www.SAM.gov](http://www.SAM.gov) online website with three proposals received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

Raytheon Missiles & Defense, Tewksbury, Massachusetts, is awarded an \$8,507,184 cost-plus-incentive-fee, cost-plus-fixed-fee, and cost modification to previously awarded contract N00024-17-C-5145 to exercise options for Zumwalt Class engineering support, material and other direct costs in support of the engineering efforts. Work will be performed in Portsmouth, Rhode Island (33%); San Diego, California (29%); Tewksbury, Massachusetts (24%); Bath, Maine (13%); and Fort Wayne, Texas (1%), and is expected to be completed by May 2022. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$2,500,000 (29%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$2,061,669 (24%); fiscal 2022 other procurement (Navy) funds in the amount of \$2,000,765 (24%); fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$1,247,178 (15%); fiscal 2021 other procurement (Navy) funds in the amount of \$296,428 (4%); fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$210,175 (2%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$108,482 (1%); and fiscal 2020 other procurement (Navy) funds in the amount of \$82,487 (1%) will be obligated at time of award, and funds in the amount of \$82,487 will expire at the end of the current fiscal year. This contract was procured under the statutory authority of 10 U.S. Code 2304(c)(1), only one responsible source and no other suppliers or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded an \$8,442,746 cost-plus-fixed-fee order (N0001922F1014) against a previously issued basic ordering agreement (N0001921G0006). This order provides continued integrated logistics and engineering support, in support of the Harpoon/Standoff Land Attack Missile-Expanded Response missile system and Harpoon launch systems for the Navy and Foreign Military Sales (FMS) customers. Work will be performed in St. Charles, Missouri (91.89%); St. Louis, Missouri (5.47%); and Yorktown, Virginia (2.64%), and is expected to be completed in February 2023. Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$2,085,523; and FMS funds in the amount of \$6,357,223 will be obligated at time of award, \$2,085,523 of which will expire at the end of the fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

December 14, 2021

Raytheon Co., Tucson, Arizona, is awarded a \$269,034,300 firm-fixed-price modification to previously awarded contract N0002421C5408 in support of the fiscal 2021-2023 Evolved Seasparrow Missile (ESSM) Block 2 full rate production requirements. Work will be performed in Tucson, Arizona (46%); Edinburgh, Australia (8%); San Jose, California (7%); Raufoss, Norway (7%); Mississauga, Canada (6%); Ottobrunn, Germany (4%); Cambridge, Canada (3%); Nashua, New Hampshire (3%); Hengelo Ov, Netherlands (2%); Koropi Attica, Greece (2%); Torrance, California (2%); Canton, New York (2%); Ankara, Turkey (1%); Grenaa, Denmark (1%); Westlake Village, California (1%); Eight Mile Plains, Brisbane, Australia (less than 1%); Newmarket, Canada (less than 1%); Madrid, Spain (less than 1%); Milwaukie, Oregon (less than 1%); Lystrup, Denmark (less than 1%); Lawrence, Maine (less than 1%); and Clearwater, Florida (less than 1%). Work is expected to complete March 2025. Fiscal 2020 other customer funds in the amount of \$16,419,610 (6%); fiscal 2022 other customer funds in the amount of \$144,056,990 (54%); fiscal 2021 weapons procurement (Navy) funds in the amount of \$17,306,300 (6%); and fiscal 2022 weapons procurement (Navy) funds in the amount of \$91,251,400 (34%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Management Services Group Inc., doing business as Global Technical Systems,\* Virginia Beach, Virginia, is awarded an \$84,680,504 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract procures one lot of ALQ-167 and ULQ-24C pods, associated hardware for pod modifications, and technical data in support of electronic attack/electronic warfare threat simulation for weapons development, test, and evaluation, fleet training, and target applications for the Department of Defense. Work will be performed in Virginia Beach, Virginia, and is expected to be completed in December 2026. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured as a small business set-aside; two offers were received. The Naval Air Warfare Command Weapons Division, Point Mugu, California, is the contracting activity (N6893622D0011).

Raytheon Co., El Segundo, California, is awarded a \$13,856,834 cost-plus-fixed-fee, level of effort job order, under basic ordering agreement N0016421GWS31 to procure contractor logistics support maintainers and engineering reach back support of the AN/ALQ-249(V)1 Next Generation Jammer-Mid Band (NGJ-MB) during development, test and evaluation. There are no options included on this contract. Work will be performed (approximately) in Patuxent River, Maryland (56%); Ridgecrest, California (28%); Crane Indiana (13%); and Point Mugu, California (4%), and is expected to be completed by June 2023. Fiscal 2021 foreign cooperative project (Navy) funds in the amount of \$11,500,000 will be obligated at the time of contract award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Surface Warfare Center Crane Division, Crane, Indiana, is the contracting activity (N0016422FW003).

RQ Construction LLC, Carlsbad, California, is awarded a \$9,845,396 firm-fixed-price modification to an existing task order (N6247320F5106) placed against contract N62473-16-D-1885. This modification increases the maximum dollar value of the task order for the repair and maintenance of Michelson Laboratory Wings 2-5 at Naval Air Weapons Station China Lake. After award of this modification, the total cumulative contract value will be \$104,947,360. Work will be performed in China Lake, California, and is expected to be completed by July 2023. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$6,067,800 are obligated at time of award, which expire at the end of this fiscal year, along with fiscal 2022 other procurement (Navy) funds in the amount of \$3,777,596 which expire at the end of fiscal 2023. The Naval Facilities Engineering Systems Command, Officer in Charge of Construction, China Lake, California, is the contracting activity.

Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$9,327,433 firm-fixed-price, cost-plus-fixed-fee modification (P00002) to a previously awarded undefinitized indefinite-delivery/indefinite-quantity contract (N0001921D0001). This modification increases the ceiling to partially definitize fiscal 2021 air vehicle initial spares, to include global spares packages, base spares packages, deployment spares packages, and afloat spares packages in support F-35 Lightning II Air Vehicle deliveries for the Navy, Marine Corps, Air Force, non-U.S. Department of Defense participants, and Foreign Military Sales customers. Work will be performed in Fort Worth, Texas, and is expected to be completed in December 2021. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

December 13, 2021

Raytheon Technologies Corp., Pratt and Whitney Military Engines, East Hartford, Connecticut, is awarded a \$145,288,785 cost-plus-incentive-fee modification (P00002) to a previously awarded contract (N0001921C0068). This modification exercises options to procure material and support equipment for depot maintenance facilities as well as supplies, services, and planning for depot activations in support of F-35 aircraft sustainment efforts for the Air Force, Marine Corps, Navy, and non-U.S. Department of Defense (DOD) participants. Work will be performed in East Hartford, Connecticut (30.5%); Oklahoma City, Oklahoma (22.2%); Cherry Point, North Carolina (13.5%); Jacksonville, Florida (7.3%); West Palm Beach, Florida (5.8%); Windsor Locks, Connecticut (3.7%); Indianapolis, Indiana (3.0%); Williamstown, New South Wales, Australia (2.9%); Iwakuni, Japan (2%); Foggia, Italy (1.6%); Patuxent River, Maryland (1.4%); Edwards Air Force Base, California (1.4%); Luke Air Force Base, Arizona (1.2%); Brekstad, Norway (1.2%); Leeuwarden, Netherlands (1.1%); Tyndall Air Force Base, Florida (1%); and Brandon, United Kingdom (0.2%), and is expected to be completed in September 2024. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$59,531,081; fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$59,531,073; and non-U.S. DOD participant funds in the amount of \$26,226,631 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Huntington Ingalls Inc. (HII) - Ingalls Shipbuilding, Pascagoula, Mississippi, is awarded a \$70,866,327 not-to-exceed, undefinitized contract action for long lead time material (LLTM) in support of one amphibious assault ship (general purpose) replacement (LHA(R)) Flight 1 Ship (LHA 9). This action will be the seventh increment of LLTM awarded to HII under contract (N00024-20-C-2437) executed on April 30, 2020. Work will be performed in Philadelphia, Pennsylvania (49%); Pascagoula, Mississippi (45%); Hamilton, Ohio (4%); and High Ridge, Missouri (2%), and is expected to be completed by April 2024. Fiscal 2021 shipbuilding and conversion (Navy) funding in the amount of \$53,149,745 will be obligated at award and will not expire at the end of the current fiscal year. The obligation amount represents 75% of the not-to-exceed price, in accordance with Defense Federal Acquisition Regulation 217.7404-4, limitations on obligations. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-20-C-2437).

Lockheed Martin Space, Littleton, Colorado, is awarded a \$61,880,928 cost-plus-incentive-fee modification (P00033) to previously announced contract N00030-19-C-0025 for the design, development, build and integration of equipment for missile flight test demonstrations and fielding. Work will be performed in Denver, Colorado (83%); Sunnyvale, California (16%); and Huntsville, Alabama (1%). Work is expected to be completed Feb. 25, 2024. No funds will be obligated at time of award. Strategic Systems Programs, Washington, D.C., is the contracting activity.

Alliant Techsystems Operations LLC (a wholly-owned subsidiary of Northrop Grumman Defense Systems Inc.), Northridge, California, is awarded a \$45,662,690 firm-fixed-price modification (P00001) to a previously awarded contract (N0001921C0044). This modification exercises options to procure low rate initial production Lot Two of the Air to Ground Missile (AGM)-88G Advanced Anti-Radiation Guided Missile - Extended Range (AARGM-ER). Specifically, this modification provides for the production and delivery of 16 AGM-88G AARGM-ER all up rounds, six AGM-88G AARGM-ER Captive Air Training Missiles, four Common Munitions Built-in-Test Reprogramming Equipment+ Interface Devices, initial spares, and required manufacturing supplies and support. Work will be performed in Northridge, California (61%); Rocket Center, West Virginia (32%); and Ridgecrest, California (7%), and is expected to be completed in December 2024. Fiscal 2022 weapons procurement (Navy) funds in the amount of \$45,611,925; and fiscal 2021 weapons procurement (Navy) in the amount of \$50,765 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Curtin Maritime Corp.,\* Long Beach, California, is awarded a \$26,992,265 firm-fixed-price contract for construction of new dredging and maintenance dredging at Naval Station Norfolk. The work to be performed consists of new dredging of Pier 11 South berth expansion area, and maintenance dredging of the outer berths of Piers 5 and 6 North. Work will be performed in Norfolk, Virginia, and is expected to be completed by June 2022. Fiscal 2022 operation and maintenance, Navy contract funds in the amount of \$26,992,265 are obligated on this award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov online website with two proposals received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-22-C-0003).

Trevet Bay West JV LLC,\* San Diego, California, is awarded a \$25,000,000 firm-fixed-price modification to an indefinite-delivery/indefinite-quantity contract (N62473-18-D-0202). This modification increases the maximum dollar value of the contract and provides for a full range of environmental engineering and scientific or technical management services necessary to implement the environmental restoration program and similar media requirements for other Navy environmental programs. After award of this modification, the total cumulative contract value will be \$100,000,000. Work will be performed at various Navy and Marine Corps facilities, and other government facilities within the Naval Facilities Engineering Systems Command, Southwest area of operations, including, but not limited to, California (94%); Arizona (1%); Nevada (1%); Colorado (1%); New Mexico (1%); Utah (1%), and other locations in the U.S. (1%). The term of the contract is not to exceed 60 months with an expected completion date of April 2023. No funds are being obligated on this award. Future task orders will be primarily funded by operation and maintenance, (Navy) funds. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity.

Bell Boeing Joint Program Office, Amarillo, Texas, is awarded a not-to-exceed \$18,000,000 modification (P00012) to a previously awarded, cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract (N0001918D0103). This modification exercises an option to provide systems integration, technical analysis, and engineering support for the V-22 aircraft. Work will be performed Fort Worth, Texas (50%); and Philadelphia, Pennsylvania (50%), and is expected to be completed in December 2022. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

December 10, 2021

KBR Services, Houston, Texas, is awarded a \$37,015,620 cost-plus-award-fee modification to task order N6247021F9101 to global contingency services multiple award contract N62742-16-D-3551. This modification provides for the exercise of Option Three for the Quantico Expeditionary Staging Area (ESA) at Marine Corps Base (MCB) Quantico, and increases the maximum dollar value of the contract. After award of this option, the total cumulative contract value will be \$196,061,079. The work to be performed provides for services in supporting Operation Allies MCB Quantico, and includes the mobilization, operation and maintenance, and demobilization for ESA Quantico. Work will be performed in Quantico, Virginia, and is expected to be completed by December 2021. Fiscal 2022 overseas humanitarian disaster and civic aid contract funds in the amount of \$37,015,620 are obligated on this award and will expire at the end of the current fiscal year. Naval Facilities Engineering Systems Command, Washington, D.C., is the contracting activity.

Detyens Shipyards Inc., North Charleston, South Carolina, is awarded \$21,604,117 firm-fixed-price contract (N3220522C4030) for a 118-calendar day shipyard availability for the regular overhaul/dry docking availability on the USNS Arctic (T-AOE 8). The contract includes options which, if exercised, would bring the total contract value to \$23,095,473. Work will be performed in North Charleston, South Carolina, and is expected to be completed by May 15, 2022. Contract funds in the amount of \$21,604,117 are obligated in fiscal 2022 using working capital funds (Navy). This contract was competitively procured with proposals solicited via the beta.sam.gov website and seven offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220522C4030).

General Dynamics Bath Iron Works, Bath, Maine, is awarded a \$12,900,028 cost-plus-award-fee and cost modification to previously awarded contract N00024-19-C-2322 to exercise options for the accomplishment of planning yard efforts such as engineering, technical, planning, ship configuration, data and logistics efforts for DDG-1000 class destroyers post-delivery and in-service life-cycle support. Work will be performed in Bath, Maine (95%); and San Diego, California (5%), and is expected to be completed by December 2022. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$3,747,976 (59%); fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$2,508,785 (40%); and fiscal 2022 operations and maintenance (Navy) funds in the amount of \$46,850 (1%) will be obligated at the time of award, of which funds in the amount of \$3,794,826 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Utility Works JV, Virginia Beach, Virginia, is awarded an \$11,393,982 firm-fixed-price task order (N6247022F4001) under indefinite-delivery/indefinite-quantity contract N62470-21-D-0005 for Utility Infrastructure and Condition Assessment Program (UICAP) implementation at various Marine Corps installation command installations at Marine Corps Installations West (MCIWest) and UICAP sustainment at Marine Corps Base (MCB) Quantico. The work to be performed provides for all management, labor, supplies, equipment, information technology, materials, and transportation necessary to perform the four phases of UICAP at seven MCIWest installations, and a year of support is required for UICAP sustainment at MCB Quantico. Work will be performed in California (83%); Arizona (14%); and Virginia (3%), and is expected to be completed by December 2023. Fiscal 2022 operation and maintenance (Marine Corps) contract funds in the amount of \$11,393,982 are obligated on this award and will expire on Sept. 30, 2022. One proposal was received for this task order. The Naval Facilities Engineering Systems Command Atlantic, Norfolk, Virginia, is the contracting activity.

December 9, 2021

KBR Services LLC, Houston, Texas (N62742-16-D-3551); Vectrus Systems Corp., Colorado Springs, Colorado (N62742-16-D-3552); IAP-ECC LLC, Cape Canaveral, Florida (N62742-16-D-3553); FLUOR Intercontinental Inc., Greenville, South Carolina (N62742-16-D-3554); and AECOM Technical Services

Inc., Los Angeles, California ( N62742-16-D-3555), are awarded a combined \$800,000,000 cost-plus-award-fee modification to increase the maximum dollar value of an indefinite-delivery/indefinite-quantity contract to provide global contingency services. The work includes incidental construction to quickly provide short-term facility support services in support of natural and manmade disasters, humanitarian assistance, and the full range spectrum of military operations; and projects with similar characteristics. After award of this modification, the total cumulative contract value will be \$1,700,000,000. The work will be performed in worldwide and contingency environments. The Naval Facilities Engineering Systems Command, Pacific, Pearl Harbor, Hawaii, is the contracting activity.

Emprise Corp., Ledyard, Connecticut (N3220519D1001), is awarded a modification to the previously awarded, single-award, indefinite-delivery/indefinite-quantity contract. This modification is valued at \$80,374,962, increasing the total contract ceiling from \$96,470,026 to \$176,844,988. This contract is for services and supplies in support of Military Sealift Command's (MSC) Shipboard Automated Maintenance Management System aboard the command's fleet of ships. This contract provides non-personal engineering support services to MSC, Navy, and National Oceanic and Atmospheric Administration (NOAA) for the MSC Engineering Maintenance Management Systems. These systems utilize both preventive and predictive maintenance technologies to assist in both optimizing equipment performance and ensuring that the appropriate level of vessel readiness is maintained. Work will be performed worldwide, with an expected completion date of Dec. 10, 2023. The maximum dollar value of this award is now \$176,844,988. Working capital funds (Navy) for the appropriate fiscal year are obligated at time of task order award throughout the 5-year ordering period. This single-award contract was procured under solicitation number N3220518R1000 via the government-wide Point of Entry website. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Huntington Ingalls Inc. - Ingalls Shipbuilding, Pascagoula, Mississippi, is awarded a \$60,425,462 not-to-exceed undefinitized contract action for integration of four Joint Strike Fighter engineering change proposals in support of one amphibious assault ship (General Purpose) replacement (LHA(R)) Flight 1 Ship (LHA 8). Work will be performed in Pascagoula, Mississippi (72%); Chesapeake, Virginia (25%); and Philadelphia, Pennsylvania (3%), and is expected to be completed by July 2024. Fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$30,212,731 will be obligated at award and will not expire at the end of the current fiscal year. The obligation amount represents 50% of the not-to-exceed price, in accordance with Defense Federal Acquisition Regulation 217.7404-4 — limitations on obligations. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirement. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-16-C-2427).

S&B, doing business as WG Henschen,\* Scottsdale, Arizona (N6893622D0003); Pacific IC Source,\* Yucaipa, California (N6893622D0004); Vizocom ICT LLC,\* El Cajon, California (N6893622D0005); Pacific Component Xchange Inc.,\* Huntington Beach, California (N6893622D0006); and Laguna Components Inc.,\* Laguna Beach, California (N6893622D0007), are each awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity contract. The estimated aggregate ceiling for all contracts is \$49,000,000, with the companies having an opportunity to compete for individual orders. These contracts procure various types of instrumentation and electronic components technology to include integrated circuits, resistors, capacitors, connectors, wire braid, cables, and diodes, flex circuits, radio, electronic sub-assemblies, receivers, semi-conductors, plugs, global position system components, terminal blocks, antennas, fuses, relays, as well as maintenance, repair, calibration and installation services for the instrumentation and electronic components. Work will be performed at Scottsdale, Arizona; Yucaipa, California; El Cajon, California; Huntington Beach, California; and Laguna Beach, California (90%); and China Lake, California (10%), and is expected to be completed in December 2026. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured as a small business set-aside; five offers were received. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity.

Hornbeck Offshore Operators LLC, Covington, Louisiana, was awarded a \$26,674,930 firm-fixed-price with reimbursable elements contract (N3220522C4177) for long-term charter of one U.S.-flagged, Jones Act compliant, stern landing vessel HOS Resolution to support the Marine Corps Warfighting Laboratory's experimentation and exercise requirements in both littoral and open-ocean operating environments. This contract includes a 12-month base period with three 12-month option periods, which, if exercised, would bring the cumulative value of this contract to \$56,333,778. Work will be performed off the U.S. West Coast and is expected to be completed, if all options are exercised, by November 2025. Research, development, test, and evaluation (Navy) funds in the amount of \$26,674,930 are obligated for fiscal 2022, and will expire at the end of fiscal 2024. This contract was competitively procured with proposals solicited via the Federal Business Opportunities website and one offer was received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220522C4177). (Awarded Nov. 29, 2021)

Amentum Services Inc., Germantown, Maryland, is awarded a \$26,435,245 cost-plus-incentive-fee contract modification under contract N62742-17-C-3570. This modification provides for the exercise of the fifth option period under for various support services to Department of Defense components conducting humanitarian assistance, civic assistance, minor military construction projects, contingency efforts, supporting various exercises, and other projects. After award of this option, the total cumulative contract value will be \$176,724,820. Work will be performed at various locations in Southeast Asia, South Asia and Oceania. This option period is from January 2022 to December 2022. Fiscal 2022 operation and maintenance (Navy) contract funds in the amount of \$4,300,000 are obligated on this award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Pacific, Pearl Harbor, Hawaii, is the contracting activity.

Lockheed Martin Corp., Fort Worth, Texas, is awarded a \$20,481,366 modification (P00012) to a previously awarded, cost-plus-fixed-fee contract (N0001920C0032). This modification adds scope to provide non-recurring engineering for the selected F-35 "Out the Window" replacement solution in support of full mission simulator production for the Air Force, Navy, and non-U.S. Department of Defense (DOD) participants. Work will be performed in Orlando, Florida, and is expected to be completed in March 2024. Fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$8,392,099; fiscal 2020 aircraft procurement (Navy) funds in the amount of \$8,392,098; and non-DOD participants funds in the amount of \$3,697,169 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

General Electric Co., Cincinnati, Ohio, is awarded a \$19,324,546 firm-fixed-price, basic ordering agreement order (N64498-22-F-4001) for the procurement of three LM2500 Paired Blade Turbine High Pressure Turbine (HPT) kits and two Single Shank Turbine HPT kits. Work will be performed in Cincinnati, Ohio, and is expected to complete December 2022. Fiscal 2022 operation and maintenance (Navy) funding in the total amount of \$19,324,546 will be obligated at time of award, and will expire at the end of the current fiscal year. In accordance with 10 U.S. Code 2304(c)(1), this order was not competitively procured — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity.

East Coast Repair, Portsmouth, Virginia, is awarded an \$8,719,597 firm-fixed-price contract (N3220522C4198) for an 85-calendar day shipyard availability for the mid-term availability of the Military Sealift Command's fleet oiler USNS Grumman (T-AO 195). This contract includes a base period and four options which, if exercised would bring the cumulative value of this contract to \$9,006,443. Work will be performed in Portsmouth, Virginia, and will begin Jan. 5, 2022, and is expected to be completed by March 31, 2022. Working capital funds (Navy) in the amount of \$8,719,597 are obligated for fiscal 2022 and will not expire at the end of the fiscal year. This contract was a small business set-aside with proposals

solicited via the Government Point of Entry website and six offers received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220522C4198).

December 8, 2021

The Boeing Co., St. Louis, Missouri, is awarded a \$366,464,275 modification (P00035) to a previously awarded cost-plus-fixed-fee, cost-plus-incentive-fee, indefinite-delivery/indefinite-quantity contract (N0001918D0001). This modification increases the ceiling to extend the service life for up to 32 F/A-18 Super Hornet aircraft. Work will be performed in San Antonio, Texas (80%); and St. Louis, Missouri (20%), and is expected to be completed in May 2024. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Raytheon Technologies Corp., Pratt and Whitney Engines, East Hartford, Connecticut, is awarded a \$36,697,754 fixed-price incentive (firm target) modification (P00033) to a previously awarded contract (N0001918C1021). This modification adds scope to procure long lead Group 2, 4 and 10 hardware as well as engineering and program management services in support of Lot 16 production of F-135 propulsion systems for the Marine Corps, Navy, Air Force, non-U.S. Department of Defense (DOD) participants, and Foreign Military Sales (FMS) customers. Work will be performed in East Hartford, Connecticut (56%); North Berwick, Maine (13%); Indianapolis, Indiana (10%); Jupiter, Florida (7%); Windsor Locks, Connecticut (5%); Bristol, United Kingdom (4%); Rockford, Illinois (2%); Santa Isabel, Puerto Rico (2%); Phoenix, Arizona (1%); and is expected to be completed in October 2023. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$17,194,577; fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$524,801; non-U.S. DOD participant funds in the amount \$9,543,854; and FMS customer funds in the amount of \$9,434,521 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Andromeda Systems Inc., Virginia Beach, Virginia, is awarded a \$26,720,921 cost-plus-fixed-fee, level of effort modification (P00013) to a previously awarded, indefinite-delivery/indefinite-quantity contract (N6134019D0006). This modification increases the ceiling to provide additional engineering services for the maintenance, repair and overhaul of aircraft, engines and components in support of Fleet Readiness Center Southeast and various naval aviation and weapons platforms. Work will be performed in Jacksonville, Florida, and is expected to be completed in January 2024. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Commander Fleet Readiness Centers, Patuxent River, Maryland is the contracting activity.

Spencer Construction Inc., Tucson, Arizona, is awarded a \$15,258,598 firm-fixed-price contract (N62473-22-C-1011) for water treatment plant repairs to Basins 343-348 and 352-353 at Naval Air Facility El Centro, California. The work to be performed provides for the construction, procurement, and installation services for replacement of six existing damaged and degraded one-million-gallon reinforced concrete sedimentation basins and two existing damaged and degraded 200,000-gallon decant basins, and their associated piping and infrastructure. Work will be performed in Imperial, California, and is expected to be completed by June 2022. Fiscal 2020 operation and maintenance, (Navy) contract funds in the amount of \$15,258,598 are obligated on this award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity.

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is awarded a \$14,004,781 cost-plus-incentive-fee contract modification to previously awarded contract N00024-17-C-6259 to exercise an option for engineering design and development, and production items. Work will be performed in Manassas, Virginia (65%); Clearwater, Florida (32%); Syracuse, New York (2%); and Marion, Florida (1%), and is expected to complete July 2024. Fiscal 2022 other procurement (Navy) funds in the amount of \$10,004,781 will be obligated at time of award, and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington Navy Yard, Washington, D.C., is the contracting activity.

Integral Aerospace, Santa Ana, California, is awarded an \$8,346,051 modification (P00007) to a previously awarded firm-fixed-price contract (N0001918C1036). This modification exercises an option for the production and delivery of 63 external fuel tanks for the F/A-18E/F and EA-18G aircraft. Work will be performed in Santa Ana, California, and is expected to be completed in May 2023. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$8,346,051 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

December 7, 2021

Baker - AECOM Environmental Compliance JV, Moon Township, Pennsylvania, is awarded a \$75,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity architect-engineering (A-E) contract (N62470-22-D-2007) for A-E services at Navy, Marine Corps and other Department of Defense (DOD) installations and federal agencies. The work to be performed provides for the preparation of studies, plans, specifications, design, reports, cost estimates, and all associated engineering services in support of Navy and other DOD environmental compliance programs. The term of the contract is not to exceed 60 months with an expected completion date of December 2026. Initial task order is being awarded at \$6,161,260 for 2022 regulatory compliance and best management testing in support of Defense Logistics Agency, Energy fuel facilities. Work will be performed at various Navy and Marine Corps facilities and other government facilities within the Naval Facilities Engineering Systems Command (NAVFAC) Atlantic area of operations, including, but not limited to California (30%); Washington, D.C. (14%); Virginia (10%); Japan/British Indian Ocean Territory (9%); Florida (8%); Texas (4%); Maryland (4%); Georgia (4%); Europe (4%); Hawaii (3%); and the rest of the U.S. and other countries (10%). Work for this task order is expected to be completed by February 2023. Fiscal 2022 working capital (DOD) contract funds in the amount of \$6,161,260 are obligated on this award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by operation and maintenance, Navy. This contract was competitively procured via the beta.sam.gov website with three proposals received. NAVFAC Atlantic, Norfolk, Virginia, is the contracting activity.

Solpac Construction Inc., doing business as Soltek Pacific Construction Co., San Diego, California, is awarded a \$12,980,000 firm-fixed-price task order (N6247322F4109) under a multiple award construction contract (N62473-18-D-5855) for the seismic rehabilitation of Building 2, South Clinic, at Naval Medical Center San Diego. The work to be performed provide for construction for the modification and remodel by upgrading the clinic with seismic dampers throughout the building structure. The task order also contains one unexercised option which, if exercised, would increase the cumulative task order value to \$20,970,000. Work will be performed in San Diego, California, and is expected to be completed by April 2024. Fiscal 2022 Defense Health Program contract funds in the amount of \$12,980,000 are obligated on this award and will expire at the end of the current fiscal year. Two proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity.

Progeny Systems Corp., Manassas, Virginia, is awarded an \$8,235,824 fixed-price incentive (firm target) contract modification to previously awarded contract N00024-19-C-6201 to exercise options for production of the Next Generation Electronic Warfare Tactical Upgrade Version 2 systems. Work will be

performed in Manassas, Virginia (65%); and Charleroi, Pennsylvania (35%), and is expected to be completed by September 2023. Fiscal 2022 other procurement (Navy) funding in the amount of \$8,235,824 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

December 6, 2021

Bechtel Plant Machinery Inc., Monroeville, Pennsylvania, is awarded a \$507,423,423 cost-plus-fixed-fee modification to previously-awarded contract N00024-16-C-2106 for naval nuclear propulsion components. Work will be performed in Monroeville, Pennsylvania (71%); and Schenectady, New York (29%). Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$507,423,423 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

AMENTUM Services Inc., Germantown, Maryland, was awarded a \$461,792,969 cost-plus-award-fee, cost reimbursement and firm-fixed-price contract for the operation and maintenance of the Atlantic Undersea Test and Evaluation Center (AUTEC). Work will be performed on Andros Island, Commonwealth of the Bahamas (64%); and West Palm Beach, Florida (36%), and work will continue through December 2031 with all options exercised. Fiscal 2022 research, development, test and evaluation, Navy in the amount of \$50,000 will be obligated at time of award. This contract was competitively procured using full and open competition via the Federal Business Opportunities website with six offers received in response to solicitation number N66604-18-R-0881. The Naval Undersea Warfare Center Newport Division, Newport, Rhode Island, is the contracting activity (N66604-22-C-0102). (Awarded Dec. 2, 2021)

Wunderman Thompson, Atlanta, Georgia, is awarded an \$115,324,360 modification (P00022) to previously awarded firm-fixed-price contract M95494-19-C-0020. This modification exercises Option Period Two to furnish supplies and services to enhance Marine Corps recruiting efforts. These services include a full range of services from the development of a tactical advertising strategy to the production of a wide-range of advertising formats (e.g., TV, radio, print media, internet, and direct marketing). Work will be performed in Atlanta, Georgia, with an expected completion date of December 2022. Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$115,324,360 will be obligated at time of award and will expire at the end of the current fiscal year. The Marine Corps Installations Command Contracting Office, Arlington, Virginia, is the contracting activity.

Sikorsky Aircraft Corp., a Lockheed Martin Co., Stratford, Connecticut, is awarded a not-to-exceed \$35,288,184 firm-fixed-price contract to procure long lead items for full-rate production, Lot 7, CH-53K aircraft. Work will be performed in Stratford, Connecticut, and is expected to be completed in December 2022. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$35,288,184 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922C0004).

Raytheon Co., Goleta, California, is awarded a \$30,981,359 long-term, indefinite-delivery/indefinite-quantity, firm-fixed-price contract for the repair of three ALE-50 towed decoy system components in support of the F/A-18E/F aircraft. The contract includes a five-year base period with no options. Work will be performed in Forest, Mississippi (75%); and Goleta, California (25%). Work is expected to be completed by December 2026. Working capital funds (Navy) in the amount of \$6,307,158 will be obligated at the time of award and funds will not expire at the end of the current fiscal year. One company was solicited for this non-competitive requirement under authority 10 U.S. Code 2304 (c)(1), with one

offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-22-D-T501).

BAE Systems, Information and Electronic Systems Integration Inc., Greenlawn, New York, is awarded a \$17,902,175 modification (P00003) to a previously awarded, firm-fixed-price, indefinite-delivery/indefinite-quantity contract (N0001921D0008). This modification exercises an option for the production and delivery of 283 Mode 5 capable AN/APX-117A/118A/123A(V) Common Identification Friend or Foe Digital Transponder Systems and associated shop replaceable assemblies in support of fixed and rotary winged aircraft for the Navy, Army and non-U.S. Department of Defense participants. Work will be performed in Greenlawn, New York (85%); and Austin, Texas (15%), and is expected to be completed in December 2022. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

DCX-CHOL Enterprises, Los Angeles, California, is awarded a \$12,414,000 firm-fixed-price modification to previously awarded contract N6339421C0002 for the manufacture, assembly, test and delivery of Module Electronics Box and Hazard Electronics Box units in support of the Vertical Launch System. Work will be performed in Los Angeles, California, and is expected to be completed by August 2022. Fiscal 2021 other procurement (Navy) funds in the amount of \$6,674,000 (54%); and Foreign Military Sales funds in the amount of \$5,740,000 (46%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Surface Warfare Center Port Hueneme Division, Port Hueneme, California, is the contracting activity.

BAE Systems Technology Solutions & Services Inc., Rockville, Maryland, is awarded a \$11,647,645 cost-plus-fixed-fee contract modification (P00003) to a previously awarded and announced contract N00030-22-C-6001 to provide support services for the U.S. Trident II D5 Strategic Weapon Systems program, Attack Weapon System program, and the Nuclear Weapon Security program. Performance will be located at Rockville, Maryland (91.4%); Groton, Connecticut (4.4%); Cape Canaveral, Florida (2.2%); and Saint Mary's, Georgia (2%), with an expected completion date of Sept. 30, 2022. Fiscal 2022 ship construction (Navy) funds in the amount of \$6,137,816 will be obligated at the time of award. No funds will expire at the end of the current fiscal year. This contract was a sole-source acquisition in accordance with 10 U.S. Code 2304(c)(1). Strategic Systems Programs, Washington, D.C., is the contracting activity (N00030-22-C-6001).

Raytheon Co., Largo, Florida, is awarded a \$9,000,000 cost-plus-fixed-fee, cost-plus-incentive-fee, and cost modification to previously awarded contract N0002419C5200 to exercise options and incrementally fund existing contract line items for design agent and engineering services to support the Cooperative Engagement Capability program. This contract combines purchases for the Navy (84%); and the governments of Australia (8%) and Japan (8%) under the Foreign Military Sales (FMS) program. Work will be performed in St. Petersburg, Florida (70%); and Largo, Florida (30%), and is expected to be completed by September 2022. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$9,792,000 (76%); FMS Australia funds in the amount of \$1,000,000 (8%); FMS Japan funds in the amount of \$1,000,000 (8%); fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$400,000 (3%); fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$352,000 (2%); fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$269,400 (2%); and fiscal 2022 operation and maintenance (Navy) funds in the amount of \$69,000 (1%) will be obligated at time of award, and funds in the amount of \$738,400 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

December 3, 2021

Lockheed Martin Corp., Fort Worth, Texas, is awarded a \$77,847,256 modification (P00002) to a previously awarded, cost-plus-incentive-fee contract (N0001921C0040). This modification adds scope to provide for the integration of indigenous weapons into an F-35 Lightning II Joint Strike Fighter air system for a Foreign Military Sales (FMS) customer. Work will be performed in Fort Worth, Texas, and is expected to be completed in December 2025. FMS customer funds in the amount of \$77,847,256 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Raytheon Space and Airborne Systems, El Segundo, California, is awarded a \$71,446,885 level-of-effort modification (P00011) to a previously awarded, cost-plus-fixed-fee indefinite-delivery/indefinite-quantity contract (N6893619D0001). This modification increases the ceiling to provide continued development of the F/A-18/EA-18G sensor system software and hardware, to include updates, improvements and enhancements of tactical capabilities, sensor instrumentation, and instrumentation interfaces in support of anti-surface warfare technical baseline and the Built-in Test Stability System Anomaly Report efforts that support current, fielded F/A-18 software blocks. Work will be performed in El Segundo, California (80%); China Lake, California (10%); Patuxent River, Maryland (5%); and St. Louis, Missouri (5%), and is expected to be completed in February 2024. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity.

Lockheed Martin Corp., Syracuse, New York, is awarded a \$35,650,030 cost-plus-incentive-fee and firm-fixed-price modification to the previously awarded delivery order N00024-21-F-6206 under indefinite-delivery/indefinite-quantity contract N00024-19-D-6200 to exercise options for the procurement of submarine new construction kits, equipment, and installation. Work will be performed in Syracuse, New York, and is expected to be completed by May 2025. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$22,392,000 (63%); fiscal 2022 national sea-based deterrence funds in the amount of \$10,429,946 (29%); and fiscal 2022 other procurement (Navy) funds in the amount of \$2,828,084 (8%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

December 2, 2021

General Dynamics Electric Boat, Groton, Connecticut, is awarded a \$50,598,114 cost-plus-fixed-fee modification to previously awarded contract N00024-18-C-4321 to exercise options for the New England Maintenance Manpower Initiative for non-nuclear maintenance on submarines based at Naval Submarine Support Facility New London, Connecticut. This contract modification would bring the cumulative value of this contract to \$238,347,071. Work will be performed in Groton, Connecticut, and is expected to be completed by December 2022. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$10,100,000 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Space, Titusville, Florida, is awarded a \$40,371,417 fixed-price-incentive, cost-plus-incentive-fee, and cost-plus-fixed-fee modification (P00004) to exercise options under a previously awarded contract (N0003021C0100) for Trident II (D5) missile production and deployed systems support. Work will be performed in Denver, Colorado (47.5%); Sunnyvale, California (20.1%); Palo Alto, California (8.9%); Magna, Utah (8.6%); Camden, Arkansas (3.7%); Titusville, Florida (3.5%); Morris Plains, New Jersey (3%); Kings Bay, Georgia (1.7%); Cape Canaveral, Florida (1.5%); and other various locations (less than 1.0% each, 1.5% total). Work is expected to be completed September 30, 2026. Fiscal 2021 weapons procurement (Navy) funds in the amount of \$192,677; and fiscal 2022 weapons procurement (Navy) funds in the amount of \$40,178,739 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract is being awarded to the contractor on a sole source basis

under 10 U.S. Code 2304(c)(1) and was previously synopsisized on the Federal Business Opportunities website. Strategic Systems Programs, Washington, D.C., is the contracting activity.

Heffler Contracting Group, El Cajon, California, is awarded a \$16,081,078 firm-fixed-price task order (N6247322F4076) under multiple award construction contract N62473-19-D-2424 for repair and renovation of Building 1106 at Marine Corps Base Camp Pendleton, California. Work will be performed in Camp Pendleton, California, and is expected to be completed by November 2023. Fiscal 2022 operation and maintenance (Marine Corps) funds; and community services non-appropriated (Marine Corps) contract funds in the amount of \$16,081,078 are obligated on this award and will expire at the end of the current fiscal year. Five proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity.

General Dynamics Mission Systems Inc., Pittsfield, Massachusetts, is awarded an \$11,562,529 cost-plus-incentive-fee contract modification to previously awarded contract N00024-18-C-6262 to exercise options for engineering design development services, supporting travel, Navy equipment and spares. Work will be performed in Fairfax, Virginia (53%); and Pittsfield, Massachusetts (47%), and is expected to be completed by March 2024. Fiscal 2022 ship building and conversion (Navy) funds in the amount of \$2,656,540 (54.0%); fiscal 2022 other procurement (Navy) funds in the amount of \$1,809,163 (36.8%); fiscal 2022 other procurement-spares (Navy) funds in the amount of \$295,915 (6.0%); fiscal 2019 ship building and conversion (Navy) funds in the amount of \$73,261 (1.5%); fiscal 2020 ship building and conversion (Navy) funds in the amount of \$40,000 (0.8%); fiscal 2021 ship building and conversion (Navy) funds in the amount of \$30,000 (0.6%); and fiscal 2017 ship building and conversion (Navy) funds in the amount of \$17,000 (0.3%) will be obligated at time of award. Fiscal 2017 ship building and conversion (Navy) funds in the amount of \$17,000 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Bell Boeing Joint Project Office, Amarillo, Texas, is awarded a \$9,301,749 modification (P00004) to a cost-plus-fixed-fee, firm-fixed-price order (N0001921F0090) against a previously issued basic ordering agreement (N0001917G0002). This modification exercises an option to procure 68 Conversion Area Harness (CAH) base kits, 53 CAH supplemental kits, two hardware kits and two consumable kits in support of the Marine Corps MV-22 aircraft, the Air Force CV-22 aircraft, the Navy CMV-22 aircraft, and the government of Japan V-22 aircraft. Additionally, this modification provides for electrical wiring interconnect system assessments for the CV-22 fleet aircraft. Work will be performed in Simpsonville, South Carolina (80%); Fort Worth, Texas (10%); Long Beach, California (7%); Austin, Texas (1%); Dallas, Texas (1%); and various locations within the continental U.S. (1%), and is expected to be completed in January 2026. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$6,185,475; fiscal 2022 aircraft procurement (Air Force) funds in the amount of \$1,994,606, and Foreign Military Sales funds in the amount of \$1,121,668 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

CORRECTION: The Nov. 29, 2021, announcement of a modification to a task order award to KBR Services, LLC, Houston, Texas (N6247021F9101) under previously-awarded contract N62742-16-D-3551 for the mobilization, operation and maintenance, and demobilization for the expeditionary staging area at Marine Corps Base Quantico included an incorrect funding amount. Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$29,698,173 were obligated at time of award to fully fund the awardee's revised estimated cost for the scope of work under CLIN 0004.

December 1, 2021

Raytheon Missiles & Defense, Marlborough, Massachusetts, was awarded a \$273,353,649 firm-fixed-price, cost-plus-fixed fee, and cost only modification to previously awarded contract (N00024-19-C-5501) to exercise options and add advanced radars detection laboratory generator support for Air and Missile Defense Radar; and Enterprise Air Surveillance Radar, integration and production support efforts. Work will be performed in Marlborough, Massachusetts (54%); Pascagoula, Mississippi (11%); Moorestown, New Jersey (9%); Newport News, Virginia (6%); Kauai, Hawaii (5%); Wallops Island, Virginia (4%); Fair Lakes, Virginia (4%); Bath, Maine (2%); Chesapeake, Virginia (2%); Portsmouth, Rhode Island (1%); San Diego, California (1%); and Silver Spring, Maryland (1%), and is expected to be completed by November 2022. Fiscal 2017 shipbuilding and conversion funds (Navy) in the amount of \$14,060,000 (28%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$11,987,933 (23%); fiscal 2022 research, development, test and evaluation funds (Navy) funds in the amount of \$8,466,143 (17%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$6,872,198 (13%); fiscal 2016 shipbuilding and conversion (Navy) funds in the amount of \$3,465,420 (7%); fiscal 2022 operation and maintenance (Navy) funds in the amount of \$2,978,555 (6%); fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$2,195,424 (4%) and; fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$902,513 (2%) will be obligated at time of award, of which \$2,978,555 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Nov. 30, 2021)

Machine Tools USA Inc., Mathews, Virginia (N6893622D0008); Machine Tools Marketing Inc., Bixby, Oklahoma (N6893622D0009); and Pacific IC Source, Yucaipa, California (N6893622D0010), are each awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity contract. The estimated aggregate ceiling for all contracts is \$49,000,000, with the companies having an opportunity to compete for individual orders. These contracts procure various machining and manufacturing equipment, machine tools, work holding devices and peripheral equipment for conventional, computer numerically controlled equipment and provide support, to include maintenance, repair, relocation, delivery, installation, and training associated with acquired machinery in support of earthquake recovery efforts for the Navy. Work will be performed at China Lake, California, and is expected to be completed in November 2026. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured as a small business set-aside; four offers were received. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity.

Raytheon Missiles & Defense, Marlborough, Massachusetts, is awarded a \$15,801,708 firm-fixed-price modification to previously awarded contract N00024-14-C-5315 for provisioned item spares for the Air and Missile Defense Radar program. Work will be performed in Marlborough, Massachusetts (59%); Cerritos, California (18%); Sykesville, Maryland (7%); Scottsdale, Arizona (5%); Saginaw, Michigan (5%); Bergenfield, New Jersey (3%); and Stafford, Connecticut (3%), and is expected to be completed by July 2023. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$13,430,086 (85%); and fiscal 2020 shipbuilding and conversion (Navy) in the amount of \$2,371,622 (15%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a \$12,774,560 cost-plus-fixed-fee modification to previously awarded contract N00024-21-C-2103 for engineering and technical design effort to support research and development concept formulation for current and future submarine platforms. Work will be performed in Groton, Connecticut (96.1%); Bremerton, Washington (1.7%); Kings Bay, Georgia (1.7%); and Newport, Rhode Island (0.5%), and is expected to be completed by September 2022. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$137,500 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Aechelon Technology, San Francisco, California, is awarded a \$7,790,820 firm-fixed price order (N0042122F0539) against a previously issued basic ordering agreement (N0042119G0007). This order provides for the production, delivery and integration of four P8 Advanced Airborne Sensor (AAS) next generation databases on to four AAS Weapons Tactic Trainers. Work will be performed in San Francisco, California (99.3%); and various locations within the continental U.S. (0.7%), and is expected to be completed in October 2022. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$7,790,820 will be obligated at the time of award, all of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

November 30, 2021

Epsilon Systems Solutions, Inc., Portsmouth, Virginia (N00024-22-D-4442); BAE Systems San Diego Ship Repair, San Diego, California (N00024-22-D-4443); East Coast Repair and Fabrication, Portsmouth, Virginia (N00024-22-D-4444); Continental Maritime San Diego, San Diego, California (N00024-22-D-4445); Pacific Ship Repair and Fabrication Inc., San Diego, California (N00024-22-D-4446); and General Dynamics NASSCO, San Diego, California (N00024-22-D-4447) (Lot I), are awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple award contract with a combined ceiling of \$654,848,672 for complex repair, maintenance and modernization requirements of non-nuclear Navy surface combatant (CG & DDG) class ships homeported in or visiting San Diego, California homeport. These efforts consist of Chief of Naval Operations scheduled docking and non-docking, continuous maintenance and emergent maintenance availabilities of surface combatant class ships to be performed in the San Diego, California port. Delivery orders will be competitively awarded under these contracts, which are to be performed in San Diego, California. Each of the contracts has an estimated ordering period of five years, which is expected to end in November of 2026. Fiscal 2022 operations and maintenance (Navy) funding in the amount of \$60,000 (\$10,000 minimum per awardee) is obligated at contract award and will expire at the end of the current fiscal year. Lot I contracts were competitively procured using full and open competition with seven offers received via the beta.sam.gov website. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Epsilon Systems Solutions Inc., Portsmouth, Virginia (N00024-22-D-4448); BAE Systems San Diego Ship Repair, San Diego, California (N00024-22-D-4449); East Coast Repair and Fabrication, Portsmouth, Virginia (N00024-22-D-4450); Continental Maritime San Diego, San Diego, California (N00024-22-D-4451); Pacific Ship Repair and Fabrication, Inc., San Diego, California (N00024-22-D-4452); and General Dynamics NASSCO, San Diego, California (N00024-22-D-4453) (Lot II) are awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple award contract with a combined ceiling of \$538,517,390 for complex repair, maintenance and modernization requirements of non-nuclear Navy amphibious (LHA, LHD, LPD and LSD) class ships homeported in or visiting the San Diego, California homeport. These efforts consist of Chief of Naval Operations scheduled docking and non-docking, Continuous maintenance and emergent maintenance availabilities of amphibious class ships to be performed in the San Diego, California port. Delivery orders will be competitively awarded under these contracts, which are to be performed in San Diego, California. Each of the contracts has an estimated ordering period of five years, which is expected to end in November of 2026. No funding will be obligated at contract award. Lot II contracts were competitively procured using full and open competition with seven offers received via the beta.sam.gov website. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Raytheon Technologies Corp., Pratt and Whitney Military Engines, East Hartford, Connecticut, is awarded an undefinitized \$447,601,042 not-to-exceed modification (P00011) to a previously awarded cost-plus-incentive-fee, fixed-price incentive (firm target), cost-plus-fixed-fee, cost reimbursable contract (N0001921C0011). This contract provides for the procurement of recurring sustainment support activities including maintenance of support equipment, common program activities, unique and common base recurring sustainment, repair of repairables, field service representatives, common replenishment spares, conventional take-off and landing/carrier variant F-135 unique maintenance services, and short take-off and landing F-135 unique services in support of the F-35 Lightning II F135 propulsion system for the Air

Force, Marine Corps, Navy, Air National Guard, non-Department of Defense (DOD) participants, and Foreign Military Sales (FMS) customers. Work will be performed in East Hartford, Connecticut (47%); Oklahoma City, Oklahoma (15%); Indianapolis, Indiana (13%); Windsor Locks, Connecticut (6%); West Palm Beach, Florida (5%); Brekstad, Norway (2%); Leeuwarden, Netherlands (2%); Williamstown, New South Wales, Australia (2%); Beaufort Marine Corps Air Station, South Carolina (1%); Cameri, Italy (1%); Eglin Air Force Base, Florida (1%); Edwards AFB, California (1%); Hill AFB, Utah (1%); Iwakuni, Japan (1%); Luke AFB, Arizona (1%); and Patuxent River, Maryland (1%), and is expected to be completed in May 2022. Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$44,006,026; fiscal 2022 operation and maintenance (Air Force) funds in the amount of \$41,480,264; fiscal 2022 operation and maintenance (Navy) funds in the amount of \$7,092,764; fiscal 2022 operation and maintenance (Air National Guard) funds in the amount of \$5,525,000; non-DOD participant funds in the amount of \$29,576,990; and FMS funds in the amount of \$16,311,383 will be obligated at time of award, \$98,104,054 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Epsilon Systems Solutions Inc., Portsmouth, Virginia (N00024-22-D-4463); Colonna's Shipyard West LLC, Norfolk, Virginia (N00024-22-D-4464); East Coast Repair and Fabrication, Portsmouth, Virginia (N00024-22-D-4465); Gulf Copper Ship Repair, Port Arthur, Texas (N00024-22-D-4466); Integrated Marine Services Inc., Chula Vista, California (N00024-22-D-4467); Pacific Ship Repair and Fabrication Inc., San Diego, California (N00024-22-D-4468); Propulsion Controls Engineering, San Diego, California (N00024-22-D-4469); Southcoast Welding & Manufacturing, Chula Vista, California (N00024-22-D-4470); and Advanced Integrated Technologies LLC, Norfolk, Virginia (N00024-22-D-4471) (Lot IV) are awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple award contract with a combined ceiling of \$335,047,591 for non-complex repair, maintenance and modernization requirements of non-nuclear Navy Amphibious (LHA, LHD, LPD and LSD) class ships homeported in or visiting San Diego, California homeport. These efforts consist of Chief of Naval Operations scheduled docking and non-docking, continuous maintenance and emergent maintenance availabilities of amphibious class ships to be performed in the San Diego, California port. Delivery orders will be competitively awarded under these contracts, which are to be performed in San Diego, California. Each of the contracts has an estimated ordering period of five years, which is expected to end in November 2026. No funding will be obligated at contract award. Lot IV contracts were small business set asides with nine offers received via the beta.sam.gov website. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

ERAPSCO, Columbia City, Indiana (P00012); and Lockheed Martin Corp., Manassas, Virginia (P00016), are awarded firm-fixed-price modifications to a previously awarded indefinite-delivery/indefinite-quantity contract (N0001919D0012). These modifications exercises options for the production and delivery of up to 18,000 AN/SSQ-125A series production sonobuoys for the Navy. The estimated aggregate ceiling for all modifications is not-to-exceed \$222,266,700, with the companies having an opportunity to compete for individual orders. ERAPSCO will perform work in De Leon Springs, Florida (70 %); Columbia City, Indiana (30%); while Lockheed Martin will perform work in Manassas, Virginia (95%); and Clearwater, Florida (5%), and is expected to be completed in March 2024. No funds will be obligated at the time of award. Funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Epsilon Systems Solutions Inc., Portsmouth, Virginia (N00024-22-D-4454); Colonna's Shipyard West LLC, Norfolk, Virginia (N00024-22-D-4455); East Coast Repair and Fabrication, Portsmouth, Virginia (N00024-22-D-4456); Gulf Copper Ship Repair, Port Arthur, Texas (N00024-22-D-4457); Integrated Marine Services Inc., Chula Vista, California (N00024-22-D-4458); Pacific Ship Repair and Fabrication Inc., San Diego, California (N00024-22-D-4459); Propulsion Controls Engineering, San Diego, California (N00024-22-D-4460); Southcoast Welding & Manufacturing, Chula Vista, California (N00024-22-D-4461); and Advanced Integrated Technologies LLC, Norfolk, Virginia (N00024-22-D-4462) (Lot III) are awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple award contract with a combined ceiling of \$209,213,270 for non-complex repair, maintenance and modernization requirements of non-nuclear Navy

surface combatant (CG & DDG) class ships homeported in or visiting the San Diego, California homeport. These efforts consist of Chief of Naval Operations scheduled docking and non-docking, continuous maintenance and emergent maintenance availabilities of surface combatant class ships to be performed in the San Diego, California port. Delivery orders will be competitively awarded under these contracts, which are to be performed in San Diego, California. Each of the contracts has an estimated ordering period of five years, which is expected to end in November of 2026. Fiscal 2022 operation and maintenance (Navy) funding in the amount of \$60,000 (\$10,000 minimum per awardee) is obligated at contract award and will expire at the end of the current fiscal year. Lot III contracts were small business set asides with nine offers received via the beta.sam.gov website. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Black Micro Corp., Tamuning, Guam, is awarded a \$161,815,880 firm-fixed-price contract for site development and for the construction of an aircraft parking apron and taxiway at the Tinian International Airport, Tinian, Commonwealth of the Northern Mariana Islands (CNMI). This contract contains two unexercised options which, if exercised, would increase cumulative contract value to \$163,877,480. Work will be performed at the Tinian International Airport, Tinian, CNMI, and is expected to be completed by October 2025. This contract will be incrementally funded, with the first increment in the amount of \$40,462,770 allocated at time of award. Fiscal 2020 military construction (Air Force) funds in the amount of \$40,462,770 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with two proposals received. The Naval Facilities Engineering Systems Command Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-22-C-1318).

Lockheed Martin Rotary Mission Systems, Orlando, Florida is awarded a \$121,025,345 modification (P00022) to a previously awarded firm-fixed-price, cost-plus-fixed-fee, cost reimbursable contract (N6833518C0681). This modification exercises an option to procure 35 full-rate production electronic Consolidated Automated Support System (eCASS) units, associated data, engineering support services, and related equipment, including one genie lift, one test program set development suite, three self-maintenance and test/calibration operational test program sets, four calibration equipment suites/kits, 40 rack rail kits, 41 shore installation kits, 42 ship installation kits, 47 core stations, and 109 mission equipment kits in support of the Navy's AV-8B, C-2, E-2D, EA-6B, EA-18G, E-2, F/A-18A/B/C/D/E/F, H-60R/S, T-45 and V-22 programs and Foreign Military Sales (FMS) customers. Work will be performed in Orlando, Florida, and is expected to be completed in December 2024. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$76,847,505; fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$36,023,721; FMS funds in the amount of \$6,160,114; fiscal 2021 aircraft procurement (Navy) funds in the amount of \$1,761,277; and fiscal 2020 aircraft procurement (Navy) funds in the amount of \$232,728 will be obligated at time of award, \$232,728 of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

Geosyntec Jacobs JV, San Diego, California, was awarded a \$100,000,000 firm-fixed-price and cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity, architect and engineering contract for environmental services at Navy, Marine Corps, and Base Realignment and Closure (BRAC) installations and other federal organizations. No task orders are being issued at this time. The work to be performed provides for performing various design and engineering services, particularly in environmental restoration, as well as support in other environmental areas. All work on this contract will be performed at any location worldwide, including federal facilities in both the continental U.S. and outside the continental U.S. The term of the contract is not to exceed 60 months with an expected completion date of November 2026. Fiscal 2022 BRAC (Environmental) funds are obligated on this award for the guaranteed minimum in the amount of \$10,000 and will not expire at the end of the current fiscal year. Future task orders will be primarily funded by BRAC; environmental restoration (Navy); and research, development, test and evaluation (Navy) funds. This contract was competitively procured via the beta.sam.gov website with five proposals received. The Naval Facilities Engineering Systems Command, Engineering and Expeditionary

Warfare Center, Port Hueneme, California, is the contracting activity (N39430-22-D-2400). (Awarded Nov. 23, 2021)

The Boeing Co., St. Louis, Missouri, is awarded \$85,014,425 for ceiling-priced delivery order N00383-22-F-0A30 under previously awarded basic ordering agreement N00383-17-G-A301 for overhaul of 40 ship-sets for the F-18 landing gear system, which includes a left side and right side main landing gear and nose landing gear assembly in support of the F/A-18E/F and EA-18G aircrafts. All work will be completed by April 2024 with no option periods. Work will be performed in Quebec, Canada (37%); St. Louis, Missouri (21%); Fort Walton Beach (18%); Ontario, Canada (12%); San Diego, California (6%); various other material suppliers (4%); and Yakima, Washington (2%). Annual fiscal working capital funds (Navy) in the amount of \$41,657,068 will be obligated at the time of award and funds will not expire at the end of the current fiscal year. One firm was solicited for this non-competitive requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

Vectrus Systems Corp., Colorado Springs, Colorado, is awarded a \$47,326,432 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for base operations support services at Naval Station Guantanamo Bay, Cuba. Work will be performed in Guantanamo Bay, Cuba, and is expected to be completed by November 2022. No funds will be obligated at time of award. Fiscal 2022 operation and maintenance (Navy) funds; fiscal 2022 Defense Health Program funds; fiscal 2022 operation and maintenance (Army) funds; and fiscal 2022 operation and maintenance (Defense agencies) funds in the amount of \$38,176,547 for recurring work will be obligated on individual task orders issued during the base period and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity (N69450-22-D-0010).

Sikorsky Aircraft Corp., a Lockheed Martin Co., Stratford, Connecticut, is awarded a \$16,253,510 firm-fixed-price, cost-plus-fixed-fee, cost reimbursable modification (P00003) to an order (N0001920F0024) against a previously issued basic ordering agreement (N0001919G0029). This modification exercises options to provide the following support services: test support; on-site technical and logistics support, to include incorporation of technical directives; sustainment engineering support; material management, to include spares procurement and component repairs; and training in support of the overhaul and rework of the VH-3D and VH-60N aircraft, as well as physical security services for the aircraft. Work will be performed in Stratford, Connecticut, and is expected to be completed in November 2022. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$16,253,510 will be obligated at the time of award, all of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

IAP-ECC LLC, Burlingame, California, is awarded a \$14,210,112 modification to a firm-fixed-price task order (N6274221F4000) under previously-awarded contract N62742-16-D-3553 to exercise Option Two for the construction and maintenance of a contractor berthing camp at Naval Air Weapons Station China Lake. This award brings the total cumulative contract value to \$136,464,421. Work will be performed in Ridgecrest, California, and is expected to be completed by March 2025. Fiscal 2020 military construction (Navy); and fiscal 2021 working capital (Navy) funds in the amount of \$14,210,112 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Pacific, Pearl Harbor, Hawaii, is the contracting activity.

Curtiss Wright Electro Mechanical Corp., Cheswick, Pennsylvania, is awarded a \$7,596,583 firm-fixed-price contract. This contract provides for the manufacture, production and procurement of the Electromagnetic Aircraft Launch System production program motor generator long lead time materials for the CVN 81 aircraft carrier. Work will be performed in High Bridge, New Jersey (31%); Nazareth, Pennsylvania (25%); Voelklingen, Germany (19%); Cheswick, Pennsylvania (17%); Irvine, Pennsylvania

(7%); and Spring Cove, Illinois (1%), and is expected to be completed in September 2024. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$7,596,583 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922C0003).

November 29, 2021

Alliant Techsystems Operations LLC, a wholly owned subsidiary of Northrop Grumman Defense Systems Sector, Northridge, California, is awarded a \$46,161,550 firm-fixed-price modification (P00002) to a previously awarded contract (N0001921C0013). This modification exercises an option to procure full rate production Lot 11 Advanced Anti-Radiation Guided Missiles (AARGM) to include the conversion of 51 AGM-88B High Speed Anti-Radiation Missiles (HARMs) into AGM-88E AARGM all-up-rounds, as well as related supplies and services necessary for their manufacture, spares, and fleet deployment for the government of Germany. Work will be performed in Northridge, California (80%); and Ridgecrest, California (20%), and is expected to be completed in March 2025. Foreign Military Sales customer funds in the amount of \$46,161,550 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

KBR Services LLC, Houston, Texas, is awarded \$39,382,915 for a cost-plus-award-fee modification to task order N6247021F9101 for a previously announced contract (N62742-16-D-3551). This modification provides for the mobilization, operation and maintenance, and demobilization for the expeditionary staging area at Marine Corps Base Quantico. This contract modification is for increasing the maximum dollar value of a Global Contingency Services Multiple Award contract for the base period and Option Period 01, Contract Line Item Number (CLIN) 0002 and CLIN 0004, for the Quantico Expedition Staging Area in support of Operation Allies Welcome. Work will be performed in Quantico, Virginia, and is expected to be completed by December 2021. Fiscal 2022 operation and maintenance (Marine Corps) contract funds in the amount of \$39,382,915 are obligated on this award and will expire at the end of the current fiscal year. After the award of this modification, the total cumulative contract value will be \$174,086,066. The Naval Facilities Engineering Systems Command, Washington, D.C., is the contracting activity.

Kellogg Brown and Root Services Inc., Houston, Texas, is awarded a \$28,344,563 firm-fixed-price, indefinite-delivery/indefinite-quantity modification to previously-awarded contract N62470-17-D-4007 to exercise Option Four for base operations support services at Naval Support Activity Bahrain. Award of this option brings the total cumulative contract value to \$114,449,214. The work to be performed provides for all management and administration, security operations, galley services, unaccompanied housing, facility management, facilities investment, custodial services, pest control services, integrated solid waste services, grounds maintenance, utility management, wastewater, and transportation. Work will be performed at Naval Support Activity Bahrain and is expected to be completed by November 2022. No funds will be obligated at time of award. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$23,922,669 for non-recurring work will be obligated on individual task orders issued during the option period and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Europe Africa Central, Naples, Italy, is the contracting activity.

Vectrus Systems Corp., Colorado Springs, Colorado, is awarded a \$27,732,505 firm-fixed-price, indefinite-delivery/indefinite-quantity modification to a previously-awarded contract (N62470-20-D-0010) to exercise Option One for base operations support services at ISA Air Base, Bahrain. Award of this option brings the total cumulative contract value to \$56,734,005. The work to be performed provides for all management and administration, security, fire and emergency, material management and supply, facilities management and investment, pest control, integrated solid waste, pavement clearance, utilities,

base support vehicles and equipment, morale, welfare and recreation support, galley, unaccompanied housing, custodial, grounds maintenance and landscaping, and environmental services to provide base operations support services. Work will be performed at Isa Air Base, Kingdom of Bahrain, and is expected to be completed by November 2022. No funds will be obligated at time of award. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$19,601,394 for non-recurring work will be obligated on individual task orders issued during the first option period and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Europe, Africa, Central, Naples, Italy, is the contracting activity.

W. M. Jordan Co., Newport News, Virginia, is awarded a \$22,750,582 firm-fixed-price task order (N4008522F4169) under a previously-awarded contract (N40085-19-D-9089) for design-bid-build Ships Maintenance Facility, Norfolk Naval Shipyard. The task order also contains three unexercised options and one planned modification which, if exercised, would increase the cumulative task order value to \$25,507,072. This project converts the fifth and sixth floors in Building 510 to accommodate the relocation of workshops. The altered floor plan will include shop equipment areas, maintenance space, pallet racks, fire-rated walls around storage areas, administrative office, break room, personnel support areas, bathrooms, and a conference room. The Ships Maintenance Facility is located within the 100-year flood plain. The facility is required to be co-located with the existing piers and dry docks to permit secure, close proximity to the ships and equipment undergoing maintenance. Mitigation includes elevating new equipment, inside or outside of the building, to at least two feet above the 100-year flood level. Work will be performed in Portsmouth, Virginia, and is expected to be completed by January 2024. Fiscal 2020 military construction (Navy) funds in the amount of \$22,750,582 will be obligated at time of award and will not expire at the end of the current fiscal year. Three proposals were received for this task order. The Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

Rockwell Collins Inc., Cedar Rapids, Iowa, is being awarded a \$16,618,510 cost-plus-fixed-fee contract. This contract provides for sustaining engineering support services and diminishing manufacturing sources and material shortages management in support of the E-6B Take Charge and Move Out and airborne command post aircraft. Work will be performed in Richardson, Texas (70%); Oklahoma City, Oklahoma (20%); and Patuxent River, Maryland (10%), and is expected to be completed in November 2022. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$5,996,945 will be obligated at time of award, all of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to Federal Acquisition Regulation 6.302-4. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922C0014).

Sikorsky Aircraft Corp., a Lockheed Martin Co., Stratford, Connecticut, is awarded an \$11,775,696 modification (P00003) to a cost-plus-fixed-fee order (N0001921F0109) against a previously issued basic ordering agreement (N0001919G0029). This modification adds scope to provide non-recurring engineering analysis in support of Federal Aviation Administration airworthiness certification efforts to enable VH-92A shipboard operations. Additionally, this modification provides for delivery, installation and removal of instrumentation on the aircraft, landing on, departing from, towing on, and typing-down on landing helicopter-assault class ships and data analysis to achieve envelope expansion of the same operations. Work will be performed in Stratford, Connecticut (63%); West Palm Beach, Florida (27%); Coatsville, Pennsylvania (5%); Owego, New York (4%); and Trumbull, Connecticut (1%), and is expected to be completed in October 2023. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$5,825,645 will be obligated at the time of award, all of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

UPDATE: A multiple-award contract announced on Sept. 28, 2021, with a combined maximum value of \$900,000,000, has added B.L. Harbert International, Birmingham, Alabama (N69450-22-D-0011); Balfour Beatty Construction LLC, Charlotte, North Carolina (N69450-22-D-0012); and Whiting-Turner Contracting

Co., Baltimore, Maryland (N69450-22-D-0013), as three of 10 awardees for construction projects located primarily within the Naval Facilities Engineering Systems Command (NAVFAC) Southeast area of operations. These three contractors are being added to the previously-awarded suite of seven contractors due to a decision to expand the range of awardees. The maximum dollar value for the five-year ordering period for all ten contracts combined remains \$900,000,000. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity.

November 26, 2021

Kekolu Contracting LLC, La Plata, Maryland, is awarded a maximum-value \$125,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for design-bid-build mechanical and HVAC construction, repairs, and replacement projects at Naval Air Station Patuxent River, Naval Support Facility Indian Head, and Naval Support Facility Dahlgren. Work will be performed in Patuxent River, Maryland; Indian Head, Maryland; and Dahlgren, Virginia, and is expected to be completed by November 2026. An initial task order (N4008022F4058) is awarded at \$2,000 to meet the minimum guarantee for the contract. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$2,000 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with nine proposals received. The Naval Facilities Engineering Systems Command Washington, D.C., is the contracting activity (N40080-22-D-0003).

MNDPI PACIFIC JV, Honolulu, Hawaii, is awarded a \$49,047,043 firm-fixed-price task order modification (N6274221F0302-P00007) under previously awarded indefinite-delivery/indefinite-quantity contract N62742-20-D-0004 for various structural and waterfront projects and other projects at locations under the cognizance of Naval Facilities Engineering Systems Command Pacific. Work will be performed at Joint Base Pearl Harbor-Hickam, Hawaii, and is expected to be completed by April 2022. Fiscal 2021 military construction (Navy) funds in the amount of \$49,047,043 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

November 24, 2021

General Dynamics, Bath Iron Works, Bath, Maine, is awarded a \$149,346,411 cost-plus-award-fee modification against previously awarded contract N00024-19-C-4452 for DDG planning yard services. Work will be performed in Bath, Maine, and is expected to be completed by January 2023. Fiscal 2022 operations and maintenance (Navy) funding in the amount of \$889,173 will be obligated at time of award and will expire at the end of the current fiscal year. The Supervisor of Shipbuilding, Conversion, and Repair, Bath, Maine, is the contracting activity.

Sikorsky Aircraft Corp., a Lockheed Martin Co., Stratford, Connecticut, is awarded a \$31,158,091 cost-plus-fixed-fee modification (P00008) to an order (N0001919F2972) against a previously issued basic ordering agreement (N0001919G0029). This modification exercises an option to provide non-recurring engineering to include, investigation, systems engineering support, risk analysis and integration development in support of the Data Transfer Unit and Defensive Electronic Countermeasure System replacement within the CH-53K production aircraft. Work will be performed in Stratford, Connecticut (38.1%); Patuxent River, Maryland (26.23%); Cedar Rapids, Iowa (25.74%); Fort Worth, Texas (5.09%); West Palm Beach, Florida (2.10%); Vergennes, Vermont (1.99%); and various locations within the continental U.S. (0.75%), and is expected to be completed in March 2025. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$31,158,091 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

L3Harris, L3Technologies, Inc., MariPro, Goleta, California, is awarded a \$23,197,583 firm-fixed-price modification (P00001) to a previously awarded contract (N6134021C0023). This modification exercises options to provide production and installation engineering and technical support for the Under Sea Warfare Training Range Programs Increment II and III training ranges that are being developed off the shores of Hawaii, California and the Bahamas in support of Navy air, surface and sub-surface training. Work will be performed in Goleta, California, and is expected to be completed in December 2023. Fiscal 2022 other procurement (Navy) funds in the amount of \$23,197,583 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity.

Huntington Ingalls Industries, Newport News Shipbuilding, Newport News, Virginia, is awarded an \$18,064,449 cost-plus-fixed-fee modification to previously awarded contract N00024-18-C-2106 for the advance planning requirements to support the refueling complex overhaul of the USS Harry S. Truman (CVN 75). Work will be performed in Newport News, Virginia, and is expected to be completed in November 2022. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$12,808,399 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured. In accordance with 10 U.S. Code 2304 (c)(1), this contract was not competitively procured — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-18-C-2106).

November 23, 2021

Science Applications International Corp. (SAIC), Reston, Virginia, is awarded a \$123,682,642 fixed-price incentive (firm target), firm-fixed-price and cost-plus-fixed-fee contract for the production of MK 48 Mod 7 heavyweight afterbody/tailcones and warshot fuel tank torpedo equipment and support. This contract includes options, which, if exercised, would bring the cumulative value of this contract to \$1,113,036,995. This contract combines purchases for the Navy and the governments of Australia and Taiwan under the Foreign Military Sales (FMS) program. Work will be performed in Bedford, Indiana (80%); and Middletown, Rhode Island (20%), and is expected to be complete by July 2025. If all options are exercised, work will continue through January 2033. Fiscal 2021 weapons procurement (Navy) funds in the amount of \$96,968,905 (81%); and FMS/Armaments Cooperative Program (ACP) funds in the amount of \$22,547,904 (19%), will be obligated at time of award, not to expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with one offer received. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-6419).

