

September 20, 2022

FLIR Systems Inc., North Billerica, Massachusetts, is awarded a \$48,728,953 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the procurement of Maritime Forward Looking Infrared (MARFLIR) II and SeaFLIR 280HD Electro-Optic Sensor System configurations. Work will be performed in North Billerica, Massachusetts, and is expected to be completed by March 2027. Working capital (Department of Defense) funds will be obligated at time of award in amount of \$2,906,968 and will not expire at the end of the current fiscal year. This contract action was not competitively procured pursuant to 10 U.S. Code 2304(c) (1) — only one responsible source and no other supplies or services will satisfy agency requirements. Naval Surface Warfare Center, Crane Division, Crane, Indiana, is the contracting activity (N0016422DJQ06).

BAE Systems Inc., San Diego, California, is awarded a \$30,292,592 firm-fixed-price delivery order under existing indefinite-definite/indefinite-quantity contract (N00024-17-D-2321) for execution efforts in support of DDG 1001 post shakedown availability, under contract line item number 0003 — industrial efforts and material for 68 work items. Work will be performed in San Diego, California, and is expected to be completed by May 2023. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$30,209,592 will be obligated at time of award and will not expire at the end of the current fiscal year. The Supervisor of Shipbuilding Bath, Detachment San Diego, San Diego, California, is the contracting activity.

Chae & Nam Universe Inc., National City, California (N55236-22-D-0008); Delphinus Engineering, Eddystone, Pennsylvania (N55236-22-D-0009); Epsilon Systems Solutions Inc., San Diego, California (N55236-22-D-0010); and Q.E.D Systems Inc., Virginia Beach, Virginia (N55236-22-D-0011), are awarded a \$20,324,743 firm-fixed-price, multiple award, indefinite-delivery/indefinite-quantity contract with a five-year ordering period to provide support to submarines homeported or docked in San Diego, California. The contract will provide non-nuclear and non-Submarine Safety Program submarine support for planned maintenance availabilities and unplanned emergent work. These four companies will have an opportunity to compete for individual delivery orders. The contract ordering period begins Sept. 29, 2022, and ends on Sept. 28, 2027. Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$40,000 (\$10,000 for minimum guarantee per contract) will be obligated under each contract's initial delivery order and expires at the end of the current fiscal year. These contracts were competitively procured via the System for Award Management website, with five offers were received. The Southwest Regional Maintenance Center, San Diego, California, is the contracting activity (N55236-22-D-(0008-0011)).

Kinetic Protection LLC, Stillwater, Minnesota, is awarded a \$16,273,005 firm-fixed-price contract for advanced ballistic shields. This contract will procure lateral and center panel assemblies to provide advanced ballistic shielding for crew manned weapon stations on nuclear aircraft carriers. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$22,977,537. Work will be performed in Bloomington, Minnesota, and is expected to be completed by September 2024. Fiscal 2021 weapons procurement (Navy) funds in the amount of \$16,273,005 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(5) — authorized by statute. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-5350).

Raytheon Technologies Corp., doing business as Pratt & Whitney Military Engines, East Hartford, Connecticut, is awarded a \$14,688,835 modification (P00040) to a previously awarded cost-plus-fixed-fee contract (N0001918C1021). This modification adds scope to provide tooling equipment to assist the production of Lot 14 F-135 Propulsion Systems for the Air Force, Navy, Marine Corps and non-U.S. Department of Defense (DOD) participants. Work will be performed in LaPorte, Indiana (18%); Syracuse, New York (17%); Oxford, Alabama (11%); El Cajon, California (7%); Granby Connecticut (6%); Cleveland, Ohio (5%); Manchester, Connecticut (4%); Millersburg, Oregon (4%); Whitehall, Michigan

(4%); Knittlingen, Germany (3%); Ronkonkoma, New York (2%); Grand Rapids, Michigan (2%); Winslow, Maine (2%); Newington, Connecticut (1%); Portland, Oregon (1%); Midway, Georgia (1%); Avilla, Iowa (1%); Dover, New Jersey (1%); various locations within the continental U.S. (CONUS) (8%); and various locations outside the CONUS (2%), and is expected to be completed in October 2023. Fiscal 2020 aircraft procurement (Navy) funds in the amount of \$6,036,818; fiscal 2020 aircraft procurement (Air Force) funds in the amount of \$6,036,817; and non-U.S. DOD participant funds in the amount of \$2,615,200 will be obligated at the time of award, \$12,073,635 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Bristol Design Build Services LLC, Anchorage, Alaska, is awarded a \$12,926,273 firm-fixed-price task order (N4425522F4392) under a multiple award construction contract (N44255-17-D-4033) to install fire protection and egress design at Puget Sound Naval Shipyard and Intermediate Maintenance Facility, Washington. Work to be performed provides for fire protection upgrade and repair, and building egress compliance for Building 107. Work will be performed in Bremerton, Washington, and is expected to be completed October 2024. Fiscal 2022 operation and maintenance (Navy) funds in the \$12,926,273 are obligated on this award and will expire at the end of the current fiscal year. This contract was competitively procured with two proposals received. The Naval Facilities Engineering Systems Command, Northwest, Silverdale, Washington, is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a \$10,129,673 modification (P00010) to a firm-price-incentive-fee order (N0001919F2410) against a previously issued basic ordering agreement (N0001916G0001). This modification adds scope to procure special tooling and special test equipment to include one Infrared Receiver (IR) Sensor Char, one IR Receiver Advanced Test Platform (ATP), one IR Receiver Ambient, one Processor Ambient/ATP, and one IR Receiver Full Mechanical in support of the F/A-18 Infrared Search and Track Program. Work will be performed in Orlando, Florida (82%); and St. Louis, Missouri (18%), and is expected to be completed in December 2024. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$10,129,673 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Hydrionalix Inc., Green Valley, Arizona, is awarded a \$9,114,086 cost-plus-fixed-fee order (N6833522F0152) against a previously issued basic ordering agreement (N6833522G0002). This order provides advanced concept unmanned vehicle hardware integration with sensor payloads, control software and communication systems to expand the capabilities of a series of micro-unmanned surface and aerial vessels to meet or exceed current Marine Corps Littoral Explosive Ordinance Neutralization Program Office requirements in support of Small Business Innovation Research (SBIR) Phase III requirement under the following multiple SBIR topics: N102-182 titled "Compact, lightweight Autonomous Underwater Vehicle (AUV) with robust navigation and range for riverine reconnaissance"; N171-010 titled "Additive Manufacturing Technology for Sonobuoy Applications"; N201-X01 titled "ADAPT - Advanced, Agile Manufacturing of Limited-Production Swarming Unmanned Systems (UxS) to Support Humanitarian Assistance and Disaster Relief (HADR) Operations"; N20A-T006 titled "High Efficiency Propeller for Small Unmanned X Systems (UxS)"; DARPA HR001119S0035-09 titled "Expeditionary Maritime Mine Countermeasures"; NOAA 9.4.01 titled "Unmanned Aircraft System: Rapid Response for Natural Disasters"; and DOE18b titled "SEARCHER – Sea Remote Controlled Hydrographic Explorer and Recorder". Work will be performed in Green Valley, Arizona, and is expected to be completed in September 2026. Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$120,000; and fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$1,500,000 will be obligated at the time of award, all of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

DRS Laurel Technologies, Johnstown, Pennsylvania, is awarded an \$8,671,299 firm-fixed-price modification to previously awarded contract N00024-18-C-5395 to exercise options for production of the

AN/SPQ-9B radar systems and associated equipment. Work will be performed in Largo, Florida, and is expected to be completed by May 2025. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$4,335,818 (50%); and fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$4,335,481 (50%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Nova Photonics Inc., Princeton, New Jersey, is awarded an \$8,657,330 cost-plus fixed fee, firm-fixed-price contract with options. This effort is for the continued development of the optical filter technology under Naval Information Warfare Systems Command Small Business Innovation Research (SBIR) Topic N06-095. The primary products of this SBIR Phase III contract is to update and deliver four active filters with options for government integration and demonstration support; production of 12 active filters; development of additional wavelengths; and production of 12 wavelengths for active filters. Work will be performed in Princeton, New Jersey, with an expected completion date of December 2029. This contract includes four options which, if exercised, would bring the cumulative value of this contract to an estimated \$8,657,330. If all options are exercised, work could continue until December 2029. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$757,000 will be obligated at the time of award. Contract funds will not expire at the end of the current fiscal year. This contract is awarded as a sole source under the authority of 10 U.S. Code 2304(c)(5) — authorized or required by statute. The Naval Information Warfare Systems Command, San Diego, California, is the contracting activity (N00039-22-C-0014).

AECOM Technical Services Inc., Los Angeles, California, is awarded an \$8,512,943 cost-plus-award-fee modification to a previously awarded task order (N6274222F0212) for comprehensive long-term environmental action at various sites within the Naval Facilities Engineering Systems Command (NAVFAC) Pacific area of operations. This modification provides for environmental technical services to address petroleum contamination near the Red Hill Pumping Station at Joint Base Pearl Harbor-Hickam, Hawaii. This award brings the total cumulative face value of the contract to \$8,532,674. Work will be performed in Oahu, Hawaii, and is expected to be completed by December 2025. Fiscal 2022 commander, Navy Installation Command funds in the amount of \$8,512,943 will be obligated at time of award, and will not expire at the end of the current fiscal year. NAVFAC Pacific, Joint Base Pearl Harbor-Hickam, Oahu, Hawaii, is the contracting activity (N62742-17-D-1800).

Raytheon Co., Tucson, Arizona, is awarded an \$8,370,720 cost-plus-fixed-fee modification to previously awarded contract N0002418C5407 to exercise options and incrementally fund existing contract line items for Standard Missile depot and intermediate level repair and maintenance. Work will be performed in Tucson, Arizona, and is expected to be completed by January 2025. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$7,140,550 (84%); Foreign Military Sales (FMS) Spain funds in the amount of \$811,000 (10%); FMS Japan funds in the amount of \$188,408 (2%); FMS Korea funds in the amount of \$133,662 (2%); FMS Germany funds in the amount of \$56,100 (1%); and FMS Taiwan funds in the amount of \$41,000 (1%) will be obligated at time of award, of which, funding in the amount of \$7,140,550 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

September 19, 2022

MetroStar Systems Inc., Reston, Virginia, is awarded a \$155,000,000 single-award, indefinite-delivery/indefinite-quantity contract (M95494-22-D-0013) with a five-year ordering period in order to provide the Marine Corps Technology Services Organization with Business Information Systems support services. This contract includes a five-year ordering period with a maximum value of \$155,000,000. Work will be performed in Indianapolis, Indiana (99%); and various places below one percent (1%). Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$5,925,411 will be obligated at the time of award. Subsequent funding will be provided on a task order basis with an estimated ordering

period expiration date of September 2027. This contract was competitively solicited on the System for Award Management website, with three proposals received. The Marine Corps Installations Command Headquarters Contracting Office, Arlington, Virginia, is the contracting activity.

ManTech Advanced Systems International Inc., Herndon, Virginia, is awarded a \$99,341,433 cost-plus-fixed-fee, cost reimbursable, indefinite-delivery/indefinite-quantity contract. This contract provides for ongoing engineering and technical services, to include research, development, integration, analysis, acquisition, and technical training support, as well as configuration management, technical and programmatic documentation development, program management, and project planning in support of the Naval Air Systems Command Weaponing Integration, Naval Air Training and Operating Procedures Standardization, Naval Aviation Technical Information Product Team. Work will be performed in Oceana, Virginia (26%); Herndon, Virginia (18%); Patuxent River, Maryland (17%); LeMoore, California (17%); Whidbey, Washington (17%); and Fallon, Nevada (5%), and is expected to be completed in September 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; one offer was received. The Naval Air Warfare Aviation Division, Patuxent River, Maryland, is the contracting activity (N0042122D0101).

The Boeing Co., St. Louis, Missouri, is awarded a \$51,700,000 firm-fixed-price contract to procure the final 51 Advanced Capabilities Mission Computers retrofit kits (49 kits for EA-18G aircraft and two kits for software integration labs) in support of meeting the Navy's mission requirements for the EA-18G aircraft. Work will be performed in Bloomington, Minnesota (68.3%); St. Louis, Missouri (21.8%); and Linthicum Heights, Maryland (9.9%), and is expected to be completed in September 2025. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$11,150,980; fiscal 2021 aircraft procurement (Navy) funds in the amount of \$17,233,333; and fiscal 2020 aircraft procurement (Navy) funds in the amount of \$23,315,686 will be obligated at the time of award, \$23,315,686 of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1(a)(2)(ii)(B). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922C0013).

Gibbs & Cox Inc., Arlington, Virginia (N6449822D4008); HII Fleet Support Group LLC, Virginia Beach, Virginia (N64498-22-D-4009); NDI Engineering Co., Thorofare, New Jersey (N64498-22-D-4010); Noblis Mission Solutions for Defense LLC, Philadelphia, Pennsylvania (N64498-22-D-4011); and VISTA Technology Services Inc., Arlington, Virginia (N64498-22-D-4012), are awarded a combined \$47,458,616 firm-fixed-price and cost-plus-fixed fee, indefinite-delivery/indefinite-quantity contract for the procurement of engineering and technical services for the design of small to large-scale test sites at the Naval Surface Warfare Center Philadelphia Division (NSWCPD). The procurement includes design planning for hull, mechanical, and electrical systems and equipment, the DDG-51 land-based engineering site, and current and future test sites at NSWCPD and the required design support may range in scope from design of small test stands to full scale land based test and engineering sites, replicating actual shipboard systems and ancillary equipment to be installed at NSWCPD. Each awardee will be awarded \$500 (minimum contract guarantee per awardee) at contract award. Work will be performed primarily off-site at the contractor's facilities, in either New Jersey, Pennsylvania, or Virginia (83%). The remaining work will be performed at the government site in Philadelphia, Pennsylvania (15%); and other government sites (2%) including Washington, D.C.; Newport News, Virginia; Pascagoula, Mississippi; Bath, Maine; Bremerton, Washington; Marinette, Wisconsin; and other sites as directed. Work will be assigned according to the selected awardee for individual task orders and is expected to be completed by September 2028. Fiscal 2022 research, development, test, and evaluation appropriation account funds in the amount of \$500.00 will be obligated at time of award. This contract was competitively procured via the Federal Business Opportunities website, with five offers received. The Naval Surface Warfare Center Philadelphia Division (NSWCPD), Philadelphia, Pennsylvania, is the contracting activity.

Johnson Controls Building Automation Systems Inc., Rockville, Maryland, is awarded a \$28,599,980 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides for maintenance and installation services for intrusion detection, fire dialer communication, card access, and closed-circuit television systems for approximately 300 buildings at Naval Air Station Patuxent River, Webster Field Annex, and Naval Recreation Center Solomons Annex, Maryland. Work will be performed in Patuxent River, Maryland (70%); St. Inigoes, Maryland (28%); and Solomons, Maryland (2%), and is expected to be completed in August 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1. The Naval Air Warfare Aviation Division, Patuxent River, Maryland, is the contracting activity (N0042122D0099).

Frontier Technology Inc., Beavercreek, Ohio, is awarded a \$17,834,767 cost-plus-fixed-fee modification to previously awarded indefinite-delivery/indefinite-quantity contract N00174-19-D-0006 to add Option Year 3 and Option Year 4, and exercise Option Year 3 for continued support for affordability and readiness assessment decision support. The work will be performed in Beavercreek, Ohio, and is expected to be completed by September 2023. Fiscal 2022 research and development funding of \$50,000 dollars will be obligated on the first task order at time of award and will not expire at the end of the current fiscal year. The Naval Surface Warfare Center Indian Head Division, Indian Head, Maryland, is the contracting activity.

Walga Ross Group 3 JV, Joplin, Missouri, is awarded a \$14,080,570 firm-fixed-price task order (N6945022F0395) under a multiple award construction contract (N69450-22-D-0008) to provide renovations to Building 928, Applied Instruction Survival and Training Facility, at Naval Air Station Jacksonville, Florida. The work to be performed provides for interior renovations/reconfiguration of office and classroom spaces, and locker room, exterior concrete foundation wall repair, cleaning and painting of exterior concrete foundation wall and precast panels, removal of rooftop solar water heating system, replacement of roofing/insulation system, extension of existing fire protection system, installation of a mass notification system, replacement of mechanical equipment, replacement of lighting fixtures, installation/extension of communication system, renovation of an interior training pool, and installation of dehumidification unit. The contract also contains one unexercised option, which if exercised, would increase the cumulative contract value to \$14,367,575. Work will be performed in Jacksonville, Florida, and is expected to be completed by November 2023. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$14,080,570 are obligated on this award and will expire at the end of the current fiscal year. Three proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity.

General Atomics, San Diego, California, is awarded an \$11,543,664 firm-fixed-price modification (P00080) to a previously awarded contract (N0001914C0037). This modification adds scope to procure aircraft carrier USS John F. Kennedy (CVN-79) advanced arresting gear (AAG) and Electromagnetic Aircraft Launch System (EMALS) installation and checkout (INCO) spares plus up and AAG INCO spares plus-up deliveries. Additionally, this modification procures eight braking choppers, provides blast and repaint for two Launch Motor Subsystem (LMS) trough covers full length and one LMS trough cover half-length in support of upgrades to EMALS items to the latest approved configuration. Also included in this modification are changes to cost and schedule impacts associated with CVN-79 EMALS and AAG line replaceable units and position sensor blocks as directed. Work will be performed in San Diego, California (67.9%); Tupelo, Mississippi (26.2%); and Lakehurst, New Jersey (5.9%), and is expected to be completed in July 2025. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$11,543,664 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Kunj Construction Corp., Northvale, New Jersey, is awarded an \$11,484,248 firm-fixed-price task order (N4008522F6390) under a multiple award construction contract (N40085-21-D-0054) for a design-bid-

build, Building 4A, at Naval Support Activity Philadelphia, Pennsylvania. The work to be performed provides for renovation of the Defense Contract Management Agency office to provide modernized staff workspaces. Work will be performed in Philadelphia, Pennsylvania, and is expected to be completed by September 2024. The maximum dollar value including the base period and options is \$14,603,468. Fiscal 2022 operation and maintenance (DoD) funds in the amount of \$11,484,248 are obligated on this award and will expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management with two offers received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

September 16, 2022

Bell Textron Inc., Fort Worth, Texas, is awarded a \$228,168,591 cost-plus-fixed-fee, cost reimbursable, indefinite-delivery/indefinite-quantity contract. This contract provides the H-1 Light/Attack helicopter with new and modified capabilities through System Configuration Sets, which is a combination of software and/or hardware configuration item changes integrated into a previously deployed baseline configuration. These efforts include work on the airframe, aircraft wiring interface terminals, flight controls, and weapon systems interfaces, as well as research alternatives, investigation, and documentation of new capabilities and anomalies related to flight controls, wiring harnesses, and weapons, and developing, integrating, verifying, validating, and testing these systems. Additionally, this contract provides for identification of maintenance activities required to support the systems; research, development, and support of studies and analysis related to configuration items, new subsystems, weapons integration, engineering, and logistics; and all efforts required to accomplish analysis of alternatives, system design, integration, testing, rapid response activities, and system capability improvements for Foreign Military Sales customers and fleet support. Work will be performed in Fort Worth, Texas (99%); and various locations within the continental U.S. (1%), and is expected to be completed in September 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity (N6893622D0039).

Leidos Inc., Reston, Virginia, was awarded an \$83,352,986 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract for engineering and technical services to meet fleet requirements for Synthetic Signature Generation-based training systems. Work will be performed in Bethesda, Maryland, and is expected to be completed by September 2028. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$2,324,201 will be obligated at time of award, all of which will expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management website, with one offer received. The Naval Surface Warfare Center, Carderock Division, West Bethesda, Maryland, is the contracting activity (N00167-22-D-0004). (Awarded Sept. 15, 2022)

Cianbro Corp., Pittsfield, Maine, is awarded a \$37,528,700 firm-fixed-price construction contract to repair portions of the seawall at Farragut Field and Santee Basin at the U.S. Naval Academy (USNA), Maryland. The work to be performed provides for critical structural recapitalization of a segment of the USNA seawall/waterfront perimeter by repairing the sheet pile bulkheads along Farragut Field and the east side of Santee Basin. Work will be performed in Annapolis, Maryland, and is expected to be completed by December 2024. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$37,528,700 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management website and the Procurement Integrated Enterprise Environment website, with four proposals received. The Naval Facilities Engineering Systems Command, Washington, Washington, D.C., is the contracting activity (N40080-22-C-0011).

Design West Technologies Inc., Tustin, California, is awarded a \$26,155,214 firm-fixed-price modification to previously awarded contract N6339421C0011 to exercise options for the manufacture, assembly, test,

and delivery of MK 5 Mod 2 and MK 6 Mod 1 launch sequencers and associated kitted material. This modification combines purchases for the Navy (90.84%); and the governments of Germany (5.29%); Finland (3.15%); Republic of Korea (0.40%); and Spain (0.32%) under the Foreign Military Sales (FMS) program. Work will be performed in Tustin, California, and is expected to be completed by October 2023. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$23,761,323 (90.84%); FMS (Germany) funds in the amount of \$1,384,176 (5.29%); FMS (Finland) funds in the amount of \$822,642 (3.15%); FMS (Republic of Korea) funds in the amount of \$103,332 (0.40%); and FMS (Spain) funds in the amount of \$83,741 (0.32%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Surface Warfare Center Port Hueneme Division, Port Hueneme, California, is the contracting activity.