Austal USA LLC, Mobile, Alabama, is awarded a \$72,514,406 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for emergent repair and continuous maintenance for littoral combat ships deployed to the Western Pacific, Indian Ocean, and the countries and ports therein. The contract will include a one 24-month base period beginning in January with three additional 12-month option periods, which if exercised, will bring the total value to \$215,881,424. Work will begin January 2022 and is expected to be completed by December 2023; if all options are exercised, work will be completed by December 2026. Work will be primarily performed in Singapore with a percentage that cannot be determined at this time in countries and ports within the Western Pacific and Indian Ocean. Fiscal 2022 operation and maintenance funds (Navy) in the amount of \$9,185,652 will be obligated to fund the contract's minimum amount and funds will expire at the end of the current fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. This contract was competitively procured with the solicitation posted on the beta.sam.gov website, with two offers received. Naval Supply Systems Command Fleet Logistics Center Yokosuka, Site Singapore, is the contracting activity (N40345-22-D-8000).

General Dynamics Electric Boat, Groton, Connecticut, is awarded a \$46,485,540 cost-plus-fixed-fee contract modification exercising the fourth option year (of four option years) under contract (N00024-18-C-4301) to provide a Nuclear Regional Maintenance Department at Naval Submarine Base New London, Connecticut, in support of returning mission-ready submarines to the fleet. This contract modification brings the cumulative value of this contract to \$208,632,898. Work will be performed in Groton, Connecticut, and is expected to be completed by November 2022. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$5,500,000 will be obligated at time of award and will expire at the end of the current fiscal year. In accordance with 10 U.S. Code 2304(c)(1), this contract was not competitively procured — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Rolls-Royce Corp., Indianapolis, Indiana, is awarded a \$23,319,520 fixed-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides for the depot repair of T56-A-427A engines installed on E-2D Advanced Hawkeye aircraft for the Navy. Work will be performed in San Antonio, Texas (70%); Winnipeg, Canada (25%); and Indianapolis, Indiana (5%), and is expected to be completed in November 2022. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922D0003).

Honeywell International Inc., Tempe, Arizona, is awarded a \$21,797,957 firm-fixed-price, five-year requirements type, long-term contract with no options for the repair of five aircraft parts associated with digital displays in support of the FA-18, EA-18, and AV-8 weapon systems. All work will be performed in Phoenix, Arizona, and is expected to be completed by November 2026. Annual working capital (Navy) funds will be obligated as individual task orders are issued and no funds will expire at the end of the current fiscal year. One company was solicited for this sole-source requirement under authority 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-22-D-X401).

Pacific Federal Management Inc., Tumon, Guam, is awarded a \$10,583,590 firm-fixed-price, indefinite-delivery/indefinite-quantity modification to previously-awarded contract N40192-20-D-9000 to exercise Option Two for base operations support services at Naval Base Guam and Andersen Air Force Base, Guam. Award of this option brings the total cumulative contract value to \$30,382,646. Work will be performed in the Naval Facilities Engineering Systems Command (NAVFAC) Marianas area of responsibility, including, but not limited to, Naval Base Guam (70%); and Andersen Air Force Base, Guam (30%), and is expected to be completed by November 2022. No funds will be obligated at time of award. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$8,125,765 for recurring work will be obligated on individual task orders issued during the option period and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Marianas, Guam, is the contracting activity.

WEBCOR Construction L.P., Alameda, California, is awarded a \$7,658,331 firm-fixed-price modification to a task order (N6247321F4923) under previously awarded contract N62473-21-D-1214 to increase the maximum dollar value for the Range Control Complex Military Construction Project at Naval Air Weapons Station China Lake, California. Award of this modification brings the total cumulative contract value to \$120,953,987. Work will be performed at Naval Air Weapons Station China Lake, California, and is expected to be completed by January 2024. Fiscal 2021 working capital (Navy) funds in the amount of \$7,658,331 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Officer in Charge of Construction, China Lake, California, is the contracting activity.

November 22, 2021

Lockheed Martin, Rotary and Mission Systems, Moorestown, New Jersey, is awarded an \$114,606,157 cost-plus-incentive-fee, cost-plus-fixed-fee, and cost-only modification to previously-awarded contract N00024-13-C-5116 to exercise an option for AEGIS Combat System Engineering Agent efforts for the design, development, integration, test and delivery of Advanced Capability Build 20. Work will be performed in Moorestown, New Jersey, and is expected to be completed by December 2022. Fiscal 2021 other procurement (Navy) funds in the amount of \$430,000 (53%); and fiscal 2022 research, development, test, and evaluation (Navy) funds in the amount of \$382,216 (47%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Raytheon Technologies, Portsmouth, Rhode Island, is awarded a \$27,596,535 firm-fixed-price modification to previously awarded contract N00024-16-C-6423 to exercise options for the production of the MK54 lightweight torpedo MOD 0 and MOD 1 common part kits and spare torpedo components. This contract combines purchases for the U.S. government (67%); and the governments of Spain and Brazil (33%) under the Foreign Military Sales (FMS) program. Work will be performed in Portsmouth, Rhode Island; and Keyport, Washington (5%), and is expected to be completed by May 2025. Fiscal 2022 weapons procurement (Navy) funds in the amount of \$18,234,431 (66%); FMS Spain and FMS Brazil funds in the amount of \$9,015,184 (33%), and fiscal 2021 weapons procurement (Navy) funds in the amount of \$346,920 (1%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Rockwell Collins Inc., Cedar Rapids, Iowa, is awarded a \$9,900,000 firm-fixed-price, cost-plus-fixed-fee modification (P00011) to a previously awarded contract (N0042118C0042). This modification exercises an option to provide for the flight management function application enterprise-wide license for all Navy, Marine Corps, and Navy led joint program aircraft. Work will be performed in Cedar Rapids, Iowa, and is expected to be completed in July 2023. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$9,900,000 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

November 19, 2021

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$584,835,834 cost-plus-incentive-fee modification (PZ0057) to a previously awarded contract (N0001919C0010). This modification adds scope to provide system integration engineering for the development of new ASQ-239 electronic warfare/counter measure hardware in support of the F-35 aircraft for the Air Force, Marine Corps, Navy, and non-U.S. Department of Defense (DOD) participants. Work will be performed in Nashua, New Hampshire (66%); Fort Worth, Texas (27.5%); Linthicum Heights, Maryland (5%); various locations within the continental U.S. (1%); and Balderstone, Lancashire, United Kingdom (0.5%), and is expected to be completed in April 2026. Fiscal 2022 research, development, test and evaluation (Air Force) funds in the amount of \$33,934,533; fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$33,934,532; and non-U.S. DOD participant funds in the amount of \$14,949,980 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Huntington Ingalls Industries (HII) Inc., Pascagoula, Mississippi, is awarded an \$113,694,258 not-to-exceed undefinitized contract action for long lead time material (LLTM) in support of one amphibious assault ship (general purpose) replacement (LHA(R)) Flight 1 Ship (LHA 9). This action will be the sixth increment of LLTM awarded to HII under contract N00024-20-C-2437 executed on April 30, 2020. Work will be performed in Pascagoula, Mississippi (64%); Montville, New Jersey (7%); Mobile, Alabama (5%); Tulsa, Oklahoma (5%); High Ridge, Missouri (5%); Blaine, Washington (4%); Pittsburgh, Pennsylvania

(4%); Thomaston, Connecticut (3%); and Ayer, Massachusetts (3%). Work is expected to be completed by April 2024. Fiscal 2021 shipbuilding and conversion (Navy) funding in the amount of \$85,270,693 will be obligated at award and will not expire at the end of the current fiscal year. The obligation amount represents 75% of the not-to-exceed price, in accordance with Defense Federal Acquisition Regulation 217.7404-4, limitations on obligations. In accordance with 10 U.S. Code 2304(c)(1), this contract was not competitively procured — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-20-C-2437).

Kellogg Brown and Root Services Inc., Houston, Texas, is awarded a \$71,467,204 firm-fixed-price, indefinite-delivery/indefinite-quantity modification to exercise Option Four under previously-awarded contract N62470-17-D-4012 for base operations support services at Camp Lemonnier, Djibouti; Chabelley Airfield, Djibouti; and Camp Simba, Kenya. Award of this option brings the total cumulative value of the contract to \$340,659,008. Work will be performed in Djibouti City, Djibouti (81%); Manda Bay, Kenya (15%); and Chabelley, Djibouti (4%), and is expected to be completed by November 2022. No funds will be obligated at time of award. Fiscal 2021 operation and maintenance (Navy); fiscal 2021 operation and maintenance (Air Force); and fiscal 2021 operation and maintenance (National Security Agency) funds in the amount of \$8,910,005 for recurring work will be obligated on the first task order to be issued during the option period and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Europe, Africa, Central, Naples, Italy, is the contracting activity.

Science Applications International Corp., Reston, Virginia, is awarded a \$43,009,838 cost-plus-fixed-fee, level-of-effort and cost task order to provide production, engineering, and fielding support for the integration of command, control, communications, computers, intelligence, surveillance, and reconnaissance systems on multiple vehicle platforms for the Naval Information Warfare Center Atlantic, Land Systems Integration Division. The task order includes a 12-month base period, plus two six-month option periods. The option periods, if exercised, would bring the cumulative value of this task order to an estimated \$86,613,406. Fiscal 2021 other procurement (Army); fiscal 2022 other procurement (Army); fiscal 2021 procurement (Marine Corps); and fiscal 2022 operation and maintenance (Air Force) funds in the amount of \$11,781,002 will be obligated at the time of award. Fiscal 2021 other procurement (Army); fiscal 2022 other procurement (Army); and fiscal 2021 procurement (Marine Corps) funds will not expire at the end of the fiscal year. Fiscal 2022 operation and maintenance (Air Force) funds will expire at the end of the fiscal year. Work will be performed in Charleston, South Carolina (94%); Alamogordo, New Mexico (1%); Kuwait City, Kuwait (1%); Doha, Qatar (1%); Riyadh, Saudi Arabia (1%); and various locations below one percent (2%), and is to be completed in November 2022. If options are exercised, work could continue until November 2023. This sole source task order was not competitively procured in accordance with Defense Federal Acquisition Regulation 16.505(b)(2)(i)(B), only one awardee is capable of providing the supplies or services at the level of quality required because the supplies or services ordered are unique or highly specialized. Naval Information Warfare Center Atlantic, Charleston, South Carolina, is the contracting activity.

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a \$31,772,325 cost-plus-fixed-fee modification to previously awarded contract N00024-20-C-2114 for reactor plant planning yard support for nuclear-powered submarines and support yard for the Navy's moored training ships. Work will be performed in Groton, Connecticut (92%); and Charleston, South Carolina (8%). Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$5,000,000 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Sikorsky Aircraft Corp., a Lockheed Martin Co., Stratford, Connecticut, is awarded a \$21,201,454 modification (P00309) to a previously awarded cost-plus-incentive-fee contract (N0001906C0081). This modification increases scope and provides aircraft maintenance in support of the CH-53K data transfer

unit and defensive electronic countermeasure system replacement phase three flight test. Work will be performed in Patuxent River, Maryland (78%); Eglin Air Force Base, Florida (11%); and Hot Springs, Virginia (11%), and is expected to be completed in June 2022. No funds will be obligated at time of award. Funds will be obligated on subsequent modifications to the contract. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

November 18, 2021

Raytheon Co., El Segundo, California, is awarded a \$63,103,871 fixed-price-incentive-fee modification (P00011) to a previously awarded contract (N0001920C0001). This modification exercises options to procure 19 AN/APG-79(V)4 radar systems and associated software in support of radar retrofit and integration into the F/A-18C/D aircraft on behalf of the Marine Corps. Additionally, this modification provides engineering and obsolescence management support as well as associated technical, financial, and administrative data in support of the retrofit and integration effort. Work will be performed in Forest, Mississippi (41.1%); El Segundo, California (32.6%); Andover, Massachusetts (18.3%) and Dallas, Texas (8%), and is expected to be completed in March 2023. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$63,103,871 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Veraxx Engineering Corp., Chantilly, Virginia, is awarded a \$46,000,000 cost-plus-fixed-fee, cost-reimbursable, firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides for the technical upgrade of the Marine Corps Aviation Distributed Virtual Training Environment (ADVTE) to include analysis, development, production, enhancement, upgrade, test, installation and delivery, documentation, operation, and configuration management. Additionally, this contract provides for the sustainment of ADVTE equipment including network exercise control centers, common virtual training areas, and other aviation training equipment. Work will be performed in New River, North Carolina (15%); San Diego, California (15%); Oceanside, California (15%); Cherry Point, North Carolina (10%); Kaneohe Bay, Hawaii (10%); Ginowan, Japan (10%); Jacksonville, North Carolina (5%); Beaufort, South Carolina (5%); Twenty-nine Palms, California (5%); Yuma, Arizona (5%); and Orlando, Florida (5%), and is expected to be completed in November 2031. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; three offers were received. The Naval Air Warfare Center Training Systems Division, Orlando, Florida is the contracting activity (N6134021D0021).

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$20,353,137 modification (U00010) to a previously awarded, cost-plus-fixed-fee contract (N0001920C0026). This modification adds scope to continue support required to establish the common reprogramming tool development network and selection of a service-oriented architecture for the development of enhanced reprogramming tools, which is essential for all standing labs in support of the F-35 aircraft for the Navy, Air Force, Marine Corps, and non-U.S. Department of Defense (DOD) participants. Work will be performed in Fort Worth, Texas (90%); and Eglin Air Force Base, Florida (10%), and is expected to be completed in May 2022. Fiscal 2022 research, development, test and evaluation (Air Force) funds in the amount of \$965,875; fiscal 2021 research, development, test and evaluation (Air Force) funds in the amount of \$235,929; and non-U.S. DOD participant funds in the amount of \$11,804,254 will be obligated at the time of award, \$235,929 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

November 17, 2021

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, was awarded a not-to-exceed \$18,977,821 fixed-price-incentive-fee, undefinitized modification (P00011) to a previously

awarded contract (N0001920C0032). This modification adds scope to provide delivery and installation of a multispectral database and delivery of crypto ignition keys in support of F-35 Lightning II Joint Strike Fighter in support of the Air Force and the government of the Republic of Korea. Work will be performed in Madison, Wisconsin (80%); and Fort Worth, Texas (20%), and is expected to be completed in September 2023. Fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$9,488,500; and Foreign Military Sales funds in the amount of \$821 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity. (Awarded Nov. 16, 2021)

Systems Application and Technologies Inc., Upper Marlboro, Maryland, was awarded a \$16,812,466 cost-plus-fixed-fee, level of effort, cost reimbursable modification (P00018) to a previously awarded contract (N0042119C0023). This modification exercises an option to provide continued support services to the Naval Air System Command Prototyping, Instrumentation, and Experimentation Department. These services include designing, developing, procuring, building, installing, testing and evaluating, calibrating, modifying, operating and maintaining instrumentation on various aircraft and uninstalled engines for the Department of Defense, other government agencies, foreign governments, and commercial customers. Work will be performed in Patuxent River, Maryland, and is expected to be completed in November 2022. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$3,857,500 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity. (Awarded Nov. 16, 2021)

Lockheed Martin Corp., Liverpool, New York, is awarded a \$15,896,254 modification (P00006) to a firm-fixed-price order (N0001920F0535) against a previously issued basic ordering agreement (N0001919G0029). This modification exercises an option to procure seven retrofit advanced radar processor systems for the E-2D aircraft. Work will be performed in Liverpool, New York (54%); and Andover, Massachusetts (46%), and is expected to be completed in February 2026. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$15,896,254 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

National Steel and Shipbuilding Co., San Diego, California, was awarded a \$10,842,839 firm-fixed-price modification to previously awarded contract N00024-16-C-2229 to procure shore based spares for the USNS John Lewis T-AO class oiler program. Work will be performed in San Diego, California, and is expected to be completed by November 2024. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$10,842,839 will be obligated at time of award and will not expire at the end of the current fiscal year. The Supervisor of Shipbuilding Bath, Detachment San Diego, San Diego, California, is the contracting activity. (Awarded Nov. 16, 2021)

Crew Training International Inc., Memphis, Tennessee, is awarded a not-to-exceed \$9,704,317 firm-fixed-price undefinitized contract. This contract provides in-country pilot and maintainer training, as well as aircraft maintenance for the AH-1Z program in support of the government of Bahrain. Work will be performed in Sakhir, Bahrain, and is expected to be completed in November 2024. Foreign Military Sales funds in the amount of \$1,127,962 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-4. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922C0024).

November 16, 2021

D Square Construction LLC, Tucson, Arizona (N62478-22-D-4000); Dawson Technical Inc., Irvine, California (N62478-22-D-4001); Environet Inc., Kamuela, Hawaii (N62478-22-D-4002); Glen/Mar-Hensel Phelps JV, Clackamas, Oregon (N62478-22-D-4003); Insight Pacific LLC, Brea, California (N62478-22-D-4004); and Su-Mo Builders Inc., Honolulu, Hawaii (N62478-22-D-4005), are awarded a maximum-combined-value \$499,000,000 indefinite-delivery/indefinite-quantity, multiple-award design-build/design-bid-build construction contract for construction projects located primarily within the Naval Facilities Engineering Systems Command (NAVFAC) Hawaii area of responsibility (AOR). These six contractors may compete for task orders under the terms and conditions of the awarded contract. No task orders are being issued at this time. Each awardee will be awarded \$10,000 in order to satisfy the minimum guarantee. Work will be performed in Hawaii and is expected to be completed by November 2026. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$60,000 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with 14 proposals received. The Naval Facilities Engineering Systems Command Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

Bell Boeing Joint Project Office, Amarillo, Texas, is awarded a \$71,925,870 cost-plus-fixed-fee, firm-fixed-price, fixed-price-incentive-firm-target modification (P00003) to an order (N0001921F0030) against a previously issued basic ordering agreement (N0001917G0002). This modification exercises options to procure 15 Nacelle improvements kits, rotatable pool components and interim spares. Additionally, this modification provides for the installation of eight kits in conjunction with conversion area harness, electrical wiring interconnect system assessments, sustaining engineering, and over and above requirements for the CV-22 fleet aircraft. Work will be performed in Amarillo, Texas (53%); Fort Worth, Texas (46%); and Ridley Park, Pennsylvania (1%), and is expected to be completed in June 2025. Fiscal 2022 aircraft procurement (Air Force) funds in the amount of \$71,925,870 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a \$31,000,000 firm-fixed-price delivery order (N00024-22-F-4301) against Naval Sea Systems Command multiple award, indefinite-delivery/indefinite-quantity contract (N00024-16-D-4300) for the Historic Ship (HS) Nautilus (SSN 571) preservation availability. Work will be performed at the Naval Submarine Base New London in New London County, Connecticut, and is expected to be completed by August 2022. Fair opportunity to compete for this effort was provided to all contract holders. General Dynamics Electric Boat Corp. was the only offeror who provided a proposal for this effort. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$31,000,000 will be obligated at the time of award and will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

BAE Systems Technology Solutions & Services Inc., doing business as BAE Systems, Rockville, Maryland, is awarded a \$17,440,229 firm-fixed-price contract modification (P00021) under a previously awarded contract (N00604-19-C-4001) to exercise Option Year Three for the operation and maintenance of Navy communication, electronic, and computer systems. The contract included a 12-month base period and four one-year option periods. The exercise of this option will bring the estimated value of the contract to \$63,187,185, and if all options are exercised, it will bring the total estimated value to \$80,149,463. Work will be performed in Oahu, Hawaii (94%); and Geraldton, Australia (6%). Work will begin December 2021 and is expected to be completed by November 2022; if all options are exercised, work will be completed by November 2023. Fiscal year 2022 operation and maintenance (Navy) funds in the amount of \$1,730,921 will be obligated at the time of award and funds will expire at the end of the current fiscal year. This contract was solicited on a full and open, unrestricted basis with two offers received. Naval Supply Systems Command Fleet Logistics Center Pearl Harbor, Regional Contracting Department, Pearl Harbor, Hawaii, is the contracting activity.

Eastern Research Group Inc., Chantilly, Virginia, is awarded an \$8,095,831 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for engineering, technical, administrative and programmatic management support for total life cycle management of the various aircrew escape systems managed under the Joint Program Office for Cartridge Actuated Device/Propellant Actuated Device tri-service

charter. Work will be performed in Lexington, Massachusetts, and is expected to be completed by September 2025. Fiscal 2021 working capital (Navy) funding of \$500 dollars will be obligated on the first task order at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured and in accordance with 10 U.S. Code 2304(c)(1) — only limited responsible number of responsible sources will satisfy agency requirements. The Naval Surface Warfare Center Indian Head Division, Indian Head, Maryland, is the contracting activity (N00174-22-D-0003).

November 15, 2021

Melwood Horticultural Training Center Inc., Upper Marlboro, Maryland, is awarded a \$13,833,794 firm-fixed-price, indefinite-delivery/indefinite-quantity modification to a previously-awarded contract (N40080-21-D-3504) to exercise Option One for custodial services at the U.S. Naval Academy complex. This award brings the total cumulative contract value to \$28,182,507. The work to be performed provides for custodial services such as trash removal, cleaning, vacuuming, floor cleaning and scrubbing, re-lamping, specialized cleaning of the John Paul Jones Crypt, and basketball floor installation and removal. Work will be performed in Annapolis, Maryland, and is expected to be completed by November 2022. No funds will be obligated at time of award. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$10,528,274 for recurring work will be obligated on individual task orders issued during the option period. The Naval Facilities Engineering Systems Command, Washington, D.C., is the contracting activity.

L3Harris Technologies Inc., North Amityville, New York, is awarded a \$10,032,169 firm-fixed-price, cost-plus-fixed-fee contract. This contract procures 220 BRU-55C/A Kits with Universal Armament Interface Joint Direct Attack Munition for engineering, manufacturing, modification and integration in support of the transition from a BRU-55B/A bomb rack configuration to a BRU-55C/A configuration. Additionally, this contract provides for the integration of the LAU-10, LAU-61 and LAU-68 rocket launchers on to F/A-18E/F aircraft concurrent with Operation Flight Program software updates. Work will be performed in Tampa Bay, Florida (60.92%); Franklin, Pennsylvania (38.55%); Brighton, United Kingdom (0.43%); and Queens, New York (0.10%), and is expected to be completed in February 2027. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$10,032,169 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to Federal Acquisition Regulation 6.302-5. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N6833522C0097).

U.S. Marine Management Inc., Norfolk, Virginia, was awarded a \$9,899,997 firm-fixed-price contract for the oil tanker M/V Maersk Peary for the transportation of Defense Logistics Agency purchased fuel stocks in support of Operation Deep Freeze 2022. This contract is a 75-day charter with no option periods. While work under a time charter may be accomplished worldwide and is expected to be performed between the Mediterranean Sea and Antarctica, and is expected to be completed by Feb. 14, 2022. Working capital funds (transportation) in the amount of \$9,899,997 are obligated for fiscal 2022, and will not expire at the end of the current fiscal year. This contract was competitively procured with proposals solicited via the Federal Business Opportunities website and seven offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220522C4178). (Awarded Nov. 9, 2021)

Sikorsky Aircraft Corp., a Lockheed Martin Co., Stratford, Connecticut, is awarded an \$8,069,745 firm-fixed-price modification (P00060) to a previously awarded contract (N0001916C0048). This modification exercises an option to provide for the production and delivery of CH-53K tooling and supplier rate tooling, as well as management through final acceptance, ensuring the program can meet aircraft production rate, based on lead-time and production ramp rates. Work will be performed in Stratford, Connecticut, and is expected to be completed in December 2024. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$8,069,745 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

November 12, 2021

Consigli Construction Co., Inc., Washington, D.C., is awarded a \$41,465,054 firm-fixed-price contract for renovation of MacDonough Hall, Building 102, at the U.S. Naval Academy. Work will be performed in Annapolis, Maryland, and is expected to be completed by November 2024. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$41,465,054 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with nine proposals received. The Naval Facilities Engineering Systems Command Washington, D.C., is the contracting activity (N40080-22-C-0001).

Huntington Ingalls Inc., Pascagoula, Mississippi, is awarded a \$20,000,000 cost modification to previously awarded contract N00024-18-C-2307 to fund capital expenditure projects for shipbuilding supplier industrial base efforts in support of the DDG 51 class destroyer program. This modification will fund supplier base efforts to address supply chain fragility to ensure future readiness for the fleet. Work will be performed in Pascagoula, Mississippi, and is expected to be completed by April 2029. Fiscal 2021 shipbuilding and conversion (Navy) funding in the amount of \$20,000,000 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Ace Electronics Defense Systems, Aberdeen Proving Ground, Maryland (N0016422DJN07); R2C LLC, Huntsville, Alabama (N0016422DJN08); Disan Engineering Corp., Nowata, Oklahoma (N0016422DJN09); Valor Defense Solutions Inc., Odon, Indiana (N0016422DJN10); American Computer Development Inc., Frederick, Maryland (N0016422DJN11); and Integrity Defense Services Inc., Springville, Indiana (N0016422DJN12), are awarded a combined \$11,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple award contract for the manufacture, test, inspection, and delivery of built-to-print cable harnesses and assemblies for Navy and other Department of Defense projects. Each awardee will be awarded \$1,000 (minimum contract guarantee per awardee) at contract award. These contracts do not include options, and the total cumulative value of these contracts is not to exceed \$11,000,000. Work will be performed in Aberdeen Proving Ground and Frederick, Maryland; Huntsville, Alabama; Nowata, Oklahoma; and Odon and Springville, Indiana and is expected to be completed by February, 2025. Fiscal 2022 working capital funding in the amount of \$6,000 will be obligated at time of award and will not expire at the end of the current fiscal year. All other funding will be made available at the delivery order level as contracting actions occur. This contract was competitively procured via the beta.sam.gov website with 11 offers received. The Naval Surface Warfare Center, Crane Division, Crane, Indiana, is the contracting activity.

Bath Iron Works, Bath, Maine, is awarded a \$10,000,000 cost-only modification to previously awarded contract N00024-18-C-2305 to fund capital expenditure projects in support of the DDG 51 class destroyer program. Work will be performed in Bath, Maine, and is expected to be completed by December 2028. Fiscal 2021 shipbuilding and conversion (Navy) funding in the amount of \$10,000,000 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Raytheon Co., McKinney, Texas, is awarded an \$8,784,649 firm-fixed-price delivery order (N00383-22-F-U202) under a previously awarded long-term contract (N00383-19-D-U201) for the repair of the turret and sensor-sight in support of the H-60 aircraft. The current delivery order will exceed the original contract total estimated value of \$58,777,194. This delivery order brings the new total amount of the contract to \$92,084,336. All work will be performed in Jacksonville, Florida, and is expected to be completed by December 2021. Annual working capital (Navy) funds in the full amount of \$8,784,649 will be obligated at time of award, and funds will not expire at the end of the current fiscal year. One company was solicited for this sole-source requirement under authority 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

November 10, 2021

Bechtel National Inc., Reston, Virginia (N62742-22-D-1310); Dragados/Hawaiian Dredging/Orion JV, Honolulu, Hawaii (N62742-22-D-1311); ECC Infrastructure LLC, Burlingame, California (N62742-22-D-1312); Kiewit-Alberici SIOF MACC AJV, Vancouver, Washington (N62742-22-D-1313); and TPC-NAN JV, Sylmar, California (N62742-22-D-1314), are awarded firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple-award construction contracts (MACC) with a combined maximum value of \$8,000,000,000 primarily for the Shipyard Infrastructure Optimization Program (SIOF) at Hawaii, Washington, and other areas under the cognizance of the Naval Facilities Engineering Systems Command (NAVFAC). The main purpose of this SIOF MACC is to facilitate the potential future awards of task orders for military construction projects at Pearl Harbor Naval Shipyard and Puget Sound Naval Shipyard. These five contractors may compete for task orders under the terms and conditions of the awarded contract. Each awardee is being awarded \$2,000,000 in order to satisfy the minimum guarantee. Work will be performed primarily within the NAVFAC Pacific area of responsibility, including Hawaii (40%); Washington (40%); Guam (10%); other areas in the Pacific and Indian Oceans (5%); and other areas under NAVFAC cognizance (5%), and is expected to be completed by November 2029. Fiscal 2022 military construction (Navy) funds in the amount of \$10,000,000 will be obligated at time of award and will not expire at the end of the current fiscal year. Future task orders will be primarily funded by military construction (Navy) funds. This contract was competitively procured via the beta.sam.gov website, with six proposals received. The Naval Facilities Engineering Systems Command Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

Atlas Executive Consulting LLC, North Charleston, South Carolina, is awarded a \$218,710,624 indefinite-delivery/indefinite-quantity contract (N6523622D8006) with provisions for cost-plus-fixed-fee and firm-fixed-price task/delivery orders. The contract will provide support to the Naval Information Warfare Center Atlantic Management and Business Analytical Services Business Intelligence Environment at the Command, Competency, Department, Division and Integrated Product Team levels. Tasks will include performing advanced analysis of business and financial data; building and maintaining data universes; developing metrics, reports, studies, surveys, and assessments; data entry; document preparation; and financial reviews. The contract includes a single five-year ordering period with an estimated value of \$218,710,624 and a six-month option ordering period which, if exercised, would bring the cumulative value of this contract to an estimated \$241,911,207. Fiscal 2022 working capital (Navy) funds in the amount of \$25,000 will be obligated at the time of award. Funds will not expire at the end of the current fiscal year. Work will be performed in Charleston, South Carolina (98%); Norfolk, Virginia (1%); and New Orleans, Louisiana; Patuxent River, Maryland; and Washington, D.C. (1%). Work is expected to be completed by November 2026. If the option is exercised, work could continue until May 2027. The contract was competitively procured by full and open competition, after exclusion of sources in accordance with 10 U.S. Code 2304(b)(2) – set asides for small business concerns (Defense Federal Acquisition Regulation 6.203), via the beta.sam.gov website, with three offers received. Naval Information Warfare Center Atlantic, Charleston, South Carolina, is the contracting activity.

Tyonek Services Overhaul Facility – Stennis, Kiln, Mississippi, is awarded a not-to-exceed \$100,000,000 firm-fixed-price, cost reimbursable indefinite-delivery/indefinite-quantity contract. This contract provides lifecycle sustainment, logistics, engineering, and technical services to include planning, analysis, development, training, support equipment management, packaging handling, staging and transportation, supply support, organizational and intermediate maintenance, as well as maintenance/repair and overhaul for aviation equipment and aviation weapons systems in support of the Naval Air Systems Command Sustainment Group, International Sustainment Department. Work will be performed in Kiln, Mississippi (75%); Madison, Alabama (5%); Albertville, Alabama (5%); Greenville, Mississippi (5%); Tucson, Arizona (5%); and various locations outside the continental U.S. (5%), and is expected to be completed in November 2026. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 19.808-1(a). The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity (N0042122D0003).

Lockheed Martin Space, Littleton, Colorado, was awarded a \$22,826,355 cost-plus-incentive-fee and cost-plus-fixed-fee un-priced letter contract (N00030-22-C-1025) for program management, system

engineering, and long lead material procurement in support of missile production. Work will be performed in Magna, Utah (39.9%); Denver, Colorado (38.8%); Simsbury, Connecticut (18.4%); Sunnyvale, California (1.6%); Huntsville, Alabama (1.1%); and other locations less than 1% (0.2%). Work is expected to be completed on May 5, 2022. Fiscal 2022 research, development, test, and evaluation (Navy) funds in the amount of \$1,976,811, which will not expire at the end of the current 2022 fiscal year, are being obligated upon award. This contract was awarded to the contractor on a sole-source basis under 10 U.S. Code 2304(c)(1) and was previously synopsisized on the beta.sam.gov online portal. Strategic Systems Programs, Washington, D.C., is the contracting activity. (Awarded Nov. 9, 2021)

Science Applications International Corp. (SAIC), Washington, D.C., was awarded a \$22,669,703 cost-plus-fixed-fee contract action in support of engineering services, ship and systems integration and test, and product development for the Program Executive Office, Integrated Warfare Systems 1.0 and 9.0. Work will be performed at the Washington Navy Yard, Washington, D.C.; Naval Station Rota, Spain; Commander Fleet Activities Yokosuka, Japan; and Ship Repair Facility-Japan Regional Maintenance Center, Yokosuka, Japan. Work is expected to be completed on June 10, 2022. Fiscal 2022 other procurement (Navy) funds; fiscal 2022 operation and maintenance (Navy) funds; fiscal 2022 research, development, test and evaluation (Navy) funds; and fiscal 2022 weapons procurement (Navy) in the amount of \$6,190,292 will be obligated at time of award. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Surface Warfare Center, Crane Division, Crane, Indiana is the contracting activity (N00164-22-C-B002). (Awarded Nov. 9, 2021)

I.E.-Pacific Inc., Escondido, California, is awarded a \$19,846,000 firm-fixed-price task order (N6247322F4075) under previously-awarded multiple award construction contract N62473-20-D-1124 for the repair of an existing bachelor enlisted quarters facility at Marine Corps Base Camp Pendleton, California. The task order also contains one unexercised option which, if exercised, would increase the cumulative task order value to \$19,906,000. Work will be performed in Camp Pendleton, California, and is expected to be completed by May 2023. Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$19,846,000 will be obligated at time of award and will expire at the end of the current fiscal year. Five proposals were received for this task order. The Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity

Bell Textron Inc., Fort Worth, Texas, is awarded an \$18,645,884 modification (P00002) to a previously awarded fixed-price-incentive-fee contract (N0001920C0061). This modification provides for the production and delivery of one AH-1Z flight training device as well as in-country installation and three months of interim support for the government of the Czech Republic. Work will be performed in Broken Bow, Oklahoma (50%); Fort Worth, Texas (30%); and St. Louis, Missouri (20%), and is expected to be completed in December 2023. Foreign Military Sales funds in the amount of \$18,645,884 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

SERCO Inc., Herndon, Virginia, was awarded a \$15,610,997 cost-plus-fixed-fee contract action in support of program, cost engineering, technical support services, production support services, and special studies for the Program Executive Office for Integrated Warfare Systems, Surface Ship Weapons (IWS 3.0). Work will be performed in Arlington, Virginia; and at the Washington Navy Yard, Washington, D.C., as well as IWS 3.0 staff locations at technical representative offices and field activities/laboratories. Work is expected to be completed on May 7, 2023. Fiscal 2022 procurement of ammunition (Navy and Marine Corp) funds in the amount of \$210,991 will be obligated at time of award. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The NSWC, Crane Division, Crane, Indiana, is the contracting activity (N00164-22-C-B001). (Awarded Nov. 8, 2021)

Donley Construction, Aberdeen, Maryland, is awarded a maximum-value \$11,528,646 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for paving projects within the Naval Facilities Engineering Systems Command (NAVFAC) Washington area of responsibility (AOR). An initial task order is awarded

at \$2,000 to satisfy the guaranteed minimum. Work will be performed primarily within the NAVFAC Washington AOR, including Virginia (35%); Maryland (35%); and the D.C. (30%), and is expected to be completed by November 2022. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$2,000 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with one proposal received. The Naval Facilities Engineering Systems Command, Washington, D.C., is the contracting activity (N40080-22-D-0002).

Heffler Contracting Group, El Cajon, California, is awarded a \$10,696,683 firm-fixed-price task order (N6247322F4044) under previously-awarded multiple-award construction contract (N62473-17-D-4654) for demolition of Building 2742 at Marine Corps Base Camp Pendleton, California. Work will be performed in Camp Pendleton, California, and is expected to be completed by May 2023. Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$10,696,683 will be obligated at time of award and will expire at the end of the current fiscal year. Five proposals were received for this task order. The Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity.

Sedna Digital Solutions LLC, Manassas, Virginia, is awarded a \$9,624,297 cost-plus-fixed-fee contract modification to previously awarded contract (N00024-18-C-6264) to exercise options for engineering design development services, supporting material and travel procurements. Work will be performed in Manassas, Virginia, and is expected to be completed by March 2023. Fiscal 2022 research, development, test and evaluation (Navy) funding in the amount of \$1,700,000 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

November 9, 2021

Ashford Leebcor Enterprises IV LLC, Williamsburg, Virginia (N69450-22-D-0002); CCI Solutions LLC, Anchorage, Alaska (N69450-22-D-0003); Dawson Enterprises LLC, Honolulu, Hawaii (N69450-22-D-0004); P&S Construction Inc., Chelmsford, Massachusetts (N69450-22-D-0005); Southeastern Industrial Barlovento JV-2 LLC, Destin, Florida (N69450-22-D-0006); VHB LLC, Boyds, Maryland (N69450-22-D-0007); Walga Ross Group 3 JV, Joplin, Missouri (N69450-22-D-0008); and WEB LLC, doing business as WEBCO, Springfield, Virginia (N69450-22-D-0009), were awarded firm-fixed-price, indefinite-delivery/indefinite-quantity, design-build and design-bid-build multiple-award construction contracts with a combined maximum value of \$249,000,000 for construction projects primarily in the east area of operations of Naval Facilities Engineering Systems Command Southeast. These eight contractors may compete for task orders under the terms and conditions of the awarded contract. No task orders are being issued at this time. Each awardee was awarded \$1,000 in order to satisfy the minimum guarantee. Work will be performed Florida (34%); Georgia (33%); and South Carolina (33%), and is expected to be completed by November 2026. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$8,000 were obligated at time of award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by military construction (Navy); and operation and maintenance (Navy) funds. This contract was competitively procured via the beta.sam.gov website, with 30 proposals received. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity. (Awarded Nov. 8, 2021)

KBR Diego Garcia LLC, Houston, Texas, is awarded a \$62,887,787 firm-fixed-price modification to exercise Option Four under previously-awarded indefinite-delivery/indefinite-quantity contract N62742-17-D-3600 for base operations support services at U.S. Navy Support Facility, Diego Garcia. Award of this option brings the total cumulative contract value to \$325,356,510. Work will be performed in Diego Garcia, British Indian Ocean Territory, and is expected to be completed by November 2022. No funds will be obligated at time of award. Fiscal 2022 operation and maintenance funds (Navy and Air Force); and fiscal 2022 non-appropriated funds in the amount of \$23,584,355 for recurring work will be obligated on individual task orders issued during the option period and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Far East, Yokosuka, Japan, is the contracting activity.

Progeny Systems Corp., Manassas, Virginia, is awarded a \$21,061,344 cost-plus-incentive-fee contract modification to previously awarded contract N00024-19-C-6267 to exercise options for engineering design development services, supporting material and travel procurements. Work will be performed in Manassas, Virginia (85%); and Charleroi, Pennsylvania (15%), and is expected to be completed by December 2022. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$1,100,000 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

November 8, 2021

Environmental Chemical Corp., Burlingame, California, is awarded a \$25,976,855 firm-fixed-price task order (N3319121F4241) under previously awarded global contingency multiple-award construction contract N62470-19-D-8025 for airfield construction and improvements at Larissa Air Force Base in Larissa, Greece. Work will be performed in Larissa, Greece, and is expected to be completed by November 2022. Fiscal 2021 other procurement (Air Force) funds in the amount of \$25,976,855 will be obligated at time of award and will expire at the end of the current fiscal year. Two proposals were received for this task order. The Naval Facilities Engineering Systems Command Europe Africa Central, Naples, Italy, is the contracting activity.

Leidos Inc., Reston, Virginia, is awarded a \$9,383,698 cost-plus-incentive-fee modification to previously awarded contract (N00024-18-C-6209) to exercise an option for continuing the development of the Acoustic Device Countermeasure MK 5. Work will be performed in Reston, Virginia, and is expected to be completed by November 2022. Fiscal 2022 research, development, and testing (Navy) funds in the amount of \$1,959,208 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

November 5, 2021

Lockheed Martin Sippican Inc., Marion, Massachusetts, is awarded a \$105,668,584 firm-fixed-price modification to previously awarded contract N00024-16-C-6412 to exercise options for the production of MK 48 Mod 7 guidance and control sections and MK 48 Mod 7 Common Broadband Advanced Sonar System kits. This modification is in support of the MK54 MOD 7 heavyweight torpedo program. Work will be performed in Syracuse, New York (60%); Clearwater, Florida (25%); Braintree, Massachusetts (10%); and Marion, Massachusetts (5%), and is expected to be completed by December 2025. Fiscal 2021 weapons procurement (Navy) in the amount of \$105,668,584 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a not-to-exceed \$66,637,726 undefinitized contract action modification to previously awarded contract N00024-20-C-2120 for lead yard support and development studies and design efforts related to Virginia-class submarines. Work will be performed in McLeansville, North Carolina (34%); Riviera Beach, Florida (26%); Annapolis, Maryland (21%); and Hanover, Maryland (19%), and is expected to be completed by November 2024. Fiscal 2022 research, development, test, and evaluation (Navy) \$5,557,989 funding will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured. The statutory authority for this sole source award is in accordance with Defense Federal Acquisition Regulation 6.302-1(a)(2)(iii) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a not-to-exceed \$64,179,305 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract. This contract provides non-recurring engineering support to integrate the Next Generation Jammer Low Band Pod System onto the EA-18G platform. These services include design and qualification of platform A-kit provision, aircraft/pod system physical interface analysis,

wind tunnel test, ground vibration test, technical directive development and verification, and all logistics product data to support the program life cycle. Work will be performed in St. Louis, Missouri (78%); Patuxent River, Maryland (19%); and China Lake, California (3%), and is expected to be completed in October 2026. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922D0001).

Triumph Engine Control Systems LLC, West Hartford, Connecticut, is awarded a \$12,142,360 firm-fixed-price contract for the repair of the enhanced digital engine control unit associated with the T700 engine used on UH-60 aircraft. The contract will include a five-year base period with no options and is expected to be completed by November 2026. All work will be performed in West Hartford, Connecticut. No funds will be obligated at time of award. Annual working capital (Navy) funds will be obligated as individual task orders are issued, and funds will not expire at the end of the current fiscal year. One source was solicited for this non-competitive requirement under authority 10 U.S. Code 2304 (C), and one offer was received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-22-D-ZR01).

Perspecta Engineering Inc., Chantilly, Virginia, is awarded an \$8,515,106 cost-plus-fixed-fee order (N0001922F0899) against a previously issued basic ordering agreement (N0001921G0010). This order provides for the ongoing design, development, integration and delivery, to include documentation, training, testing, performance analysis and requirements analysis of various theater mission planning center subsystems in support of Tomahawk weapons systems. Work will be performed in Santa Clara, California (72.43%); San Diego, California (6.83%); Meridian, Idaho (2.11%); Honolulu, Hawaii (1.65%); Stafford, Virginia (1.17%); and various locations within the continental U.S. (15.81%), and is expected to be completed in November 2022. Fiscal 2022 other procurement (Navy) funds in the amount of \$8,515,106 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Sippican Inc., Marion, Massachusetts, is awarded a \$105,668,584 firm-fixed-price modification to previously-awarded contract N00024-16-C-6412 to exercise options for the production of MK 48 Mod 7 guidance and control sections and MK 48 Mod 7 Common Broadband Advanced Sonar System kits. This modification is in support of the MK54 MOD 7 heavyweight torpedo program. Work will be performed in Syracuse, New York (60%); Clearwater, Florida (25%); Braintree, Massachusetts (10%); and Marion, Massachusetts (5%), and is expected to be completed by December 2025. Fiscal 2021 weapons procurement (Navy) in the amount of \$105,668,584 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a not-to-exceed \$66,637,726 undefinitized contract action modification to previously awarded contract N00024-20-C-2120 for lead yard support and development studies and design efforts related to Virginia-class submarines. Work will be performed in McLeansville, North Carolina (34%); Riviera Beach, Florida (26%); Annapolis, Maryland (21%); and Hanover, Maryland (19%), and is expected to be completed by November 2024. Fiscal 2022 research, development, test, and evaluation (Navy) \$5,557,989 funding will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured. The statutory authority for this sole source award is in accordance with Defense Federal Acquisition Regulation 6.302-1(a)(2)(iii) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a not-to-exceed \$64,179,305 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract. This contract provides non-recurring engineering support to integrate the Next Generation Jammer Low Band Pod System onto the EA-18G platform. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

November 4, 2021

Raytheon Missiles & Defense, Tewksbury, Massachusetts, was awarded a \$48,168,321 cost-plus-incentive-fee, cost-plus-fixed-fee, and cost modification to previously awarded contract N00024-17-C-5145 to exercise options for DDG 1000 class engineering support, material and other direct costs in support of the engineering efforts. Work will be performed in Portsmouth, Rhode Island (50%); and Tewksbury, Massachusetts (50%), and is expected to be completed by May 2022. Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$11,080,775 (68%); and fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$5,290,001 (32%) will be obligated at time of award, of which funds in the amount of \$11,080,775 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Nov. 2, 2021)

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a \$13,090,443 cost-plus-fixed-fee modification to a previously awarded contract (N00024-12-C-2115) for planning and execution of USS Vermont (SSN 792) post-delivery work period. Work will be performed in Groton, Connecticut, and is expected to be completed by May 2022. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$13,090,443 will be obligated at the time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured. The statutory authority for this sole source

award is in accordance with Defense Federal Acquisition Regulation 6.302-1(a)(2)(iii) — only one responsible source and no other supplies or services will satisfy agency requirements. The Supervisor of Shipbuilding Conversion and Repair, Groton, Connecticut, is the contracting activity.

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is awarded a \$12,141,538 cost-plus-incentive fee and cost-only modification to previously awarded contract (N0002418C5218) to procure engineering labor and travel, material, and other direct costs and provide incremental funding in support of continued AN/SQQ-89A(V)15 development, integration, manufacture, production, and testing. Work will be performed in Manassas, Virginia (83%); Lemont Furnace, Pennsylvania (10%); Syracuse, New York (6%); and Hauppauge, New York (1%), and is expected to be completed by March 2022. Fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$3,324,742 (33%); Foreign Military Sales (FMS) Australia funds in the amount of \$2,945,580 (29%); fiscal 2022 research, development, test, and evaluation (Navy) funds in the amount of \$2,313,909 (23%); FMS Japan funds in the amount of \$515,464 (5%); fiscal 2020 other procurement (Navy) funds in the amount of \$479,759 (5%); fiscal 2021 research, development, test, and evaluation (Navy) funds in the amount of \$317,281 (3%); and fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$211,413 (2%) will be obligated at time of award, and funds in the amount of \$797,040 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Reyes Construction Inc., Pomona, California, is awarded a \$7,747,804 firm-fixed-price task order (N6247322F4006) under previously-awarded multiple-award construction contract N62473-18-D-5862 for construction of a combat aircraft loading area at San Clemente Island, Naval Base Coronado. The task order also contains two unexercised options which, if exercised, would increase the total cumulative task order value to \$7,837,804. Work will be performed in San Diego, California, and is expected to be completed by November 2022. The options, if exercised, provide for up to nine additional weeks of effort for batch plant operations and rock crushing operations. Fiscal 2021 military construction (Navy) funds in the amount of \$7,747,804 will be obligated at time of award and will not expire at the end of the current fiscal year. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity.

November 3, 2021

Colby Co. LLC, Portland, Maine, is awarded a maximum-value \$30,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity architect-engineering contract for multi-discipline architect-engineering services for projects primarily in the Public Works Department (PWD) Maine area of responsibility. An initial task order is being issued in the amount of \$5,000 in order to fulfill the minimum guarantee. Work will be performed in the PWD Maine area of responsibility and is expected to be completed by November 2026. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$5,000 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with eight proposals received. The Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-22-D-0003).

Hensel Phelps Construction Co., Honolulu, Hawaii, is awarded a \$25,086,000 firm-fixed-price task order (N6247821F4079) modification (A00002) under previously-awarded, multiple award construction contract N62478-20-D-4003 for repair of administrative spaces at Joint Base Pearl Harbor-Hickam, Hawaii. Award of this option brings the total cumulative contract value to \$111,083,929. Work will be performed at Joint Base Pearl Harbor-Hickam, Hawaii, and is expected to be completed by July 2022. Fiscal 2022 working capital funds (Navy) in the amount of \$25,086,000 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

November 2, 2001

Marine Hydraulics International LLC, Norfolk, Virginia, was awarded a \$71,437,926 firm-fixed-price contract for the execution of the USS San Antonio (LPD 17) fiscal 2022 selected restricted availability. This availability will include a combination of maintenance, modernization and repair of the USS San Antonio (LPD 17). This contract includes options which, if exercised, would bring the cumulative value of this contract to \$76,675,413. Work will be performed in Norfolk, Virginia, and is expected to be completed in May 2023. Fiscal 2022 other procurement (Navy) funds in the amount of \$59,300,360 (83%); fiscal 2022 operations and maintenance (Navy) funds in the amount of \$9,687,972 (14%); and fiscal 2021 other procurement (Navy) funds in the amount of \$2,449,594 (3%), will be obligated at time of award, of which funding in the amount of \$9,687,972 will expire at the end of the current fiscal year. This contract was competitively procured using full and open competition via the beta.sam.gov website with three offers received in response to solicitation number N00024-21-R-4436. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-4436). (Awarded Oct. 29, 2021)

Raytheon Co., Largo, Florida, is awarded a \$27,490,036 cost-plus-incentive-fee modification to previously awarded contract N0002419C5200 for the Cooperative Engagement Capability (CEC) Block II capabilities for integration with fiscal 2023 CEC Baseline 11.16 Build. Work will be performed in St. Petersburg, Florida (70%); and Largo, Florida (30%), and is expected to be completed by September 2022. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$16,500,000 (95%); and fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$800,000 (5%) will be obligated at the time of award, of which funds in the amount of \$800,000 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lone Star Analysis, Addison, Texas, is awarded a \$22,040,000 cost-plus-fixed-fee, firm-fixed-price modification (P00003) to a previously awarded, indefinite-delivery/indefinite-quantity contract (N0042121D0037). This modification adds scope to provide predictive decision analysis services, to include collection, analysis, recommendations, and operational sustainment support for existing and fielded modeling tools and simulations in support of the Naval Aviation Enterprise. Work will be performed in Addison, Texas, and is expected to be completed in March 2027. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

Jag Alaska Inc., Seward, Alaska, is awarded a \$10,780,448 firm-fixed-price contract (N3220522C4171) for a 60-calendar day shipyard availability for the regular overhaul and dry-docking of the Military Sealift Command's rescue and salvage ship USNS Grasp (T-ARS 51). This contract includes a base period and seven options which, if exercised, would bring the cumulative value of this contract to \$11,161,828. Work will be performed in Seward, Alaska, and will begin Jan. 6, 2022, and is expected to be completed by March 6, 2022. Working capital funds (Navy) in the amount of \$10,780,448 are obligated for fiscal 2022 and will not expire at the end of the fiscal year. This contract was a small business set-aside with proposals solicited via the beta.sam.gov website and two offers received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220522C4171).

November 1, 2021

Lockheed Martin Corp., Rotary and Mission Systems, Syracuse, New York, is awarded a \$14,416,259 cost-plus-fixed-fee and cost-only modification to previously awarded contract N00024-18-C-5300 to exercise options for AN/SLQ-32(V)6 design agent engineering support and travel. Work will be performed in Syracuse, New York, and is expected to be completed by November 2022. Fiscal 2022 other procurement (Navy) funds in the amount of \$2,624,000 (81%); and fiscal 2022 operations and maintenance (Navy) funds in the amount of \$600,000 (19%) funding will be obligated at time of award, of which funds in the amount of \$600,000 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

The Boeing Co., Seattle, Washington, is awarded a \$13,540,626 modification (P00012) to a cost-plus-fixed-fee order (N0001917F2017) against a previously issued basic ordering agreement (N0001916G0001). This modification exercises an option to perform 24 modifications in support of the Increment Three Block One retrofit as well as the procurement, manufacture and assembly of 25 additional retrofit kits supporting engineering change five for existing P8-A Poseidon aircraft. Work will be performed in Seattle, Washington, and is expected to be completed in December 2023. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$13,540,626 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

SSK Industries Inc., Lebanon, Ohio, is awarded a \$12,649,165 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides critical safety items and life support for non-developmental Electronic Automatic Activating Device end items, associated replacement parts, and related original equipment manufacturer overhauls required by Navy Special Operations Forces for use in the Ram-Air Parachute Systems used throughout the Department of Defense. Work will be performed in Lebanon, Ohio, and is expected to be completed in October 2026. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity (N6893622D0001).

October 29, 2021

QED Systems Inc., Virginia Beach, Virginia, is awarded a \$49,339,553 cost-plus-fixed-fee modification to previously awarded contract N00024-21-C-4200 to exercise options for the Specification Development and Availability Execution Support (SDAES) for CG, DDG, LHA, LHD, LPD, and LSD class vessels. Work will be performed in Virginia Beach, Virginia (45%); San Diego, California (45%); and Bremerton, Washington (10%), and is expected to be completed by October 2022. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$3,865,100 (90.2%); fiscal 2022 other procurement (Navy) funds in the amount of \$412,800 (9.6%); and fiscal 2021 other procurement (Navy) funds in the amount of \$7,200 (0.2%) funding will be obligated at time of award, of which funds in the amount of \$3,865,100 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$38,348,155 cost-plus-incentive-fee, fixed-price-incentive-fee, cost reimbursable modification (P00021) to a previously awarded contract (N0001921C0020). This modification exercises options to provide logistics support for the repair and replenishment of parts and consumables for the F-35 aircraft in support of the Marines, Navy, and non-U.S. Department of Defense (DOD) participants. Work will be performed in Fort Worth, Texas (57%); Orlando, Florida (26%); Greenville, South Carolina (11%); Sarnesbury, United Kingdom (4%); and El Segundo, California (2%), and is expected to be completed in December 2021. Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$23,903,316; fiscal 2022 operation and maintenance (Navy) funds in the amount of \$10,291,481; and non-U.S. DOD participant funds in the amount of \$4,153,358 will be obligated at time of award, \$34,194,797 which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Raytheon Missile and Defense, Tucson, Arizona, is awarded a \$37,341,149 cost-plus-fixed-fee modification (P00007) to a previously awarded contract (N0001920C0071). This modification adds scope to procure Operation Flight Software Version 9.5 and to provide support for various hardware and software risk reduction efforts in support of the AIM-9X system improvement program for the Navy and the Air Force. Work will be performed in Tucson, Arizona (87%); and Goleta, California (13%), and is expected to be completed in December 2023. Fiscal 2022 research, development, test and evaluation (Air Force) funds in the amount of \$1,450,000; and fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$50,000 will be obligated at time of award, none of which will

expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$30,439,628 cost-plus-incentive-fee modification (P00018) to a previously awarded contract (N0001920C0037). This modification exercises options to provide operation and maintenance support of F-35 Joint Strike Fighter development labs in support of testing developed configurations across the F-35 platform for the Navy, Marine Corps, Air Force and non-U.S. Department of Defense (DOD) participants. Work will be performed in Fort Worth, Texas, and is expected to be completed in March 2022. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$12,472,427; fiscal 2022 operation and maintenance (Air Force) funds in the amount of \$12,472,427; and non-U.S. DOD participant funds in the amount of \$5,494,774 will be obligated at time of award, \$24,944,854 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Raytheon Technologies, Tucson, Arizona, is awarded a \$19,595,000 cost-plus-incentive-fee modification (P00016) to a previously awarded contract (N0001919C0079). This modification adds scope to integrate, produce, qualify, test and field Maritime Strike Tomahawk seeker suites and all subsystems required to provide midcourse and terminal guidance to a modernized tactical Tomahawk missile for prosecution of maritime targets from surface and subsurface platforms. The procured quantity of seeker suites will be installed in recertified Tomahawk missiles for the Navy. Work will be performed in Tucson, Arizona (42%); Boulder, Colorado (21.62%); Dallas, Texas (16.57%); North Logan, Utah (9.24%); Pontiac, Michigan (5.56%); and various locations within the continental U.S. (5.01%), and is expected to be completed in October 2024. Fiscal 2021 weapons procurement (Navy) funds in the amount of \$19,595,000 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

MBF Architects PA, New Bern, North Carolina, is awarded a maximum \$15,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity, architect-engineering contract for multi-discipline architect-engineering (A-E) services for projects primarily in Beaufort County, South Carolina. The work to be performed provides multi-discipline A-E services for planning, design, and construction services in support of the new construction, renovations, repairs, replacement, demolition, alteration, and/or improvement of military and other governmental facilities for large and small design projects. The term of the contract is not to exceed 60 months with an expected completion date of October 2026, and the initial task order is being issued in the amount of \$5,000 in order to fulfill the minimum guarantee. Operation and maintenance (Marine Corps) funds in the amount of \$5,000 are obligated on this award and will not expire at the end of the current fiscal year. Future task orders will be primarily funded by operation and maintenance (Marine Corps). This contract was competitively procured via the beta.sam.gov website with 14 proposals received. Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-22-D-0005).

VersAbility Resources Inc., Hampton, Virginia, is awarded a \$10,503,339 indefinite-delivery/indefinite-quantity requirements contract for the onload of shipboard provisions and offload/backload of shipboard Integrated Logistics Overhaul (ILO) maintenance parts to afloat vessels in various ports throughout the continental U.S., Pearl Harbor, Hawaii and Guam along with providing warehouse support, inventory support, supply item packaging, and supply item transportation in support of Commander, Naval Supply Systems Command. This contract includes a five-month base period, with four one-year options and a six-month extension option, pursuant of Defense Federal Acquisition Regulation 52.217-8 — option to extend services, which if all options are exercised, brings the total estimated value to \$126,143,566. Work will be performed in Norfolk, Virginia (33%); Pearl Harbor, Hawaii (23%); San Diego, California (22%); Puget Sound-area, Washington (8%); Mayport, Florida (7%); Kings Bay, Georgia (3%); Guam (2%); and Groton, Connecticut (2%). Work will begin November 2021 and is expected to be completed by March 2022; if all options are exercised, work will be completed September 2026. Fiscal 2022 military personnel (Navy) funds in the full amount of \$10,503,339 will be obligated at time of award to fund provisions for loading, and funds will not expire at the end of the fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year operations and maintenance (Navy) funds for ILO support at the time

of their issuance. This contract was solicited as a direct procurement under the AbilityOne Program. Naval Supply Systems Command Fleet Logistics Center Jacksonville, Florida, is the contracting activity (N68836-22-D-0002).

AMP United LLC, Dover, New Hampshire (N55236-22-D-0001); Prime Time Coatings Inc., National City, California (N55236-22-D-0002); South Bay Sand Blasting and Tank Cleaning Inc., National City, California (N55236-22-D-0003); and Surface Technologies Corp., Atlantic Beach, Florida (N55236-22-D-0004), are awarded an overall maximum ceiling value \$10,046,874 firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple award contracts with a five base year ordering period to provide commercial industrial services preservation. The contract will provide labor, services, equipment, and materials for the removal of existing paint coating system, and the surface preparation, prime coat and top coat application of new paint coating system onboard Navy ships and other vessels within a 50-mile radius of San Diego, California, which may include Oceanside, California. These four companies will have an opportunity to compete for individual delivery orders. Each contract's base year begins Nov. 17, 2021, and completes on Nov. 16, 2026. Contract funds in the amount of \$40,000 (\$10,000 for minimum guarantee per contract) will be obligated under each contract's initial delivery order and will expire at the end of the current fiscal year. The initial delivery orders are being funded with fiscal 2022 operation and maintenance (Navy) funding. These contracts were competitively procured via the beta.sam.gov website; four offers were received. The Southwest Regional Maintenance Center, San Diego, California, is the contracting activity.

October 28, 2021

Fincantieri Marine Systems North America, Chesapeake, Virginia (N40027-22-D-0001); Epsilon Systems Solutions Inc. Portsmouth, Virginia (N40027-22-D-0002); and St. Johns Boat Co., Jacksonville, Florida (N40027-22-D-0003), are awarded a not-to-exceed \$114,903,382 firm-fixed-price, indefinite-delivery/indefinite-quantity multiple award contract for ship repair, maintenance, and modernization of the surface combatant (DDG and CG) class ships and amphibious (LSD, LPD and LHD) class ships homeported in Mayport, Florida under Lot 2. Work will be performed in Mayport, Florida, and the ordering period will end December 2022. Fiscal 2022 operation and maintenance (Navy) funding in the amount of \$10,000 will be obligated at time of award for each awardee and will expire at the end of the current fiscal year. This contract was competitively procured via the Federal Business Opportunities website with three offers received. The Southeast Regional Maintenance Center, Mayport, Florida, is the contracting activity.

Dyncorp International LLC, Fort Worth, Texas, is awarded a \$60,464,756 firm-fixed-price, cost-plus-fixed-fee, cost reimbursable modification (P00063) to a previously awarded contract (N6893617C0052). This modification exercises options to provide organizational level aircraft maintenance and logistics support for aircrew systems and subsystems, search and rescue equipment, and support equipment for the P-3 Orion, C-130 Hercules, F/A-18 Hornet, E/A-18 Growler, AV-8B Harrier II, H-60 Seahawk, and E-2D Hawkeye aircraft in support of the Naval Air Warfare Center Weapons Division (NAWCWD) Naval Test Wing Pacific. Work will be performed in China Lake, California (50%); Point Mugu, California (40 %); Hickam Air Force Base, Hawaii (2%); Lemoore, California (2%); Patrick Air Force Base, Florida (1%); Holloman Air Force Base, New Mexico (1%); Patuxent River, Maryland, (1); Yuma, Arizona (1%); Miramar, California (1%); and North Island, California (1%), and is expected to be completed in September 2022. Working capital (Navy) funds in the amount of \$49,346,889 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The NAWCWD, Point Mugu, California, is the contracting activity.

KBR Services, Houston, Texas, is awarded a \$34,570,948 modification to increase the maximum dollar value of task order N6247021F9101 for the exercise of Option One for the global contingency services multiple award contract for providing expeditionary staging area services at Marine Corps Base Quantico, Virginia. The work to be performed provides services in support of Operation Allies Welcome and includes the mobilization, operation and maintenance, and demobilization for Expeditionary Staging Area Quantico, Virginia. Work will be performed in Quantico, Virginia, and is expected to be completed by December 2021. Fiscal 2022 Overseas Humanitarian Disaster and Civic Aid contract funds in the amount

of \$34,570,948 are obligated on this award and will expire at the end of the current fiscal year. Naval Facilities Engineering Systems Command Washington, D.C., is the contracting activity (N62742-16-D-3551).

Raytheon Co., El Segundo, California, is awarded a \$20,565,741 cost-plus-fixed-fee modification (P00003) to a previously awarded contract (N0001921C0053). This modification exercises options to provide non-recurring engineering, associated technical, financial, and administrative data required to deliver Next Generation Jammer low-rate initial production ship-sets. Work will be performed in El Segundo, California (82%); and Forest, Mississippi (18%), and is expected to be completed in September 2024. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$20,565,741 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Spectrum Services Group Inc., Sacramento, California, is awarded a \$10,000,000 indefinite-delivery/indefinite-quantity contract for bio-hazardous materials cleaning at Marine Corps Base Camp Pendleton, Naval Weapons Station (NWS) Seal Beach, and NWS Seal Beach Fallbrook and Norco Detachments, California. The work to be performed provides for the services, supervision, equipment, material, and labor necessary for bio-hazardous materials cleaning. The term of the contract is not to exceed 60 months and is expected to be completed by October 2026. Future task orders will be primarily funded by military construction (Marine Corps); operations and maintenance (Marine Corps), and operation and maintenance (Navy) funds. This contract was competitively procured via the beta.sam.gov contract opportunities website with three proposals received. Naval Facilities Engineering Systems Command Southwest, Camp Pendleton, California, is the contracting activity (N62473-22-D-0601).

October 27, 2021

Aircraft Readiness Alliance LLC, Anchorage, Alaska, is awarded a \$57,538,117 modification (P00023) to a previously awarded cost-plus-fixed-fee contract (N6893617C0081). This modification exercises an option to provide depot-level maintenance services for aircraft, aircraft engines, and associated systems, equipment, components and materials involving rework of existing aviation end items, systems and components and the manufacture of items and component parts that are otherwise not available. These services also include modernization, conversion, in-service repair, disassembly, and other associated services for AV-8B, C-130, C-2, E-2, EA-6B, F/A-18, H-1, H-53, H-60, MQ-8, P-3, P-8, F-35 and V-22 aircraft in support of Fleet Readiness Center Southwest. Work will be performed in San Diego, California (75%); Lemoore, California (11%); Camp Pendleton, California (5%); Miramar, California (3.5%); Whidbey Island, Washington (2.5%); Cannon, New Mexico (2%) and Kaneohe Bay, Hawaii (1%), and is expected to be completed in October 2022. Fiscal 2022 working capital (Navy) funds in the amount of \$18,509,680 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity.

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a \$44,488,353 cost-plus-fixed-fee modification to previously awarded contract N00024-21-C-2103 to exercise an option for engineering and technical design effort to support research and development concept formulation for current and future submarine platforms. Work will be performed in Groton, Connecticut (96.1%); Bremerton, Washington (1.7%); Kings Bay, Georgia (1.7%); and Newport, Rhode Island (0.5%), and is expected to be completed by September 2022. Fiscal 2022 research, development, test and evaluation (Navy) funding in the amount of \$600,000 (92%); and fiscal 2021 research, development, test and evaluation (Navy) funding in the amount of \$55,000 (8%) will be obligated at time of award, of which \$55,000 will expire at the end of the current fiscal year. This contract was not competitively procured and is a sole-source award pursuant to 10 U.S. Code 2304(c)(3) – industrial mobilization. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lee Hartman and Sons Inc., Roanoke, Virginia, is awarded a \$32,546,688 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract procures 16,072 pieces of video teleconference (VTC) equipment in support of the integration of specialized network VTC systems supporting intelligence

agencies and the command, control, communication, computers, cyber, intelligence, surveillance and reconnaissance missions of Joint Staff and combatant commanders, Department of Defense agencies and services, and Department of Homeland Security operational and support components. Work will be performed in St. Inigoes, Maryland, and is expected to be completed in October 2023. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; three offers were received. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N6833522D0003).

Serco - IPS Corp., Herndon, Virginia, is awarded a \$24,903,276, cost-plus-fixed-fee and cost-only modification to previously awarded contract N00174-18-C-0015 to procure professional support services for the Naval Sea System Command's deputy commander for surface warfare (SEA 21). Work will be performed in Washington, D.C. (55%); Norfolk, Virginia (19%); San Diego, California (18%); Mayport, Florida (2%); Yokosuka, Japan (2%); Sasebo, Japan (1%); Manama, Bahrain (1%); Pascagoula, Mississippi (1%); and Pearl Harbor, Hawaii (1%), and is expected to complete October 2021. Fiscal 2020 other procurement (Navy) funds in the amount of \$810,855; fiscal 2022 other procurement (Navy) funds in the amount of \$3,845,992; and fiscal 2022 operation and maintenance (Navy) funds in the amount of \$16,246,052 will be obligated at time of award, of which \$17,056,907 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Atomics, San Diego, California, is awarded a \$20,549,597 firm-fixed-price modification (P00070) to a previously awarded contract (N0001914C0037). This modification exercises options to procure 18 Advanced Arresting Gear Water Twister (WT) Mod-II shipsets for Navy Gerald R. Ford-class Aircraft Carriers 78, 79, and 80. Additionally, this modification provides for the development of logistics support products and the execution of engineering change proposals related to WT Mod-II as approved by the Aircraft Launch and Recovery Equipment Program Decentralized Change Control Board. Work will be performed in Tupelo, Mississippi (55.8%); San Diego, California (26.1%); Chicago, Illinois (3.6%); Dayton, Ohio (2.2%); Spring Grove, Illinois (2.1%); Cleveland, Ohio (2.8%); Placentia, California (1.3%); Malvern, Pennsylvania (1.3%); Birmingham, Alabama (1%); and various locations within the continental U.S. (3.8%), and is expected to be completed in August 2024. Fiscal 2022 other procurement (Navy) funds in the amount of \$20,549,597 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Environmental Chemical Corp., Burlingame, California, is awarded a \$16,356,160 firm-fixed-price modification to increase the maximum dollar value of an existing task order for South Airfield Military Construction Project at Naval Air Weapons Station (NAWS) China Lake, California. Work will be performed at NAWS China Lake, California, and is expected to be completed by November 2023. After award of this modification, the total cumulative contract value will be \$762,088,085. Fiscal 2022 working capital funds (Navy) in the amount of \$16,356,160 are obligated on this award and will expire at the end of the current fiscal year. Naval Facilities Engineering Systems Command, Officer in Charge of Construction, China Lake, California, is the contracting activity (N62473-20-F-5226).

North State Mechanical Inc., Jacksonville, North Carolina, is awarded an \$11,125,769 firm-fixed-price task order (N4008522F4099) under a multiple award construction contract for renovations to a barracks at Camp Lejeune, North Carolina. The work to be performed provides for complete renovation of a bachelor enlisted quarters, including site work, mechanical systems, plumbing, electrical, finishes, doors, windows, fire protection, and incidental related work. Work will be performed in Jacksonville, North Carolina, and is expected to be completed by January 2023. Fiscal 2022 operation and maintenance (Marine Corps) contract funds in the amount of \$11,125,769 are obligated on this award and will not expire at the end of the current fiscal year. Four proposals were received for this task order. Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-20-D-0077).

October 26, 2021

FLIR Systems Inc., Wilsonville, Oregon, was awarded a \$43,937,793 five-year, firm-fixed-price, indefinite-delivery/indefinite-quantity contract for various spare parts for the procurement of Sea Star Safire III, Brite Star II, Maritime 380HD and TacFLIR 380HD Electro-Optic Sensor (EOS) Systems. Fiscal 2021 operating expense (Coast Guard) funding in the amount of \$538,324 was obligated at time of award. Work will be performed in Wilsonville, Oregon, and will be completed in March 2027. This is a sole-source contract not competitively procured in accordance with Defense Federal Acquisition Regulation 6.302-1. No other supplies or services will satisfy agency requirements. Naval Surface Warfare Center, Crane Division, Crane, Indiana, is the contracting activity (N0016421DJQ75). (Awarded Sept. 21, 2021)

General Dynamics Information Technology Inc., Falls Church, Virginia, is awarded a \$39,959,262 modification (P00029) to a previously awarded, cost-plus-fixed-fee, firm-fixed-price, indefinite-delivery/indefinite-quantity contract (W15QKN15D0001). This modification exercises an option to provide integrated logistics support services for Foreign Military Sales customers using Navy procured defense articles including weapon systems, various aircrafts, and other components in support of the International Sustainment Department and the Naval Air Systems Command. Work will be performed in California, Maryland (28%); Mechanicsburg, Pennsylvania (21%); Arlington, Virginia (6%); Patuxent River, Maryland (5%); Jacksonville, Florida (5%); Lexington Park, Maryland (4%); Fredericksburg, Virginia (3%); Fairfax, Virginia (2%); Philadelphia, Pennsylvania (2%); San Diego, California (2%); Kaohsiung, Taiwan (2%); Lemoore, California (1%); King George, Virginia (1%); Warrenton, Virginia (1%); Cherry Point, North Carolina (1%); Charlotte, North Carolina (1%); Jacksonville, North Carolina (1%); New Bern, North Carolina (1%); Pensacola, Florida (1%); Tucson, Arizona (1%); Washington, District of Columbia (1%); Jackson, Louisiana (1%); Glassboro, New Jersey (1%); Dover, Delaware, (1%); Houston, Texas (1%); Seattle, Washington (1%); Kuwait City, Kuwait (1%); Tokyo, Japan (1%); Cairo, Egypt (1%); Cours, France (1%); and Taipei, Taiwan (1%), and is expected to be completed October 2022. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Warfare Center Aircraft Division (NAWCAD), Patuxent River, Maryland, is the contracting activity.