City Construction LLC, Washington, D.C., is awarded an \$18,399,276 firm-fixed-price contract for construction of a military working dog (MWD) kennel at Joint Base Andrews, Maryland. The work to be performed provides for construction to include housing, administrative offices, conference and transient rooms, kitchen/break room, restrooms/showers, utility space, fire detection and alarm system, communications networks, utilities (electrical, water, sanitary sewer), storm water management, security perimeter fence, lighting, and parking, as well as demolition of the existing MWD kennel facilities. The contract also contains five unexercised options, which if exercised, would increase the cumulative contract value to \$19,477,646. Work will be performed in Camp Springs, Maryland, and is expected to be completed by April 2024. Fiscal 2019 military construction (Air Force); and fiscal 2022 military construction (Air Force) funds in the amount of \$18,399,276 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the Procurement Integrated Enterprise Environment with two proposals received. The Naval Facilities Engineering Systems Command, Washington, D.C., is the contracting activity (N40080-22-C-0013).

Technology Trends Group LLC, Arlington, Virginia, is awarded a \$16,672,519 modification to previously awarded firm-fixed price contract M67854-20-C-4919 for the modernization efforts at Marine Corps Base Quantico, Virginia. The total cumulative face value of the contract is \$40,759,789. The contract modification is for a design change to the Base Area Network Transport and Enterprise Unified Communications Voice solution for the modernization of the existing communication infrastructure at Marine Corps Base Quantico. Work will be performed in Quantico, Virginia, with an expected completion date of May 31, 2024. Fiscal 2022 procurement (Marine Corps) funds in the amount of \$16,672,519.16 are obligated at time of award. Contract funds in the amount of \$16,672,519.16 will expire at the end of the current fiscal year. This procurement is a direct 8(a) sole-source award to an Alaskan Native Corp. in accordance with Defense Federal Acquisition Regulation 6.302-5 — authorized or required by statute. The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity.

CCI Group LLC, Shalimar, Florida, is awarded a \$16,174,815 firm-fixed-price modification to a previously awarded task order (N6945022F0834) placed against multiple award construction contract N69450-19-D-0917. This modification provides for storm damage repairs to Building 2268 at Naval Air Station Pensacola, Florida. This award brings the total cumulative face value of the contract to \$27,808,930. Work will be performed in Pensacola, Florida, and is expected to be completed by September 2024. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$16,174,815 are obligated on this award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity.

P&S Construction Inc., Chelmsford, Massachusetts, is awarded a \$16,101,014 firm-fixed-price task order (N6945022F0926) under a multiple award construction contract (N69450-22-D-0005) to provide storm damage repairs and renovations to Building 1350, and demolition of Building 1351 at Naval Air Station Key West, Florida. The work to be performed provides for repair and renovation to Building 1350, to include replacement of existing cement plaster cladding system, removal of existing concrete floor overhangs and window roll up shutter enclosures, replacement of windows and doors, acoustical ceiling

tiles, gypsum wallboard, porcelain floor tiles and grout, carpet, vinyl plank flooring, and bathroom fixtures. Work to Building 1351 provides for the complete building demolition, removal of the foundation, and regrading of the site. The contract also contains one unexercised option, which if exercised, would increase the cumulative contract value to \$16,357,700. Work will be performed in Key West, Florida, and is expected to be completed by August 2024. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$16,101,014 are obligated on this award and will expire at the end of the current fiscal year. Three proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity.

General Dynamics Mission Systems Inc., Pittsfield, Massachusetts, is awarded a \$15,951,489 cost-plus-fixed-fee term modification to previously awarded contract N6339421C0007 for design agent services in support of the Austal variant littoral combat ship, also known as the Independence variant. The Independence variant combat system consists of the Integrated Combat Management System, its interfaces, command, control, communications, computers, combat systems, and intelligence elements. Work will be performed in San Diego, California (83%); and Singapore (17%), and is expected to be completed by September 2023. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$609,082 (76%); fiscal 2022 other procurement (Navy) funds in the amount of \$120,000 (15%); FMS (Singapore) funds in the amount of \$35,436 (4%); fiscal 2021 other procurement (Navy) funds in the amount of \$24,000 (3%); and fiscal 2020 other procurement (Navy) funds in the amount of \$16,987 (2%) will be obligated at time of award and funds in the amount of \$626,069 will expire at the end of the current fiscal year. Naval Surface Warfare Center, Port Hueneme, California, is the contracting activity.

Science Applications International Corp. (SAIC), Reston, Virginia, is awarded a \$14,315,000 modification to a previously awarded, indefinite-delivery/indefinite quantity, cost-plus-fixed-fee contract (N66001-18-D-0023) to provide continuing sustainment support of integrated afloat and ashore tactical networks. Work will be performed in San Diego, California, and globally aboard Navy ships and Department of Defense installations. This modification increases the estimated value of the contract from \$237,526,884 to \$251,841,884. The period of performance of the current contract is from July 3, 2018, to July 2, 2023. No funds will be obligated at the time of award. Funds to be obligated include other procurement (Navy); ship construction (Navy); and operation and maintenance (Navy). The Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

Custom Manufacturing & Engineering Inc., Pinellas Park, Florida, is awarded a \$9,054,378 firm-fixed-price modification to previously awarded contract N6339421C0006 for the manufacture, assembly, test, and delivery of Universal Canister Electronics Units (UCEU) and associated cables in support of the MK 57 Vertical Launch System. This modification exercises an option to acquire additional UCEU units and associated W2 and W3 cables. Work will be performed in Pinellas Park, Florida, and is expected to be completed by February 2024. Fiscal 2022 other procurement (Navy) funds in the amount of \$9,057,378 (100%) will be obligated at time of award and will not expire at the end of the current fiscal year. Naval Surface Warfare Center Port Hueneme Division, Port Hueneme, California, is the contracting activity.

September 15, 2022

Cape Environmental Management Inc., Norcross, Georgia (N62742-22-D-1815); EA Engineering, Science, and Technology Inc., Hunt Valley, Maryland (N62742-22-D-1816); Environmental Chemical Corp., Burlingame, California (N62742-22-D-1817); Engineering/Remediation Resources Group Inc., Honolulu, Hawaii (N62742-22-D-1818); Insight-ESI LLC, Brea, California (N62742-22-D-1819); and Noreas Dawson Environmental Remediation JV, Irvine, California (N62742-22-D-1820), are awarded a combined \$120,000,000 firm-fixed price, indefinite-delivery/indefinite-quantity, multiple award contract for environmental remedial action services for sites within the Naval Facilities Engineering Systems Command (NAVFAC) Pacific area of operations (AO). Each awardee will be awarded \$5,000 (minimum contract guarantee per awardee) at contract award. The maximum dollar value, including the base period

and seven option years, is \$120,000,000. Work will be performed at various sites within the NAVFAC Pacific AO to include, California (71%); Hawaii (15%); Guam (13%); and Nevada (1%), and is expected to be completed by September 2030. Work may also be performed outside of the NAVFAC Pacific AO, and include work for other Department of Defense or federal agencies, as required. Fiscal 2022 environmental restoration (Navy) funds in the amount of \$30,000 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management website, with seven offers received. NAVFAC Pacific, Joint Base Pearl Harbor-Hickam, Oahu, Hawaii, is the contracting activity.

Center for Disease Detection LLC, San Antonio, Texas, is awarded a \$55,806,150 indefinite-delivery/indefinite-quantity contract. Laboratory testing under this contract is broad in scope and encompasses a range of disciplines. It is Department of Defense (DOD) policy to deny eligibility for military service to persons with laboratory evidence of Human Immunodeficiency Virus (HIV), Hepatitis B, or Hepatitis C. As a result, all applicants for military service must be tested for the viruses prior to entry into military service. Additionally, it is DOD policy to periodically screen service members for HIV, Hepatitis B, and Hepatitis C. SECNAVINST 5300.30F outlines the management of these viruses within the Navy and Marine Corps and requires tracking of positive test results by the Navy Blood-borne Infection Management Center (NBIMC). NBIMC oversees the administration and aids in the development of policies concerning the HIV, Hepatitis B, and Hepatitis C screenings for the Department of the Navy (DON), as directed by the Navy Bureau of Medicine and Surgery (BUMED) for the Bureau of Personnel (BUPERS). To meet HIV, Hepatitis B, and Hepatitis C screening requirements, the Navy, Marine Corps, and Coast Guard require the testing of approximately 60,000 – 90,000 specimens per month from approximately 1,300 submitting activities worldwide, including remote facilities. Support for Coast Guard operations is provided through NBIMC and not directly from Naval Medical Readiness Logistics Command. DOD has incorporated the use of contractor personnel as part of its overall manpower strategy for healthcare related services. Policy decisions have reduced the overall size of the active duty medical force, and available pay grades limit the ability to attract and retain civil service personnel. The use of contract staff to supplement organic resources is a widespread private sector practice that is mirrored through this acquisition. One component of Naval Medical Logistics Command's (NMLC) mission is to meet customers' healthcare related service needs. NMLC has issued services contracts to acquire health care related services for more than 30 years and will use this approach to meet the needs of NBIMC. All work will be performed at submitting activities and is expected to be completed by Sept. 14, 2027. The base period of performance is awarded with fiscal 2022 operation and maintenance (Navy) funding in the amount of \$11,161,230 obligated at time of award, and will expire at the end of the current fiscal year. The balance of the task order will be incrementally funded under four option periods with operation and maintenance (Navy) funds. This contract was competitively procured via the System for Award Management website with one offer received. The Naval Medical Readiness Logistics Command, Fort Detrick, Maryland, is the contracting activity (N6264522D5008).

Delphinus Engineering Inc., Eddystone, Pennsylvania (N4523A22D0800); Neal Technical Innovations LLC, Daphne, Alabama (N4523A22D0801); Orbis Sibro Inc., Charleston, South Carolina (N4523A22D0802); Platypus Marine Inc., Port Angeles, Washington (N4523A22D0803); QED Systems Inc., Virginia Beach, Virginia (N4523A22D0804); Standard Inspection Services, San Diego, California (N4523A22D0805); Tecnico Corp., Chesapeake, Virginia (N4523A22D0806); and Transtecs Corp., Wichita, Kansas (N4523A22D0807), were awarded a combined \$42,373,864 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for trade shop support involving repair, maintenance, and alteration requirements in support of waterborne vessels, surface ships and submarines homeported at or visiting the Puget Sound, Washington. Each awardee will be awarded \$1,000 (minimum contract guarantee per awardee) at contract award. Work includes but is not limited to welding, fire watch, marine pipefitting, ship fitting, lead work, blasting, painting, sheet metal forming, shaping, cutting and stamping, electrical/electronic repairs and modernization, electrical/electronic alteration, pump/motor and mechanical systems repair, tank cleaning, general maintenance, rigging, plastic fabricating, woodworking and temporary scaffolding removal/installation. Work will be performed at Bremerton, Washington; Everett, Washington; Keyport, Washington; and Silverdale, Washington, according to individual delivery

orders as assigned and is expected to be completed by September 2027. Fiscal 2022 operation and maintenance (Navy) funding in the amount of \$8,000 will be obligated at the time of award and will expire at the end of the current fiscal year. All other funding will be made available at the delivery order level as contracting actions occur. This contract was competitively procured via the System for Award Management website, with eight offers received. In accordance with 10 U.S. Code 2304 (a) — this contract was a competitively procured Total Small Business Set Aside. The Puget Sound Naval Shipyard and Intermediate Maintenance Facility, Bremerton, Washington, is the contracting activity. Awarded September 14, 2022.

The Boeing Co., St. Louis, Missouri, is awarded a \$34,703,823 firm-fixed-price delivery order (N00383-22-F-YY0Y) under previously awarded basic ordering agreement N00383-22-G-YY01 for procurement of 57 each, processor, target Io, part of the Distributed Targeting Processor-Network system on the F/A-18E/F and E/A-18G aircrafts. The delivery order does not include an option period. All work will be performed in St. Louis, Missouri, and work is expected to be completed by December 2026. Fiscal 2022 working capital (Navy) funds in the full amount of \$34,703,823 are allocated and funds will not expire at the end of the current fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

Sikorsky Aircraft Corp., Stratford, Connecticut, is awarded a \$26,137,728 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract. This contract provides engineering technical field services in support of various fleet activities to inform, instruct, and train Navy and Marine Corps military and civilian personnel in the installation, operation, and maintenance of the H-60 and H-53 series aircraft, to include technical guidance and advice to resolve unusually complex technical problems. Work will be performed in Okinawa, Japan (14%); North Hanover, New Jersey (13%); Atsugi, Japan (12%); Rota, Spain (12%); San Diego, California (12%); Apra Harbor, Guam (10%); Jacksonville, Florida (6%); Havelock, North Carolina (6%); Jacksonville, North Carolina (6%); Kaneohe Bay, Hawaii (6%); and Stratford, Connecticut (3%), and is expected to be completed in September 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to 10 U.S. Code 2304 (c)(1). The Commander, Fleet Readiness Centers, Patuxent River, Maryland, is the contracting activity (N6852022D0004).

Systems Engineering Associates Corp., Middletown, Rhode Island, is awarded a \$24,522,689 cost-plus-fixed-fee contract for the Electromagnetic Maneuver Warfare Modular Suite (EMWMS). This contract provides for the development of EMWMS as a mobile, configurable experimental and operational unit geared towards specific EMW capabilities and missions. It will be suited for long-term use in a single location or for "roll-on/roll-off" deployable missions aboard manned and unmanned air, land and sea platforms. The EMWMS will be centered around a Container, Express (CONEX) box design focused on scalability, modularity, reliability, maintainability and security. The CONEX box infrastructure will also address space, weight and power requirements to support Intelligence, Surveillance and Reconnaissance (ISR)/Counter-ISR hotel service capabilities. Work will be performed in Middletown, Rhode Island (88.8%); Norfolk, Virginia (5.4%); McLean, Virginia (2.9%); Rochester, New York (1.6%); and Narragansett, Rhode Island (1.3%). Work is expected to be completed for the base period by May 18, 2023, and if all options are exercised, work will continue until Sept. 19, 2027. The contract also includes four 12-month option periods and one 4-month option period, which if exercised would increase cumulative contract value to \$79,033,482. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$4,271,536 are obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured under the Office of Naval Research Long Range Broad Agency Announcement (BAA) (N00014-21-S-B001). Since proposals are received throughout the year under the Long Range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-22-C-1070).

The Boeing Co., Seattle, Washington, is awarded a \$20,677,792 cost-plus-fixed-fee order (N0001922F1138) against a previously issued basic ordering agreement (N0001921G0006). This order provides for logistics management, product support analysis and integration, maintenance planning, technical data, support equipment maintenance, and engineering services in support of the P-8A aircraft for the Navy and the governments of Australia, Norway, and the United Kingdom. Work will be performed in Jacksonville, Florida (25%); Whidbey Island, Washington (15%); Sigonella, Italy (10%); Sheik Isa Airbase, Bahrain (10%); Kadena, Japan (10%); Kaneohe Bay, Hawaii (7.5%); Patuxent River, Maryland (7.5%); Keflavik, Iceland (7.5%); and Misawa, Japan (7.5%), and is expected to be completed in September, 2023. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$11,743,975; and fiscal 2020 aircraft procurement (Navy) funds in the amount of \$3,819,589 will be obligated at the time of award, all of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Black Construction/Mace International JV, Harmon, Guam, is awarded an \$18,028,631 firm-fixed-price task order (N4008422F4571) under previously-awarded design-build/design-bid-build, indefinite-delivery/indefinite-quantity, unrestricted multiple-award construction contract N40084-21-D-0079 for repairs to the synchro lift pier, Facility 458, at U.S. Navy Support Facility, Diego Garcia. The work to be performed provides for the demolition and replacement of deteriorated cleats, safety ladder, broken handrail, broken vessel lift timber carriage deck, deteriorated and missing timber fender pile remnants, and deteriorated or broken mooring dolphin chafing strips and mooring dolphin bollard. Work will be performed in Diego Garcia, British Indian Ocean Territory, and is expected to be completed by January 2024. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$18,028,631 will be obligated at time of award and will expire at the end of the current fiscal year. Three proposals were received for this task order. The Naval Facilities Engineering Systems Command, Far East, Yokosuka, Japan, is the contracting activity.

Safe Boats International LLC, Bremerton, Washington, is awarded a \$14,562,238 firm-fixed-price modification to previously awarded contract N00024-21-C-2201 for the procurement and installation of four Gun Weapon Systems onto Mark VI boats with spares and training. This contract action includes options which, if exercised, would bring the cumulative value of this contract action to \$92,320,737. Work will be performed in Tacoma, Washington, and is expected to be completed by January 2025. If all options are exercised, work will continue through September 2027. Foreign Military Sales (Ukraine) funds in the amount of \$14,562,238 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Bell Boeing Joint Program Office, Amarillo, Texas, is awarded a \$13,442,656 cost-plus-fixed-fee order (N0001922F2038) against a previously issued basic ordering agreement (N0001922G0002). This order provides engineering, management, technical, and acquisition support for the implementation and sustainment of V-22 capability defect packages for V-22 avionics and flight controls systems. Work will be performed in Ridley Park, Pennsylvania (92%); Fort Worth, Texas (6%); and St. Louis, Missouri (2%), and is expected to be completed in September 2026. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$10,142,524; and fiscal 2022 operation and maintenance (Air Force) funds in the amount of \$3,300,132 will be obligated at the time of award, all of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

KOAM Engineering Systems Inc., San Diego, California, is awarded a \$12,000,000 modification to a previously awarded, indefinite-delivery/indefinite-quantity, cost-plus-fixed-fee contract (N66001-18-D-0075) to provide continuing program management and engineering support services for the Naval Information Warfare Center Pacific's Network Integration Engineering Facility. Work will be performed in San Diego, California. The period of performance of the current option period is from April 16, 2021, to Sept. 26, 2023, and will not be extended by this modification. This modification increases the estimated value of the contract from \$149,253,232 to \$161,253,232. No funds will be obligated at the time of award.

Funds to be obligated include research, development, test and evaluation (Department of Defense); ship construction (Navy); operations and maintenance (DOD); other procurement (Navy and DOD); and working capital (Navy) funds. The Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

Compass Systems Inc., Lexington Park, Maryland, is awarded a \$9,999,915 modification (P00003) to a cost-plus-fixed-fee order (N6833522F0145) against a previously issued basic ordering agreement (N6833522G0012). This modification exercises options to provide continued development, testing, and evaluation of command, control, communications, computers, combat systems, intelligence, surveillance, and reconnaissance artificial intelligence/machine learning/augmented reality systems in support of Naval Air Warfare Center Aircraft Prototype System Division and continuation of the Small Business Innovation Research Phase III Topic N201-015 titled, "Autonomous and Intelligent Aircraft Maintenance Technologies". Work will be performed in Lexington Park, Maryland, and is expected to be completed in September 2023. Fiscal 2022 operation and maintenance (Department of Defense) funds in the amount of \$334,350; and fiscal 2022 working capital (Navy) funds in the amount of \$45,825 will be obligated at the time of award, \$334,350 of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

Textron Systems Corp., Hunt Valley, Maryland, is awarded a \$9,715,554 firm-fixed-price order (N0001922F2052) against a previously issued basic ordering agreement (N0001921G0008) to provide Unmanned aircraft systems intelligence, surveillance, and reconnaissance services for the Department of Defense, other government agencies, and domestic and Overseas Contingency Operations. Work will be performed on an undisclosed Expeditionary Sea Base vessel (80%); and in Hunt Valley, Maryland (20%), and is expected to be completed in February 2028. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$9,715,554 will be obligated at time of award, all of which will expire at the end of the fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

University of Maine System, acting through the University of Maine, Orono, Maine, is awarded a \$9,515,293 cost completion-type contract for composites for advanced maritime structures. This contract provides for building design and analysis tools to examine structural aspects of unmanned surface vehicles (USVs); examine the existing manufacturing equipment and define a path forward to support advanced manufacturing of USVs. The effort will also apply design tools to fabricate and test vessel structures; design, fabricate and test a scaled USV; design, fabricate and evaluate a large-scale USV using advanced manufacturing processes; and develop structures with hydrodynamic surfaces for tow tank model testing. Work will be performed in Orono, Maine and is expected to be completed by Sept. 14, 2025. The maximum dollar value, including a 36-month base period with no options, is \$9,515,293. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$9,515,293 are obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured under the Office of Naval Research long range broad agency announcement (BAA) for Navy and Marine Corps Science and Technology. Since proposals are received throughout the year under the long range BAA, the number of proposals received in response to the solicitation is unknown. Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-22-C-1086).