Aviation Systems Engineering Co., Lexington Park, Maryland, is awarded a \$22,984,788 commercial, firm-fixed-price, indefinite-delivery/indefinite-quantity contract to provide test and evaluation support services for Commander, Operational Test & Evaluation Force Air Test and Evaluation Squadron One. The contract will include a 60-month base ordering period with an additional six-month ordering period option pursuant of Defense Federal Acquisition Regulation 52.217-8 — option to extend services, which if exercised, will bring the total value to \$25,000,000. The base ordering period is expected to be completed by October 2026; if the option is exercised, the ordering period will be completed by April 2027. All work will be performed in Patuxent River, Maryland. Fiscal 2022 research, development, test and evaluation funds (Navy) in the amount of \$10,000 will be obligated to fund the contract's minimum amount and funds will not expire at the end of the current fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. This contract was competitively procured with the solicitation posted on Navy Electronic Commerce Online, with three offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department Norfolk Office, Norfolk, Virginia, is the contracting activity (N00189-22-D-0002).

Raytheon Missiles and Defense, Tucson, Arizona, is awarded an \$11,055,000 cost-plus-fixed-fee and firm-fixed-price modification (P00006) to a previously awarded contract (N0001920C0030). This modification adds scope to modify the existing Tomahawk Block IV system level and box level automated test equipment (ATE) to ensure compatibility with the modernized anti-jam GPS receiver (AGR), and to address obsolescence and/or software maintenance requirements needed to be compatible with the Tomahawk Block IV recertification and modernization programs. This modification also provides for the production of five ATE test stations for verification of performance characteristics of the modernized AGR missile. Work will be performed in El Segundo, California (70%); and Tucson, Arizona (30%), and is expected to be completed in July 2023. Fiscal 2020 weapons procurement (Navy) funds in the amount of \$11,055,000 will be obligated at time of award, all of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

October 25, 2021

TK Elevator Corp., El Cajon, California, is awarded a maximum \$23,660,431 indefinite-delivery/indefinite-quantity, firm-fixed price contract for vertical transport equipment maintenance services for Navy and Marine Corps installations in the San Diego, California, area. The work to be performed provides for labor, supervision, management, equipment, and materials to perform various maintenance services. The term of the contract is not to exceed 66 months, with an expected completion date of April 2027. The initial task order is being awarded at \$3,623,764, and work for this task order is expected to be completed by November 2022. Fiscal 2022 operation and maintenance (Navy); operation and maintenance (Defense Health Program); and operation and maintenance (Marine Corps) funds in the amount of \$3,623,764 are obligated on this award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by operation and maintenance (Navy); and operation and maintenance (Defense Health Program) funds. This contract was competitively procured via the beta.sam.gov website with two proposals received. Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity (N62473-22-D-3601).

Vigor Marine LLC, Portland, Oregon, is awarded a \$22,032,635 firm-fixed-price contract for an 86-calendar day regular overhaul dry docking of the fleet oiler USNS Henry J. Kaiser (T-AO 187). The contract includes seven unexercised options, which if exercised, would bring the cumulative contract value to \$23,880,009. Work will be performed in Portland, Oregon, and is expected to be completed by Feb. 25, 2022. Fiscal 2022 working capital funds (Navy) in the amount of \$22,032,635 are obligated for this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the sam.gov website, with one proposal received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220522C4066).

Chemring Australia Pty Ltd., Lara, Victoria, Australia, is awarded a \$19,689,472 modification (P00001) to a previously awarded firm-fixed-price contract (N0001921C0081). This modification exercises options for the production and delivery of 9,728 MJU-68/B Flare Infrared Countermeasures, to include 7,256 for the Navy; 1,152 for the Air Force; 528 for the government of Norway; 336 for the government of Japan; 312 for the government of Netherlands; and 144 for the government of Italy in support of the F-35 Lightning II program. Work will be performed in Lara, Victoria, Australia (47%); San Diego, California (28%); Toone, Tennessee (24%); and Braeside, Victoria, Australia (1%), and is expected to be completed in November 2022. Fiscal 2022 procurement of ammunition (Navy and Marine Corps) funds in the amount of \$14,678,048; fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$2,331,648; fiscal 2021 procurement of ammunition (Navy and Marine Corps) funds in the amount of \$8,096; and Foreign Military Sales funds in the amount of \$2,671,680 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Huntington Ingalls Inc., Newport News, Virginia, is awarded an \$8,210,220 cost-plus-fixed-fee contract for planning and design yard activities for standard Navy valves installed in commissioned nuclear-powered submarines, submersibles, and aircraft carriers. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$48,402,233. Work will be performed in Newport News, Virginia. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$1,000,000 (100%) will be obligated at time of award, which will expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-2105).

October 22, 2021

Huntington Ingalls Inc., Newport News, Virginia, has been awarded a \$16,052,162 cost-plus-fixed-fee modification to previously awarded contract N00024-21-C-2104 to exercise an option for engineering and technical design to support research and development concept formulation for current and future submarine platforms. Work will be performed in Newport News, Virginia, and is expected to be completed in September 2022. Fiscal 2022 research, development, test and evaluation (Navy) funding in the amount of \$425,000 will be obligated at time of award and will not expire at the end of the current fiscal year. This

contract was not competitively procured and is a sole-source award pursuant to 10 U.S. Code 2304(c)(3) – industrial mobilization. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

October 21, 2021

L3 Harris Technologies Inc. - Interstate Electronics Corp. (IEC), Anaheim, California, is awarded a \$25,559,675 cost-plus-fixed-fee contract modification (P00001) for options under previously awarded and announced contract N0003022C2001. The work will provide services and support for flight test instrumentation systems. Work will be performed in Anaheim, California (61%); Cape Canaveral, Florida (29%); Washington, D.C. (8%); Bremerton, Washington (1%); and Silverdale, Washington (1%), with an expected completion date of Sept. 30, 2022. Fiscal 2022 weapons (Navy) funds in the amount of \$25,559,675 are obligated on this award. No funds will expire at the end of the current fiscal year. This contract modification is being awarded to the contractor on a sole source basis under 10 U.S. Code 2304(c)(1) and was previously synopsisized on the beta.sam.gov website. Strategic Systems Programs, Washington, D.C., is the contracting activity.

October 20, 2021

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a not-to-exceed \$206,832,036 undefinitized modification (P00012) to a cost-plus-incentive-fee, cost-plus-fixed-fee order (0097) against a previously issued basic ordering agreement (N0001914G0020). This modification adds scope to provide non-recurring engineering, detailed aircraft modification execution planning and technical data packages in support of modifications to the F-35 developmental test fleet aircraft. These modifications are necessary to support flight tests for the F-35 developmental test fleet and for the capabilities delivered under the F-35 Block 4 modernization in support of the Joint Strike Fighter Program for the Air Force, Marine Corps, Navy, and non-U.S. Department of Defense (DOD) participants. Work will be performed in Fort Worth, Texas (60%); Patuxent River, Maryland (20%); and Edwards Air Force Base, California (20%), and is expected to be completed in December 2025. Fiscal 2021 research, development, test and evaluation (Air Force) funds in the amount of \$5,000,001; fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$5,000,001; and non-U.S. DOD participant funds in the amount of \$2,202,771 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Sikorsky, a Lockheed Martin Co., Stratford, Connecticut, is awarded a \$14,102,675 modification (P00001) to a firm-fixed-price order (N0001921F0718) against a previously issued basic ordering agreement (N0001919G0029). This modification exercises options to procure four retrofit kits and associated system engineering support for the incorporation of 34 deployable configuration changes into CH-53K System Demonstration Test Article 1-4 Aircraft. Work will be performed in Stratford, Connecticut (80%); and West Palm Beach, Florida (20%), and is expected to be completed in November 2023. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$14,102,675 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Leebor Services LLC, Williamsburg, Virginia, is awarded a \$10,027,337 firm-fixed-price modification to a task order (N6945021F0726) under previously-awarded multiple award construction contract N69450-17-D-0508 to exercise Options One through Four, which provide for design-build Hurricane Sally recovery work at Naval Air Station Pensacola. Exercising these options brings the total cumulative task order value to \$16,780,462. Work will be performed in Pensacola, Florida, and is expected to be completed by September 2023. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$10,027,337 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity.

October 19, 2021

BAE Systems Technology Solutions and Services Inc., Rockville, Maryland, is awarded a \$154,107,055 cost-plus-fixed-fee, cost-reimbursable, indefinite-delivery/indefinite-quantity contract. This contract provides engineering support for the rapid integration of command, control, communications, computers, combat systems, intelligence, surveillance, and reconnaissance systems onboard small and large craft, commercial and militarized vehicles, transit cases, mobile communications, fixed base stations, command centers, and intelligence systems in support of the Naval Air Warfare Center Aircraft Division, Webster Outlying Field, Special Communications Mission Solutions Division. Work will be performed in St. Inigoes, Maryland (56%); and Jacksonville, Florida (44%), and is expected to be completed in October 2026. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; one offer was received. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity (N0042122D0001).

Vertex Aerospace LLC, Madison, Mississippi, is awarded an \$8,698,215 firm-fixed-price modification (P00020) to a previously awarded indefinite-delivery/indefinite-quantity contract (N6134017D0005). This modification adds scope to provide intermediate-level maintenance and repair services and logistics support for the T-45 aircraft and T-45 support equipment in support of the Aircraft Intermediate Maintenance Department for Chief of Naval Air Training aircraft, tenant activities, and transient aircraft. Work will be performed in Corpus Christi, Texas (40%); Whiting Field, Florida (32%); Pensacola, Florida (14%); Kingsville, Texas (8%); and Meridian, Mississippi (6%), and is expected to be completed in September 2022. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Warfare Center Training Systems Division (NAWCTSD), Orlando, Florida, is the contracting activity.

October 18, 2021

Deloitte Consulting LLP, Arlington, Virginia, is awarded \$223,591,227 under a previously awarded request for proposal (N00189-21-R-0016), indefinite-delivery/indefinite-quantity, multiple-award contract that will include terms and conditions for the placement of firm-fixed-price task orders to obtain strategic contractor services to assist with transformation efforts that include Naval Sustainment System – Supply, Perform-to-Plan logistics, supply chain and logistics technology, and enterprise transformations in support of Naval Supply Systems Command and the Department of the Navy. The contract will include a five-year base ordering period with an additional six-month ordering period option pursuant of Defense Federal Acquisition Regulation 52.217-8 — option to extend services, which if exercised, will bring the total value to \$246,761,679. The base ordering period will begin October 2021 and is expected to be completed by September 2026; if the option is exercised, the ordering period will be completed by March 2027. All work will be performed at various contractor facilities throughout the U.S.; the percentage of work at each of those locations cannot be determined at this time. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$1,000 will be obligated to fund the contract's minimum amount, and funds will expire at the end of the fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. This contract was competitively procured for the award of multiple contracts pursuant to the authority set forth in Federal Acquisition Regulation 16.504. The requirement was solicited through the beta.sam.gov website, with 10 offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department, Norfolk Office, Norfolk, Virginia, is the contracting activity (N00189-22-D-0001).

BAE Systems Technology Solutions and Services Inc., Rockville, Maryland, is awarded a \$137,119,008 cost-plus-fixed-fee, cost-reimbursable, indefinite-delivery/indefinite-quantity contract. This contract provides engineering and integrated product support, technical data and configuration management, and technical and project management in support of life cycle management of legacy, current, and future command, control, communications, computers, combat systems, intelligence, surveillance, and reconnaissance systems and subsystems for the Naval Air Warfare Center Aircraft Division, Webster Outlying Field, Special Communications Mission Solutions Division. Work will be performed in St. Inigoes, Maryland, and is expected to be completed in October 2026. No funds will be obligated at time of award;

funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; one offer was received. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity (N0042122D0002).

National Technical Systems (NTS), Camden, Arkansas, is awarded a \$9,961,646 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for rapid energetic systems response testing support. Work will be performed in Camden, Arkansas, and is expected to complete October 2026. Fiscal 2022 Navy working capital funding of \$500 will be obligated on the first task order at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website with two offers received. The Naval Surface Warfare Center Indian Head Division, Indian Head, Maryland, is the contracting activity (N00174-22-D-0001).

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded an \$8,650,427 modification to previously awarded, cost-plus-fixed-fee contract N00024-20-C-2114 for reactor plant planning yard support for nuclear-powered submarines and support yard for the Navy's moored training ships. This modification includes options which, if exercised, would bring the cumulative value of this modification to \$149,219,670. Work will be performed in Groton, Connecticut (92%); and Charleston, South Carolina (8%). No completion date or other additional information is provided on Naval Nuclear Propulsion Program contracts. Fiscal 2020 other procurement (Navy) funds in the amount of \$8,650,427 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

October 15, 2021

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a \$269,485,986 cost-plus-fixed-fee modification to previously awarded contract (N00024-20-C-2120) for lead yard support and development studies and design efforts related to Virginia-class submarines. Work will be performed in Groton, Connecticut (92%); McLeansville, North Carolina (7%); and Newport News, Virginia (1%), and is expected to be completed by Oct. 16, 2022. Fiscal 2021 research, development, test, and evaluation funds in the amount of \$13,000,000 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was not competitively procured. The statutory authority for this sole source award is in accordance with Defense Federal Acquisition Regulation 6.302-1(a)(2)(iii) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a \$14,456,362 cost-plus-fixed-fee modification (P00055) to a previously awarded contract (N0001916C0032). This modification adds scope to provide test and engineering support necessary to complete the development of the Next Gen Jammer-Mid Band system in support of the phased replacement of the AN/ALQ-99 Tactical Jamming System currently mounted to the EA-18G aircraft. Work will be performed in Patuxent River, Maryland (95%); and St. Louis, Missouri (5%), and is expected to be completed in September 2022. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$5,037,639 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Detyens Shipyards Inc., North Charleston, South Carolina, is awarded an \$8,991,045 firm-fixed-price contract for a 90-calendar day shipyard availability. The work to be performed provides for services for the regular overhaul and dry-docking availability of the cable laying repair USNS Zeus (T-ARC 7). The contract also contains 11 unexercised options, which if exercised, would increase cumulative contract value to \$9,975,203. Work will be performed in North Charleston, South Carolina, and is expected to be

completed by April 02, 2022. Fiscal 2022 working capital contract funds (Navy) in the amount of \$8,991,045 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with four proposal received. The Military Sealift Command, Norfolk, Virginia, is the contracting activity (N32205-22-C-4170).

October 14, 2021

The Boeing Co., Seattle, Washington, is awarded a \$131,660,582 modification (P00007) to a previously awarded firm-fixed-price, time-and-materials, indefinite-delivery/indefinite-quantity contract (N0001918D0113). This modification exercises an option to provide P-8A Poseidon CFM56-7B27A/3 and CFM56-7B27AE engine depot-level maintenance and repair in support of the Navy, the government of Australia, and Foreign Military Sales customers. Work will be performed in Atlanta, Georgia (97%); and Seattle, Washington (3%), and is expected to be completed in October 2022. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

StandardAero Inc., San Antonio, Texas, is awarded a \$101,397,381 modification (P00016) to a previously awarded firm-fixed-price, time and materials, indefinite-delivery/indefinite-quantity contract (N0001918D0110). This modification exercises an option to provide P-8A Poseidon CFM56-7B27A/3 and CFM56-7B27AE engine depot-level maintenance and repair in support of the Navy, the government of Australia, and Foreign Military Sales customers. Work will be performed in Winnipeg, Manitoba, Canada (86%); Cincinnati, Ohio (11%); and San Antonio, Texas (3%), and is expected to be completed in October 2022. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

AAR Government Services Inc., Wood Dale, Illinois, is awarded an \$85,030,595 modification (P00014) to a previously awarded firm-fixed-price, time and materials, indefinite-delivery/indefinite-quantity contract (N0001918D0111). This modification exercises an option to provide P-8A Poseidon aircraft depot scheduled and unscheduled maintenance, depot in-service repair/planner and estimator requirements, technical directive incorporation, airframe modifications, aircraft on ground support, and removal and replacement of engines in support of the Navy, the government of Australia, and Foreign Military Sales customers. Work will be performed in Indianapolis, Indiana, and is expected to be completed in October 2022. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Alberici-Mortenson JV, St. Louis, Missouri, is awarded a \$41,250,425 modification which provides for exercise of the third through ninth options under a fixed-price, award-fee contract for design-bid-build recapitalization of the dry dock at Naval Submarine Base Kings Bay, Georgia. Activities during this phase will include repairs to the utility and auxiliary tunnels, pump station, and roof drainage system; roof replacement at various support buildings; miscellaneous building repairs; and replacement of various systems (mechanical, electrical, fire) in seven support buildings. After award of this option, the total cumulative contract value will be \$605,985,837. Work will be performed in Kings Bay, Georgia, and is expected to be completed by July 2023. Fiscal 2022 operation and maintenance (Navy) contract funds in the amount of \$41,250,425 are obligated on this award and will expire at the end of the current fiscal year. Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity (N69450-20-C-0016).

October 13, 2021

Schuyler Line Navigation Co. LLC, Annapolis, Maryland (N3220518C3508), is awarded an \$11,406,250 option (P00018) for the fixed-price portion of a previously awarded, firm-fixed-price contract, with reimbursable elements, to exercise a one-year option period for the operation and maintenance of the tanker SLNC Goodwill to provide transportation of clean petroleum products in support of the Department of Defense Logistics Agency Energy. This contract includes a one-year firm period of the performance,

three one-year option periods, and one eleven-month option period, which if exercised would bring the cumulative value of this contract to \$60,816,000. Work will be performed worldwide and is expected to be completed, if all options are exercised, by Sept. 13, 2023. Working capital funds (Transportation) in the amount of \$11,406,250 are not yet obligated for fiscal 2022. This procurement was released under full and open competition with an unlimited number of companies solicited via the beta.sam.gov website, with no offers received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

October 8, 2021

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a \$482,115,887 cost-plus-fixed-fee modification to previously awarded contract N00024-20-C-2120 for lead yard support and development studies and design efforts related to Virginia-class submarines. Work will be performed in Groton, Connecticut (96%); Newport News, Virginia (3%); and Newport and Quonset, Rhode Island (1%), and is expected to be completed by October 2022. Fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$53,151,801 (51%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$28,616,832 (27%); fiscal 2016 shipbuilding and conversion (Navy) funds in the amount of \$9,094,582 (9%); fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$6,390,454 (6%); fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$4,724,999 (4%); and fiscal 2021 research, development, test, and evaluation (Navy) funds in the amount of \$3,165,077 (3%) will be obligated at time of award, of which \$3,165,077 will expire at the end of the current fiscal year. This contract was not competitively procured. The statutory authority for this sole source award is in accordance with Federal Acquisition Regulation 6.302-1(a)(2)(iii) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

SyQwest Inc., Cranston, Rhode Island, is awarded a \$13,854,578 indefinite-delivery/indefinite-quantity contract containing firm-fixed-price provisions. This contract is for production of TR-341A transducers. Work will be performed in Cranston, Rhode Island, and is expected to be completed by June 2027. Fiscal 2021 other procurement (Navy) funds in the amount of \$572,244 will be obligated at time of award on the first delivery order, and will not expire at the end of the current fiscal year. This contract was competitively procured using full and open competition via the beta.sam.gov website with one offer received. The Naval Undersea Warfare Center Division Newport, Newport, Rhode Island, is the contracting activity (N66604-22-D-A200).

ACR Technical Services, Newport News, Virginia (N3220522D0001); Standard Calibrations Inc., Chesapeake, Virginia (N3220522D0002); and Weedon Engineering, Jacksonville, Florida (N3220522D0003), are awarded a \$7,734,053 shared-ceiling, multiple award, indefinite-delivery/indefinite-quantity contract. This award fulfills the Military Sealift Command's requirement for services to facilitate worldwide support for calibration, repair and/or replacement of gauges, meters, thermometers and test equipment used to monitor machinery performance for Military Sealift Command vessels. This contract includes five one-year ordering periods that would bring the cumulative value of the contract ceiling to \$7,734,053. Work will be performed worldwide and is expected to be completed by Oct. 31, 2026. Working capital funds (Navy) in the amount of \$3,500 for the minimum guarantee for each offer and will be obligated at time of award. Orders may be placed throughout the five-year ordering period. Funding for fiscal year 2022, in which initial orders are placed, will be utilized at that time. This contract was a small business set-aside requirement procured via the beta.sam.gov website and only three timely offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

October 7, 2021

October 6, 2021

A2A Integrated Logistics Inc., Fayetteville, North Carolina (M67854-21-D-5118); AvMEDICAL, LLC, Franklin, Tennessee (M67854-21-D-5119); and Sterile Services Co., Miami, Florida (M67854-21-D-5120), are awarded a multiple-award, firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the purchase of medical and dental supplies up to a combined maximum of \$46,934,526. The contract will involve the procurement of items on the Authorized Medical Allowance Lists, the Authorized Dental Allowance List, and medical kits managed by the Marine Corps Systems Command. These lists are highly specialized capability sets comprised of Department of Defense-classified Class VIII medical equipment and materiel that are required to sustain the operational readiness of Marine Corps Health Service Support units. Work will be performed in Fayetteville, North Carolina; Franklin, Tennessee; and Miami, Florida, and is expected to be completed by October 2027. No funds will be obligated at time of award. All funding will be made available at the delivery order level as contracting actions occur. Each awardee will be awarded a minimum of \$25,000 (minimum contract guarantee per awardee) within one year of base contract award, using fiscal 2022 procurement (Marine Corps) funds. The contract was competitively procured via the beta.sam.gov website, with 10 offers received. The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity.

October 5, 2021

Austal USA, Mobile, Alabama, was awarded a \$144,623,645 fixed-price incentive (firm target) modification to previously awarded contract N00024-21-C-2209 for the detail design and construction of two towing, salvage, and rescue ships (T-ATS 11 and 12). The contract modification establishes options for up to three additional ships, which, if exercised, will bring the total cumulative value of the contract to \$385,084,067. Work will be performed in Mobile, Alabama (54%); Chesapeake, Virginia (20%); Jacksonville, Florida (6%); Boca Raton, Florida (4%); New Orleans, Louisiana (3%); and suppliers each representing less than 1% of contract value (13%). Fiscal 2021 shipbuilding and conversion (Navy) funding in the amount of \$144,623,645 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Sept. 30, 2021)

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$49,984,235 modification (P00011) to a cost-plus-fixed-fee order (0097) against a previously issued basic ordering agreement (N0001914G0020). This modification adds scope to procure long lead parts required to ensure F-35 developmental test aircraft maintain full mission capable status for the Air Force, Navy, Marine Corps and non-U.S. Department of Defense (DOD) participants. Work will be performed in Fort Worth, Texas, and is expected to be completed in July 2024. Fiscal 2021 research, development, test and evaluation (Air Force) funds in the amount of \$15,441,275; fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$5,941,275; and non-U.S. DOD participant funds in the amount of \$2,617,450 will be obligated at time of award, \$21,382,550 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

BAE Systems Land & Armaments L.P., Minneapolis, Minnesota, was awarded a \$26,069,645 firm-fixed-price modification to previously awarded contract N00024-20-C-5300 to procure three additional 57mm MK 110 Mod 0 gun mounts and associated hardware. Work will be performed in Karlskoga, Sweden (76%); and Louisville, Kentucky (24%), and is expected to be completed by May 2024. Fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$8,693,335 (34%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$8,693,335 (34%); and fiscal 2021 weapons procurement (Navy) funds in the amount of \$8,682,975 (32%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded September 30, 2021)

DRS Laurel Technologies, Johnstown, Pennsylvania, was awarded a \$12,343,396 firm-fixed-price modification to previously awarded contract N00024-15-C-5228 to exercise options for the production of AN/USG-2B systems, AN/USG-3B systems, and installation and checkout replacement components in support of the Cooperative Engagement Capability program. Work will be performed in Largo, Florida, and is expected to be completed by March 2023. Fiscal 2021 aircraft procurement (Navy) funds in the

amount of \$7,321,910 (59%); fiscal 2021 other procurement (Navy) funds in the amount of \$2,926,049 (24%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$1,220,242 (10%); and fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$875,195 (7%) were obligated at time of award and did not expire at the end of fiscal 2021. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded September 30, 2021)

C.E.R Inc., Baltimore, Maryland, is awarded a \$9,703,200 firm-fixed-price task order (N4008022F4000) under a previously-awarded, multiple-award construction contract (N40080-21-D-0025) for the replacement of Chillers Three through Nine at Naval Support Activity Bethesda. Work will be performed in Bethesda, Maryland, and is expected to be completed by April 2023. Fiscal 2019 military construction (Navy) funds in the amount of \$9,703,200 will be obligated at time of award and will not expire at the end of the current fiscal year. Seven proposals were received for this task order. The Naval Facilities Engineering Systems Command, Washington, D.C., is the contracting activity.

Management Services Group Inc., doing business as Global Technical Systems, Virginia Beach, Virginia, was awarded an \$9,641,729 firm-fixed-price and cost-plus-fixed-fee modification to a previously awarded contract (N0002420C5608) for Network, Processing, and Storage Technical Insertion 16, Modification 1 production equipment, spares, and engineering services. This contract combines purchases for the U.S. government (98%); and the Commonwealth of Australia (2%) under the Foreign Military Sales (FMS) program. Work will be performed in Virginia Beach, Virginia, and is expected to be complete by September 2022. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$6,398,915 (66%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$1,066,506 (11%); fiscal 2019 other procurement (Navy) funds in the amount of \$592,839 (6%); fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$556,818 (5%); fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$335,241 (3%); fiscal 2021 operations and maintenance (Navy) funds in the amount of \$277,714 (3%), FMS (Australia) funds in the amount of \$254,264 (2%); fiscal 2021 other procurement (Navy) funds in the amount of \$79,716 (1%); fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$45,552 (1%); fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$22,776 (1%); and fiscal 2016 shipbuilding and conversion (Navy) funds in the amount of \$11,388 (1%) were obligated at the time of award, of which funds in the amount of \$870,553 expired at the end of fiscal year 2021. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded September 30, 2021)

Raytheon Missiles and Defense, Tewksbury, Massachusetts, was awarded a \$9,036,664 cost-plus-incentive-fee, cost-plus-fixed-fee, and cost modification to previously awarded contract N00024-17-C-5145 to exercise options for USS Zumwalt (DDG 1000) class engineering support, material and other direct costs in support of the engineering efforts. Work will be performed in Portsmouth, Rhode Island (50%); and Tewksbury, Massachusetts (50%), and is expected to be completed by May 2022. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$5,489,973 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was procured under the statutory authority of 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Sept. 30, 2021)

CAE USA Inc., Tampa, Florida, is awarded a \$7,675,214 firm-fixed-price contract. This contract provides for the system configuration upgrade of one Defense Acquisition and Logistics Organization MH-60R Mission Operational Flight Trainer for the government of Denmark. Work will be performed in Tampa, Florida (60%); and Karup, Denmark (40%), and is expected to be completed in August 2023. Foreign Military Sales funds in the amount of \$7,675,214 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304 (c)(4). The Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity (N6134022C0002).

October 4, 2021

Lockheed Martin Rotary and Mission Systems, Baltimore, Maryland, is awarded a \$79,971,127 cost-plus-fixed-fee, firm-fixed-price, and cost-only modification to previously awarded contract N00024-18-C-2300 to exercise options for littoral combat ship class design services and integrated data and product model environment support. Work will be performed in Hampton, Virginia (31%); Moorestown, New Jersey (27%); Washington, D.C. (22%); and Marinette, Wisconsin (20%), and is expected to be completed by October 2022. Fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$3,904,652 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

L-3Harris Technologies Inc., Northampton, Massachusetts, was awarded an \$18,420,649 firm-fixed-price, cost-plus-fixed-fee, cost only contract for the procurement of MK 20 electro-optical sensor systems (EOSS), radar cross section kits, installation and checkout and onboard repair parts kits, engineering support services, and depot spares. The MK 20 EOSS Mod 1 is employed by the DDG 51 Class, CG 47 Class, and the Coast Guard offshore patrol cutters. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$54,197,407. Work will be performed in Northampton, Massachusetts, and is expected to be completed by September 2024. If all options are exercised, work will continue through September 2028. Fiscal 2021 other procurement (Navy) funds in the amount of \$8,960,807 (49%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$5,023,725 (27%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$2,914,685 (16%); fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$909,552 (5%); fiscal 2016 shipbuilding and conversion (Navy) funds in the amount of \$203,960 (1%); fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$203,960 (1%); and fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$203,960 (1%) will be obligated at the time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured via the contracting opportunities sam.gov website in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-C-5322). (Awarded Sept. 30, 2021)

October 1, 2021

Delphinus Engineering Inc., Eddystone, Pennsylvania (N64498-21-D-0042); and Epsilon Systems Solutions Inc. Portsmouth, Virginia (N64498-21-D-0043), were awarded a cost-plus-fixed fee, indefinite-delivery/indefinite-quantity contract under the Submarine Safety (SUBSAFE) multiple award contract for a total program ceiling of up to \$892,000,000 to provide technical management, administrative and technical support services, materials, tools, equipment, and facilities to support the installation, troubleshooting, repair and maintenance of main and auxiliary weapons, hull, mechanical and electrical equipment to support SUBSAFE and Level I material work onboard various class of Navy submarines. Work is expected to be performed to support various availabilities at private and public shipyards, Navy submarine and operating bases, and foreign shipyards and ports in the Norfolk, Virginia area (45%), other East Coast areas (35%), the West Coast (15%), and various locations outside the continental U.S. (5%). Work will be assigned according to individual task orders and is expected to be completed by December 2024. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$1,000 (\$500 per awardee) will be obligated at time of award and will expire at the end of the current fiscal year. All other funding will be made available at the task order level as contracting actions occur. This contract was competitively procured via the beta.sam.gov website, with two offers received. The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity. (Awarded Sept. 30, 2021)

Lockheed Martin Space, Titusville, Florida, is awarded a \$445,488,793 fixed-price incentive, cost-plus-incentive-fee, and cost-plus-fixed-fee modification (PZ0001) to a previously awarded and announced unpriced letter contract (N0003021C0100) for Trident II (D5) missile production and deployed systems support. Work will be performed in Cape Canaveral, Florida (16.6%); Magna, Utah (15.4%); Denver, Colorado (11.8%); Kings Bay, Georgia (10.5%); Sunnyvale, California (9.4%); Bangor, Washington (8.1%); Titusville, Florida (6.7%); Camden, Arkansas (2.6%); Kingsport, Tennessee (2.2%); Pittsfield, Massachusetts (1.5%); Valley Forge, Pennsylvania (1.2%); Rockford, Illinois (1.2%); Elkton, Maryland (1%); Borgo San Dalmazzo, Italy (1%); and other locations less than 1% each (10.8% total). Work is

expected to be completed Sept. 30, 2026. The maximum dollar value of the modification, including the base and all option items, if exercised, is \$1,157,065,130. Fiscal 2021 weapons procurement (Navy) funds in the amount of \$4,560,560 will be obligated on this award. No funds will expire at the end of the current fiscal year. This contract is being awarded to the contractor on a sole source basis under 10 U.S. Code 2304(c)(1) and was previously synopsized on the Federal Business Opportunities website. Strategic Systems Programs, Washington, D.C., is the contracting activity.

General Electric Aviation, Lynn, Massachusetts, is awarded a not-to-exceed \$131,600,000 firm-fixed-price, indefinite delivery, performance-based logistics requirements contract for the repair, upgrade or replacement; inventory management; and required supply response times of two T-700 engine components in support of the Navy's H-60 Seahawk and the Marine Corp's AH-1 Cobra helicopters. The contract will include a five-year base period with no options. Work will be performed in Lynn, Massachusetts (50%); and Arkansas City, Kansas (50%). Work is expected to be completed by September 2026. No funds will be obligated at time of award. Annual working capital funds (Navy) will be used as delivery orders are issued. Funds will not expire at the end of the current fiscal year. One company was solicited for this non-competitive requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1), in accordance with Defense Federal Acquisition Regulation 6.302-1, with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-22-D-ZU01).

United States Marine Inc., Gulfport, Mississippi, was awarded a \$54,384,301 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for up to 35 11-meter Navy Special Warfare Rigid Inflatable Boats, trailers, accessories, spares, and other technical assistance. This contract combines purchases for the Coast Guard (23%) and foreign governments as assigned by the Defense Security Cooperation Agency in accordance with Building Partnership Capacity and Foreign Military Sales programs. The location of the work to be performed will be determined by individual task orders. Work is anticipated to be performed in Gulfport, Mississippi (80%); and Corinth, Mississippi (20%), and is expected to be completed by September 2026. No funding will be obligated at the time of contract award. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-D-2220). (Awarded Sept. 28, 2021)

Systems Application and Technologies Inc., Oxnard, California, is awarded a \$27,286,688 modification (P00058) to a previously awarded cost-plus-fixed-fee, cost reimbursable contract (N6893618C0046). This modification exercises options to provide operational and intermediate level maintenance for both aerial and seaborne assets. This includes air and sea vehicles and vessels used for manned and unmanned training and test events. Aerial assets include subsonic and supersonic aerial targets. Seaborne assets include a combination of target and training support vessels. Work will be performed in Port Hueneme, California (57%); Point Mugu, California (35%); Ridgecrest, California (2%); Las Cruces, New Mexico (2%); Kauai, Hawaii (1%); Salt Lake City, Utah (1%); Lompoc, California (1%); and various locations outside the continental U.S. (1%), and is expected to be completed in September 2022. Working capital (Navy) funds in the amount of \$6,260,000 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Weapons Division, Point Mugu, California, is the contracting activity.

Epsilon Systems Solutions Inc., San Diego, California, was awarded a \$19,753,274 cost-plus-fixed fee and cost reimbursement contract modification to a previously awarded contract (N55236-20-C-0003) to exercise options to provide a full range of technical and repair support services for the Southwest Regional Maintenance Center's Product Family divisions. Work will be performed in San Diego, California, and is expected to be completed by September 2022. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$1,730,000 was obligated at the time of award and will expire at the end of the current fiscal year. The Southwest Regional Maintenance Center, San Diego, California, is the contracting activity. (Awarded Sept. 29, 2021)

Peraton Inc., Herndon, Virginia, is awarded a \$15,527,337 cost-plus-fixed-fee level of effort contract modification (P00009) to exercise options to previously awarded contract N00030-21-C-0016 for program support services for the Navy's strategic weapons systems reentry subsystem. Work will be performed in Colorado Springs, Colorado (75%); Washington, D.C. (15%); Albuquerque, New Mexico (8%); Cape Canaveral, Florida (1%); and Omaha, Nebraska (1%). Work is expected to be completed by March 30, 2026. No fiscal year funds will be obligated on this award. No funds will expire at the end of the current fiscal year. This contract was awarded to the contractor on a sole source basis under 10 U.S. Code 2304(c)(1), and was previously synopsisized on the beta.sam.gov website. Strategic Systems Programs, Washington, D.C., is the contracting activity.

Coastal Enterprises of Jacksonville Inc., Jacksonville, North Carolina, is awarded an \$8,977,423 firm-fixed-price modification to previously-awarded indefinite-delivery/indefinite-quantity contract (N40085-18-D-6161) for naval hospital custodial services at Marine Corps Base Camp Lejeune, North Carolina. This modification exercises Option Three of the contract and brings the total cumulative value of the contract to \$9,234,939. No task orders are being issued at this time. Work will be performed in Jacksonville, North Carolina, and is expected to be completed by September 2022. No funds will be obligated at time of award. Funds will be obligated on individual task orders as they are issued. The Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

Silver Ships Inc., Theodore, Alabama, was awarded an \$8,239,095 firm-fixed price, indefinite-delivery/indefinite-quantity single award contract (N00024-21-D-2205) for design and construction of up to 110 Navy 8-meter and 11-meter Surface Support Craft and Coast Guard Special Purpose Craft Law Enforcement Generation II (SPC-LE II). Work will be performed in Theodore, Alabama, and is expected to be completed in August 2023. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$51,663,787. Fiscal 2020 other procurement (Navy) funds in the amount of \$3,242,628 (39%); fiscal 2021 other procurement (Navy) funds in the amount of \$3,187,680 (39%); and fiscal 2021 other procurement (Coast Guard) funds in the amount of \$1,808,787 (22%) will be obligated at time of award and will not expire at the end of the current fiscal year. This contract is a small business set-aside. This contract was competitively procured via the beta.sam.gov website, with four offers received. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Sept. 30, 2021)

L3 Harris Technologies Inc. - Interstate Electronics Corp., Anaheim, California, is awarded a \$7,894,316 cost-plus-fixed-fee contract (N0003022C2001) for follow-on engineering services support for Navy Strategic Systems Programs (SSP)-owned flight test instrumentation systems operated in support of SSP Trident II flight tests. Work will be performed in Anaheim, California (55%); Cape Canaveral, Florida (29%); Washington, D.C. (6%); Bremerton, Washington (3%); Barrow-in-Furness, United Kingdom (3%); King's Bay, Georgia (2%); Laurel, Maryland (1%); and Silverdale, Washington (1%), with an expected completion date of April 1, 2027. This contract is awarded subject to Defense Federal Acquisition Regulation 52.232-18, availability of funds. No funds will be obligated at time of contract award. This contract is awarded to the contractor on a sole source basis under 10 U.S. Code 2304(c)(1), and was previously synopsisized on the beta.sam.gov website. Strategic Systems Programs, Washington, D.C., is the contracting activity.

September 30, 2021

Fluor Marine Propulsion LLC, Arlington, Virginia, is awarded a \$1,163,470,003 cost-plus-fixed-fee modification to previously awarded contract N00024-18-C-2130 to exercise the fiscal 2022 option for naval nuclear propulsion work at the Naval Nuclear Laboratory. Work will be performed in Schenectady, New York (47%); Pittsburgh, Pennsylvania (44%); and Idaho Falls, Idaho (9%). Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$11,715,150 (68%); fiscal 2019 other procurement (Navy) funds in the amount of \$2,839,984 (16%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$2,663,000 (15%); and fiscal 2020 research, development, test and evaluation (Navy) funds in the amount of \$101,058 (1%) will be obligated at time of award, of which, funds in the amount of

\$11,715,150 will expire at the end of the current fiscal year. This contract modification was not competitively procured. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a \$475,002,626 cost-plus-fixed-fee and cost-plus-incentive-fee modification to previously awarded contract N00024-17-C-2117 for lead yard support efforts serving the entire Columbia-class fleet ballistic missile submarines (SSBNs) through 2028. The contract modification also provide continued support for class continuous production of shipyard components, shipyard labor in support of fully outfitted missile tubes, and submarine industrial base development and expansion as part of the integrated enterprise plan (IEP) and multi-program material procurement supporting Columbia SSBNs and the nuclear shipbuilding enterprise (Virginia-class and Ford-class). The industrial base development work is for the furtherance of the fiscal 2021 National Defense Authorization Act (Public Law 116-283) which authorized, and the Department of Defense Appropriations Act, 2021 (Public Law 116-133) which appropriated, additional funds for submarine industrial base development and expansion to ensure second- and third-tier contractors are able to meet increased production requirements. Additionally, this modification includes additional IEP investments in production backup units (PBUs) and continuous outfitting of missile tubes. Work will be performed in Groton, Connecticut (97.3%); and Newport News, Virginia (2.7%), and is expected to complete December 2031. No funding will be obligated at the time of award. This contract was not competitively procured. This is a sole source award in accordance with Defense Federal Acquisition Regulation 6.302-1(a)(2)(iii) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a \$172,798,899 firm-fixed-price, fixed-price incentive (firm target) modification (P00026) to a previously awarded contract (N0001918C1046). This modification adds scope that provides for the integration of the Cockpit Pressure and On-Board Oxygen Generating Monitoring System onto new F/A-18E/F production aircraft in an effort to mitigate potential physiological episodes. Additionally, this modification adds scope that provides for the procurement of aircraft armament equipment (AAE) in support of the production and delivery of 78 F/A-18E/F aircraft and various quantities of miscellaneous AAE hardware, as well as non-recurring engineering for new tooling, refurbishment and replacement of broken down tools and technical documents in support of F/A-18 aircraft production. Work will be performed in Mesa, Arizona (49%); Clearwater, Florida (21%); St. Louis, Missouri (14%); El Segundo, California (7%); Forest, Mississippi (4%); Minneapolis, Minnesota (3%); Oceanside, California (1%); and Irvine, California (1%), and is expected to be completed in September 2028. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$26,607,138; fiscal 2020 aircraft procurement (Navy) funds in the amount of \$26,664,399; and fiscal 2019 aircraft procurement (Navy) funds in the amount of \$119,527,363 will be obligated at time of award, \$119,527,363 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

General Dynamics Mission Systems, Fairfax, Virginia, is awarded a \$92,931,647 cost-plus-fixed-fee and firm-fixed-price contract to design, test and deliver Hammerhead Prototype articles and other related equipment. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$275,603,495. Work will be performed in Taunton, Massachusetts (29%); Braintree, Massachusetts (16%); Andover, Maryland (12%); Fairfax, Virginia (12%); Greensboro, North Carolina (9%); Groton, Connecticut (6%); Lincoln, Nebraska (6%); Bloomington, Minnesota (6%); Pittsfield, Massachusetts (3%); and Quincy, Massachusetts (1%), and is expected to be completed by September 2023. If all options are exercised, work will continue through September 2026. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$16,628,918 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with two offers received. The Naval Sea Systems Command Headquarters in Washington, D.C., is the contracting activity (N00024-21-C-6425).

SAFE Boats International, Bremerton, Washington, is awarded an \$84,254,484 firm-fixed-price modification to previously awarded contract N00024-21-C-2201 for the detail design, construction, outfitting, reactivation, and training for six Mark VI (MK VI) patrol boats (PBs), with an option for two more.

This effort will provide MK VI PBs to Ukraine towards fulfilling Building Partner Capacity (BPC) and Foreign Military Financing (FMF). Work will be performed in Tacoma, Washington (63.2%); Bremerton, Washington (18.7%); and Freeland, Washington (18.1%), and is expected to complete March 2025. Option work, if exercised, will be performed in Tacoma, Washington (78.8%); and Bremerton, Washington (21.2%), and is expected to extend the contract completion date to March 2026. Fiscal 2020 BPC using Ukraine Security Assistance Funding in the amount of \$43,706,883 (52%); and fiscal 2021 FMF (Ukraine) funds in the amount of \$40,547,601 (48%) will be obligated at time of award. The fiscal 2020 BPC funds in the amount of \$43,706,883 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

BAE Systems Technology Solutions & Services Inc., Rockville, Maryland, is awarded a \$45,128,814 cost-plus-fixed-fee, cost-plus-incentive-fee contract to provide services for the U.S. Trident II (D5) strategic weapon system programs, U.S. guided-missile submarine (Nuclear) (SSGN) Attack Weapon System (AWS); the Nuclear Weapon Security (NWS) Program; nuclear weapon surety; and future concepts. Work will be performed at Rockville, Maryland (58.2%); Washington, D.C. (24%); Saint Mary's, Georgia (3.4%); Cape Canaveral, Florida (2.4%); Rochester, United Kingdom (1.8%); Bremerton, Washington (1.4%); Portsmouth, Virginia (1%); and various locations within the continental U.S. (7.8%), with an expected completion date of Sept. 30, 2022. Subject to the availability of funding, fiscal 2022 operation and maintenance (Navy) contract funds in the amount of \$45,128,814 will be obligated. No funds will expire at the end of the current fiscal year. This contract was a sole-source acquisition in accordance with 10 U.S. Code 2304(c)(1). Strategic Systems Programs, Washington, D.C., is the contracting activity (N00030-22-C-6001).

Ultra Electronics Ocean Systems, Braintree, Massachusetts, is awarded a \$40,759,339 modification to previously-awarded contract N63394-19-C-0007 for the development and production of Next Generation Surface Search Radar qualification systems. Work will be performed in Chantilly, Virginia (58%); Wake Forest, North Carolina (39%); and Braintree, Massachusetts (3%), and is expected to be completed by September 2023. Fiscal 2021 other procurement (Navy) funds in the amount of \$34,174,442 will be obligated at time of award and will not expire at the end of the current fiscal year. In accordance with 15 U.S. Code 638(r)(4) — this contract was not competitively procured (under the Small Business Innovative Research Phase III program/2018 National Defense Authorization Act). The Naval Surface Warfare Center, Port Hueneme Division, Port Hueneme, California, is the contracting activity (N6339419C0007).

Hornbeck Offshore Operators LLC, Covington, Louisiana (N6238715C2507), is awarded a \$40,145,080 modification for the fixed-price portion of a previously awarded firm-fixed-price contract to exercise a one-year option period (P00093) for the operation and maintenance of four modified off-shore supply vessels USNS Arrowhead (T-AGSE 4); USNS Eagleview (T-AGSE 3); USNS Westwind (T-AGSE 2); and USNS Black Powder (T-AGSE 1) for continued service as blocking vessels in support of Navy operations. The contract includes a 215-day base period, nine one-year option periods and one 150-day option period. Work for this option period will be performed at sea worldwide, and is expected to be completed by Sept. 30, 2022. This contract includes nine 12-month option periods and one 150-day option period, which, if exercised, would bring the cumulative value of this contract to \$346,795,380. Working capital funds (Navy) in the amount of \$40,145,080 are obligated for fiscal 2022, and will not expire at the end of the fiscal year. This contract was issued on a basis of other than full and open competition in support of the statute under provisions of 10 U.S. Code 2304(c)(1), as implemented by Defense Federal Acquisition Regulation 6.302-1 — only one responsible source and no other supplies or services will satisfy agency requirements. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N6238715C2507).

Patriot Contract Services LLC, Concord, California (N0003314C3210), is awarded a \$37,649,881 modification (P00366) for the fixed-price portion of a previously awarded contract to fund the operation and maintenance of eight government-owned, contractor operated Watson-class large, medium-speed roll-on/roll-off ships. The ships included in this contract are USNS Watson (T-AKR 310); USNS Sisler (T-AKR 311); USNS Dahl (T-AKR 312); USNS Red Cloud (T-AKR 313); USNS Charlton (T-AKR 314); USNS Watkins (T-AKR 315); USNS Pomeroy (T-AKR 316); and USNS Soderman (T-AKR 317). This

modification awards a bridge that includes a six-month period of performance. The ships will continue to support Military Sealift Command's worldwide prepositioning requirements. Work will be performed at sea worldwide beginning Oct. 1, 2021, and is expected to be completed by March 31, 2022. Working capital funds in the amounts of \$9,952,219 (Navy) and \$27,697,662 (Transportation), totaling \$37,649,881, are obligated for fiscal 2022, covering the six-month base period's daily operating hire and will not expire at the end of the fiscal year. This bridge was not competitively procured and was prepared in accordance with Defense Federal Acquisition Regulations 6.302-1 and 10 U.S. Code § 2304(c)(1). The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N0003314C3210).

Kiewit Infrastructure West Co., Honolulu, Hawaii, is awarded a \$37,557,900 firm-fixed-price task order (N6247821F4218) under previously-awarded multiple-award construction contract (N62478-20-D-4004) for work order 1574357/1582944 entitled, "FY21 Replace Underground Salt Water Distribution Lines and 12-Inch Water Line Along Lake Erie St., Various Locations in the Pearl Harbor Naval Shipyard and Waterfront, Joint Base Pearl Harbor-Hickam, Hawaii." Work will be performed in Oahu, Hawaii, and is expected to be completed by March 2022. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$37,557,900 will be obligated at time of award and will expire at the end of the current fiscal year. Five proposals were received for this task order. The Naval Facilities Engineering Systems Command Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

Raytheon Co., Tucson, Arizona, is awarded a \$36,733,180 firm-fixed-price contract for the engineering, test equipment, material and management necessary to transition the Evolved Seasparrow Missile Block 2 program into full rate production. Work will be performed in Tucson, Arizona (58%); Richmond, Australia (12%); Cambridge, Canada (5%); San Jose, California (4%); Colorado Springs, Colorado (3%); Grenaa, Denmark (2%); Raufoss, Norway (2%); Mosheim, Tennessee (2%); Marinha Granda, Portugal (2%); Ankara, Turkey (2%); Santa Rosa, California (2%); Koropi Attica, Greece (1%); Madrid, Spain (1%); Westlake Village, California (less than 1%); Gilbert, Arizona (less than 1%); San Diego, California (less than 1%); Phoenix, Arizona (less than 1%); Mississauga, Canada (less than 1%); Irvine, California (less than 1%); and Corning, New York (less than 1%). Work is expected to complete by September 2023. Fiscal 2021 other customer funds in the amount of \$27,303,139 (74%); and fiscal 2020 other customer funds in the amount of \$9,430,041 (26%) will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(4) — international agreement between the U.S. and foreign government or international organization. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-C-5417).

Continental Tide Defense Systems Inc., Wyoming, Pennsylvania (N6833521D0225); Delphinus Engineering Inc., Eddystone, Pennsylvania (N6833521D0226); Epsilon Systems Solutions Inc., Portsmouth, Virginia (N6833521D0227); LPI Technical Services, Chesapeake, Virginia (N6833521D0228); Prism Maritime LLC, Chesapeake, Virginia (N6833521D0229); and Valkyrie Enterprises Inc., Virginia Beach, Virginia (N6833521D0230), are each awarded a firm-fixed-price, cost-plus-fixed-fee, cost-reimbursable, indefinite-delivery/indefinite-quantity contract. The estimated aggregate ceiling for all contracts is \$33,871,048, with the companies having an opportunity to compete for individual orders. These contracts provide shipboard and shore site alteration and installation services in support of common aviation support equipment and aircraft launch and recovery equipment aboard Nimitz- and Ford-class aircraft carriers for the Navy. Work will be performed in various locations within or outside the continental U.S. based upon ship availability, and is expected to be completed in September 2026. No funds will be obligated at the time of award. Funds will be obligated on individual orders as they are issued. This contract was competitively procured via a small business set aside; six offers were received. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

L3Harris, Clifton, New Jersey, is awarded a \$33,568,100 firm-fixed price, cost-plus-fixed-fee, and cost-reimbursable contract for MK 234 10/11/12/13 Nulka Advanced Decoy Architecture Program (ADAP) series payloads. This contract includes options, which, if exercised, would bring the cumulative value of this contract to \$124,003,133. Work will be performed in Clifton, New Jersey (73%); Rancho Cordova,

California (14%); Hamilton, New Jersey (5%); Ronkonkoma, New York (4%); and Andover, Massachusetts (4%), and is expected to be completed by April 2026. If all options are exercised, work will continue through April 2026. Fiscal 2021 other procurement (Navy) funds in the amount of \$18,871,100 (56%); and fiscal 2021 other customer funds (Australia) in the amount of \$14,697,000 (44%) will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured via the beta.sam.gov website. In accordance with 10 U.S. Code 2304(c)(1), as implemented by Defense Federal Acquisition Regulation 6.302-1, there is only one responsible source and no other supplies or services will satisfy agency requirements. L3Harris is the only source that can produce the highly specialized MK 234 Nulka ADAP payloads to fulfill Navy requirements without unacceptable delays. Additionally, in accordance with 10 U.S. Code 2304(c)(4), per the international agreement with the Department of Defence of Australia, L3Harris is the directed source for the procurement of the Australian requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-C-5525).

The Boeing Co., St Louis, Missouri, is awarded a \$30,464,202 firm-fixed-price contract. This contract provides for the modification and upgrade of six T-45C Goshawk operational flight trainers (OFT). These upgrades include trainer-to-aircraft radar concurrency modifications, adding the ability for the OFT to link with another OFT, and adding local network storage capability for debrief systems. Additionally, this contract provides updated technical documentation and instructor, operator and maintenance training. Work will be performed in Pensacola, Florida (75%); and St. Louis, Missouri (25%), and is expected to be completed in January 2025. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$30,464,202 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304 (c)(1). The Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity (N6134021C0039).

Lockheed Martin Rotary Missions Systems, Moorestown, New Jersey, is awarded a \$28,711,271 cost-plus-fixed-fee contract for engineering and technical services for land based test site support for the Australia Surface Combatant Program AEGIS Combat and Weapon System baseline development. This contract involves Foreign Military Sales to the government of Australia. Work will be performed in Moorestown, New Jersey (97 %); Akron, Ohio (1%); Baltimore, Maryland (1%); and Orlando, Florida (1%), and is expected to be completed by September 2025. Foreign Military Sales (Australia) funding in the amount of \$28,711,271 will be obligated at the time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304 (c) (4) — terms of an international agreement or a treaty between the United States and a foreign government or international organization. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-20-C-5127).

Oceaneering International Inc., Chesapeake, Virginia, is awarded a \$21,872,839 cost-plus-fixed-fee and cost modification to previously awarded contract N00024-18-C-6413 to exercise options for configuration changes, engineering services, material maintenance, and repair. Work will be performed in Chesapeake, Virginia, and is expected to be completed by September 2022. Fiscal 2020 other procurement (Navy) funds in the amount of \$1,450,000 (48%); fiscal 2019 other procurement (Navy) funds in the amount of \$611,640 (21%); fiscal 2021 other procurement (Navy) funds in the amount of \$520,000 (17%); and fiscal 2021 operation and maintenance (Navy) funds in the amount of \$418,172 (14%) will be obligated at time of award. Funds in the amount of \$1,029,812 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Data Link Solutions (DLS), Cedar Rapids, Iowa, is awarded a \$19,998,685 five-year, firm-fixed-priced, requirements contract for the repair of multiple items associated with the multifunctional information distribution system in support of various aircraft. DLS is a joint venture between Rockwell Collins and BAE Systems. Work will be performed in Wayne, New Jersey (68%); and Cedar Rapids, Iowa (32%), and is expected to be completed by September 2026 with no option periods. Annual working capital (Navy) funds will be used as task orders are issued and funds will not expire at the end of the current fiscal year. One source was solicited for this non-competitive requirement under authority 10 U.S. Code 2304 (c)(1)

with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-21-D-X501).

TOTE Services Inc., Jacksonville, Florida (N3220518C3101) is awarded a \$12,232,990 modification under a previously awarded firm fixed-price contract (N3220518C3101) to exercise a one-year option period (P00035) for the operation and maintenance of the Sea-Based X-Band Radar Platform (SBX-1). The vessel is operated for the Missile Defense Agency to provide limited test support services and is a contingency component of the Ground Based Mid-Course Defense element of the Ballistic Missile Defense System for the U.S. Strategic Command. The vessel may also be used for other government missions as directed or placed in a reduced operating status. Work will be performed in the Pacific Ocean operating area, and is expected to be completed by Sept. 30, 2022. This contract includes one 12-month base period, four 12-month option periods, and a six-month option under Defense Federal Acquisition Regulation 52.217-8, which, if exercised, would bring the cumulative value of this contract to \$65,303,886. Working capital funds (Navy) in the amount of \$12,232,990 are obligated for fiscal 2022, and will not expire at the end of the fiscal year. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N0003314C3210).

Avum Inc., Agoura Hills, California (N6600121F0185); Cencore LLC, Springville, Utah (N6600121F0186); Cognetic Technologies, Vista, California (N6600121F0187); Computer Technologies Consultants Inc., Bethesda, Maryland (N6600121F0188); Data Intelligence LLC, Marlton, New Jersey (N6600121F0189); Forward Slope Inc., San Diego, California (N6600121F0190); The Cameron Bell Corp., doing business as Gov Solutions Group, Daniel Island, South Carolina (N6600121F0191); JRH Consultants LLC, Washington, D.C. (N6600121F0192); Metronome LLC, Fairfax, Virginia (N6600121F0193); Nexagen Networks Inc., Morganville, New Jersey (N6600121F0194); Pioneer Technologies Inc., Fairfax, Virginia (N6600121F0195); Programs Management Analytics & Technologies Inc., San Diego, California (N6600121F0196); ProSync Technology Group LLC, Ellicott City, Maryland (N6600121F0197); Sentar Inc., Huntsville, Alabama (N6600121F0198); Solute Inc., San Diego, California (N6600121F0199); Tri Star Engineering Inc., Bloomington, Indiana (N6600121F0200); and Vsolvit LLC, Ventura, California (N6600121F0201), are awarded a \$10,996,946 indefinite-delivery/indefinite-quantity, multiple-award contract with cost-plus-fixed-fee pricing to support systems engineering, software engineering, designing, developing, testing, sustaining, maintaining, system hosting and life-cycle support for the development and sustainment of non-tactical business and enterprise information applications and systems. All awardees will compete for task orders during the ordering period. The two-year contracts include four, two-year option periods which, if exercised, would bring the overall potential value of these contracts to an estimated \$59,568,577. Work will be performed in San Diego, California. The period of performance of the base period is September 2021 through September 2023. If all options are exercised, the period of performance would extend through September 2031. No funds will be obligated at the time of award. Funds will be obligated as task orders are issued using operation and maintenance (Navy) and other funding, which may include working capital (Navy); research, development, test, and evaluation (Navy); other procurement (Navy); and Foreign Military Sales funds. These contracts were competitively procured via a request for proposal (N6600120R0013), which was published via the beta.sam.gov website and the Naval Information Warfare Systems Command e-Commerce Central website. Twenty-four offers were received and 17 were selected for award. Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

Rolls Royce Marine North America, Walpole, Massachusetts, is awarded a \$9,280,229 fixed-price and cost-plus-fixed-fee contract action for Virginia-class submarine propulsors. This contract shall provide a maximum of seven Virginia-class propulsor rotor assemblies, scoop bar sets, and associated engineering support services. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$35,808,288. Work will be performed in Pascagoula, Mississippi (75%); and Walpole, Massachusetts (25%), and is expected to be completed by May 2025. If all options are exercised, work will continue through October 2029. Fiscal 2021 other procurement (Navy) funds in the amount of \$7,394,984 (80%); and fiscal 2020 other procurement (Navy) funds in the amount of \$1,885,245 (20%) will be obligated at time of award and will not expire at the end of the fiscal year. This contract was not competitively procured in accordance with 10 U.S.C. 2304(c)(1) — only one responsible source and no

other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-C-4111).

BAE Systems Norfolk Ship Repair, Norfolk, Virginia, is awarded a \$9,121,189 cost-plus-award-fee and cost-plus-fixed-fee contract for amphibious transport dock ships LPD-28, 29, and 30 fitting out availabilities (FOAs) and post-shakedown availabilities (PSAs). The work to be performed will include correction of government-responsible deficiencies, new work identified between delivery and the time of FOA/PSA, and incorporation of approved engineering changes that were not incorporated during the new construction periods, which are not otherwise the building yard's responsibility under the ship construction contract. The awarded contract will include scope to allow for emergent work to correct government-responsible deficiencies identified after delivery and/or as a result of preparations for final contract trials conducted by the Navy Board of Inspection and Survey Board. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$169,038,262. Work will be performed in Norfolk, Virginia, and is expected to be completed by October 2022. If all options are exercised, work will continue through December 2026. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$1,500,000 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with one offer received. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-C-2451).

September 29, 2021

General Electric Co., Lynn, Massachusetts, is awarded a \$483,143,433 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract procures spare F414 engines and various spare engine modules in support of the F/A-18E/F Super Hornet and EA-18G Growler production aircraft. Work will be performed in Lynn, Massachusetts (50%); Hooksett, New Hampshire (18%); Rutland, Vermont (12%); Madisonville, Kentucky (11%); Winnipeg, Canada (4%); Munich, Germany (3%); and Haverhill, North Carolina (2%), and is expected to be completed in January 2026. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921D0003).

Raytheon Co., Tucson, Arizona, is awarded a \$358,028,032 firm-fixed-price contract in support of the fiscal 2021-2023 Evolved Seasparrow Missile (ESSM) Block 2 full rate production requirements. The ESSM program is an international cooperative effort to design, develop, test, and procure ESSM missiles. The ESSM provides enhanced ship defense. This contract includes options which, if exercised at the maximum quantities, would bring the cumulative value of this contract to \$1,278,097,632. This contract combines purchases for the Navy and the governments of Canada, Australia, Greece, Germany, Norway, Turkey, Portugal, Belgium, the Netherlands, and Denmark under the NATO Seasparrow Consortium. Work will be performed in Tucson, Arizona (46%); Edinburgh, Australia (8%); San Jose, California (7%); Raufoss, Norway (7%); Mississauga, Canada (6%); Ottobrunn, Germany (4%); Cambridge, Canada (3%); Nashua, New Hampshire (3%); Hengelo Ov, Netherlands (2%); Koropi Attica, Greece (2%); Torrance, California (2%); Canton, New York (2%); Ankara, Turkey (1%); Grenaa, Denmark (1%); Westlake Village, California (1%); Eight Mile Plains, Brisbane, Australia (less than 1%); Newmarket, Canada (less than 1%); Madrid, Spain (less than 1%); Milwaukie, Oregon (less than 1%); Lystrup, Denmark (less than 1%); Lawrence, Maine (less than 1%); and Clearwater, Florida (less than 1%). Work is expected to be completed by March 2025. If all options are exercised, work will continue through March 2027. Fiscal 2021 other customer funds in the amount of \$189,265,920 (53%); fiscal 2021 weapons procurement (Navy) funds in the amount of \$156,144,384 (44%); and fiscal 2020 other customer funds in the amount of \$12,617,728 (3%), will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(4) — international agreement between the U.S. and a foreign government or international organization. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-C-5408).

Bristol Design Build Services LLC, Anchorage, Alaska (N69450-21-D-0064); HGL Construction Inc., Midwest City, Oklahoma (N69450-21-D-0065); Klutina River Contractors, Irvine, California (N69450-21-D-

0066); PacWest-Korte JV, Temecula, California (N69450-21-D-0067); The Clement Group LLC, Montgomery, Alabama (N69450-21-D-0068); VHB LLC, Boyds, Maryland (N69450-21-D-0069); Walga Ross Group 3 JV, Joplin, Missouri (N69450-21-D-0070), are each awarded an indefinite-delivery/indefinite-quantity, design-build and design-bid-build multiple award construction contract for construction projects located primarily within the area of operations managed by Naval Facilities Engineering Systems Command (NAVFAC) Southeast. The work to be performed will primarily consist of general building type projects including aviation and aircraft facilities, marine facilities, barracks and personnel housing facilities, administrative facilities, warehouses and supply facilities, training facilities, personnel support and service facilities, security level facilities, and the abatement and handling of hazardous and regulated materials. The maximum dollar value for the five-year ordering period for all seven contracts combined is \$249,000,000. No task orders are being issued at this time. All work on this contract will be performed within the NAVFAC Southeast West area of operations, which includes Texas (25%); Louisiana (25%); Mississippi (25%); and Tennessee (25%). The term of the contract is not to exceed 60 months, with an expected completion date of September 2026. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$7,000 are obligated on this award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by military construction (Navy); and operation and maintenance (Navy) funds. This contract was competitively procured via the beta.sam.gov website with 26 proposals received. These seven contractors may compete for task orders under the terms and conditions of the awarded contract. NAVFAC Southeast, Jacksonville, Florida, is the contracting activity.

Insight-Tidewater LLC, Brea, California (N62473-21-D-2223), and NOREAS-Aptim Environmental Remediation JV, Irvine, California (N62473-21-D-2224), and are each awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity multiple award contract for environmental remediation projects located primarily within the Naval Facilities Engineering Systems Command (NAVFAC) Southwest area of responsibility (AOR) including Alaska, Arizona, California, Nevada, New Mexico, Oregon, Utah, Washington, and other locations nationwide. The work to be performed includes environmental remedial and removal actions, remedial design, expedited and emergency response actions, pilot and treatability studies, remedial systems operation and maintenance, corrective actions, and other related activities associated with returning sites to safe and acceptable levels of contamination. The maximum dollar value for all contracts combined is \$240,000,000. NOREAS-Aptim Environmental Remediation JV is awarded an initial task order at \$172,440 for new site inspection at the former Mare Island Naval Shipyard, Vallejo, California. The task order also contains number two unexercised options, which if exercised would increase cumulative task order value to \$203,730. Work for this task order is expected to be completed by September 2024. All work on this contract will be performed primarily within the NAVFAC Southwest AOR which includes California (90%); other locations in the U.S. (5%); Nevada (3%); and Arizona (2%). The term of the contract is not to exceed 60 months, with an expected completion date of September 2026. Fiscal 2021 Base Realignment and Closure (Navy); and operation and maintenance (Navy) in the amount of \$182,440 are obligated on this award, of which \$10,000 will expire at the end of the current fiscal year. Future task orders will be primarily funded by operation and maintenance (Navy) funds. This contract is in response to the corrective action for solicitation N62473-16-R-8013, with 15 proposals received. Four contractors may compete for task orders under the terms and conditions of the awarded contract. NAVFAC Southwest, San Diego, California, is the contracting activity.

Raytheon Co., Indianapolis, Indiana, is awarded a \$147,894,558 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides for the procurement of a maximum quantity of 415 LAU-115 D/A and 308 LAU-116 B/A guided missile launchers to enable F/A-18 aircraft to carry and launch AIM-120 and AIM-9X Missiles. Work will be performed in Indianapolis, Indiana, and is expected to be completed in September 2025. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921D0021).

Raytheon Co., Largo, Florida, is awarded a \$52,626,324 cost-plus-fixed-fee, cost-plus-incentive-fee, and cost modification to previously awarded contract N0002419C5200 to exercise options for design agent

and engineering services to support the Cooperative Engagement Capability program. Work will be performed in St. Petersburg, Florida (70%); and Largo, Florida (30%), and is expected to be completed by September 2022. This contract combines purchase for the U.S. government (81%); and the governments of Australia, Japan, and Canada (19% combined) under the Foreign Military Sales (FMS) program. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$11,578,575 (61%); FMS Australia funds in the amount of \$1,600,000 (9%); fiscal 2019 procurement (Marine Corps) funds in the amount of \$1,252,121 (7%); fiscal 2020 research, development, test and evaluation (Navy) funds in the amount of \$1,165,035 (6%); FMS (Japan) funds in the amount of \$983,328 (5%); FMS Canada funds in the amount of \$939,800 (5%); fiscal 2021 operation and maintenance (Navy) funds in the amount of \$590,837 (3%); fiscal 2021 aircraft procurement (Navy) funds in the amount of \$280,000 (2%); fiscal 2019 other procurement (Navy) funds in the amount of \$243,102 (1%); and fiscal 2021 research, development, test and evaluation (Marine Corps) funds in the amount of \$200,000 (1%) will be obligated at time of award, of which funds in the amount of \$3,251,095 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

QinetiQ North America, Waltham, Massachusetts (N6660421DN001); L3 Harris Technologies Inc., Sylmar, California (N6660421DN002); Leidos Inc., Reston, Virginia (N6660421DN003); Raytheon Co., Portsmouth, Rhode Island (N6660421DN004); Booz Allen Hamilton Inc., McLean, Virginia (N6660421DN005); Sonalysts Inc., Waterford, Connecticut (N6660421DN006); Ultra Electronics Ocean Systems Inc., Braintree, Massachusetts (N6660421DN007); In-Depth Engineering Corp., Fairfax, Virginia (N6660421DN008); Sedna Digital Solutions LLC, Manassas, Virginia (N6660421DN009); Cardinal Engineering LLC, Annapolis, Maryland (N6660421DN010); Advanced Systems Supportability Engineering Technology and Tools Inc., Manassas, Virginia (N6660421DN011); and Venator Solutions LLC, San Diego, California (N6660421DN012), are each awarded a cost-plus-fixed-fee, cost only, and firm-fixed-price, indefinite-delivery/indefinite-quantity contract with a maximum dollar value for all 12 contracts combined of \$48,993,390 to design, develop, fabricate, test, install, analyze, document, and deliver rapid prototype solutions associated with products, systems, subsystems, support equipment, and associated capabilities. The location of the work to be performed will be determined by individual task orders and is expected to be completed by September 2026. Fiscal 2021 research, development, test and evaluation (Navy) funding in the amount of \$18,000 will be obligated at time of contract award and will not expire at the end of the current fiscal year. Each awardee will be awarded \$1,500 (minimum contract guarantee per awardee) at contract award. This multiple-award contract was competitively procured using full and open competition via the beta.sam.gov website with 12 acceptable offerors received. The Naval Undersea Warfare Center Division Newport, Newport, Rhode Island, is the contracting activity.

The Lockheed Martin Corp., Rotary and Mission Systems, Mitchell Field, New York, is awarded a \$45,943,764 cost-plus-incentive-fee and cost-plus-fixed-fee contract modification (P00031) to a previously awarded and announced contract (N00030-20-C-0045) for the U.S. and United Kingdom to provide Strategic Weapon System Trident Fleet Support, Trident II SSP Shipboard Integration (SSI) Increment 8, SSI Increment 16, Columbia-class and U.K. Dreadnought-class navigation subsystem development efforts. Work will be performed in Mitchell Field, New York (47%); Huntington Beach, California (36%); Clearwater, Florida (9%); Cambridge, Massachusetts (6%); and Hingham, Massachusetts (2%), with an expected completion date of November 30, 2023. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$38,900,389; fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$6,504,130; and fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$539,245 are anticipated to be available and will be obligated as they become available via contract modification. No funds will expire at the end of the current fiscal year. This contract was a sole-source acquisition in accordance with 10 U.S. Code 2304(c)(1) and (4). Strategic Systems Programs, Washington, D.C., is the contracting activity.