CAE USA Inc., Tampa, Florida, is awarded a \$9,368,022 firm-fixed-price contract. This contract provides for the Block Two modification and upgrade of two Undergraduate Military Flight Officer Multi-Crew Simulator (MCS) 2B51 devices, to include the following upgrades: all computational systems software to the latest cybersecurity compliant operation system; all computational systems hardware to increase life-cycle supportability; all application software and drivers to the latest version; all servers to the latest windows servers to meet cybersecurity requirements; communications system functionality to enhance student training; current Image Generator System to the latest version available to meet cybersecurity requirements; Offline Development Station/Virtual Simulator to a fully functioning Stand-alone Offline Development Station; two interconnected/dependent MCS trainers to be two fully independent trainers; as

well as correction of existing discrepancies in the system to increase fidelity; and development of technical documentation and training (instructor/operator and maintenance) to facilitate successful transitioning of the training devices to the post-delivery support phase. Work will be performed in Pensacola, Florida (75%); and Tampa, Florida (25%), and is expected to be completed in November 2024. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$9,368,022 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304 (c)(1). The Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity (N6134022C0003).

Tuckman-Barbee Construction Co., Inc., Upper Marlboro, Maryland, is awarded a \$9,159,650 firm-fixed-price construction task order (N4008022F4687) placed against contract number (N40080-21-D-0024) for design-build services at the U.S. Naval Academy, Annapolis, Maryland. The work to be performed provides for installation of a wave attenuator system and floating dock system at Santee Basin, deconstruction of the existing wave screen, and other incidental related work. Work will be performed in Annapolis, Maryland, and is expected to be completed by September 2024. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$9,159,650 will be obligated at time of award and will expire at the end of the current fiscal year. This task order was competitively procured via the Naval Facilities Engineering Systems Command (NAVFAC) Washington Blue small business multiple award construction contract, with six offers received. NAVFAC Washington, Public Works Department Annapolis, Annapolis, Maryland, is the contracting activity.

Electronic Warfare Associates (EWA) Government Systems Inc., Herndon, Virginia, is awarded an \$8,369,074 firm-fixed-price, cost-plus-fixed-fee, and cost modification to previously awarded contract (N00024-19-C-5601) to exercise options for Electronic Warfare Training Systems and support requirements. Work will be performed in Fairmont, West Virginia, and is expected to be completed by February 2024. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$935,004 (62%); fiscal 2021 research, development, test and evaluation funds in the amount of \$505,282 (34%); fiscal 2022 research, development, test and evaluation funds in the amount of \$43,717 (3%); and fiscal 2021 other procurement (Navy) funds in the amount of \$14,837 (1%) will be obligated at time of award, and funds in the amount of \$1,440,286 will expire at the end of the current fiscal year. The Naval Sea Systems Command (NAVSEA), Washington, D.C. is the contracting activity.

Federal Strategies LLC, Fredericksburg, Virginia, is awarded an \$8,077,276 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the Training and Education Command for Range and Training Area Management Branch military operations (MILOPS) data support. This contract provides for identifying and updating functionally obsolete, inadequate and unverified MILOPS Geographic Information System services data at nine bases/stations and five optional major installations listed below. Work will be performed at the following military operations mission areas for the bases/stations at Range Control, Marine Corps Air Ground Combat Center, Twentynine Palms, California (7.15%); Operations and Training Division, Marine Corps Base Hawaii, Hawaii (7.15%); Range Control, Marine Corps Camp Fuji, Japan (7.15%); Range Control, Marine Corps Mountain Warfare Training Center, Bridgeport, California (7.15%); Operations and Training Division, Marine Corps Air Station, Cherry Point, North Carolina (7.15%); Range Control, Townsend Bombing Range, Georgia (7.15%); Operations and Training Division, Marine Corps Air Station, Miramar, California (7.15%); Training Division, Marine Corps Logistics Base, Barstow, California (7.15%); Range Control, Marine Corps Camp Blaz, Guam (7.15%); and ancillary support to Range Operations Division, Marine Corps Base Camp Lejeune, Jacksonville, North Carolina (7.15%); Range Operations Division, Marine Corps Base Camp Pendleton, Oceanside, California (7.15%); Range Control, Marine Corps Base Quantico, Quantico, Virginia (7.15%); Range Operations Division, Marine Corps Base Camp Butler, Okinawa, Japan (7.1%); and Range Control, Marine Corps Air Station, Yuma, Arizona (7.1%), with an expected completion date of Sept. 14, 2027: The maximum dollar value, including the base period and five option periods, is \$8,077,276. Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$1,553,480 are obligated at time of award in the form of the first task order being placed against the contract. Contract funds in the amount of \$1,553,480 will expire at the end of the

current fiscal year. This contract was a competitive acquisition and while an unknown amount of offers were solicited, five offers were received. Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-22-D-7912).

Bell Boeing Joint Program Office, Amarillo, Texas, is awarded a \$7,710,426 firm-fixed-price order (N6134022F7006) against a previously issued basic ordering agreement (N0001922G0002). This order provides for V-22 Tactical System Software Suite 9.x software and hardware integration into 2F300 Flight Training Devices in support of compliance of training requirements and maintaining concurrency with fleet aircraft. Work will be performed in Clovis, New Mexico, and is expected to be completed in November 2024. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$7,710,426 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Training Systems Division, Orlando, Florida, is the contracting activity.

September 14, 2022

Insitu Inc., Bingen, Washington, is awarded a \$191,835,973 firm-fixed-price modification (P00002) to a previously awarded indefinite-delivery/indefinite-quantity contract (N0001922D0038). This modification adds scope to procure 13 RQ-21A Blackjack air vehicles, 25 ScanEagle air vehicles, 48 RQ-21A and ScanEagle payloads and turrets, support equipment, spares and sustainment spares and tools in support of RQ-21A Blackjack and ScanEagle unmanned aircraft platforms for the Navy, Marine Corps, and Foreign Military Sales customers. Work will be performed in Bingen, Washington (88%); and various locations outside the continental U.S. (12%), and is expected to be completed in June 2026. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air System Command, Patuxent River, Maryland, is the contracting activity.

Sauer Construction LLC, Jacksonville, Florida, is awarded a \$38,807,000 firm-fixed-price task order (N6945022F0843) under a multiple award construction contract (N69450-21-D-0061) to provide demolition, construction, and repair work associated with damage at Naval Air Station Pensacola, Florida. The work to be performed provides for replacing 13 damaged substations, repairing or replacing existing power poles, replacing manholes, hand holes, and underground circuits; replacing an existing direct-buried cable, portions of overhead power with underground circuits, and providing a new reinforced concrete duct back between two substations. The contract also contains three unexercised options, which if exercised, would increase the cumulative contract value to \$85,041,000. Work will be performed in Pensacola, Florida, and is expected to be completed by March 2025. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$38,807,000 are obligated on this award and will expire at the end of the current fiscal year. Two proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity.

Etolin Strait Partners LLC, Norfolk, Virginia, is awarded a \$30,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract to exercise Option Year Three for general construction services within the Naval Facilities Engineering Systems Command (NAVFAC) Washington area of operations. The total cumulative contract amount after exercise of this option will increase from \$90,000,000 to \$120,000,000. Work will be performed in, but is not limited to, Maryland (35%); Virginia (35%); and Washington, D.C. (30%). The option period of performance is from September 2022 to September 2023. No task orders are being issued at this time. Task orders will be primarily funded by fiscal 2023 military construction (Navy), and fiscal 2023 operation and maintenance (Navy) funds. NAVFAC Washington, Washington, D.C., is the contracting activity (N40080-19-D-0007).

Kiewit Infrastructure West Co., Honolulu, Hawaii, is awarded a \$27,465,700 firm-fixed-price task order (N6247822F4420) under a previously awarded contract (N62478-20-D-4004) to repair roads and erosion control at the Red Hill Bulk Fuel Storage Facility (RHBFSF), Hawaii. The work to be performed provides

for repairing roads along the north face of RHBFSF and installing an erosion control rock fall protection system near the entry control point along Lower Access Road. Work will be performed at Oahu, Hawaii, and is expected to be completed by June 2025. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$27,465,700 will be obligated at time of award, and will expire at the end of the current fiscal year. This contract was competitively procured via the Procurement Integrated Enterprise Environment website with six offers received. The Naval Facilities Engineering Systems Command, Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

September 13, 2022

Northrop Grumman Systems Corp., San Diego, California, is awarded a \$75,560,904 firm-fixed-price and cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract for the purchase of software maintenance and software technical and development support for the Command and Control Personal Computer and the Tactical Service Oriented Architecture systems. This contract contains an initial one-year ordering period with four one-year optional ordering periods with a maximum contract ceiling of \$75,560,904. Work will be performed in San Diego, California, with an expected completion date of September 2027 if all ordering periods are executed. The maximum dollar value for all five ordering periods is \$75,560,904. Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$4,924,224.44 will be obligated at the time of award and contract funds will expire at the end of the current fiscal year. Fiscal 2022 research, development, test, and evaluation funds in the amount of \$51,204.25 will be obligated at the time of award. This contract was competitively procured via the System for Award Management website, with one offer received. The Marine Corps System Command, Quantico, Virginia, is the contracting activity (M67854-22-D-2076).

Design Partners Inc., Honolulu, Hawaii, is awarded a \$49,000,000 indefinite-delivery/indefinite-quantity, architect-engineer (A-E) contract for A-E services for housing and other lodging-type projects at various locations in the Naval Facilities Engineering Systems Command (NAVFAC) Pacific area of operations (AO). The work to be performed provides for multi-discipline A-E services, but are not limited to, the execution and delivery of military construction project documentation; functional analysis concept development/design charrettes; final design construction documents; technical surveys and reports including site engineering investigation, topographic survey, geotechnical investigation, and hazardous material survey; munitions of explosive concern survey, cost and schedule risk analysis, and others; construction cost estimates; comprehensive interior design including structural interior design and furniture, fixtures, and equipment; collateral equipment buy packages; and post construction award services. Work will be performed within the NAVFAC Pacific AO, to include, but not limited to, Guam/Marianas (70%); Hawaii (20%); and Australia (10%). The term of the contract is not to exceed 60 months, with an expected completion date of September 2027. Fiscal 2022 military construction design funds in the amount of \$10,000 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management website with four proposals received. NAVFAC Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-22-D-0004).

Sauer Construction, Jacksonville, Florida, is awarded a \$20,677,000 firm-fixed-price contract for construction of a vehicle maintenance and storage facility at Marine Corps Base Camp Lejeune, North Carolina. The work to be performed provides for construction of a single-story, vehicle maintenance and storage facility, with shipping/receiving office and storage spaces. The contract also contains three unexercised planned modifications, which if exercised, would increase cumulative contract value to \$22,366,283. Work will be performed in Camp Lejeune, North Carolina, and is expected to be completed by June 2024. Fiscal 2018 and 2022 military construction (Navy) funds in the amount of \$20,677,000 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management website with four non-price proposals received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-22-C-0037).

Elbit America Inc., Fort Worth, Texas is awarded a \$12,622,704 delivery order (N00383-22-F-WY0U) under previously awarded basic ordering agreement N00383-20-G-WY01 for the procurement of large-area display in support of the F-18 aircraft. The delivery order does not include an option period. All work will be performed in Haifa, Israel, and is expected to be completed by September 2023. Aircraft procurement (Navy) funds in the full amount of \$12,622,704 will be obligated at the time of award, and funds will not expire at the end of the current fiscal year. One company was solicited for this non-competitive requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

The University of Delaware, Newark, Delaware, is awarded a \$9,821,100 cost-type contract for the Tailored Universal Feedstock for Forming (TuFF) thermoplastic composites for Navy Platforms: Phase 2. The contract provides for Phase 2 of an ongoing collaborative effort with Arkema and ATC Manufacturing to develop TuFF technologies specifically for IM7/PEKK (PolyEtherEtherKetone). TuFF is a short fiber composites technology that is more affordable and more amenable to process into complex parts. The material forms generated in Phase 2 efforts will be characterized to determine manufacturing process parameters for forming process design. In addition, the Phase 2 effort will focus on establishing program requirements for TuFF materials, performance and part geometries of interest to the Navy, the development and demonstration process, tooling methods, and the repeatability of the manufacturing process, mechanical properties and process scale-up. Work will be performed in Newark, Delaware (48%); King of Prussia, Pennsylvania (42%); Post Falls, Idaho (5%); and St. Louis, Missouri (5%). Work is expected to be completed by Sept. 14, 2025. The maximum dollar value of this contract is \$9,821,100. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$9,821,100 are obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured under N00014-22-S-B001 long range broad agency announcement (BAA) for Navy and Marine Corps Science and Technology dated Oct. 1, 2021. Since proposals are received throughout the year under the long range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-22-C-1072).

Swan Contracting, Peterborough, New Hampshire, is awarded a \$9,428,740 firm-fixed-price task order (N4008522F5879) under a multiple award construction contract (N40085-22-D-0026) for repairs to Pier 35 and demolition of Building 35 at Gould Island Naval Undersea Warfare Center, Rhode Island. The work to be performed provides for repairs to Pier 35 to restore capacity in order to safely demolish Building 35. Pier repairs include repairing the corrosion spalling on the underdeck and pile caps, jacketing of the steel pipe piles, and the addition of either two or four anodes on the steel piles. Building 35 demolition includes the contents of Building 35 and both the port and starboard elevators above their concrete encasement. Building 35 contents will be safely removed and the actual building will be deconstructed, and completely removed from Gould Island and disposed of at an appropriate facility. Work will be performed in Newport, Rhode Island, and is expected to be completed by 2024. Fiscal 2022 working capital (Department of Defense) funds in the amount of \$9,428,740 are obligated on this award, and will not expire at the end of the current fiscal year. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

September 12, 2022

L3 Technologies Inc., Camden, New Jersey, is awarded a \$32,006,539 firm-fixed-price modification to previously-award contract N00024-22-C-5218 to exercise options for Cooperative Engagement Capability system spares and signal data processors. Work will be performed in Lititz, Pennsylvania (55%); Salt Lake City, Utah (16%); Largo, Florida (15%); and Lancaster, Pennsylvania (14%), and is expected to be completed by April 2023. Fiscal 2022 working capital (Navy) funds in the amount of \$23,029,216 (71%); fiscal 2022 other procurement (Navy) funds in the amount of \$5,661,729 (18%), Foreign Military Sales

(Canada) funds in the amount of \$1,213,305 (4%), Foreign Military Sales (Japan) funds in the amount of \$1,213,305 (4%); and fiscal 2022 operations and maintenance (Navy) funds in the amount of \$888,984 (3%) will be obligated at time of award, of which funds in the amount of \$888,984 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

BME & Sons Inc., Mangilao, Guam, is awarded a \$14,732,505 firm-fixed-price task order (N4019222F4335) under a multiple award construction contract for repair and replacement of the existing water distribution lines at Andersen Air Force Base, Guam. The work to be performed provides for repair and replacement of the existing water distribution lines with new 12-inch waterline pipe along the east side of the airfield from the South and North Ramps. Work will be performed in Yigo, Guam, and is expected to be completed by January 2025. Fiscal 2022 operation and maintenance (Air Force) funds in the amount of \$14,732,505 will be obligated at time of award and will expire at the end of the current fiscal year. Six proposals were received for this task order. The Naval Facilities Engineering Systems Command, Marianas, Guam, is the contracting activity (N40192-22-D-2703).

Jacobs/B&V JV, Honolulu, Hawaii, is awarded a \$10,161,593 firm-fixed-price modification to previously awarded task order N6247822F4066 placed against basic contract N62478-20-D-5036. This modification provides for the preparation of a design-bid-build construction package consisting of full plans, specifications, detailed cost estimate, and other services for the Water Reclamation Facility at Marine Corps Base Hawaii, Hawaii. This award brings the total cumulative face value of the contract to \$11,147,425. Work will be performed in Oahu, Hawaii, and is expected to be completed by December 2025. Fiscal 2022 military construction (Navy); and fiscal 2022 military construction (Marine Corps) funds in the amount of \$10,161,593 will be obligated at time of award, and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

Champion Aerospace LLC, Liberty, South Carolina, is awarded a \$9,027,776 firm-fixed-price contract to procure 252 175 ampere (amp) Transformer Rectifier Unit (TRU) retrofit kits (240 for the F/A-18E/F fleet and EA-18G squadrons, and 12 for the EA-18G Growler capability modification operational test in support of upgrading the current 150 amp TRU to a 175 amp TRU). Work will be performed in Liberty, South Carolina, and is expected to be completed in December 2023. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$9,027,776 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922C0019).

Biscayne Contractors Inc., Alexandria, Virginia, is awarded an \$8,868,149 firm-fixed-price task order (N4008022F4780) under a multiple award construction contract for renovations to the first and second floors of Building 2855 at Naval Air Station Patuxent River, Maryland. The work to be performed provides for, but is not limited to, demolition and proper disposal of cove base, carpet squares, suspended acoustical ceiling system, drywall, doors, door jambs, insulation, metal studs, fluorescent light, light switch, outlets, electrical device covers plates, conduit as specified in the specifications, electrical/communication wire, electrical/communication boxes, motion detectors, heating, ventilation and air conditioning (HVAC) duct work, louvers and insulation. Removal, save and re-installation of fire alarm heads, annunciators, pull stations and light emitting diode (LED) exit lights. Fabricate, paint and install HVAC return air using plenum screens; install floor to ceiling metal stud walls: install and finish drywall with foil backing; install duct work security screen, duct work insulation, Z-duct, ductwork, duct work inspection door, door jambs, doors, door hardware, door closer, panic hardware, suspended acoustical ceiling system, conduit, wire, electrical boxes, dimmable light switches, LED dimmable lights, outlets, cover plates, pull rope, combination locks, and office and modular cubicle furniture. Work will be performed at Patuxent River, Maryland, and is expected to be completed by September 2023. Fiscal 2022 research, development, test, and evaluation (Navy) funds in the amount of \$8,868,149 are obligated

on this award and will not expire at the end of the current fiscal year. Five proposals were received for this task order. The Naval Facilities Engineering Systems Command, Washington, Public Works Department, Patuxent River, Maryland, is the contracting activity (N40080-21-D-0023).

September 9, 2022

Raytheon Missile and Defense, Tucson, Arizona, is awarded a \$39,293,592 firm-fixed-price modification to previously awarded contract N00024-22-C-5400 for fiscal 2022/2023 Navy, government of Germany, and Foreign Military Sales (FMS) procurements for Rolling Airframe Missile (RAM) Block 2/2B Guided Missile Round Pack, spare replacement components and recertification. This contract combines purchases for the Navy (4%); and the government of Japan (96%) under the FMS program. Work will be performed in Ottobrunn, Germany (50%); Tucson, Arizona (32%); Glenrothes Fife, Scotland (8%); Keyser, West Virginia (5%); Bedford, New Hampshire (2%); and various other locations each under 1% (3%), and is expected to be completed by January 2026. FMS (Japan) funds in the amount of \$37,709,452 (96%); fiscal 2022 operations and maintenance (Navy) funds in the amount of \$1,236,630 (3%); and fiscal 2022 weapons procurement (Navy) funds in the amount of \$347,510 (1%) will be obligated at the time of award, of which \$1,236,630 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-5400).

General Atomics, Aeronautical Systems Inc., Poway, California, is awarded a \$35,895,000 firm-fixed-price order (N0001922F2395) against a previously issued basic ordering agreement (N0001922G0006). This order procures spares necessary for the successful operational capability of the Marine Air Ground Task Force Unmanned Aircraft System Expeditionary Medium Altitude Long Endurance MQ-9A Block 5 Reaper air vehicles, ground control stations and ancillary equipment for the Navy. Work will be performed in Poway, California (52%); San Diego, California (15%); Walpole, Massachusetts (5.1%); Carlsbad, California (5%); St. Charles, Missouri (2.7%); El Cajon, California (2.5%); Oxnard, California (1.5%); Farmingdale, New York (1.3%); Herndon, Virginia (1.3%); Aurora, Ohio (1.05%); Ontario, California (1%); Nevada City, California (1%); Tulare, California (1%); Huntsville, Arkansas (1%); Miami, Florida (1%); Newberry, South Carolina (1%); Toronto, Canada (0.75%); and various locations within the continental U.S. (5.8%), and is expected to be completed in December 2026. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$35,895,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

L3Harris Technologies Inc., Clifton, New Jersey, is awarded a \$31,714,640 firm-fixed-price modification to previously awarded contract N0002421C5525 to exercise an option for MK 234 Nulka Advanced Decoy Architecture Program series payloads. Work will be performed in Clifton, New Jersey, and is expected to be completed by June 2025. Fiscal 2022 other procurement (Navy) funds in the amount of \$15,857,320 (50%); and fiscal 2022 other customer funds in the amount of \$15,857,320 (50%) will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Oceaneering International Inc., Hanover, Maryland, is awarded a \$27,357,473 cost-plus-fixed-fee modification to previously awarded contract N00024-20-C-4315 to exercise options for the continuation of the Navy's domestic and international submarine rescue program, Submarine Rescue Operations Maintenance Contractor. Work will be performed in San Diego, California, and is expected to be completed in September 2023. Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$9,658,009 (92%); fiscal 2022 other procurement (Navy) funds in the amount of \$528,429 (5%); and fiscal 2021 other procurement (Navy) funds in the amount of \$368,188 (3%) will be obligated at the time of award, of which, funds in the amount of \$9,658,009 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Systems Planning and Analysis Inc., Alexandria, Virginia, is awarded a \$16,835,956 cost-plus-fixed-fee contract action in support of engineering services for the Program Executive Office (PEO), Integrated Warfare Systems (IWS) 2.0 Above Water Sensors. Work will be performed at the Washington Navy Yard, Washington, D.C.; and Alexandria, Virginia. Work is expected to be completed on March 13, 2023. Fiscal 2022 other procurement (Navy); fiscal 2022 operations and maintenance (Navy); fiscal 2022 research, development, test and evaluation (Navy); and fiscal 2022 shipbuilding and conversion (Navy) in the amount of \$7,421,806 will be obligated at time of award. This contract was not competitively procured and is in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Surface Warfare Center, Crane Division, Indiana, is the contracting activity (N00164-22-C-B006).

Northrop Grumman Systems Corp., Charlottesville, Virginia, is awarded a \$13,112,512 cost-plus-fixed fee and cost-only modification to previously awarded contract N0002418C5216 for additional engineering hours in support of continued Navy Electronic Chart Display and Information System software support. Work will be performed in Charlottesville, Virginia, and is expected to be completed by September 2024. Fiscal 2022 other procurement (Navy) funds in the amount of \$2,885,000 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Tactical Engineering & Analysis Inc., San Diego, California, is awarded an \$8,678,958 indefinite-delivery/indefinite-quantity, cost-plus-fixed-fee, multiple award modification to previously awarded task order N00178-19-D-8638 / N66001-20-F-3503 for engineering services. These services will provide software support activity engineering services for the Command and Control Processor Mod system. Work will be performed in San Diego, California (100%), and is expected to be complete by September 2023. No funds will be obligated at the time of award. Funds will be obligated as incremental funding modifications are issued using research, development, test and evaluation (Navy); operations and maintenance (Navy); other procurement (Navy); shipbuilding construction (Navy); and working capital (Navy) funds. The Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

September 8, 2022

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is awarded a \$54,009,718 cost-plus-incentive-fee modification to previously awarded contract N00024-18-C-6258 to exercise options for engineering services and other direct costs in support of the Integrated Submarine Imaging System. Work will be performed in Manassas, Virginia (74%); Virginia Beach, Virginia (15%); Northampton, Massachusetts (5%); Fairfax, Virginia (3%); Arlington, Virginia (2%); and Waterford, Connecticut (1%), and is expected to be completed by September 2023. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$3,201,969 (22%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$3,128,918 (22%); fiscal 2022 other procurement (Navy) funds in the amount of \$2,151,482 (15%); fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$1,892,000 (14%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$1,751,472 (12%); fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$1,453,000 (10%); and fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$716,893 (5%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Jade Creek Construction LLC, Herndon, Virginia, is awarded a not-to-exceed \$49,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides for various construction projects, multi-traded maintenance, repair, alteration, renovation, and minor construction to include heating, ventilation, and air conditioning, roof system, siding, window and door, and subfloor system repair or replacement, total interior renovations to include carpet, drywall, electric upgrades, plumbing and

drop ceilings, utilities upgrade, repair or replacement, ground work, grading, clearing, and storm water management as required for the Naval Air Warfare Aviation Division. Work will be performed in Patuxent River, Maryland (80%); and St. Inigoes, Maryland (20%), and is expected to be completed in September 2025. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-5(b)(4). The Naval Air Warfare Aviation Division, Patuxent River, Maryland, is the contracting activity (N0042122D0103).

CH2M Hill Constructors Inc., Greenwood Village, Colorado, is awarded a \$29,721,066 firm-fixed-price task order (N3319122F4371) under previously awarded global contingency multiple award construction contract N62470-19-D-8024 for renovations to Joint Intelligence Center, Building 639, at Naval Air Station Sigonella, Italy. The work to be performed provides for reconfiguring and renovating both the ground and first floors to provide a modern, contiguous secure working area for Commander, Task Force 67 operations. Work will be performed at Sigonella, Italy, and is expected to be completed by August 2024. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$29,721,066 will be obligated at time of award, and will expire at the end of the current fiscal year. One proposal was received. The Naval Facilities Engineering Systems Command, Europe Africa Central, Naples, Italy, is the contracting activity.

Raytheon Co., El Segundo, California, is awarded a \$23,000,829 ceiling-priced delivery order (N00383-22-F-UX03) under previously awarded basic ordering agreement N00383-19-G-UX01 for the procurement of 46 items that are part of the active electronically scanned array AN/APG-79(V)4 radars installed in USMC F/A-18C/D aircraft. The delivery order does not include an option period. All work will be performed in El Segundo, California, and is expected to be completed by December 2024. Working capital (Navy) funds in the amount of \$17,250,622 will be obligated at the time of award, and funds will not expire at the end of the current fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

Raytheon Co., McKinney, Texas, is awarded a \$17,405,134 ceiling-priced delivery order (N00383-22-F-VW06) under previously awarded basic ordering agreement N00383-20-G-VW01 for the purchase of interconnecting box (roll drive units) and aircraft pod (pod electronic housing) in support of the AN/ASQ-228 advanced targeting forward-looking infrared. The delivery order does not include an option period. Work will be performed in Basildon, Essex, England (80%); and McKinney, Texas (20%). Work is expected to be completed by December 2025. Working capital (Navy) funds in the amount of \$10,943,430 will be obligated at the time of award, and funds will not expire at the end of the current fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 2304 (a)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

Aktarius LLC, doing business as Dawson AKT, Panama City, Florida, was awarded a \$13,125,231 indefinite-delivery/indefinite-quantity contract for air conditioning equipment and direct digital control (DDC) systems maintenance and repairs at various locations in Oahu, Hawaii. The work to be performed provides for maintenance, repair, alteration, demolition and minor construction for building and structures; structural components; tanks; pipelines; building systems; chemical-free cooling towers; closed circuit coolers serving low pressure/high pressure air compressors; cooling towers and chillers; DDC systems; heating, ventilation and air conditioning (HVAC) systems, sub-systems, and sub-systems components; preventive maintenance program; and water analysis and treatment services for HVAC systems and cooling towers. The contract also contains four unexercised options which, if exercised, would increase cumulative contract value to \$69,572,573. Work will be performed in Oahu, Hawaii, and is expected to be completed by October 2027. No funds will be obligated at time of award. Fiscal 2023 operation and maintenance (Navy); fiscal 2023 operation and maintenance (Marine Corps); and fiscal 2023 working

capital (Navy) funds in the amount of \$8,474,231 for recurring work will be obligated on individual task orders during the base period and will expire at the end of fiscal 2023. This contract was competitively procured as an 8(a) set-aside via the System for Award Management website with two offers received. The Naval Facilities Engineering Systems Command, Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62478-22-D-2402). (Awarded Sept. 6, 2022)

Central Environmental Inc., Anchorage, Alaska, is awarded a \$10,995,252 firm-fixed-price task order (N6247322F5047) to upgrade the filter gallery effluent system at Naval Air Station Lemoore, California. The work to be performed provides for making improvements that add a filter-to-waste piping system, a dedicated backwash system, and replacing all piping, valves, equipment, and instrumentation within the system. The maximum dollar value is \$10,995,252. Work will be performed at Lemoore, California, and is expected to be completed by June 2024. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$10,995,252 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the Procurement Integrated Enterprise Environment website with three offers received. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-19-D-1207).

Raytheon Co., El Segundo, California, is awarded a \$9,050,265 firm-fixed-price delivery order (N00383-22-F-UX05) under previously awarded basic ordering agreement N00383-19-G-UX01 for the procurement of nine active electronically scanned array radar system APG-79 weapon repairable assemblies in support of the F/A-18 aircraft. All work will be performed in Forest, Mississippi. This contract contains no options and work is expected to begin October 2022 and be completed by January 2024. Annual working capital (Navy) funds in the full amount of \$9,050,265 will be obligated at the time of award and funds will not expire at the end of the current fiscal year. One firm was solicited for this sole-source requirement under authority 10 U.S. Code 3204 (a)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

September 7, 2022

Utah State University Space Dynamics Laboratory, North Logan, Utah, is awarded a \$75,000,000 indefinite-delivery/indefinite-quantity contract (N00173-22-D-2005) and a cost-plus-fixed-fee task order (N00173-22-F-2026) for research and development in advanced sensor processing, exploitation, and network technologies. The contract includes options, which if exercised, would bring the cumulative value of this contract to \$150,000,000. Work on the task order will be performed in North Logan, Utah (90%); and the U.S. Naval Research Laboratory in Washington, D.C. (10%), and is expected to be completed by September 2024. Fiscal 2022 research, development, test, and evaluation (Navy) funds in the amount of \$100,000 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured. The U.S. Naval Research Laboratory, Washington, D.C., is the contracting activity.

Raytheon Co., Indianapolis, Indiana, is awarded a \$37,670,520 ceiling-priced delivery order (N00383-22-F-N702) under previously awarded basic ordering agreement N00383-18-G-N701 for the repair of APG-65/73 radar systems in support of the F/A-18 aircraft. The delivery order does not include an option period. All work will be performed in Indianapolis, Indiana, and work is expected to be completed by October 2024. Working capital funds (Navy) in the amount of \$28,252,890 will be obligated at the time of award and funds will not expire at the end of the current fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 2304 (a)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

Peraton Inc., Herndon, Virginia, is awarded a \$32,066,020 firm-fixed-price, indefinite-delivery/indefinite-quantity contract to provide support services to manage, maintain, and enhance the Law Enforcement Information Exchange (LInX) and Department of Defense Law Enforcement Defense Data Exchange (D-DEX/LInX) systems for the Naval Criminal Investigative Service. The contract will include a 60-month ordering period. Work will be performed in Herndon, Virginia (96%); and various government facilities throughout the U.S. (4%) that cannot be determined at this time. The ordering period of the contract is expected to be completed by September 2027. Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$10,000 will be obligated to fund the contract's minimum amount and funds will expire at the end of the current fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. This contract was posted as a full and open competitive solicitation to Navy Electronic Commerce Online and the System for Award Management website, with seven offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department Philadelphia Office, Philadelphia, Pennsylvania, is the contracting activity (N00189-22-D-Z036).

BAE Systems Land & Armaments L.P., Minneapolis, Minnesota, is awarded a \$25,700,000 firm-fixed-price modification to previously awarded contract N00024-20-C-5300 to procure three additional 57mm MK 110 Mod 0 gun mounts and associated hardware. Work will be performed in Karlskoga, Sweden (76%); and Louisville, Kentucky (24%), and is expected to be completed by May 2024. Fiscal 2022 weapons procurement (Navy) funds in the amount of \$17,086,572 (66%); and fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$8,613,428 (34%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Alloy Surfaces Co. Inc., Chester Township, Pennsylvania, is awarded a \$15,233,640 firm-fixed-price contract modification (P00001) with a provision for an option quantity of up to 125%, under previously awarded contract N00104-22-C-K077 to exercise the option period to manufacture of MJU-64/B and MJU-66/B aircraft decoy flares. The contract included a base ordering period with an additional option ordering period. Exercising this option will bring the total estimated value of the contract to \$28,260,735. All work will be performed in Chester Township, Pennsylvania, and ordering will be completed by late September 2022. This effort involves funding under the Foreign Military Sales program. Funding for MJU-64/B will combine funds from special defense acquisition funds (42%); United Kingdom (18%); Netherlands (11%); procurement of aircraft (Air Force) funds (10%); Poland (7.6%); Switzerland (7%); procurement of ammunition (Navy and Marine Corps) funds (2%); Morocco (1%); Italy (1%); and Denmark (0.4%), while funding for MJU-66/B will combine funds from Australia (79%); special defense acquisition funds (16%); Norway (4%); and Italy (1%). These combined funds in the full amount of \$15,233,640 will be obligated at time of award. Funds will not expire at the end of the current fiscal year. This was a fully competitive requirement, with one offer received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity.

Alberici-Mortenson JV, St. Louis, Missouri, is awarded a \$12,969,452 firm-fixed-price modification to previously awarded contract N69450-20-C-0016. This modification provides for the recapitalization of the dry dock at Naval Submarine Base Kings Bay, Georgia. Work will be performed in St. Marys, Georgia, and is expected to be completed by April 2023. This modification brings the total cumulative value of the contract to \$625,470,806. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$12,969,452 will be obligated at time of award. Previous year funds were received in support of this in-scope modification executed due to unforeseen conditions in accordance with Defense Federal Acquisition Regulation 52.236-2 on a sole source basis, with one offer received. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity.

Raytheon Co., McKinney, Texas, is awarded an \$11,163,301 firm-fixed-priced delivery order (N00383-22-F-VW07) under previously awarded basic ordering agreement N00383-20-G-VW01 for the repair of

interconnecting box (roll drive units) and aircraft pod (pod electronic housing) components in support of the AN/ASQ-228 Advanced Targeting Forward-Looking Infrared. The delivery order does not include an option period. Work for the interconnecting box will be performed in Basildon, Essex, England (80%); and McKinney, Texas (20%). Work for the aircraft pod will be performed in Basildon, Essex, England (80%); Jacksonville, Florida (15%); and McKinney, Texas (5%). Work is expected to be completed by December 2025. Working capital funds (Navy) in the full amount \$11,163,301 will be obligated at the time of award and funds will not expire at the end of the current fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded an \$8,047,842 firm-fixed-price modification (P00001) to an order (N6134022F7003) against a previously issued basic ordering agreement (N0001921G0006). This modification exercises an option to provide cyber security services to support the physical security of the P-8 aircrew trainers and facilities, including cyber scanning and remediation, cyber security updates, and scheduled and unscheduled maintenance for the Navy. Work will be performed in St. Louis, Missouri (50%); and Huntington Beach, California (50%), and is expected to be completed in September 2023. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$8,047,842 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity.

September 6, 2022

L3Harris Corp., Millersville, Maryland, is awarded a \$45,837,976 fixed-priced-incentive-fee, cost-plus-fixed-fee, and cost-only modification to previously awarded contract N00024-16-C-6251 to establish and exercise an option for navy equipment, components, engineering services, and other direct costs. This modification includes additional options which, if exercised, would bring the cumulative value of this contract action to \$104,468,052. Work will be performed in Millersville, Maryland (57%); Liverpool, New York, (40%); and Ashaway, Rhode Island (3%), and is expected to be completed by July 2025. If all options are exercised, work will continue through September 2026. Fiscal 2022 other procurement (Navy) funds in the amount of \$36,468,124.00 (80%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$6,246,568 (13%); and fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$3,123,284 (7%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Southeast GeoSpatial JV, Jacksonville, Florida, is awarded a \$45,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for architect-engineer services for geographic information systems (GIS) and professional surveying and mapping within the Naval Facilities Engineering Systems Command (NAVFAC) Southeast (SE) area of operations (AO). The work to be performed provides for, but is not limited to, primarily GIS, which may include geospatial data collection and development, geospatial systems and applications development and implementation, and development of documentation and training material. The maximum dollar value for a five-year period is \$45,000,000. Work will be performed at various locations within the NAVFAC SE AO, with an expected completion date of September 2027. No funds will be obligated at time of award. Funds will be obligated on individual task orders using operation and maintenance (Navy) funds as they are issued. This contract was a competitive acquisition via the System for Award Management and 10 offers were received. NAVFAC SE, Jacksonville, Florida, is the contracting activity (N69450-22-D-0053).

RQ Construction LLC, Carlsbad, California, is awarded a \$31,345,000 firm-fixed-price task order (N6945022F0885) under a multiple award construction contract for construction of a new fitness training facility at Naval Air Station Pensacola, Florida. The work provides for the construction of a fitness training facility consisting of individual and group fitness areas, a gymnasium for team events, and a military

obstacle course for Naval Air Technical Training Center students. This project replaces two facilities damaged by Hurricane Sally, and consolidates mission requirements into a single, new facility. The contract also contains two unexercised options, which if exercised would increase the cumulative contract value to \$32,106,744. Work will be performed in Pensacola, Florida, and is expected to be completed by June 2025. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$31,345,000 are obligated on this award and will expire at the end of the current fiscal year. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity (N69450-21-D-0060).

Conrad Shipyard LLC, Morgan City, Louisiana, is awarded a \$17,297,440 firm-fixed-price modification to previously-awarded contract N00024-22-C-2253 for the detail, design, and construction of one additional Yard, Repair, Berthing, and Messing craft. Work will be performed in Amelia, Louisiana, and is expected to be completed by September 2024. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$17,297,440 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Vectrus System Corp., Colorado Springs, Colorado, is awarded a \$15,776,902 firm-fixed-price task order (N6274222F2023) for continued operation of the 5-million-gallon per-day (5MGD) granular activated carbon (GAC) filtration system at the Red Hill Bulk Fuel Storage Facility, Hawaii. The work to be performed provides for, but is not limited to, supporting the remediation of the Red Hill Aquifer by continuing to operate the 5MGD, GAC filtration system. The maximum dollar value is \$15,776,902. Work will be performed in O'ahu, Hawaii, and is expected to be completed by September 2023. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$15,776,902 will be obligated at time of award, and will expire at the end of the current fiscal year. This contract was not competitively procured, and will be awarded on a new task under the current contract. 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Facilities Engineering Systems Command, Pacific, Pearl Harbor, Hawaii, is the contracting activity (N62742-16-D-3552).

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded an \$8,183,124 modification (P00072) to a previously awarded cost-plus-incentive-fee contract (N0001912C0070). This modification adds scope to provide engineering tool studies; weapons load trainer support, wind tunnel test and analysis support, weapons certification and data release, and engineering project office support for the government of Israel's F-35 program. Work will be performed in Fort Worth, Texas (72%); Nevatim, Israel (20%); Tel Nof, Israel (4%); Feltham, United Kingdom (3%); and Tel Aviv, Israel (1%), and is expected to be completed in September 2024. Foreign Military Sales customer funds in the amount of \$8,183,124 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

September 2, 2022

Lockheed Martin, Rotary and Mission Systems, Moorestown, New Jersey, is awarded a \$17,597,325 cost-plus-incentive-fee modification to previously awarded contract N00024-15-C-5151 to exercise options for ship integration and test of the Aegis Weapon System (AWS) for AWS baselines through Advanced Capability Build (ACB) 16. Work will be performed in Moorestown, New Jersey (49%); Norfolk, Virginia (15%); San Diego, California (8%); Washington, D.C. (7%); Pascagoula, Mississippi (6%); Mayport, Florida (4%); Bath, Maine (3%); and various places each below one percent (8%), and is expected to be completed by May 2023. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$4,370,485 (73%); and fiscal 2016 shipbuilding and conversion (Navy) funds in the amount of \$1,578,087 (27%) will be obligated at time of award, of which \$4,370,485 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Kinetic Protection LLC, Stillwater, Minnesota, is awarded a \$16,273,005 firm-fixed-price contract for advanced ballistic shields. This contract will procure lateral and center panel assemblies to provide advanced ballistic shielding for crew-manned weapon stations on nuclear aircraft carriers. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$22,977,537. Work will be performed in Bloomington, Minnesota, and is expected to be completed by September 2024. Fiscal 2021 weapons procurement (Navy) funds in the amount of \$16,273,005 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(5) — authorized by statute. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-5350).

CCI Group, LLC, Shalimar, Florida, is awarded a \$11,634,115 firm-fixed-price task order (N6945022F0834) under a multiple award construction contract to provide storm damage repairs to Buildings 3725, 3745, and 2268 at Naval Air Station Pensacola, Florida. The work to be performed provides for extensive repairs as part of Hurricane Sally Recovery Package 8, to include interior and exterior components, roofing, plumbing, heating, ventilation, and air conditioning, fire protection systems, and electrical system components. The contract also contains one unexercised option, which if exercised, would increase the cumulative contract value to \$27,808,930. Work will be performed in Pensacola, Florida, and is expected to be completed by September 2024. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$11,634,115 are obligated on this award and will expire at the end of the current fiscal year. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity (N69450-19-D-0917).

Austal USA, Mobile, Alabama, was awarded an \$11,424,232 cost-plus-fixed-fee and cost-only modification to previously awarded contract N00024-17-C-2301 to exercise an option for littoral combat ship (LCS) industrial post-delivery availability support for USS Augusta (LCS 34). Work will be performed in Mobile, Alabama (90%); and Pittsfield, Massachusetts (10%), and is expected to be completed by September 2023. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$6,000,000 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded August 31, 2022)

September 1, 2022

Sikorsky Aircraft Corp., a Lockheed Martin Co., Stratford, Connecticut, is awarded a \$39,920,367 firm-fixed-price modification (P00001) to an order (N0001922F2491) against a previously issued basic ordering agreement (N0001919G0029). This modification adds scope to provide production and installation of a VH-92A Flight Training Device (FTD) and updates to a previously delivered VH-92A FTD for the Marine Corps. Work will be performed in Binghamton, New York (49%); Orlando, Florida (17%); Stratford, Connecticut (13%); Sterling, Virginia (10%); Quantico, Virginia (8%); Salt Lake City, Utah (1.5%); and various locations within the continental U.S. (1.5%), and is expected to be completed in March 2024. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$8,869,507; and fiscal 2020 aircraft procurement (Navy) funds in the amount of \$31,050,860 will be obligated at the time of award, \$31,050,860 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

RQ Construction, Carlsbad, California, is awarded a \$23,211,000 firm-fixed-price task order (N6247322F4995) for the construction of a structural and aircraft rescue fire station at Naval Air Facility El Centro, California. The work to be performed provides for, but is not limited to, construction of a structural and aircraft rescue fire station that will include an apparatus highbay with apparatus support spaces. Primary facilities include fire extinguisher inspection station and maintenance area, a residential area with day room, kitchen/dining, dorm rooms, laundry, fitness and recreation rooms as well as training and administration spaces. Site preparation includes site earthwork, demolition, relocations and paving. The task order also contains 20 unexercised options, which if exercised would increase cumulative contract

value to \$24,094,100. Work will be performed at El Centro, California, and is expected to be completed by November 2024. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$23,211,000 will be obligated at time of award, and will expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management website, with six offers received. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-21-D-1211).