Northrop Grumman Systems Corp., Melbourne, Florida, is awarded a \$43,830,377 firm-fixed-price order (N0001921F0737) against a previously issued basic ordering agreement (N0001920G0005). This order procures various spare components in support of sustainment efforts for the Japan configuration of the E-2D Advanced Hawkeye aircraft (JAA1-JAA4) for the government of Japan. Work will be performed in Indianapolis, Indiana (54.5%); Melbourne, Florida (8.6%); St. Augustine, Florida (5.5%); Provo, Utah

(5.1%); Owego, New York (5%); Irvine, California (2.6%); Woodland Hills, California (1.8%); Kalamazoo, Michigan (1.4%); Rockford, Illinois (1.2%); Falls Church, Virginia (1.1%); and various locations within the continental U.S. (13.2%), and is expected to be completed in March 2027. Foreign Military Sales funds in the amount of \$43,830,377 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a \$33,358,615 firm-fixed-price, fixed-price incentive (firm target) modification (P00051) to a previously awarded contract (N0001917C0003). This modification adds scope to procure contractor furnished equipment for aircraft armament such as pylons for bomb racks and missile launchers with associated fittings, adaptors and mounting retainers, station controls units, air and fuel probes with suspension lugs, chaff dispenser units, feed through plates, and well covers in support of 18 F/A-18E/F aircraft for production Lot 42A. Work will be performed in Mesa, Arizona (54%); Clearwater, Florida (24%); El Segundo, California (8%); Forest, Mississippi (5%); St. Louis, Missouri (4%); Minneapolis, Minnesota (3%); Oceanside, California (1%); and Irvine, California (1%), and is expected to be completed in May 2025. Fiscal 2019 aircraft procurement (Navy) funds in the amount of \$33,358,615 will be obligated at time of award, all of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Northrop Grumman Systems Corp. - Marine Systems (NGSC-MS), Sunnyvale, California, is awarded a \$29,187,820 cost-plus-incentive-fee contract modification (P00009) to previously awarded contract (N00030-21-C-1010) to exercise an option line item for ongoing fiscal 2022 support of the Trident II (D5) deployed SSBN and the SSGN underwater launcher systems. NGSC-MS will provide technical engineering support and integration for D5, and SSGN attack weapon system. Work will be performed in Sunnyvale, California (52%); Bangor, Washington (18%); Kings Bay, Georgia (14%); Rocket Center, West Virginia (7%); Cape Canaveral, Florida (4%); St. Charles, Missouri (3%); and Camarillo, California (2%). The option year performance period is Oct. 1, 2021, to Sept. 30, 2022. No funds are being obligated with this contract modification. Subject to availability of funds, fiscal 2022 operation and maintenance (Navy) funds in the amount of \$29,187,820 will be obligated on this option line item. The funds will expire at the end of the 2022 fiscal year. The contract was not competitively procured. Strategic Systems Programs, Washington, D.C., is the contracting activity.

Design West Technologies Inc., Tustin, California, is awarded a \$24,408,265 firm-fixed-price contract for the manufacture, assembly, test and delivery of MK 5 Mod 2 and MK 6 Mod 1 launch sequencers and associated kitted material. The launch sequencers and kitted materials are subsystems and components of the MK 41 Vertical Launching System used on ships of the U.S. Navy and foreign navies. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$138,822,860. This contract combines purchases for the U.S. government (48%); and the governments of Australia (20%); Spain (17%); Germany (8%); Finland (5%); and the Republic of Korea (2%) under the Foreign Military Sales (FMS) program. Work will be performed in Tustin, California, and is expected to be completed by December 2023. If all options are exercised, work will continue through June 2029. Fiscal 2021 Foreign Military Sales in the amount of \$12,669,855 (52%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$4,997,350 (21%); fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$2,773,344 (11%); fiscal 2021 other procurement (Navy) funds in the amount of \$1,541,040 (6%); fiscal 2021 research, development, test and evaluation (Army) funds in the amount of \$1,386,672 (6%); and fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$1,040,004 (4%) will be obligated at time of award, of which funds in the amount of \$2,773,344 will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with four offers received. The Naval Surface Warfare Center Port Hueneme Division, Port Hueneme, California, is the contracting activity (N63394-21-C-0011).

Conti Federal Services Inc., Edison, New Jersey, is awarded a \$24,307,063 firm-fixed-price contract for construction of an F-35A flight simulator facility and F-35A squadron operations/aircraft maintenance unit facility at Naval Air Station-Joint Reserve Base, Fort Worth, Texas. This contract also contains six unexercised options which, if exercised, would increase the cumulative contract value to \$27,250,033.

Work will be performed in Fort Worth, Texas, and is expected to be completed by September 2023. Fiscal 2021 military construction (Air Force Reserve) funds in the amount of \$24,307,063 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with nine proposals received. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity (N69450-21-C-0038).

DuWright Construction Inc., San Diego, California (N62473-21-D-0604); Souza Construction Inc., Farmersville, California (N62473-21-D-0605); and Mesa Energy Systems Inc., Irvine, California (N62473-21-D-0606), are awarded combined-maximum-value \$20,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple-award construction contracts for demolition, repair, and replacement of various boilers and related systems and components at various facilities located on Marine Corps Base Camp Pendleton, California. Planned Task Order X001 will be issued in the amount of \$738,511 to DuWright Construction Inc., while \$5,000 will be awarded to Souza Construction Inc., and Mesa Energy Systems Inc., in order to satisfy the minimum guarantee. Work will be performed at Marine Corps Base Camp Pendleton, California, and is expected to be completed by September 2026. Fiscal 2021 operation and maintenance (Marine Corps) funds in the amount of \$748,511 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with three proposals received. The Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity.

American Rheinmetall Systems LLC, Biddeford, Maine, is awarded a \$19,986,969 firm-fixed-price contract for Rheinmetall-Oerlikon Searanger 20mm gun systems. This procurement includes production, spares, and training. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$20,201,487. This contract combines purchases for the Navy and the government of Egypt under the Foreign Military Sales program. Work will be performed in Biddeford, Maine (90%); and Egypt (10%), and is expected to be completed by March 2024. Foreign Military Sales (Egypt) in the amount of \$19,986,969 will be obligated at the time of award. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(4) — international agreement. The Naval Surface Warfare Center Indian Head Division, Indian Head, Maryland, is the contracting activity (N00174-21-C-0013).

Lockheed Martin Rotary and Mission Systems, Liverpool, New York, is awarded a \$17,822,389 firm-fixed-price modification to previously awarded contract N00024-17-C-5353 to exercise options for Advanced Off-Board Electronic Warfare (AOEW) System low rate initial production units. Work will be performed in Syracuse, New York (88%); Lansdale, Pennsylvania (10%); Stratford, Connecticut (1%); and Orlando, Florida (1%), and is expected to be completed by May 2024. Fiscal 2021 other procurement (Navy) funding in the amount of \$17,822,389 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington Navy Yard, Washington, D.C., is the contracting activity.

Entergy Louisiana LLC, Jefferson, Louisiana, is awarded a \$13,725,495 firm-fixed-price task order (N6945021F0677) under previously-awarded basic ordering agreement N69450-19-G-0103 to implement energy improvements at Naval Air Station-Joint Reserve Base New Orleans based on the findings of a preliminary assessment and investment grade audit. Work will be performed in Belle Chasse, Louisiana, and is expected to be completed by April 2023. Fiscal 2020 operation and maintenance (Navy) (energy reinvestment) funds in the amount of \$105,322 will be obligated at time of award and will not expire at the end of the current fiscal year. One proposal was received for this task order. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity.

Sealift Inc. of Delaware, Oyster Bay, New York (N3220521C4017), is awarded a \$12,775,000 option (P00007) for the fixed-price portion of a previously awarded firm-fixed-price contract with reimbursable elements to exercise a one-year option period for the operation and maintenance of the container ship MV SSG Edward Carter (T-AK 4544) to provide transportation and prepositioning of cargo in support of the Army's Prepositioned Stocks Afloat program. This contract includes a seven-month firm period of the performance, four one-year option periods and one two-month option period, which if exercised, would

bring the cumulative value of this contract to \$48,731,500. Work will be performed worldwide and is expected to be completed, if all options are exercised, by Nov. 15, 2025. Working capital funds (transportation) in the amount of \$12,775,000 are obligated for fiscal 2022, and will expire at the end of the fiscal year. This procurement was released under full and open competition with an unlimited number of companies solicited via beta.sam.gov website, with no offers received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Ultra Electronics Advanced Tactical Systems Inc., Austin, Texas, is awarded an \$11,618,288 hybrid firm-fixed-price/cost-reimbursable contract (N0003921C4003) for integration, testing, installation, training and on-site field service representatives to create a Common Operational Picture (COP) system in support of a U.S. security cooperation program for the Tunisian Armed Forces (TAF). In support of Joint Operations Command Center in Tunisia, the TAF will be supplied with the command and control (C2) system that will create a COP to provide integrated data from multiple sources to enhance the ability to securely share information across the Tunisia military within their country. This enhanced command, control, communications, computers and intelligence capability aligns with the U.S. Africa Command Theater Campaign Plan line of effort to enhance partner capability to improve security capacities of Tunisia, a strategic U.S. partner, ensuring a stronger defense against regional threats. The C2 system will also allow for joint interoperability with U.S. forces and meets U.S. cybersecurity requirements. This contract will be funded with Title 10 U.S. Code Section 333 Building Partner Capacity Case funds in the amount of \$11,618,288, which will be obligated at the time of award to fully fund the contract. The funds expire for obligation purposes fiscal 2021 and require the effort funded with this money to be completed within a two-year period of performance. Work will be performed in Austin, Texas; and various locations in Tunisia. Work is expected to be completed by September 2023. This sole-source contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1). The Naval Information Warfare Systems Command, San Diego, California, is the contracting activity.

Northrop Grumman Systems Corp., Melbourne, Florida, is awarded a \$9,066,370 cost-plus-fixed-fee order (N0001921F0113) against a previously issued basic ordering agreement (N0001920G0005). This order procures supplies and services for the integration and analysis of one channel of the Mobile User Objective System (MUOS) Satellite Communication capability for the E-2D Advanced Hawkeye aircraft platform for the Navy. The primary focus is to upgrade the ARC-210 from the RT-1939A to the RT-2036 with MUOS capability on the E-2D aircraft. Work will be performed in Melbourne, Florida (51.63%); Boulder, Colorado (14.98%); Liverpool, New York (14.39%); Menlo Park, California (10.39%); West Chester, Ohio (4.35%); and Cedar Rapids, Iowa (4.26%), and is expected to be completed in September 2024. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$9,066,370 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Combined Systems Inc., Jamestown, Pennsylvania, is awarded a \$9,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the MK 20 Mod 0 diversionary hand grenade. Work will be performed in Jamestown, Pennsylvania, and is expected to be completed by September 2026. Fiscal 2021 working capital (Navy) funds \$248,945 will be obligated at the time of award, of which \$248,945 will expire at the end of the current fiscal year. This contract was competed on the basis of full and open competition via the beta.sam.gov website and only one offer was received in response to the solicitation. Naval Surface Warfare Center, Crane Division, Crane, Indiana, is the contract activity (N0016421DJR81).

MaChis Mid-Atlantic Inc., Clinton, Maryland, is awarded an \$8,560,493 firm-fixed-price contract for the replacement of medium-voltage distribution transformers at Building 5085 Hull Shop at Naval Submarine Base, Kings Bay, Georgia. Work will be performed in Kings Bay, Georgia, and is expected to be completed by October 2023. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$8,560,493 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was procured as a sole-source 8(a) under the Small Business Administration and Department of Defense partnering agreement. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity (N69450-21-C-0041).

Trevet Bay West JV LLC, San Diego, California, is awarded a \$7,724,351 firm-fixed-price task order (N6247321F5147) under previously-awarded indefinite-delivery/indefinite-quantity, architect/engineer environmental services contract N62473-18-D-0202 to perform base-wide groundwater monitoring, operations and maintenance at Marine Corps Logistics Base Barstow. Work will be performed in Barstow, California, and is expected to be completed by September 2026. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$7,724,351 will be obligated at time of award and will not expire at the end of the current fiscal year. One proposal was received for this task order. The Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity.

September 28, 2021

Gilbane Federal, Concord, California (N69450-21-D-0056); Hensel Phelps Construction Co., Orlando, Florida (N69450-21-D-0057); The Korte Co., St. Louis, Missouri (N69450-21-D-0058); M. A. Mortenson Co., doing business as Mortenson Construction, Minneapolis, Minnesota (N69450-21-D-0059); RQ Construction LLC, Carlsbad, California (N69450-21-D-0060); Sauer Inc., Jacksonville, Florida (N69450-21-D-0061); and Walsh Federal LLC, Chicago, Illinois (N69450-21-D-0062), are awarded a combined-maximum-value \$900,000,000 indefinite-delivery/indefinite-quantity design-build and design-bid-build multiple-award construction contract for construction projects located primarily within the Naval Facilities Engineering Systems Command (NAVFAC) Southeast area of operations. Each awardee is awarded \$1,000 to satisfy the guaranteed minimum. No task orders are being issued at this time. Work will be performed in Florida (15%); Georgia (15%); Louisiana (14%); Mississippi (14%); South Carolina (14%); Tennessee (14%); and Texas (14%), and is expected to be completed by September 2026. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$7,000 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the sam.gov website, with 34 proposals received. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a \$344,567,300 modification (P00017) to a previously awarded, firm-fixed-price, indefinite-delivery/indefinite-quantity contract (N0001916D1002). This modification increases the contract ceiling to procure up to a maximum quantity of 24,000 additional Precision Laser Guidance Sets in support of the Laser Joint Direct Attack Munition program for Navy, Air Force and Foreign Military Sales customers. Work will be performed in Fort Worth, Texas (68.23%); Cincinnati, Ohio (10.1%); St. Louis, Missouri (9.38%); Odessa, Missouri (4.37%); Simpsonville, South Carolina (4.03%); Minneapolis, Minnesota (1.68%); and various locations within the continental U.S. (2.21%), and is expected to be completed in February 2025. No funds will be obligated at time of award; funds will be issued against individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a \$220,000,000 cost-plus-incentive-fee order (N0001921F0886) against a previously issued basic ordering agreement N0001921G0006. This order provides non-recurring engineering in support of configuration efforts for the Harpoon Coastal Defense System (HCDS), to include the Harpoon Block II Update Grade B Canister Launch All Up Round Missiles, the HCDS launch system, and Harpoon weapon station test and production equipment for the government of Taiwan. Work will be performed in McKinney, Texas (19.1%); Sioux Falls, South Dakota (9.6%); Pontiac, Michigan (7.8%); Middletown, Connecticut (7.6%); Elkton, Maryland (3.1%); St. Louis, Missouri (2.2%); Grove, Oklahoma (2.1%); Galena, Kansas (1.7%); Saint Charles, Missouri (1.5%); Huntsville, Alabama (1%); various locations within the continental U.S. (44.23%); and various locations outside the continental U.S. (0.07%), and is expected to be completed in July 2023. Foreign Military Sales customer funds in the amount of \$107,800,000 will be obligated at time of award, none of which will expire at the end of the fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Black Construction Corp., Harmon, Guam, is awarded a \$122,134,480 firm-fixed-price contract for the construction of a machine gun range at the Northwest Field, Andersen Air Force Base, Guam. The work to be performed provides for the construction of a multi-lane multi-purpose machine gun range, a range

control tower, ammunition distribution point, and covered bleachers. The work also includes utilities, site work and incidental related work. The option, if exercised, provides for the furniture, fixtures, and equipment. The contract also contains one unexercised option, which if exercised would increase cumulative contract value to \$122,137,732. Work will be performed in Yigo, Guam, and is expected to be completed by October 2024. Fiscal 2020 military construction (Navy) contract funds in the amount of \$122,134,480 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the Navy Electronic Commerce Online and Federal Business Opportunities website with three proposals received. The Naval Facilities Engineering Systems Command, Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-21-C-1346).

Raytheon Co., Tucson, Arizona, was awarded a \$105,848,728 cost-plus-fixed-fee and cost-only contract for engineering and technical services in support of the Evolved Seasparrow Missile and NATO Seasparrow Missile Systems programs. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$362,447,752. This contract combines purchases for the Navy (96%); and the governments of Japan (1%); Thailand (1%); United Arab Emirates (1%); and the Republic of Korea (1%) under the Foreign Military Sales (FMS) program. Work will be performed in Tucson, Arizona (73%); Portsmouth, Rhode Island (26%); Andover, Massachusetts (less than 1%); San Jose, California (less than 1%); Aranjuez, Spain (less than 1%); Brisbane, Australia (less than 1%); and Koropi Attica, Greece (less than 1%). Work is expected to be completed by December 2021. If all options are exercised, work will continue through December 2025. Fiscal 2021 other customer funds in the amount of \$11,280,119 (62%); fiscal 2021 operation and maintenance (Navy) funds in the amount of \$3,746,831 (20%); fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$1,503,592 (8%); fiscal 2021 other procurement (Navy) funds in the amount of \$713,373 (4%); fiscal 2020 other customer funds in the amount of \$301,080 (2%); fiscal 2019 other customer funds in the amount of \$149,250 (1%); FMS Japan funds in the amount of \$100,000 (1%); FMS Thailand funds in the amount of \$46,966 (1%); and FMS United Arab Emirates funds in the amount of \$46,966 (1%) will be obligated at time of award, of which funding in the amount of \$3,746,831 will expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(4) — international agreement between the U.S. and a foreign government or international organization. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-C-5434). (Awarded Sept. 23, 2021)

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is awarded a \$77,080,643 cost-plus-incentive-fee contract modification to previously awarded contract N00024-17-C-6259 to exercise an option for engineering design and development. Work will be performed in Manassas, Virginia (65%); Clearwater, Florida (32%); Syracuse, New York (2%); and Marion, Florida (1%), and is expected to be completed by December 2022. Fiscal 2021 other procurement (Navy) funds in the amount of \$875,676 will be obligated at time of award and not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$67,080,606 cost-plus-incentive-fee contract. This contract exercises options to procure repair and replenishment of parts and consumables for the F-35 aircraft in support of the Air Force, non-U.S. Department of Defense (DOD) participants and Foreign Military Sales (FMS) customers. Work will be performed in Fort Worth, Texas (57%); Orlando, Florida (26%); Greenville, South Carolina (11%); Sarnesbury, United Kingdom (4%); and El Segundo, California (2%), and is expected to be completed in December 2021. Fiscal 2021 operation and maintenance (Air Force) funds in the amount of \$43,037,021; non-U.S. DOD participant funds in the amount of \$14,306,814; and FMS funds in the amount of \$9,736,771 will be obligated at time of award, \$43,037,021 of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1(a)(ii). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921C0020).

U.S. Marine Management Inc., Norfolk, Virginia (N3220517C3000), is awarded a \$39,580,180 modification (P00156) for the fixed-price portion of a previously awarded contract to fund the operation

and maintenance of seven USNS Bob Hope-class surge large, medium-speed roll-on/roll-off vessels: USNS Bob Hope (T-AKR 300); USNS Fisher (T-AKR 301); USNS Seay (T-AKR 302); USNS Mendonca (T-AKR 303); USNS Pililaau (T-AKR 304); USNS Brittin (T-AKR 305); and USNS Benavidez (T-AKR 306). This modification awards the fourth one-year option period. This contract includes a 12-month base period, four 12-month option periods and a six-month option under Defense Federal Acquisition Regulation 52.217-8. The ships will continue to support Military Sealift Command's worldwide prepositioning requirements. Work will be performed at sea worldwide with the base contract beginning on Oct. 1, 2017. Work is expected to be completed, if all options are exercised, by March 31, 2023. Working capital contract funds (Navy) in the amount of \$18,128,400; and working capital funds (Transportation) in the amount of \$21,451,780, totaling \$39,580,180, are obligated for fiscal 2022, covering the 12-month option period's daily operating hire, and will not expire at the end of the current fiscal year. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220517C3000).

Lockheed Martin Corp., Owego, New York, is awarded a \$20,830,000 firm-fixed-price order (N0001921F0127) against a previously issued basic ordering agreement (N0001919G0029). This order provides non-recurring engineering and field service representative support in support of configuration efforts for four MH-60R aircraft from standard Foreign Military Sales (FMS) configuration to the government of Greece configuration. Work will be performed in Owego, New York (70%); Kotroni, Marathon, Greece (19%); and Stratford, Connecticut (11%), and is expected to be completed in September 2027. FMS funds in the amount of \$20,830,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Fort Worth, Texas, is awarded a \$20,714,071 cost reimbursable order (N0001921F0361) against a previously issued basic ordering agreement (N0001919G0008). This order provides non-recurring engineering in support of redesign efforts for the Organic Light Emitting Diode Helmet Display Unit in support of the F-35 aircraft for Navy, Air Force, Marine Corps and non-U.S. Department of Defense (DOD) participant customers. Work will be performed in Wilsonville, Oregon (70%); and Fort Worth, Texas (30%), and is expected to be completed in January 2024. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$8,487,448; fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$8,487,447; and non-U.S. DOD participant funds in the amount of \$3,739,176 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

II Corps Consultants Inc., Fredericksburg, Virginia, is awarded a \$19,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for technical, analytical, and programmatic support for the U.S. Marine Corps Training and Education Command Sergeants School, Career School, Advanced School, and the Faculty Advisors Course. This support will implement and sustain mission capabilities through execution of critical requirements derived from a comprehensive communications program. This contract includes one six-month option period, which, if exercised, could bring the cumulative value of this contract to \$20,500,000. Work will be performed at Quantico, Virginia (42%); Camp Lejeune, North Carolina (14%); Twentynine Palms, California (14%); Okinawa, Japan (14%); Camp Pendleton, California (8%); and Kaneohe Bay, Hawaii (8%). Work is expected to be completed Sept. 29, 2026. If all options are exercised, work will continue through March 29, 2027. Fiscal 2021 operation and maintenance (Marine Corps) funds in the amount of \$2,545,572 are obligated at the time of award on task orders one and two and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with five proposals received. The Marine Corps Installations National Capital Region-Regional Contracting Office, Quantico, Virginia, is the contracting activity (M00264-21-D-0007).

The Boeing Co., Huntington Beach, California, is awarded a \$17,343,616 cost-plus-incentive-fee and cost-plus-fixed-fee level of effort contract modification (P00012) to a previously awarded and announced contract (N00030-21-C-6002) for the U.S. and United Kingdom to provide Strategic Weapon System Trident II (D5) Inertial Navigation equipment technical engineering support services. Work will be performed at Huntington Beach, California (63%); and Heath, Ohio (13%), along with field engineering

conducted at Puget Sound, Washington (4%); Heath, Ohio (4%); Mitchell Field, New York (4%); Norfolk, Virginia (4%); Kings Bay, Georgia (4%); Port Canaveral, Florida (2%); and Faslane, Scotland (2%). Work is expected to be completed Sept. 30, 2022 (inclusive of all option periods). Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$17,343,616 are anticipated to be available and will be obligated as they become available via contract modification. No funds will expire at the end of the current fiscal year. This contract was a sole-source acquisition in accordance with 10 U.S. Code 2304(c)(1) and (4). Strategic Systems Programs, Washington, D.C., is the contracting activity.

DynCorp International LLC, Fort Worth, Texas, is awarded a \$15,927,353 modification (P00066) to a previously awarded firm-fixed-price, cost-plus-fixed-fee, cost reimbursable contract (N0042117C0033). This modification increases the ceiling to continue to provide organizational level aircraft maintenance and logistics support on all aircraft and support equipment for which the Naval Test Wing Atlantic has maintenance responsibility, to include aircraft on-site for project testing, transient aircraft, loaner aircraft, leased aircraft, and civilian aircraft tested at the Naval Air Warfare Center Aircraft Division. Additionally, this modification provides support services to perform supportability/safety studies on various aircraft and weapons systems, off-site aircraft safety/spill containment patrols and aircraft recovery services. Work will be performed in Patuxent River, Maryland, and is expected to be completed in March 2022. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$872,000; and fiscal 2021 working capital (Navy) funds in the amount of \$373,593 will be obligated at the time of award, \$1,245,593 of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

Bell Boeing Joint Project Office, Amarillo, Texas, is awarded a \$15,373,444 cost-plus-fixed-fee order (N0001921F0805) against a previously issued basic ordering agreement (N0001917G0002). This order provides systems engineering, technical, logistics support and retrofit of the Miniaturized Airborne Global Positioning System Receiver 2000 for integration onto the V-22 Osprey aircraft. Work will be performed in Ridley Park, Pennsylvania (95%); and Amarillo, Texas (5%), and is expected to be completed in November 2024. Fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$3,000,000; and fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$800,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Falconwood Inc., Arlington, Virginia, is awarded a \$12,854,809 contract (N00039-21-C-0037) for engineering and logistics support services for Program Executive Office (PEO) Digital, and PEO Manpower, Logistics and Business Solutions. This is a bridge contract for efforts that are currently being performed under SeaPort-e task order N00178-14-D-7716/N0003917F3002. This contract contains a base period of performance of three months with no option periods. The total cumulative value of this contract is an estimated \$12,854,809. Work will be performed in various locations within and outside the U.S. Work is expected to be completed by December 2021. Operation and maintenance (Navy); and research, development, test and evaluation (Navy) funds in the amount of \$8,423,518 will be obligated at award, \$7,130,847 of which will expire at the end of the current fiscal year. The contract is a hybrid contract with cost-plus-fixed-fee and cost-only contract line item numbers. This contract does not include any options. This contract was not competitively procured because it is a sole-source acquisition pursuant to the authority of 10 U.S. Code 2304(d)(1)(B) and Defense Federal Acquisition Regulation 6.302-1 — follow-on contract for the continued provision of highly specialized services. The Naval Information Warfare Systems Command, San Diego, California, is the contracting activity.

AECOM Technical Services Inc., Los Angeles, California, is awarded a \$12,661,824 cost-plus-award-fee modification to task order N6274218F0126 under an indefinite-delivery/indefinite-quantity contract for investigation and remediation of releases, and groundwater protection and evaluation for Red Hill Bulk Fuel Storage Facility, Joint Base Pearl Harbor-Hickam, Hawaii. The work to be performed under this modification provides supplemental work required by the regulators, such as, a pilot continuous soil gas monitoring system under several tanks; continued groundwater and drinking water sampling and evaluation; installation of three monitoring wells; additional groundwater modeling; continued groundwater tracer/in-well test; release response sampling and analysis; associated documents; and support for

required meetings. Work will be performed in Oahu, Hawaii, and is expected to be completed by January 2024. Working capital (Department of Defense) funds in the amount of \$12,661,824 are obligated on this award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-17-D-1800).

E.A.S. Manufacturing Co., Inc., Camarillo, California, is awarded an \$11,968,246 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides for the production, delivery and installation of the Aircraft Launcher Interface Computer (ALIC) chassis and associated mechanical assemblies to include 649 ALIC chassis units; 64 chassis units; one ALIC chassis first article unit; and one chassis first article unit in support of the functional interface between the F-15/F-16 aircraft and the AGM-88 High-Speed Anti-Radiation Missile for Foreign Military Sales customers. Work will be performed in Camarillo, California, and is expected to be completed in September 2026. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; one offer was received. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity (N6893621D0042).

The Boeing Co., Huntington Beach, California, is awarded an \$11,349,379 cost-plus-fixed-fee modification to previously awarded contract N00024-17-C-6307 to exercise options for engineering support services in support of the Extra Large Unmanned Undersea Vehicle program. Work will be performed in Huntington Beach, California (65%); Cockeysville, Maryland (20%); and Herndon, Virginia (15%), and is expected to be completed by September 2022. Fiscal 2020 research, development, test and evaluation (Navy) in the amount of \$16,749 (1%) will be obligated at time of award and will expire at the end of the current fiscal year. Fiscal 2021 research, development, test and evaluation (Navy) in the amount of \$3,077,761 (99%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Complete Parachute Solutions, Deland, Florida, is awarded a \$10,730,214 firm-fixed-price modification to previously awarded contract M00264-18-C-0007 to exercise Option Year Four for the Multi-Mission Parachute Course. The Multi-Mission Parachute Course provides training and technical support for all military free-fall training to ensure compliance with all Federal Aviation Administration regulations and Marine Corps orders to safely meet the Marine Corps Training Input requirements. Work will be performed in Coolidge, Arizona, with an expected completion date of September 2022. Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$10,730,214 are obligated at the time of award and will not expire at the end of the current fiscal year. The Marine Corps Installation National Capital Region - Regional Contracting Office, Quantico, Virginia, is the contracting activity.

BAE Systems Technology Solutions and Services Inc., doing business as BAE Systems, Rockville, Maryland, is awarded a \$10,353,325 firm-fixed-price contract modification P00008 under previously awarded contract N00604-18-C-4001 to exercise Option Period Four for munitions handling and management services which include receiving, storing, segregating, issuing, inspecting and transporting various types of ammunition, explosives, expendable and technical ordnance material and weapons for joint service commands. The contract included a nine-month base period and four 12-month option periods. The exercise of this final option will bring the estimated value of the contract to \$45,804,396. All work will be performed in Ewa Beach, Hawaii, and is expected to be completed by September 2022. Fiscal 2022 operation and maintenance funds (Navy) in the full amount of \$10,353,325 will be obligated at time of award, and funds will not expire before the end of the current fiscal year. This contract was competitively procured with the solicitation posted to the Federal Business Opportunities and Navy Electronic Commerce Online websites, with two offers received. Naval Supply Systems Command Fleet Logistics Center, Pearl Harbor, Hawaii, is the contracting activity.

General Atomics, San Diego, California, is awarded a \$9,632,523 firm-fixed-price modification (P00068) to a previously awarded contract (N0001914C0037). This modification provides for the procurement, installation and checkout of two production shipsets. The production shipsets consist of 140 Generation 3 configuration position sensor blocks for CVN 79 and CVN 80. Additionally, this effort updates the

purchase cable drum (PCD) -05 configuration for CVN 79, and procures one PCD-07 configuration for CVN 80. Work will be performed in Newport News, Virginia (66%); San Diego, California (13%); and Tupelo, Mississippi (21%), and is expected to be completed in January 2026. Fiscal 2021 shipbuilding conversion (Navy) funds in the amount of \$4,344,986; fiscal 2021 other procurement (Navy) funds in the amount of \$237,934; and fiscal 2018 shipbuilding conversion (Navy) funds in the amount of \$4,973,550 will be obligated at time of award, \$237,934 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Bell Boeing Joint Project Office, Amarillo, Texas, is awarded an \$8,947,039 cost-plus-fixed-fee order (N0001921F0057) against a previously issued basic ordering agreement (N0001917G0002). This order provides for the design and development of a replacement keyboard unit for the V-22 control display unit due to functional obsolescence in support of the V-22 Flight Control System redesign. Work will be performed in Tempe, Arizona (74%); Ridley Park, Pennsylvania (22%); and Fort Worth, Texas (4%), and is expected to be completed in December 2023. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$5,160,016; fiscal 2021 research, development, test and evaluation (Air Force) funds in the amount of \$358,037; fiscal 2020 research, development, test and evaluation (Navy) funds in the amount of \$1,184,266; and Foreign Military Sales funds in the amount of \$845,904 will be obligated at the time of award, \$1,184,266 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

DRS Systems Inc., Melbourne, Florida, is awarded an \$8,544,157 cost-plus-incentive-fee, firm-fixed-price, cost modification (P00003) to a previously awarded contract (N0001920C0041). This modification adds scope and exercises an option to provide non-recurring engineering to design, develop, integrate and test engineering development models and production representative models of Weapons Replaceable Assemblies (WRA) for the AN/AAQ-45 Distributed Aperture Infrared Countermeasure system and repair of repairables of WRA assets. Work will be performed in Dallas, Texas (72%); San Diego, California (19%); Fort Walton Beach, Florida (8%); and Melbourne, Florida (1%), and is expected to be completed in June 2024. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$1,928,780 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

September 27, 2021

The Boeing Co., Seattle, Washington, is awarded a \$756,634,580 fixed-price-incentive-fee modification (P00203) to a previously awarded contract (N0001914C0067). This modification exercises an option for the production and delivery of five Lot 12 P-8A aircraft for the government of Germany. Work will be performed in Seattle, Washington (98.15%); Huntington Beach, California (1.19%); and various locations within the continental U.S. (0.66%), and is expected to be completed in February 2025. Foreign Military Sales funds in the amount of \$756,634,580 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Bell Boeing Joint Project Office, Amarillo, Texas, is awarded a \$214,394,944 cost-plus-incentive-fee order (N0001921F0327) against a previously issued basic ordering agreement (N0001917G0002). This order provides for the redesign and development of the V-22 Flight Control System, to include the flight control computer, cockpit interface unit and associated test equipment due to functional obsolescence, cybersecurity initiatives, and diminishing manufacturing sources and material shortages. Work will be performed in Ridley Park, Pennsylvania (54.92%); Endicott, New York (41.53%); Fort Worth, Texas (3.29%); and various locations within the continental U.S. (0.26%), and is expected to be completed in June 2026. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$26,974,249; and fiscal 2021 research, development, test and evaluation (Air Force) funds in the amount of \$3,924,090 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Raytheon Missiles & Defense, Tucson, Arizona, is awarded a not-to-exceed \$138,958,876 firm-fixed-price, indefinite-delivery/indefinite-quality contract for the repair/overhaul, upgrades, procurement and mini-stock point support for components in support of the Close-In Weapon System program. The contract will include a three-year base period with no options. All work will be performed in Louisville, Kentucky, and work is expected to be completed by September 2024. Annual working capital funds (Navy) in the amount of \$44,202,835 will be issued for delivery order (N00383-21-F-0ZM0) that will be awarded concurrently with the contract and will initially be obligated at the time of award as an undefinitized contract action. Funds will not expire at the end of the current fiscal year. One company was solicited for this non-competitive requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-21-D-ZM01).

Rolls-Royce Corp., Indianapolis, Indiana, is awarded a \$105,601,670 modification (P00007) to a previously awarded, firm-fixed-price, indefinite-delivery requirements contract (N6134019D0004). This modification increases scope and provides intermediate and depot level maintenance, logistics and engineering support for 216 in-service T-45 F405-RR-401 Adour engines. Work will be performed in Meridian, Mississippi (47%); Kingsville, Texas (46%); Pensacola, Florida (6%); and Patuxent River, Maryland (1%), and is expected to be completed in March 2022. No funds will be obligated at time of award; funds will be issued against individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Nicklaus AMEC JV, San Diego, California, is awarded a maximum-value \$100,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity architect-engineering contract for stormwater, incidental groundwater, wastewater, and potable water compliance and management services primarily in the Naval Facilities Engineering Systems Command (NAVFAC) Southwest area of responsibility (AOR). No task orders are being issued at this time. Work will be performed at various Navy and Marine Corps facilities and at other government facilities in locations including, but not limited to, California (75%); Arizona (10%); Nevada (5%); the NAVFAC Atlantic AOR (U.S. East Coast installations) (5%); New Mexico (1%); Colorado (1%); Utah (1%); the NAVFAC Northwest AOR (U.S. Pacific Northwest) (1%); and the NAVFAC Pacific AOR (U.S. West Coast and Pacific) (1%), and is expected to be completed by September 2026. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$5,000 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the Navy Electronic Commerce Online website and the Federal Business Opportunities website, with four proposals received. The Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity (N62473-21-D-1816).

Alion Science and Technology Corp., Norfolk, Virginia (N6893621D0027); Amentum Services Inc., Germantown, Maryland (N6893621D0028); Booz Allen Hamilton Inc., McLean, Virginia (N6893621D0029); Dynetics Inc., Huntsville, Alabama (N6893621D0030); Jacobs Technology Inc., Fort Walton, Florida (N6893621D0031); Saalex Solutions, Camarillo, California (N6893621D0032); Science Applications International Corp., Reston, Virginia (N6893621D0033); Scientific Research Corp., Atlanta, Georgia (N6893621D0034); and Zenetex, Herndon, Virginia (N6893621D0035), are awarded an aggregate ceiling \$92,988,452 cost-plus-fixed-fee, firm-fixed-price, indefinite-delivery/indefinite-quantity contract. These contracts provide research and development, engineering, integration, test, cybersecurity, upgrade, and sustainment for various tactical threat systems in support of improving aircrew lethality and survivability for the Navy. The companies have an opportunity to compete for individual orders. Work will be performed at China Lake, California, and is expected to be completed in September 2026. No funds will be obligated at the time of award. Funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; nine offers were received. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity.

CCI Utility and Construction Services LLC, Honolulu, Hawaii (N62478-20-D-4008); Dawson Enterprises LLC, Honolulu, Hawaii (N62478-20-D-4009); GSI North America Inc., Honolulu, Hawaii (N62478-20-D-4010); International Construction Inc., Kaaawa, Hawaii (N62478-20-D-4011); and Silver Mountain

Construction LLC, Hagatna, Guam (N62478-20-D-4012), are awarded a combined \$80,000,000 firm-fixed-price modification to increase the maximum dollar value of an indefinite-delivery/indefinite-quantity, multiple award, design-build/design-bid-build construction contract for construction projects located primarily within the Naval Facilities Engineering Systems Command (NAVFAC) Hawaii area of operations (AO). The work to be performed provides for but is not limited to labor, supervision, tools, materials and equipment necessary to perform new construction, repair, alteration and related demolition of existing infrastructure based on design-build, or design-bid-build (full plans and specifications) for infrastructure within the state of Hawaii. Work will be performed in Hawaii at various Navy, Marine Corps, Air Force, and miscellaneous federal and other facilities in the NAVFAC Hawaii AO. Work is expected to be completed by April 2023. Task orders will be primarily funded by operation and maintenance (Navy) funds. No task orders are being issued at this time. No funds will be obligated at time of award. Funds will be obligated on individual task orders as they are issued. After award of this modification, the total cumulative contract value will be \$178,000,000. NAVFAC Hawaii, Pearl Harbor, Hawaii, is the contracting activity.

Excet Inc., Springfield, Virginia, is awarded a \$75,660,000 indefinite-delivery/indefinite-quantity contract for the requirement entitled "Research, Development, Test and Evaluation Support for Naval Research Laboratory's Center for Corrosion Science and Engineering." The contractor will conduct scientific, engineering, technical, and analytical research and development for the Navy's corrosion mitigation, coatings, environmental and prevention programs. Work will be performed in Key West, Florida (60%); and Washington, D.C. (40%). The ordering period for this contract is five years with the last order expected to be issued on or before September 2026. The total cumulative face value of this contract is \$75,660,000. No funds will be obligated at the time of award; funds will be obligated on individual task orders as they are issued. Future task orders will be funded with Fiscal 2021 through 2026 research, development, test and evaluation (Navy) funds; and working capital funds (Navy). This contract was competitively procured after exclusion of sources under request for proposal N00173-21-R-ZL01; one proposal was received. The Naval Research Laboratory, Washington, D.C., is the contracting activity (N00173-21-D-2002).

Brantley Construction Co. LLC, Charleston, South Carolina (N69450-19-D-0916); CCI Group LLC, Shalimar, Florida 32579 (N69450-19-D-0917); The Clement Group LLC, Montgomery, Alabama (N69450-19-D-0918); EG Designbuild LLC, Germantown, Maryland (N69450-19-D-0919); GCB JV1, Pensacola, Florida (N69450-19-D-0920); U-SMC DeMaria JV1 LLC, Jacksonville, Florida (N69450-19-D-0921); and Windamir Development Inc., McDonough, Georgia (N69450-19-D-0922), are awarded a combined \$63,400,000 firm-fixed-price modification to increase the combined cumulative maximum dollar value of all seven indefinite-delivery/indefinite-quantity multiple award contracts for construction projects located within the Naval Facilities Engineering Systems Command (NAVFAC) Southeast area of operations. The work to be performed provides for general building type projects (new construction, renovation, alteration, demolition, and repair work) including aviation and aircraft, marine, barracks and personnel housing, administrative, warehouses and supply, training, personnel support and service, and security level facilities. After award of this modification, the total cumulative contract value for all seven contracts combined will be \$258,400,000. Work will be performed in Florida (50%) and Georgia (50%). The term of the contracts is not to exceed 60 months with an expected completion date of August 2024. No funds will be obligated at time of award. Future task orders will be primarily funded by military construction (Navy) funds, and operation and maintenance (Navy) funds. NAVFAC Southeast, Jacksonville, Florida, is the contracting activity.

Federal Construction Group Inc., Bloomington, Indiana (N40085-21-D-0108); Harrell Contracting Inc., Worthington, Indiana (N40085-21-D-0109); Mastercraft Mechanical Contractors Inc., Odon, Indiana (N40085-21-D-0110); Maven Construction and Environmental LLC, Odon, Indiana (N40085-21-D-0111); and McIntyre Brothers, Bedford, Indiana (N40085-21-D-0112), are awarded a combined \$60,000,000 indefinite-delivery/indefinite-quantity multiple award construction contract for minor construction, renovation, and repair projects at Naval Support Activity Crane, and Glendora Test Facility. The work to be performed provides for minor construction, renovation, and repairs and the contractor shall furnish all labor, supervision, management, materials, supplies, equipment, tools, and transportation to perform all work associated with various construction, renovation, or repair projects.

Maven Construction and Environmental LLC is awarded initial task order at \$193,465 for work on the Naval Surface Warfare Center Building 3259, Avionics Weapon Depot Repair Lab. Work for this task order is expected to be completed by March 2022. All work on this contract will be performed in Indiana. The term of the contract is not to exceed 60 months with an expected completion date of September 2026. Fiscal 2021 Navy working capital funds (NWCF); and non-appropriated funds (continental U.S.) in the amount of \$203,465 are obligated on this award and will not expire at the end of the current fiscal year. Future task orders will be primarily funded by military construction (Navy); operation and maintenance (Navy); and NCWF. This contract was competitively procured via the beta.sam.gov website with eight proposals received. These five contractors may compete for task orders under the terms and conditions of the awarded contract. The Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

DRS Naval Power Systems Inc., Menomonee Falls, Wisconsin, is awarded a \$57,868,470 indefinite-delivery/indefinite-quantity, firm-fixed-price contract (for supplies), with a cost-plus-fixed-fee line item (for minor support/installation services) in support of the effort to upgrade amphibious (LSD, LCC, LPD and LHD) class ship's switchboards main circuit breakers as part of an ongoing modernization program. This requirement is for the procurement of 2000A (85kA and 100kA); 3200A (85kA); and 4000A (100kA) circuit breakers, and will include a line item for minor support services to provide oversight and assistance with installation and operational testing. The period of performance of this contract is 72 months, with a 60-month ordering period. Work will be performed in Milwaukee, Wisconsin (30%); Belmont, North Carolina (10%); Bohemia, New York (10%); Norfolk, Virginia (25%); and San Diego, California (25%), and is expected to be completed by September 2027. Fiscal 2021 other procurement (Navy) funds in the amount of \$6,886,900 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with one offer received. The Naval Surface Warfare Center Philadelphia Division (NSWCPD), Philadelphia, Pennsylvania, is the contracting activity (N64498-21-D-4052).

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$48,277,913 firm-fixed-price order (N0001921F0398) against a previously issued basic ordering agreement (N0001919G0008). This order procures ancillary mission equipment in support of Lot 15 F-35 Joint Strike Fighter production aircraft for the Navy and Marine Corps. Work will be performed in Fort Worth, Texas, and is expected to be completed in December 2024. Fiscal 2019 aircraft procurement (Navy) funds in the amount of \$48,277,913 will be obligated on this award, all of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Huntington Ingalls Industries' Newport News Shipbuilding Division, Norfolk, Virginia, is awarded a \$36,046,520 cost-plus-fixed-fee modification to previously awarded contract N00024-19-C-2100 to exercise options for engineering, technical, design agent, and Hull Planning Yard support for the Navy's operational aircraft carrier fleet. Work will be performed in Newport News, Virginia, and is expected to complete September 2023. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$1,619,897 (41.93%); fiscal 2021 other procurement (Navy) funds in the amount of \$1,327,023 (34.35%); fiscal 2020 other procurement (Navy) funds in the amount of \$500,168 (12.95%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$242,872 (6.29%); fiscal 2019 other procurement (Navy) funds in the amount of \$120,071 (3.11%); and fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$53,019 (1.37%) will be obligated at time of award, and \$1,740,000 will expire at the end of the fiscal year. In accordance with 10 U.S. Code 2304 (c)(1), this contract was not competitively procured — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

RQ Construction LLC, Carlsbad, California, is awarded a \$34,023,354 firm-fixed-price contract for construction of P4638 Ambulatory Care Center, Camp Geiger, North Carolina; and P4639 Ambulatory Care Center, Camp Johnson, North Carolina. Work will be performed at Camp Lejeune, North Carolina, and is expected to be completed by July 2024. Fiscal 2021 military construction (Marine Corps) funds in the amount of \$34,023,354 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with five proposals

received. The Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-20-D-0034).

Skookum Educational Programs, Bremerton, Washington, is awarded a \$32,122,732 indefinite-delivery/indefinite-quantity modification to exercise Option Four under a contract for base operating support (BOS) services at various installations in the Naval Facilities Engineering Systems Command (NAVFAC) Northwest area of operations (AO). The work to be performed provides for all management and administration, facilities management and investment, pest control, integrated solid waste, pavement clearance, utilities management, base support vehicles and equipment, and environmental services for BOS services. After award of this option, the total cumulative contract value will be \$168,464,279. This option period is from October 2021 to September 2022. Work will be performed at various installations in the NAVFAC Northwest AO, including but not limited to, Washington (90%); Alaska (1%); Idaho (1%); Iowa (1%); Minnesota (1%); Montana (1%); Nebraska (1%); North Dakota (1%); Oregon (1%); South Dakota (1%); and Wyoming (1%). Fiscal 2022 operation and maintenance (Navy) contract funds in the amount of \$32,122,732 will be obligated on individual task orders issued during the option period. No funds will be obligated at time of award. The contract was awarded under the AbilityOne program, Defense Federal Acquisitions Regulations Part 8.7, Acquisition from Non Profit Agencies Employing People Who Are Blind or Severely Handicapped. NAVFAC Northwest, Silverdale, Washington, is the contracting activity (N44255-17-D-4039).

Raytheon Missiles & Defense, Tucson, Arizona, is awarded a \$25,382,157 firm-fixed-price modification to previously awarded contract N00024 17-C-5420 to procure Standard Missile-2 (SM-2) Zumwalt-class spares, deliver and install MK 698 guidance missile test set (GMTS), and MK 698 GMTS spare parts/material. This contract combines purchases for the Navy (6%); and the governments of Spain, Japan, Taiwan, Germany, Australia, and the Netherlands (94%) under the Foreign Military Sales (FMS) program. Work will be performed in Tucson, Arizona (90%); and El Ferrol, Spain (10%), and is expected to be completed by January 2025. FMS Spain funds in the amount of \$16,553,801 (65%); FMS Japan funds in the amount of \$5,292,631 (21%); fiscal 2021 weapons procurement (Navy) funds in the amount of \$1,536,464 (6%); FMS Taiwan funds in the amount of \$778,272 (3%); FMS Germany funds in the amount of \$703,917 (3%); FMS Australia funds in the amount of \$272,046 (1%); and Memorandum of Understanding (Netherlands) funds in the amount of \$245,026 (1%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Goodwill Industries of Southeastern Wisconsin, Greendale, Wisconsin, is awarded a \$21,764,531 modification (P00034) to the previously awarded firm-fixed-price contract N00189-18-CZ053 to provide food and logistics support services which will also include financial management and administrative support of areas such as galley and uniform issue operations, galley equipment maintenance and repairs, traffic material movement operations, and affiliated warehousing and storeroom management functions in support of the Recruit Training Command, located at Naval Station Great Lakes, Great Lakes, Illinois. This modification will bring the estimated cumulative value of the total contract value to \$364,496,923. The contract included a one-year base period and nine one-year option periods which if exercised, the total estimated value of this contract will be \$865,423,627. All work will be performed in Great Lakes, Illinois, and work is expected to be completed by September 2022. If all options are exercised, work will be completed by September 2028. Subject to the availability of funds, at time of award, Fiscal 2022 military personnel (Navy) funds in the amount of \$13,500,000; and fiscal 2022 operation and maintenance (Navy) funds in the amount of \$4,102,670 will be incrementally funded, and will not expire at the end of the current fiscal year. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department Philadelphia Office, Philadelphia, Pennsylvania, is the contracting activity.

The Whiting-Turner Contracting Co., Greenbelt, Maryland, is awarded a \$21,007,126 firm-fixed-price contract for construction of P4040 design-bid-build French Creek Ambulatory Care Clinic. Work will be performed at Marine Corps Base Camp Lejeune, North Carolina, and is expected to be completed by October 2023. Fiscal 2017, 2018 and 2020 military construction, (Marine Corps) funds in the amount of \$21,007,126 will be obligated at time of award and will not expire at the end of the current fiscal year. This

contract was competitively procured via the beta.sam.gov website, with five proposals received. The Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-21-R-2524).

Northrop Grumman Systems Corp. - Aeronautics Systems, El Segundo, California, is awarded a \$20,643,782 delivery order (N00383-21-F-0WM0) under previously awarded basic ordering agreement N00383-20-G-WM01 for the purchases of 107 rudders and tooling associated with increasing production capacity. All work will be performed in El Segundo, California, and work will be completed by June 2025. Fiscal 2021 working capital funds (Navy) in the amount of \$16,333,948 will be obligated at the time of award, and will not expire at the end of the current fiscal year. One company was solicited for this non-competitive, sole-source requirement under the authority set forth in 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

San Diego Gas & Electric Co. (SDG&E), a public utility company regulated by the California Public Utilities Commission, San Diego, California, is awarded a \$19,145,595 firm-fixed-price task order (N6247321F5366) under previously-awarded basic ordering agreement (BOA) (N62473-21-G-4402) for energy conservation measures at Marine Corps Base Camp Pendleton, San Diego, California. Work will be performed in San Diego, California, and is expected to be completed by September 2023. Fiscal 2021 operation and maintenance (Marine Corps) funds in the amount of \$11,905,358 will be obligated at time of award and will expire at the end of the current fiscal year. This project will utilize third-party financing through the utility company in the remaining amount of \$7,240,237. This task order falls under the terms and conditions of the BOA with SDG&E. The BOA allows for services without full and open competition pursuant to the statutory authorities of 10 U.S. Code 2304(c)(5) and 10 U.S. Code 2913. The Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity.

Asturian-Consigli JV, Virginia Beach, Virginia, is awarded a \$17,810,621 firm-fixed-price task order (N4008521F6269) under previously-awarded multiple-award construction contract N40085-18-D-1124 for the construction of design-bid-build NGIS buildings A-51 (Perry Hall) and A-52 (Truxton Hall) at Naval Station Norfolk, Virginia. Work will be performed at Naval Station Norfolk, Virginia, and is expected to be completed by March 2023. Fiscal 2021 non-appropriated funds in the amount of \$17,810,621 will be obligated at time of award and will not expire at the end of the current fiscal year. Three proposals were received for this task order. The Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

Raytheon Co., McKinney, Texas, is awarded a \$16,582,394 firm-fixed-price, cost-plus-fixed-fee order (N0001921F0810) against a previously issued basic ordering agreement (N0001920G0007). This order procures 15 Night Vision System AN/AAQ-44 Forward Looking Infrared kits; six for Lot 4 and nine for Lot 5 CH-53K production aircraft. In addition, this order procures production assets, technical support, and parts obsolescence analysis in support of CH-53K production. Work will be performed in McKinney, Texas and is expected to be completed in October 2023. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$9,606,640; and fiscal 2020 aircraft procurement (Navy) funds in the amount of \$6,975,754 will be obligated at time of award, none of which will expire at the end of the fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Teledyne Instruments Inc., doing business as Teledyne Webb Research, North Falmouth, Massachusetts, is awarded a \$16,500,000 indefinite-delivery/indefinite-quantity, firm-fixed price contract for the procurement of lithium battery kits to power the Littoral Battlespace Sensing-Gliders. The contract will include a five-year base ordering period with no options. The base ordering period is expected to be completed by September 2026. All work will be performed in North Falmouth, Massachusetts. Fiscal 2021 operation and maintenance (Navy) funds will be used to fund the first delivery order award, and will expire at the end of the fiscal year. At the time of that delivery order's issuance, Teledyne Webb Research will receive funds in the amount of \$2,326,641. Individual orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. One source was solicited for this sole-source

requirement, with one offer received. The Naval Oceanographic Office, Stennis Space Center, Mississippi, is the contracting activity (N62306-21-D-0006).

Raytheon Missiles and Defense, Marlborough, Massachusetts, is awarded a \$14,000,000 indefinite firm-fixed-price modification to previously-awarded contract N00024-14-C-5315 for AN/SPY-6(V)1 spares. Work will be performed in Marlborough Massachusetts (98%); Saratoga Springs, New York (1%); and Riverside, California (1%), and is expected to be complete in June 2023. Fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$10,000,000 (71%); and fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$4,000,000 (29%) will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington Navy Yard, D.C., is the contracting activity. (Awarded Sept. 23, 2021)

Kilgore Flares Co. LLC, doing business as Chemring Countermeasures USA, Toone, Tennessee, is awarded a \$12,000,909 firm-fixed-price contract to manufacture of MJU-61A/B aircraft infrared flares. All work will be performed in Toone, Tennessee, and is expected to be completed by March 2022. This effort involves funding under the Foreign Military Sales program. Funding for the MJU-32A/B combines purchases with procurement of ammunition (Air Force) funds (60%); procurement of ammunition (Navy and Marine Corps) funds (24%); Australia funds (13.78%); Japan funds (1.33%); the Netherlands funds (0.41%); Italy funds (0.31%); and Brazil funds (0.17%) in the full amount of \$12,000,909, which will be obligated at time of award. Funds will not expire at the end of the current fiscal year. This contract was competitively procured with two firms solicited; two offers received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity (N00104-21-C-K062).

Valiant Government Services LLC, Hopkinsville, Kentucky, is awarded a \$9,517,353 indefinite-delivery/indefinite-quantity modification for the exercise of Option Four under an contract for base operating support (BOS) services at the U.S. Naval Support Activity (NSA) Naples, and its outlying support sites. The work to be performed provides for all management and administration, facilities management and investment, janitorial, pest control, integrated solid waste, pavement clearance, and environmental services to provide BOS services. After award of this option, the total cumulative contract value will be \$44,011,086. This option period is from Oct. 1, 2021, to Sept. 30, 2022. Work will be performed in Italy in the province of Campania, Italy to include the municipality of Capodichino and Gricignano di Aversa; and the province of Lazio, Italy in the municipality of Gaeta. Fiscal 2022 operation and maintenance (Navy) contract funds in the amount of \$8,096,850 for recurring work will be obligated on individual task orders issued during the fourth option period. No funds will be obligated at time of award. The Naval Facilities Engineering Systems Command, Europe, Africa, Central, Naples, Italy, is the contracting activity (N62470-17-D-4011).

Metson Marine Services Inc., Ventura, California, is awarded an \$8,384,023 modification P00028 to the previously awarded firm-fixed-price contract N68836-19-C-0002 to exercise Federal Acquisition Regulation 52.217-9 for Option Period Three, for port operations support services that include maintenance and repairs of government furnished boats, service craft, and waterfront equipment; oil spill response; industrial marine services; docking regular overhauls; ship movement and fleet liaison support services; berth day support; facility response team services; counter-terrorism support; barrier and gate services; and exclusion buoy inventory in support of Commander, Navy Region Southeast. The contract included a nine-month base period and four one-year option periods. Exercising this option will bring the estimated value of the contract to \$30,019,020; if all options are exercised, the total value of this contract will be \$37,759,520. Work is expected to be completed by September 2022. If all options on the contract are exercised, work will be completed by September 2023. Work will be performed in Kings Bay, Georgia (30%); Kingsland, Georgia (28%); Mayport, Florida (18%); Pensacola, Florida (15%); Key West, Florida (4%); Port Canaveral, Florida (3%); Panama City, Florida (1%); and Jacksonville, Florida (1%). Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$2,801,406 will be obligated at time of award and funds will not expire at the end of the current fiscal year. The remaining amount of the contract modification will be funded with fiscal 2022 operation and maintenance (Navy) funds; and operation and maintenance (Coast Guard) funds. The contract modification is issued subject to Defense Federal

Acquisition Regulation 52.232-18, Availability of Funds; and 252.232-7007, Limitation of Government's Obligation, will be incorporated in the contract modification. This contract was competitively procured with the solicitation as a total small business set-aside requirement with five offers received. Naval Supply Systems Command Fleet Logistics Center Jacksonville, Jacksonville, Florida, is the contracting activity.

General Electric – Aviation, Lynn, Massachusetts, is awarded an \$8,245,146 cost-plus-fixed-fee-contract to procure four T-64 engine cores for the CH-53E aircraft as part of the T-64 Engine Reliability Improvement Program. Work will be performed in Lynn, Massachusetts (45%); Rutland, Vermont (28%); Havelock, North Carolina (18%); Madisonville, Kentucky (4%); Evendale, Ohio (4%); and various locations within the continental U.S. (1%), and is expected to be completed in February 2023. Fiscal 2021 aircraft procurement (Navy) funds in the amount \$8,245,146 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921C0035).

PCI Aviation LLC, Atmore, Alabama, is awarded a \$7,936,556 firm-fixed-price order (N6833521F0460) against a previously issued basic ordering agreement (N6833519G0039). This order procures foreign object damage support equipment and associated services in support of the F-35 Lightning II program. Work will be performed in Beaufort, South Carolina (25%); Yuma, Arizona (25%); San Diego, California (25%); and Iwakuni, Japan (25%), and is expected to be completed in September 2024. Fiscal 2019 aircraft procurement (Navy) funds in the amount of \$7,936,556 will be obligated at time of award, all of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

September 24, 2021

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$1,099,631,252 modification (P00008) to a previously awarded fixed-price incentive (firm target) advance acquisition contract (N0001920C0009). This modification exercises options for the production and delivery of 16, Lot 15 F-35 Lightning II aircraft: 10 for the Air Force and six for the Marine Corps. Work will be performed in Fort Worth, Texas (57%); El Segundo, California (14%); Warton, United Kingdom (9%); Cameri, Italy (4%); Orlando, Florida (4%); Nashua, New Hampshire (3%); Baltimore, Maryland (3%); San Diego, California (2%); Nagoya, Japan (2%); and various locations outside the continental U.S. (2%), and is expected to be completed in May 2026. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$439,938,432; and fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$659,692,820 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Raytheon Technologies Corp., Pratt and Whitney Military Engines, East Hartford, Connecticut, is awarded a \$258,549,739 cost-plus-incentive-fee contract. This contract procures non-recurring sustainment support, material and support equipment for depot maintenance facilities as well as supplies, services, and planning for depot activations in support of F-35 aircraft sustainment efforts for the Air Force, Marine Corps, Navy, non-U.S. Department of Defense (DOD) participants, and Foreign Military Sales (FMS) customers. Work will be performed in East Hartford, Connecticut (30.5%); Oklahoma City, Oklahoma (22.2%); Cherry Point, North Carolina (13.5%); Jacksonville, Florida (7.3%); West Palm Beach, Florida (5.8%); Windsor Locks, Connecticut (3.7%); Indianapolis, Indiana (3.0%); Williamstown, New South Wales, Australia (2.9%); Iwakuni, Japan (2%); Foggia, Italy (1.6%); Patuxent River, Maryland (1.4%); Edwards Air Force Base, California (1.4%); Luke AFB, Arizona (1.2%); Brekstad, Norway (1.2%); Leeuwarden, Netherlands (1.1%); Tyndall AFB, Florida (1%) and Brandon, United Kingdom (0.2%), and is expected to be completed in September 2024. Fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$59,122,942; fiscal 2021 aircraft procurement (Navy) funds in the amount of \$34,565,557; fiscal 2019 aircraft procurement (Navy) funds in the amount of \$68,216,532; fiscal 2019 aircraft procurement (Air Force) funds in the amount \$53,749,632; non-U.S. DOD participant funds in the amount of \$31,048,632; and FMS funds in the amount of \$11,846,444 will be obligated at time of award,

\$121,966,532 of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921C0068).

Lockheed Martin Corp., Fort Worth, Texas, is awarded a \$106,435,051 cost-plus-fixed-fee, cost-plus-incentive-fee modification (P00010) to a previously awarded contract (N0001920C0032). This modification adds scope to procure non-recurring sustainment and maturation engineering support for the F-35 program. Specifically, this modification provides joint technical data, prognostic health management, software sustainment depot and aircraft structural integrity support for Air Force, Marine Corps, Navy, non-U.S. Department of Defense (DOD) participants and Foreign Military Sales (FMS) customers. Work will be performed in Farnborough, United Kingdom (80%); and Fort Worth, Texas (20%), and is expected to be completed in September 2023. Fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$55,626,460; fiscal 2021 aircraft procurement (Navy) funds in the amount of \$32,080,067; non-U.S. DOD participant funds in the amount of \$13,640,585; and FMS funds in the amount of \$5,087,939 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Fort Worth, Texas, is awarded a \$56,893,635 firm-fixed-price modification (P00062) to a previously awarded contract (N0001917C0001). This modification adds scope to provide non-recurring engineering and engineering change order support to advance the F-35 program's efforts to adopt a single label approach in support of Item Unique Identification compliancy and traceability for the Air Force, Marine Corps and Navy. Work will be performed in Fort Worth, Texas (52%); Redondo Beach, California (12%); Orlando, Florida (9%); Cedar Rapids, Iowa (2%); and various locations within the continental U.S. (25%), and is expected to be completed in August 2024. Fiscal 2020 aircraft procurement (Air Force) funds in the amount of \$29,906,686; and fiscal 2019 aircraft procurement (Navy) funds in the amount of \$26,986,949 will be obligated at time of award, \$26,986,949 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

General Dynamics Mission Systems, Pittsfield, Massachusetts, is awarded a \$44,975,584 cost-plus-incentive-fee and cost only modification to previously-awarded contract N00024-20-C-5603 to exercise options for the sustainment of the Littoral Combat Ship Integrated Combat Management System and associated combat system elements. Work will be performed in Pittsfield, Massachusetts (85%); San Diego, California (14%); and Mobile, Alabama (1%), and is expected to be completed by September 2022. Fiscal 2021 operation and maintenance (Navy) \$931,000 (52%); fiscal 2020 research, development, test and evaluation (Navy) \$598,956 (34%); and fiscal 2021 other procurement (Navy) funds in the amount of \$246,149 (14%) will be obligated at time of award, of which, funds in the amount of \$1,529,956 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Northrop Grumman Systems Corp., San Diego, California, is awarded a \$23,741,540 firm-fixed-price modification to previously awarded contract N00024-17-C-6327 to exercise options for engineering support services, other direct costs, and depot services for Joint Counter Radio-Controlled Improvised Explosive Device Electronic Warfare (JCREW) Increment One Block One (I1B1) systems. This option exercise combines purchases for the Air Force (79%); Navy (18%); and government of Australia (3%) under the Foreign Military Sales (FMS) program. Work will be performed in San Diego, California, and is expected to be complete by July 2022. Fiscal 2021 research, development, test and evaluation (Air Force) funds in the amount of \$2,500,000 (81%); fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$537,656 (17%); and FMS (Australia) funds in the amount of \$61,950 (2%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Chemring Australia Pty Ltd., Lara, Victoria, Australia, is awarded a \$21,983,931 firm-fixed-price contract to procure 10,089 MJU-68/B flare infrared countermeasures; 4,628 for the Navy, 1,440 for the Air Force, 685 for the government of Israel, 312 for the government of Netherlands, 504 for the government of Norway, and 2,520 for the government of Great Britain in support of the F-35 Lightning II program. Work will be performed in Lara, Victoria, Australia (47%); San Diego, California (28%); Toone, Tennessee (24%); and Braeside, Victoria, Australia (1%), and is expected to be completed in July 2022. Fiscal 2021 procurement of ammunition (Navy and Marine Corps) funds in the amount of \$10,075,696; fiscal 2021 aircraft procurement (Air Force) funds in the amount \$3,137,760; fiscal 2019 procurement of ammunition (Navy and Marine Corps) funds in the amount of \$8,716; and Foreign Military Sales funds in the amount of \$8,761,759 will be obligated at time of award, \$8,716 of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921C0081).

Vertex Aerospace LLC, Madison, Mississippi, is awarded a \$21,900,220 firm-fixed-price, cost reimbursable modification (P00018) to a previously awarded indefinite-delivery/indefinite-quantity contract (N6134017D0005). This modification exercises options to provide intermediate-level maintenance, repair, and logistics support services where the capability exists for the Individual Component Repair List in support of the Aircraft Intermediate Maintenance Department (AIMD) for Chief of Naval Air Training aircraft, tenant activities, and transient aircraft. Additionally, this modification provides direct and indirect material, tools and equipment not otherwise provided by the U.S. government required to support and maintain the four AIMDs as well as related support equipment. Work will be performed in Corpus Christi, Texas (40%); Whiting Field, Florida (32%); Pensacola, Florida (14%); Kingsville, Texas (8%) and Meridian, Mississippi (6%), and is expected to be completed in September 2022. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity.

Lockheed Martin Rotary and Mission Systems, Owego, New York, is awarded a \$12,445,325 firm-fixed price order (N0001921F0233) against a previously issued basic ordering agreement (N0001919G0029). This order provides non-recurring engineering (NRE) and test support for the Avionics 3i/5i Operational Test Program Sets (OTPS) in support of i7 capabilities required by the Navy. Additionally, this order procures five OTPS kits, four mission computers, and four flight management computers in support of NRE efforts. Work will be performed in Owego, New York (91%); and Clearwater, Florida (9%), and is expected to be completed in May 2025. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$12,445,325 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Offshore Service Vessels LLC, Cut Off, Louisiana (N3220519C3514), is awarded an \$11,025,190 option (P00017) for the fixed-price portion of a previously awarded firm-fixed-price contract with reimbursable elements to exercise a one-year option period for the U.S. flag Jones Act, West Coast-based service support vessel MV Alyssa Chouest, which will be utilized to launch and recover Navy submersibles, divers and small craft. This contract includes a one-year firm period of the performance, three one-year options periods and one, 11-month option period, which exercised would bring the cumulative value of this contract to \$54,238,356. Work will be performed in Pearl Harbor, Hawaii, and at sea, and is expected to be completed, if all options are exercised, by Sept. 6, 2024. Funds in the amount of \$11,025,190 for Option Two will be provided for fiscal 2022. This option is exercised subject to the availability of funds in accordance with Federal Acquisition Regulation 52.232-18, availability of funds. This procurement was released under full and open competition, with an unlimited number of companies solicited via the beta.sam.gov website and six offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

W.B. Brawley Co., Wilmington, North Carolina, is awarded a \$10,000,000 indefinite-delivery/indefinite-quantity contract for demolition, repair and replacement of telecommunications outside plant and

structured cabling at various installations throughout Marine Corps Base Camp Pendleton. The work to be performed provides for the design, construction, supervision, equipment, material, and labor for demolition, repair and replacement of telecommunications outside plant and structured cabling projects. Planned Task Order X001 will be issued in the amount of \$566,137. Work will be performed in California. The term of the contract is not to exceed 60 months with an expected completion date of Sept. 29, 2026. Fiscal 2021 operation and maintenance (Marine Corps) contract funds in the amount of \$566,137 are obligated on this award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by military construction (Marine Corps); operation and maintenance (Marine Corps); and operation and maintenance (Navy). This contract was competitively procured via the beta.sam.gov contract opportunities website with three proposals received. The Naval Facilities Engineering Systems Command, Southwest, Facilities Engineering and Acquisition Division, Camp Pendleton, California, is the contracting activity (N62473-21-D-0603).

ProSecure LLC JV, Titusville, Florida, is awarded a \$9,799,095 indefinite-delivery/indefinite-quantity modification to exercise Option One under a contract for regional security services at various installations in the Naval Facilities Engineering Systems Command (NAVFAC) Northwest area of operations (AO). The work to be performed provides for all management and administration, and force protection services in support of base operations. After award of this option, the total cumulative contract value will be \$20,272,856. This option period is from October 2021 to September 2022. Work will be performed at various installations in the NAVFAC Northwest AO, including but not limited to, Washington (96%) and Idaho (4%). Fiscal 2022 operation and maintenance (Navy) contract funds in the amount of \$9,218,943 will be obligated on an individual task order issued during the option period. No funds will be obligated at time of award. The contract was awarded as a competitive small business set-aside where ProSecure LLC was selected as the successful offeror with the highest technically ranked and lowest overall priced proposal. NAVFAC Northwest, Bremerton, Washington, is the contracting activity (N44255-20-D-5018).

Gomez Research Associates Inc., Huntsville, Alabama, is awarded a \$9,398,061 cost-plus-fixed-fee modification to previously awarded contract N00174-19-C0021 to exercise Option Year Two for continued support for counter-improvised explosive devices and unmanned aerial system technology. Work will be performed in Huntsville, Alabama (60%); Sofia, Bulgaria (20%); Belgrade, Serbia (15%); and Kiev, Ukraine (5%), and will be complete in September 2022, and continue through September 2024 if all options are exercised. Fiscal 2021 operation and maintenance (Army) funding in the amount of \$7,100,000 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Surface Warfare Center Indian Head Division, Indian Head, Maryland, is the contracting activity.