Rockwell Collins Inc., Cedar Rapids, Iowa, is awarded a \$19,652,381 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract procures 76 aircraft direction finders, 152 radio turner panels and 228 high frequency radios, as well as technical data and data support for P-8A aircraft production Lots 12, 13 and 14. Work will be performed in Cedar Rapids, Iowa (95%); and Thiais Cedex, France (5%), and is expected to be completed in August 2025. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-4. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N6833522D0035).

KOAM Engineering Services Inc., San Diego, California, is awarded a \$17,251,959 indefinite-delivery/indefinite-quantity, cost-plus-fixed-fee, multiple award modification to previously awarded contract N66001-18-D-0391 for analysis and test engineering services. These services will provide research, development, test and evaluation services for command, control, communications, computers, cyber and intelligence, surveillance and reconnaissance systems and combat direction systems. Work will be performed in San Diego (100%), and is expected to be complete by September 2023. All awardees will have the opportunity to compete for task orders during the ordering period. No funds will be obligated at the time of award. Funds will be obligated as task orders are issued using research, development, test and evaluation (Navy); operations and maintenance (Navy); other procurement (Navy); shipbuilding construction (Navy); and working capital (Navy) funds. The Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

Highbury Defense Group Inc., San Diego, California, is awarded a \$17,188,575 indefinite-delivery/indefinite-quantity, cost-plus-fixed-fee, multiple award modification to previously awarded contract N66001-18-D-0390 for analysis and test engineering services. These services will provide research, development, test and evaluation services for command, control, communications, computers, cyber and intelligence, surveillance and reconnaissance systems and combat direction systems. Work will be performed in San Diego, California (100%), and is expected to be complete by September 2023. All awardees will have the opportunity to compete for task orders during the ordering period. No funds will be obligated at the time of award. Funds will be obligated as task orders are issued using research, development, test and evaluation (Navy); operations and maintenance (Navy); other procurement (Navy); shipbuilding construction (Navy); and working capital (Navy) funds. The Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

Shimabukuro, Endo and Yoshizaki Inc., doing business as SEY Engineers, Honolulu, Hawaii, is awarded a \$15,000,000 firm-fixed price, indefinite-delivery/indefinite-quantity, architect-engineering contract for various civil engineering projects and related projects at various locations under the Naval Facilities Engineering Systems Command (NAVFAC) Hawaii area of operations (AO). The work to be performed provides for the replacement of a 12-inch waterline near O'Malley Gate, Joint Base Pearl Harbor-Hickam, Hawaii. The maximum dollar value, including the base period and four option years, is \$15,000,000. Work will be performed within the NAVFAC Hawaii AO, to include Hawaii (100%), and is expected to be completed by September 2027. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$619,051 will be obligated at time of award, and will expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management website, with five offers received. NAVFAC Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62478-22-D-5040).

August 31, 2022

CTC Enterprise Ventures Corp., Johnstown, Pennsylvania, is awarded \$18,733,225 for ceiling-priced delivery order N00383-22-F-ZB0A under previously awarded basic ordering agreement N00383-22-G-ZB01 for the acquisition of nine spare hydraulic winches used on the H-60 aircraft. All work will be performed in Johnstown, Pennsylvania, and is expected to be completed by August 2025, with no option periods. Fiscal 2022 working capital (Navy) funds in the amount of \$9,179,280 will be obligated at the time of award, and will not expire at the end of the current fiscal year. One company was solicited for this sole-source requirement pursuant to the authority set forth in 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

Lake Assault Boats LLC, Superior, Wisconsin, is awarded a \$17,346,989 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for naval facilities Oil Spill Response Oil Pollution Skimmer boats. Work will be performed in Superior, Wisconsin, and is expected to be completed by September 2023. Fiscal 2022 other procurement (Navy) funds in the amount of \$1,163,563 for the first delivery order will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured through the System for Award Management website, with one offer received. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-D-2287).

Alloy Surfaces Co. Inc., Chester Township, Pennsylvania, is awarded a \$13,027,095 firm-fixed-price contract to manufacture of MJU-64/B and MJU-66/B aircraft decoy flares. The contract will include a base ordering period with an additional option-ordering period which if exercised, will bring the total estimated value to \$29,310,966. All work will be performed in Chester Township, Pennsylvania, and ordering is expected to be completed by September 2022; if the option is exercised, ordering will be completed by late September 2022. This effort involves funding under the Foreign Military Sales (FMS) program. Funding for the MJU-64/B combines purchases with procurement of ammunition (Navy and Marine Corps) funds (86%); and FMS (Japan) funds (14%), while funding for the MJU-66/B combines procurement of ammunition (Air Force) funds (85%); and procurement of ammunition (Navy and Marine Corps) funds (15%). These combined funds in the full amount of \$13,027,095 will be obligated at time of award. Funds will not expire at the end of the current fiscal year. If the option is exercised, funding for MJU-64/B will combine funds from the Special Defense Acquisition Fund (42%); United Kingdom (18%); Netherlands (11%); procurement of aircraft (Air Force) funds (10%); Poland (7.6%); Switzerland (7%); procurement of ammunition (Navy and Marine Corps) funds (2%); Morocco (1%); Italy (1%); and Denmark (0.4%), while funding for MJU-66/B will combine funds from Australia (79%); the Special Defense Acquisition Fund (16%); Norway (4%); and Italy (1%). This was a fully competitive requirement, with one offer received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity (N00104-22-C-K077).

August 30, 2022

Kilgore Flares Co. LLC, doing business as Chemring Countermeasures, Toone, Tennessee (N00104-22-D-ZU01); and Armtec Countermeasures Co., Coachella, California (N00104-22-D-ZV01), are awarded a \$225,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple award contract to manufacture of MJU-61A/B infrared flare countermeasures. This contract includes a five-year ordering period with no options. Work will be performed in Toone, Tennessee (60%); and Coachella, California (40%) for the first delivery order. Percentage for remainder of contract cannot be determined at this time. Work is expected to be completed by August 2027. Delivery orders will be awarded concurrently with the contracts. Procurement of ammunition (Air Force) funds in the amount of \$9,789,120 will be obligated to Kilgore Flares Co. LLC under delivery order N00104-22-F-ZU01. Foreign Military Sales (FMS) funds (55%); and procurement of ammunition (Air Force) funds (45%) in the amount \$5,924,640 will be obligated to Armtec Countermeasures Co. (N00104-22-F-ZV01). This effort combines purchases for

Korea (34%); Denmark (14%); Japan (5%); Netherlands (1%); and Italy (1%) under the FMS program. Funds will not expire at the end of the current fiscal year. This was a fully competitive requirement, with two offers received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity.

General Dynamics Mission Systems, Pittsfield, Massachusetts, is awarded a \$43,957,454 cost-plus-incentive-fee and cost-only modification to previously-awarded contract N00024-20-C-5603 to exercise options for the sustainment of the littoral combat ship Integrated Combat Management System and associated combat system elements. Work will be performed in Pittsfield, Massachusetts (85%); San Diego, California (14%); and Mobile, Alabama (1%), and is expected to be completed by August 2023. Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$1,000,000 (65%); and fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$550,022 (35%) will be obligated at time of award, and funds in the amount of \$1,550,022 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Sikorsky, a Lockheed Martin Co., Stratford, Connecticut, is awarded a \$36,404,277 firm-fixed-price order (N0001922F2122) against a previously issued basic ordering agreement (N0001919G0029). This order procures spare parts and provides repair and maintenance support for the Lot 6 CH-53K low rate initial production configuration aircraft. Work will be performed in Stratford, Connecticut (24.21%); Windsor Locks, Connecticut (12.08%); Quebec, Canada (11.31%); Redmond, Washington (5.38%); Vancouver, Washington (4.70%); Cedar Rapids, Iowa (3.15%); Niles, Illinois (2.73%); Charlotte, North Carolina (2.64%); Sarasota, Florida (2.42%); Tucson, Arizona (2.28%); Chesterfield, Missouri (2.07%); Cary, North Carolina (1.86%); Westbury, New York (1.71%); Jackson, Mississippi (1.63%); Springfield, New Jersey (1.41%); Vergennes, Vermont (1.30%); Waltham, Massachusetts (1.25%); Bridgeport, West Virginia (1.24%); San Fernando, California (1.10%); and various locations within the continental U.S. (15.53%), and is expected to be completed in December 2025. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$36,404,277 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Raytheon Co., Tucson, Arizona, is awarded a \$32,114,622 firm-fixed-price modification to previously awarded contract N0002418C5407 for procurement of fiscal 2022 Standard Missile depot and intermediate-level provisioned items ordered spares. Work will be performed in Tucson, Arizona, and is expected to be completed by April 2025. Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$32,114,622 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

BAE Systems Jacksonville Ship Repair LLC, Jacksonville, Florida, was awarded a \$25,382,507 cost-plus-award-fee modification to exercise an option to previously awarded contract N00024-20-C-2320 for the accomplishment of a post shakedown availability (PSA). The PSA is for one Freedom variant littoral combat ship (LCS 23). Work will be performed in Mayport, Florida, and is expected to be completed by March 2024. Fiscal 2022 shipbuilding and conversion (Navy) funding in the amount of \$10,102,184 will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Aug. 26, 2022)

Nan Inc., Honolulu, Hawaii, is awarded a \$21,831,871 firm-fixed-price task order (N6247822F4397) under a previously awarded contract to repair Ammunition Wharf W2, Joint Base Pearl Harbor-Hickam, Hawaii. The work to be performed provides for wharf replacement with a reinforced concrete wharf on concrete piles built to current standards. The project will also include the reconstruction of wastewater and portable water utility systems, phone lines and grounding system for lightning protection. Utilities will be placed into a utility trench built into the wharf deck, and a permanent oil spill containment boom, safety ladders,

life ring cabinets, fire alarm system and mooring hardware will be installed. Work will be performed at Oahu, Hawaii, and is expected to be completed by November 2023. Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$21,831,871 will be obligated at time of award, and will not expire at the end of the current fiscal year. This contract was competitively procured with four offers received. The Naval Facilities Engineering Systems Command, Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62478-20-D-4014).

The Boeing Co., St. Louis, Missouri, is awarded a \$12,353,619 cost-plus-fixed-fee contract to procure upgraded flight control computer operational flight program with automatic ground collision avoidance system capable software for the F/A-18C/D aircraft. Work will be performed in St. Louis, Missouri, and is expected to be completed in June 2024. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$12,353,619 will be obligated at the time of award, all of which will expire at the end of the current fiscal year. This contract was competitively procured via an electronic request for proposal with one offer was received. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922C0059).

CORRECTION: The contract announced on Aug. 29, 2022, for Huntington Ingalls Inc., Pascagoula, Mississippi (N00024-22-C-2300), for \$41,646,746 was announced with an incorrect award date. The correct award date is Aug. 26, 2022.

August 29, 2022

Lockheed Martin Corp., Owego, New York, is awarded a \$503,718,672 firm-fixed-price order (N0001922F2291) against a previously issued basic ordering agreement (N0001921G0017). This order provides for the production and delivery of 12 MH-60R aircraft for the Commonwealth of Australia. Work will be performed in Owego, New York (52%); Stratford, Connecticut (40%); and Troy, Alabama (8%), and is expected to be completed in October 2026. Foreign Military Sales customer funds in the amount of \$503,718,672 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Skookum Educational Programs, Bremerton, Washington, is awarded a \$43,673,485 fixed-priced modification to previously awarded contract N44255-18-D-5009. This modification provides for the exercise of Option Year 4 for facility maintenance services including janitorial services, grounds maintenance, facility investment, pest control, regulated medical waste, chemical toilets, pavement clearance, lighting maintenance and warehousing services, in the Naval Facilities Engineering Systems Command (NAVFAC) Northwest area of operations. This award brings the total cumulative contract value of the contract to \$265,183,979. Work will be performed in Washington (96%); Idaho (1%); Minnesota (1%); Montana (1%); and Oregon (1%). Work is expected to be completed by Sept. 30, 2023. No funds will be obligated at time of award. Fiscal 2023 operation and maintenance (Navy) funds in the amount of \$43,673,485 for recurring and non-recurring services will be obligated on individual task orders issued during the option period and will not expire at the end of the current fiscal year. NAVFAC Northwest, Silverdale, Washington, is the contracting activity.

Huntington Ingalls Inc., Pascagoula, Mississippi, is awarded a \$41,646,746 cost-plus-incentive-fee modification to definitize the previously awarded undefinitized contract N00024-22-C-2300 for temporary dock services and maintenance to the ship (including, but not limited to, preventative and corrective maintenance), as required, as well as management, labor, material, facilities, emergent work support and maintenance as required, to accomplish the combat systems availability (CSA) for DDG 1002. Work will be performed in Pascagoula, Mississippi, and is expected to be completed by October 2023. Fiscal 2016 shipbuilding and conversion (Navy) funds in the amount of \$750,687 (3%); fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$3,496,466 (13%); fiscal 2020 shipbuilding and conversion

(Navy) funds in the amount of \$2,053,085 (7%); and fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$21,078,471 (77%) will be obligated at time of award and will not expire at the end of the current fiscal year. Huntington Ingalls Inc. is the only responsible source available to perform the DDG 1002 CSA with resource availability and the technical capabilities required to complete the DDG 1002 CSA. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-2300).

Saab Inc., East Syracuse, New York, is awarded a \$30,289,290 firm-fixed-price, fixed-price-incentive-fee modification (P00015) to a previously awarded contract (N0001920C0072). This modification increases scope by adding contract line items for the production and delivery of two AN/SPN-50(V)1 shipboard air traffic radars, two on-board repair kits, and two depot spares kits in support of fiscal 2022 Navy requirements. Work will be performed in Syracuse, New York, and is expected to be completed in September 2024. Fiscal 2022 other procurement (Navy) funds in the amount of \$17,155,921; and fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$13,133,369 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

W.F. Magann, Portsmouth, Virginia, is awarded a \$24,477,800 firm-fixed-price task order (N4008522F6117) under a multiple award construction contract for installation of flood-through valves within Dry Dock 8 caisson at Norfolk Naval Shipyard, Virginia. The work to be performed provides for installation of flood-through tube piping systems within the Dry Dock 8 caisson, replacement of the control console located on the interior operations deck; modification of the existing caisson electrical distribution system; replacement of the existing electrical capstan motors and controls along with replacement of the electrical panels, circuit breakers, and associated wiring. Work will be performed in Portsmouth, Virginia, and is expected to be completed by October 2024. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$24,477,800 are obligated on this award and will expire at the end of the current fiscal year. One proposal was received for this task order. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-18-D-1160).

RQ Construction LLC, Carlsbad, California, is awarded a \$24,287,000 firm-fixed-price task order (N6945022F0826) under a multiple award construction contract to provide a new electrical distribution system at Naval Air Station Pensacola, Florida. The contract also contains one unexercised option, which if exercised, would increase the cumulative contract value to \$24,912,000. Work will be performed in Pensacola, Florida, and is expected to be completed by March 2026. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$24,287,000 are obligated in this award and will expire at the end of the current fiscal year. Two proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity (N69450-21-D-0060).

Curtiss-Wright Electro-Mechanical Corp., Cheswick, Pennsylvania, is awarded an \$18,500,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for a Navy submarine's Advanced Secondary Propulsion Unit (ASPU) refurbishment to include services and materials for repairing, refurbishing, and adjusting the ASPU system components on a Navy vessel. This contract has a total ordering period of five years from the date of award. Work will be performed in Cheswick, Pennsylvania (95%); and Bremerton, Washington (5%), and is expected to be completed by August 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1) as only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Bremerton, Washington, is the contracting activity (N4523A22D5706).

Alpha Marine Services LLC, Galliano, Louisiana, is awarded a \$9,542,972 option (P00023) for contract N3220520C2252. The option is a firm-fixed-price contract with reimbursable elements to support Military Sealift Command's contract for the time charter of six tractor-like tugs in support of Naval Base San Diego, California. This option is the second of the current contract. The current contract includes a one-year firm period of the performance, three one-year option periods and one 11-month option period. The cumulative value of this contract, if all options are exercised, is \$43,699,319. Work will be performed in San Diego, California, and is expected to be completed, if all options are exercised, by July 31, 2025. Fiscal 2022 working capital (Navy) funds in the amount of \$784,353 are obligated and will not expire at the end of the fiscal year. Funds in the amount of \$8,758,619 for the remainder of option two are to be provided for fiscal 2023 and are subject to the availability of funds in accordance with Defense Federal Acquisition Regulation 52.232-18 — availability of funds. This procurement was released under full and open competition, with an unlimited number of companies solicited via the System for Award Management website and one offer was received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Archer Western Federal JV, Chicago, Illinois, is awarded a \$7,942,000 firm-fixed-price task order (N4008522F6190) under a multiple award construction contract for repairs to airfield taxiways Alpha through Juliet at Marine Corps Air Station New River. The work to be performed provides for, but is not limited to, milling and repaving the taxiway surfaces. Work will be performed in Jacksonville, North Carolina, and is expected to be completed by August 2023. Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$7,942,000 will be obligated at time of award and will expire at the end of the current fiscal year. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-20-D-0033).

August 26, 2022

NDI Engineering Co. (NDI), Thorofare, New Jersey, was awarded a \$42,923,521 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract for services to support the engineering, design, fabrication, and testing of prototype equipment; integrated logistics support; Shipboard Verification Test support; program management; financial; and administrative support associated with these functions on all Hull Maintenance and Technical (HM&E) Submarine Communication and Electromagnetic Systems (HM&E SCEMS), in support of the Naval Surface Warfare Center, Philadelphia Division (NSWCPD), Code 402. NDI will be awarded a task order for universal modular mast engineering and technical support services at the time of contract award, which will satisfy the minimum contract guarantee of \$1,000. It is estimated that 77% of services will take place in Philadelphia, Pennsylvania, at NSWCPD; and 23% of services will occur at the contractor facility in Thorofare, New Jersey. Work is expected to be complete by August 2028. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$100,050 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management. The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity (N64498-22-D-4014). (Awarded Aug. 25, 2022.)

Kranze Technology Solutions Inc., Des Plaines, Illinois, is awarded an \$11,174,373 modification (P00008) to a cost-plus-fixed-fee order (N0001920F0187) against a previously issued basic ordering agreement (N0001920G0004). This modification exercises an option for the production, delivery and installation of 18 retrofit kits and non-recurring engineering in support of the V-22 Mesh Network Manager upgrade. Work will be performed in Indianapolis, Indiana, and is expected to be completed in January 2025. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$9,900,903; and fiscal 2022 operation and maintenance (Navy) funds in the amount of \$1,273,470 will be obligated at the time of award, \$1,273,470 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Global, A 1st Flagship Co., Newport Beach, California, is awarded an \$8,136,035 cost-plus fixed-fee contract to acquire services and material necessary to support and maintain all vessels assigned to the Naval Sea Systems Command Inactive Ship Maintenance Office in Bremerton, Washington, and active vessels assigned to the Detachment in San Diego, California. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$57,886,359. Work will be performed in Bremerton, Washington (70%); and San Diego, California (30%), and is expected to be completed by August 2023. If all options are exercised, work will continue through August 2027. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$1,496,000 will be obligated at time of award, of which \$1,496,000 will expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management website, with two offers received. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-4202).

Pond Constructors, Peachtree Corners, Georgia, is awarded a \$7,673,127 firm-fixed-price task order (N6247322F4873) under a multiple award construction contract for design and construction at the San Pedro Fuel Depot (SPFD), California. The work to be performed provides for the design and construction of the California State Fire Marshal pipeline abandonment, oil/water separator and reclamation pad removal at SPFD, and Pier 12, in Long Beach, California. The task order does not contain any options. Work will be performed in San Pedro and Long Beach, California, and is expected to be completed by April 2024. Fiscal 2022 working capital (Department of Defense) funds in the amount of \$7,673,127 are obligated on this award and will not expire at the end of the current fiscal year. One proposal was received for this task order. The Naval Facilities Engineering Systems Command, Southwest, Facilities Engineering and Acquisition Division, Seal Beach, California, is the contracting activity (N62473-18-D-5829).

August 25, 2022

Raytheon Co., Poulsbo, Washington, is awarded an \$18,543,264 cost-plus-fixed-fee and firm-fixed-price, indefinite delivery/indefinite-quantity requirements contract for depot-level support, maintenance and modifications support of the AN/AQS-20 Sonar Mine Detecting Set, and the AN/MHP-20 Deploy and Retrieve system for the AN/AQS-20 System. The AN/AQS-20 is a towed, mine hunting and identification system for Program Executive Office, Unmanned and Small Combatants. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$91,706,089. Work will be performed in Portsmouth, Rhode Island (65%); Poulsbo, Washington (30%); and Panama City, Florida (5%); and is expected to be completed by August 2023. If all options are exercised, work will continue through August 2027. No funding will be obligated at time of award. This contract was not competitively procured in accordance with Defense Federal Acquisition Regulation 6.302-1(a)(2)(ii) and (iii) – circumstances permitting other than full and open competition when only one source and no supplies or services will satisfy agency requirements. Naval Surface Warfare Center, Panama City Division, Panama City, Florida, is the contracting activity (N6133122D0004).

August 24, 2022

OER Services LLC, Elk Grove Village, Illinois (N4215822D0006); Native Instinct LLC, Boynton, Florida (N4215822D0005); and Herc Rentals Inc., Bonita Springs, Florida (N4215822D0004), are awarded a combined \$39,823,647 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the procurement rental of approximately 300 individual pieces of material handling equipment to support operational requirements, repair, maintenance, and overhaul of aircraft carriers, submarines, and any other vessel tasked to Norfolk Naval Shipyard, annexes, and Naval Station Norfolk. OER Services LLC is awarded a base value of \$7,576,116, and if all options are exercised the total value will be \$39,823,647. Native Instinct LLC is awarded a base value of \$7,133,458, and if all options are exercised the total value will be \$39,772,908. Herc Rentals Inc. is awarded a base value of \$6,514,560, and if all options are exercised the total value will be \$36,322,260. Work will be performed in Portsmouth, Virginia (90%); and Norfolk, Virginia (10%). Work will be completed by Sept. 30, 2023, and if all options are exercised, work will

continue until Sept. 30, 2027. Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$6,000 will be obligated for the minimum guarantee and will be equally divided among the three contractors, and will expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management website, with five offers received. Norfolk Naval Shipyard, Portsmouth, Virginia, is the contracting activity.

Colonna's Shipyard Inc. Norfolk, Virginia (N00024-22-C-4319), is awarded a \$32,222,891 firm-fixed-price contract for the completion of the Chief of Naval Operations docking service craft overhaul availability under the Shippingport Auxiliary Repair Dry Dock Medium program. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$32,664,263. Work will be performed in Norfolk, Virginia, and is expected to be completed by June 2023. Fiscal 2022 operations and maintenance (Navy) procurement funds in the amount of \$32,222,891 will be obligated at the time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management website, which resulted in one offeror. The Naval Sea Systems Command, Washington Navy Yard, Washington, D.C., is the contracting activity.

Dyncorp International LLC, Fort Worth, Texas, is awarded a \$30,268,759 firm-fixed-price, cost-plus-fixed-fee, cost reimbursable modification (P00071) to a previously awarded contract (N6893617C0052). This modification exercises an option to extend services to provide continued organizational level aircraft maintenance and logistics support for aircrew systems and subsystems, search and rescue equipment, and support equipment for the P-3 Orion, C-130 Hercules, F/A-18 Hornet, E/A-18 Growler, AV-8B Harrier II, H-60 Seahawk, and E-2D Hawkeye aircraft in support of the Naval Air Warfare Center Weapons Division (NAWCWD) Naval Test Wing Pacific. Work will be performed in China Lake, California (60%); Point Mugu, California (30 %); Hickam Air Force Base, Hawaii (2%); Lemoore, California (2%); Patrick AFB, Florida (1%); Holloman AFB, New Mexico (1%); Patuxent River, Maryland, (1%); Yuma, Arizona (1%); Miramar, California (1%); and North Island, California (1%), and is expected to be completed in April 2023. Working capital (Navy) funds in the amount of \$10,113,024 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The NAWCWD, Point Mugu, California, is the contracting activity.

August 23, 2022

Advanced Systems and Software Engineering Technologies LLC, Ridgecrest, California, is awarded a \$292,310,598 cost-plus-fixed-fee, cost reimbursable, indefinite-delivery/indefinite-quantity contract. This contract provides system engineering, analysis, research, development, logistics, configuration and data management services in support of the Naval Air Warfare Center Weapons Division's aircraft integrated product teams for the development, integration, test, evaluation, and fielding of new and upgraded capabilities to Navy aircraft, to include F/A-18, EA-18G, F-35, AV-8B, AH-1/UH-1 aircraft and unmanned aerial systems. Work will be performed in China Lake, California (86.5%); Eglin Air Force Base, Florida (7%); Ridgecrest, California (5%); Point Mugu, California (1%); and various locations within the continental U.S. (0.5%), and is expected to be completed in October 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured as a small business set-aside; three offers were received. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity (N6893622D0038).

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is awarded a \$78,423,685 cost-plus-incentive-fee and cost reimbursement contract modification to previously awarded contract N00024-17-C-6259 to exercise options for engineering design and development. Work will be performed in Manassas, Virginia (65%); Clearwater, Florida (32%); Syracuse, New York (2%); and Marion, Florida (1%), and is expected to be completed by December 2023. Fiscal 2022 other procurement (Navy) funds in the amount of \$58,919 will be obligated at time of award, and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington Navy Yard, Washington, D.C., is the contracting activity.

Aktarius LLC, Panama City, Florida, is awarded a \$19,023,894 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract. This contract provides training support services to conduct and present training materials, user manuals, and user training on the upgraded and enhanced Digital Imagery Exploitation Engine, the Kinetic Integrated Lightweight Software Individual Tactical Combat Handheld, and the Android Precision Assault Strike Suite applications for Digital Precision Strike Service customers. Work will be performed in Panama City, Florida (90%); and China Lake, California (10%), and is expected to be completed in August 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to 15 U.S. Code 637 Tribal 8(a) Small Business. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity (N6893622D0015).

Information Management Resources Inc., Aliso Viejo, California, is awarded a \$17,000,000 indefinite-delivery/indefinite-quantity contract (N00173-22-D-2006) and task order (N00173-22-F-2031) for information technology and engineering technical support and system administration. The contract has a five-year ordering period with a total not-to-exceed amount of \$17,000,000. The task order includes options which, if exercised, would bring the cumulative value of this task order to \$4,775,763. Work on the task order will be performed at the U.S. Naval Research Laboratory in Monterey, California, and is expected to be completed by September 2025. Fiscal 2022 working capital (Navy) funds in the amount of \$50,000 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured with two offers received. The U.S. Naval Research Laboratory, Washington, D.C., is the contracting activity.

Lockheed Martin Corp., Rotary and Mission Systems, Moorestown, New Jersey, is awarded a \$13,542,835 cost-plus-incentive-fee modification to previously awarded contract N00024-13-C-5116 for AEGIS combat system engineering agent efforts, which include the design, development, integration, test and delivery of Advanced Capability Build 20. Work will be performed in Moorestown, New Jersey, and is expected to be completed by May 2023. Fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$7,220,634 (53%); fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$5,883,043 (44%); and fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$439,158 (3%) will be obligated at time of award and do not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Vacco Industries, South El Monte, California, is awarded an \$8,282,516 firm-fixed-price, undefinitized contract action for the procurement of 39 valve assemblies in support of the Naval Sustainment System-Shipyards "Chop-and-Swap" initiative. All work will be performed in South El Monte, California, and work is expected to be completed by December 2026, with no option periods. Working capital (Navy) funds in the amount of \$6,211,887 will be obligated at the time of award and funds will not expire at the end of the current fiscal year. One source was solicited for this sole-source requirement, with one offer received. Naval Supply Systems Command Weapon Systems Support, Mechanicsburg, Pennsylvania, is the contracting activity (N00104-22-C-NA07).

August 22, 2022

The Johns Hopkins University Applied Physics Laboratory, Laurel, Maryland, is awarded a \$4,396,000,000 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract for research, development, engineering, and test and evaluation for programs throughout the Department of Defense within its core competency areas including strategic systems test and evaluation; submarine security and survivability; space science and engineering; combat systems and guided missiles; air and missile defense and power projection; information technology, simulation, modeling, and operations analysis; and mission related research, development, test and evaluation. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$10,600,000,000. Work will be performed in Laurel, Maryland, and is expected to be completed by August 2027. If all options are exercised, work

will continue through August 2032. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$6,803,376 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(3)(B), as implemented in Defense Federal Acquisition Regulation 6.302-3 — industrial mobilization; engineering, developmental, or research capability; or expert services. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-D-6404).

RMA Architects Inc. Honolulu, Hawaii, is awarded a \$50,000,000 indefinite-delivery/indefinite-quantity, architect-engineer contract for architect-engineer services for architectural projects at various locations under the cognizance of Naval Facilities Engineering Systems Command (NAVFAC) Pacific. The work to be performed provides for, but are not limited to, the execution and delivery of military construction project documentation, functional analysis concept development workshops/design charrettes; final design construction documents; technical surveys and reports including site engineering investigation, topographic survey, geotechnical investigation, hazardous material survey, munitions of explosive concern survey, cost and schedule risk analysis; construction cost estimates; comprehensive interior design, including structural interior design and furniture, fixtures, and equipment; collateral equipment buy packages; and post construction award services (PCAS). PCAS consists of technical consultation during construction, including, but not limited to, review of construction submittals, response to requests for information, site visits, and other miscellaneous services. Work will be performed at various locations within the NAVFAC Pacific area of operations to include, but not limited to Guam/Marianas (70%), Hawaii (20%), and Australia (10%). The term of the contract is not to exceed 60 months with an expected completion date of August 2027. Fiscal 2020 military construction design funds in the amount of \$10,000 (minimum contract guarantee) are obligated on this award and will not expire at the end of the current fiscal year. Future task orders will be primarily funded by military construction (planning and design) funds. This contract was competitively procured via the System for Award Management website with three proposals received. NAVFAC Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-22-D-0001).

Applied Research Associates Inc., Littleton, Colorado, is awarded a \$48,000,000 cost-plus-fixed-fee contract for research and development resulting in delivery of data, hardware, software, equipment and documentation across the scope of the non-lethal weapons technology areas. This contract provides all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and services necessary to perform research and technology development support services work and will be performed at the contractor's facility, with an expected completion date of August 22, 2027. The maximum dollar value, for the duration of the five ordering periods, is \$48,000,000. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$399,597 are being obligated at time of award. Contract funds \$399,597 will not expire at the end of the current fiscal year. This contract was a competitively procured via the System Award Management online website, with three proposals received. The Marine Corps System Command, Quantico, Virginia, is the contracting activity (M67854-22-D-7209).

D7 LLC, doing business as Dawson D7, Colorado Springs, Colorado, is awarded a \$24,000,000 indefinite-delivery/indefinite-quantity contract for construction support services at Marine Corps Base Hawaii, and other locations in Oahu, Hawaii. The work to be performed provides for contract work to include new work, additions, alteration, maintenance and repair. The maximum dollar value, including the base period and four option years, is \$24,000,000. Work will be performed primarily within the Naval Facilities Systems Engineering Command (NAVFAC) Hawaii area of operations and is expected to be completed by August 2027. Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$102,229 will be obligated for the seed project at time of award and will expire at the end of the current fiscal year. This contract was not competitively procured via the System for Award Management, with one offer received. This contract is a sole source 8(a) contract under 10 U.S. Code 2304(c). NAVFAC Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62478-22-D-4017).

August 19, 2022

BAE Systems - Norfolk Ship Repair, Norfolk, Virginia, is awarded a \$107,736,087, firm-fixed-price contract for the execution of the USS Ross (DDG 71) fiscal 2023 extended dry-docking selected restricted availability. This availability will include a combination of maintenance, modernization and repair of the USS Ross. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$123,876,183. Work will be performed in Norfolk, Virginia, and is expected to be completed by March 2024. Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$93,897,036 (87%); and fiscal 2022 other procurement (Navy) funds in the amount of \$13,839,051 (13%) will be obligated at time of award, of which \$93,897,036 will expire at the end of the current fiscal year. This contract was competitively procured using full and open competition via the System for Award Management website. Competitive proposals were received in response to Solicitation Number (N00024-22-R-4422). The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-4422).

The Boeing Co., St. Louis, Missouri, is awarded a \$25,648,020 fixed-firm-price, cost-plus-fixed-fee and cost-only, full rate production contract for the production of High-Altitude Anti-Submarine Warfare Weapon Capability Air Launch Accessory equipment, related engineering and hardware repair services, and other direct cost support. This contract includes options, which, if exercised, would bring the cumulative value of this contract to \$121,426,700. Work will be performed in St. Charles, Missouri (44%); St. Louis, Missouri (26%); Salt Lake City, Utah (12%); Minneapolis, Minnesota (4%); Joplin, Missouri (2%); Piedmont, Missouri (2%); Orlando, Florida (2%); Cedar Rapids, Iowa (2%); Chandler, Arizona (1%); Berea, Ohio (1%); Wichita, Kansas (1%); Albuquerque, New Mexico (1%); Lexington, Kentucky, (1%); and Chatsworth, California (1%), and is expected to be completed by September 2024. If all options are exercised, work will continue through September 2030. Fiscal 2020 weapons procurement (Navy) funds in the amount of \$11,535,520 (98%); and fiscal 2021 weapons procurement (Navy) funds in the amount of \$279,074 (2%) funding will be obligated at time of award, of which \$11,535,520 will expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c) (1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-6407).

Intermat, Biddeford, Maine, is awarded a \$17,736,279 firm-fixed-price, cost-plus-fixed-fee, and cost-only indefinite-delivery/indefinite-quantity contract for the delivery of Submarine Launched Ballistic Missile nose-tip materials. This contract does not include options. This contract combines purchases for the Navy (82.23%) and the government of the United Kingdom (17.77%) under the Foreign Military Sales program. Work will be performed in Biddeford, Maine, and is expected to be completed by July 2027. Fiscal 2022 Weapons Procurement (Navy) funds in the amount of \$1,301,611 will be obligated at time of award. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) [now 10 U.S. Code 3204(a)(1)] — only one responsible source and no other type of supplies or services will satisfy agency requirements. The Naval Surface Warfare Center Dahlgren Division, Dahlgren, Virginia, is the contracting activity (N0017822D4404).

Mare Island Dry Dock, Vallejo, California, is awarded a \$13,969,859 firm-fixed-price contract (N3220522C4211) for a 109-calendar day shipyard availability for the mid-term availability of Military Sealift Command's fleet oiler USNS Pecos (T-AO 197). This contract includes a base period and five options which, if exercised, would bring the cumulative value of this contract to \$15,877,257. Work will be performed in Vallejo, California, and will begin Sept. 12, 2022, and is expected to be completed by Dec. 29, 2022. Fiscal 2022 working capital (Navy) funds in the amount of \$13,969,859 are obligated and will not expire at the end of the fiscal year. This contract was a small business set-aside with proposals solicited via the Government Point of Entry website and six offers received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220522C4211).

Raytheon Co., Tewksbury, Massachusetts, is awarded an \$11,172,229 firm-fixed-price modification to previously awarded contract N00024-22-C-5522 for Total Ship Computing Environment Lab hardware for modernization/technical refresh and Conventional Prompt Strike to support DDG 1000-class combat system activation, sustainment and modernization. Work will be performed in Nashua, New Hampshire (92%); Portsmouth, Rhode Island (4%); and Tewksbury, Massachusetts (4%), and is expected to be completed by November 2023. Fiscal 2022 other procurement (Navy) funds in the amount of \$9,333,203 (84%); and fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$1,839,026 (16%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

GHD Setiadi Kaula AE JV, Honolulu, Hawaii, is awarded a \$10,259,196 firm-fixed-price task order (N6274222F0355) under an indefinite-delivery/indefinite-quantity contract for architect-engineer services for various base infrastructure projects and other projects primarily under the cognizance of Naval Facilities Engineering Systems Command (NAVFAC) Pacific area of operations. The work to be performed provides for, but is not limited to, site visits/engineering investigations, 35% design submittal, 35% design/cost and schedule risk analysis (CSRA) review meeting, 60% design submittal, 60% design/CSRA review meeting, 100% pre-final design submittal, 100% design/CSRA review meeting, environmental/construction permit preparation, back-check quality control final design submittal, and signed final design submittal. The maximum dollar value is \$10,259,196. Work will be performed in Darwin, Australia, and is expected to be completed by June 2024. Fiscal 2020 military construction design (planning and design) funds in the amount of \$2,711,186; and fiscal 2021 military construction design (planning and design) funds in the amount of \$7,548,010 are obligated on this award and will not expire at the end of the current fiscal year. NAVFAC Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity (N62742-18-D-0005).

General Atomics, San Diego, California, is awarded an \$8,837,078 firm-fixed-price order (N0001922F2258) against a previously issued basic ordering agreement (N0001921G0014). This order provides for the development of a two or three launch motor subsystem, two energy storage group tailored configuration of the Electromagnetic Aircraft Launch System (EMALS) and a three wire, six energy absorber subsystem Advanced Arresting Gear System configuration that are compatible with the government of France's future aircraft carrier and provides acceptable mission capability. Work will be performed in San Diego, California (98.85%); and Tupelo, Mississippi (1.15%), and is expected to be completed in June 2023. Foreign Military Sales customer funds in the amount of \$8,837,078 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

August 18, 2022

Ocean Shipholdings Inc., Houston, Texas, was awarded a \$53,960,096 firm-fixed-price contract (N3220522C3100) for the operation and maintenance of Military Sealift Command's five government-owned, contractor-operated transportation auxiliary general ocean surveillance (T-AGOS) ships, and two transportation auxiliary general missile range instrumentation (T-AGM) ships. The vessels under this award include USNS Victorious (T-AGOS 19); USNS Able (T-AGOS 20); USNS Effective (T-AGOS 21); USNS Loyal (T-AGOS 22); USNS Impeccable (T-AGOS 23); USNS Invincible (T-AGM 24); and USNS Howard O. Lorenzen (T-AGM 25). These ships support the anti-submarine warfare mission of the commanders of the Atlantic and Pacific Ocean areas of responsibility, support the Navy's Surveillance Towed Array Sensor System, monitor missile launches, and other U.S. government research missions. Work will be performed worldwide, with an expected completion date of Oct. 31, 2027, if all options are exercised. The maximum dollar value, including the base period and all options, is \$292,663,562. Working capital funds (Navy) in the amount of \$53,960,096 will be obligated for fiscal 2023, before Sept. 30, 2022. This contract was competitively procured under solicitation number N3220521R3100 via the System for Award Management contracting opportunities website, and six offers were received. The

Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220522C3100). (Awarded August 15, 2022)

General Dynamics Bath Iron Works, Bath, Maine, is awarded a \$19,999,814 cost-plus-fixed-fee modification to previously awarded contract N00024-19-C-2322 for procurement of long-lead time material for the Large Missile Vertical Launch System (LMVLS) launch module fabrication on DDG-1000. Work will be performed in Spring Grove, Illinois (48%); Houston, Texas (25%); Alma, Michigan (20%); and Merrill, Michigan (7%), and is expected to be completed by June 2024. Fiscal 2022 other procurement (Navy) funding in the amount of \$19,999,814 will be obligated at the time of award and will not expire at the end of the current fiscal year. The Supervisor of Shipbuilding, Conversion, and Repair, Bath, Maine, is the contracting activity.

Pacific Shipyards International LLC Honolulu, Hawaii, is awarded a \$17,153,775 cost-plus-award-fee modification to exercise an option to previously awarded contract N00024-21-C-2310 for the accomplishment of post shakedown availability (PSA). The PSA is for one Arleigh Burke-class guided missile destroyer (DDG 120). Work will be performed in Pearl Harbor, Hawaii, and is expected to be completed by September 2023. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$16,062,171 will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Kratos Unmanned Aerial Systems Inc., Sacramento, California, is awarded a not-to-exceed \$14,748,471 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract. This contract provides for software engineering support services, including analysis, modification, and implementation of software changes in support of the BQM-177A Subsonic Aerial Target system for the Navy. Work will be performed in Sacramento, California (93.6%); and Phoenix, Arizona (6.4%), and is expected to be completed in July 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922D0022).

Lockheed Martin Space, Titusville, Florida, is awarded a \$10,913,000 fixed-price incentive with unpriced letter contract (N0003022C0100) for long-lead time material and the labor, planning, and scheduling necessary to support the fiscal 2023 Trident II (D5) missile production schedule. This contract award also benefits a Foreign Military Sale to the United Kingdom. Work will be performed in Titusville, Florida, and is expected to be completed by Sept. 30, 2027. Fiscal 2022 weapons procurement (Navy) in the amount of \$9,736,000.00 will be obligated on this award. No funds will expire at the end of the current fiscal year. This contract is being awarded to the contractor on a sole source basis under 10 U.S. Code 2304(c)(1) and was previously synopsisized on the Federal Business Opportunities website. Strategic Systems Programs, Washington, D.C., is the contracting activity.

August 17, 2022

Rolls-Royce Corp., Indianapolis, Indiana, is awarded a \$1,013,571,576 firm-fixed-price, indefinite-delivery, requirements contract. This contract provides intermediate, depot-level maintenance and related logistics support for approximately 210 in-service T-45 F405-RR-401 Adour engines in support of the Navy. Work will be performed in Meridian, Mississippi (47%); Kingsville, Texas (46%); Pensacola, Florida (6%); and Patuxent River, Maryland (1%), and is expected to be completed in July 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1. The Naval Air System Command, Patuxent River, Maryland, is the contracting activity (N0001922D0042).