September 23, 2021

Blue Rock Structures, Pollocksville, North Carolina (N40085-21-D-0097); Civil Works Contracting LLC, Wilmington, North Carolina (N40085-21-D-0098); ENCON DESBUILD JV2 LLC, Hyattsville, Maryland (N40085-21-D-0099); Futron Inc., Woodbridge, Virginia (N0085-21-D-0100); Joyce and Associates Construction Inc., Newport, North Carolina (N40085-21-D-0101); Military and Federal Construction Co. Inc., Jacksonville, North Carolina (N40085-21-D-0102); Muter Construction LLC, Zebulon, North Carolina (N40085-21-D-0103); Rand Enterprises Inc., Newport News, Virginia (N40085-21-D-0104); Reasor-Asturian JV LLC, Pensacola, Florida (N40085-21-D-0105); and WB Brawley Co., Wilmington, North Carolina (N40085-21-D-0106), are awarded a combined \$249,000,000 indefinite-delivery/indefinite-quantity multiple award construction contract for design-bid-build (DBB) general construction projects located primarily at Marine Corps facilities at Marine Corps Base (MCB) Camp Lejeune and Marine Corps Air Station Cherry Point. Work to be performed will include general construction of DBB projects, but is not limited to new construction, renovations, alterations, and repairs. Nine awardees will each be awarded \$5,000 (minimum contract guarantee per awardee) at contract award. Futron Inc., is being awarded the initial seed project task order in the amount of \$480,775 for interior and exterior repairs to Building AS124 at MCB Camp Lejeune. Work for this task order is expected to be completed by January 2023. The maximum dollar value includes the base period and four option years for all 10 contracts. Work

will be primarily in North Carolina and may also be performed at other military and government installations and sites under the Marine Corps Installation East area of operations. The term of the contract is not to exceed 60 months, with an expected completion of September 2026. Fiscal 2021 operation and maintenance (Marine Corps) contract funds in the amount of \$480,775 are obligated on this award and will expire at the end of the current fiscal year. Fiscal 2021 operation and maintenance (Marine Corps) contract funds in the amount of \$45,000 are obligated on the nine minimum guarantee task order awards and will expire at the end of the current fiscal year. Future task orders will be primarily funded by operation and maintenance (Marine Corps) and military construction, Marine Corps. This contract was competitively procured via the beta.sam.gov website with 46 proposals received. These 10 contractors may compete for task orders under the terms and conditions of the awarded contract. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

Chitra Productions LLC, Norfolk, Virginia (N39430-21-D-2310); SV Synergies LLC, Overland Park, Kansas (N39430-21-D-2311); OSCTech LLC, Atlanta, Georgia (N39430-21-D-2312), AttainX Inc., Fairfax, Virginia (N39430-21-D-2313); and Stellar Innovations and Solutions Inc., Moraine, Ohio (N39430-21-D-2314), are awarded a combined \$151,000,000 indefinite-delivery/indefinite-quantity contract to provide full information technology (IT) lifecycle support to Naval Facilities Engineering Systems Command's (NAVFAC) core facilities management, construction management and installation management systems. The work to be performed includes but is not limited to, systems development lifecycle and cybersecurity support, business systems operations and support, IT operations management and enterprise, cloud operations/migration/system development, secure infrastructure and analysis and management services. Types of credentials required: ISO 9001:2000, ISO 9001:2008, CMMI Level III (or higher) – DEV, CMMI Level III (or higher) – SVC, Oracle Certified Gold Partner, Microsoft Certified Partner, ISO/IEC 20000, Information Technology Infrastructure Library (current version), and Partner Program. Each awardee will be awarded \$10,000 (minimum contract guarantee per awardee) at contract award and will expire at the end of the current fiscal year. No task orders are being issued at this time. Work on this contract could be performed in the following sites, but is not limited to, California; Washington, D.C.; Hawaii; Virginia; Missouri; Washington state; and Japan. The term of the contract is not to exceed 66 months, with an expected completion date of March 2027. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$10,000 minimums for each contractor are obligated on this award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by operation and maintenance (Navy); and military construction (Navy). This contract was competitively procured via the Navy Electronic Commerce Online website and Federal Business Opportunities website with 28 proposals received. These contracts were originally awarded in December 2020 (N39430-21-D-2305, N39430-21-D-2306, N39430-21-D-2307, N39430-21-D-2308, and N39430-21-D-2309). This announcement is a result of a corrective action taken to address a Government Accountability Office and agency protest. The Naval Facilities Engineering Systems and Expeditionary Warfare Center, Port Hueneme, California, is the contracting activity.

General Electric Power Conversion (GE), Cranberry, Pennsylvania (N3220521D4113), is awarded a single-award, indefinite-delivery/indefinite-quantity contract with a ceiling of \$125,000,000, for services and supplies in support of Military Sealift Command's (MSC) GE brand equipment aboard the command's fleet of ships. This award will provide original equipment manufacturer authorized parts and service technicians in order to maintain the systems aboard multiple classes of ships including MSC's dry cargo/ammunition class (T-AKE); expeditionary sea base class (ESB); expeditionary transfer dock class (ESD); fleet auxiliary oiler class (T-AO); the command ship USS Mount Whitney (LLC 20); oceanographic survey ship class (T-AGS); and roll-on/roll-off class (T-AKR) vessels. Work will be performed worldwide, with an expected completion date of Sept. 30, 2026. The maximum dollar value of this award is \$125,000,000. Working capital funds (Navy) in the amount of \$3,500 are being obligated for the first order of fiscal 2021 at time of award. Additional orders may be placed throughout the 5-year ordering period. Funding for the appropriate fiscal year will be utilized at the time orders are placed. This sole-source contract was procured under solicitation number N3220521D4113 via the beta.sam.gov website and one timely offer was received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220521D4113).

AECOM Services Inc., Norfolk, Virginia, is awarded a \$30,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity architect-engineering contract for architect-engineer (A-E) services at Joint Expeditionary Base Little Creek-Fort Story, Naval Station Norfolk, and Naval Air Station Oceana, Virginia. The work to be performed provides for comprehensive A-E services required for planning, design, and construction services in support of new construction, repair, replacement, demolition, alteration, and/or improvement of military and other governmental facilities. All work on this contract will be performed in Virginia. The term of the contract is not to exceed 60 months with an expected completion date of September 2026. Task order 0001 is awarded at \$5,000 for the minimum guarantee. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$5,000 are obligated on this award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by operation and maintenance (Navy). This contract was competitively procured via the beta.sam.gov website with 13 proposals received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-21-D-0091).

Marine Robotic Vehicles (MRV), San Diego, California (N62306-21-D-0004); and Teledyne Instruments Inc., North Falmouth, Massachusetts (N62306-21-D-0005), are awarded \$23,800,000 indefinite-delivery/indefinite-quantity, multiple-award, firm-fixed price contracts for the procurement of air-rigged or air/surface-deployable profiling floats in support of meteorological and oceanographic operations globally. The contracts will run concurrently and include a five-year base ordering period with no options. The base ordering period is expected to be completed by September 2026. Work will be performed in San Diego, California; and North Falmouth, Massachusetts, at both contractor facilities in response to delivery orders which the percentage of work at each of those locations cannot be determined at this time. Fiscal 2021 operation and maintenance (Navy) funds will be used to fund the first delivery order awards to both companies, and funds will expire at the end of the fiscal year. At the time of those delivery orders' issuance, MRV will receive funds in the amount of \$224,500, and Teledyne will receive funds in the amount of \$3,781,000. Individual orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. This contract was competitively procured through beta.sam.gov, with two offers received. The Naval Oceanographic Office, Stennis Space Center, Mississippi, is the contracting activity.

Aptim Federal Services LLC, Alexandria, Virginia, is awarded a \$20,968,131 firm-fixed-price task order (N6247821F4271) under a multiple award construction contract for repair to a mined-in place military petroleum storage tank. The work to be performed provides for the additional predictive repairs to Red Hill Tank 18 at Joint Base Pearl Harbor-Hickam. Work will be performed in Hawaii and is expected to be completed by March 2025. Fiscal 2021 working capital funds (Navy) contract funds in the amount of \$20,968,131 are obligated on this award and will not expire at the end of the current fiscal year. One proposal was received for this task order. The Naval Facilities Engineering Systems Command, Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N39430-20-D-2225).

North State Mechanical Inc., Jacksonville, North Carolina, is awarded a \$17,010,867 firm-fixed-price task order (N4008521F64948) under a multiple award construction contract for renovation of Test Cell One for Building 133 at Marine Corps Air Station Cherry Point. The work to be performed provides for facility repair work to include life safety and fire protection system modifications, structural re-arrangements within test cell, installation of a gallon propane tank along with associated piping, replacement of lighting fixtures, electrical modifications, installation of cold water accumulator tank, replace makeup air unit and exhaust air ductwork. The project includes funding for capital improvements program equipment for cooling tower installation, replacement of dynamometer, test bed, and performance monitoring equipment. Work will be performed in Havelock, North Carolina, and is expected to be completed by September 2022. Fiscal 2021 working capital (Navy) contract funds in the amount of \$17,010,867 are obligated on this award and will not expire at the end of the current fiscal year. Two proposals were received for this task order. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Facilities Engineering and Acquisition Division, Cherry Point, North Carolina, is the contracting activity (N40085-20-D-0077).

Lockheed Martin Corp., Fort Worth, Texas, is awarded a \$14,722,642 cost-plus-incentive-fee modification (P00049) to a previously awarded contract (N0001918C1048). This modification is adding scope to provide depot level repair capabilities for the F-35 gun system in support of F-35 Lightning II low-rate initial production Lot 11 aircraft for the Air Force, Marine Corps, Navy, and non-U.S. Department of Defense (DOD) participants. Work will be performed in Williston, Vermont (62.17%); Fort Worth, Texas (22.29%); and Saco, Maine (15.54%), and is expected to be completed in November 2024. Fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$8,058,118; fiscal 2019 aircraft procurement (Navy) funds in the amount of \$5,250,024; and non-U.S. DOD participant funds in the amount of \$1,414,500 will be obligated at time of award, \$5,250,024 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

General Dynamics-Ordnance and Tactical Systems (OTS) Inc., Williston, Vermont (N0016421DWP64); Danko Arlington Inc., Baltimore, Maryland (N0016421DWP91); and General Tool Co., Cincinnati, Ohio (N0016421DWP92), are awarded a combined \$14,641,032 firm-fixed-price, indefinite-delivery/indefinite-quantity multiple award contract for the new manufacture of MK-82 guided missile director sub-assemblies. Each awardee will be awarded an amount greater than the \$25,000 (minimum contract guarantee per awardee) at contract award. There are no options included on this contract. Work will be performed in Saco, Maine (46.4%); Baltimore, Maryland (29.2%); and Cincinnati, Ohio (24.4%), and is expected to be completed by September 2026. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$4,147,733 (28.3%) will be obligated at the time of award and will expire at the end of the current fiscal year. All other funding will be made available at the delivery order level as contracting actions occur. This contract was competitively procured via the beta.sam.gov website, with three offers received. The Naval Surface Warfare Center, Crane, Indiana, is the contracting activity.

The Canadian Commercial Corp., Ottawa, Ontario, Canada, is awarded a \$10,735,950 firm-fixed-price job order under basic ordering agreement N0016419GJQ58 for the performance of upgrade 33 MX-20D turrets and delivery of 34 digital master control units. Work will be performed in Ottawa, Ontario, Canada, and is expected to be completed by September 2022. Fiscal 2021 defense procurement funds in the amount of \$10,735,950 will be obligated at the time of contract award and will not expire at the end of the current fiscal year. This contract action was not competitively procured via the beta.sam.gov website. This is a sole-source action in accordance with Defense Federal Acquisition Regulation 6.302-1, only one responsible source. Naval Surface Warfare Center, Crane Division, Crane, Indiana, is the contracting activity (N0016421FJ054).

Olympus America Inc., Waltham, Massachusetts, is awarded a \$10,691,016 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract procures 306 ultrasonic testing (UT) production units, 153 bonded materials testing (BMT) production units, six UT pilot production units, and six BMT pilot production units in support of performing nondestructive inspection of aircraft components and support equipment at organizational and intermediate level maintenance for all Navy and Marine Corps aircraft. Work will be performed in Waltham, Massachusetts, and is expected to be completed in September 2024. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Warfare Center, Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N6833521D0221).

Stratus Systems Inc., Belle Chasse, Louisiana, is awarded a \$9,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the manufacture of FW98 and BY81 automatic inflation devices used in aircrew personnel life preservers upon egress from ejection seat equipped aircraft. This contract includes a three-year ordering period with no options. All work will be performed in Belle Chasse, Louisiana, and is expected to be completed by September 2024. This effort combines purchases under the Foreign Military Sales (FMS) program, and funds will expire at the end of the current fiscal year. Funds in the amount of \$3,284,250 (\$1,460,416 for FW98 units and \$1,823,834 for BY81 units) will be issued for delivery order N00104-21-F-YN01 that will be awarded concurrently with the contract. Fiscal

2020 procurement (Navy) funds (73%); FMS Spain funds (13%); FMS Kuwait funds (8%); and FMS Switzerland funds (6%) will be used for the FW98 procurement. FMS Korea funds (59%); FMS Turkey funds (12%); fiscal 2019 procurement (Air Force) funds (11%); FMS Taiwan funds (7%); FMS Pakistan funds (5%); FMS Thailand funds (3%); FMS Bahrain funds (1%); FMS Morocco funds (1%); FMS Singapore funds (0.5%); and FMS Serbia funds (0.5%), will be used for the BY81 procurement. Two sources were solicited for this non-competitive requirement under authority, 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity (N00104-21-D-YN01).

Hadal Inc., Oakland, California, is awarded an \$8,778,566 cost-plus-fixed-fee contract for the effort titled "Development and Testing of Large Scale Interfaces." This contract provides for the development, prototyping, and testing of systems and interfaces necessary for a larger vehicle to transport and utilize smaller systems. The contractor shall develop hardware systems suitable for transporting and deploying smaller systems. The contractor shall develop software systems suitable for interfacing with and communicating relevant tasking to the smaller systems. Work will be performed in Oakland, California, with an expected completion date of Dec. 23, 2024. The maximum dollar value, including a 39-month base period and no option periods, is \$8,778,566. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$150,000 are obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured under long range broad agency announcement (BAA) N00014-21-S-B001. Since proposals are received throughout the year under the long range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-21-C-2052).

ERAPSCO, Joint Venture of Sparton and USSI, Columbia City, Indiana, is awarded an \$8,369,550 firm-fixed-price modification (P00017) to a previously awarded indefinite-delivery/indefinite-quantity contract (N0001919D0032). This modification adds scope for the production and delivery of 5,000 AN/SSQ-62 production sonobuoys in support of annual training, peacetime operations and testing expenditures, and maintaining sufficient inventory to support the execution of major combat operations determined by the Naval Munitions Requirements Process for the Navy and Foreign Military Sales customers. Work will be performed in Columbia City, Indiana (67%); and De Leon Spring, Florida (33%), and is expected to be completed in September 2023. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

September 22, 2021

Epsilon Systems Solutions Inc., Portsmouth, Virginia, is awarded a \$36,869,320 indefinite-delivery/indefinite-quantity contract for hyperbaric systems at locations worldwide, including Navy facilities in both the continental U.S. (CONUS) and outside the continental U.S. (OCONUS). The work to be performed provides for the inspection, maintenance, repair, overhaul, design, fabrication and installation on hyperbaric systems at locations, including both CONUS and OCONUS Navy facilities. The hyperbaric systems include recompression chamber facilities, driver training facilities, and dive lockers. The term of the contract is not to exceed 60 months and a six-month option to extend services with an expected completion date of March 2027. An initial task order is being awarded at \$1,636,637 for the design, procurement, fabrication, assembly, shop test, installation, and field testing of the Hyperbaric Facilities at Seal Delivery Vehicle Team 1. All work will be performed in Pearl City, Hawaii. Work for this task order is expected to be completed by September 2022. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$1,636,637 are obligated on this award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by operation and maintenance (Navy). This contract was competitively procured via the beta.sam.gov website with one proposal received. Naval Facilities Engineering Systems and Expeditionary Warfare Center, Port Hueneme, California, is the contracting activity (N39430-21-D-2232).

DynCorp International LLC, Fort Worth, Texas, is awarded a \$24,239,936 modification (P00002) to a previously awarded firm-fixed-price, cost reimbursement, indefinite-delivery/indefinite-quantity contract (N0042121D0014). This modification extends services in support of organizational, selected intermediate, limited depot level maintenance, and logistics support services for F/A-18C/D/E/F, EA-18G, MH-60S, F-16A/B, and E-2C/D aircraft for the Navy. Work will be performed in Fallon, Nevada, and is expected to be completed in March 2022. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

Raytheon Missiles & Defense, Tucson, Arizona, is awarded a \$15,847,016 firm-fixed-price and cost-plus-fixed-fee modification to previously awarded contract N00024-18-C-5407 for the procurement of fiscal 2021 Navy Standard Missile-2 and Standard Missile-6 depot and intermediate level provisioned items ordered spares; and to exercise options for repairs and maintenance. Work will be performed in Tucson, Arizona (82%); Huntsville, Alabama (5%); Joplin, Missouri (5%); Middletown, Connecticut (3%); Andover, Massachusetts (2%); Westminster, Maryland (1%); and various other locations totaling 2%, and is expected to complete February 2025. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$11,272,703 (71%); fiscal 2019 weapons procurement (Navy) funds in the amount of \$3,058,663 (19%); and fiscal 2020 weapons procurement (Navy) funds in the amount of \$1,515,650 (10%) will be obligated at time of award, and \$14,331,366 will expire at the end of the current fiscal year. Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Northrop Grumman Systems Corp., San Diego, California, is awarded a \$15,834,672 firm-fixed-price, cost-plus-fixed fee order (N0001921F0188) against a previously issued basic ordering agreement (N0001920G0005). This order procures non-destructive test and inspection support equipment and associated non-recurring engineering in support of the MQ-4C Triton unmanned production aircraft for the Navy and the government of Australia. Work will be performed in San Diego, California (56%); Red Oak, Texas (36.34%); Waltham, Massachusetts (3.82%); Emerado, North Dakota (2.92%); and various locations within the continental U.S. (0.92%), and is expected to be completed in September 2024. Fiscal 2019 aircraft procurement (Navy) funds in the amount of \$10,202,789; and non-U.S. Department of Defense participant funds in the amount of \$5,631,883 will be obligated at the time of award, \$10,202,789 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

RAMSys GmbH, Ottobrunn, Germany, is awarded a €15,811,059 and \$3,620,406 firm-fixed-price order under Naval Sea Systems Command basic ordering agreement N0002418G5440 for fiscal 2021 German Navy's requirements for Rolling Airframe Missile MK 44 Mod 4 Guided Missile Round Pack Block 2 recertification spares efforts. Work will be performed in Schrobenehausen, Germany (40%); Tucson, Arizona (19%); Ueberlingen, Germany (15%); Ulm, Germany (13%); Ottobrunn, Germany (9%); and Roethenbach, Germany (4%), and is expected to be completed by June 2030. German cooperative funds in the amount of €15,811,059 and \$3,620,406 will be obligated at the time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured under the exception 10 U.S. Code 2304(c)(4), international agreement. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-F-5444).

Erie Forge and Steel, Erie, Pennsylvania, is awarded an \$8,459,459 firm-fixed-price, undefinitized contract action for the manufacture of two Virginia-class submarine shafts. All work will be performed in Erie, Pennsylvania, and is expected to be completed by May 2024, with no option periods. Other procurement (Navy) funds in the amount of \$6,344,594 will be obligated at the time of award, and funds will not expire at the end of the current fiscal year. This contract resulted from a full and open competitive solicitation with one offer received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity (N00104-21-C-FA50).

September 21, 2021

Vertex Aerospace LLC, Madison, Mississippi, is awarded a \$96,467,100 modification (P00057) to a previously awarded firm-fixed-price, cost reimbursable indefinite-delivery/indefinite-quantity contract (N0001914D0011). This modification increases the contract ceiling to extend organizational, intermediate, and depot level maintenance, logistics, and engineering support, to include support of equipment, tools, direct and indirect material for the T-45 aircraft, associated systems, and related support equipment to maintain all flight and test and evaluation operations for the Navy. Work will be performed in Kingsville, Texas (45.7%); Meridian, Mississippi (41.7%); Pensacola, Florida (10.1%); and Patuxent River, Maryland (2.5%), and is expected to be completed in December 2021. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Booz Allen Hamilton Inc., McLean, Virginia (N6600121D0160); Epsilon C5I Inc., San Diego, California (N6600121D0161); McKean Defense Group LLC., Philadelphia, Pennsylvania (N6600121D0162); Parsons Government Services Inc., Pasadena, California (N6600121D0163); Science Applications International Corp., Reston, Virginia (N6600121D0164); Solute Inc., San Diego, California (N6600121D0165); and Systems Technology Forum Ltd., Fredericksburg, Virginia (N6600121D0066), are awarded a \$68,307,374 indefinite-delivery/indefinite-quantity, multiple-award contract with cost-plus-fixed-fee and cost-with-no-fee pricing for technical support covering the contractual support requirements for Naval Information Warfare Center (NIWC) Pacific's Enterprise Communication and Networks Division, including technology insertion, software and systems engineering, modeling and simulation, model based systems engineering, network engineering, installation and testing, and integrated logistics in support of communications, information technology and other command, control, communications, computers and intelligence efforts. This contract includes a three-year base period and four, one-year option periods which, if exercised, would bring the overall potential value of this contract to an estimated \$169,124,257. Work will be performed in San Diego, California (90%); and at contractor facilities (10%). The period of performance of the base award is from Sept. 30, 2021, through Sept. 29, 2024. If all options are exercised, the period of performance would extend through September 2028. Awardees will have the opportunity to compete for task orders during the ordering period. No funds will be obligated at the time of award. Funds will be obligated as task orders and will be issued using operation and maintenance (Navy); working capital funds (Department of Defense); and research, development, test and evaluation (Navy) funds. This contract was competitively procured via request for proposal N6600121R0021 published on the beta.sam.gov website and the Naval Information Warfare Systems Command e-Commerce Central website. Sixteen offers were received and seven were selected for award. NIWC Pacific, San Diego, California, is the contracting activity.

The Bionetics Corp., Yorktown, Virginia, is awarded a \$65,000,000 indefinite-delivery/indefinite-quantity contract with a five-year ordering period to procure material kits and logistics services in support of the depot repair and warehouse operations for the MK57 NATO Sea Sparrow Surface Missile System at Navy Munitions Command Atlantic. Work will be performed in Yorktown, Virginia, and is expected to be completed by September 2026. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$405,879 will be obligated at time of award. This contract was competitively procured via the beta.sam.gov website, with two offers received. The Naval Surface Warfare Center Port Hueneme Division, Port Hueneme, California, is the contracting activity (N63394-21-D-0005).

Northrop Grumman Systems Corp., Woodland Hills, California, is awarded a \$30,919,420 firm-price-incentive-fee contract to procure 25 Link 16 B kits; three Link 16 B kit spares; and two Link 16 flight training device B kits in support of UH-1Y and AH-1Z helicopter modification efforts for the Navy. This contract also provides Link-16 systems engineering, program management, and logistics support. Work will be performed in Woodland Hills, California (92%); and San Diego, California (8%), and is expected to be completed in September 2023. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$30,919,420 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1(a)(2)(ii)(B). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921C0073).

Choctaw Defense Manufacturing LLC, McAlester, Oklahoma, is awarded a \$26,334,300 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract procures up to 700 Munitions Handling Unit Trailers in support of common aviation support equipment for the Navy. Work will be performed in McAlester, Oklahoma, and is expected to be completed in August 2028. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to U.S. Small Business Administration, 8(a) Business Development program. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N6833521D0053).

Corps Solutions LLC, Stafford, Virginia, is awarded a \$20,200,000 firm-fixed-price, cost-reimbursement, indefinite-delivery/indefinite-quantity contract for specialized training services to allow Marines to obtain the certifications needed to be mission ready and respond to an emergency in the event of a chemical, biological, radiological, nuclear, or high yield explosive attack in the National Capital Region or continental U.S. This contract includes one six-month option period which, if exercised, could bring the cumulative value of this contract to \$21,700,000. Work will be performed at Indian Head, Maryland (60%); and Perry, Georgia (40%). Work is expected to be completed Sept. 29, 2026. If all options are exercised, work will continue through March 29, 2027. Fiscal 2021 operation and maintenance (Marine Corps) funds in the amount of \$1,183,617 is being obligated at the time of award on the initial task order and will expire at the end of the current fiscal year. This contract was competitively procured via beta.sam.gov website, with two proposals received. The Marine Corps Installations National Capital Region-Regional Contracting Office, Quantico, Virginia, is the contracting activity (M00264-21-D-0008).

Huntington-Ingalls Industries, Pocasset, Massachusetts, is awarded a \$16,790,325 cost-plus-fixed-fee and firm-fixed price modification to previously awarded indefinite-delivery/indefinite-quantity contract N00174-19-D-0010 to exercise Option Year Two for engineering support and training services for the MK 18 family of systems – unmanned underwater vehicle systems. The work will be performed in Pocasset, Massachusetts and is expected to complete September 2024. No funds are being obligated. The Naval Surface Warfare Center Indian Head, Indian Head, Maryland, is the contracting activity.

Asturian-Consigli JV LLC, Virginia Beach, Virginia, is awarded an \$8,056,801 firm-fixed-price contract task order (N40085 21F6489) under the Hampton Roads Small Business multiple award construction contract for design-bid-build, repairs and renovation at Naval Support Activity Norfolk. The work to be performed provides for repairs and renovations to Building SDA-205, to include the warehouse and offices, fire rated overhead doors, fire protection system, incidental related work, complete heating, ventilation, and air conditioning replacement, plumbing fixture replacement, casework, wood doors, exterior steel doors and frames, and sidewalk repairs. Work will be performed in Norfolk, Virginia, and is expected to be completed by July 18, 2022. Fiscal 2021 operation and maintenance, (Navy) funds in the amount of \$8,056,801 are obligated on this award and will expire at the end of the current fiscal year. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-18-D-1124).

The Lockheed Martin Corp., Rotary and Mission Systems, Mitchell Field, New York, is awarded a \$7,924,721 cost-plus-incentive-fee and cost-plus-fixed-fee contract modification (P00030) to a previously awarded and announced contract (N00030-20-C-0045) for the U.S. and United Kingdom to provide strategic weapon system Trident fleet support, Trident II Strategic Systems Programs shipboard Integration (SSI) Increment 8, SSI Increment 16, Columbia-class and U.K. Dreadnaught-class navigation subsystem development efforts. Work will be performed in Mitchell Field, New York (47%); Huntington Beach, California (36%); Clearwater, Florida (9%); Cambridge, Massachusetts (6%); and Hingham, Massachusetts (2%), with an expected completion date of Nov. 30, 2023. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$7,924,721 will be obligated. No funds will expire at the end of the current fiscal year. This contract was a sole-source acquisition in accordance with 10 U.S. Code 2304(c)(1) and (4). Strategic Systems Programs, Washington, D.C., is the contracting activity.

September 20, 2021

Sechan Electronics Inc., Lititz, Pennsylvania (N0003921D2002); and Systems Engineering Support Co. Inc. (SESCo), San Diego, California (N0003921D2003) are awarded a combined \$452,850,428 indefinite-quantity/indefinite-delivery multiple award contract (MAC) for Global Positioning System-Based Positioning, Navigation and Timing Service (GPNTS) follow-on hardware production units. GPNTS is used to receive, process and distribute three-dimensional position, velocity, acceleration, attitude, time and frequency in the formats required by shipboard user systems. The contracts include a base ordering period of five years and a three-year option ordering period. No contract funds will be obligated on the basic MAC awards. Contract funds in the amount of \$260,140 will be obligated on the first task order under each contract utilizing fiscal 2021 other procurement (Navy) funds. Each contract includes options, which if exercised, would bring the estimated value of each contract to \$241,507,812 for Sechan; and \$211,342,616 for SESCO. Throughout the duration of the awarded contracts, the total obligated amount on orders for all of the awarded contracts combined will not exceed \$241,507,812. Work will be performed in Lititz, Pennsylvania, for Sechan; and San Diego, California, for SESCO. Work is expected to be completed by September 2029 if the option period is exercised. Contract funds will not expire at the end of the current fiscal year. These contracts were competitively procured with six offers received. The Naval Information Warfare Systems Command, San Diego, California, is the contracting activity.

TFS-APTIM JV LLC, Wasilla, Alaska (N62473-21-D-2213); Bethel-Tech Pacific JV, Anchorage, Alaska (N62473-21-D-2214); North Wind-CDM JV LLC, San Diego, California (N62473-21-D-2215); OCH JV, Milwaukee, Wisconsin (N62473-21-D-2216); EA-Wood-1 MP JV, Hunt Valley, Maryland (N62473-21-D-2217), are awarded a combined \$240,000,000 cost-plus-award-fee, indefinite-delivery/indefinite-quantity, multiple award contract for environmental remediation projects located at predominately Navy and Marine Corps installations primarily within the Naval Facilities Engineering Systems Command (NAVFAC) Southwest area of operations and other locations nationwide. The work to be performed provides for environmental remediation actions at environmentally contaminated sites to include, but are not limited to removal actions, pilot and treatability studies, facility operation, maintenance, and instruction, other related activities associated with returning sites to safe and acceptable levels, environmental program assessment, site characterizations, groundwater characterization studies, remediation on sediment sites, emergency or expedited response, contamination assessment, and subsequent decontamination. Additional actions include remediation prior to returning to normal operations, closure reports for removal and remedial actions, geophysical surveys, hydrogeological and geotechnical testing and data analyses, multimedia sampling and analysis for physical, chemical, and geotechnical characteristics, hydrographic surveys, optimization reviews of remediation facilities and remediation strategies, and munitions response quality assurance. No task orders are being issued at this time. Each contractor will be awarded \$5,000 (minimum contract guarantee per award) at contract award. All work on this contract will be performed primarily within the NAVFAC Southwest AO which includes California (90%); other locations in the U.S. (5%); Nevada (3%); and Arizona (2%). The term of the contract is not to exceed 60 months, with an expected completion date of September 2026. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$25,000 are obligated on this award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by operation and maintenance (Navy) funds. This contract was competitively procured via the Navy Electronic Commerce Online website with 11 proposals received. These five contractors may compete for task orders under the terms and conditions of the awarded contract. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity.

Raytheon Co., El Segundo, California, is awarded a \$140,370,582 fixed-price-incentive-fee, firm-fixed-price modification (P00009) to a previously awarded contract (N0001920C0001). This modification adds scope to procure 36 AN/APG-79(V)4 radar systems in support of radar integration into the C/F-18A aircraft for the government of Canada. Additionally, this modification provides supplies and support to include software, obsolescence management, engineering support and associated technical, financial, and administrative data in support of AN/APG-79(V)4 radar integration effort. Work will be performed in Forest, Mississippi (41.1%); El Segundo, California (32.6%); Andover, Massachusetts (18.3%); and Dallas, Texas (8%), and is expected to be completed in March 2024. Foreign Military Sales funds in the amount of \$140,370,582 will be obligated at time of award, none of which will expire at the end of the

current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

L3 Technologies Inc., Londonderry, New Hampshire, is awarded \$49,490,083 for a five year, indefinite-delivery/indefinite-quantity contract with five one-year options for various spare parts for the AN/PVS-31 Series binocular night vision devices. The contract value includes options, if exercised, would bring the cumulative value to \$49,490,083. Work will be performed in Londonderry, New Hampshire, and is expected to be completed March 2032. Fiscal 2021 operation and maintenance, Department of Defense (99%); and fiscal 2021 operation and maintenance, Air Force (1%) funding will be obligated at time of award in the amount of \$3,868,113 and expires this fiscal year. This contract action was not competitively procured via the beta.sam.gov website. Naval Surface Warfare Center, Crane Division, Crane, Indiana, is the contracting activity (N0016421DJQ85).

The Boeing Co., St. Louis, Missouri, was awarded a \$28,108,917 definitive contract including firm-fixed-price, cost-plus-fixed-fee, and cost-only provisions for production and engineering support services to include obsolescence redesign, integration and qualification testing, and production and deployment support as well as consumables, travel and the production of the data co-processor circuit card assemblies. This contract includes options which, if exercised, would bring the cumulative value to \$58,581,326. Work will be performed in Pleasanton, California, and is expected to complete July 2022. If all options are exercised, work will continue through September, 2026. Total obligated funding for this contract combines purchases for the U.S. government in the amount of \$10,377,110 (36.92%); and Foreign Military Sales (63.08%) for the governments of Canada (\$8,377,596; 29.80%); Taiwan (\$4,603,051; 16.38%); the Netherlands (\$2,851,755; 10.15%); South Korea (\$503,785; 1.79%); Spain (\$416,435; 1.48%); Belgium (\$360,160; 1.28%); Denmark (\$258,865; 0.92%); Norway (\$157,570; 0.56%); New Zealand (\$146,315; 0.52%); and India (\$56,275; 0.20%). This is a sole-source contract in accordance with 10 U.S. Code 2304(c) (1) as integral parts of the end items contain proprietary technology developed by The Boeing Co. The Naval Undersea Warfare Center Division Newport, Rhode Island, is the contracting activity. (Awarded Sept. 17, 2021)

Ideal Aerosmith Inc., Grand Forks, North Dakota, is awarded a \$25,685,970 cost-plus-fixed-fee contract for the Expeditionary Mission Support Station (EMSS) effort. EMSS, including updating the advanced mission planning systems, is strategically important for allowing dedicated intelligence, surveillance and reconnaissance (ISR) assets to gather ISR data that can be used in the planning process. This contract provides for the creation of mission planning software that will have the ability to plan multi-day routes with dynamic weather considerations changing over both time and location. Work will be performed in Grand Forks, North Dakota, with an expected completion date of Sept. 19, 2024. The maximum dollar value, including a 36-month base period and one 12-month option period that can run concurrently, is \$25,685,970. Fiscal 2020 research, development, test and evaluation (Navy) funds in the amount of \$8,997,268 are obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured under N00014-21-S-B001, "Long Range Broad Agency Announcement (BAA) for Navy and Marine Corps Science & Technology." Since proposals are received throughout the year under the long range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-21-C-1062).

Arête Associates, Northridge, California, is awarded a \$13,321,081 cost-plus-fixed fee and firm-fixed-price, indefinite-delivery/indefinite-quantity requirements contract for engineering services and provisioned item orders for the AN/DVS-1 Coastal Battlefield Reconnaissance and Analysis (COBRA) Block I System. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$92,907,021. Work will be performed in Tucson, Arizona (40%); Valparaiso, Florida (35%); Rancho Bernardo, California (15%); and Santa Rosa, California (10%), and is expected to be completed by September 2022. If all options are exercised work will continue through September 2028. Fiscal 2021

other procurement (Navy) funds in the amount of \$663,582 (56%); and fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$531,932 (44%) will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with Defense Federal Acquisition Regulation 6.302-(5) as a continuation of work performed under prior Phase III Small Business Innovation Research Program authorized under 15 U.S. Code § 638(r)(4) and 10 U.S. Code 2304(c)(5). The Naval Surface Warfare Center Panama City Division, Panama City, Florida, is the contracting activity (N61331-21-D-0006).

Sealift Inc. of Delaware, Oyster Bay, New York (N3220520C6173), is awarded a \$10,585,000 option (P00013) under a previously awarded firm-fixed-price contract to fund the second one-year option period. This modification exercises the second one-year option period of this contract for U.S. flagged container ship M/V LTC John U. D. Page (T-AK 4543) for the transportation and prepositioning of cargo for the Army. The previously awarded contract includes a seven-month base period, with four one-year option periods and one four-month option period, which, if exercised, would bring the cumulative value of this contract to \$53,103,000. Work will be performed worldwide and is expected to be completed by Sept. 30, 2022. Working capital funds (transportation) in the amount of \$10,585,000 for Option Two will be provided for fiscal 2022. This option is exercised subject to the availability of funds in accordance with Defense Federal Acquisition Regulation 52.232-18, availability of funds. This contract was competitively procured with proposals solicited via the Federal Business Opportunities website and two offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220520C6173).

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$10,253,908 cost-plus-incentive-fee modification (P00009) to a previously awarded contract (N0001920C0032). This modification adds scope to provide additional field level maintenance capabilities in support of F-35 Lightning II Joint Strike Fighter site activations for the Navy and Marine Corps. Work will be performed in Grand Rapids, Michigan (51%); Endicott, New York (31%); Orlando, Florida (15%); and Fort Worth, Texas (3%), and is expected to be completed in August 2023. Fiscal 2019 aircraft procurement (Navy) funds in the amount of \$10,253,908 will be obligated at time of award, all of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Sealift Inc. of Delaware, Oyster Bay, New York (N3220519C3512), is awarded a \$9,650,600 option (P00017) under a previously awarded firm-fixed-price contract to fund the third one-year option period. The option will continue to provide for the transportation and prepositioning of cargo to support the Air Force's global prepositioning requirements via the U.S. flagged container ship M/V CAPT David I. Lyon (T-AK 5362). The previously awarded contract includes a three and a half-month base period with four one-year option periods and a seven and a half-month fifth option, which, if exercised, would bring the cumulative value of this contract to \$59,469,200. Work will be performed worldwide and is expected to be completed by Sept. 30, 2022. Working capital funds (Air Force) in the amount of \$9,650,600 for Option Three will be provided for fiscal 2022. This option is exercised subject to the availability of funds in accordance with Defense Federal Acquisition Regulation 52.232-18. This contract was competitively procured with proposals solicited via the Federal Business Opportunities website and two offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220519C3512).

Opportunities and Resources Inc., Wahiawa, Hawaii, is awarded a \$9,025,083 indefinite-delivery/indefinite-quantity contract for custodial services at approximately 585 buildings at various locations on Oahu. The contract also contains four unexercised options, which if exercised would increase cumulative contract value to \$58,357,387. Work will be performed in Oahu, Hawaii, and is expected to be completed by September 2026. Fiscal 2022 operation and maintenance (Navy) contract funds in the amount of \$8,470,012 for recurring work will be obligated on individual task orders during the base period. This contract is a sole-source procurement under the AbilityOne Program (Defense Federal

Acquisition Regulation Part 8.704). No funds will be obligated at time of award. The Naval Facilities Engineering Systems Command, Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62478-21-D-2402).

GCR-MDI LLC, Pinehurst, North Carolina, is awarded an \$8,287,454 indefinite-delivery/indefinite-quantity modification (A00012) to previously awarded contract N69450-19-D-1725 at Naval Submarine Base Kings Bay, Georgia, and outlying areas. This modification provides for the exercise of Option Year Two for multi-function support services to include custodial, pest control, integrated solid waste management, grounds maintenance and landscaping, pavement clearance, and other related services. After award of this option, the total contract cumulative contract value will be \$25,791,197. Work will be performed in Kings Bay, Georgia (99%); and outlying areas (1%). Work is expected to be completed by Sept. 30, 2022. No funds will be obligated at time of award. Fiscal 2022 operation and maintenance (Navy); fiscal 2022 Defense Health Program; and fiscal 2022 family housing operation and maintenance (Navy) contract funds in the amount of \$7,799,186 for recurring work will be obligated on an individual task order issued during the option period. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity (N69450-19-D-1725).

September 17, 2021

Archer Western Federal JV, Chicago, Illinois (N69450-19-D-0907); B.L. Harbert International, Birmingham, Alabama (N69450-19-D-0908); The Haskell Co., Jacksonville, Florida (N69450-19-D-0909); The Korte Co., St. Louis, Missouri (N69450-19-D-0910); and Mortenson Construction, Minneapolis, Minnesota (N69450-19-D-0911), are awarded a combined \$85,000,000 firm-fixed-price modification to increase the combined cumulative maximum dollar value of all five indefinite-delivery/indefinite-quantity multiple award contracts for construction projects located primarily within the Naval Facilities Engineering Systems Command Southeast (NAVFAC SE) area of operations (AO). The work to be performed provides for, but is not limited to, general building type projects (new construction, renovation, alteration, demolition, and repair work) including industrial, airfield, aircraft hangar, aircraft traffic control, infrastructure, administrative, training, dormitory, and community support facilities. After award of this modification, the total cumulative contract value for all five contracts combined will be \$325,000,000. Work will be performed within the NAVFAC SE AO, which includes Florida (15%); Georgia (15%); Louisiana (14%); Mississippi (14%); South Carolina (14%); Tennessee (14%); and Texas (14%). The term of the contracts is not to exceed 60 months with an expected completion date of February 2024. No funds will be obligated at time of award. The NAVFAC SE, Jacksonville, Florida, is the contracting activity.

United Technologies Corp., Pratt and Whitney Military Engines, East Hartford, Connecticut, is awarded a \$77,986,549 firm-fixed-price modification (P00003) to a previously awarded indefinite-delivery/indefinite-quantity contract (N0001920D0013). This modification increases the contract ceiling to procure propulsion system spare parts, modules, support equipment/packaging handling shipping and transportation material, and depot lay-in material in support of the F-135 propulsion system requirements for the Air Force, Marine Corps, Navy, Foreign Military Sales customers and non-Department of Defense participants. Work will be performed in East Hartford, Connecticut (56%); North Berwick, Maine (13%); Indianapolis, Indiana (10%); Jupiter, Florida (7%); Windsor Locks, Connecticut (5%); Bristol, United Kingdom (4%); Rockford, Illinois (2%); Santa Isabel, Puerto Rico (2%); Phoenix, Arizona (1%), and is expected to be completed in December 2024. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Perma-Fix Environmental Services Inc., Oak Ridge, Tennessee, is awarded a \$39,998,941 firm-fixed-price contract for maintenance and modernization aboard Ex-McKee (AS-41) during the fiscal 2021 decontamination availability at Norfolk Naval Shipyard. Work will be performed in Portsmouth, Virginia, and expected to be completed by September 2023. Fiscal 2021 operation and maintenance (Navy) funds

in the amount of \$39,998,941 will be obligated at the time of award and will expire at the end of the current fiscal year. This contract was competitively procured. Norfolk Naval Shipyard, Portsmouth, Virginia, is the contracting activity (N42158-21-C-0004).

Bowhead Marine Support Services LLC, Springfield, Virginia (M68909-21-D-7912); DeVilliers Technology Solutions LLC, doing business as, DeVil-Tech, Stafford, Virginia (M68909-21-D-7913); FedWriters Inc., Fairfax, Virginia (M68909-21-D-7914); and MERPTech LLC, Herndon, Virginia (M68909-21-D-7915), are awarded a combined \$31,166,049 indefinite-delivery/indefinite-quantity multiple award contract for the procurement of services to support the Amphibious Vehicle Test Branch. The operations, maintenance and technical services contract will be used to issue task orders to provide test and evaluation support including, but not limited to amphibious vehicles, ground combat vehicles, systems, and equipment for the Marine Corps Systems Command and Program Executive Officer Land Systems. Types of services required include, scuba diving services, emergency medical treatment services, watercraft operation and maintenance services, heavy equipment operation and maintenance services, communications equipment operation and maintenance services, advanced manufacturing, welding, and machining services, technical editing services, electronics services, media services, engineering services, information technology services, data collection services, administrative management services, financial management services, security services, and crane services. This five-year contract includes five one-year option periods which, if exercised, would bring the cumulative value to \$69,000,000, over a ten year period to the four vendors combined. Work will be performed in Camp Pendleton, California. The period of performance for the base award is from Sept. 17, 2021, through Sept. 16, 2026. If all options are exercised, the period of performance would extend through Sept. 16, 2031. Awardees will have the opportunity to compete for task orders during the ordering period. No funds will be obligated at time of award. Fiscal 2021 (Marine Corps) funds will be obligated as task orders are issued using research, development, test and evaluation funds. This contract was competitively provided via a request for proposal (M68909-21-R-7903) published via the government-wide Point of Entry beta.sam.gov website. Seven offers were received and four were selected for award. Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M68909-21-D-7912-7915).

Etolin Strait Partner LLC, Norfolk, Virginia, is awarded a \$30,000,000 firm-fixed-price modification to exercise Option Two of an indefinite-delivery/indefinite-quantity contract for the Naval Facilities Engineering Systems Command (NAVFAC) Washington area of operations (AO). The work to be performed provides for various maintenance, repair, alteration, and minor new construction projects to government facilities located primarily within the NAVFAC Washington AO. The option period is from Sept. 30, 2021, to Sept. 29, 2022. After award of this option, the total cumulative contract value will be \$90,000,000. No task orders are being issued at this time. Work will be performed within the NAVFAC Washington AO including but not limited to Maryland (45%); Washington, D.C. (30%); and Virginia (25%). Task orders will be primarily funded by operation and maintenance (Navy); operation and maintenance (Marine Corps); and Navy working capital funds. No funds will be obligated at time of award. Funds will be obligated on individual task orders as they are issued. NAVFAC Washington, Washington, D.C., is the contracting activity (N40080-19-D-0007).

Orbis Sibro Inc., Mount Pleasant, South Carolina (N3904018D0003); Q.E.D. Systems Inc., Virginia Beach, Virginia (N3904018D0004); Delphinus Engineering, Eddystone, Pennsylvania (N3904018D0005); and Oceaneering International, Chesapeake, Virginia (N3904018D0006), are awarded a combined cumulative \$29,580,106 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity, multiple award modification to exercise Option Period Three to provide non-nuclear production support for U.S. naval submarine projects and repairs. Work will be performed in Kittery, Maine, and is expected to be completed by October 2022. No funding will be obligated at time of award. All Option Period Three orders placed against these contracts will utilize fiscal 2022 operation and maintenance (Navy) funding. The Portsmouth Naval Shipyard, Kittery, Maine, is the contracting activity.

Saab Inc., Syracuse, New York, is awarded a \$20,860,970 cost-plus-fixed-fee term and firm-fixed-price contract for engineering, technical, logistical, and material support services for lifecycle sustainment of the AN/SPS-77 (variants) Radar Systems; Marine Corps AN/TPS-80 Ground/Air Task Oriented Radar

Systems; Celsius Tech Radar and Optronic Site 200 Fire Control Radar System; and other Saab sensor systems. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$91,535,248. Work will be performed in Syracuse, New York (68%); Järfälla, Sweden (12%); Göteborg, Sweden (10%); Washington, D.C. (5%); and Dam Neck, Virginia (5%), and is expected to be completed by September 2022. If all options are exercised, work will continue through September 2026. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$7,700,000 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Surface Warfare Center, Port Hueneme Division, Port Hueneme, California, is the contracting activity (N63394-21-C-0009).

B. L. Harbert International LLC, Birmingham, Alabama, is awarded an \$18,519,585 firm-fixed-price task order (N6945021F0737) under a multiple award construction contract for the repair of buildings at Naval Air Station Pensacola. The work to be performed provides for the design build repair of Buildings 1853, 3828, and 3962, to include roof repair and replacement, replacement of interior finishes, doors and windows, repairs to fire suppression and alarm systems, electrical and communications systems, mechanical system, building site, lead/asbestos abatement and mold remediation. The option, if exercised, provides for the repair of Building 628. The task order also contains one unexercised option, which if exercised would increase the cumulative task order value to \$21,335,187. Work will be performed in Pensacola, Florida, and is expected to be completed by September 2023. Fiscal 2021 operation and maintenance, (Navy) contract funds in the amount of \$18,519,585 are obligated on this award and will expire at the end of the current fiscal year. Two proposals were received for this task order. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity (N69450-19-D-0908).

September 16, 2021

The Whiting-Turner Contracting Co., Baltimore, Maryland, is awarded a \$137,351,160 firm-fixed-price task order (N6247321F4727) under a multiple award construction contract for the replacement of several facilities damaged by earthquakes at Naval Air Weapons Station China Lake. Work to be performed provides for the design and construction of cast propellant mix facility, warhead casing operations facility, and motor assembly compound in support of the China Lake Propulsion Laboratory. The task order also contains 23 unexercised options and six planned modifications, which if exercised would increase cumulative task order value to \$149,622,814. Work will be performed in Ridgecrest, California, and is expected to be completed by February 2024. Fiscal 2020 military construction (Navy) contract funds in the amount of \$132,407,174; and fiscal 2021 other procurement (Navy) funds in the amount of \$3,514,720 are obligated on this award and will not expire at the end of the current fiscal year. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$1,429,267 are obligated on this award and will expire at the end of the current fiscal year. Three proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-21-D-1215).

Ultra Electronics Ocean Systems, Braintree, Massachusetts, is awarded a \$23,151,045 fixed-price, cost-plus-fixed-fee and cost only modification to previously awarded contract N00024-18-C-6405 to exercise options for the production of MK54 MOD 0 lightweight torpedo (LWT) array kits, associated production support material, spares, and engineering and hardware support services. This contract combines purchases for the U.S. government (12%); and the governments of the Netherlands, Belgium, New Zealand, Spain, and Brazil (88%) under the foreign Military Sales (FMS) program. This modification is in support of the MK54 MOD 0 LWT program. Work will be performed in Braintree, Massachusetts (70%); and Lititz, Pennsylvania (30%), and is expected to be completed by April 2025. Fiscal 2019 weapons procurement (Navy) funds in the amount of \$1,999,019 (9%); fiscal 2021 weapons procurement (Navy) funds in the amount of \$800,009 (3%); and Foreign Military Sales (governments of the Netherlands, Belgium, New Zealand, Spain, and Brazil) funds in the amount of \$20,352,017 (88%) will be obligated at

time of award, of which \$1,999,019 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Cianbro Corp., Pittsfield, Maine, is awarded a \$22,283,071 firm-fixed-price contract modification to previously awarded contract N40085-20-C-8500 for additional bedrock removal from the super flood basin to support extension of multi-mission Dry Dock #1 located at the Portsmouth Naval Shipyard. This modification provides for the underwater blasting of bedrock and removal of the blasted rock from the newly constructed super flood basin. Work will be performed in Kittery, Maine, and is expected to be completed by February 2022. After award of this modification, the total cumulative contract value will be \$250,104,126. Fiscal 2021 military construction (Navy) contract funds in the amount of \$22,283,071 are obligated on this award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Atlantic, Officer in Charge of Construction, Portsmouth Naval Shipyard, Portsmouth, New Hampshire, is the contracting activity.

Simmonds Precision Products, Vergennes, Vermont, is awarded a \$13,712,394 modification (P00004) to previously awarded cost-plus-fixed-fee contract N00014-19-C-1062 for the Low-Cost Air-Drop Munition (LCAM) weapon system development program. The total cumulative face value of the contract is \$28,522,207 and no options were proposed. Work will be performed in Vergennes, Vermont (74.4%); Arlington, Virginia (5.2%); Indian Head, Maryland (3.9%); Yuma, Arizona (3.8%); Burlington, Vermont (3%); Torrance, California (2.6%); Westminster, Maryland (2.3%); Rancho Cordova, California (1.9%); and various places below 1%. Modification P00004 extends the period of performance; work is expected to be completed by Dec. 31, 2022. Fiscal 2020 research, development, test and evaluation (Navy) funds in the amount of \$13,611,788 are obligated at time of award and will expire at the end of the current fiscal year. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-19-C-1062).

Yulista Support Services, Huntsville, Alabama, is awarded a maximum value \$11,300,244, cost-plus-fixed-fee modification to previously awarded contract N61331-20-C-0018 for operation and maintenance support of the Sea Fighter (FSF-1). Work will be performed in Panama City Beach, Florida, and is expected to be completed by September 2022. Fiscal 2022 contract center-working capital funds in the amount of \$5,014,919 incremental funding will be obligated at time of award of modification and will not expire at the end of the current fiscal year. The Naval Surface Warfare Center Panama City, Panama City, Florida, is the contracting activity.

J.I. Garcia Construction Inc., Fresno, California, is awarded a \$10,090,000 firm-fixed-price task order (N6247321F5311) under a multiple award construction contract for design and construction at Naval Weapons Station (NWS) Seal Beach. The work to be performed provides for the design and construction of Building 515 at NWS Seal Beach, Detachment Norco. The work also includes three option items that requires the contractor to design and construct a recreation fitness area, install non-operable windows, and construct an exterior exercise yard. The task order also contains three unexercised options, which if exercised would increase cumulative task order value to \$10,449,000. Work will be performed in Norco, California, and is expected to be completed by September 2023. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$10,090,000 are obligated on this award and will expire at the end of the current fiscal year. Three proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-18-D-5817).

Lockheed Martin Corp., Rotary and Mission Systems, Syracuse, New York, is awarded an \$8,298,444 fixed-priced-incentive fee contract for Navy systems and associated equipment. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$117,000,000. Work will be performed in Syracuse, New York (70%); and Oldsmar, Florida (30%), and is expected to be completed by April 2023. If all options are exercised, work will continue through June 2026. Fiscal 2021 other procurement (Navy) funds in the amount of \$6,298,444 (76%) and fiscal 2019 other procurement (Navy) funds in the amount of \$2,000,000 (24%) will be obligated at time of award, of which funding in the amount of \$2,000,000 will expire at the end of the current fiscal year. This contract was competitively

procured via the Federal Business Opportunities website with one offer received. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-C-6113).

J.I. Garcia Construction Inc., Fresno, California, is awarded a \$7,573,206 firm-fixed-price task order (N6247321F5437) under a multiple award construction contract for a design-build KC-46A mission planning center at Travis Air Force Base, California. The work to be performed will provide a facility to support KC-46A mission planning. The contract contains four options, which requires the contractor to repair sewer line, construct the window infill, perform hazardous material remediation, and construct physical security upgrades at the mechanical yard. Work will be performed in Fairfield, California, and is expected to be completed by December 2022. Fiscal 2021 sustainment, restoration, and maintenance, (Air Force) contract funds in the amount of \$7,573,206 are obligated on this award and will expire at the end of the current fiscal year. Five proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-18-D-5817).

September 15, 2021

Collins Aerospace, Cedar Rapids, Iowa, is awarded a \$294,139,940 modification (P00020) to a previously awarded, firm-fixed-price, indefinite-delivery/indefinite-quantity contract (N0042118D0004). This modification exercises an option for the procurement of 8,085 AN/ARC-210(v) radios for installation in over 400 strategic and tactical airborne, seaborne and land based (mobile and fixed) platforms for the Navy, Marine Corps, Army, Coast Guard, other government agencies, and Foreign Military Sales customers. Work will be performed in Cedar Rapids, Iowa, and is expected to be completed in September 2024. No funds are being obligated at time of award; funds will be obligated on individual delivery orders as they are issued. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$37,490,229 firm-fixed-price modification (P00012) to a previously awarded indefinite-delivery/indefinite-quantity contract (N0001919D0015). This modification increases the contract ceiling and adds scope to procure ancillary mission equipment in support of F-35 Joint Strike Fighter Lot 15 production aircraft for the Navy, Marine Corps, Air Force, Foreign Military Sales customers, and non-U.S. Department of Defense participants. Work will be performed in Fort Worth, Texas, and is expected to be completed in December 2023. No funds are being obligated at time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Helber Hastert and Fee Planners Inc., Honolulu, Hawaii, is awarded a \$25,000,000 indefinite-delivery/indefinite-quantity architect-engineer contract for planning and engineering services at various locations worldwide with emphasis in the Pacific and Indian Ocean areas of operation. The work to be performed provides for the development of various planning documents such as regional integration, shore infrastructure, installation development, and area development plans. Work may also require the development of other related documents such as business case, economic, and real estate analyses, facility life cycle and enhanced use lease studies, landscape architecture plans, land surveys, and topographic mapping. The term of the contract is not to exceed 60 months with an expected completion date of September 2026. No task orders are being issued at this time. Work will be performed at various Navy and Marine Corps facilities and other government facilities worldwide including, but not limited to, Hawaii (40%); Guam (30%); Japan (25%); Korea (3%); Singapore (1%); and Diego Garcia (1%). Fiscal 2021 operation and maintenance, (Navy) contract funds in the amount of \$10,000 are obligated on this award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by operation and maintenance (Navy). This contract was competitively procured via the beta.sam.gov website with two proposals received. The Naval Facilities Engineering Systems Command, Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-21-D-0200).

Raytheon Missiles and Defense, Tucson, Arizona, is awarded a \$23,957,584 firm-fixed price, indefinite-delivery/indefinite-quantity contract for the delivery of up to 15 low-rate initial production air-to-air launchers, ancillary components, training, and associated engineering services in support of the Program Manager Ground Based Air Defense, Marine Air Defense Integrated System Increment 1 program. All work will be performed in Tucson, Arizona, with an estimated completion date of Sept. 14, 2026. Fiscal 2020 procurement (Marine Corps) funds in the amount of \$9,219,117 will be obligated at the time of award and funds will not expire this fiscal year. This contract was not competitively procured in accordance with Defense Federal Acquisition Regulation 6.302-1 — only one responsible source and no other supplies or services will satisfy agency requirements. The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-21-D-0073).

Norfolk Dredging Co., Inc., Chesapeake, Virginia, is awarded a \$23,255,989 firm-fixed-price contract for construction of maintenance dredging at Naval Weapons Station Earle. The work to be performed provides for maintenance dredging the areas surrounding piers including all berths, turning basin, terminal channel, and a portion of Sandy Hook federal channel. Work will be performed in Colts Neck, New Jersey, and is expected to be completed by December 2022. Fiscal 2021 operation and maintenance (Navy) in the amount of \$23,255,989 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website with five proposals received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-21-B-0055).

Lockheed Martin Corp., Orlando, Florida, is awarded a \$16,616,380 firm-fixed-price modification to previously-awarded contract N00024-18-C-4208 to exercise options for machinery control systems shipsets in support of DDG modernization. Work will be performed in Orlando, Florida (40%); Airmont, New York (20%); Rancho Cucamonga, California (10%); Brenham, Texas (7%); Baltimore, Maryland (6%); Milford, Massachusetts (6%); Pompano Beach, Florida (6%); and Brockton, Massachusetts (5%), and is expected to be completed by December 2025. Fiscal 2021 other procurement (Navy) funds in the amount of \$11,050,920 (66.5%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$5,525,460 (33.3%); and fiscal 2015 shipbuilding and conversion (Navy) funds in the amount of \$40,000 (0.2%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Webcor Construction LP, doing business as Webcor Builders, Alameda, California, is awarded a \$16,319,924 firm-fixed-price task order (N6247321F5402) under a multiple award construction contract for construction of the laboratory revitalization program projects at Naval Air Weapons Station China Lake. The work to be performed includes the design and construction of a new storage warehouse; a firing range support facility; a prototype laboratory; and a pad-mounted transformer for electrical service. The options, if exercised, provide for an administrative building, concrete-covered parking stall, and additional covered parking. The task order also contains three unexercised options, which if exercised would increase cumulative task order value to \$23,788,493. Work will be performed in Ridgecrest, California, and is expected to be completed by May 2023. Fiscal 2020 research, development, test and evaluation (Navy) contracts funds in the amount of \$9,000,000; fiscal 2021 research, development, test and evaluation (Navy) contracts funds in the amount of \$1,899,679; and fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$5,420,245 are obligated on this award and will expire at the end of the current fiscal year. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-21-D-1214).

General Dynamics Information Technology Inc., Falls Church, Virginia, is awarded a \$9,583,816 cost-plus-fixed-fee indefinite-delivery/indefinite-quantity contract. This contract provides support services for the analysis, design, development, test, integration, deployment, and operations of various information technology (IT) systems. This support includes software maintenance, enhancements, design, development, testing, evaluation, coding, integration, database administration, and data analysis for various Naval Air Warfare Center, Weapons Division (NAWCWD), Logistics Maintenance Information Systems Technology Division IT projects. Work will be performed in China Lake, California, and is

expected to be completed in September 2024. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; two offers were received. The NAWCWD, China Lake, California, is the contracting activity (N6893621D0050).

MOWA Barlovento LLC JV, Gautier, Mississippi, is awarded a \$9,475,750 firm-fixed-price task order (N6945021F0716) under a multiple award construction contract for the renovation of Building 304 South at Naval Support Activity Panama City. The work to be performed provides for removal of existing partitions and furring; addition of new gypsum board walls, acoustical ceilings and finishes; addition of an elevator; removal of hazardous materials encountered during renovation; removal and replacement of heating, ventilation, and air conditioning system; removal and replacement of exterior windows and doors; complete renovation of electrical distribution and lighting system, receptacle power, data and audio-visual systems; and installation of a new fire alarm system. Work will be performed in Panama City, Florida, and is expected to be completed by January 2023. Fiscal 2021 defense working capital funds in the amount of \$9,475,750 are obligated on this award and will not expire at the end of the current fiscal year. Five proposals were received for this task order. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity (N69450-17-D-0509).

Parsons Government Services Inc., Pasadena, California, is awarded an \$8,093,401 firm-fixed-price modification to increase the maximum dollar value of an existing task order (N6247320F3000) to provide construction management services at Naval Air Weapons Station China Lake. This modification provides for the construction management services, including programmatic, technical, and construction oversight in support of the Officer in Charge of Construction China Lake. After award of this modification, the total cumulative contract value will be \$15,943,512. Work will be performed in Ridgecrest, California, and is expected to be completed by September 2022. Fiscal year 2021 military construction funds in the amount of \$8,093,401 are obligated on this award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Officer in Charge of Construction, China Lake, California, is the contracting activity (N62473-20-F-3000).

September 14, 2021

Alliant Techsystems Operations LLC, a wholly-owned subsidiary of Northrop Grumman Defense Systems Inc., Northridge, California, is awarded a \$41,231,833 firm-fixed-price contract. This contract procures low rate initial production Lot One of the AGM-88G Advanced Anti-Radiation Guided Missile - Extended Range (AARGM-ER). This contract provides for the production and delivery of 16 AGM-88G AARGM-ER All Up Rounds, six AGM-88G AARGM-ER Captive Air Training Missiles, four Common Munitions BIT Reprogramming Equipment Plus interface devices, initial spares, and required supplies and support. Work will be performed in Northridge, California (61%); Rocket Center, West Virginia (21%); China Lake, California (11%); and Ridgecrest, California (7%), and is expected to be completed in March 2024. Fiscal 2021 weapons procurement (Navy) funds in the amount of \$41,231,833 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921C0044).

BAE Systems Technology Solutions & Services Inc., Rockville, Maryland, is awarded a \$17,058,653 cost-plus-fixed-fee contract modification (P00028) to a previously awarded and announced contract (N00030-19-C-0007) to provide logistics, engineering, and integration support of the U.S. Ohio-class and U.K. Vanguard-class Strategic Weapon System platforms, including support of future concepts. Work will be performed in Saint Mary's, Georgia (39%); Mechanicsburg, Pennsylvania (26%); Rockville, Maryland (21%); Silverdale, Washington (3%); Portsmouth, Virginia (1%); Cleveland, South Carolina (1%); New Market, Maryland (1%); Carlisle, Pennsylvania (1%); Mooresboro, North Carolina (1%); Forsyth, Georgia (1%); Mesa, Arizona (1%); Saint Simons Island, Georgia (1%); Perkins, Georgia (1%); Savannah, Georgia (1%); and St. Peters, Missouri (1%), with an expected completion date of Sept. 30, 2022. Subject to the availability of funding, fiscal 2022 operations and maintenance (Navy) contract funds in the amount

of \$17,058,653 will be obligated. No funds will expire at the end of the current fiscal year. This contract was a sole source acquisition pursuant to 10 U.S. Code 2304(c)(1). Strategic Systems Programs, Washington, D.C., is the contracting activity (N00030-19-C-0007).

Northrop Grumman Systems Corp., Linthicum, Maryland, is awarded a \$12,850,000 firm-fixed-price modification (P00007) to a previously awarded contract (N0001920C0007). This modification provides for the retrofit of Airborne Electronic Attack Weapons Replacement Assembly with 100 production kits required for the modification of ALQ-218 avionics in support of EA-18G upgrades, to include 64 kits for the Navy, and 36 kits for the government of Australia. Work will be performed in East Hartford, Connecticut (92%); and Bethpage, New York (8%), and is expected to be completed in November 2023. Fiscal 2020 aircraft procurement (Navy) funds in the amount of \$8,161,881; and Foreign Military Sales funds in the amount of \$4,688,119 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Walga Ross Group JV, Joplin, Missouri, is awarded a \$9,930,090 firm-fixed-price task order (N6945021F0639) under a multiple award construction contract for the renovation of Building 1846 at Naval Air Station Corpus Christi. The work to be performed provides for facilities renovation of the command suite and administrative office to include temporary facilities during the construction period. Work also includes mechanical and fire protection upgrades to the warehouse. Work will be performed in Corpus Christi, Texas, and is expected to be completed by January 2023. Fiscal 2021 defense working capital funds in the amount of \$9,930,090 are obligated on this award and will not expire at the end of the current fiscal year. Five proposals were received for this task order. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity (N69450-19-D-1084).

Northrop Grumman Systems Corp., Melbourne, Florida, is awarded a \$7,824,578 modification (P00001) to a firm-fixed-price order (N6833520F0277) against a previously issued basic ordering agreement (N6833515G0026). This modification provides for the procurement of two vapor cycle test stands in support of intermediate and depot level testing for the E-2 aircraft. Work will be performed in Melbourne, Florida, and is expected to be completed in October 2024. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$7,824,578 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

September 13, 2021

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$2,014,074,283 cost-plus-fixed-fee, cost-plus-incentive-fee, fixed-price-incentive-fee contract definitization. This contract provides logistics support, to include ground maintenance activities, action request resolution, depot activities, automatic logistics information system operations and maintenance, reliability and maintainability, supply chain management, pilot training, maintainer training, and training system sustainment in support of delivered F-35 Lightning II Joint Strike Fighter air systems for the Navy, Marine Corps, Air Force, Foreign Military Sales (FMS) customers and non-U.S. Department of Defense (DOD) participants. Work will be performed in Fort Worth, Texas (57%); Orlando, Florida (26%); Greenville, South Carolina (11%); Samlesbury, United Kingdom (4%); and El Segundo, California (2%), and is expected to be completed in December 2021. Fiscal 2021 operation and maintenance (Air Force) funds in the amount of \$822,014,213; fiscal 2021 operation and maintenance (Marine Corps) funds in the amount of \$382,221,083; fiscal 2021 operation and maintenance (Navy) funds in the amount of \$176,725,435; fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$2,292,773; fiscal 2021 aircraft procurement (Navy) funds in the amount of \$1,210,802; FMS funds in the amount of \$217,257,071; and non-U.S. DOD participant funds in the amount of \$412,352,906 will be obligated at time of award, \$1,380,960,731 of which will expire at the end of the current fiscal year. This contract was

not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921C0020).

Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a not-to-exceed \$411,810,561 firm-fixed-price, cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity undefinitized contract. This contract procures initial spares to include global spares packages, base spares packages, deployment spares packages, and afloat spares packages in support of F-35 Lightning II Joint Strike Fighter air vehicle delivery schedules for the Navy Marine Corps, Air Force, non-U.S. Department of Defense participants, and Foreign Military Sales customers. Work will be performed in Fort Worth, Texas, and is expected to be completed in September 2026. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921D0001).

BAE Systems Jacksonville Ship Repair LLC, Jacksonville, Florida, was awarded a \$25,079,996 cost-plus-award-fee modification on to exercise an option to previously awarded contract N00024-20-C-2320 for the accomplishment of post shakedown availability for Freedom-variant littoral combat ship LCS 21. Work will be performed in Mayport, Florida, and is expected to be completed by Sept. 30, 2022. Fiscal 2021 shipbuilding and conversion (Navy) funding in the amount of \$10,568,942 (42%) will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Sept. 10, 2021)

Jabez-Abscher-1 JV, Orting, Washington, is awarded a \$20,805,000 design-bid-build, firm-fixed-price task order (N44255-21-F-4381) under a multiple award construction contract for the seismic repairs and life safety improvements to Building 431, Puget Sound Naval Shipyard, Washington. The work to be performed includes demolition, abatement, excavation, placement of micropiles, reinforcement of existing pile caps, placing grade beams and concrete slabs, reinforcing walls, constructing pilasters and spandrels, modifications and repair of existing masonry, modifications to steel structure, existing architectural conditions, plumbing, piping, and heating, ventilation and air conditioning, existing low voltage electrical systems, existing fire suppression and fire alarm system, building controls, and salvage and reinstallation of existing government-owned equipment. Work will be performed in Bremerton, Washington, and is expected to be completed by August 2023. Fiscal 2021 operation and maintenance, (Navy) contract funds in the amount of \$20,805,000 are obligated on this award and will expire at the end of the current fiscal year. Two proposals were received for this task order. Naval Facilities Engineering Systems Command, Northwest, Silverdale, Washington, is the contracting activity (N44255-17-D-4037).

Science Applications International Corp., Reston, Virginia, was awarded an \$11,691,110 indefinite-delivery/indefinite-quantity contract including cost-plus-fixed-fee and cost only provision for services, and firm-fixed-price provisions for spare parts in support of the MK 695 Torpedo System Test Set (TSTS). This contract combines purchases for the U.S. government (50%); and the government of the Netherlands (50%) under the Foreign Military Sales program. The services under this contract cover repair services, obsolescence management, prototype spares hardware and software fabrication and on-site technical assistance. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$24,476,114. Work will be performed in government site locations (10%) and contractor site locations (90%). Work will be performed in Newport and Middletown, Rhode Island; New London, Connecticut; and Hanover, Maryland, and is expected to be completed by September 2026, if all options are exercised. Foreign Military Sales funds (NE-P-LHP) in the amount of \$50,000 (50%); and fiscal 2021 weapons procurement (Navy) funds in the amount of \$50,000 (50%) will be obligated at time of award. This contract was competitively procured via the Federal Business Opportunities website with two acceptable offers received. The Naval Undersea Warfare Center Division Newport, Newport, Rhode Island, is the contracting activity. (Awarded Sept. 10, 2021)

September 10, 2021

Raytheon Technologies Corp., Pratt and Whitney Engines, East Hartford, Connecticut, is awarded a \$66,481,371 fixed-price-incentive-firm-target modification (P00030) to a previously awarded contract (N0001918C1021). This modification provides increment (2) funding for one Short Take-Off/Vertical Landing (STOVL) and one Conventional Take-Off and Landing Block 4 developmental engines, and procures one STOVL nozzle module, one STOVL three-bearing swivel module, two STOVL initial spare engines, and one initial spare power module in support of the F-35 Lightning II aircraft program for the Air Force, Navy, Marine Corps, and non-U.S. Department of Defense (DOD) participants. Work will be performed in East Hartford, Connecticut (56%); North Berwick, Maine (13%); Indianapolis, Indiana (10%); Jupiter, Florida (7%); Windsor Locks, Connecticut (5%); Bristol, United Kingdom (4%); Rockford, Illinois (2%); Santa Isabel, Puerto Rico (2%); and Phoenix, Arizona (1%), and is expected to be completed in December 2022. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$52,067,173, fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$5,906,118, fiscal 2021 research, development, test and evaluation (Air Force) funds in the amount of \$5,906,118, and non-U.S. DOD participant funds in the amount of \$2,601,962 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

BAE Systems Land & Armaments L.P., Sterling Heights, Michigan, is awarded a \$29,783,777 cost-plus-fixed-fee modification to previously awarded contract (M67854-16-0006) for Amphibious Combat Vehicles (ACV). This contract modification provides for the exercise of options for the Phase Three design and development of the ACV medium caliber cannon mission role variant. Work will be performed in San Jose, California (45%); York, Pennsylvania (20%); Kongsberg, Norway (20%); Stafford, Virginia (10%); Bolzano, Italy (3.5%); and Aiken, South Carolina (1.5%) with an expected completion date of July 2022. Fiscal 2020 research, development, test and evaluation (Marine Corps) funds in the amount of \$910,193 will be obligated at the time of award, and will expire at the end of the current fiscal year. Fiscal 2021 research, development, test and evaluation (Marine Corps) funds in the amount of \$7,690,548 will be obligated at the time of award, and will not expire at the end of the current fiscal year. Marine Corps Systems Command, Quantico, Virginia, is the contracting activity.