Verizon Federal Inc., Ashburn, Virginia, is awarded a \$28,349,646 firm-fixed-price, indefinite-delivery/indefinite-quantity contract to provide Naval Computer and Telecommunications Area Master Station Atlantic with integrated voice and data services via central office-based facilities to defense activities at Naval Support Activity Philadelphia, Pennsylvania; Naval Business Center Philadelphia, Pennsylvania; and Naval Support Activity Mechanicsburg, Pennsylvania. The contract will include a five-year base ordering period with an additional six-month ordering period option pursuant of Defense Federal Acquisition Regulation 52.217-8 — option to extend services, which if exercised, will bring the total estimated value to \$31,708,581. The base ordering period is anticipated to begin October 2022 and is expected to be completed by September 2027; if the option is exercised, the ordering period will be completed by March 2028. Work will be performed in Philadelphia, Pennsylvania (60%); and Mechanicsburg, Pennsylvania (40%). Fiscal 2023 operations and maintenance (Navy) funds in the amount of \$3,000 will be obligated to fund the contract's minimum amount and funds will expire at the end of the current fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. One company was solicited for this sole-source requirement in accordance with Defense Federal Acquisition Regulation 6.302-1 and one offer was received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department Norfolk Office, Norfolk, Virginia is the contracting activity (N00189-22-D-0020).

Tactical Engineering & Analysis Inc., San Diego, California, is awarded a \$20,016,538 indefinite-delivery/indefinite-quantity, cost-plus-fixed-fee, multiple award modification to previously awarded contract N66001-18-D-0392 for analysis and test engineering services. These services will provide research, development, test and evaluation services for command, control, communications, computers, cyber and intelligence, surveillance and reconnaissance systems and combat direction systems. Work will be performed in San Diego, California (100%), and is expected to be complete by August 2023. All awardees will have the opportunity to compete for task orders during the ordering period. No funds will be obligated at the time of award. Funds will be obligated as task orders are issued using fiscal 2022 research, development, test and evaluation (Navy) funds; fiscal 2022 operations and maintenance (Navy) funds; fiscal 2022 other procurement (Navy) funds; fiscal 2022 shipbuilding construction (Navy) funds; and fiscal 2022 working capital (Navy) funds. The Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

L3 Technologies Inc., Camden, New Jersey, is awarded a \$13,403,240 modification to a previously awarded Navy Multiband Terminal (NMT) modem cost-plus-incentive-fee task order (N00039-20-D-0065) issued by the Naval Information Warfare Systems Command. This modification incorporates in-scope specification changes and extends to period of performance of the task order by 19 months. NMT is a multiband-capable satellite communications terminal that provides protected and wideband communications. Work will be performed in Salt Lake City, Utah (55%); Camden, New Jersey (23%); Tempe, Arizona (14%); Hanover, Maryland (4%); San Diego, California (2%); Bonita Springs, Florida (1%); and Chambersburg, Pennsylvania (1%). If all options are exercised, work could continue through July 2027. No funds will be obligated at the issuance of this contract modification. The initial contract was competitively procured via Naval Information Warfare Systems Command e-Commerce and Federal Business Opportunities websites with three offers received. This in-scope modification was negotiated in accordance with Defense Federal Acquisition Regulation 52.243-2, Alternate II, Changes — Cost Reimbursement. The Naval Information Warfare Systems Command, San Diego, California, is the contracting activity.

Omni2Max Inc., La Mesa, California (N3220521C4020), is awarded a \$8,192,260 option (P00007) for the fixed-price portion of a previously awarded firm-fixed-price contract with reimbursable elements to exercise a one-year option period for offshore supply vessel MV Ocean Valor to support logistics experimentation for fuel, stores, passengers, and ordnance delivery from small commercial platforms. This contract includes one 11-month firm period of performance and four one-year options periods which, if exercised, would bring the cumulative value of this contract to \$41,523,938. Work will be performed worldwide and is expected to be completed, if all options are exercised, by Sept. 6, 2026. Fiscal 2022

working capital (Navy) funds in the amount of \$8,192,260 are obligated and will not expire at the end of the fiscal year. This procurement was released under full and open competition, with an unlimited number of companies solicited via the System for Award Management website and three offers were received. Military Sealift Command, Norfolk, Virginia, is the contracting activity.

August 16, 2022

VSE Corp., Alexandria, Virginia, is awarded an \$85,991,000 ceiling increase to indefinite-delivery/indefinite-quantity, cost-plus-fixed-fee contract N00024-22-D-4205 for Foreign Military Sales supportability follow-on technical support to provide eligible foreign navies access to a broad range of life cycle support, systems upgrades, systems integration, and other related efforts associated with the transfer and acquisition, operation, and maintenance of naval vessels and systems within their inventory. This ceiling increase is necessary to support an urgent sole source delivery order to VSE Corp. to provide material and labor in support of overhaul, maintenance, and repair of the Egyptian Navy long range maintenance plan schedule for four Oliver Hazard Perry-class frigates (FFG-7 class ships), four fast missile crafts, and two mine hunter coastals. Work for this contract in its entirety will be performed outside the continental U.S. (80%); and within the continental U.S. (20%) based on delivery orders as assigned. Work is expected to be completed by March 2023. Foreign Military Sales (Egypt) funds in the amount of \$85,131,090 (99%); and fiscal 2023 Foreign Military Sales Administration funds in the amount of \$859,910 (1%) will be obligated at the delivery order level and will not expire at the end of the current fiscal year. This contract was not competitively procured via the System for Award Management website. This sole-source award is justified pursuant to 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements; and in accordance with Defense Federal Acquisition Regulation 6.302-1(a)(2)(iii)(B) — requirements may be deemed to be available only from the original source in the case of follow-on contracts for the continued provision of highly specialized requirements when it is likely that award to any other source would result in unacceptable delays in fulfilling the agency's requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-D-4205).

CACI Technologies LLC, Chantilly, Virginia, is awarded a \$20,820,661 cost-plus-fixed-fee contract (N0018922C0013) for a six-month base period with one three-month option period valued at \$10,506,914 that could result in a total of \$31,327,575 if the option is exercised. The contract provides Naval Forces Logistics services in support of U.S. Fleet Forces Command, which includes tasks necessary to provide global logistics support, oversight, training and management services to support Naval Operation Forces in all aspects of logistics (supply and maintenance) management, automated information systems, software applications, business processes, inspections, readiness, inventory, training and financial management. Work will be performed at various locations across the continental U.S. (91.25%), for which the percentage of work at each of those locations cannot be determined at this time; Japan (5.25%); Hawaii (2.69%); and Bahrain (0.81%), and is expected to be completed in February 2023; if the option is exercised, the work will be completed May 2023. Fiscal 2022 operation and maintenance (Navy) funding appropriations will expire on Sept. 30, 2022. This announcement does not involve Foreign Military Sales. The requirement was not competitively procured. The requirement was solicited as a sole source procurement in accordance with Defense Federal Acquisition Regulation 6.302-1 — only one responsible source and no other supplies or services will satisfy agency requirements; and therefore, only one offer was received. The contracting activity is Navy Supply Systems Command Fleet Logistics Center Norfolk, Norfolk, Virginia.

August 15, 2022

BAE Systems Land & Armaments L.P., Sterling Heights, Michigan, is awarded an \$87,999,656 cost-plus-fixed-fee modification to previously awarded contract M67854-16-0006 for Amphibious Combat Vehicles (ACV). The total cumulative face value of the contract is \$1,910,796,347. This contract modification procures labor and material for the Amphibious Combat Vehicle Mission Role Variant Medium Caliber Cannon (ACV-30) for post-critical design review design and development, production representative test

vehicles, and support for test activities. Work will be performed in Oceanside, California (14%); Aberdeen Proving Ground, Maryland (14%); Kongsberg, Norway (13%); York, Pennsylvania (12%); Aiken, South Carolina (9%); San Jose, California (7%); Stafford, Virginia (7%); Minneapolis, Minnesota (5%); Johnstown, Pennsylvania (4%); Sterling Heights, Michigan (3%); Phoenix, Arizona (3%); Goleta, California (2%); White Sands, New Mexico (2%); Bolzano, Italy (2%); Twentynine Palms, California (1%); and Vicksburg, Mississippi (1%), with an expected completion date of July 2025. Fiscal 2022 research, development, test and evaluation (Marine Corps) funds in the amount of \$30,152,264 will be obligated at the time of award, and will not expire at the end of the current fiscal year. Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-16-C-0006).

Vertex Aerospace, Madison, Mississippi, is awarded a \$62,792,923 firm-fixed-price, cost reimbursable, indefinite-delivery/indefinite-quantity contract. This contract provides for organizational level and authorized intermediate level aircraft maintenance, logistics support, and limited repair of common support equipment for three KC-130J aircraft for the government of Kuwait. Work will be performed in Abdullah Al-Mubarak Air Base, Kuwait (95%); and Madison, Mississippi (5%), and is expected to be completed in August 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-4. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922D0040).

Crown Point Systems Inc., San Diego, California, is awarded a \$47,911,527 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract procures a minimum quantity of 10 various brand name audio visual (AV) video teleconference (VTC) equipment parts and up to a maximum quantity of 32,960 various brand name AV VTC equipment parts. This procurement is in support of Webster Outlying Field Integrated Command, Control and Intel Systems Division's integration of specialized network AV systems supporting intelligence agencies and the command, control, communication, computers, cyber, intelligence, surveillance and reconnaissance missions of the Joint Chiefs of Staff, U.S. combatant commanders, Department of Defense agencies and services, and the Department of Homeland Security operational and support components. Work will be performed in San Diego, California, and is expected to be completed in August 2025. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N6833522D0036).

Marinette Marine Corp., Marinette, Wisconsin, is awarded a \$39,414,122 cost-plus-fixed-fee modification to previously awarded contract N00024-20-C-2300 to exercise an option for fiscal 2022 engineering and class support requirements in support of detail design and construction of the Constellation-class guided-missile frigate. Work will be performed in Marinette, Wisconsin (30%); Newport News, Virginia (25%); New York, New York (10%); Columbia, Maryland (10%); Philadelphia, Pennsylvania (10%); Ayer, Massachusetts (5%); Arlington, Virginia (5%); Herndon, Virginia (2%); Camden, New Jersey (2%); and Tulsa, Oklahoma (1%), and is expected to be completed by August 2023. Work is expected to be completed by August 2031 if all options are exercised. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$5,500,000 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Collins Aerospace, Cedar Rapids, Iowa, is awarded an \$8,982,725 firm-fixed-price modification (P00025) to a previously awarded, indefinite-delivery/indefinite-quantity contract (N0042118D0004). This modification increases the contract ceiling for the production and delivery of additional AN/ARC-210 family of radio equipment as follows: 105 MT-4935 mounting bases; 95 MX-12366 low noise amplifier triplexers; 95 AM-7642 high power amplifiers; 34 C-12561B control, radio sets; 20 Gen 6 reprogramming kits; and three additional training courses in support of multiple platforms across the Navy, Air Force, Marine Corps, and Foreign Military Sales customers. Work will be performed in Cedar Rapids, Iowa, and

is expected to be completed in September 2024. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

August 12, 2022

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a not-to-exceed \$7,630,940,571 firm-fixed-price, fixed-price incentive (firm target), undefinitized modification (P00016) to a previously awarded advanced acquisition contract (N0001920C0009). This modification increases the ceiling to procure 129 Lot 15 aircraft, as follows: 49 F-35A aircraft for the Air Force; three F-35B aircraft and 10 F-35C aircraft for the Marine Corps; 15 F-35C aircraft for the Navy; 32 F-35A aircraft and four F-35B aircraft for non-U.S Department of Defense (DOD) participants; and sixteen F-35A aircraft for Foreign Military Sales customers, as well as 69 shipsets of technical hardware. Work will be performed in Fort Worth, Texas (57%); El Segundo, California (14 %); Warton, United Kingdom (9%); Cameri, Italy (4%); Orlando, Florida (4%); Nashua, New Hampshire (3%); Baltimore, Maryland (3%); San Diego, California (2%); Nagoya, Japan (2%); and various locations outside the continental U.S. (2%) and is expected to be completed in October 2024. Fiscal 2021 aircraft procurement (Air Force) funds in the amount of \$2,162,537,083; fiscal 2021 aircraft procurement (Navy) funds in the amount of \$1,538,490,483; fiscal 2020 aircraft procurement (Air Force) funds in the amount of \$54,747,445; fiscal 2020 aircraft procurement (Navy) funds in the amount of \$32,338,565; FMS funds in the amount of \$693,338,015; and non U.S. DOD participant funds in the amount of \$682,929,685 will be obligated at the time of award, \$87,086,010 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Crowley Government Services Inc., Jacksonville, Florida (N3220522C3101), is awarded a \$66,167,978 firm-fixed-price contract for the operation and maintenance of six government-owned Maritime Prepositioning Force vessels. The vessels under this award include the container, roll-on, roll-off ships USNS 2nd LT John P. Bobo (T-AK 3008); USNS SGT William R. Button (T-AK 3012); USNS 1st LT Baldomero Lopez (T-AK 3010); 1st LT Jack Lummus (T-AK 3011); USNS GYSGT Fred W. Stockham (T-AK 3017); and USNS PFC Dewayne T. Williams (T-AK 3009). Work will be performed worldwide, with an expected completion date of Sept. 30, 2027. The maximum dollar value, including the base period and four option years is \$343,239,181. Fiscal 2023 working capital (Navy) funds in the amount of \$66,167,978 will be obligated before Sept. 30, 2022. Contract funds in the amount of \$66,167,978 will not expire at the end of the current fiscal year. This contract was competitively procured under solicitation number N3220521R4117 via the Federal Business Opportunities (now SAM.gov Contracting Opportunities) website and six offers received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220522C3101).

Lockheed Martin Corp., Fort Worth, Texas, is awarded a \$53,415,771 modification (P00003) to a previously awarded, cost-plus-incentive-fee contract (N0001922C0015) that provides continued engineering and other related activities in support of the design and development of a Joint Strike Fighter aircraft variant tailored for an unspecified Foreign Military Sales (FMS) customer. Work will be performed in El Segundo, California (56%); Fort Worth, Texas (43%); and Tempe, Arizona (1%), and is expected to be completed in July 2026. FMS funds in the amount \$53,415,771 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Raytheon Missiles and Defense, Tucson, Arizona, is awarded a \$50,069,297 cost-plus-fixed-fee modification to previously awarded contract N00024-18-C-5431 to exercise options for fiscal 2022 design agent and engineering support services for the Rolling Airframe Missile (RAM) upgraded MK-31 Guided Missile Weapon System Improvement Program. Work will be performed in Tucson, Arizona, and is expected to be completed by July 2023. Fiscal 2022 operations and maintenance (Navy) funds in the

amount of \$1,526,558 (33%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$1,249,235 (27%); fiscal 2022 weapons procurement (Navy) funds in the amount of 778,703 (17%); fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$568,139 (13%); and fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$464,593 (10%) will be obligated at the time of award, of which, funds in the amount of \$1,526,558 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Tel-Instrument Electronics Corp., East Rutherford, New Jersey, is awarded a \$24,622,145 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides for a one-time modification and upgrade of three AN/USM-708 Common Radio Frequency Tester (CRAFT) systems and two AN/USM-719 ramp test sets, maintenance and repair of existing CRAFT systems, as well as the procurement of 682 CRAFT full rate production kits and installations in support of the Navy and Marine Corps aircraft and support equipment requirements. Work will be performed in East Rutherford, New Jersey, and is expected to be completed in August 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N6833522D0013).

RQ Construction LLC, Carlsbad, California, is awarded a \$10,210,179 firm-fixed-price modification to previously issued task order N6247321F4921 placed against contract N62473-21-D-1211. This modification provides for increasing the maximum dollar value of existing task order for the repair and maintenance of Michelson Laboratory Complex at Naval Air Weapons Station China Lake, California. Work will be performed in China Lake, California, and is expected to be completed by August 2025. After award of this modification, the total cumulative contract value will be \$243,040,197. Fiscal 2022 operation and maintenance (Navy) contract funds in the amount of \$10,210,179 are obligated at time of award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, China Lake, California, is the contracting activity.

August 11, 2022

Sealing Technologies Inc., Columbia, Maryland, is awarded a \$168,479,616 firm-fixed-price, task order for Defense Cyber Weapons Systems (DCWS), which are self-contained, fly away suites for Defensive Cyber Operations (DCO) teams to conduct vulnerability analysis, incident response, terrain mapping and other DCO functions. Work will be performed in Columbia, Maryland, and is expected to be complete by September 2027. Fiscal 2022 procurement (Marine Corps) funds; fiscal 2021 procurement (Marine Corps) funds; fiscal 2020 procurement (Marine Corps) funds; and fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$24,464,203 will be obligated on the task order immediately following contract award. Fiscal 2022 procurement (Marine Corps) funds will expire Sept. 30, 2025, and fiscal 2021 procurement (Marine Corps) funds will expire Sept. 30, 2024. Fiscal 2020 procurement (Marine Corps) funds will expire Sept. 30, 2023. Fiscal 2022 operation and maintenance (Marine Corps) funds will expire the end of the current fiscal year. This task order was competitively procured via the General Services Administration e-Buy website, with five offers received. The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-22-F-7700).

Complete Parachute Solutions, Deland, Florida, is awarded a \$36,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides product support management for the procurement of critical safety items and life support non-developmental items associated with the procurement, maintenance, and training of the Military Tactical (MT)-3 and MT-4 military free-fall parachute systems, as well as major components, repair parts, and ancillary equipment. Work will be performed in Deland, Florida, and is expected to be completed in August 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not

competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity (N6893622D0037).

Bath Iron Works, Bath, Maine, is awarded a \$35,335,032 cost-plus-award-fee modification to previously awarded contract (N00024-18-C-2313) for lead yard support effort for the DDG-51 Class Guided Missile Destroyer program. Work will be performed in Bath, Maine (95%); Brunswick, Maine (4%); and other locations collectively totaling 1% and is expected to be completed by June 2023. Fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$14,259,039 (99%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$101,104 (less than 1%); and fiscal 2013 shipbuilding and conversion (Navy) funds in the amount of \$33,074 (less than 1%) will be obligated at time of award, of which \$33,074 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Solute, San Diego, California, is awarded a \$32,791,176 modification to previously awarded contract N66001-21-D-0010 for Automated Digital Network Systems support. Work will be performed in Wahiawa, Hawaii (33%); Norfolk, Virginia (33%); Providence, Rhode Island (7%); Charleston, South Carolina (7%); Bahrain (10%); and Italy (10%) and is expected to be completed in November 2026. Funds will be obligated via task orders beginning in fiscal 2022. The types of funding to be obligated includes operations and maintenance (Navy); research, development, test and evaluation (Navy); other procurement (Navy); shipbuilding construction (Navy); and other funding, which may include Foreign Military Sales; Program Directive Air; and Navy Working Capital funds. The Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity.

Detyens Shipyards Inc., North Charleston, South Carolina, is awarded a \$16,485,523 firm-fixed-price contract (N3220522C2052) for a 70-calendar day shipyard availability for the mid-term availability of Military Sealift Command's fleet replenishment oiler USNS Patuxent (T-AO 201). This contract includes a base period and three options which, if exercised, would bring the cumulative value of this contract to \$16,657,623. Work will be performed in North Charleston, South Carolina, beginning Oct. 3, 2022, and is expected to be completed by Dec. 11, 2022. Fiscal 2023 working capital (Navy) funds in the amount of \$16,485,523 are obligated and will not expire at the end of the fiscal year. This contract was a small business set-aside with proposals solicited via the Government Point of Entry website and two offers received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

August 10, 2022

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a \$236,182,606 modification to previously awarded contract N00024-19-C-2125 for engineering, technical, design agent, and planning yard support for operational strategic and attack submarines. Work will be performed in Groton, Connecticut (70%); Kings Bay, Georgia (13%); Bangor, Washington (10%); Pearl Harbor, Hawaii (3%); North Kingston, Rhode Island (2%); and Newport, Rhode Island (2%), and is expected to be completed by September 2023. Fiscal 2022 other procurement (Navy) funding in the amount of \$5,550,000 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Serco Inc., Herndon, Virginia, is awarded a \$152,322,533 cost-plus-fixed-fee indefinite-delivery/indefinite-quantity contract. This contract provides program management support in support of the full acquisition lifecycle of the F-35 program, to include development, production, and sustainment. Work will be performed in Arlington, Virginia (93.53%); Dayton, Ohio (2.99%); Fort Worth, Texas (1%), and various locations within the continental U.S. (2.48%) and is expected to be completed in August 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; nine offers were

received. The Naval Air System Command, Patuxent River, Maryland, is the contracting activity (N0001922D0026).

Lockheed Martin Corp. Rotary and Mission Systems, Moorestown, New Jersey, is awarded a \$12,872,086 cost-plus-fixed-fee modification to previously awarded contract N6426718C0132 for AEGIS design agent field engineering services. This contract with all options exercised brings the cumulative value to \$63,992,064. Work will be performed in Norfolk, Virginia (30%); San Diego, California (30%); Pearl Harbor, Hawaii (10%); Wallops Island, Virginia (10%); Yokosuka, Japan (8%); Seattle, Washington (3%); Mayport, Florida (3%); Dahlgren, Virginia (3%); and Port Hueneme, California (3%), and is expected to be completed by September 2023. Fiscal 2022 other procurement (Navy) funds in the amount of \$823,839 (65%), FMS Japan funds in the amount of \$264,655 (21%); and fiscal 2022 operations and maintenance (Navy) funds in the amount of \$177,000 (14%) will be obligated at time of award, of which funding in the amount of \$177,000 will expire at the end of the current fiscal year. The Naval Surface Warfare Center, Port Hueneme Division, Port Hueneme, California, is the contracting activity.