Northrop Grumman Systems Corp., Linthicum Heights, Maryland, is awarded a not-to-exceed \$28,700,000 modification to previously awarded firm-fixed-price contract M67854-19-C-0043 for Ground/Air Task-Oriented Radar (G/ATOR) systems. This modification provides for the procurement of one additional G/ATOR system for the Air Force. The G/ATOR program is managed within the portfolio of Program Executive Officer Land Systems, Quantico, Virginia. Work will be performed in Linthicum, Maryland (37%); East Syracuse, New York (28%); Stafford Springs, Connecticut (7%); Tulsa, Oklahoma (6%); Syracuse, New York (4%); Valencia, California (3%); San Diego, California (3%); Richardson, Texas (3%); Farmingdale, New York (2%); St. Paul, Minnesota (2%); Gilbert, Arizona (1%); Phoenix, Arizona (1%); Lowell, Massachusetts (1%); Littleton, Colorado (1%); and Durham, North Carolina (1%). Work is expected to be complete in January 2025. Fiscal 2021 procurement (Air Force) funds in the amount of \$14,350,000 are being obligated at the time of award, none of which will expire at the end of the current fiscal year. This modification was not competitively procured in accordance with Defense Federal Acquisition Regulation 6.302-1 and 10 U.S. Code § 2304(c)(1). Marine Corps Systems Command, Quantico, Virginia, is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded an \$11,911,903 cost-plus-fixed-fee modification (P00018) to a previously issued order (N0001920F0571) against a previously issued basic ordering agreement (N0001919G0008). This modification adds scope and exercises options to procure material kits and special test/tooling equipment and provide non-recurring engineering in support of engineering change proposal development to support F-35 Joint Strike Fighter aircraft retrofit and modification efforts for the Navy, Marine Corps, Air Force, non-U.S. Department of Defense (DOD) participants and the governments of Israel, Japan, and the Republic of Korea. Work will be performed in Fort Worth, Texas, and is expected to be completed in December 2030. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$3,417,745; fiscal 2021 aircraft procurement (Air

Force) funds in the amount of \$1,276,182; fiscal 2019 aircraft procurement (Air Force) funds in the amount of \$220,104; non-U.S. DOD participants funds in the amount of \$814,956; and Foreign Military Sales funds in the amount of \$6,182,916 will be obligated on this award, of which \$220,104 will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Tantara Corp., Marlboro, Massachusetts, is awarded \$9,875,000 firm-fixed-price contract for replacement and construction of wastewater treatment plant, Public Works Department Earle. The project will replace the existing filter sewage treatment system. The secondary treatment system will be replaced with a new biological treatment process that will include new tankage, equipment, power and controls for a complete treatment system, upgrades to existing facilities, utilities and other infrastructure, replacement of the existing sand filter control panel, demolition of process equipment no longer needed, and other items. Work will be performed in Earle, New Jersey, and is expected to be completed by Nov. 25, 2022. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$9,875,000.00 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov online website with seven proposals received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-21-D-0057).

Huntington Ingalls Inc., Pascagoula, Mississippi, is awarded a \$9,788,739 cost-plus-award-fee delivery order against previously awarded basic ordering agreement (BOA) N00024-16-G-2303 to provide post shakedown availability planning, support, and emergent availabilities for DDG 121. Work will be performed in Pascagoula, Mississippi (75%); and Pearl Harbor, Hawaii (25%), and is expected to complete March 2023. Fiscal 2021 shipbuilding and conversion (Navy) funding in the amount of \$9,788,739 will be obligated at time of delivery order release. This BOA order was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) – only one responsible source and no other supplies or services will satisfy agency requirements. The Supervisor of Shipbuilding, Conversion, and Repair Gulf Coast, Pascagoula, Mississippi, is the contracting activity.

The Jacobs Ewingcole JV, Pasadena, California, is awarded an \$8,808,982 firm-fixed-price modification to task order N6247320F4714 under a single award, multi-discipline, architect-engineer service contract for post award design services, post construction award services and crane support at Naval Air Weapons Station (NAWS) China Lake. This modification provides for post award design services and post construction award services to multiple projects for the earthquake recovery repair program at the NAWS China Lake. This modification will also require office consultation for crane support on four military construction projects. Work will be performed in Ridgecrest, California, and is expected to be completed by February 2024. Fiscal 2021 working capital (Navy) funds in the amount of \$8,530,592; and fiscal 2020 military construction, (Navy) contract funds in the amount of \$278,390 are obligated on this award and will not expire at the end of the current fiscal year. One proposal was received for this task order modification. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-18-D-5801).

Huntington Ingalls Industries, Newport News Shipbuilding, Newport News, Virginia, is awarded a \$7,933,077 cost-plus-fixed-fee level-of-effort, cost-plus incentive fee (completion), and firm-fixed-price modification to delivery order N62793-21-F-7800. The delivery order is placed against contract N00024-19-D-4306 for planned incremental availability (PIA) execution on the aircraft carrier USS Gerald R. Ford (CVN 78). Work will be performed in Newport News, Virginia, and is expected to be completed by March 2022. Fiscal 2021 other procurement (Navy) funds in the amount of \$3,946,557 will be obligated at time of the modification award. This contract was not competitively procured. The Supervisor of Shipbuilding, Conversion and Repair, Newport News, Virginia, is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a \$7,900,352 firm-fixed-price order (N6833521F0429) against a previously issued basic ordering agreement (N6833521G0020). This order procures particular support equipment in support of the EA-18G and F/A-18E/F return to readiness initiative. Work will be performed in St. Louis, Missouri, and is expected to be completed in September 2023. Fiscal 2019 aircraft

procurement (Navy) funds in the amount of \$7,900,352 will be obligated at time of award, all of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

September 9, 2021

Nakupuna Solutions LLC, Arlington, Virginia, is awarded a \$47,002,572 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract. This contract provides program and project management, administrative, analytical, and corporate operations support services for the Naval Air Systems Command, Command Property Office in support of audit related activities. Work will be performed in Patuxent River, Maryland (50%); and Arlington, Virginia (50%), and is expected to be completed in September 2026. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation Subpart 19.8. The Commander, Fleet Readiness Centers, Patuxent River, Maryland, is the contracting activity (N6852021D0004).

Oceaneering International Inc., Hanover, Maryland, is awarded an \$18,914,424 cost-plus-fixed-fee modification to previously awarded contract N00024-20-C-4315 to exercise a contract option for the continuation of the Navy's domestic and international submarine rescue program, Submarine Rescue Operations Maintenance Contractor. Work will be performed in San Diego, California, and is expected to be completed in September 2022. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$5,641,300 (78%); and fiscal 2021 other procurement (Navy) funding in the amount of \$1,317,945 (18%); and fiscal 2020 other procurement (Navy) funding in the amount of \$269,564 (4%) will be obligated at the time of award, of which funds in the amount of \$5,641,300 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Wigen Companies Inc., Chaska, Minnesota, is awarded an \$8,957,711 firm-fixed-price contract to repair two reverse osmosis units at Naval Station Guantanamo Bay. The work to be performed provides for the repair of two reverse osmosis units within the existing desalination plant, and demolition of an existing, inoperable reverse osmosis unit. The contract also contains five unexercised options, which if exercised would increase the cumulative contract value to \$10,074,016. The options, if exercised, provide for the demolition of five existing reverse osmosis units. Work will be performed in Guantanamo Bay, Cuba, and is expected to be completed by September 2022. Fiscal 2016 working capital (Navy) funds; and fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$8,957,711 are obligated on this award, of which \$5,562,602 will expire at the end of the current fiscal year. This was a sole source acquisition using statutory authority 10 U.S. Code 2304(c)(1), as implemented by Defense Federal Acquisition Regulation 6.302-1. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity (N69450-21-C-0044).

September 8, 2021

Jacobs/HDR JV, Arlington, Virginia, is awarded a \$34,017,960 firm-fixed-price task order (N6247021F4068) under an indefinite-delivery/indefinite-quantity contract for third party inspections of all Navy privatized homes with the exception of units scheduled for disposition or demolition. The work to be performed provides for all management, labor, supplies, equipment, information technology, materials, and transportation necessary to perform a thorough inspection and assessment of the structural integrity and habitability of each home at selected locations of privatized housing in the U.S. Work will be performed in California (31%); Virginia (11%); Hawaii (11%); Washington (9%); Florida (7%); Connecticut (5%); Illinois (5%); Maryland (4%); Mississippi (3%); South Carolina (3%); Louisiana (2%); Rhode Island (2%); New York (1%); Maine (1%); Washington, D.C. (1%); Texas (1%); Georgia (1%); Tennessee (1%); and Nevada (1%), and is expected to be completed by September 2022. Fiscal 2020 and 2021 family housing, operation and maintenance (Navy and Marine Corps) contract funds in the amount of \$34,017,960 are obligated on this award. The contract funds expire on Sept. 30, 2021. One proposal was received for this task order. The Naval Facilities Engineering Systems Command, Atlantic, Norfolk, Virginia, is the contracting activity (N62470-21-D-0008).

Walga Ross Group JV, Joplin, Missouri, is awarded a \$19,978,980 firm-fixed-price task order (N6945021F0659) under a multiple award construction contract for the repair of potable water lines and an elevated storage tank at Naval Air Station (NAS) Corpus Christi, Texas. The work to be performed includes replacement of waterlines and associated valves and fittings along Ocean Drive (Area 1); replacement of waterline and associated valves and fittings within the NAS Corpus Christi airfield (Area 2); abandonment of transit pipe; stripping and repainting of the steel water tank; and incidental related work. Work will be performed in Corpus Christi, Texas, and is expected to be completed by May 2023. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$19,978,980 are obligated on this award and will expire at the end of current fiscal year. Five proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity (N69450-19-D-1084).

The Boeing Co., St. Louis, Missouri, is awarded \$19,390,745 for ceiling-priced delivery order N00383-21-F-A36W under previously awarded basic ordering agreement N00383-17-G-A301 for the procurement of 41 cylinder and piston spares. The period of performance for this delivery order begins September 2021 and will be completed by September 2024 with no option periods. Work will be performed in Ontario, Canada (73%); and St. Louis, Missouri (27%). Fiscal 2021 working capital funds (Navy) in the amount of \$9,695,373 will be obligated at the time of award and funds will not expire at the end of the current fiscal year. One firm was solicited for this non-competitive requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

The Ross Group Contracting Corp., Tulsa, Oklahoma, is awarded a \$10,561,780 firm-fixed price task order (N6247321F5363) under a multiple award construction contract for design and repair of hydrant fuel system and pavement at Travis Air Force Base, California. The work to be performed will provide for the phased demolition and construction of selected Ramp 200 and 300 fuel hydrants for KC-46A aircraft. The new work includes, but not limited to, modify the current aircraft parking layout, demolish four existing aircraft direct fueling stations, demolish and replace six aircraft direct fueling stations suitable for KC-46A aircraft refueling operations, modify the existing fuel piping laterals, demolish and replace aircraft rated pavement on Ramps 200 and 300, as required, to demolish and install new hydrant pits and fuel piping, provide mooring points at all KC-46A parking spaces, and re-stripe aircraft parking positions and movement lanes on the 200 and 300 ramps. Work will be performed in Fairfield, California, and is expected to be completed by September 2022. Fiscal 2021 facilities sustainment restoration and modernization (Air Force) funds in the amount of \$10,561,780 are obligated for this award that will expire at the end of the current fiscal year. Three proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-18-D-5827).

September 7, 2021

WSM Pacific SIOP, A Joint Venture, Honolulu, Hawaii, is awarded a \$500,000,000 indefinite-delivery/indefinite-quantity architect-engineer contract for architect-engineer services for various structural and waterfront-related projects in support of the shipyard infrastructure optimization program and other projects at locations under the cognizance of Naval Facilities Engineering Systems Command (NAVFAC) Pacific. "WSM Pacific SIOP, A Joint Venture" is the registered name of the company. Planned projects include primarily, but are not limited to, Navy military construction (MILCON) projects involving new construction, repair, and alteration of waterfront/marine facilities, and other shored-based facility projects. The type of structural and waterfront services expected to be performed under this contract include, but are not limited to, the execution and delivery of MILCON project documentation (DD Form 1391); 1391 charrettes; design charrettes, design-build request for proposal; design-bid-build design contract documents; technical surveys and reports including concept and engineering studies, engineering modeling, site engineering investigations, topographic surveys, geotechnical investigations, hazardous material surveys, munitions of explosive concern surveys, hydrographic surveys, and others; construction cost estimates; collateral equipment buy packages; comprehensive interior design including structural interior design and furniture, fixtures, and equipment; and post construction award services. Work will be

performed at various locations within the NAVFAC Pacific area of operations including, but not limited to the West Coast (60%); and Hawaii (40%). The term of the contract is not to exceed 60 months, with an expected completion date of September 2026. Fiscal 2021 MILCON design funds in the amount of \$50,000 are obligated on this award and will not expire at the end of the current fiscal year. No task orders are being issued at this time. Future task orders will be primarily funded by MILCON, (planning and design). This contract was competitively procured via the beta system for award management website with two proposals received. NAVFAC Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-21-D-0001).

KBR Services LLC, Houston, Texas, was awarded a cost-plus-award-fee task order (N6247021F9101) at \$72,815,718 under the global contingency service multiple award contract for providing expeditionary staging area services at the Marine Corps Base Quantico. The work to be performed includes, but is not limited to, providing all management, supervision, labor, materials, and equipment necessary to perform expeditionary staging area services. The task order also contains 10 unexercised options which, if exercised, would increase the cumulative task order value to \$416,298,812. Work will be performed in Quantico, Virginia, and is expected to be completed by November 2021. Fiscal 2021 operation and maintenance (Marine Corps) funds in the amount of \$29,000,000 are obligated on this award and will not expire at the end of the current fiscal year. Fiscal 2021 overseas humanitarian, disaster, civic aid (OHDACA) in the amount of \$43,815,718 are the intended funds to be used and will be obligated in fiscal 2021. Fiscal 2022 OHDACA funding is the intended funding for the options. The options that remain are for monthly operation and maintenance of the staging area and are available on a monthly basis for a period of 10 months. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command Atlantic, Norfolk, Virginia, is the contracting activity (N62742-16-D-3551). (Awarded Aug. 28, 2021)

Leebcor Services LLC, Williamsburg, Virginia, is awarded a firm-fixed-price task order (N6945021F0668) for \$14,893,445 under a multiple award construction contract for repairs to buildings at Naval Air Station (NAS) Pensacola. The work to be performed provides for the design build repair of Buildings 607, 648, 680, 3690, and 3912 damaged during Hurricane Sally. The scope includes roof repair and replacement, replacement of interior finishes, replacement of doors and windows, repairs to fire suppression and fire alarm systems, electrical and communications systems, mechanical system, building site, lead/asbestos abatement and mold remediation. Work will be performed in Pensacola, Florida, and is expected to be completed by September 2023. Fiscal 2021 operation and maintenance (Navy) in the amount of \$14,893,445 are obligated on this award and will expire at the end of current fiscal year. Two proposals were received for this task order. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity (N69450-17-D-0508).

Sikorsky Aircraft Corp., a Lockheed Martin Co., Stratford, Connecticut, is awarded an \$11,899,240 modification (P00007) to a cost-plus-fixed-fee order (N0001919F2972) against a previously issued basic ordering agreement (N0001919G0029). This modification provides non-recurring engineering to include investigations, systems engineering support, risk analysis and integration development in support of the CH-53K Data Transfer Unit and Defensive Electronic Countermeasure System Replacement Phase III, to replace existing subsystems within the CH-53K production aircraft. Work will be performed in Patuxent River, Maryland (54.5%); Stratford, Connecticut (28.5%); Cedar Rapids, Iowa (11.5%); Fort Worth, Texas (4.5%); and Vergennes, Vermont (1.0%), and is expected to be completed in June 2024. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$10,079,034 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Honeywell International Inc., Clearwater, Florida, is awarded \$9,397,827 for firm-fixed-price delivery order N00383-21-F-V629 under a previously awarded basic ordering agreement (N00383-20-G-V601) for the procurement of the embedded Global Position System/Inertial Navigation Systems in support of the F/A-

18 aircraft. All work will be performed in Clearwater, Florida, and is expected to be completed by April 2023. Fiscal 2021 working capital funds (Navy) in the full amount of \$9,397,827 will be obligated at time of award and funds will not expire at the end of the current fiscal year. One firm was solicited for this non-competitive requirement in accordance with 10 U.S. Code 2304(c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

September 3, 2021

United Technologies Corp., Pratt and Whitney Military Engines, East Hartford, Connecticut, is awarded a \$736,636,842 modification (P00002) to a previously awarded firm-fixed-price indefinite-delivery/indefinite-quantity contract (N0001920D0013). This modification increases the ceiling to procure propulsion system spare parts, modules, support equipment/packaging handling shipping and transportation material, and depot lay-in material in support of the F-135 propulsion system requirements of the Air Force, Marine Corps, Navy, and non-Department of Defense participants. Work will be performed in East Hartford, Connecticut (56%); North Berwick, Maine (13%); Indianapolis, Indiana (10%); Jupiter, Florida (7%); Windsor Locks, Connecticut (5%); Bristol, United Kingdom (4%); Rockford, Illinois (2%); Santa Isabel, Puerto Rico (2%); and Phoenix, Arizona (1%), and is expected to be completed in December 2024. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Booz Allen Hamilton, McLean, Virginia (N00189-21-D-Z046); CACI Inc. – Federal, Chantilly, Virginia (N00189-21-D-Z047); Science Applications International Corp., Reston, Virginia (N00189-21-D-Z048); Capstone Corp., Alexandria, Virginia (N00189-21-D-Z049); and 22nd Century Technologies Inc., McLean, Virginia (N00189-21-D-Z050), are awarded an estimated \$556,014,538 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity, multiple-award contract that will include terms and conditions for the placement of both cost-plus-fixed-fee and firm-fixed-price task orders to provide technical services that include information technology (IT) enterprise architecture, portfolio management, governance operations, information management/IT requirements management, development and refinement of legacy information systems sustainment and transformation to the optimized MyNavyHR operational construct, and continuum of on-site and off-site support in support of Office of the Chief of Naval Operations (OPNAV) Information Technology Department Command Information Office statutory oversight responsibilities. The contracts will run concurrently and will include a 60-month base ordering period with an additional six-month ordering period option, which if exercised, will bring the estimated cumulative value to \$800,000,000. The base ordering period will begin November 2021 and is expected to be completed by October 2026; if the option is exercised, the ordering period will be completed by April 2027. Work will be performed in Pensacola, Florida (40%); Millington, Tennessee (30%); Arlington, Virginia (20%); and various locations throughout the continental U.S. in which those locations cannot be determined at this time (10%). Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$50,000 (\$10,000 on each of the three contracts) will be obligated to fund the contracts' minimum amounts, and funds will expire at the end of the fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. This contract was competitively procured for the award of multiple contracts pursuant to the authority set forth in Federal Acquisition Regulation 16.504 with the solicitation posted on beta.SAM.gov, with 17 offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department, Philadelphia Office, Philadelphia, Pennsylvania, is the contracting activity.

Lockheed Martin Corp., Owego, New York, is awarded a not-to-exceed \$208,113,847 undefinitized, firm-fixed-price, cost-plus-fixed-fee modification (P00029) to a previously awarded contract (N0001919C0013). This modification adds scope to provide non-recurring engineering for Phase II design and development of unique hardware and software for the government of India in support of the MH-60R development program. Work will be performed in Owego, New York (81%); and Stratford, Connecticut (19%), and is expected to be completed in September 2027. Foreign Military Sales customer funds in the amount of \$47,100,000 will be obligated at time of award, none of which will expire at the end of the

current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin – Rotary and Mission Systems, Manassas, Virginia, was awarded a \$63,625,766 modification to increase the ceiling of the existing indefinite-delivery/indefinite quantity, cost-plus-fixed-fee, cost-plus-incentive-fee, and firm-fixed price contract (N00039-18-D-0001) for the Integrated Common Processor (ICP) on behalf of the Program Executive Office Submarines' Maritime Surveillance Systems Program Office. The ICP program provides a common Integrated Undersea Surveillance Systems (IUSS) signal processing and display system software and hardware suite for Surveillance Towed Array Sensor System ships and IUSS shore sites. No funding is being placed on the modification. Contract actions will be issued and funds obligated as individual delivery orders. Funds will be placed on contract with an initial delivery order issued to the contractor at the time of award. Work will be performed in Manassas, Virginia, and is expected to be completed by December 2022. This contract was not competitively procured because it is a sole source acquisition pursuant to the authority of 10 U.S. Code 2304(c)(1) - Only One Responsible Source (Federal Acquisition Regulation Subpart 6.302-1). Naval Information Warfare Systems Command, San Diego, California, is the contracting activity. (Awarded Sept. 2, 2021)

LEIDOS Inc., Reston, Virginia, is awarded a \$49,417,035 cost-plus-fixed-fee contract for the Multi-Domain Radar for a Contested Environment (MuDRaCE) effort. The Marines currently uses centralized, high power radio frequency radar assets to detect and target adversaries. These systems have limited mobility, are susceptible to detection and attack which represents a significant failure point. MuDRaCE seeks to provide greater interoperability, ease of integration with emerging technologies and improved sensor fusion-based situational awareness while maintaining legacy capability resulting in a robust survivable sensing network. Work will be performed in Reston, Virginia (67.7%); Huntsville, Alabama (18.6%); Longmont, Colorado (6.2%); Taunton, Maryland (4.6%); and Fulton, Maryland (2.9%). Work for the base period is expected to be completed by Sept. 6, 2024. The maximum dollar value, including a 36-month base period and seven 12-month option periods, is \$49,417,035. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$6,141,655 are obligated at time of award. No funds will expire at the end of the current fiscal year. This contract was competitively procured under N00014-21-S-B001, "Long Range Broad Agency Announcement (BAA) for Navy and Marine Corps Science & Technology." Since proposals are received throughout the year under the long range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-21-C-1042).

Lockheed Martin Rotary and Mission Systems, Owego, New York, is awarded a \$25,806,713 firm-fixed price, cost-plus-fixed-fee order (N0001921F0042) against a previously issued basic ordering agreement (N0001919G0029). This order provides non-recurring engineering for the development, integration, testing, and deployment of the MH-60 Product Line System Configuration 24 fleet release for all MH-60 air platform variants, to include baseline management integrated management planning, integrated development environment support, support equipment baseline management, software architect, core lab support, problem trouble report legacy support, engineering tools support, and development aircraft support for the Navy and Foreign Military Sales (FMS) customers. Work will be performed in Owego, New York (98%); Nowra, Australia (1%); and Karup, Denmark (1%), and is expected to be completed in August 2024. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$3,500,000; and FMS funds in the amount of \$6,497,044 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Advanced Technology International, Summerville, South Carolina (N00174-18-D-0009); and PAE National Security Solutions LLC, Fredericksburg, Virginia (N00174-18-D-0008), are awarded a total of \$15,762,382 in modifications to a previously awarded, cost-plus-fixed-fee, indefinite-delivery/indefinite quantity contract to exercise Option IV for support services for the Demonstration and Assessment Team. Advanced Technology International is awarded an \$8,118,017 modification; and PAE National Security Solutions Inc., is awarded a \$7,644,365 modification. This requirement will provide support services to the Demonstration and Assessment Team for coordination of operation forces to include warfighter

workshops and other engagement activities; preparation and facilitation of technology demonstration and assessment planning and readiness meetings; and analysis and reporting of warfighting/warfighter inputs and concepts. Each task order will be competitively procured. The location of the work to be performed will be determined by individual task orders and is expected to be completed by September 2022. No funding is obligated at the time of award. The Naval Surface Warfare Center Indian Head Division, Indian Head, Maryland, is the contracting activity.

Lockheed Martin Corp., Fort Worth, Texas, is awarded an \$11,074,356 fixed-price (incentive-firm-target modification (P00048) to a previously awarded firm-fixed-price contract (N0001918C1048). This modification is adding scope to procure material lay in for the integrated core processor in support of full performance of maintenance on line replaceable components for military service depots in support of sustainment of F-35 aircraft for the Air Force, Marine Corps, Navy, non-U.S. Department of Defense participants and Foreign Military Sales (FMS) customers. Work will be performed in Fort Worth, Texas, and is expected to be completed in September 2023. Fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$5,260,058; fiscal 2019 aircraft procurement (Navy) funds in the amount of \$2,563,782; non-U.S. Department of Defense participant funds in the amount of \$2,075,007; and FMS funds in the amount of \$1,175,509 will be obligated at time of award, \$2,563,782 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded an \$8,669,543 cost-plus-fixed-fee order (N0001921F0512) against a previously issued basic ordering agreement (N0001921G0006). This order procures 757 Avionic Flow Valve Servo Air Supply Line kits, to include 683 kits for the Navy, 36 kits for the government of Australia, 28 kits for the government of Kuwait, and 10 validation/verification kits. Additionally, this order provides associated non-recurring engineering, logistics support, technical manuals, technical directives and deliverables in support of F/A-18 E/F and EA-18G upgrades. Work will be performed in El Segundo, California (80%); and St. Louis, Missouri (20%), and is expected to be completed in August 2024. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$8,158,536; and Foreign Military Sales funds in the amount of \$511,007 will be obligated at time of award, none of which will expire at the end of the fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

CAPE-Burns & McDonnell JV, Kansas City, Missouri, is awarded a firm-fixed-price task order (N3943021F4173) in the amount of \$7,566,586 under a multiple award construction contract for inspection and repair of fuel storage tanks at Joint Base Pearl Harbor Hickam (JBPHH). Work will be performed in Hawaii, and is expected to be completed by February 2023. The work to be performed includes inspection and repair of Fuel Storage Tanks 11-1 and 11-2 at JBPHH. Fiscal 2021 (Defense Logistics Agency) contract funds in the amount of \$7,566,586 are obligated on this award and will not expire at the end of the current fiscal year. Four proposals were received for this task order. Naval Facilities Engineering Systems and Expeditionary Warfare Center, Port Hueneme, California, is the contracting activity (N39430-20-D-2226).

September 2, 2021

Black Construction/MACE International JV, Harmon, Guam (N40084-21-D-0079); ECC Diego Garcia LLC, Burlingame, California (N40084-21-D-0080); JSK Diego Services LLC, Austin, Texas (N40084-21-D-0081); MVL-Bromgrove JV LLC, Lansing, Michigan (N40084-21-D-0082); and Parsons Colas UKP JV, Centreville, Virginia (N40084-21-D-0083), are being awarded a combined \$249,000,000 indefinite-delivery indefinite-quantity, multiple award, design-build/design-bid-build construction contract for construction projects at U.S. Navy Support Facility (NSF), Diego Garcia. The work to be performed may include, but is not limited to, office renovation, building demolition, built-in equipment repair/replacement, piping repair/replacement, pipe lagging, electrical work, mechanical work, road pavement, fencing, roofing, painting, site work, removal and disposal of lead based paint and asbestos containing material, welding and masonry. Black Construction/MACE International JV is being awarded an initial task order at \$4,023,160. The remaining four contractors are each being awarded a \$100,000 task order to satisfy the

guaranteed minimum. Work for this task order is expected to be completed by September 2022. All work on this contract will be performed in Diego Garcia, British Indian Ocean Territory. The term of the contract is not to exceed 60 months, with an expected completion date of September 2026. Fiscal 2021 operation and maintenance (Navy) (O&M,N); and Navy working capital funds (WCF) in the amount of \$4,423,160 are obligated on this award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by O&M,N and Navy WCF. This contract was competitively procured via Federal Business Opportunities website with five proposals received. These five contractors may compete for task orders under the terms and conditions of the awarded contract. The Naval Facilities Engineering Systems Command, Far East, Yokosuka, Japan, is the contracting activity.

Harper Construction Co., Inc., San Diego, California, was awarded a \$101,741,289 firm-fixed-price construction contract for design and construction of an F-35C hangar addition at Naval Air Station Lemoore, California. The project will include the construction of a two-module addition in support of F-35C operational squadrons. It will construct an aircraft parking apron and marshalling area, access apron and shoulders, taxiway connections and associated lighting, and construct an alternate mission equipment storage facility. The hangar addition will be constructed with reinforced concrete masonry unit, structural steel frames, metal deck and pile foundation. The work to be performed includes design and construction of the F-35C hangar addition to Hangar 6. The contract also contains one unexercised option, which, if exercised, would increase cumulative contract value to \$102,104,756. Work will be performed in Lemoore, California, and is expected to be completed by March 2024. Fiscal 2021 military construction, (Navy) contract funds in the amount of \$46,428,527 are obligated on this award and will not expire at the end of the current fiscal year. Funds will be obligated on individual task orders as they are issued. This contract was competitively procured via Sam.Gov website with five proposals received. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-21-C-1011). (Awarded Aug. 31, 2021)

R.A. Burch Construction Co., Inc., Ramona, California, is awarded a \$54,921,192 firm fixed-price task order (N6247321F5334) under a multiple award construction contract for the design and construction of an aerial port squadron materiel warehouse at Travis Air Force Base, California. The task order also contains 12 unexercised options, which if exercised, would increase cumulative task order value to \$76,136,657. Work will be performed in Fairfield, California, and is expected to be completed by December 2023. Fiscal 2017, 2019, 2020 military construction, (Air Force); and fiscal 2021 other procurement, (OP) (Air Force) contract funds in the amount of \$54,921,192 are obligated on this award and only the OP (Air Force) contract funds will expire at the end of the current fiscal year. Three proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-18-D-5852).

Katmai Management Services LLC, Anchorage, Alaska, is awarded a \$44,462,174 firm-fixed-price, single award, indefinite-delivery/indefinite-quantity contract for Role Player and Subject Matter Expert Support Services. The contractor will be required to provide all personnel, equipment, tools, materials, supervision, and quality control necessary to perform the requirements. The contractor will provide support services for the Immersive Training Range Support program. Work will be performed at multiple Marine Corps installations and is expected to be completed by September 2025. Funds will be obligated on individual task orders as they are issued. The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-21-D-8050).

J&J Maintenance Inc., doing business as J&J Worldwide Services, Austin, Texas, was awarded a \$15,489,631 indefinite-delivery/indefinite-quantity contract for base operating support (BOS) services at Naval Station Rota. The BOS services to be performed include general information, management and administration, aviation fuel support, housing (family and unaccompanied), facilities support (facility management and investment, custodial, pest control, integrated solid waste management, and grounds maintenance and landscaping), transportation, and environmental. The contract also contains nine unexercised options which, if exercised, would increase the maximum dollar value to \$132,924,533. Work will be performed in Rota, Spain, and is expected to be completed by June 2030. Fiscal 2022 operation and maintenance, (Navy) contract funds in the amount of \$10,339,079 for recurring work will be obligated

on individual task orders issued during the base period. No funds will be obligated at time of award. This contract was competitively procured via the Federal Business Opportunities website with seven proposals received. The Naval Facilities Engineering Systems Command, Atlantic, Norfolk, Virginia, is the contracting activity (N62470-21-D-0024). (Awarded Aug. 31, 2021)

Rolls-Royce Solutions America, Novi, Michigan, is awarded a \$14,916,778 hybrid, cost-plus-fixed-fee, firm-fixed-price, indefinite-delivery/indefinite-quantity contract for lifecycle, modernization, in-service support for MTU 8000, 4000, 2000, 1163, 595 and 396 engine models and related shipboard auxiliary systems. The contract will have a five year ordering period. Work under the contract will be completed at the contractor's continental U.S. and outside the continental U.S. facilities and is expected to be completed by September 2026. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$200,000 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304 (c)(1), only one responsible source, and no other supplier or services will satisfy agency requirements, this contract was not competitively procured. The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity (N64498-21-D-0040).

B. L. Harbert International, Birmingham, Alabama, is awarded a \$13,329,509 firm-fixed-price task order (N6945021F0610) under a multiple award construction contract for the renovation of Building 3782 at Naval Air Station (NAS), Pensacola, Corry Station, Florida. The work to be performed provides for the renovation of Building 3782. The existing two-story facility will be partially reconfigured and renovated. Work also includes selective demolition, changes to mechanical, electrical, and fire protection systems and new finishes. The task order also contains three unexercised options which, if exercised, would increase the cumulative task order value to \$17,201,028. The options, if exercised, provide for access drive and roadway on the south side of the building, furniture, fixtures, equipment, and audio visual equipment. Work will be performed in Pensacola, Florida, and is expected to be completed by August 2023. Fiscal 2021 operation and maintenance, (Navy) in the amount of \$13,329,509 are obligated on this award and will expire at the end of current fiscal year. Two proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity (N69450-19-D-0908).

Lockheed Martin Corp. Rotary and Mission Systems, Moorestown, New Jersey, is awarded a \$12,649,373 cost-plus-fixed-fee modification to previously awarded contract N6426718C0132 to exercise options for Aegis design agent field engineering services. Services include test and evaluation, engineering change development, ordnance/ship alterations, modernization engineering, logistics and technical support, ordnance alterations kit development, integration and test support, AN/SPY-1 series radar antenna refurbishment and Coast Guard deep-water program design agent field engineering support. These services are in support of Aegis-equipped CGs and DDGs, allied Aegis-equipped ships, and Coast Guard Aegis-configured ships. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$63,992,064. Work will be performed in Norfolk, Virginia (30%); San Diego, California (30%); Pearl Harbor, Hawaii (10%); Wallops Island, Virginia (10%); Yokosuka, Japan (8%); Seattle, Washington (3%); Mayport, Florida (3%); Dahlgren, Virginia (3%); and Port Hueneme, California (3%), and is expected to be completed by September 2022. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$379,629 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Surface Warfare Center, Port Hueneme Division, Port Hueneme, California, is the contracting activity.

SCI Technology Inc., Huntsville, Alabama, is awarded an \$11,495,518 firm-fixed-price indefinite-delivery/indefinite-quantity contract. This contract procures up to 2,708 tactical operation center network tactical intercommunications system kits and spares in support of the National Guard Bureau Joint Product Manager Guardian Chemical, Biological, Radiological, and Nuclear Analytics and Response Systems. Work will be performed in Huntsville, Alabama, and is expected to be completed in September 2026. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N6833521D0066).

CAPE-Burns & McDonnell JV, Kansas City, Missouri, is awarded a \$7,566,586 firm-fixed-price task order (N3943021F4173) under a multiple award construction contract for inspection and repair of fuel storage tanks 11-1 and 11-2 at Joint Base Pearl Harbor Hickam, Hawaii (JBPHH). Work will be performed in Hawaii, and is expected to be completed by February 2023. Fiscal 2021 (Defense Logistics Agency) contract funds in the amount of \$7,566,586 are obligated on this award and will not expire at the end of the current fiscal year. Four proposals were received for this task order. Naval Facilities Engineering Systems and Expeditionary Warfare Center, Port Hueneme, California, is the contracting activity (N39430-20-D-2226).

September 1, 2021

General Electric Aviation, Lynn, Massachusetts, is awarded a not-to-exceed \$1,650,000,000 firm-fixed-price, indefinite-delivery, performance-based logistics requirements contract for the repair, upgrade or replacement, inventory management, and required supply response times of 17 F414 engine components in support of the F/A-18 aircraft. The contract will include a five-year base period with no options. Work will be performed in Lynn, Massachusetts (90%); and Jacksonville, Florida (10%). Work is expected to be completed by August 2026. Annual working capital funds (Navy) in the amount of \$77,100,000 will be issued for delivery order (N00383-21-F-0ZN0) that will be awarded concurrently with the contract and will initially be obligated at the time of award as an undefinitized contract action, with a commitment of an additional \$25,700,000 for period of performance from Sept. 1, 2021, through Dec. 21 2021. Funds will not expire at the end of the current fiscal year. One company was solicited for this non-competitive requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-21-D-ZN01).

Hamilton Sundstrand Corp., Rockford, Illinois, is awarded a \$60,697,125 five-year, long-term, firm-fixed-priced requirements contract for the repair of the constant frequency generator used on the V-22 aircraft in support of the weapon replaceable assemblies and shop replaceable assemblies programs. All work will be performed in Rockford, Illinois, and work is expected to be completed by September 2026. No funds will be obligated at time of award. Working capital funds (Navy) will be obligated as individual task orders are issued, and funds will not expire at the end of the current fiscal year. One source was solicited for this non-competitive requirement under authority 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-21-D-ZQ01).

Hourigan Construction Corp., Virginia Beach, Virginia, is awarded a firm-fixed-price task order (N4008521F6280) at \$25,576,452 under a multiple award construction contract for design-bid-build of the E-2D Advanced Hawkeye Training Facility, Naval Station Norfolk. The task order also contains one unexercised option and two planned modifications which, if exercised, would increase cumulative task order value to \$27,910,697. Work will be performed in Norfolk, Virginia, and is expected to be completed by June 2023. This project constructs an operation training building for the Airborne Command Control Logistics Weapons School and fleet E-2D Advanced Hawkeye squadrons. The building will include two E-2D high-bay weapon system trainers and two E-2D distributed readiness trainers, instructor areas, brief/debrief rooms, and support spaces. Building must be constructed to the information security requirements. Building construction will include a pile foundation, exterior doors adequate to allow installation and maintenance of high-bay trainers. The building will also include classified and non-secured internet routing networks, and electronic security systems. Fiscal 2021 military construction (Navy) contract funds in the amount of \$25,576,452 are obligated on this award and will expire at the end of the current fiscal year. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-19-D-9068).

Core Tech-HDCC-Kajima LLC, Tamuning, Guam, is awarded a firm-fixed-price task order (N6274221F9934) at \$13,948,948 under a multiple award construction contract for the construction of a reinforced concrete blast structure over an existing fuel manifold at Joint Region Marianas. Work will be

performed in Marianas, Guam, and is expected to be completed by September 2023. The work to be performed provides for the demolition and removal of the current intermediate subterranean valve vault that houses existing petroleum oil lubricant pipelines and the construction of a new hardened concrete building structure and hose connection vault at the Tiyan Junction Valve Vault facility. Fiscal 2017 military construction (Navy) contract funds in the amount of \$13,948,948 are obligated on this award and expires at the end of the current fiscal year. Three proposals were received for this task order. The Naval Facilities Engineering Systems Command, Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-19-D-1330).

DCX-CHOL Enterprises, Los Angeles, California, is awarded an \$11,910,000 firm-fixed-price modification to previously awarded contract N6339421C0002 to exercise options for the manufacture, assembly, test, and delivery of module electronics box and hazard electronics box units in support of the vertical launch system. This option exercise will provide for the manufacture, assembly, test, and delivery of Module Electronics Box (part number 8660400-9) and Hazard Electronics Box (part number 8660450-9) units. The units will be provided as Government-Furnished Material under the separate MK 41 Vertical Launch System production contract in support of the Navy's DDG 51 Class and Allied Navy shipbuilding program requirements. Work will be performed in Los Angeles, California, and is expected to be completed by June 2022. Fiscal 2021 other procurement (Navy) funds in the amount of \$6,170,000 (52%); and Foreign Military Sales funds in the amount of \$5,740,000 (48%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Surface Warfare Center Port Hueneme Division, Port Hueneme, California, is the contracting activity.

August 31, 2021

Raytheon Missiles and Defense, Tucson, Arizona, is awarded a \$54,535,212 cost-plus-fixed-fee modification to previously-awarded contract N00024-18-C-5431 to exercise options for fiscal 2021 design agent and engineering support services for the Rolling Airframe Missile (RAM) upgraded MK-31 Guided Missile Weapon System Improvement Program. The MK-31 RAM Guided Missile Weapon System is a cooperative development and production program conducted jointly by the U.S. and the Federal Republic of Germany under memoranda of understanding. The support procured under the contract is required to maintain current weapon system capability as well as resolve issues through design, systems, software maintenance, reliability, maintainability, quality assurance and logistics engineering services. This contract combines purchases for the Navy (71%); and the government of Japan (29%) under the Foreign Military Sales (FMS) program. FMS Japan funds in the amount of \$1,984,684 (29%); fiscal 2021 operations and maintenance (Navy) funds in the amount of \$1,840,724 (27%); fiscal 2021 weapons procurement (Navy) funds in the amount of \$1,510,968 (22%); fiscal 2020 research, development, test and evaluation (Navy) funds in the amount of \$350,916 (5%); fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$343,697 (5%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$259,663 (4%); fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$173,374 (3%); German (Non-FMS) funds in the amount of \$143,623 (2%); German (Non-FMS) funds in the amount of \$143,507 (2%); and fiscal 2020 weapons procurement (Navy) funds in the amount of \$89,616 (1%) will be obligated at the time of award, of which funds in the amount of \$2,191,640 will expire at the end of the current fiscal year. Work will be performed in Tucson, Arizona, and is expected to be completed by July 2022. This contract was not competitively procured under the exception 10 U.S. Code 2304(c)(4), international agreement. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Sikorsky Aircraft Corp., a Lockheed Martin Co., Stratford, Connecticut, is awarded a \$48,064,287 firm-fixed-price order (N0001921F0709) against a previously issued basic ordering agreement (N0001919G0029). This order procures eight spare part and management and delivery of parts in support of the CH-53K low rate initial production configuration aircraft. Work will be performed in Stratford, Connecticut (64.24%); Waltham, Massachusetts (6.92%); Redmond, Washington (6.58%); Farnborough, United Kingdom (5.39%); Stamford, Connecticut (3.59%); Cromwell, Connecticut (1.72%); Stratford, Ontario, Canada (1.65%); Paramount, California (1.46%); Cary, North Carolina (1.33%); and various locations within the continental U.S. (7.12%), and is expected to be completed in December 2026. Fiscal

2021 aircraft procurement (Navy) funds in the amount of \$48,064,287 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Orlando, Florida, is awarded \$39,330,900 for delivery order N00383-21-F-0QW0 under previously awarded basic ordering agreement (N00019-19-G-0029) for the repair of 10 infrared receivers and five control processors in support of the F/A-18 Infrared Search and Track System. All work will be performed in Orlando, Florida, and will be completed by October 2023. Fiscal 2021 aircraft procurement funds (Navy) in the full amount of \$39,330,900 will be obligated at the time of award and funds will not expire at the end of the current fiscal year. One source was solicited for this non-competitive requirement under authority 10 U.S. Code 2304 (c)(1), and one offer was received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

McKean Defense Group LLC, Philadelphia, Pennsylvania, is awarded an indefinite-delivery/indefinite-quantity, cost-plus-fixed-fee contract (N66001-21-D-0153) with a potential ceiling value of \$35,870,169 to provide program management, basic research, end-to-end system design, prototype development, systems engineering, integration, environmental qualification testing, production, software loading, pre-installation testing and checkout, deployment and life cycle support of command, control, communications, computer, intelligence, surveillance and reconnaissance systems for the Naval Information Warfare Center Pacific Network Integration Engineering Facility. This one-year contract includes four one-year options which, if exercised, would bring the potential value of this contract to an estimated \$187,467,410. Work will be performed in San Diego, California. The period of performance of the base award is from Aug. 31, 2021, to Aug. 30, 2022. If all options are exercised, the period of performance would extend through Aug. 30, 2026. No funds will be obligated at the time of award. Funds will be obligated as task orders are issued using operation and maintenance (Navy); other procurement (Navy); research, development, test and evaluation; Foreign Military Sales funds; and funding from other government services such as Air Force based on fiscal year spending plans. This contract was competitively procured using full and open via Request for Proposal N66001-21-R-0041, which was published on the Federal Business Opportunities website and the Naval Information Warfare Systems Command e-Commerce Central website. Two proposals were received and one selected for award. Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

Wing Inflatables Inc., Arcata, California, is awarded a \$31,921,100 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the purchase of up to a maximum 904 Enhanced – Combat Rubber Reconnaissance Craft. Work will be performed in Arcata, California, and is expected to be complete by August 2026. Fiscal 2019 and 2022 procurement (Marine Corps) contract funds in the amount of \$3,126,894 will be obligated on the first delivery order immediately following contract award and funds will expire the end of the fiscal 2022 and 2023, respectively. This contract was competitively procured via the System for Award Management website, with three proposals received. The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-21-D-1801).

HART Technologies Inc., Manassas, Virginia (N0017821D4414); and QinetiQ Inc., Lorton, Virginia (N0017821D4415), are awarded a combined \$30,300,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for design, technical documentation, fabrication, system integration, test and evaluation, and rapid prototyping support. These contracts do not include options, and have a maximum cumulative value of \$30,300,000. This contract was competitively awarded with full and open competition. All items will be procured and evaluated at the delivery order level. Types of equipment may include radar, voice and data communications, cryptographic equipment, electronic countermeasures and navigation aids as they pertain to electronic warfare and radio frequency systems. Work will be performed in Manassas, Virginia (50%); and Lorton, Virginia (50%), and is expected to be completed by September 2026. Fiscal 2021 Navy working capital funds in the amount of \$1,000 (\$500 minimum contract guarantee per awardee) will be obligated at the time of award and will expire at the end of fiscal 2023. All other funding will be made available at the delivery order level as contracting actions occur. This contract was competitively procured via the beta System for Award Management website, with three offers received. The Naval Surface Warfare Center Dahlgren Division, Dahlgren, Virginia, is the contracting activity.

Northrop Grumman Systems Corp., Woodland Hills, California, was awarded a \$21,214,122 indefinite-delivery/indefinite-quantity contract containing firm-fixed-price provisions for repair, calibration, overhaul, and manufacture long lead component shop replaceable units. This requirement is to deliver repaired, calibrated, and overhauled replacement units to support the Naval Undersea Warfare Center Division Newport Submarine High Data Rate (SubHDR) National Maintenance Center, which is responsible for returning SubHDR components to ready for issue condition for the fleet. This contract combines purchases for the Navy (90%); and the government of United Kingdom (5.5%), Commonwealth of Australia (2.5%), and Canada (2%) under the Foreign Military Sales (FMS) program. Work will be performed in Salt Lake City, Utah, and is expected to be completed in August 2028. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$1,073,105 (58%); and FMS United Kingdom, Commonwealth of Australia, and Canada funds in the amount of \$781,327 (42%) (combined) will be obligated on the first delivery order, of which funds in the amount of \$1,073,105 will expire at the end of the current fiscal year. This contract was solicited as a sole source requirement under the authority of 10 U.S. Code 2304(c)(1), as implemented in Federal Acquisition Regulation (FAR) 6.302-1: only one responsible source and no other type of supplies or services will satisfy agency requirements. The Naval Undersea Warfare Center Division Newport, Rhode Island, is the contracting activity (N66604-21-D-B000). (Awarded Aug. 27, 2021)

Rockwell Collins Simulation and Training Solutions, Cedar Rapids, Iowa, is awarded a \$17,619,012 firm-fixed-price modification (P00040) to a previously awarded contract N6134017C0014. This modification procures initial spare parts and aircraft common equipment to support the E-2D Hawkeye Integrated Training Systems flight, tactics, and maintenance devices. Work will be performed in Norfolk, Virginia (77%); Iwakuni, Japan (20%); and Point Mugu, California (3%), and is expected to be completed in March 2024. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$5,715,006; and fiscal 2019 aircraft procurement (Navy) funds in the amount of \$11,904,006 will be obligated at the time of award, \$11,904,006 of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity.

IAP-ECC LLC, Burlingame, California, is awarded a \$14,782,323 modification under a firm-fixed-price task order on a multiple award contingency contract for the exercise of Option One for the construction and maintenance of a contractor berthing camp at Naval Air Weapons Station (NAWS) China Lake. The total contract amount after exercise of this option will be \$137,784,301. Work will be performed in Ridgecrest, California, and is expected to be completed by March 2025. The work to be performed provides for temporary facilities and facility services for a berthing camp in support of the China Lake earthquake recovery project at NAWS China Lake. Temporary facilities include fencing, living/sleeping units, operational center and a security station. Facility services include management and administration, unaccompanied housing, facility investment, custodial, pest control, integrated solid waste management, grounds maintenance and landscaping, pavement clearance, wastewater, and water. The need for a berthing camp to support 11 military construction project contractors is an emergency response to the earthquakes that affected the China Lake area in July 2019. Fiscal 2020 military construction (Navy); and fiscal 2021 working capital funds (Navy) in the amount of \$14,782,323 are obligated on this award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Pacific, Pearl Harbor, Hawaii, is the contracting activity (N62742-16-D-3553).

August 30, 2021

Methuen Construction, Plaistow, New Hampshire, is awarded a \$63,055,205 firm-fixed-price contract for construction of the Dry Dock Two complex at the Portsmouth Naval Shipyard (PNS). The contract also contains six unexercised options which, if exercised, would increase the cumulative contract value to \$93,822,869. Work will be performed in Kittery, Maine, and is expected to be completed by October 2023. This project consists of multiple enclosures to be fabricated and installed at PNS. The permanently installed enclosure will consist of two towers, storage areas, railcar access, multiple high and low bay work areas, three bridge cranes, movable roofs, access control and all associated heating, ventilation and air conditioning, mechanical, electrical, alarm, controls and communication systems. A modular relocatable enclosure consists of two support towers supporting two enclosure components with a tower,

a bridge crane, movable roofs and all associated mechanical, electrical, alarm, controls and communication systems and elevated access passageways. The enclosures require clean room finishes and high efficiency particulate arrestance high volume fly ash concrete filters in most areas. Additional scope includes new utility capacity and infrastructure, modification to existing utilities and modifications to existing enclosure heating ventilation and air conditioning, electrical, alarm, controls and communication systems. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$63,055,205 will be obligated on this award and will expire at the end of the current fiscal year. This contract was competitively procured via the www.SAM.gov online website with three proposals received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-21-C-0051).

Lockheed Martin Rotary and Mission Systems' (LM-RMS), Manassas, Virginia, is awarded a \$53,100,635 cost-plus-incentive-fee modification to previously awarded contract N00024-18-C-6258 to exercise options for material production and spares in support of all new construction and in-service class submarines. Work will be performed in Manassas, Virginia (76%); Chantilly, Virginia (13%); Marion, Massachusetts (7%); and Newport, Rhode Island (4%), and is expected to be completed by December 2023. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$3,414,691 (43%); fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$2,763,306 (35%); fiscal 2020 other procurement (Navy) funds in the amount of \$865,858 (11%); fiscal 2021 other procurement (Navy) funds in the amount of \$685,135 (9%); and fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$127,000 (2%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Booz Allen Hamilton Inc., McLean, Virginia, is awarded a \$22,986,018 firm-fixed-price and cost-plus-fixed-fee hybrid modification, P00018, to exercise Option Period Three under previously awarded contract M95494-18-F-0009. The work to be performed provides a variety of professional services to support Marine Corps Installation Command Headquarters (MCICOM) directorates in fulfilling mission deficiencies and providing enhanced capabilities. Broad level task areas required are program management; logistics program support; information technology program support; operations support; planning support; government and external affairs support; facilities support; and enterprise content management support. Work will be performed in Arlington, Virginia. Work is expected to be completed August 2023. Fiscal 2021 operation and maintenance (Marine Corps) funds in the amount of \$20,890,018 will be obligated at the time of award and will expire at the end of the current fiscal year. MCICOM Headquarters, Arlington, Virginia, is the contracting activity.

Lockheed Martin Corp., Liverpool, New York, is awarded a \$21,185,841 cost-plus-incentive-fee modification to previously awarded contract N00024-19-C-6120 to exercise an option for Navy equipment, components, engineering services, and other direct costs. This effort will award the procurement of Navy equipment and engineering services. Work will be performed in Liverpool, New York (66%); Millersville, Maryland (33%); Marion, Massachusetts (1%), and is expected to be completed by September 2023. Fiscal 2021 other procurement (Navy) funds in the amount of \$13,037,440 (61.5%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$4,889,041 (23.1%); fiscal 2020 other procurement (Navy) funds in the amount of \$1,629,680 (7.7%); and fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$1,629,680 (7.7%) funding will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Serco - IPS Corp., Herndon, Virginia, is awarded a \$12,526,821, cost-plus-fixed-fee and cost-only modification to previously awarded contract N00174-18-C-0015 to procure professional support services for the Naval Sea System Command's director for surface ship maintenance and modernization (SEA 21). This procurement is for professional support services in the areas of program management, administrative support, surface ship modernization, inactive ships, surface ships readiness, surface

training systems, business and financial management, records management, and information technology (IT) support. Work will be performed in Washington, D.C. (55%); Norfolk, Virginia (19%); San Diego, California (18%); Mayport, Florida (2%); Yokosuka, Japan (2%); Sasebo, Japan (1%); Manama, Bahrain (1%); Pascagoula, Mississippi (1%); and Pearl Harbor, Hawaii (1%), and is expected to be complete by October 2021. Fiscal 2019 other procurement (Navy) funds in the amount of \$2,290,333; fiscal 2020 research, development, test and evaluation (Navy) funds in the amount of \$4,334; fiscal 2020 other procurement (Navy) funds in the amount of \$1,456,683; fiscal 2021 other procurement (Navy) funds in the amount of \$260,868; and fiscal 2021 operation and maintenance (Navy) funds in the amount of \$7,570,412 will be obligated at time of award, of which \$9,865,079 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C. is the contracting activity.

The Boeing Co., Seattle, Washington, is awarded an \$11,593,358 cost-plus-fixed-fee modification (P00201) to a previously awarded contract (N0001914C0067). This modification provides for non-recurring engineering in support of upgrades for Software Development Lab 6 and the data-at-rest encryption solution for P-8A Lot 11 aircraft for Foreign Military Sales (FMS) customers. Work will be performed in Seattle, Washington (92.1%); and St. Louis, Missouri (7.9%), and is expected to be completed in December 2023. FMS funds in the amount of \$11,593,358 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp. Rotary and Mission Systems, Moorestown, New Jersey, is awarded an \$8,175,154 cost-plus-fixed-fee contract for engineering services and supplies in support of the MK92 Fire Control System including equipment changes, repairs, and overhauls; engineering and field services in support of in-service engineering requirements; computer programming; and documentation development. This contract will provide supplies and services to support the MK92 Fire Control System equipment, including equipment changes, repairs, and overhauls; engineering and field services in support of in-service engineering requirements; computer programming; documentation development; and engineering services to support foreign navies through Foreign Military Sales cases. This contract involves Foreign Military Sales to Taiwan. Work will be performed in Moorestown, New Jersey (97%); and Taiwan (3%), and is expected to be completed by October 2022. FMS Taiwan funding in the amount of \$7,482,000 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) (only one responsible source and no other supplies or services will satisfy agency requirements). The Naval Surface Warfare Center Port Hueneme Division, Port Hueneme, California, is the contracting activity (N63394-21-F-0005).

August 27, 2021

Applied Visual Technology Inc., doing business as AVT Simulation, Orlando, Florida (M67854-21-D-8056); Choisis Technology Inc., Ashburn, Virginia (M67854-21-D-8057); Corps Simulation & Cyber Solutions LLC, Greenbelt, Maryland (M67854-21-D-8058); Dignitas Technologies, Orlando, Florida (M67854-21-D-8059); Engineering & Computer Simulations Inc., Orlando, Florida (M67854-21-D-8060); Envision Innovative Solutions Inc., Manasquan, New Jersey (M67854-21-D-8061); and Tactical Edge Inc., San Diego, California (M67854-21-D-8062), are awarded a \$127,346,000 indefinite-delivery/indefinite-quantity, multiple award contract for the procurement of services to support Marine Corps training and education requirements of the Fleet Marine Forces, which includes both active duty and reserve components, and all supporting establishments. The Electronic and Communication Services (ECS) contract will be used to issue task orders to provide sustainment support, including new development for all existing and any future Marine Corps training systems including, but not limited to Combined Arms Command and Control Trainer Upgrade System; Marine Air-Ground Task Force Tactical Warfare Simulation; Deployable Virtual Training Environment; Combat Convoy Simulator; Indoor Simulated Marksmanship Trainer; Marine Corps Driver Trainer; Supporting Arms Virtual Trainer and Combat Vehicle Training Systems. This five-year contract includes five one-year option periods which, if

exercised, would bring the overall potential of this contract to an estimated \$238,000,000. Work will be performed at contractor facilities. The period of performance for the base award is from Aug. 27, 2021, through Aug. 26, 2026. If all options are exercised, the period of performance would extend through Aug 26, 2031. Awardees will have the opportunity to compete for task orders during the ordering period. No funds will be obligated at time of award. Fiscal 2021 funds will be obligated as task orders are issued using operation and maintenance (Marine Corps) and (Navy) funds. This contract was competitively provided via a request for proposal (M67854-20-R-7829) published on the beta.sam.gov web site. Fourteen offers were received and seven were selected for award. Marine Corp Systems Command, Quantico, Virginia, is the contracting activity (M67854-21-C-80XX).

Lockheed Martin, Rotary and Mission Systems, Moorestown, New Jersey, is awarded a \$51,468,710 cost-plus-incentive-fee and cost (no fee) modification to previously awarded contract N00024-15-C-5151 to exercise options for ship integration and test of the AEGIS Weapon System (AWS) for AWS baselines through Advanced Capability Build 16 (ACB 16). The contract provides for AEGIS shipboard integration engineering, AEGIS Test Team support, AEGIS Modernization Team engineering support, Ballistic Missile Defense Test Team support, and AEGIS Weapons System (AWS) element assessments. This contract will cover the AWS ship integration and test efforts for AEGIS Ashore, nine new construction DDG-51 class ships, and the major modernization of seven DDG-51 class ships. It will additionally cover the integrated combat system modifications and upgrades for all current ships with all AWS baselines up to and including ACB 16. Work under this modification will be performed in Moorestown, New Jersey (46%); Norfolk, Virginia (9%); Deveselu, Romania (9%); Pascagoula, Mississippi (8%); Washington, D.C. (7%); San Diego, California (6%); Everett, Washington (4%); Bath, Maine (4%); Mayport, Florida (3%); and various places each below one percent (4%); and is expected to be completed by September 2022. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$13,309,663 (46%); fiscal 2013 shipbuilding and conversion (Navy) funds in the amount of \$7,575,151 (26%); fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$5,348,901 (18%); fiscal 2021 other procurement (Navy) funds in the amount of \$2,327,839 (8%); fiscal 2021 defense-wide procurement funds in the amount of \$100,000 (1%); and fiscal 2019 other procurement (Navy) funds in the amount of \$64,114 (1%) will be obligated at time of award, of which \$18,722,678 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

The University of Missouri Kansas City, Kansas City, Missouri, is awarded a \$39,489,484 cost reimbursement contract for the Pulsed Tactical Effector for Regulated Attack (PTERA). The PTERA program seeks to primarily develop families of electronic effector and support technologies at the system, component and sub-component level that enable new Navy missions when placed aboard and/or in concert with Group 1 through 3 unmanned aerial vehicles. Work will be performed in Kansas City, Missouri, with an expected completion date of Aug. 29, 2026. The total cumulative value of this contract, including a 60-month base period and eight 54-month option periods that will run concurrently with the base period, is \$39,489,484. Fiscal 2020 research, development, test and evaluation (Navy) funds in the amount of \$8,203,529; and fiscal 2020 defense working capital funds in the amount of \$300,000 are obligated at time of award. Funds in the amount of \$8,503,529 will expire at the end of the current fiscal year. This contract was competitively procured under N00014-20-S-B001, "FY20 Long Range Broad Agency Announcement (BAA) for Navy and Marine Corps Science & Technology." Since proposals are received throughout the year under the long range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-21-C-1049).

Professional Analysis Inc., Alexandria, Virginia, is awarded an indefinite-delivery/indefinite-quantity contract with a maximum amount of \$25,000,000 for professional support services at Naval Facilities Engineering Systems Command (NAVFAC) Expeditionary Business Line (ExBL) and Expeditionary Programs Office (ExPO). The work on this contract will be performed in Washington, D.C. (52%); California (25%); Florida (17%); Virginia (4%); and Hawaii (2%). The work to be performed is for program management, engineering, logistics, requirements analysis, data management and analysis, public affairs, and financial management support. The term of the contract is not to exceed 36 months with an expected completion date of August 2024. Fiscal 2021 Navy working capital fund (WCF) contract funds in

the amount of \$1,000 will be obligated on an individual task order and will expire at the end of the current fiscal year. Future task orders will be primarily funded by Navy WCF. This contract was competitively procured via the System for Award Management website with four proposals received. NAVFAC Atlantic, Norfolk, Virginia, is the contracting activity (N62470-21-D-0025).

W.M. Jordan Company Inc., Newport News, Virginia, is awarded a firm-fixed-price contract task order N40085 21F6176 at \$24,426,481, under a multiple award construction contract for design-bid-build, repair of unaccompanied housing at Naval Air Station Oceana. Work will be performed in Virginia Beach, Virginia, and is expected to be completed by August 2024. This project will completely repair unaccompanied housing, Building 530, at NAS Oceana, and bring Building 530 to meet current code requirements and requirements defined by United Facilities Criteria 4-721-10N. All major building systems require repair/replacement. Fiscal 2021 operation and maintenance, (Navy) funds in the amount of \$24,426,481 are obligated on this award and will expire at the end of the current fiscal year. Five proposals were received for this task order. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-19-D-9089).

Axiom Resource Management Inc., Falls Church, Virginia, is awarded a \$15,595,548 cost-plus-fixed-fee task order under General Services Administration's (GSA) One Acquisition Solution for Integrated Services (OASIS). This task order provides support services for the various applications used by the Medical Modeling, Simulation and Mission Support department at the Naval Health Research Center (NHRC), San Diego, California, in gathering and analyzing data for the Expeditionary Medical Encounter Database and Expeditionary Medical Encounter Knowledge Warehouse (EMedKW). Work will be performed in San Diego, California (70%); Norfolk, Virginia (10%); Fort Detrick, Maryland (5%); Honolulu, Hawaii (5%); Virginia Beach, Virginia (5%); and Falls Church, Virginia (5%), and all work is expected to be completed by February 2027. Initial task order funding of \$2,678,993 for the base period of performance is obligated with fiscal 2021 Navy research, development, testing, and evaluation funds in the amount of \$449,104, which will not expire at the end of the current fiscal year; and Navy operation and maintenance funding in the amount of \$421,176, which will expire at the end of the current fiscal year. The balance of the task order will be incrementally funded. The total value of the task order for the base period, which includes four 12-month option years and one six-month option period, if exercised, is \$15,595,548. This task order was competitively procured via GSA's OASIS Small Business Pool 4, and two proposals were received. The Naval Medical Logistics Command, Fort Detrick, Maryland, is the contracting activity (N6264521F0268).

BB&E Inc., Northville, Michigan, is awarded \$10,003,918 to exercise the third option period under a firm fixed-price task order for professional support services in design and capital improvements within the Naval Facilities Engineering Systems Command, Mid-Atlantic area of operations. After award of this option, the total cumulative task order value will be \$29,319,758. Work will be performed in Virginia (75%); North Carolina (13%); Indiana (4%); Georgia (3%); Maine (3%); and Illinois (2%). The work to be performed provides for various architecture and construction engineering disciplines to assist in completing various design and capital improvement projects. The option period is from September 2021 to September 2022. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$7,186,342 are obligated on this award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (GS00Q140ADS144).

Bryan 77 Construction JV, Colorado Springs, Colorado, is awarded a firm-fixed-price task order N3319121F4336 at \$9,211,147 under a multiple award construction contract for repair of the Scorpion Gate at Camp Lemonnier, Djibouti. The task order also contains one unexercised option, which if exercised, would increase cumulative task order value to \$9,332,301. Work will be performed in Djibouti, Africa, and is expected to be completed by February 2023. The work to be performed provides for the repair and replacement of the Scorpion Gate at Camp Lemonnier to meet current anti-terrorism force protection requirements. The project consists of demolition of six existing structures, construction of a new pedestrian screening building, five prefabricated guardhouses, and re-configuration of the gate access. The contractor shall provide all labor, supervision, engineering, materials, equipment, tools, parts,

supplies and transportation to perform all work described in the request for proposal. The option, if exercised, provides for the relocation of an existing guard tower. Fiscal 2021 operation and maintenance, Navy contract funds in the amount of \$9,211,147 are obligated on this award and will expire at the end of the current fiscal year. Three proposals were received for this task order. The Naval Facilities Engineering Systems Command, Europe, Africa, Central, is the contracting activity (N62470-19-D-5001).

August 26, 2021

NIL

August 25, 2021

MNDPI Pacific JV, Honolulu, Hawaii, is being awarded an \$88,000,000 firm-fixed-price modification to increase the maximum dollar value of an indefinite-delivery/indefinite-quantity contract for various structural and waterfront projects and other projects in the Naval Facilities Engineering Systems Command (NAVFAC) Pacific area of operations (AO). After award of this modification, the total cumulative contract value will be \$187,000,000. The work to be performed provides for architect-engineer services for various structural and waterfront projects and other projects at locations in the NAVFAC Pacific AO. Architect-engineer services include, but are not limited to, the execution and delivery of military construction project documentation; functional analysis and concept development workshops; design charrettes; design-build request for proposal; design-bid-build design contract documents; technical surveys and reports including concept and engineering studies, site engineering investigation, topographic survey, geotechnical investigation, hazardous material survey, munitions of explosive concern survey, hydrographic survey, and others; construction cost estimates; collateral equipment buy packages; comprehensive interior design including structural interior design and furniture, fixtures, and equipment; and post construction award services. Work will be performed at various Navy, Marine Corps, Air Force, and other government facilities within the NAVFAC Pacific AO, including but not limited to Guam and the Commonwealth of the Northern Mariana Islands (70%); Australia (10%); Japan (10%); and Hawaii (10%). The term of the contract is not to exceed 60 months with an expected completion date of July 2025. No funds will be obligated for the award of this contract modification. Funds will be obligated on individual task orders and task order modifications as they are issued. NAVFAC Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-20-D-0004).

Advanced Engineering Consultants Ltd., Columbus, Ohio, is being awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity, multi-discipline architect-engineering contract with a maximum amount of \$25,000,000 for architect-engineering services in support of mechanical electrical and plumbing (MEP) small design and engineering projects primarily at the Public Works Department (PWD) Crane area of operations. An initial task order for the seed project, Naval Facilities Engineering Systems Command (NAVFAC) Building 2536 waterline replacement, is being awarded in the amount of \$109,240. The work to be performed provides for comprehensive architect-engineering services for planning, design, and construction services in support of the new construction, renovations, repairs, replacement, demolition, alteration, and/or improvement of military and other governmental facilities for MEP small design projects located primarily at PWD Crane Indiana, AO, including Glendora Test Facility. Work on this contract will be performed primarily in Sullivan, Indiana. The term of the contract is not to exceed 60 months with an expected completion date August 2026. Fiscal 2021 defense working capital funds (DWCF) in the amount of \$109,240 are obligated on this award and will not expire at the end of the current fiscal year. Future task orders will be primarily funded by DWCF. This contract was competitively procured via the Beta.sam.gov website with six proposals received. NAVFAC Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-21-D-0089).

CORRECTION: The \$965,030,816 multiple award contract (MAC II) announced on Aug. 13, 2021, to Austal USA LLC, Mobile, Alabama (N00024-21-D-4459); Colonna's Shipyard Inc., Norfolk, Virginia (N00024-21-D-4460); East Coast Repair & Fabrication LLC, Portsmouth, Virginia (N00024-21-D-4461); Epsilon Systems Solutions Inc., Portsmouth, Virginia (N00024-21-D-4462); General Dynamics NASSCO-Mayport, Jacksonville, Florida (N00024-21-D-4463); North Florida Shipyards Inc., Jacksonville, Florida

(N00024-21-D-4464); and Tecnico Corp., Chesapeake, Virginia (N00024-21-D-4465), does not include docking selected restricted availabilities.

August 24, 2021

General Dynamics NASSCO-Norfolk, Norfolk, Virginia, is awarded a \$32,479,184 modification to a previously awarded cost-plus-award-fee, incentive fee contract N00024-16-C-4306 for the USS Dwight D. Eisenhower (CVN-69) fiscal 2021 planned incremental availability. Work will be performed in Portsmouth, Virginia, and is expected to be completed July 2022. Funds in the amount of \$30,680,155 will be obligated at time of award. Contract funds in the amount of \$32,479,184 will expire at the end of the current fiscal year. Mid Atlantic Regional Maintenance Center, Norfolk, Virginia, is the contracting activity.

CORRECTION: The \$499,245,545 multiple award contract (MAC III) announced on Aug. 13, 2021, to Life Cycle Engineering Inc., Charleston, South Carolina (N00024-21-D-4466); Neal Technical Innovations LLC, Daphne, Alabama (N00024-21-D-4467); and Valkyrie Enterprises Inc., Virginia Beach, Virginia (N00024-21-D-4468), does not include chief of naval operations dry docking selected restricted availabilities and selected restricted availabilities, continuous maintenance, and emergent maintenance.

August 23, 2021

Leidos Inc., Reston, Virginia, is awarded a \$64,883,410 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for engineering and technical support (ETS) services including supporting systems in the field and maintaining integrated systems. The execution of ETS services involves multiple information technology disciplines for design, integration, testing, certification, and fielding, training and sustainment activities. The ETS services shall encompass multiple activities associated with the intelligence systems and applications that fall under the responsibility of Hopper Information Services Center in support of the Office of Naval Intelligence. The contract will include a four-year base ordering period beginning in September 2021 with no options and is expected to be completed by August 2025. Work will be performed in Suitland, Maryland (89%); Reston, Virginia (10%); and various locations throughout the continental U.S. and outside the continental U.S. (1%). Fiscal 2021 operation and maintenance funds (Navy) in the amount of \$10,000 will be obligated to fund the contract's minimum amount and funds will expire at the end of the current fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. This contract was competitively procured with the solicitation posted on Navy Electronic Commerce Online and beta.sam.gov, with five offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department Philadelphia Office, Philadelphia, Pennsylvania, is the contracting activity (N00189-21-D-Z043).

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is awarded a \$28,546,651 cost-plus-fixed-fee and cost-only modification to previously awarded contract N0002419C6400 for systems engineering and integration on Navy submarines. Work will be performed in Manassas, Virginia (68%); Waterford, Connecticut (10%); Groton, Connecticut (10%); Middletown, Rhode Island (7%); and Newport, Rhode Island (5%), and is expected to be completed by August 2022. Fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$12,608,398 (46%); fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$9,444,538 (34%); and fiscal 2016 shipbuilding and conversion (Navy) funds in the amount of \$5,410,961 (20%) will be obligated at time of award, of which \$12,608,398 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

L-3 Mustang Technology L.P., Plano, Texas, is awarded a \$23,409,000 fixed-price incentive modification to previously awarded delivery order N00024-19-C-5313 for the procurement of MK 332 Mod 0 High Explosive 4 Bolt Guided (HE-4G) cartridges. Work will be performed in Plano, Texas (45%); Phoenix, Arizona (14%); Cincinnati, Ohio (11%); Niceville, Florida (7%); Boise, Idaho (5%); Tampa, Florida (5%); Boston, Massachusetts (4%); Saint-Augustin-de-Desmaures, Canada (3%); Manchester, New Hampshire (3%); Clear Lake, South Dakota (2%); and Glendale Heights, Illinois (1%), and is expected to be

completed by January 2023. Fiscal 2021 procurement of ammunition (Navy and Marine Corps) funding in the amount of \$23,409,000 will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Ametek Ameron LLC, Baldwin Park, California, is awarded a \$22,036,478 firm-fixed price, indefinite-delivery/indefinite-quantity contract for engineering, technical, administrative and programmatic management support for total life cycle management of the various aircrew escape systems managed under the Joint Program Office for Cartridge Actuated Device/Propellant Actuated Device (CAD/PAD) Tri-Service Charter. Work will be performed in Chatsworth, California, and is expected to be completed by September 2025. Fiscal 2021 Navy working capital funding of \$500 dollars will be obligated on the first task order at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured and in accordance with 10 U.S. Code 2304(c)(1) — only limited number of responsible sources will satisfy agency requirements. The Naval Surface Warfare Center Indian Head Division, Indian Head, Maryland, is the contracting activity (N00174-21-D-0006).

Stratasys Inc., Eden Prairie, Minnesota, is awarded a \$20,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract procures 25 F900 production 3D printer systems and initial support and sustainment to include technical support, installation, support equipment and ancillary equipment problem resolution, technical publication logistic support, original equipment manufacturer reach-back capability for software and hardware components, engineering investigations and corrective actions for system anomalies, and development of initial training for the supplied systems. Work will be performed in Joint Base McGuire-Dix-Lakehurst, New Jersey (6%); Kaneohe Bay, Hawaii (4%); Yuma, Arizona (4%); Cherry Point, North Carolina (4%); Miramar, California (4%); New River, North Carolina (4%); Beaufort, South Carolina (4%); Camp Pendleton, California (4%); Fort Worth, Texas (4%); Newburgh, New York (4%); Lemoore, California (4%); Whidbey Island, Washington (4%); Oceana, Virginia (4%); North Island, California (4%); Norfolk, Virginia (4%); Jacksonville, Florida (4%); Mayport, Florida (4%); Point Mugu, California (4%); Fallon, California (4%); Camp Springs, Maryland (4%); New Orleans, Louisiana (4%); Patuxent River, Maryland (4%); China Lake, California (4%); Iwakuni, Japan (3%); and Okinawa, Japan (3%), and is expected to be completed in August 2026. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Commander, Fleet Readiness Centers, Patuxent River, Maryland, is the contracting activity (N6852021D0006)

August 20, 2021

Ameresco, Portsmouth, Virginia (N40085-21-D-0079); Harkins, Columbia, Maryland (N40085-21-D-0080); RQ Construction LLC, Carlsbad, California (N40085-21-D-0081); Sauer Inc., Jacksonville, Florida (N40085-21-D-0082); S.B. Ballard Construction Co., Virginia Beach, Virginia (N40085-21-D-0083); Walsh, Chicago, Illinois (N40085-21-D-0084); Whiting Turner Contracting Co., Greenbelt, Maryland (N40085-21-D-0085); and WM Jordan, Newport News, Virginia (N40085-21-D-0086), are each awarded an indefinite-delivery/indefinite-quantity multiple award design-build (DB)/design bid build (DBB) construction contract for large general construction projects located primarily in the Naval Facilities Engineering Systems Command (NAVFAC) Mid-Atlantic area of operations (AO). The maximum dollar value including the base period and four option years for all eight contracts combined is \$950,000,000. S.B. Ballard Construction Co. is awarded the initial task order at \$51,600,202 for the corrosion control and paint facility at Naval Station Norfolk. All work on this contract will be performed in the NAVFAC Mid-Atlantic AO in Hampton Roads, Virginia. Work for this task order is expected to be completed within 945 days of contract award, or March 2024. Fiscal 2020 and 2021 military construction (MILCON) contract funds in the amount of \$51,600,202 are obligated on this award and will not expire at the end of the current fiscal year. Construction projects to be performed will primarily consist of general building type projects and may be either DBB or DB. General construction of DB and DBB projects include, but are not limited to, new construction, demolition, repair, alteration, and renovation of buildings, systems and infrastructure and may include civil, structural, mechanical, electrical, fire protection, and communication systems. Types of facilities include administrative, industrial, maintenance, warehouses, hangars, communications, personnel support, recreation, lodging, dormitory, medical, training, ranges, roads, etc. Lead or asbestos

abatement may be required. Work in explosive facilities and/or sites may be required. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$35,000 are obligated on the seven minimum guarantee task order awards and will not expire at the end of the current fiscal year. The term of the contract is not to exceed 60 months, with an expected completion of August 2026. Future task orders will be primarily funded by operation and maintenance (Navy) and military construction funding. This contract was competitively procured via the beta.sam.gov website with 16 proposals received. These eight contractors may compete for task orders under the terms and conditions of the awarded contract. NAVFAC Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is awarded a \$190,271,753 cost-plus-incentive-fee modification to previously awarded contract N00024-20-C-6117 to exercise an option for engineering design development and supporting material procurement. Work will be performed in Manassas, Virginia (65%); Clearwater, Florida (32%); Syracuse, New York (2%); and Marion, Florida (1%), and is expected to be completed by July 31, 2023. Fiscal 2021 other procurement (Navy) funds in the amount of \$5,416,739 (78%); and fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$1,500,000 (22%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lone Star Aerospace Inc., Addison, Texas, is awarded a \$22,204,419 cost-plus-fixed-fee, cost-reimbursable, indefinite-delivery/indefinite-quantity contract. This contract provides predictive decision analysis, technical analysis, simulation and consulting services. Additionally, this contract provides operational sustainment of existing fielded models in support of Naval Air Systems Command and Naval Aviation Enterprise. Work will be performed in Addison, Texas, and is expected to be completed in September 2026. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity (N0042121D0037).

Hill Mission Driven Innovative Solutions Inc., Huntsville, Alabama, is awarded a \$16,266,835 cost-plus-fixed-fee modification to exercise Option Period Four under previously awarded contract M95494-17-F-0021. The work to be performed provides Headquarters Marine Corps, Plans, Policies and Operations; Marine Corps Installations Command (MCICOM); and Commander Navy Installations Command with technical and engineering support for the chemical, biological, radiological, nuclear and high-yield explosive consequence management program. Work will be performed in Washington, D.C. (52%); Camp Lejeune, North Carolina (10%); San Diego, California (10%); Quantico, Virginia (10%); Okinawa Prefecture, Japan (5%); Kanagawa Prefecture, Japan (5%); Seoul, Republic of Korea (4%); and Sicily, Italy (4%). Work is expected to be completed in August 2022. Fiscal 2021 operation and maintenance (Marine Corps and Navy) funds in the amount of \$5,145,638 will be obligated at the time of award and will expire at the end of the current fiscal year. MCICOM Headquarters, Arlington, Virginia, is the contracting activity.

Bascom Hunter Technologies Inc., Baton Rouge, Louisiana, is awarded an \$8,388,144 modification to add new work to a previously awarded cost-plus-fixed-fee contract (N00039-19-C-0020) issued by Naval Information Warfare Systems Command. This modification increases the value of the basic contract by \$8,388,144. The new total value is \$13,240,879.73. This modification provides for the addition of a cost-plus-fixed-fee contract line item for additional satellite communication pre-planned product improvement efforts in support of the Navy's multiband terminal program. The primary focus of this effort is the further development of interference excision systems, all digital modem, and modular hardware open platform under this Small Business Innovation Research (SBIR) Phase III contract. Fiscal 2021 research and development (Navy) funds in the amount of \$8,388,144 will be obligated at the time of award. Funding will not expire at the end of the fiscal year. Work will be performed in Baton Rouge, Louisiana (76%); and Atlanta, Georgia (24%). Work is expected to be completed by August 2023. This SBIR Phase III contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(5) — authorized or required by

statute, Defense Federal Acquisition Regulation subpart 6.302-5. Naval Information Warfare Systems Command, San Diego, California, is the contracting activity.

Raytheon Co., Tucson, Arizona, is awarded a \$7,809,949 firm-fixed-price modification to previously awarded delivery order N00024-21-F-5409 under basic ordering agreement N00024-18-G-5421 in support of the evolved SeaSparrow Missile Block II life of type buy of parts for the NATO SeaSparrow Consortium. Work will be performed in El Segundo, California (62%); Tucson, Arizona (38%), and is expected to be completed by October 2021. Fiscal 2021 other customer (international) funds \$7,809,949 will be obligated at time of award and will not expire at the end of the current fiscal year. This is a sole source contract pursuant to an international agreement between the U.S. and 10 other Block I countries and 10 other block II countries. This contract was not competitively procured via the Federal Business Opportunities website in accordance with sole-source justification — Defense Federal Acquisition Regulation Clause 6.302-4 International Agreement. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

August 19, 2021

General Dynamics Information Technology (GDIT) Inc., Falls Church, Virginia (N00039-21-D-5001), is awarded a \$136,502,136 indefinitely-delivery/indefinite-quantity contract to support the consolidation of all Tier 1 information technology help desks and transition them to the managed service provider, GDIT. GDIT will provide service desk as a service using a knowledge-based solution, employing artificial intelligence, machine learning, predictive analytics and natural language processing. Fiscal 2021 operation and maintenance (Navy) funds will be used for obligations at the task order level. Concurrent with the award, the first task order will be issued in order to satisfy the minimum guarantee of \$5,000 per the terms and conditions of the contract. Funding will expire at the end of the fiscal year. Work will be performed primarily in Bossier City, Louisiana (50%); and New Orleans, Louisiana (50%). Performance is expected to be completed by August 2025 if all options are exercised. This contract includes a one-year base ordering period and three one-year optional ordering periods, which if exercised, would bring the estimated cumulative value to \$136,502,136. Pursuant to the Other Transactions Authority (OTA) of 10 U.S. Code 2371 for prototype projects, this contract is not competitively procured because this is a production contract following the successful completion of the OTA prototype effort that originated in 2019. The Naval Information Warfare Systems Command, San Diego, California, is the contracting activity.

Ocean Ships Inc., Houston, Texas (N3220517C3100), is awarded a \$49,716,606 modification under a previously awarded firm fixed-price contract to fund the fourth one-year option period for the operation and maintenance of six oceanographic survey ships (T-AGS) and navigation test support ship USNS Waters (T-AGS 45). The previously awarded contract includes a 12-month firm period of performance, four 12-month option periods, and one six-month option period, which, if exercised, would bring the cumulative value of this contract to \$507,084,242. Work commenced at sea, June 1, 2018, and is expected to be completed, if all options are exercised, by Sept. 30, 2022. Navy operation and maintenance funds in the amount of \$49,716,606 are obligated for fiscal 2022 and will expire at the end of that fiscal year. The contract was competitively procured with proposals solicited via the Federal Business Opportunities website and five offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

QB Group LLC, San Juan, Puerto Rico, is awarded a \$33,765,000 firm-fixed-price contract for the design and construction of a communications and contingency response facilities at Muñiz Air National Guard Base. The contract also contains six unexercised options, which, if exercised, would increase cumulative contract value to \$36,453,195. Work will be performed in Isla Verde, Puerto Rico, and is expected to be completed by November 2023. The work to be performed provides for design and construction of communications and contingency response facilities. The communications facility will be constructed utilizing conventional design and construction method. The contingency response facility will be

constructed with associated administrative, shop, and high-bay warehouse. The options, if exercised, provide for an electronic security system, audiovisual equipment, furniture, fixtures, and equipment. Fiscal 2020 military construction, (Air Force) contract funds in the amount of \$33,765,000 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website with 10 proposals received. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity (N69450-21-C-0031).

Alabama Shipyard LLC, Mobile, Alabama, is awarded a \$13,066,191 firm-fixed-price contract for a 72-calendar day shipyard availability. The work to be performed provides for services for the mid-term availability of the fleet oiler USNS Patuxent (T-AO 201). The contract includes four unexercised options, which if exercised, would increase cumulative contract value to \$13,314,208. Work will be performed in Mobile, Alabama, and is expected to be completed by Dec. 4, 2021. Fiscal 2021 working capital contract funds (Navy) in the amount of \$13,066,191 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with six proposals received. Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220521C4110).

Leidos Inc., Reston, Virginia, is awarded a \$10,197,295 modification under previously awarded cost-plus-award-fee task order N6264518F0620 to exercise Option Period Three for research and development support services designed to examine the effects of deployment and career experiences on the overall physical and mental health of service members and their families for the Naval Health Research Center, San Diego, California. This option brings the total cumulative value of the task order to \$31,357,301. Work will be performed in San Diego, California, and is expected to be completed by September 2023. Fiscal 2020 and fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$10,197,295 will be obligated at time of award and only the fiscal 2020 funding will expire at the end of the current fiscal year. The Naval Medical Logistics Command, Fort Detrick, Maryland, is the contracting activity.

August 18, 2021

Caddell-Nan JV, Montgomery, Alabama, was awarded a \$36,571,666 firm-fixed-price task order (N6274221F9933) under a multiple award construction contract for the design and construction of a high-bay warehouse at Marine Corps Base (MCB) Guam. The task order also contains one unexercised option, which if exercised would increase cumulative task order value to \$38,314,666. Work will be performed in Finegayan, Guam, and is to be completed by November 2023. The work to be performed provides for the design and construction of a base warehouse to serve MCB Guam. The warehouse will provide storage and administrative space to support the distribution management office, base supply, food services, and general services administrative daily operations. The option, if exercised, provides for the furniture, fixtures, and equipment. Fiscal 2021 military construction (Navy) contract funds in the amount of \$36,571,666 are obligated on this award and will not expire at the end of the current fiscal year. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command, Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-19-D-1329). (Awarded Aug. 16, 2021)

American Petroleum Tankers LLC, Blue Bell, Pennsylvania, is awarded a \$27,010,000 option (P00005) for the fixed-price portion of a previously awarded firm, fixed-price contract (N3220520C4105) with reimbursable elements to exercise a one-year option period to support the Defense Logistics Agency (DLA) and provide ocean going transportation to meet the Department of Defense's (DOD) bulk fuel movement requirements. The M/V Empire State will provide worldwide support to assist DOD and DLA in meeting its need for global transportation of petroleum products. This contract includes a one-year-firm period of the performance, three one-year option periods and one 11-month option period, which if exercised would bring the cumulative value of this contract to \$136,560,500. Work will be performed worldwide and is expected to be completed, if all options are exercised, by July 23, 2025. Working capital

funds (transportation) in the amount of \$27,010,000 are obligated for fiscal 2021 and fiscal 2022, and will not expire at the end of the fiscal year. This procurement was released under full and open competition, with an unlimited number of companies solicited via the beta.sam.gov website and two offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

MZA Associates Corp., Albuquerque, New Mexico, is awarded an \$18,697,835 cost-plus-fixed-fee contract for the counter unmanned aerial vehicle (C-UAS) High Energy Laser Weapon System (HELWS). The contractor will design, develop, deliver, integrate, test and demonstrate a compact, portable, low-cost and reliable C-UAS HELWS using the latest available commercial components. Work will be performed in Albuquerque, New Mexico (80%); and Dayton, Ohio (20%). Work is expected to be completed by Aug. 17, 2023, and if all options are exercised, will continue until Aug. 17, 2025. Fiscal 2020 research, development, test and evaluation (Navy) funds in the amount of \$9,297,835 are obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured under N00014-21-S-B001, "Long Range Broad Agency Announcement (BAA) for Navy and Marine Corps Science & Technology." Since proposals are received throughout the year under the long range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-21-C-1116).

Vertex Aerospace LLC, Madison, Mississippi, is awarded a \$9,918,884 modification (P00008) to a previously awarded firm-fixed-price contract (N0001917C0080). This modification exercises an option to provide organizational and intermediate depot maintenance, logistics and supply support for three KC-130J aircraft for the government of Kuwait. Additionally, this modification provides limited repair of common support equipment. Work will be performed in Abdullah Al-Mubarak Air Base, Kuwait, and is expected to be completed in August 2022. Foreign Military Sales funds in the amount of \$9,918,884 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

CH2M Hill Constructors Inc., Englewood, Colorado, is awarded a \$9,343,200 modification for exercise of two options on a firm-fixed-price task order under a multiple award construction contract for design build hurricane recovery work at Naval Air Station Pensacola. After award of this modification, the total task order value will be \$24,337,800. Work will be performed in Pensacola, Florida, and is expected to be completed by December 2023. The work to be performed provides for design build Hurricane Sally recovery work for repairs for NAS Pensacola Buildings 3902 and 3903. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$9,343,200 are obligated on this modification and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity (N62470-19-D-8024).

August 17, 2021

PC Mechanical Inc., Santa Maria, California, is awarded a \$62,000,000 indefinite-delivery/indefinite-quantity contract for equipment support services (ESS) supporting the civil engineering support equipment (CESE) at Naval Base Ventura County, Naval Base San Diego, and Naval Construction Battalion Center. Work will be performed in Santa Maria, California (75%); and Gulfport, Mississippi (25%). No task orders are being issued at this time. The term of the contract is not to exceed 60 months with a six-month option. Expected completion date of February 2027. The work to be performed is for ESS on CESE assets in contiguous U.S. locations. The contractor shall provide all labor, training, management, for the inspections, preventative maintenance, refurbishment, repairs, overhauls, upgrades, modernization, modifications, and logistics management information services provided to support of naval expeditionary equipment assets. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$10,000 will be obligated after award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by operations and maintenance (Navy). This contract was competitively procured via the system for Award Management Contract Opportunities website with one proposal received. The Naval Facilities Engineering Systems and Expeditionary Warfare Center, Port Hueneme, California, is the contracting activity (N39430-21-D-2207).

Marinette Marine Corp., Marinette, Wisconsin, was awarded a \$38,172,896 cost-plus-fixed-fee modification to previously awarded contract N00024-20-C-2300 to exercise an option for fiscal 2021 engineering and class services requirements in support of detail design and construction of the Constellation-class guided-missile frigate. Work will be performed in Marinette, Wisconsin (40%); Newport News, Virginia (25%); New York, New York (10%); Philadelphia, Pennsylvania (10%); Ayer, Massachusetts (5%); Arlington, Virginia (5%); Herndon, Virginia (2%); Camden, New Jersey (2%); and Tulsa, Oklahoma (1%), and is expected to be completed by August 2022. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$5,000,000 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Aug. 16, 2021)

B. L. Harbert International, Birmingham, Alabama, is awarded a \$32,873,962 firm-fixed-price task order (N6945021F0566) under a multiple award construction contract for hangar renovations and repairs at Naval Air Station Corpus Christi, Texas. The task order also contains one unexercised option, which if exercised would increase the cumulative task order value to \$33,696,344. Work will be performed in Corpus Christi, Texas, and is expected to be completed by November 2023. The work to be performed provides for the repair, and renovation of Corpus Christi Army Depot Hangar 47. Work includes miscellaneous site work, structural stabilization, removal and replacement of the exterior envelope, renovation of the hangar bay and the office lean-to wings, the provision of two elevators, removal and replacement of building systems such as heating, ventilation, and air conditioning, power and lighting and telecommunication systems. The option, if exercised, provides for work on exterior trench drains, piping and the retention area. Fiscal 2021 operation and maintenance (Army) funds in the amount of \$32,873,962 are obligated on this award and will expire at the end of current fiscal year. Three proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity (N69450-19-D-0908).

Raytheon Co., El Segundo, California, is awarded an \$11,495,005 firm-fixed-price order (N0001921F0804) against a previously issued basic ordering agreement (N0001920G0007). This order provides for the upgrade of 10 AN/APG-79 radars from Configuration A to Configuration B and continuing required efforts to repair Weapons Replaceable Assemblies identified as nonfunctioning following baseline testing. Work will be performed in Dallas, Texas (44%); Forest, Mississippi (33%); and El Segundo, California (23%), and is expected to be completed in July 2023. Fiscal 2020 aircraft procurement (Navy) funds in the amount of \$11,495,005 will be obligated at time of award, none of which will expire at the end of the fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

August 16, 2021

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$97,725,718 cost-plus-award-fee modification (P00049) to a previously awarded contract (N0001919C0010). This modification adds scope for the development of the F-35 pilot training device production run-time server for the Navy, Air Force and non-U.S. Department of Defense participants. Work will be performed in Orlando, Florida (78%) and Fort Worth, Texas (22%), and is expected to be completed in August 2025. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$5,254,062; fiscal 2021 research, development, test and evaluation (Air Force) funds \$5,254,062; and non-U.S. Department of Defense participant funds in the amount of \$2,314,696 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Environet Inc., Kamuela, Hawaii, is awarded a \$14,932,488 firm-fixed-price task order N6247821F4234 under a multiple award construction contract for replacement of fuel pumps at Joint Base Pearl Harbor-Hickam. Work will be performed in Honolulu, Hawaii, and is expected to be completed by December 2023. The work to be performed provides for replacement of existing fuel pumps and installation of new fuel pumps in the Red Hill Underground Pump House. Ancillary work includes demolition and reconstruction of the concrete slabs that the pumps are mounted on, reconfiguration of existing fuel

pipelines, replacement of control sensors, and other minor modifications as required to fit the new pumps in the existing space. Fiscal 2021 working capital funds (Navy) in the amount of \$14,932,488 are obligated on this award and will not expire at the end of the current fiscal year. Five proposals were received for this task order. The Naval Facilities Engineering Systems Command, Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62478-18-D-4025).

CFM International Inc., West Chester, Ohio, is awarded a \$14,643,783 modification (P00028) to a previously awarded firm-fixed-price contract (N0001918C1071). This modification exercises an option to procure one P-8A Poseidon CFM56-7B27AE engine for the government of Korea. Work will be performed in Villaroche, France (53%); Durham, North Carolina (43%); Singapore (3%); and Bromont, Canada (1%), and is expected to be completed in July 2022. Foreign Military Sales customer funds in the amount of \$14,643,783 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Integral Aerospace, Santa Ana, California, is awarded a \$9,995,600 five-year, long-term, firm-fixed-priced requirements contract for the repair of two parts associated with the 650 gallon fuel tanks in support of the CH-53 aircraft. All work will be performed in Santa Ana, California, and the ordering period is expected to be completed by August 2026. No funds will be obligated at time of award. Working capital funds (Navy) will be obligated as individual task orders are issued, and funds will not expire at the end of the current fiscal year. One source was solicited for this non-competitive requirement under authority 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-21-D-ZC01).

August 13, 2021

381 Constructors, Omaha, Nebraska, is awarded a \$1,731,477,644 firm-fixed-price contract for construction of a multi-mission dry dock at Portsmouth Naval Shipyard, Maine. The contract is incrementally funded with the first increment of \$70,000,000 being allocated at the time of award. The second increment will be funded in fiscal 2022 at \$214,000,000. The third increment will be funded in fiscal 2023 at \$390,000,000. The fourth increment will be funded in fiscal 2024 at \$405,000,000. The fifth increment will be funded in fiscal 2025 at \$300,000,000. The sixth increment will be funded in fiscal 2026 at \$200,000,000. The seventh increment will be funded in fiscal 2027 at \$152,477,644. The contract also contains seven unexercised options which, if exercised, would increase cumulative contract value to \$1,739,899,555. Work will be performed in Kittery, Maine, and is expected to be completed by June 2028. This project constructs a partitioned addition to Dry Dock #1 within the superflood basin area. The addition will consist of two bays, labeled Dry Dock #1 North and Dry Dock #1 West. The existing Dry Dock #1 will be renamed Dry Dock #1 East. Both Dry Dock #1 North and Dry Dock #1 West will be of sufficient size and depth to support the maintenance and overhaul of Virginia-class submarines, Blocks I-IV. New construction will include concrete floors, walls, and center wall separating Dry Dock #1 North and Dry Dock #1 West, new pump well systems, pump station building, two caissons, portal crane rails, mooring hardware, mechanical and electrical utilities, utility tunnels, and all appurtenances required to ensure an operational dry dock. Modifications will be made to the existing basin closure wall and to Berths #1 and #11. The existing Dry Dock #1 pumpwell will be connected to the new pumpwell system and the interior will be modified. The facility will include basic telephone, computer network, fiber optic, closed-circuit television security system, utility metering, and fire alarm systems. Fiscal 2021 military construction, (Navy) contract funds in the amount of \$70,000,000 are obligated on this award and will not expire at the end of the current fiscal year. This contract was solicited via the beta.sam.gov website with two non-price proposals received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-21-C-0077).

BAE Systems Jacksonville Ship Repair LLC, Jacksonville, Florida (N00024-21-D-4457); and Fincantieri Marine Systems North America, Chesapeake, Virginia (N00024-21-D-4458), are awarded a combined \$1,300,061,738 maximum ceiling value, firm-fixed-price, cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity, multiple award contract (MAC I) to support sustainment execution efforts for littoral combat ships

homeported in Mayport, Florida. These efforts consist of chief of naval operations dry docking selected restricted availabilities and selected restricted availabilities, continuous maintenance, emergent maintenance, ship assessments, preventative/planned maintenance, facilities maintenance, and corrosion control in the contiguous U.S.; and continuous maintenance, emergent maintenance, preventative/planned maintenance, facilities maintenance, and corrosion control, outside the continental U.S. Delivery orders will be competitively awarded under these contracts, which are expected to be performed in Mayport, Florida (58%); outside the continental U.S. (28%); and other contiguous U.S. (14%) locations as appropriate. Each contract has an estimated ordering period of five years, which is expected to end in August 2026. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$20,000 (\$10,000 minimum guarantee per contract) is being obligated at each contract's initial delivery order and will expire at the end of the current fiscal year. These contracts were competitively procured using full and open competition with 16 offers received via the beta.sam.gov website. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Austal USA LLC, Mobile, Alabama (N00024-21-D-4459); Colonna's Shipyard Inc., Norfolk, Virginia (N00024-21-D-4460); East Coast Repair & Fabrication LLC, Portsmouth, Virginia (N00024-21-D-4461); Epsilon Systems Solutions Inc., Portsmouth, Virginia (N00024-21-D-4462); General Dynamics NASSCO-Mayport, Jacksonville, Florida (N00024-21-D-4463); North Florida Shipyards Inc., Jacksonville, Florida (N00024-21-D-4464); and Tecnico Corp., Chesapeake, Virginia (N00024-21-D-4465), are awarded a combined \$965,030,816 maximum ceiling value, firm-fixed price, cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity, multiple award contract (MAC II) to support sustainment execution efforts for littoral combat ships homeported in Mayport, Florida. These efforts consist of chief of naval operations dry docking selected restricted availabilities and selected restricted availabilities, continuous maintenance, emergent maintenance, ship assessments, preventative/planned maintenance, facilities maintenance, and corrosion control in the contiguous U.S.; and continuous maintenance, emergent maintenance, preventative/planned maintenance, facilities maintenance, and corrosion control, outside the continental U.S. Delivery orders will be competitively awarded under these contracts, which are expected to be performed in Mayport, Florida (58%); outside the continental U.S. (28%); and other contiguous U.S. (14%) locations as appropriate. Each contract has an estimated ordering period of five years, which is expected to end in August 2026. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$70,000 (\$10,000 minimum guarantee per contract) is being obligated at each contract's initial delivery order and will expire at the end of the current fiscal year. These contracts were competitively procured using full and open competition with 16 offers received via the beta.sam.gov website. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Life Cycle Engineering Inc., Charleston, South Carolina (N00024-21-D-4466); Neal Technical Innovations LLC, Daphne, Alabama (N00024-21-D-4467); and Valkyrie Enterprises Inc., Virginia Beach, Virginia (N00024-21-D-4468), are awarded a combined \$499,245,545 maximum ceiling value, firm-fixed-price, cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity, multiple award contract (MAC III) to support sustainment execution efforts for littoral combat ships homeported in Mayport, Florida. These efforts consist of chief of naval operations dry docking selected restricted availabilities and selected restricted availabilities, continuous maintenance, emergent maintenance, ship assessments, preventative/planned maintenance, facilities maintenance, and corrosion control in the contiguous U.S.; and continuous maintenance, emergent maintenance, preventative/planned maintenance, facilities maintenance, and corrosion control, outside the continental U.S. Delivery orders will be competitively awarded under these contracts, which are expected to be performed in Mayport, Florida (58%); outside the continental U.S. (28%); and other contiguous U.S. (14%) locations as appropriate. Each contract has an estimated ordering period of five years, which is expected to end in August 2026. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$30,000 (\$10,000 minimum guarantee per contract) is being obligated at each contract's initial delivery order and will expire at the end of the current fiscal year. These contracts were competitively procured using full and open competition with 16 offers received via the beta.sam.gov website. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Management Services Group Inc., doing business as Global Technical Systems (GTS), Virginia Beach, Virginia, is awarded an \$81,339,518 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides for the procurement of one lot of DLQ-9 pods, associated hardware for DLQ-9 pod modifications, and technical data in support of electronic attack/electronic warfare threat simulation for weapons development, test, and evaluation, fleet training, and target applications for the Department of Defense. Work will be performed in Virginia Beach, Virginia, and is expected to be completed in August 2026. No funds will be obligated at the time of award. Funds will be obligated on individual orders as they are issued. This contract is a small business set-aside, competitively procured via an electronic request for proposal; two offers were received. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity (N6893621D0026).

Pennsylvania State University, Applied Research Laboratory, Electro Optics Center, Freeport, Pennsylvania, is awarded a \$50,000,000 indefinite-delivery/indefinite-quantity contract for the Navy Manufacturing Technology (ManTech) Electronics Manufacturing Center. The work to be performed provides for the operation and management of the center in its mission to develop naval platform-related manufacturing technologies and transition the technology for implementation in electronics manufacturing and other industrial facilities. In addition to accomplishing the center's core mission, the contractor shall manage, operate, sustain and enhance the center's ability to function as an Office of Naval Research ManTech Center of Excellence. Work will be performed in Freeport, Pennsylvania, and is expected to be completed by Aug. 12, 2026. The total cumulative value of this contract is \$50,000,000. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amounts of \$410,025 and \$413,896 are obligated on two task orders upon release of the contract. These funds will not expire at the end of the current fiscal year. This contract was competitively procured under N00014-20-R-0006, with two proposals received. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-21-D-7003).

Machine Tools Marketing Inc., Bixby, Oklahoma (N6893621D0044); Machine Tools USA Inc., Mathews, Virginia (N6893621D0045); and Pacific IC Source, Yucaipa, California (N6893621D0046), are each awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity contract. These contracts procure various machine tools, work holding devices and peripheral equipment for conventional, computer numerically controlled equipment and provide support, to include maintenance, repair, relocation, delivery, installation, and training associated with acquired machinery in support of earthquake recovery efforts for the Navy. The estimated aggregate ceiling for all contracts is \$40,000,000, with the companies having an opportunity to compete for individual orders. Work will be performed in China Lake, California, and is expected to be completed in August 2026. No funds will be obligated at the time of award. Funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; three offers were received. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity.

Nakupuna Solutions LLC, Arlington, Virginia, is awarded a \$28,987,467 firm-fixed-price contract for modernization efforts of base area networks for Camp Lejeune, Marine Corps Air Station (MCAS) Beaufort, and Marine Corps Recruiting Depot (MCRD) Parris Island. This contract provides modernization and sustainment of the base area network/local area network and the unified communications at Marine Corp installations. The combined systems shall provide a fully converged, net-centric enterprise architecture supporting the migration of applications, services, and networks on a common infrastructure that satisfies Department of Defense unified capabilities requirements. Work will be performed at Camp Lejeune, North Carolina; MCAS Beaufort, South Carolina; and MCRD Parris Island, South Carolina, with an expected completion date of February 2023. The maximum dollar value is \$28,987,467; no option periods are included in the contract. Fiscal 2020 overseas contingency operations (Marine Corps) procurement funds in the amount of \$28,987,467 are being obligated at time of award and funds will expire Sept. 30, 2022. This procurement is a direct 8(a) sole-source award to an Alaskan Native Corp. in accordance with Defense Federal Acquisition Regulation 6.302-5, authorized or required by statute. The Marine Corp Systems Command, Quantico, Virginia, is the contracting activity (M67854-21-C-4905).

Great Eastern Group Inc., Fort Lauderdale, Florida, is awarded a \$9,130,194 modification to exercise and fund the second 12-month option on a firm-fixed-price contract with reimbursable elements for the offshore support vessel Hercules. This vessel will be utilized to support refueling and resupply of the Sea-Based X-Band Radar (SBX-1). This contract includes a 12-month base period, three 12-month option periods, and one 11-month option period. Work will be performed in the U.S. Pacific Command's area of responsibility, and is expected to be completed, if all options are exercised by July 15, 2024. The option is funded by research, development, test and evaluation (Navy) funds for fiscal 2021 and fiscal 2022. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220519C3500).

Chugach Consolidated Solutions LLC, Anchorage, Alaska, is awarded an \$8,296,583 firm-fixed-price contract for construction of a new combat training facility at Marine Corps Base Guam. The contract also includes three option items that are being exercised at time of award and is included in the \$8,296,583. Work will be performed in Finegayan, Guam, and is expected to be completed by September 2022. The work to be performed includes the construction of a covered training area, field training area, rappel training area, hand-to-hand combat pit and an obstacle course. The three exercised options include construction of the following: a portion of the field training area, the roof over the bleachers, and the roof over the rappelling tower. Fiscal 2021 military construction (Navy) contract funds in the amount of \$8,296,583 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website with four proposals received. The Naval Facilities Engineering Systems Command, Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-21-C-1315).

August 12, 2021

Accenture Federal Services LLC, Arlington, Virginia (N00189-21-D-Z036); Ancilla Technologies and Services Inc., Clarksburg, Maryland (N00189-21-D-Z037); Booz Allen Hamilton Inc., McLean, Virginia (N00189-21-D-Z038); Deloitte Consulting LLP, Arlington, Virginia (N00189-21-D-Z039); Universal Consulting Services Inc., Fairfax, Virginia (N00189-21-D-Z040); and Whitney, Bradley and Brown Inc., Reston, Virginia (N00189-17-D-Z041), are awarded an estimated \$91,902,830 multiple award of indefinite-delivery/indefinite-quantity, cost-plus-fixed-fee contracts that will include terms and conditions for the placement of both cost-plus-fixed-fee and firm-fixed-price task orders to provide program management support services in order to facilitate Navy Medicine's mission to provide well-trained medical experts, operating as high-performance teams, to project medical power in support of the Surgery, Operation, Plans, & Readiness Directorate, Naval Bureau of Medicine. Each contract will run concurrently and will include a 48-month ordering period. Work will be performed in Falls Church, Virginia (10%); at government facilities; and 90% in contractor facilities in response to awarded task orders which cannot be reasonably estimated at the time of contract award. The ordering period of the contract will begin in September 2021 and is expected to be completed by August 2025. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$20,000 will be obligated (estimated \$3,333) on each of the six contracts to fund the contracts' minimum amounts), and funds will expire at the end of the current fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. This contract was competitively procured with the solicitation posted to the Navy Electronic Business Opportunities and beta.sam.gov websites, with 13 offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department Philadelphia Office, Philadelphia, Pennsylvania, is the contracting activity.

Fraser and Fogle, Seattle, Washington, is awarded a maximum \$50,000,000 indefinite-delivery/indefinite-quantity contract for architectural-engineering services. The term of the contract is not to exceed 60 months with an expected completion date of September 2026. The work to be performed is for architectural services at various locations serviced by Naval Facilities Engineering Systems Command Northwest (NAVFAC NW) area of operations to include Washington (75%); Alaska (22%); Idaho (1%); Oregon (1%); and Montana (1%), and may also include other areas of the U.S. and worldwide. The preponderance of the work is expected to be performed in the state of Washington. The exact location of

the requirements will be designated on individual task orders. Fiscal 2021 military construction (MILCON) (Navy) contract funds in the amount of \$1,000 for the minimum guarantee are obligated on this award and will not expire at the end of the current fiscal year. Future task orders will be primarily funded by operation and maintenance (Navy) and MILCON (Navy) funds. This contract was competitively procured via the Contract Opportunities website with eight proposals received. NAVFAC NW, Silverdale, Washington, is the contracting activity (N44255-21-D-0001).

Reyes Construction Inc., Pomona, California, is awarded \$26,750,600 firm-fixed-price task order N6247321F5105 under a multiple award construction contract for design and construction of missile magazines at Naval Weapons Station, Seal Beach. The contract is incrementally funded with the first increment of \$18,993,300 being allocated at the time of award. The second increment will be funded in fiscal 2022 at \$7,757,300. The task order also contains five unexercised options, which, if exercised, would increase cumulative task order value to \$26,903,000. Work will be performed in Seal Beach, California, and is expected to be completed by July 2023. The work to be performed includes construction of four missile magazines including access driveways and apron areas as well as electrical, telecommunications, and storm water management and drainage infrastructure. The options, if exercised, provide for pre-consolidation monitoring, and an electronic security system. Fiscal 2021 military construction, (Navy) contract funds are obligated on this award and will not expire at the end of the current fiscal year. Two proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-18-D-5862).

August 11, 2021

DCS, Corp., Alexandria, Virginia, is awarded a \$25,080,326 modification (P00026) to a previously awarded, cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract. This modification increases the ceiling to address labor cost increases to provide continued systems engineering, analysis, research, development, logistics, configuration and data management services to the Naval Air Warfare Center Weapons Division's aircraft integrated product teams in support of the development, integration, test, evaluation, and fielding of new and upgraded capabilities to the F/A-18, EA-18G, F-35, AV-8B, AH-1/UH-1 aircraft and unmanned aerial systems for the Navy. Work will be performed in China Lake, California (86.5%); Eglin, Florida (7%); Ridgecrest, California (5%); Point Mugu, California (1%); and various locations within the continental U.S. (0.5%), and is expected to be completed in October 2022. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Warfare Center Weapons Division, Point Mugu, California, is the contracting activity (N68936-18-D-0006).

Georgia Tech Research Corp., Atlanta, Georgia, is awarded an \$11,510,337 36-month modification to exercise Option One to a previously awarded cost contract to develop a new breed of high performance computer (HPC), dubbed "Real-time HPC," which balances computational throughput with extreme low latency to create a largescale virtual radiofrequency test range. This modification increases the value of the basic contract by \$11,510,337; the new total value is \$13,913,213. Work will be performed at contractor facilities in Atlanta, Georgia (50%); New York, New York (30%); and Aurora, Colorado (20%). The period of performance for option is from Aug. 1, 2021, through July 31, 2024. Fiscal 2021 research, development, test and evaluation (DoD) funds in the amount of \$972,876 will be obligated at the time of award. Funds will not expire at the end of the current fiscal year. This contract was competitively procured via a Defense Advanced Research Projects Agency (DARPA) broad agency announcement solicitation published on the beta.sam.gov and DARPA websites. Eight proposals were received and one was selected for award. Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity (N66001-20-C-4002).

Textron Systems Corp., Hunt Valley, Maryland, is awarded an \$11,285,913 five-year, long-term, firm-fixed price contract under a previously awarded performance-based logistics requirements contract (N00383-

19-D-U501) for the logistics and repair support of MV-22B, CMV-22 (Navy) and CV-22 (Air Force) Osprey components in support of the Joint Service Electronic Combat Systems Tester system. All work will be performed in Hunt Valley, Maryland, and is expected to be completed by August 2026. Appropriate fiscal year working capital funds (Navy) will be obligated as individual task orders are issued, and funds will not expire before the end of the current fiscal year. One source was solicited for this non-competitive requirement and one offer was received in accordance with 10 U.S. Code 2304 (c)(1). Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-21-D-ZD01).

August 10, 2021

Lockheed Martin Space, Titusville, Florida, is awarded a maximum amount \$10,913,000 unpriced letter contract for long-lead material and the labor, planning, and scheduling necessary to support the fiscal 2022 Trident II (D5) missile production schedule. This unpriced letter contract will be definitized on or about Oct. 1, 2021, as a fixed-price-incentive contract. Work will be performed in Titusville, Florida. Work is expected to be completed Sept. 30, 2026. Fiscal 2021 weapons procurement (Navy) funds in the amount of \$9,636,000 are obligated at time of award. No funds will expire at the end of the current fiscal year. This contract was awarded to the contractor on a sole-source basis under 10 U.S. Code 2304(c)(1) and was previously synopsisized on the Federal Business Opportunities website. Strategic Systems Program, Washington, D.C., is the contracting activity (N00030-21-C-0100).

Raytheon Missiles and Defense, Portsmouth, Rhode Island, is awarded a cumulative \$9,508,104 cost-plus-fixed-fee contract for the "Science and Technology Research for the SSBN Security Technology Program (SSTP)" program, also referred to as "Oban 3." The contractor will conduct scientific investigations of novel non-acoustic phenomenologies associated with SSBN security and submarines in general. These physics-based analyses will include development of new products in the areas of signature modeling and validation, clutter modeling and validation, signal processing algorithm development and countermeasure concept development. Work will be performed in Portsmouth, Rhode Island, with an expected completion date of Aug. 9, 2024. Fiscal 2020 research, development, test and evaluation (Navy) funds in the amount of \$459,528 are obligated at time of award. Funds in the amount of \$12,528 will expire at the end of the current fiscal year. This contract was competitively procured under N00014-21-S-B001, "Long Range Broad Agency Announcement (BAA) for Navy and Marine Corps Science & Technology." Since proposals are received throughout the year under the long range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-21-C-1056).

Teledyne Brown Engineering Inc., Huntsville, Alabama, is awarded \$9,065,291 under a previously awarded, cost-plus-award-fee task order against contract N6264520D5008 to exercise Option Period One for research and development support services for training and continued development of medical modeling and simulation research tools for the Naval Health Research Center, San Diego, California. This option brings the total cumulative value of the task order to \$17,918,761. Work will be performed in Huntsville, Alabama (80%); and San Diego, California (20%), and is expected to be completed by August 2022. Fiscal 2020 and fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$2,730,677 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Medical Logistics Command, Fort Detrick, Maryland, is the contracting activity.

August 9, 2021

Balfour Beatty, Falls Church, Virginia, is awarded a \$57,795,000 firm-fixed-price contract for construction of a consolidated communication center at Joint Base Andrews. The contract also contains five unexercised options, which if exercised would increase cumulative contract value to \$61,738,711. Work will be performed in Camp Springs, Maryland, and is expected to be completed by August 2023. The work to be performed provides for construction of a new consolidated communication center for the Air Force's 89th, 744th, and 83rd Squadrons within a single structure, and the demolition of two facilities

(Buildings 1539 and 1558). The options, if exercised, provide for the audiovisual services, landscaping, water infiltration testing, air infiltration testing, and furniture, fixtures, and equipment. Fiscal 2017 military construction (Air Force) contract funds in the amount of \$57,795,000 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website with six proposals received. The Naval Facilities Engineering Systems Command, Washington, Washington, D.C., is the contracting activity (N40080-21-C-0055).

Raytheon Co., Goleta, California, is awarded a \$22,765,429 firm-fixed-price contract. This contract procures full rate production Lot 15 CD-108B/ALE-50(V) control, dispenser, decoy, countermeasures Integrated Multi-Platform Launch Controllers (IMPLC), to include 37 IMPLCs and induction and repair of IMPLC lab assets in support of the F/A-18 program for the Navy. Work will be performed in Forest, Mississippi (64%); and Goleta, California (36%), and is expected to be completed in July 2024. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$13,465,141; fiscal 2021 working capital (Navy) funds in the amount of \$4,650,144; and fiscal 2020 aircraft procurement (Navy) funds in the amount of \$4,650,144 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921C0067).

Gilbane Federal, Concord, California, is awarded \$14,374,866 firm-fixed-price task order N6247321F5163 under an environmental multiple award contract for Parcels E and E-2, and the former salvage yard at Hunters Point Naval Shipyard. Work will be performed in San Francisco, California, and is expected to be completed by August 2026. The work to be performed includes the removal and obtaining radiological unrestricted free release of sanitary sewer and storm drain lines in Parcels E and E-2, and radiological remediation of the former salvage yard and disposal trench area in Parcel E. Fiscal 2021 base realignment and closure environmental, (Navy) contract funds in the amount of \$14,374,866 are obligated on this award and will not expire at the end of the current fiscal year. Three proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-17-D-0005).

Networks Electronic Co., Chatsworth, California, is awarded an \$11,737,663 firm-fixed price, indefinite-delivery/indefinite-quantity contract for engineering, technical, administrative and programmatic management support for total life cycle management of the various aircrew escape systems managed under the joint program office for cartridge actuated device/propellant actuated device tri-service charter. Work will be performed in Chatsworth, California, and is expected to be completed by September 2025. Fiscal 2021 Navy working capital funding of \$500 will be obligated on the first task order at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured and in accordance with 10 U.S. Code 2304(c)(1) — only limited number of responsible sources will satisfy agency requirements. The Naval Surface Warfare Center Indian Head Division, Indian Head, Maryland, is the contracting activity. (N00174-21-D-0013).

RQ Construction LLC, Carlsbad, California, is awarded a \$10,305,215 firm-fixed-price modification to increase the maximum dollar value of an existing task order N6247320F5106 for the repair and maintenance of Michelson Laboratory Wings 2-5 at Naval Air Weapons Station (NAWS) China Lake. After award of this modification, the total cumulative contract value will be \$92,465,889. Work will be performed in China Lake, California, and is expected to be completed by July 2023. Fiscal 2021 Navy working capital contract funds in the amount of \$10,305,215 are obligated on this award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Officer in Charge of Construction, China Lake, California, is the contracting activity (N62473-16-D-1885).

August 6, 2021

Triverus LLC, Palmer, Alaska, is awarded a \$19,201,500 option exercise modification to the previously awarded, hybrid (firm-fixed-price and cost-plus-fixed-fee) contract N00024-18-C-4449 to acquire services and material necessary to support production of the mobile cleaning, recovery, and recycling system; associated spare parts, engineering and services; and other direct cost in support of associated engineering and services. Work will be performed in Palmer, Alaska, and is expected to be completed by September 2023. Fiscal 2021 other procurement, Navy funds in the amount of \$6,068,359 will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

August 5, 2021

The Whiting-Turner Contracting Co., Baltimore, Maryland, was awarded a \$58,517,575 firm-fixed-price task order modification (N4008520F6537), which exercised the negotiated option to begin construction on the Virginia-class waterfront support facility, Building 178, at Portsmouth Naval Shipyard (PNS). Work will be performed in Kittery, Maine, and is expected to be completed by May 2023. The work will construct an elevated three-story structure sited inside the south end of Building 178, to include renovation of a portion of the ground floor area in order to provide waterfront support field shop operations for naval submarine work at PNS. The construction will provide overhead clearance at the ground and second floors for field shops, and project team space on the third and fourth floors. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$58,517,575 are obligated on this award and will expire at the end of the current fiscal year. This contract was competitively procured via the government point of entry contract opportunities on beta.sam.gov with two proposals received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-21-D-0036). (Awarded July 31, 2021)

Wärtsilä Defense Inc., Chesapeake, Virginia (N3220521D4126); and Coastal Seal Services LLC, Lincolnton, North Carolina (N3220521D4127), are awarded a \$33,367,844 firm-fixed-price, multiple award, indefinite-delivery/indefinite-quantity contract. These contracts fulfill Military Sealift Command's requirement for Wärtsilä-brand equipment, supply, maintenance and repair services. This requirement includes parts and services in support of these ship classes: T-AH (Hospital); T-AKE (Dry Cargo/Ammunition); T-AO (Fleet Replenishment Oiler); T-AOE (Fast Combat Support); T-ARC (Cable Repair); T-ARS (Rescue and Salvage); T-AS (Submarine Tender); T-EPF (Expeditionary Fast Transport); and T-ESB (Expeditionary Sea Base) of Military Sealift Command vessels. Each contract includes five one-year ordering periods that would bring with a potential cumulative value to \$33,367,844, if required. Work will be performed worldwide and is expected to be completed by Aug. 29, 2026. Working capital funds (Navy) in the amount of \$3,500 for the minimum guarantee for each offer or will be obligated at time of award. Orders may be placed throughout the five-year ordering period. Funding for fiscal 2021 in which initial orders are placed will be utilized at that time. This contract was a limited-source requirement procured via the government-wide beta.sam.gov website and two offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Systems Engineering Associates Corp., Middletown, Rhode Island, is awarded a \$16,624,414 indefinite-delivery/indefinite-quantity contract containing cost type provisions. This contract is for continued Small Business Innovation Research (SBIR) Phase III engineering and fabrication services. Work will be performed in Middletown, Rhode Island (95%); and Newport, Rhode Island (5%). The ordering period will be completed by August 2026. Fiscal 2020 research, development, test and evaluation (Navy) funds in the amount of \$5,000 will be obligated at time of award on the first task order, all of which will expire at the end of the current fiscal year. This contract was not competitively procured on the beta.sam.gov website, in accordance with 10 U.S. Code 2304(b)(2), as implemented by Defense Federal Acquisition Regulation 6.302-5 — authorized or required by statute. The Naval Undersea Warfare Center Division, Newport, Newport, Rhode Island, is the contracting activity (N66604-21-D-F100).

Oceaneering International Inc., Hanover, Maryland, is awarded a \$15,931,391 cost-plus-fixed-fee contract for the integration and testing of a Compensated Lift and Advanced Mooring System (CLAMS) developed under a previous initiative. The performer will integrate the prototype macro crane, micro crane, advanced motion controller and the advanced mooring system onto a government-provided barge suitable for testing in fiscal 2022. The results of this testing will inform future at-sea precision lift requirements for the Navy. Work will be performed in Hanover, Maryland (80.2%); Mooresville, North Carolina (15.5%); Beltsville, Maryland (3.5%); and Chesapeake, Virginia (0.8%). Work is expected to be completed by June 8, 2023. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$2,909,064 are obligated at time of award. No funds will expire at the end of the current fiscal year. This contract was noncompetitively procured via a justification and approval. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-21-C-1029).

Belt Built CFM JV LLC, Crofton, Maryland, is awarded an \$8,260,843 firm-fixed-price task order N4008021F4813 under a multiple award construction contract for construction of the aircraft parking apron at Naval Air Station (NAS) Patuxent River. The task order also contains two unexercised options, which if exercised, would increase the cumulative task order value to \$14,154,870. Work will be performed in Patuxent River, Maryland, and is expected to be completed by February 2023. The work to be performed is the replacement of the existing aircraft parking apron at the Navy Fleet Air Reconnaissance Squadron Four (VQ-4) facility. The option, if exercised, provides a new, single-story alert facility at the NAS Patuxent River. The new building is an additional structure within the alert facility site that will serve as administrative, training and sleeping quarters for VQ-4 personnel. Fiscal 2021 operation and maintenance, (Navy) contract funds in the amount of \$8,260,843 are obligated on this award and will expire at the end of the current fiscal year. Seven proposals were received for this task order. The Naval Facilities Engineering Systems Command, Washington, D.C., is the contracting activity (N40080-19-D-0014).

Harper Construction Co. Inc., San Diego, California, is awarded a \$7,690,149 firm-fixed-price modification to increase the maximum dollar value of an existing task order for the construction of Michelson Mission Systems Integration Laboratory at Naval Air Weapons Station (NAWS) China Lake. After award of this modification, the total cumulative contract value will be \$105,994,299. Work will be performed in China Lake, California, and is expected to be completed by November 2022. Fiscal 2021 Navy working capital contract funds in the amount of \$7,690,149 are obligated on this award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, China Lake, California, is the contracting activity (N62473-20-F-5462).

August 4, 2021

Austal USA, Mobile, Alabama (N00024-21-D-4443); Epsilon Systems Solutions Inc., Portsmouth, Virginia (N00024-21-D-4444); and Continental Maritime of San Diego LLC, San Diego, California, formerly Huntington Ingalls Industries San Diego Shipyard Inc. (N00024-21-D-4445), are each awarded firm-fixed-price, cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity, multiple award contracts to support sustainment execution efforts for Littoral Combat Ships homeported in San Diego, California (MAC I). The MAC I contracts will have a ceiling of \$344,724,287. Delivery orders will be competitively awarded under these contracts, which are to be performed in San Diego, California (58%); outside the continental U.S. (28%); and other continental U.S. (14%) locations, as appropriate. Each of the contracts has an estimated ordering period of 19 months, which is expected to end in February 2023. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$15,000 (\$5,000 minimum guarantee per contract) is being obligated as each contract's initial delivery order which will expire at the end of the current fiscal year. These contracts were competitively procured using full and open competition with three offers received via the beta.sam.gov website. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Corp., Fort Worth, Texas, was awarded a \$66,610,781, fixed-price (incentive) firm target, firm-fixed-price modification (P00056) to a previously awarded contract (N0001917C0001). This modification provides for alternative sources aircraft alignment definitization of material impacts to F-35 Lightning II Joint Strike Fighter low-rate initial production Lots 12-14 aircraft in support the U.S. government's decision to establish alternative source suppliers for materials and hardware within the F-35 production line for the Navy, Marine Corps, Air Force, and non-Department of Defense (DOD) participants. Work will be performed in Hoogerheide, Netherlands (89%); Laval, Quebec, Canada (9%); and Rancho Dominguez, California (1%), and is expected to be completed in February 2023. Fiscal 2018 aircraft procurement (Navy) funds in the amount of \$159,568; fiscal 2019 aircraft procurement (Air Force) funds in the amount of \$8,982,671; fiscal 2019 aircraft procurement (Navy) funds in the amount of \$6,688,543; fiscal 2020 aircraft procurement (Air Force) funds in the amount of \$12,457,633; fiscal 2020 aircraft procurement (Navy) funds in the amount of \$6,412,057; and non-DOD participant funds in the amount of \$31,910,309 will be obligated at time of award, \$15,671,214 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity. (Awarded August 2, 2021)

Empire Hospitality LLC, Birmingham, Alabama, is awarded \$30,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract to provide emergent restriction of movement COVID-19 support services to include lodging, laundry, transportation and sustenance in support of Commander, Second Fleet. This contract will include a one-year base ordering period with no options and is expected to be completed by August 2022. All work will be performed at locations across the East Coast continental U.S. in which the percentage of work at each of those location cannot be determined at this time. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$2,500 will be obligated to fund the contract's minimum amount and will expire at the end of the fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. This contract resulted from a full and open competitive solicitation through beta.sam.gov, with seven offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department Norfolk Office, Norfolk, Virginia, is the contracting activity (N00189-21-D-0025).

Woods Hole Oceanographic Institution, Woods Hole, Massachusetts, is awarded a \$9,693,289 cost-plus-fixed-fee contract for the effort titled "Autonomous Systems and Communications." The work to be performed spans vehicle autonomy and multimodal communications. The project aims to improve base understanding of the environment through in situ sampling and autonomous decision making for the Naval research community. The capabilities in development align to the Navy unmanned campaign framework to directly work on key enabling technology outlined by the secretary of the Navy and the chief of naval operations. Work will be performed in Woods Hole, Massachusetts, with an expected completion date of Aug. 3, 2025. Fiscal 2020 research, development, test and evaluation (Navy) funds in the amount of \$451,000 are obligated at time of award. Funds in the amount of \$100,000 will expire at the end of the current fiscal year. This contract was competitively procured under N00014-20-S-B001, "Long Range Broad Agency Announcement (BAA) for Navy and Marine Corps Science and Technology." Since proposals are received throughout the year under the long-range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-21-C-2028).

August 3, 2021

Alliant Techsystems Operations LLC, a wholly owned subsidiary of Northrop Grumman Defense Systems Sector, Northridge, California, is awarded a \$94,880,370 firm-fixed-price contract. This contract procures full rate production of Lot 10 Advanced Anti-Radiation Guided Missiles (AARGM), to include conversion of 87 U.S. government-provided AGM-88B High Speed Anti-Radiation Missiles (HARMs); and 40 Germany Air Force-provided AGM-88B HARMs into 127 AGM-88E AARGM All-Up-Rounds, and related supplies and services necessary for their manufacture, spares, and fleet deployment in support of F/A-18C/D, F/A-18E/F, and EA-18G aircraft for the Navy and Foreign Military Sales (FMS) customers. Work will be performed in Northridge, California (80%); and Ridgecrest, California (20%), and is expected to be completed in March 2024. Fiscal 2021 operation and maintenance (Navy) funds on the amount of

\$152,852; fiscal 2021 weapons procurement (Navy) funds in the amount of \$64,838,045; fiscal 2020 weapons procurement (Navy) funds in the amount of \$1,591,212; fiscal 2019 weapons procurement (Navy) funds in the amount of \$662,782; and FMS customer funds in the amount of \$27,635,479 will be obligated at time of award, \$815,634 of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-5. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921C0013).

Saab Inc., East Syracuse, New York, was awarded a \$32,245,366 firm-fixed-price, cost-plus-fixed fee and cost-only contract (N00024-21-C-5414) for the MK 9 Tracker Illuminator System Replacement Continuous Wave Tracking Illuminator development and production effort. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$104,840,812. Work will be performed in East Syracuse, New York (93%); and Syracuse, New York (7%), and is expected to be completed by August 2023. If all options are exercised, work will continue through March 2030. Fiscal 2021 research, development, test and evaluation (Navy) funding in the amount of \$9,000,000 (99%); and fiscal 2020 research, development, test and evaluation (Navy) funding in the amount of \$3,184 (1%) will be obligated at the time of award, of which \$3,184 will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with two offers received. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Aug. 2, 2021)

Alpha Marine Services LLC, Cut Off, Louisiana, is awarded a \$12,408,175 firm, fixed-price with reimbursable elements contract (N3220521C4030) for long-term charter of one U.S.-flagged Jones Act Anchor Handling Towing and Supply vessel to support fleet towing, diving and salvage operations, submarine rescue, and training exercises. This contract includes a 12-month base period with two 12-month option periods which, if exercised, would bring the cumulative value of this contract to \$38,008,507. Work will be performed primarily on the U.S East Coast and Atlantic Ocean and is expected to be completed, if all options are exercised, by July 29, 2024. Working capital funds (Navy) in the amount of \$12,408,175 are obligated for the firm period which begins in fiscal 2021, and will not expire. This contract was competitively procured with proposals solicited via the Federal Business Opportunities website and two offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220521C4030).

Aviation Systems Engineering Company Inc., Lexington Park, Maryland, is awarded an \$11,057,621 modification (P00045) to a previously awarded cost-plus-fixed-fee contract (N6833516C0330). This modification exercises an option to provide technical engineering services, to include systems engineering, research and technical analysis, advanced capabilities analysis, functional requirements definition and allocation, information assurance, verification/test, system documentation, and technical data in support of maritime patrol and reconnaissance aircraft programs involved in the development of new operational requirements to provide improved intelligence, surveillance, reconnaissance and tracking capabilities. Work will be performed in Patuxent River, Maryland (51%); Jacksonville, Florida (46%) and Seattle, Washington (3%), and is expected to be completed in February 2022. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$380,150; and fiscal 2021 aircraft procurement (Navy) funds in the amount of \$32,602 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center, Lakehurst, New Jersey, is the contracting activity.

Leisnoi-Kemron 8A JV LLC, Anchorage, Alaska, is awarded a \$9,253,984 firm-fixed-price modification to previously-awarded contract N62473-19-C-0008 for remedial action Parcel E-2 installation of soil cover, wetlands, and landfill gas control and containment system (Phase III) at the former Hunters Point Naval Shipyard. Work will be performed in San Francisco, California, and is expected to be completed by September 2022. Fiscal 2021 Base Realignment and Closure environmental (Navy) funds in the amount of \$9,253,984 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity.

Vectrus Systems Corp., Colorado Springs, Colorado, is awarded a \$7,834,300 indefinite-delivery/indefinite-quantity modification to exercise Option One under previously-awarded contract N62470-20-D-0004 for base operations support services at Deveselu, Romania, in the Naval Facilities Engineering Systems Command Europe, Africa Central (EURAFCENT) area of responsibility. This option brings the total cumulative contract value to \$13,630,348. Work will be performed in Deveselu, Romania, and expected to be completed by July 2022. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$4,118,829 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command EURAFCENT is the contracting activity.

August 2, 2021

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a \$225,117,921 modification to previously awarded contract N00024-19-C-2125 for engineering, technical, design agent, and planning yard support for operational strategic and attack submarines. The contract provides for drawings and related technical data; design change documentation; logistics technical data; configuration management; hull, mechanical and electrical engineering; submarine safety design review; non-propulsion plant electrical system engineering; propulsion plant engineering; maintenance engineering; refit/availability technical support; on-site support; configuration change program design and installation support; configuration change program material support; submarine technical trade support; training and facility support; research development test and evaluation program support; research and development submarine/submersibles support; miscellaneous special studies; temporary alteration support; modernization of submarine/submersible systems/subsystems; and affordability/cost reduction technical support. Work will be performed in Groton, Connecticut (70%); Kings Bay, Georgia (13%); Bangor, Washington (10%); Pearl Harbor, Hawaii (3%); North Kingston, Rhode Island (2%); and Newport, Rhode Island (2%), and is expected to be completed by September 2023. Fiscal 2021 other procurement, Navy funding in the amount of \$3,104,008 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Corp., Owego, New York, is awarded an \$117,686,514 modification (P00002) to a firm-fixed-price order (N0001921F0841) against a previously issued basic ordering agreement (N0001921G0017). This order provides non-recurring engineering and field services representative efforts to bring 12 MH-60R aircraft from standard Foreign Military Sales (FMS) configuration to a Republic of Korea Navy configuration. Work will be performed in Stratford, Connecticut (38%); Best, France (37%); Owego, New York (18%); and Portsmouth, Rhode Island (7%), and is expected to be completed in November 2026. FMS funds in the amount of \$117,686,514 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Seemann Composites LLC, Gulfport, Mississippi, is awarded an \$74,922,276 indefinite-delivery/indefinite-quantity, cost-plus-fixed-fee, and cost-plus-incentive-fee contract for design engineering and manufacturing support. Work will be performed in Gulfport, Mississippi (60%); Chesapeake, Virginia (20%); and Horsham, Pennsylvania (20%), and is expected to be completed by July 2026. Fiscal 2021 research, development, test, and evaluation (Navy) funding in the amount of \$18,842 will be obligated at time of award for the first order and not expire at the end of the current fiscal year. This contract was competitively procured via the Beta.Sam.gov website, with three offers received. The Naval Surface Warfare Center Carderock Division, Bethesda, Maryland, is the contracting activity (N0016721D0010).

Lockheed Martin Corp., Fort Worth, Texas, is awarded a \$51,793,127 cost-plus-incentive-fee contract. This contract provides for program management support to include development of customer unique capabilities in support of the continued development of the air system for the F-35 Lightning II Joint Strike Fighter program for a Foreign Military Sales (FMS) customer. Work will be performed in Fort Worth, Texas (71%); Redondo Beach, California (13%); Melbourne, Florida (1%); and various undisclosed locations outside the continental U.S. (15%), and is expected to be completed in January 2024. FMS customer funds in the amount of \$18,000,000 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S.

Code 2304(C)(1). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921C0040).

Lockheed Martin Corp., Owego, New York, is awarded a not-to-exceed undefinitized \$34,400,000 modification (P00028) to a previously awarded, firm-fixed-price contract (N0001919C0013). This modification adds scope to provide integration and installation of a Hellenic Navy System configuration on three USN8 time configuration remote sensors for aircraft. This modification also provides for efforts on three replace in kind aircraft to bring the aircraft into a USN8 configuration. Additionally, it procures four Airborne Low Frequency Sonars in support of the MH-60R program for the Navy and Foreign Military Sales (FMS) customers. Work will be performed in Best, France (46%); Owego, New York (40%); Portsmouth, Rhode Island (9%); and Stratford, Connecticut (5%), and is expected to be completed in April 2025. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$1,300,976; and FMS funds in the amount of \$11,855,070 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

July 30, 2021

Delphinus Engineering Inc., Eddystone, Pennsylvania (N64498-21-D-4044); Q.E.D. Systems Inc., Virginia Beach, Virginia (N64498-21-D-4045); Epsilon System Solutions Inc., Portsmouth, Virginia (N64498-21-D-4046); Life Cycle Engineering Inc., North Charleston, South Carolina (N64498-21-D-4047); McKean Defense Group LLC, Philadelphia, Pennsylvania (N64498-21-D-4048); Research and Development Solutions Inc., McLean, Virginia (N64498-21-D-4049); and Transtecs Corp., Wichita, Kansas (N64498-21-D-4050); are awarded a combined \$249,735,666 cost-plus-fixed fee, indefinite-delivery/indefinite-quantity contract for engineering and technical services on shipboard and shore-based systems, in the areas of cybersecurity engineering support, integrated logistics support, and quality assurance support. Performance will be accomplished on Navy surface ships, carriers, submarines and service craft. Each awardee will be awarded \$3,865 (\$500 minimum contract guarantee per awardee) at contract award. Work will be performed in the Norfolk, Virginia area (45%); other East Coast areas (5%); the West Coast (45%); and various locations outside of the continental U.S. (5%). Work will be assigned according to individual task orders and is expected to be completed by July 2027. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$3,865 will be obligated at time of award and will expire at the end of the current fiscal year. All other funding will be made available at the task order level as contract actions occur. This contract was competitively procured via the beta.sam.gov website, with seven offers received. The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity.

BCG Federal Corp., Bethesda, Maryland (N00189-21-D-0021); Grant Thornton Public Sector LLC, Arlington, Virginia (N00189-21-D-0022); and McKinsey & Company Inc. Washington, D.C., Office, Washington, D.C. (N00189-21-D-0023), are awarded a \$223,591,227 indefinite-delivery/indefinite-quantity, multiple-award contract that will include terms and conditions for the placement of firm-fixed-price task orders to obtain strategic contractor services to assist with transformation efforts that include Naval Sustainment System – supply, perform to plan logistics, supply chain and logistics technology, and enterprise transformations in support of Naval Supply Systems Command and the Department of the Navy. The contracts will include a five-year base ordering period with an additional six-month ordering period option pursuant of Defense Federal Acquisition Regulation 52.217-8 - option to extend services, which if exercised, will bring the total value to \$246,761,679. The base ordering period will begin September 2021 and is expected to be completed by September 2026; if the option is exercised, the ordering period will be completed by March 2027. All work will be performed at various contractor facilities throughout the U.S. in which the percentage of work at each of those locations cannot be determined at this time. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$1,000 will be obligated to fund the contract's minimum amount, and funds will expire at the end of the fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. This contract was competitively procured for the award of multiple contracts pursuant to the

authority set forth in Defense Federal Acquisition Regulation 16.504. The requirement was solicited through beta.sam.gov, with 10 offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department, Norfolk, Virginia, is the contracting activity.

American Systems, Lexington Park, Maryland, is awarded a \$165,409,685 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract. This contract provides software engineering and technical support services in support of a wide range of naval air programs for aircraft systems and subsystems for the Naval Air Systems Command Software Engineering Department. Work will be performed in Patuxent River, Maryland (93%); North Island, California (3%); Seattle, Washington (2%); Indianapolis, Indiana (1%); and Jacksonville, Florida (1%), and is expected to be completed in August 2026. No funds will be obligated at the time of award. Funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; four offers were received. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity (N0042121D0035).

Lockheed Martin, Rotary and Mission Systems, Moorestown, New Jersey, is awarded a \$108,752,976 cost-plus-incentive-fee modification to previously awarded contract N00024-13-C-5116 for AEGIS combat system engineering agent (CSEA) efforts for the design, development, integration, test and delivery of Advanced Capability Build 20. Work will be performed in Moorestown, New Jersey, and is expected to be completed by December 2021. This action realigns ceiling from an unexercised option to an existing incrementally funded line item. Existing funding will be utilized and no new obligations are occurring with this action. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

RCT Systems Inc., Baltimore, Maryland, is awarded a five year (no options) \$49,702,869 cost-plus-fixed-fee contract for research and development activities associated with advancement and improvement in current and future shipboard systems. Work will be performed in Baltimore, Maryland (68%); Fayetteville, Arkansas (19%); Tuscaloosa, Alabama (10%); and Tallahassee, Florida (3%), and is expected to be completed by July 2026. Fiscal 2021 research, development test and evaluation (Navy) funds in the amount of \$12,898,044 (81%); and 2020 research, development test and evaluation (Navy) funds in the amount of \$3,025,467 (19%) will be obligated at time of award and not expire at the end of the current fiscal year. This contract was competitively procured via white paper selection under a broad agency announcement via the beta.sam.gov website, with 50 offers received. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-C-4109).

Sustainable Building Solutions LLC, Washington, D.C., is awarded a maximum-value \$45,000,000 firm fixed price, indefinite-delivery/indefinite-quantity contract for design-bid-build roofing repairs and replacement projects at Naval Air Station Patuxent River, Naval Support Facility Indian Head, and Naval Support Facility Dahlgren. Work will be performed in Patuxent River, Maryland; Indian Head, Maryland; and Dahlgren, Virginia, and is expected to be completed by July 2026. An initial task order (N4008021F4797) is awarded at \$136,233 for replacement of the roof for Building B-606 at Naval Air Station Patuxent River, Maryland. Work for this task order will be performed in Patuxent River, Maryland, and is expected to be completed by November 2021. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$136,233 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with five proposals received. The Naval Facilities Engineering Systems Command Washington, D.C., is the contracting activity (N40080-21-D-0015).

The Boeing Co., St. Louis, Missouri, is awarded a \$40,744,320 firm-fixed-price order (N0001921F0588) against a previously issued basic ordering agreement (N0001921G0006). This order procures 48 F/A-18E/F and EA-18G trailing edge flap shipsets. Work will be performed in St. Louis, Missouri, and is expected to be completed in December 2023. Fiscal 2021 aircraft procurement (Navy) funds in the

amount of \$40,744,320 will be obligated at time of award, none of which will expire at the end of the fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Coastal Enterprises of Jacksonville Inc., Jacksonville, North Carolina, is awarded a \$21,876,968 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for grounds maintenance services at Marine Corps Base Camp Lejeune, Marine Corps Air Station New River, and other outlying locations. This contract includes options which, if exercised, would increase the cumulative value to \$109,798,632 and extend the period of performance to July 2026. Work will be performed in Jacksonville, North Carolina, and is expected to be completed by July 2022. No funds will be obligated at time of award. These services were procured directly from the procurement list with Source America under Defense Federal Acquisition Regulation Part 8. The Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-21-D-0064).

L3Harris Technologies Inc., Rochester, New York, is awarded a \$17,707,720 modification P00006 under previously awarded, firm-fixed-price, indefinite-delivery/indefinite-quantity contract M67004-19-D-0002. This modification exercises Ordering Period Two for the refurbishment of Marine Corps radio components associated with controlled cryptographic communications. The total cumulative face value of the contract is \$42,411,284. Work will be performed in Rochester, New York, with an expected completion date of July 31, 2022. Fiscal 2021 working capital (Navy) funds in the amount of \$15,582,845 will be obligated on the first delivery order at the time of award and will not expire at the end of the current fiscal year. The Marine Corps Logistics Command, Albany, Georgia, is the contracting activity.

Sauer Inc., Jacksonville, Florida, is awarded a \$17,074,860 firm-fixed-price task order (N4008521F5916) under previously-awarded contract N40085-20-D-0035 for miscellaneous repairs to Marine Corps Amphibious Combat Vehicle Maintenance Facility Building A-47. Work will be performed in Camp Lejeune, North Carolina, and is expected to be completed by February 2024. Fiscal 2019 military construction (Navy) funds in the amount of \$17,074,860 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with two proposals received. The Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

Crowley Government Services, Jacksonville, Florida (N6238715C2505), is awarded a \$16,247,468 modification (P00134) under a previously awarded firm-fixed-price contract (N6238715C2505) to continue the operation and maintenance of five ocean surveillance ships -- USNS Victorious (T-AGOS 19), USNS Able (T-AGOS 20), USNS Effective (T-AGOS 21), USNS Loyal (T-AGOS 22), and USNS Impeccable (T-AGOS 23); and two missile range instrumentation ships -- USNS Invincible (T-AGM 24) and USNS Howard O. Lorenzen (T-AGM 25). This modification provides for the exercise of a six-month bridge option period. Work will be performed at sea worldwide beginning Aug. 1, 2021, and is expected to be completed on Jan. 31, 2022. The exercise of this option period will increase the total value of the contract by \$16,247,468 from \$490,133,859 to \$506,381,328. Working capital funds (Navy) in the amount of \$16,247,468 are obligated for fiscal 2021 and will not expire at the end of the fiscal year. The option being exercised under this modification was added to the contract as a result of a bilateral modification to the contract. This option was not competitively procured and was prepared under the provisions of 10 U.S. Code § 2304(c)(1), as implemented by Defense Federal Acquisition Regulation 6.302-1(a)(2)(iii) — only one responsible source and no other supplies or services will satisfy agency requirements and fully executed on July 22, 2020, under contract modification P00116. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N6238715C2505).

The Boeing Co., St. Louis, Missouri, is awarded an \$8,875,584 firm-fixed-price order (N0001921F0024) against a previously issued basic ordering agreement (N0001921G0006). This order procures 86 satellite communication retrofit kits for F/18 series aircraft as follows: 36 for EA-18G aircraft, 25 for F/A-18E

aircraft, and 25 for F/A-18F aircraft, to include rate tooling to increase monthly kit production capacity. Work will be performed in El Segundo, California (80%); and St. Louis, Missouri (20%), and is expected to be completed in July 2024. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$8,875,584 will be obligated at time of award, none of which will expire at the end of the fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

July 29, 2021

CASS Professional Services Corp., Temecula, California (N0042121D0033); and Omega Aerial Refueling Services, Alexandria, Virginia (N0042121D0034), are each awarded a firm-fixed-price, cost reimbursable, indefinite-delivery/indefinite-quantity contract. These contracts provide contractor-owned, contractor-operated, air-to-air refueling services to receivers for receiver pilot initial qualifications, recurring pilot refresher readiness training and supporting fleet exercises for Department of Defense agencies, Department of Navy fleet and test customers, Foreign Military Sales customers and government contractors. The estimated aggregate ceiling for all contracts is \$900,078,260, with the companies having an opportunity to compete for individual orders. Work will be performed at various West Coast fleet area control and surveillance facility (FACSFAC) training ranges (35%); various Marine Corps training ranges (35%); various East Coast FACSFAC training ranges (25%); and various locations outside the continental U.S. (5%), and is expected to be completed in July 2026. No funds will be obligated at the time of award. Funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; six proposals were received. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

PAE Aviation and Technical Services LLC, Arlington, Virginia, is awarded a \$98,000,000 firm-fixed-price, cost reimbursable, cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract. This contract provides organizational, selected intermediate, limited depot level maintenance and logistics support services for the F-5 F/N aircraft. Work will be performed at Naval Air Station (NAS) Key West, Florida (32%); NAS Fallon, Nevada (30%); Marine Corps Air Station, Yuma, Arizona (25%); and NAS Joint Reserve Base New Orleans, Louisiana (13%), and is expected to be completed in January 2023. No funds will be obligated at the time of award. Funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Federal Acquisition Regulation 6.302-1. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity (N0042121D0036).

RF Products Inc., Camden, New Jersey, is awarded a \$91,908,586 firm-fixed-price, indefinite-delivery/indefinite-quantity contract (N6523621D4805). The contract is for ultra-high frequency antenna couplers (UHFAC) and control power supply (CPS) units. The contract addresses development and production of new UHFAC and CPS units for new construction ships used by the Navy, Coast Guard, and the Military Sealift Command. This equipment is currently fielded on vessels across the U.S. military and this contract will ensure the approved configuration is maintained on future hulls. The contract includes a single four-year ordering period. Fiscal 2018, 2019, 2020, and 2021 shipbuilding and conversion (Navy) funds in the amount of \$23,612,746; and fiscal 2021 Navy working capital funds in the amount \$409,150 will be obligated at the time of award. Funds will not expire at the end of the current fiscal year. Work will be performed by RF Products in Camden, New Jersey, and, if all quantities are procured, final deliveries are expected in July 2027. This contract was solicited on a sole source basis pursuant to the authority of 10 U.S. Code 2304(c)(1) — only one responsible source (Defense Federal Acquisition Regulation 6.302-1). Naval Information Warfare Center Atlantic, Charleston, South Carolina, is the contracting activity.

SOLPAC Construction Inc., doing business as Soltek Pacific Construction Co., San Diego, California, is awarded a \$38,484,811 firm-fixed-price task order (N6247321F5153) under previously-awarded multiple-award construction contract N62473-18-D-5855 for design and repair of the thermal dynamic testing facility (T-Range) complex at Naval Air Weapons Station China Lake. The task order also contains one

planned modification which, if exercised, would increase the cumulative task order value to \$38,572,784. Work will be performed in Ridgecrest, California, and is expected to be completed by December 2024. Fiscal 2021 operation and maintenance (Navy); fiscal 2021 Navy working capital; and fiscal 2021 other procurement (Navy) funds in the amount of \$38,484,811 will be obligated at time of award and will expire at the end of the current fiscal year. Two proposals were received for this task order. The Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity.

General Atomics, Aeronautical Systems, Inc., Poway, California, is awarded a \$33,712,972 cost-plus-fixed-fee contract. This contract provides for logistic support, maintenance services, supply chain and spares management, and sustainment support in support of the MQ-9 Reaper aircraft and its dual control mobile ground control station. Work will be performed in Yuma, Arizona (45%); Manama, Bahrain (45%); and Poway, California (10%), and is expected to be completed in July 2022. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$9,799,510 will be obligated at time of award, all of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304(C)(1). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921C0016).

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a \$21,292,622 cost-plus-fixed-fee modification to previously-awarded contract N00024-20-C-4312 for additional labor hours for planning and material procurements in support of the USS Hartford (SSN 768) engineered overhaul. Work will be performed in Groton, Connecticut, and is expected to be completed by February 2022. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$21,292,622 will be obligated at the time of award and will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Cape Environmental Management Inc., Honolulu, Hawaii, is awarded a \$19,696,327 cost-plus-award-fee modification to task order N6274219F0129 under previously-awarded indefinite-delivery/indefinite-quantity contract N62742-16-D-1807 for Phase IV implementation of remedial alternatives for decision units N-2, N-3, and SE-1 at Joint Base Pearl Harbor-Hickam, Hawaii. Work will be performed in Oahu, Hawaii, and is expected to be completed by January 2024. Fiscal 2021 environmental restoration (Navy) funds in the amount of \$19,696,327 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

Heffler Contracting Group, San Diego, California, is awarded a \$19,673,040 firm-fixed-price task order (N6247321F5104) under previously-awarded multiple-award construction contract N62473-21-D-1207 for the advanced education review board, Naval Postgraduate School campus renovation at Naval Support Activity Monterey. The task order contains five unexercised options which, if exercised, would increase cumulative task order value to \$26,704,540. Work will be performed in Monterey, California, and is expected to be completed by February 2023. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$19,673,040 will be obligated at time of award and will expire at the end of the current fiscal year. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity.

Industria Inc., Des Plaines, Illinois (N40085-21-D-0069), and O'Neill Contractors Inc., Glenview, Illinois (N40085-21-D-0070), are awarded a combined maximum-value \$15,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple-award, design-build construction contract for roof repairs and replacements at Naval Station Great Lakes. Industria Inc. is awarded \$5,000 to satisfy the guaranteed minimum. O'Neill Contractors Inc. is awarded an initial task order at \$350,824 for roof replacements for Buildings 328 and 7260. Work for this task order will be performed in Great Lakes, Illinois, and is expected to be completed by September 2022. Work for the overall contract will be performed in Great

Lakes, Illinois, and is expected to be completed by July 2026. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$355,824 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the sam.gov website, with three proposals received. The Naval Facilities Engineering Systems Command Mid-Atlantic, Washington Navy Yard, Washington, D.C., is the contracting activity.

Patriot Contract Services LLC, Concord, California, is awarded a \$12,487,535 option (P00358) to continue the services provided for the original contract (N0003314C3210) by invoking the Defense Federal Acquisition Regulation clause, DFAR 52.217-8, "Option to Extend Services" (November 1999). The extension continues the operation and maintenance of eight government-owned, contractor operated USNS Watson-class, large medium-speed roll-on, roll-off ships. The vessels included under this contract are USNS Watson (T-AKR 310); USNS Sisler (T-AKR 311); USNS Dahl (T-AKR 312); USNS Red Cloud (T-AKR 313); USNS Charlton (T-AKR 314); USNS Watkins (T-AKR 315); USNS Pomeroy (T-AKR 316); and USNS Soderman (T-AKR 317). This modification awards a 63-day extension for the period July 30, 2021, through Sept. 30, 2021. The vessels will continue to support Navy's worldwide prepositioning requirements. Work will be performed at sea, worldwide, and is expected to be completed by Sept. 30, 2021. Working capital funds in the amounts of \$4,697,314 (Navy); and \$7,790,219 (Transportation), totaling \$12,487,535, are obligated for fiscal 2021, covering the 63-day option period's daily operating hire, and will not expire at the end of the fiscal year. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N0003314C3210).

July 28, 2021

Huntington Ingalls Industries, Newport News Shipbuilding, Newport News, Virginia, is awarded a \$94,799,829 delivery order N62793-21-F-7800 (cost-plus-fixed-fee [level-of-effort], cost-plus-incentive-fee [completion], and firm-fixed-price). The delivery order is placed against contract N00024-19-D-4306 for planned incremental availability execution on CVN-78. Work will be performed in Newport News, Virginia, and is expected to be completed by March 2022. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$29,779,156; and fiscal 2020 other procurement (Navy) funds in the amount of \$2,982,194 will be obligated at time of award, of which funds in the amount of \$29,779,156 will expire at the end of the current fiscal year. The Supervisor of Shipbuilding, Conversion and Repair, Newport News, Virginia, is the contracting activity.

Wartsila Defense Inc., Chesapeake, Virginia, is awarded a not-to-exceed \$76,276,583 indefinite-delivery/indefinite-quantity, firm-fixed-price contract (N66498-21-D-4041) for the repair of Independence Littoral Combat Ship (LCS 2) variant waterjet and shaft assemblies. Work will be completed at the contractor's facility in Chesapeake, Virginia, and is expected to be completed by July 2027. The contract will have a 60-month ordering period. Fiscal 2021 operation and maintenance, (Navy) funding in the total amount of \$757,768 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$38,969,779 modification (P00047) to a previously awarded cost-plus-incentive-fee, cost-plus-award-fee contract (N0001919C0010). This modification increases the scope to develop the generic net enabled weapons and improved electronic attack mechanization capabilities from system functional review to development test complete on F-35A/B/C aircraft for the Air Force and the governments of Australia, Canada, Denmark, Italy, Netherlands, Norway and United Kingdom. Work will be performed in Fort Worth, Texas (86%); and El Segundo, California (14%), and is expected to be completed in October 2024. Fiscal 2021 research, development, test and evaluation (Air Force) funds in the amount \$420,232; and non-U.S. Department of Defense participant funds in the amount of \$2,150,693 will be obligated at time of award,

none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

National Steel and Shipbuilding Co., San Diego, California, is awarded a \$25,641,219 cost-plus-fixed-fee modification to previously awarded contract N00024-16-C-2229 for additional special studies and cost reduction implementation studies in support of the T-AO 205-class fleet replenishment oilers. Work will be performed in San Diego, California, and is expected to be completed by May 2026. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$6,970,894 (91%); and fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$730,000 (9%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Daniels and Daniels Construction Co., Inc., Goldsboro, North Carolina, is awarded a \$16,504,451 firm-fixed-price task order (N4008521F5873) under previously-awarded multiple-award construction contract N40085-16-D-6301 for airfield pavement repairs at Marine Corps Air Station Cherry Point. The task order also contains six unexercised options which, if exercised, would increase the cumulative task order value to \$22,942,454. Work will be performed in Havelock, North Carolina, and is expected to be completed by February 2023. Fiscal 2021 operation and maintenance (Marine Corps) funds in the amount of \$16,504,451 will be obligated at time of award and will expire at the end of the current fiscal year. Six proposals were received for this task order. The Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

Benaka Inc., New Brunswick, New Jersey, is awarded a \$16,387,580 firm-fixed-price contract for the renovation of Navy Operational Support Center New York City. Work will be performed in Bronx, New York, and is expected to be completed by December 2022. Fiscal 2021 Navy working capital funds in the amount of \$16,387,580 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with 10 proposals received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-21-C-2552).

Schuyler Line Navigation Co. (SLNC), Annapolis, Maryland, is awarded a \$10,457,250 option (P00007) for contract N3220519C3504. The option is a firm-fixed-price contract with reimbursable elements to support Military Sealift Command's Sealift Program for employment in worldwide trade for the transportation and/or prepositioning of cargo by the shallow draft tanker MT SLNC Pax. This option is the second of the current contract. The current contract includes a one-year firm period of performance; two one-year options periods; and one 11-month option period. The cumulative value of this contract, if all options are exercised, is \$51,436,350. Work will be performed in the Western Pacific Ocean, and is expected to be completed, if all options are exercised, by June 30, 2024. Working capital funds (Navy) in the amount of \$10,457,250 for Option Two are currently available for performance under this contract action. This contract was a small business set-aside with more than 50 companies solicited via the beta.sam.gov website and three offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Northrop Grumman Systems Corp., Sykesville, Maryland, is awarded a \$10,385,429 cost-plus-fixed-fee order (N6833521F0519) against a previously issued basic ordering agreement (N6833520G3037). This order provides engineering design for the final stages of development of the advanced recovery control upgrade and establishment of the product baseline for critical design review in support of the aircraft launch and recovery equipment recovery program. Work will be performed in Sykesville, Maryland, and is expected to be completed in July 2022. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$2,690,987; and fiscal 2020 research, development, test and evaluation (Navy) funds in the amount of \$1,794,114 will be obligated at the time of award, \$1,794,114 of which will expire

at the end of the current fiscal year. The Naval Air Warfare Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

Alpha Marine Services LLC, Galliano, Louisiana, is awarded a \$9,949,535 option (P00013) for contract N3220520C2257. The option is a firm-fixed-price contract with reimbursable elements to support Military Sealift Command's contract for the time charter of seven tractor-like tugs in support of Navy bases at Kings Bay, Georgia and Mayport, Florida. This option is the first of the current contract. The current contract includes a one-year firm period of performance, three one-year options periods; and one 11-month option period. The cumulative value of this contract, if all options are exercised, is \$55,177,663. Work will be performed in Kings Bay (50%); and Mayport (50%), and is expected to be completed, if all options are exercised, by June 30, 2025. Working capital funds (Navy) in the amount of \$9,949,535 for Option One are currently available for performance under this contract action. This procurement was released under full and open competition, with an unlimited number of companies solicited via the beta.sam.gov website and three offers were received. The Navy's Military Sealift Command, Norfolk, Virginia is the contracting activity.

Northrop Grumman Systems Corp., San Diego, California, is awarded an \$8,511,060 modification (P00022) to a previously awarded, fixed-price-incentive-fee, cost-plus-fixed-fee, firm-fixed-price contract (N0001918C1028). This modification converts the main operating base (MOB)-8 (MB-8) secondary system to a MOB primary system; incorporates engineering change proposal (ECP) NG-4288 ultra-high frequency radio removal into MB-8; and incorporates the diminishing manufacturing sources change requests/ECPs into MB-8, and forward operating base (FOB) (FB)-5, and the tooling main operating base. In addition, this modification procures and installs one MOB validation and verification kit, and one FOB validation/verification kit. Work will be performed in Chantilly, Virginia (42.28%); Kearney Mesa, California (31.21%); Patuxent River, Maryland (8.19%); Jacksonville, Florida (6.08%); Palmdale, California (4.98%); San Diego, California (4.80%); Salt Lake City, Utah (1.22%); Mayport, Florida (1.17%); and Dulles, Virginia (0.07%), and is expected to be completed in December 2022. Fiscal 2019 aircraft procurement (Navy) funds in the amount of \$8,511,060 will be obligated at time of award, all of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

July 27, 2021

Chugach Consolidated Solutions LLC, Anchorage, Alaska (N62473-21-D-3602); Claxton/LT JV LLC, Stafford, Virginia (N62473-21-D-3603); KGJJ Engineering Solutions JV LLC, Fort Worth, Texas (N62473-21-D-3604); and Sunik LLC, Herndon, Virginia (N62473-21-D-3605), are awarded a combined maximum-value \$99,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple-award contract for multiple-function facilities support services at various government installations in Arizona, California, Colorado, Nevada, New Mexico and Utah. These four contractors may compete for task orders under the terms and conditions of the awarded contract. Chugach, KGJJ, and Sunik are each being awarded \$500 to satisfy the guaranteed minimum. Claxton/LT JV LLC is being awarded the initial task order at \$1,191,244 for airfield structures maintenance services at Marine Corps Air Station Camp Pendleton, California. Work for this task order is expected to be completed by August 2022. All work on this contract will be performed at various government installations within the Naval Facilities Engineering Systems Command Southwest area of responsibility including, but not limited to California (91%); Arizona (5%); Nevada (1%); Utah (1%); Colorado (1%); and New Mexico (1%) and is expected to be completed by August 2026. Fiscal 2021 operation and maintenance (Marine Corps); and fiscal 2021 operation and maintenance (Navy) funds in the amount of \$1,192,744 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured as an 8(a) set-aside via the beta.sam.gov website, with five offers received. The Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity.

Lockheed Martin Corp., Orlando, Florida, is awarded a \$48,777,624 firm-fixed-price order (N0001921F0316) against a previously issued basic ordering agreement (N0001919G0029). This order procures low-rate initial production systems, to include 11 processors and 12 infrared receivers in support of the F/A-18 infrared search and track system. Work will be performed in Orlando, Florida (74.8%); Ocala, Florida (21.4%); and Santa Barbara, California (3.8%), and is expected to be completed in February 2023. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$40,560,986; and Foreign Military Sales funds in the amount of \$8,126,638 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Doliveira DJB JV LLC, Upper Marlboro, Maryland, is awarded a maximum-value \$25,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for design-bid-build construction services for roofing repairs and replacement at the Naval Research Laboratory, the Naval Research Laboratory Chesapeake Bay Detachment, and at the Naval Surface Warfare Center Carderock Division. Work will be performed in Maryland and Washington, D.C., and is expected to be completed by July 2026. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$2,000 for the minimum guarantee will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with eight proposals received. The Naval Facilities Engineering Systems Command, Washington, D.C., is the contracting activity (N40080-21-D-0011).

Northrop Grumman Systems Corp., Military Aircraft Systems, Melbourne, Florida, is awarded a \$19,721,397 cost reimbursable modification (P00028) to a previously awarded contract (N0001918C1037). This modification adds scope to provide non-recurring engineering risk reduction efforts to support the delivery schedule of the E-2D Advanced Hawkeye aircraft FAA1-FAA3 for the government of France. Work will be performed in Melbourne, Florida (43%); Syracuse, New York (15%); Dallas, Texas (12%); Orlando, Florida (11%); West Chester, Ohio (9%); and various locations within the continental U.S. (10%), and is expected to be completed by January 2022. Foreign Military Sales funds in the amount of \$19,721,397 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Surface Technologies Corp., Atlantic Beach, Florida, was awarded a maximum value \$8,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for exterior deck covering on U.S. naval ships and other government vessels homeported or visiting Naval Station Mayport, Jacksonville, Florida. This contract includes options which, if exercised, would not increase the cumulative value of this contract above \$8,000,000. Work will be performed in Mayport, Florida. Base year period of performance is anticipated to be Sept. 15, 2021, through Sept. 14, 2022. Option Year One, if exercised, would have a period of performance from Sept. 15, 2022, through Sept. 14, 2023. Option Year Two, if exercised, would have a period of performance from Sept. 15, 2023, through Sept. 14, 2024. Option Year Three, if exercised, would have a period of performance from Sept. 15, 2024, through Sept. 14, 2025. Option Year Four, if exercised, would have a period of performance from Sept. 15, 2025, through Sept. 14, 2026. No funding will be obligated at time of award. This contract was procured through full and open competition via the solicitation posted on the beta.sam.gov website. The Southeast Regional Maintenance Center, Jacksonville, Florida, is the contracting activity. (Awarded July 26, 2021)

July 26, 2021

Metro Machine Corp., NASSCO Bremerton, Bremerton, Washington, was awarded a \$129,226,872 cost-plus-incentive fee, cost-plus-award fee, indefinite-delivery/indefinite-quantity delivery order N4523A21F0305 on contract N0002419D4301 for aircraft carrier ship repair. Work will be performed in Bremerton, Washington, and is expected to be completed by January 2023. Fiscal 2021 other procurement (Navy) funds in the amount of \$123,533,612 will be obligated at time of award and will not

expire at the end of the current fiscal year. The base contract award for this delivery order was competitively procured via the FedBizOpps.gov website with three offers received. Puget Sound Naval Shipyard and Intermediate Maintenance Facility/Northwest Regional Maintenance Center, Bremerton, Washington, is the contracting activity. (Awarded July 20, 2021)

DZSP 21 LLC, Marlton, New Jersey, is awarded \$80,551,613 under previously awarded cost-plus-award-fee contract N62742-20-C-1199 to exercise Option Period One for base operations support services, Joint Region Marianas, Guam. This option brings the total cumulative value of the contract to \$523,607,459. Work will be performed at various installations within Joint Region Marianas, Guam, and is expected to complete by July 2022. Fiscal 2021 operation and maintenance (Navy); fiscal 2021 operation and maintenance (Marine Corps); fiscal 2021 operation and maintenance (DoD); fiscal 2021 operation and maintenance (Army National Guard); fiscal 2021 Navy working capital; fiscal 2021 medical facilities; and fiscal 2021 family housing operation and maintenance (Navy) funds in the amount of \$32,432,122 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Marianas, Guam, is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$62,223,278 undefinitized firm-fixed-price order (N0001921F0511) against a previously issued basic ordering agreement (N0001919G0008). This order procures 190 parachutes and 56 drag chute systems required to meet both full operational capabilities and an urgent requirement in support of delivered air systems for F-35 Lightning II Joint Strike Fighter aircraft for non- Department of Defense (DOD) participants and Foreign Military Sales (FMS) customers. Work will be performed in Fort Worth, Texas, and is expected to be completed in September 2025. Non-DOD funds in the amount of \$25,407,691; and FMS funds in the amount of \$5,703,948 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Fort Worth, Texas, is awarded a \$37,007,569 modification (P00008) to a previously awarded cost-plus-fixed-fee contract (N0001919C0074). This modification adds scope to procure special tooling and test equipment for the F-35 Lightning II Joint Strike Fighter production line in support of second source canopy tooling and other known capacity gaps for the Navy, Marines, Air Force, and non-Department of Defense (DOD) participants. Work will be performed in El Segundo California (41%); Sylmar, California (26%); McKinney, Texas (26%); Melbourne, Australia (5%); Montville, New Jersey (1%); various locations within the continental U.S. (0.92%); and various locations outside the continental U.S. (0.08%) and is expected to be completed in August 2023. Fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$8,753,641; fiscal 2021 aircraft procurement (Navy) funds in the amount of \$8,753,640; and non-DOD participants funds in the amount of \$19,500,288 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

DRS Laurel Technologies, Johnstown, Pennsylvania, is awarded a \$28,896,216 firm-fixed-price modification to previously awarded contract N0002420C5605 to exercise options for Consoles, Displays, and Peripherals Technical Insertion 16 hardware, to support the Navy's future surface ship combat systems. Work will be performed in Johnstown, Pennsylvania, and is expected to complete July 2022. Fiscal 2021 other procurement (Navy) funds in the amount of \$18,495,039 (64%); fiscal 2020 other procurement (Navy) funds in the amount of \$3,275,982 (11%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$3,133,651 (10%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$2,827,910 (9%); FMS (Japan) funds in the amount of \$547,800 (1%); fiscal 2021 research, development, test, and evaluation (Navy) funds in the amount of \$155,459 (1%); fiscal 2021 weapons procurement (Navy) funds in the amount of \$155,459 (1%); FMS Korea funds in the amount of \$131,776 (1%); fiscal 2015 shipbuilding and conversion (Navy) funds in the amount of \$125,708 (1%); and fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$47,432 (1%) will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Seaward Marine Services LLC, Norfolk, Virginia (N3220521D4124), is awarded a \$24,090,612 indefinite-delivery/indefinite-quantity contract for underwater hull cleaning services and associated work for the Military Sealift Command's fleet of ships. This contract includes five one-year ordering periods that would bring the cumulative value of contract ceiling to \$24,090,612. Work will be performed worldwide, with an expected completion date of Aug. 9, 2026. Working capital funds (Navy) in the amount of \$2,500 for the minimum guarantee will be obligated if appropriate. Orders may be placed throughout the five-year ordering period. Funding for the fiscal year in which orders are placed will be utilized at that time. This contract was competitively procured via the beta.sam.gov contracting opportunities website and one timely offer was received. The Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Insitu Inc., Bingen, Washington, is awarded a \$16,432,736 firm-fixed-price order (N0001921F0854) against a previously issued basic ordering agreement (N0001921G0007). This order provides for unmanned aircraft systems intelligence, surveillance, and reconnaissance data collection support services for the Department of Defense, other government agencies, and domestic and overseas contingency operations. Work will be performed in Bingen, Washington (20%); and various undisclosed locations outside the continental U.S. (80%) and is expected to be completed in October 2024. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$16,432,736 will be obligated at time of award, all of which will expire at the end of the fiscal year. The Naval Air System Command, Patuxent River, Maryland, is the contracting activity.

Huntington Ingalls Inc., Newport News, Virginia, is awarded a \$13,338,114 cost-plus-fixed-fee level of effort modification to previously awarded delivery order N62793-21-F-2001 off contract N00024-19-D-4306 to accomplish 12 months of the planned incremental availability period planning. Work will be performed in Newport News, Virginia, and is expected to be completed in March 2022. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$2,000,000 will be obligated at award and will expire at the end of the current fiscal year. The Supervisor of Shipbuilding, Conversion and Repair, Newport News, Virginia, is the contracting activity.

July 23, 2021

The Boeing Co., St. Louis, Missouri, is awarded an \$11,995,313 cost-plus-fixed-fee order (N0001921F0550) against a previously issued basic ordering agreement (N0001921G0006). This order provides production engineering support in support of the integration and installation of weapon systems on the F/A-18 E/F and EA-18G aircraft for the Navy. Work will be performed in Patuxent River, Maryland (82%); and St. Louis, Missouri (18%), and is expected to be completed in July 2022. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$6,887,845 will be obligated at time of award, none of which will expire at the end of the fiscal year. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

July 22, 2021

Hourigan Construction Corp., Virginia Beach, Virginia, is awarded a \$27,246,319 firm-fixed-price task order (N4008521F5720) under previously awarded multiple-award construction contract N40085-19-D-9068 for design-bid-build restoration and modernization repair to Chamberlain Hall (Building 102), Dam Neck Annex, Virginia Beach, Virginia. Work will be performed in Virginia Beach, Virginia, and is expected to be completed by June 2023. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$27,246,319 will be obligated at time of award and will expire at the end of the current fiscal year. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

East Coast Landscaping & Construction Inc., Portsmouth, Rhode Island, is awarded a maximum-value \$25,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for asphalt paving and paving-related services and minor concrete maintenance and repairs for Naval Station Newport, Rhode Island. Work will be performed in Newport, Rhode Island, and is expected to be completed by July 2026. An

initial task order in the amount of \$5,000 is being issued at time of award to fulfill the minimum guarantee. Fiscal 2021 Navy working capital funds in the amount of \$5,000 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the sam.gov website, with three proposals received. The Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-21-D-0159).

Stratus Systems Inc., Belle Chasse, Louisiana, is awarded a \$22,036,558 firm-fixed price, indefinite-delivery/indefinite-quantity contract for engineering, technical, administrative, and programmatic management support for total life cycle management of the various aircrew escape systems managed under the Joint Program Office for Cartridge Actuated Device/Propellant Actuated Device Tri-Service Charter. Work will be performed in Belle Chasse, Louisiana, and is expected to be completed by September 2025. Fiscal 2021 Navy working capital funding of \$500 will be obligated on the first task order at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured and in accordance with 10 U.S. Code 2304(c)(1) — only limited number of responsible sources will satisfy agency requirements. The Naval Surface Warfare Center Indian Head Division, Indian Head, Maryland, is the contracting activity (N00174-21-D-0023).

July 21, 2021

Cintel Inc., Huntsville, Alabama (N0016421DJW54); Cornerstone Research Group Inc., Miamisburg, Ohio (N0016421DJW55); Globe Tech LLC, Plymouth, Michigan (N0016421DJW56); GS Engineering, Houghton, Tennessee (N0016421DJW57); Hendrick Motorsports Performance Group LLC, Charlotte, North Carolina (N0016421DJW58); Integrity Defense Services Inc., Springville, Indiana (N0016421DJW59); Loc Performance Products Inc., Plymouth, Michigan (N0016421DJW67); Mainstream Engineering Corp., Rockledge, Florida (N0016421DJW60); Military Systems Group Inc., Nashville, Tennessee (N0016421DJW61); MSI Defense Solutions LLC, Mooresville, North Carolina (N0016421DJW62); Nevada Automotive Test Center, Silver Springs, Nevada (N0016421DJW63); Pratt and Miller Engineering and Fabrication, New Hudson, Michigan (N0016421DJW68); RCR Manufacturing Solutions LLC, Welcome, North Carolina (N0016421DJW64); TM1 Motorsports Inc., Santa Ana, California (N0016421DJW65); and Valor Fleet Inc., Evansville, Indiana (N0016421DJW66), are awarded a \$74,000,000 multiple award contract for the design, engineering, fabrication, and testing of prototype components and systems for the U.S. Special Operations Command family of special operations vehicles. Each awardee will be awarded \$1,000 (minimum contract guarantee per awardee) at contract award. These contracts do not include options and would bring the maximum cumulative value to \$74,000,000 over a five-year period. Work is expected to be completed by Dec. 20, 2026. All requirements will be competed at the order level; thus, performance location will be dependent on the awardee. Fiscal 2021 research, development, test, and evaluation funding in the amount of \$15,000 that does not expire will be obligated at time of award. This contract was competitively procured via beta.sam.gov, with 16 offers received. The Naval Surface Warfare Center, Crane Division, Crane, Indiana is the contracting activity.

Deloitte Consulting, Arlington, Virginia, is awarded a \$27,160,067 modification to a previously awarded, cost-plus-fixed-fee contract issued by the Naval Information Warfare Systems Command, San Diego, California. This modification is to complete engineering changes to the order to payment system (OTPS), also known as NEST. The objective of this contract is to enable effective management of the current next generation enterprise network contracts, as well as to obtain the full range of systems engineering, software engineering, project management, integration, and application sustainment services to assist and support the Navy's program executive office digital to complete OPTS/NEST engineering changes. This modification adds the second increment of 12 months to this 43-month basic contract. Work will be performed in Arlington, Virginia, and is expected to be completed by January 2024 if all options are exercised. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$4,787,240; and fiscal 2021 research, development, test, and evaluation (Navy) funds in the amount of \$1,685,566 will be applied to this contract after award. Obligated funds in the amount of \$4,787,240 would have expired at the end of the current fiscal year if this award had not been made. The three option periods, if exercised, would bring the cumulative value of this contract to an estimated \$49,158,628. This contract was not competitively procured because it is a sole-source acquisition pursuant to the authority of 10 U.S. Code

2304(c)(1) — only one responsible source, Federal Acquisition Regulation subpart 6.302-1. The Naval Information Warfare Systems Command, San Diego, California (N00039-20-C-0011), is the contracting activity.

Lockheed Martin Corp., Fort Worth, Texas, is awarded a not-to-exceed \$19,066,327 undefinitized modification (P00005) to a previously awarded, cost-plus-fixed-fee contract (N0001920C0032). This modification adds scope to procure 16 Operational Data Integrated Network Base kits, to include software installation and integration support for the F-35 Lightning II Joint Strike Fighter program in support of the Navy, Air Force, and non-U.S. Department of Defense (DOD) participants. Work will be performed in Fort Worth, Texas, and is expected to be completed in January 2024. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$4,051,967; fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$2,929,986; and non-DoD participants funds in the amount of \$2,551,229 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

July 20, 2021

Lockheed Martin Rotary and Mission Systems, Baltimore, Maryland, is awarded a \$231,400,000 firm-fixed-price modification to previously awarded contract N00024-20-C-5310 to definitize the initial award and procure an additional 70 MK41 Vertical Launching System modules and ancillary equipment for DDG 51-class destroyers and FFG 62-class frigates. This contract modification combines purchases for the U.S. government (80%); the Commonwealth of Australia (13%); and Spain (7%) under the Foreign Military Sales (FMS) program. Work will be performed in Baltimore, Maryland (46%); Indianapolis, Indiana (27%); Fort Walton Beach, Florida (15%); Farmingdale, New York (5%); Saginaw, Michigan (3%); Waverly, Iowa (2%); Thomaston, Connecticut (1%); and St. Peters, Missouri (1%), and is expected to be completed by July 2025. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$91,645,715 (40%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$91,645,715 (40%); FMS Australia funds in the amount of \$30,691,427 (13%); and FMS Spain funds in the amount of \$17,417,143 (7%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Tetra Tech Inc., Norfolk, Virginia, is awarded a \$90,000,000 cost-plus-award-fee modification to previously awarded, indefinite-delivery/indefinite-quantity contract N62470-16-D-9008 to increase the maximum dollar value and extend the period of performance for comprehensive long-term environmental architect-engineering services on Navy and Marine Corps installations at sites in the Naval Facilities Engineering Systems Command Atlantic area of responsibility. This modification increases the total cumulative value of the contract to \$368,000,000. Work will be performed in Maryland (13%), Pennsylvania (13%), Florida (11%), Rhode Island (8%), Washington (8%), California (7%), Massachusetts (6%), Texas (6%), Mississippi (5%), New York (4%), Maine (3%), Arizona (2%), Connecticut (2%), Indiana (2%), Louisiana (2%), New Jersey (2%), South Carolina (2%), Georgia (1%), Illinois (1%), North Carolina (1%), and Nevada (1%), and is expected to be completed by April 2022. No funds will be obligated at time of award. Funds will be obligated on individual task orders as they are issued. Task orders will be primarily funded by environmental restoration (Navy) funds. The Naval Facilities Engineering Systems Command Atlantic, Norfolk, Virginia, is the contracting activity.

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, was awarded an \$80,240,289 fixed-price-incentive, firm-fixed-price, and cost-only modification to previously awarded contract N0002418C5218 for the delivery of Technical Insertion-20 (TI-20) AN/SQQ-89A(V)15 Surface Ship Undersea Warfare Combat System and AN/SQS-53C transmitter infrastructure shipset hardware. This contract combines purchases for the U.S. government (94%) and the Commonwealth of Australia (6%) under the Foreign Military Sales (FMS) program. Work will be performed in Lemont Furnace, Pennsylvania (56%); Clearwater, Florida (22%); Syracuse, New York (17%); Owego, New York (3%); and Manassas, Virginia (2%), and is expected to be completed by June 2026. Fiscal 2021 other procurement (Navy) funds in the amount of \$45,582,203 (57%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$26,196,362 (32%); FMS Australia funds in the amount of \$4,504,123 (6%); and fiscal

2020 shipbuilding and conversion (Navy) funds in the amount of \$3,957,601 (5%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded July 15, 2021)

The Boeing Co., St. Louis, Missouri, is awarded a \$58,300,000 cost-plus-fixed-fee, undefinitized contract action for the design and production of the Quickstrike Extended Range (QS-ER) non-functional glide kits, glide kit prototype articles, and glide kit shipping containers. Work will be performed in St. Louis, Missouri, and is expected to be completed by March 2024. Fiscal 2020 research, development, test, and evaluation (Navy) funds in the amount of \$20,239,280 will be obligated at time of award, of which \$20,239,280 will expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-C-6412).

July 19, 2021

Serco Inc., Herndon, Virginia (N64498-21-D-0007); CACI International Inc., Norfolk, Virginia (N64498-21-D-0008); Gryphon Technologies LC, Washington, D.C. (N64498-21-D-0009); Life Cycle Engineering, Inc., Charleston, South Carolina (N64498-21-D-0010); McKean Defense Group LLC, Philadelphia, Pennsylvania (N64498-21-D-0011); and Reliability & Performance Technologies LLC, Dublin, Pennsylvania (N64498-21-D-0012), are each awarded a cost-plus-fixed fee, indefinite-delivery/indefinite-quantity contract for the procurement of engineering and technical services program management, and information technology support services for Navy surface ship programs including DDG-51, DDG-1000, LCS, LPD, LX(R), LHA(R), Landing Crafts (SIC), Military Sealift Command, Coast Guard, International Program (Foreign Naval program initiatives) and test sites for the Naval Surface Warfare Center Philadelphia Division. The maximum combined value of all six contracts is \$218,593,779. Serco is awarded a maximum value \$39,541,849; CACI is awarded a maximum value \$35,777,234; Gryphon is awarded a maximum value \$38,839,253; LCE is awarded a maximum value \$35,721,880; McKean is awarded a maximum value \$32,866,855; and R&P is awarded a maximum value \$35,846,708. Each awardee will be awarded \$100,000 (minimum contract guarantee per awardee) at time of contract award. Fiscal 2021 other procurement (Navy) funds in the amount of \$300,000 (50%); 2021 shipbuilding and conversion (Navy) funds in the amount of \$200,000 (33%); and 2021 operation and maintenance (Navy) funds in the amount of \$100,000 (17%) will be obligated at time of award, of which \$100,000 will expire at the end of the current fiscal year. All other funding will be made available at the task order level as contracting actions occur. Work will be performed in Philadelphia, Pennsylvania (34%); Washington, D.C. (28%); Norfolk, Virginia (12%); Mayport, Florida (10%); San Diego, California (10%); and Bath, Maine (6%). The contracts are expected to be completed by February 2026. These contracts were competitively procured via the Federal Business Opportunities website, with six offers received. The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity.

Raytheon Missiles and Defense, Marlborough, Massachusetts, is awarded a \$35,660,407 firm-fixed-price order under previously awarded basic ordering agreement N00024-19-G-5107 for the procurement of AEGIS modernization (AMOD) kits for Navy DDG 51-class destroyers and for the government of Japan under the Foreign Military Sales program. This contract combines purchases for the Navy (59%); and the government of Japan (41%) under the Foreign Military Sales program. Work will be performed in Andover, Massachusetts (72%); Chesapeake, Virginia (14%); Marlborough, Massachusetts (12%); San Diego, California (1%); and Burlington, Massachusetts (1%), and is expected to be completed by July 2024. Foreign Military Sales (Japan) funds in the amount of \$14,507,284 (41%); fiscal 2021 other procurement (Navy) funds in the amount of \$12,319,235 (35%); fiscal 2020 other procurement (Navy) funds in the amount of \$7,662,300 (21%); and fiscal 2021 defense-wide procurement funds in the amount of \$1,171,588 (3%) will be obligated at time of award and will not expire at the end of the current fiscal year. This order was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N0002421F5314).

The Boeing Co., St. Louis, Missouri, is awarded a \$24,999,480 firm-fixed-price order (N6134021F0119) against a previously issued basic ordering agreement (N6134019G0002). This order provides for the upgrade of the P-8A Poseidon maintenance training device suite, to include virtual maintenance trainers and related courseware and hardware in support of the P-8A aircraft platform to ensure the fleet receives training in current aircraft production baseline capabilities that align with real-life flight scenarios for the Navy and the government of Australia. Work will be performed Jacksonville, Florida (60%); St. Louis, Missouri (15%); Seattle, Washington (15%); and Edinburgh, Australia (10%), and is expected to be completed in December 2023. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$14,139,920; and non-U.S. Department of Defense participant funds in the amount of \$10,859,560 will be obligated at time of award, none of which will expire at the end of the fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Alabama Shipyard LLC, Mobile, Alabama, is awarded a \$16,478,585 firm, fixed-price contract for a 76-calendar day shipyard availability for the regular overhaul/dry docking on the USNS William McLean (T-AKE 12). The contract includes options, which, if exercised, would bring the total contract value to \$16,478,585. Work will be performed in Mobile, Alabama, and is expected to be completed by Nov. 24, 2021. Contract funds in the amount of \$16,194,215 are obligated in fiscal 2021 using working capital funds (Navy). This contract was competitively procured with proposals solicited via the SAM.gov website and three offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220521C4024).

BAE Systems Norfolk Ship Repair Inc., Norfolk Shipbuilding & Drydock Corp., Norfolk, Virginia, is awarded an \$8,060,500 firm-fixed-price modification to previously awarded contract N00024-20-C-4446 to incorporate a request for contract change for a 215-day extension for the accomplishment of the growth work on the USS Vicksburg (CG 69) modernization period availability. Work will be performed in Norfolk, Virginia, and is expected to be completed by June 2022. This modification will bring the cumulative value of the contract from \$189,006,920 to \$197,067,420. Fiscal 2020 operation and maintenance, Navy upward obligation funds will be utilized in support of this modification, which expire at the end of the fiscal year. This appropriation is being utilized in accordance with Title 31 U.S. Code 1553. The Mid-Atlantic Regional Maintenance Center, Norfolk, Virginia, is the contracting activity.

July 16, 2021

Raytheon Missiles & Defense, Marlborough, Massachusetts, was awarded a \$67,723,503 cost-plus fixed-fee modification to previously awarded contract N00024-19-C-5501 for AN/SPY-6(V) integration and production support efforts. This modification includes options which, if exercised, would bring the cumulative value of this modification to \$781,000,000. Work will be performed in Marlborough, Massachusetts (54%); Pascagoula, Mississippi (11%); Moorestown, New Jersey (10%); Newport News, Virginia (6%); Kauai, Hawaii (5%); Wallops Island, Virginia (4%); Fair Lakes, Virginia (4%); Chesapeake, Virginia (2%); Bath, Maine (2%); Portsmouth, Rhode Island (1%); and San Diego, California (1%), and is expected to be completed by December 2021. If all options are exercised, work will continue through November 2024. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$16,126,410 (44%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$6,941,141 (19%); fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$6,147,355 (17%); fiscal 2021 operation and maintenance (Navy) funds in the amount of \$3,885,854 (10%); fiscal 2016 shipbuilding and conversion (Navy) funds in the amount of \$2,325,767 (6%); and fiscal 2021 shipbuilding and conversions (Navy) funds in the amount of \$1,390,814 (4%) will be obligated at time of award, of which funds in the amount of \$3,885,854 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington D.C., is the contracting activity. (Awarded July 13, 2021)

Honeywell International Inc., Minneapolis, Minnesota, is awarded a \$9,017,494 cost-plus-fixed-fee contract. This contract provides non-recurring engineering support, to include laboratory and flight data analysis, anomaly resolution, deficiency correction, flight test equipment development and integration, software modification and sustainment, qualification test support, training and technical support, and integration in support of APN-194A radar altimeter modification efforts for the Navy. Work will be

performed in Minneapolis, Minnesota, and is expected to be completed in June 2023. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$8,952,000 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N6833521C0675).

July 15, 2021

Aptim Federal Services LLC, Baton Rouge, Louisiana (N62470-21-D-0018); CDM, a Joint Venture, Fairfax, Virginia (N62470-21-D-0019); ECC Contingency Constructors LLC, Virginia Beach, Virginia (N62470-21-D-0020); Gilbane Federal, Concord, California (N62470-21-D-0021); Jacobs Project Management Co., Dallas, Texas (N62470-21-D-0022); and Perini Management Services Inc., Framingham, Massachusetts (N62470-21-D-0023), are awarded a combined maximum-value \$5,000,000,000 indefinite-delivery/indefinite-quantity multiple-award global contingency construction contract with provisions to issue cost-plus-award-fee or firm-fixed-price task orders for global contingency construction projects worldwide. These six contractors may compete for task orders under the terms and conditions of the awarded contract. The work to be performed provides for supervision, equipment, materials, labor, travel, and all means necessary to provide the Navy, the Department of Defense, or other federal agencies, when authorized, an immediate response for civilian construction contract capability. The contract will provide construction and related engineering services in response to natural disaster response, humanitarian efforts, conflict, emergent mission-critical requirements, or projects with similar characteristics. The work also includes the capability to set up and operate material liaison offices at deployed sites in support of naval construction force operations worldwide. Work may include occasional projects to ensure readiness to perform under emergency situations. Work will be performed worldwide and is expected to be completed by July 2029. Each awardee will be awarded \$25,000 (minimum contract guarantee per awardee) at time of award. Fiscal 2021 supervision, inspection, and overhead funds in the amount of \$150,000 will be obligated at time of award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by military construction; and operation and maintenance (Navy) funds. This contract was competitively procured via the beta.sam.gov website, with nine offers received. The Naval Facilities Engineering Systems Command Atlantic, Norfolk, Virginia, is the contracting activity.

Huntington Ingalls Industries Fleet Support Group, Newport News, Virginia, is competitively awarded a \$272,977,437 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract to provide U.S. Navy aircraft carrier (CVN), carrier engineering maintenance assist team and surface engineering maintenance assist team in support of maintenance and planning for the overhaul and repair of equipment and systems associated with Navy aircraft carriers and West Coast Navy surface ships. Work will be performed aboard Navy CVNs within the continental U.S.; outside the continental U.S.; and forward deployed locations according to individual task orders as issued and is expected to be completed by June 2026. No funds will be obligated at the time of award. Funds will be obligated on individual orders as they are issued. This contract was competitively procured and solicited via the Beta System for Award Management website. The Naval Sea Systems Command, Washington Navy Yard, Washington, D.C., is the contracting activity (N00024-21-D-4114).

BAE Systems San Diego Ship Repair, San Diego, California, is awarded a \$90,000,000 modification to increase the ordering ceiling to previously awarded indefinite-delivery/indefinite quantity contract N00024-17-D-2321 for yard work, maintenance and modernization efforts including, but not limited to, post-delivery, post-shakedown, combat system and continuous maintenance availabilities for DDG 1000 and DDG 1001. Work will be performed in San Diego, California, and is expected to complete September 2023. This modification increases the contract ceiling from \$192,682,485 to \$282,682,485. Orders may be issued on a cost-plus-award-fee or firm-fixed-price basis. No funding will be obligated at the time of award. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Electric Aviation Systems LLC, Vandalia, Ohio, is awarded a \$55,364,514 modification (P00012) to a previously awarded firm-fixed-price contract (N0001918C0004). This modification exercises an option

to procure 219 generator converter units in support of the F/A-18E/F and E/A-18G aircraft for the Navy. Work will be performed in Vandalia, Ohio, and is expected to be completed in July 2023. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$23,258,152; and fiscal 2020 aircraft procurement (Navy) funds in the amount of \$32,106,362 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Bluestone-InterSpec JV, Malvern, Pennsylvania, is awarded a maximum-value \$30,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for multi-media compliance support with an emphasis on fuel storage tanks/spill, air, and waste/materials in the Naval Facilities Engineering Systems Command Washington area of responsibility and other U.S. territories. Work will be performed in Washington, D.C., and in other U.S. territories, and is expected to be completed by January 2027. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$10,000 for guaranteed minimum award will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website, with three offers received. The Naval Facilities Engineering Systems Command Washington, D.C., is the contracting activity (N40080-21-D-0010).

L-3 Unidyne Inc., Norfolk, Virginia, is awarded a \$9,912,777 indefinite-delivery/indefinite-quantity contract containing firm-fixed-price provisions for production of copper sonar assemblies. Work will be performed in Norfolk, Virginia, and the ordering period will be completed June 2026 (with the latest possible delivery taking place 14 months thereafter). Fiscal 2021 operation and maintenance, Navy funds in the amount of \$1,304,214 will be obligated at time of award on the first delivery order and will expire at the end of the current fiscal year. This contract was competitively procured using full and open competition via the beta.sam.gov website with three offers received. The Naval Undersea Warfare Center Division, Newport, Newport, Rhode Island, is the contracting activity (N66604-21-D-G100).

July 14, 2021

The Navy is awarding 600 indefinite-delivery/indefinite-quantity multiple award contracts (MACs) to businesses in multiple locations across 29 of the 50 United States and the District of Columbia for future competition of support service requirements to be solicited by Department of the Navy activities under rolling admissions of the SeaPort Next Generation (SeaPort-NxG) multiple-award contract vehicle for engineering support services and program management support services in 23 functional areas. The government estimates approximately \$5,000,000,000 in services will be procured per year via orders issued under the SeaPort-NxG multiple award contracts. These MACs have a 2.5-year base period of performance with an additional five-year ordering period option. These contracts were competitively procured via Federal Business Opportunities (FedBizOps), with 620 offers received. No contract funds will be obligated on the basic MAC awards. The Naval Sea Systems Command, Naval Surface Warfare Center, Dahlgren Division, Dahlgren, Virginia, is the contracting activity (N00178-21-R-7000).

Huntington Ingalls Industries Fleet Support Group LLC, Virginia Beach, Virginia, is awarded a \$21,912,553 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract for logistics and engineer support services on shipboard material handling equipment and shipboard mobile support equipment to include unscheduled maintenance repair, preventative maintenance, 12/18-month service, 18-month weight test and/or forklift certification, and trouble shooting in the logistics arena in support of Naval Supply Systems Command Fleet Logistics Center Norfolk. The contract will include a five-year base ordering period beginning in August with an additional six-month ordering period option pursuant of Defense Federal Acquisition Regulation 52.217-8 - option to extend services, which if exercised, will bring the total value to \$24,274,600. The base ordering period is expected to be completed by August 2026; if the option is exercised, the ordering period will be completed by February 2027. All work will be performed in Norfolk, Virginia. Fiscal 2021 operation and maintenance funds (Navy) in the amount of \$1,000 will be obligated to fund the contract's minimum amount and funds will expire at the end of the current fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. This contract was competitively procured with the solicitation posted on beta.sam.gov, with three offers received. Naval Supply Systems Command Fleet Logistics

Center Norfolk, Contracting Department Norfolk Office, Norfolk, Virginia, is the contracting activity (N00189-21-D-0018).

Viasat Inc., Carlsbad, California, is awarded a \$19,494,000 modification under a previously awarded, indefinite-delivery/indefinite-quantity, multiple award contract (N00039-15-D-0043) for Multifunctional Information Distribution System (MIDS) Low Volume Terminals (LVT) to procure secure data units (SDUs) that support MIDS-LVT terminals and Link-16 capabilities. This modification will increase the current contract value from \$674,093,506 by \$19,494,000 to \$693,961,006. The additional ceiling will be added to a new contract line item number to the base contract for the procurement of SDUs, which expires in June 2025. Work will be performed in Carlsbad, California, and is expected to be completed by June 2025. No funding is being obligated at the time of award. Funds will be obligated as individual delivery orders are issued. This contract modification was not competitively procured because it is a sole-source acquisition pursuant to the authority of 10 U.S. Code 2304(c)(1) - only one responsible source, Federal Acquisition Regulation subpart 6.302-1, as addressed under justification and approval number 20-400 and approved on Nov. 25, 2019. The Naval Information Warfare Systems Command, San Diego, California, is the contracting activity.

Lockheed Martin Aculight Corp., Bothell, Washington, is awarded a \$12,291,610 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract with a five-year ordering period for technical services, integration, test, validation, and demonstration events support for the airborne high energy laser system for the Naval Surface Warfare Center, Dahlgren Division. Work will be performed in Dahlgren, Virginia (42%); Bothell, Washington (30%); and Orlando, Florida (28%), and is expected to be completed by July 2026. Fiscal 2021 research, development, test, and evaluation (Defense) funding in the amount of \$100,000 will be obligated at the time of award and not expire at the end of the current fiscal year. This is a sole-source award in accordance with Defense Federal Acquisition Regulations 6.302-1(a) (2) (iii) - only one responsible source and no other supplies or services will satisfy agency requirements. Naval Surface Warfare Center, Dahlgren Division, Virginia, is the contracting activity (N00178-21-D-4412).

July 13, 2021

Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$23,018,589 cost-plus-fixed-fee contract. This contract provides for the integration of a Foreign Military Sales (FMS) country into the F-35 Joint Strike Fighter program and provides country-specific program support for F-35 aircraft production, modifications, logistics, and sustainment efforts. Work will be performed in Ft Worth, Texas (58%); Nagoya, Japan (26%); Orlando, Florida (11%); Redondo Beach, California (3%); and Samlesbury, United Kingdom (2%), and is expected to be completed in March 2025. FMS customer funds in the amount of \$23,018,589 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304(C)(4). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921C0037).

July 9, 2021

Cianbro Corp., Pittsfield, Maine, is awarded a \$17,976,172 firm-fixed-price modification to previously awarded contract N40085-20-C-8500 for temporary dry dock pump and piping requirements to support P381 Multi-Mission Dry Dock #1 Extension at Portsmouth Naval Shipyard. The work to be performed provides for purchase and installation of three 12,000-gallon-per-minute temporary dry dock dewatering pumps with complete piping and control system. Award of this modification brings the total cumulative contract value to \$226,545,865. Work will be performed in Kittery, Maine, and is expected to be completed by February 2022. Fiscal 2021 military construction (Navy) funds in the amount of \$17,976,172 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Atlantic, Officer in Charge of Construction, Portsmouth Naval Shipyard, Portsmouth, New Hampshire, is the contracting activity.

Huntington Ingalls Inc., Newport News Shipbuilding Division, Newport News, Virginia, is awarded a \$17,537,667 cost-plus-fixed-fee contract to support maintenance and modernization on USS Dwight D. Eisenhower (CVN 69) with special incentives to include ship alterations and propulsion plant maintenance during fiscal 2021 planned incremental availability at the Norfolk Naval Shipyard. Work will be performed in Portsmouth, Virginia, and is expected to be completed by October 2022. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$2,500,000 (79%); and fiscal 2021 other procurement (Navy) funds in the amount of \$675,000 (21%) will be obligated at the time of award and will not expire at the end of the current fiscal year. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$17,537,667. This contract was not competitively procured in accordance with 10. U.S. Code 2304 (c)(1), only one responsible source will satisfy the Navy's requirement. Norfolk Naval Shipyard, Portsmouth, Virginia, is the contracting activity (N4215821C0002).

MZA Associates Corp., Albuquerque, New Mexico, is awarded an \$11,150,425 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract with a five-year ordering period for technical and subject matter expert services for the Naval Surface Warfare Center, Dahlgren Division, Virginia. Work will be performed in Dahlgren, Virginia (70%); and Albuquerque, New Mexico (30%), and is expected to be completed by July 2026. Fiscal 2021 research, development, test, and evaluation (Navy) funding in the amount of \$230,000 will be obligated at the time of award, of which funds in the amount of \$230,000 will expire at the end of the current fiscal year. This is a sole-source award in accordance with Federal Acquisition Regulations 6.302-1(a) (2) (iii) - only one responsible source and no other supplies or services will satisfy agency requirements. Naval Surface Warfare Center, Dahlgren Division, Virginia, is the contracting activity (N00178-21-D-4413).

July 8, 2021

Huntington-Ingalls Industries – Newport News Shipbuilding, Newport News, Virginia, is awarded an \$89,967,799 cost-plus-fixed-fee modification to previously awarded contract N00024-20-C-2109 for planning yard, engineering, technical, trade, and program management support of industrial type work for submarine availabilities, facilities, and conversion. This contract combines purchases for the Navy (98.8%); and the government of the United Kingdom (0.2%) under the Foreign Military Sales program. Work will be performed in Newport News, Virginia (90%); Kings Bay, Georgia (3%); Bremerton, Washington (2%); Pearl Harbor, Hawaii (2%); Kittery, Maine (2%); and Groton, Connecticut (1%), and is expected to be completed by September 2023. Fiscal 2021 other procurement (Navy) funds in the amount of \$2,859,827 (98.7%); fiscal 2021 research development test and evaluation funds in the amount of \$30,756 (1.1%); and Foreign Military Sales (United Kingdom) funds in the amount of \$8,158 (0.2%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Huntington Ingalls Industries, Pascagoula, Mississippi, is awarded an \$8,622,638 fixed-price incentive (firm target) modification to previously awarded contract N00024-13-C-2307 to exercise an option for accomplishment of post-delivery availability work items for DDG 123. Work will be performed in Pascagoula, Mississippi, and is expected to complete by December 2022. Fiscal 2016 shipbuilding and conversion (Navy) funds in the amount of \$7,963,344 (92.4%); and fiscal 2021 other procurement (Navy) funds in the amount of \$659,294 (7.6%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

July 7, 2021

G-W Management Services LLC, Rockville, Maryland (N40080-21-D-0022); Biscayne Contractors Inc., Alexandria, Virginia (N40080-21-D-0023); Tuckman-Barbee Construction Co., Inc., Upper Marlboro, Maryland (N40080-21-D-0024); C.E.R. Inc., Baltimore, Maryland (N40080-21-D-0025); Belt Built-CFM JV, Crofton, Maryland (N40080-21-D-0026); EGI HSU JV, LLC Edifice Group, Gaithersburg, Maryland (N40080-21-D-0027); Desbuild EGMS JV LLC, Hyattsville, Maryland (N40080-21-D-0028); and Tidewater Inc., Elkridge, Maryland (N40080-21-D-0029), are each being awarded an indefinite-delivery/indefinite-quantity multiple award construction contract for construction projects located primarily within the Naval

Facilities Engineering Systems Command (NAVFAC) Washington area of responsibility (AOR). The maximum dollar value including the base period and one option year for all 10 contracts combined is \$240,000,000. The work to be performed provides for various construction services including new work, additions, alterations, maintenance, and repairs. All work on this contract will be performed primarily within the NAVFAC Washington AOR to include Washington, D.C. (40%); Virginia (40%); and Maryland (20%). The term of the contract is not to exceed 60 months, with an expected completion date of July 2026. Fiscal 2021 supervision, inspection, and overhead funds in the amount of \$80,000 (\$10,000 per contractor) are obligated on this award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by military construction (Navy) funds; operation and maintenance (Navy) funds; and working capital (Navy) funds. This contract was competitively procured via the beta.sam.gov website with 51 proposals received. These eight contractors may compete for task orders under the terms and conditions of the awarded contract. NAVFAC Washington, Washington, D.C., is the contracting activity.

Raytheon Missiles and Defense, Tucson, Arizona, was awarded a \$45,095,203 fixed-price incentive firm and firm-fixed-price modification to previously awarded contract N00024-19-C-5412 exercising the option for fiscal 2021 Standard Missile-2 Block IIC low-rate initial production and spares. Work will be performed in Tucson, Arizona (40%); Salt Lake City, Utah (10%); Wolverhampton, England (9%); Andover, Massachusetts (6%); Coxsackie, New York (4%); Huntsville, Alabama (4%); Middleton, Ohio (3%); San Jose, California (3%); Anniston, Alabama (2%); Warrington, Pennsylvania (2%); San Diego, California (2%); McKinney, Texas (1%); Chandler, Arizona (1%); and other miscellaneous locations (13%), and is expected to be completed by September 2024. Fiscal 2021 weapons procurement funding in the amount of \$45,095,203 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded July 1, 2021)

Lockheed Martin Rotary and Mission Systems, Baltimore, Maryland, is awarded a not-to-exceed \$35,720,955 undefinitized modification to previously awarded contract N00024-11-C-2300 for configuration management changes on select Freedom-variant Littoral Combat Ships. Work will be performed in Marinette, Wisconsin, and is expected to be completed by May 2022. Fiscal 2015 shipbuilding and conversion (Navy) funds in the amount of \$5,042,658 (28%); and 2016 shipbuilding and conversion (Navy) funds in the amount of \$12,817,819 (72%) will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Rotary and Mission Systems, Baltimore, Maryland, is awarded a not-to-exceed \$12,467,226 indefinite modification to previously awarded contract N00024-18-C-2300 for configuration management changes on select Freedom-variant Littoral Combat Ships. Work will be performed in Marinette, Wisconsin, and is expected to be completed by May 2022. Fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$5,523,468 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

July 6, 2021

BAE Systems Information and Electronic Systems Integration Inc., San Diego, California (N6893621D0016); Centauri LLC, Carlsbad, California (N6893621D0017); and KAB Laboratories, San Diego, California (N6893621D0018), are each awarded a not-to-exceed \$49,873,700 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract. These contracts provide support services to include software design and testing; updates to existing software products; cybersecurity; information assurance risk assessments; microservice module development and design; software interface development and design; development of technical support data and training materials; modification and design of new sensor models; performing photogrammetric, geo-positioning, and error propagation algorithm development; configuration management; web services; and distributed systems development for the Navy and the governments of the United Kingdom, Australia, Canada, Poland, Finland, Korea, United Arab Emirates, Italy, the Netherlands, and Norway. The companies have an opportunity to compete for

individual orders. Work will be performed in China Lake, California (40%); San Diego, California (40%); and Carlsbad, California (20%), and is expected to be completed in July 2026. No funds are being obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; three offers were received. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity.

SEACORP, Middletown, Rhode Island, is awarded a \$36,072,373 indefinite-delivery/indefinite-quantity contract containing cost reimbursement type provisions. This is a Phase III Small Business Innovation Research (SBIR) contract for the continued development, upgrade, and application of the next generation electronic warfare human machine interface software, which derives from and extends the contractor's efforts performed under Phases I and II. Work will be performed in Middletown, Rhode Island (80%); Newport, Rhode Island (10%); and on-board U.S. ships and ranges (10%). The ordering period is established at five years. Fiscal 2021 other procurement (Navy) funds in the estimated amount of \$500,000 will be obligated shortly after award on the first task order, none of which will expire at the end of the current fiscal year. This contract was not competitively procured. The Naval Undersea Warfare Center Division, Newport, Newport, Rhode Island, is the contracting activity (N66604-21-D-K000).

Wiley Wilson Burns & McDonnell, Alexandria, Virginia, is awarded a \$15,000,000 firm-fixed-priced modification under an indefinite-delivery/indefinite-quantity contract for the exercise of Option One for architect-engineer services in the Naval Facilities Engineering Systems Command (NAVFAC) Washington area of responsibility (AOR). No task orders are being issued at this time. The work to be performed provides design and engineering services for facilities including, but not limited to, general administrative spaces, dining facilities, commissary and exchange facilities, educational facilities, sports and fitness facilities, and training and instructional facilities. Work will be performed at various Navy and Marine Corps facilities within the NAVFAC Washington AOR including Maryland (40%); Virginia (40%); Washington, D.C. (20%), and this option period is from July 2021 to July 2022. No funds will be obligated at time of award; funds will be obligated on individual task order as they are issued. Task orders will be primarily funded by operation and maintenance (Navy) funds. NAVFAC Washington, Washington, D.C., is the contracting activity (N40080-20-D-0018).

July 2, 2021

Raytheon Co., El Segundo, California, is awarded a \$171,629,206 fixed-price incentive (firm target), cost-reimbursable contract. This contract procures three Next Generation Jammer Mid-Band low-rate initial production Lot One ship sets, associated spares, gold units for operational test program set development and associated technical data. Work will be performed in Dallas, Texas (44%); Forest, Mississippi (33%); El Segundo, California (20%); Ft. Wayne, Indiana (2%); and Andover, Massachusetts (1%), and is expected to be completed in October 2023. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$171,629,206 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001921C0053).

L3 Technologies Inc., Camden, New Jersey, is awarded a \$60,480,000 cost-plus-fixed-fee modification to previously awarded contract N00024-20-C-6312 for engineering and technical support for the Medium Unmanned Surface Vehicle program. Work will be performed in Morgan City, Louisiana (73%); Arlington, Virginia (10%); Jeanerette, Louisiana (8 percent); New Orleans, Louisiana (6%); Worthington, Ohio (2%); Lafayette, Louisiana (1%), and is expected to be completed by December 2022. Fiscal 2021 research, development, test, and evaluation funding in the amount of \$1,672,203 will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

VSE Corp., Alexandria, Virginia, was awarded a \$41,585,809 cost-plus-fixed-fee delivery order for an in-country technical assistance team (ICTAT) to the Egyptian Navy for follow-on technical support. This contract involves Foreign Military Sales (FMS) to the government of Egypt under FMS Case EG-P-GKB. The contractor shall provide ICTAT to include technical, logistics, training, and facilities and administration

support to the Egyptian Navy for work on multiple ship platforms. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$77,554,810. Work will be performed in Alexandria, Egypt (50%); and Alexandria, Virginia (50%), and is expected to be completed by June 2023. If all options are exercised, work will continue through June 2023. FMS funds in the amount of \$41,585,809 will be obligated at time of award. This delivery order was not competitively procured via the Federal Business Opportunities website. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-11-D-4229, delivery order N0002421F4222). (Awarded July 1, 2021)

Northrop Grumman Systems Corp., Melbourne, Florida, is awarded a \$12,970,550 modification (P00005) to a cost-plus-fixed-fee order (N0001920F5008) against a previously issued basic ordering agreement (N0001920G0005). This modification exercises an option to provide continued support for integrated test team operations in executing advanced development experimentation flights and development testing in support of future delta system software builds for the Navy E-2D Advanced Hawkeye aircraft. Work will be performed in Patuxent River, Maryland, and is expected to be completed in July 2022. Fiscal 2021 research, development, test, and evaluation (Navy) funds in the amount of \$1,632,077 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Pacific Rim Constructors Inc., Dededo, Guam, is awarded an \$11,458,714 firm-fixed-price task order N4019221F4255 under a multiple award construction contract to build a solar array at Naval Base Guam Apra Harbor. The work to be performed provides for a medium voltage utility grid photovoltaic system, to include a concrete building, switchgears, transformers, control systems, and associated electrical hardware, components, and devices. Work will be performed in Santa Rita, Guam, and is expected to be completed by December 2022. Fiscal 2017 military construction (Navy) contract funds in the amount of \$11,458,714 are obligated on this award and will not expire at the end of the current fiscal year. Four proposals were received for this task order. Naval Facilities Engineering Systems Command Marianas, Santa Rita, Guam, is the contracting activity (N40192-18-D-2802).

Northrop Grumman Systems Corp., Bethpage, New York, is awarded a \$9,127,099 cost-plus-fixed-fee and cost modification to previously awarded contract N00024-17-C-6311 for basic outfitting assembly installation services and other direct costs to support the Littoral Combat Ship (LCS) mission modules. Work will be performed in Portsmouth, Virginia (78%); and Bethpage, New York (22%), and is expected to be completed by July 2022. Fiscal 2021 other procurement (Navy) funding in the amount of \$295,000 will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

July 1, 2021

Quality Performance Inc., Fredericksburg, Virginia, is awarded a \$39,942,234 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract procures Moriah Wind Systems in multiple configurations, to include associated components, teardown, test and evaluation, engineering, and technical support in support of the aircraft launch and recovery equipment program for the Navy. Work will be performed in Fredericksburg, Virginia, and is expected to be completed in June 2026. No funds will be obligated at time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N6833521D0064).

Lockheed Martin Rotary and Mission Systems, Owego, New York, is awarded a \$28,160,769 modification (P00005) to a firm-fixed-price order (N0001920F0350) against a previously issued basic ordering agreement (N0001919G0029). This modification exercises an option to procure mission computers (MC) and flight management computers (FMC) retrofit kits to upgrade the MH-60R/S aircraft. The quantities are as follows: 205 Generation 3i/5i MCs to upgrade from Generation III/V/VI, to include 187 for the Navy, nine for the government of Australia, five for the government of Saudi Arabia and four for the government of Denmark; 200 Generation 3i/5i FMCs to upgrade from Generation III/V FMCs, to include 182 for the Navy, nine for the government of Australia, five for the government of Saudi Arabia and four for the

government of Denmark. Additionally, this modification procures 153 wiring kits to include 136 for the Navy, nine for the government of Australia, four for the government of Denmark, and four for the government of Saudi Arabia. Work will be performed in Owego, New York (97%); and Clearwater, Florida (3%), and is expected to be completed in March 2024. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$25,371,171; and Foreign Military Sales customer funds in the amount of \$2,789,598 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Peter Vander Werff Construction Inc., El Cajon, California, is awarded a \$13,405,000 firm-fixed-price task order N6247321F5002 under a multiple award construction contract for repair of Building 210802 at Marine Corps Base Camp Pendleton, California. The task order also contains two unexercised options which, if exercised, would increase the cumulative task order value to \$13,986,727. The work to be performed includes repairs to the mess hall building to replace major systems and finishes, reconfigure the kitchen and serving spaces, and provide a temporary dining facility. The options, if exercised, will provide additional environmental remediation and additional temporary dining facility services. Work will be performed in Camp Pendleton, California, and is expected to be completed by January 2023. Fiscal 2021 operation and maintenance (Marine Corps) contract funds in the amount of \$13,405,000 are obligated on this award and will expire at the end of the current fiscal year. Four proposals were received for this task order. Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity (N62473-20-D-1125).

Didlake Inc., Manassas, Virginia, is awarded a \$12,347,409 modification to increase the maximum dollar value of an indefinite-delivery/indefinite-quantity contract for custodial services at Norfolk Naval Shipyard, Virginia; and Naval Amphibious Base Little Creek, Virginia. After award of this modification, the total cumulative contract value will be \$24,476,244. The work to be performed provides for all management, supervision, tools, materials, supplies, labor, and transportation services necessary to perform custodial services for office space, restrooms, and other types of rooms. Work will be performed in Virginia Beach, Virginia (75%); and Portsmouth, Virginia (25%), and is expected to be completed by June 2025. Fiscal 2020 operation and maintenance (Navy) contract funds in the amount of \$12,347,409 for recurring and non-recurring work will be obligated on individual task orders and will not expire at the end of the current fiscal year. Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-20-D-0055).

Global, a 1st Flagship Co., Irvine, California, is awarded a \$10,534,230 cost-plus-fixed-fee modification to previously awarded contract N00024-17-C-4404 to exercise Option Period Four in the amount of for the purchase of services and material to support and maintain all vessels assigned to the Naval Sea Systems Command Inactive Ship Maintenance Office Bremerton, Washington. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$60,737,344. Work will be performed in Bremerton, Washington, and is expected to be completed by August 2022. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$1,711,100 will be obligated at the time of award and will not expire at the end of the current fiscal year in accordance with Title 10 U.S. Code 2410a — authorizes the Department of Defense to enter severable services contracts that begin in one fiscal year and end not more than 365 days later, in the next fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.