Great Eastern Group Inc. (GEG), Fort Lauderdale, Florida (N3220519C3500), is awarded a \$9,196,649 option (P00052) for the fixed-price portion of a previously awarded, firm-fixed-price contract with reimbursable elements to exercise a one-year option period to support refueling and resupply of SBX-1. This is the third 12-month option and is part of a firm-fixed-price contract with reimbursable elements for one offshore support vessel, Hercules. This contract includes a 12-month base period, three 12-month option periods and one 11-month option period. Work will be performed in the U.S. Indo-Pacific Command's area of responsibility and is expected to be completed if all options are exercised by July 15, 2024. The option is funded by fiscal 2022 and fiscal 2023 research, development, test, and evaluation funds. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

August 9, 2022

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a not-to-exceed \$524,100,000 undefinitized modification (P00015) to a previously awarded fixed-price incentive (firm target) advanced acquisition contract (N0001920C0009). This modification increases the ceiling to procure long-lead time materials, parts, components, and effort for the production of seven Lot 15 F-35A aircraft, two Lot 15 F-35B aircraft, seven Lot 16 F-35A, and two Lot 16 F-35B aircraft for the government of Italy. Work will be performed in Fort Worth, Texas (57%); El Segundo, California (14%); Warton, United Kingdom (9%); Cameri, Italy (4%); Orlando, Florida (4%); Nashua, New Hampshire (3%); Baltimore, Maryland (3%); San Diego, California (2%); Nagoya, Japan (2%); and various undisclosed locations outside the continental U.S. (2%) and is expected to be completed in June 2025. Non-U.S. Department of Defense participant funds in the amount of \$524,100,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Liverpool, New York, is awarded a \$17,132,970 fixed-price-incentive-fee and firm-fixed-price modification to previously awarded contract N00024-19-C-6120 to exercise options for Navy equipment. Work will be performed in Liverpool, New York (66%); Millersville, Maryland (33%); and Marion, Massachusetts (1%), and is expected to be completed by September 2023. Fiscal 2022 other procurement (Navy) funds in the amount of \$10,195,828 (60%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$2,466,939 (14%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$2,466,939 (14%); fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$1,922,811 (11%); and fiscal 2021 other procurement (Navy) funds in the amount of \$80,453 (1%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

August 8, 2022

Mare Island Dry Dock LLC, Vallejo, California, is awarded a \$37,846,243 firm-fixed-price contract (N3220522C4055) for a 212-calendar day shipyard availability for the regular overhaul and drydocking availability for Military Sealift Command's submarine tender USS Frank Cable (AS 40). The contract includes options which, if exercised, would bring the total contract value to \$39,049,539. Work will be performed in Vallejo, California, and is expected to be completed by May 31, 2023. Contract funds in the amount of \$37,846,243 are obligated using fiscal 2022 working capital (Navy) funds. This contract was competitively procured with proposals solicited via the System for Award Management website and two offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220522C4055).

Cherico Construction Services LLC, Warner Robins, Georgia, is awarded a \$30,000,000 indefinite-delivery/indefinite-quantity contract for maintenance, repair, and alteration of roofing and incidental work related to roofing replacement and repairs on and around various government sites in the Beaufort Tri-Command, South Carolina, area of operations. The work to be performed includes, but are not limited to, locating and isolating roof leakage points and water infiltration, removal, repair and replacement of single-ply roofing systems, two-ply, modified bitumen roofing, asphalt shingles, and standing seam metal roofing. Work may also include limited demolition and replacement of felt underlayment, vapor-barriers, insulation, plywood decking, roof accessories including flashing, gravel stops, drip edges, and gutters and downspouts, the application of liquid applied roof coatings, the repair of joints and re-caulking, as well as demolition and repair/replacement of siding, copings and fascias associated with roof replacements and repairs. The term of the contract is not to exceed 60 months with an expected completion date of August 2027. The initial task order is being awarded at \$5,000 (minimum contract guarantee) at contract award. Supervision, inspection and overhead funds in the amount of \$5,000 are obligated on this award and will expire at the end of the current fiscal year. This contract was competitively procured via the System for Award Management website with three bids received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-22-D-0075).

Green Contracting Co., Inc., Baltimore, Maryland, is awarded a \$28,904,000 firm-fixed-price contract for replacement of the building central utility plant chillers and associated equipment and selected system components at the National Maritime Intelligence Center, Maryland. The work to be performed includes will include an all-inclusive replacement of the existing control system for the major heating, ventilation, and air conditioning equipment as well as distribution and terminal controls equipment in the entire building and adds a catwalk for a cooling tower. In addition, ancillary work from other trades (architectural, fire alarm/fire protection, and electrical) is required in support of the mechanical system modifications as well as, the controls replacement. Work will be performed in Suitland, Maryland, and is expected to be completed by October 2026. Fiscal 2022 military construction (Navy) contract funds in the amount of \$28,904,000 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the Procurement Integrated Enterprise Environment website with four proposals received. The Naval Facilities Engineering Systems Command, Washington, Washington, D.C., is the contracting activity (N40080-22-C-0010).

August 5, 2022

Raytheon Missiles & Defense, Tucson, Arizona, is awarded a \$57,089,967 firm-fixed-price modification to previously awarded contract N00024-18-C-5432 to exercise options for the Over-the-Horizon (OTH) Weapon System Encanistered Missiles. Work will be performed in Kongsberg, Norway (73%); Tucson, Arizona (10%); Schrobenuhausen, Germany (5%); Raufoss, Norway (4%); Louisville, Kentucky (4%); De Soto, Texas (2%); Huntsville, Arkansas (1%); and various other locations each less than 1% (1%) and is expected to be completed by September 2025. Fiscal 2022 procurement (Marine Corps) funds in the amount of \$57,089,967 will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington Navy Yard, Washington, D.C., is the contracting activity.

August 4, 2022

General Dynamics National Steel and Shipbuilding Co. (NASSCO), San Diego, California, is awarded an \$890,000,000 modification to previously awarded contract N00024-16-C-2229 for detail design and construction of fleet replenishment oilers T-AO 211 and 212. Additionally, this contract modification includes an option for the detail design and construction of T-AO 213 which, if exercised would bring the cumulative value of this contract modification to \$1,625,000,000. Work will be performed in San Diego, California (58%); Iron Mountain, Michigan (8%); Crozet, Virginia (5%); Beloit, Wisconsin (4%); Mexicali, Mexico (4%); Chula Vista, California (2%); Chesapeake, Virginia (2%); National City, California (1%); Pittsburgh, Pennsylvania (1%); Walpole, Massachusetts (1%); and various other locations less than one percent (14%) and is expected to be completed by June 2027. Fiscal 2022 shipbuilding and conversion (Navy) in the amount of \$890,000,000 (100%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Dynamics National Steel and Shipbuilding Co. (NASSCO), San Diego, California, is awarded a \$535,021,375 modification to previously awarded contract N00024-19-C-2235 for the procurement of detail design and construction of Expeditionary Sea Base (ESB) 8. Work will be performed in San Diego, California (69%); Santa Fe Springs, California (6%); Crozet, Virginia (6%); Mexicali, Mexico (4%); Houston, Texas (3%); National City, California (1%); Aliğa, Turkey (1%); Belle Chasse, Louisiana (1%); Pittsburgh, Pennsylvania (1%); and various other locations, each accounting for less than 1 percent (8%), and is expected to be completed by March 2026. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$535,021,375 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Triumph Gear System, Park City, Utah, is awarded a \$24,288,000 ceiling-priced, undefinitized contract action for the repair of the pylon conversion actuator used on the V-22 aircraft. All work will be performed in Park City, Utah, and is expected to be completed by August 2023. Fiscal 2022 working capital (Navy) funds will be used and funds will not expire at the end of the current fiscal year. One company was solicited for this sole-source requirement under authority 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-22-F-S800).

Able Heating and Air Conditioning Inc., Chula Vista, California, is awarded an \$11,693,978 firm-fixed-price task order (N6247322F4862) under previously awarded contract N62473-19-D-2421 for the design-bid-build repair of the Facility 3006 mess hall high-volume air conditioning system at Marine Corps Mountain Warfare Training Center. Work will be performed in Bridgeport, California, and is expected to be completed by November 2023. Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$11,693,978 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the Procurement Integrated Enterprise Environment website, with two offers received. The Naval Facilities Engineering Systems Command Southwest, San Diego, California, is the contracting activity.

General Atomics, San Diego, California, is awarded a \$9,632,005 firm-fixed-price order (N0001922F2298) against a previously issued basic ordering agreement (N0001921G0014). This order provides for the stand-up of a depot facility for prioritized depot level repairs and to address component level repair items, to include shipboard (on-equipment) repairs, and overhaul and turn in depot level repairable units (off-equipment) repairs over the lifecycle of the Electromagnetic Aircraft Launch System (EMALS). Work will be performed in San Diego, California, and is expected to be completed in April 2024. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$2,798,418; and fiscal 2022 other procurement (Navy) funds in the amount of \$34,817 will be obligated at the time of

award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a \$9,204,306 firm-fixed-price modification (P00005) to a previously awarded contract (N0001920C0003). This modification exercises an option to procure 36 Stand-off Land Attack Missile - Expanded Response (SLAMER) data link pod assemblies for the government of Saudi Arabia. Work will be performed in Indianapolis, Indiana (90%); and St. Louis, Missouri (10%), and is expected to be completed in December 2026. Foreign Military Sales customer funds in the amount of \$9,204,306 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

August 3, 2022

Raytheon Missile & Defense, Tucson, Arizona, is awarded a \$96,177,767 cost-plus-fixed-fee definitization modification to a previously awarded undefinitized contract action (N00024-22-C-5415) for maintenance & recertifications in support of the Evolved SeaSparrow Missile and NATO SeaSparrow Missile Systems programs. Work will be performed in Tucson, Arizona (90%); Mississauga, Canada (7%); Ottobrunn, Germany (1%); and various other locations each less than 1% (2% combined) and is expected to be completed by December 2022. If all options are exercised, work will continue through December 2025. Fiscal 2022 other customer funds in the amount of \$5,818,170 (83%); fiscal 2020 other customer funds in the amount of \$670,988 (9%), FMS (United Arab Emirates) funds in the amount of \$404,728 (5%); fiscal 2022 operations and maintenance (Navy) funds in the amount of \$67,981 (1%); fiscal 2022 other customer close-out funds in the amount of \$32,916 (1%); and fiscal 2021 other customer funds in the amount of \$30,122 (1%) will be obligated at time of award, of which \$67,981 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Veraxx Engineering Corp., Chantilly, Virginia, is awarded a \$40,841,034 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides for the upgrade, integration, and fielding of a completed baseline version of the Marine Corps Tactical Environment (TEn) for the four Marine Corps aircraft wings and complete integration of the TEn into Marine Corps aviation training systems and devices, as well as address interoperability bridges. Work will be performed in New River, North Carolina (15%); San Diego, California (15%); Oceanside, California (15%); Craven County, North Carolina (10%); Ginowan, Japan (10%); Kaneohe Bay, Hawaii (5%); Jacksonville, North Carolina (5%); Beaufort, South Carolina (5%); Twentynine Palms, California (5%); Yuma, Arizona (5%); Orlando, Florida (5%); Chicago, Illinois (1%); Fort Worth, Texas (1%); Lakehurst, New Jersey (1%); New Orleans, Louisiana (1%); and Chicopee, Massachusetts (1%). The work is expected to be completed in January 2028. No funds will be obligated at time of award. Funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Federal Acquisition Regulation 6.302-1. The Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity (N6134022D0009).

August 2, 2022

Huntington-Ingalls Inc. – Newport News Shipbuilding, Newport News, Virginia, is awarded a \$91,643,011 cost-plus-fixed-fee modification to previously awarded contract N00024-20-C-2109 for engineering, technical, trade, and program management support of industrial type work for submarine availabilities, facilities, and conversion. Work will be performed in Newport News, Virginia (90%); Kings Bay, Georgia (3%), Bremerton, Washington (2%); Pearl Harbor, Hawaii (2%); Kittery, Maine (2%); and Groton, Connecticut (1%), and is expected to be completed by September 2024. Fiscal 2022 other procurement (Navy) funds in the amount of \$2,907,560 (99.6%); fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$5,000 (0.2%); and Foreign Military Sales (United Kingdom)

funds in the amount of \$5,000 (0.2%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington D.C., is the contracting activity.

Schuyler Line Navigation Co. (SLNC), Annapolis, Maryland, is awarded a \$10,493,750 option (P00010) for contract N3220519C3504. The option is a firm-fixed-price contract with reimbursable elements to support Military Sealift Command's Sealift Program for operation and crewing for the transportation and/or prepositioning of cargo by the shallow draft tanker MT SLNC Pax. This option is the third of the current contract. The current contract includes a one-year firm period of the performance; one one-year option period; and one 11-month option period. The cumulative value of this contract, if all options are exercised, is \$51,436,350. Work will be performed in the Western Pacific Ocean, and is expected to be completed, if all options are exercised, by June 30, 2024. Fiscal 2022 working capital (Navy) funds in the amount of \$10,493,750 for option three are currently available for performance under this contract action. This contract was a small business set-aside with more than 50 companies solicited via the beta.sam.gov website and three offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

August 1, 2022

Rolls-Royce Corp., Indianapolis, Indiana, is awarded an \$854,368,644 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides depot-level engine repair services for the AE2100 D3 engine on the C/KC-130 aircraft in support of the Marine Corps and the government of Kuwait. Work will be performed in Winnipeg, Manitoba, Canada (60%); Alverca, Portugal (30%); San Antonio, Texas (5%); and Indianapolis, Indiana (5%), and is expected to be completed in July 2027. No funds will be obligated at the time of award. Funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; one offer was received. The Naval Air System Command, Patuxent River, Maryland, is the contracting activity (N0001922D0011).

Textron Systems Corp., Hunt Valley, Maryland, is awarded a \$48,436,094 cost-plus-fixed-fee, firm-fixed-price and cost reimbursable indefinite-delivery/indefinite-quantity contract. This contract provides hardware and incidental maintenance and repair services in support of advanced architecture phase, amplitude and time simulators for the electronic warfare systems integration test environment. The supplies and services will support system performance evaluation and integration of various electronic warfare systems. Work will be performed in Hunt Valley, Maryland, and is expected to be completed in December 2026. No funds will be obligated at the time of award. Funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to 10 U.S. Code 2304 (c)(1). The Naval Air Warfare Center Weapons Division, Point Mugu, California, is the contracting activity (N6893622D0002).

Lockheed Martin Space, Titusville, Florida, is awarded a \$25,651,592 cost-plus-fixed-fee modification (P00014) to exercise an option previously awarded, and to award new scope for propulsion viability modernization under contract (N0003021C0100) for Trident II (D5) missile production and deployed systems support. Work will be performed in Magna, Utah (81.3%); Denver, Colorado (13.3%); Sunnyvale, California (3.7%); Titusville, Florida (1.5%); and various places below one percent (0.2%). Work is expected to be completed July 1, 2025. The maximum dollar value of the modification is \$25,651,592. Fiscal 2022 weapons procurement (Navy) funds in the amount of \$22,523,075; and fiscal 2022 research, development, test, and evaluation (Navy) funds in the amount of \$3,128,517 will be obligated on this award. No funds will expire at the end of the current fiscal year. This contract is being awarded to the contractor on a sole source basis under 10 U.S. Code 2304(c)(1) and was previously synopsis on the Federal Business Opportunities website. Strategic Systems Programs, Washington, D.C., is the contracting activity.

Hill Defense and Federal Solutions Inc., Huntsville, Alabama, was awarded a \$15,337,889 firm-fixed-price contract for technical support services for the Chemical, Biological, Radiological, Nuclear and High-Yield Explosives (CBRNE) Consequence Management Program. The work to be performed provides Headquarters Marine Corps, Plans, Policies and Operations and Marine Corps Installations Command (MCICOM) with support in critical areas such as CBRNE response planning and policy development; logistics and equipment life-cycle sustainment; training and readiness; capabilities and threat assessments; information technology demonstration, verification, and validation. Services also include providing technical resources to perform a broad range of development, logistics, system acquisition and engineering, human performance, and integration functions. Work will be performed in Washington, D.C. (65%); Jacksonville, North Carolina (14%); and Carlsbad, California (21%). Work under the base contract period is expected to be completed August 2023. Fiscal 2022 operation and maintenance (Marine Corps and Navy) funds in the amount of \$2,155,937 will be obligated at the time of award and will expire at the end of the current fiscal year. MCICOM Headquarters, Arlington, Virginia, is the contracting activity (M95494-22-F-0007). (Awarded July 28, 2022)

Alpha Marine Services LLC, Galliano, Louisiana, was awarded an option (P00024) in the amount of \$11,019,430 for contract (N3220520C2257). The option is a firm-fixed-price contract with reimbursable elements to support Military Sealift Command's contract for the time charter of seven tractor-like tugs in support of Navy bases at Kings Bay, Georgia and Mayport, Florida. This option is the second of the current contract. The current contract includes a one-year, firm period of the performance, three, one-year options periods and one, 11-month option period. The cumulative value of this contract, if all options are exercised, is \$58,577,245. Work will be performed in Kings Bay, Georgia (50 %); and Mayport, Florida (50 %), and is expected to be completed, if all options are exercised, by June 30, 2025. Fiscal 2022 working capital (Navy) funds in the amount of \$11,019,430 for Option Two are currently available for performance under this contract action. This procurement was released under full and open competition, with an unlimited number of companies solicited via the beta.sam.gov website and three offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity. (Awarded July 29, 2022)

General Atomics - Aeronautical Systems Inc., Poway, California, is awarded a \$7,784,929 modification (P00009) to a previously awarded firm-fixed-price, cost-plus-fixed-fee contract (N0001920C0031). This modification provides three SkyTower I pods, three air vehicle installation kits, three ground control system installation kits, one lot of product support material/ancillary items, and two unmanned aircraft system modifications for the MQ-9A Reaper System for the Navy. Work will be performed in Poway, California (43.5%); Kaneohe Bay, Hawaii (35.5%); and Grey Butte, California (21%), and is expected to be completed in December 2023. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$1,750,926; and fiscal 2020 aircraft procurement (Navy) funds in the amount of \$6,034,003 will be obligated at the time of award, of which \$6,034,003 will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

July 29, 2022

CAE USA Inc., Tampa, Florida (N6134022D1001); BGI-Aero Simulation Inc. (ASI) JV LLC, Mount Pleasant, South Carolina (N6134022D1002); Valiant Global Defense Services Inc., San Diego, California (N6134022D1003); Delaware Resource Group of Oklahoma LLC, Oklahoma City, Oklahoma (N6134022D1004); Fidelity Technologies Corp., Reading, Pennsylvania (N6134022D1005); FlightSafety Defense Corp., Denver, Colorado (N6134022D1006); LB&B Associates Inc., Columbia, Maryland (N6134022D1007); Engineering Support Personnel Inc., Orlando, Florida (N6134022D2001); and LTSS JV, Minot, North Dakota (N6134022D2002), are awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity contract with the estimated aggregate ceiling of \$1,310,000,000. The contract provides sustainment services and training requirements in support of fielded training systems to include, training simulator contractor operation and maintenance services and contractor instructional services, with minor training simulator modifications, training simulator relocations, training systems management, in-service

engineering office support, spares/product support, and other related support services performed ancillary to contractor operation and maintenance services and contractor instructional services for the Naval Air Warfare Center Training Systems Division. Companies have an opportunity to compete for individual orders. Percentages for work performed at each location is unknown until award of task orders under this contract, however, work will be performed at Navy installations in Mayport, Florida; Norfolk, Virginia; Jacksonville, Florida; Whidbey Island, Washington; Key West, Florida; Fallon, Nevada; Pensacola, Florida; Lakehurst, New Jersey; New Orleans, Louisiana; Ft. Worth, Texas; Naval Submarine Base New London Groton, Connecticut; and U.S. Marine Corps Air Station Cherry Point, North Carolina, and is expected to be completed in August 2027. No funds will be obligated at the time of award. Funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal, seven offers were received, as well as, as a small business set aside request for proposal; two offers were received. The Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity.

AECOM Technical Services Inc., Los Angeles, California, is awarded a \$91,484,397 firm-fixed-price with award fee task order (N4008522F5863) under a multiple award construction contract for Berths 40 and 41 repairs at Norfolk Naval Shipyard, Portsmouth Virginia. The work to be performed provides for repairs to Berth 40 and 41 structural components by replacing deteriorated pile systems, cast-in-place concrete systems, pile caps, concrete beams, and fender pile systems. The maximum dollar value including the base period and the potential award fee is \$91,484,397. Work will be performed in Portsmouth, Virginia, and is expected to be completed by April 2024. Fiscal 2022 operation and maintenance (Navy) contract funds in the amount of \$91,484,397 are obligated on this award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website with three offers received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N62470-19-D-8022).

Hensel Phelps Construction Co., Honolulu, Hawaii, is awarded \$88,033,754 for firm-fixed-price task order N6247821F4079 modification A00004, under previously awarded multiple award construction contract N62478-20-D-4003. This modification provides for additional construction efforts for customer requested changes based on the concept design and the monthly reoccurring costs to maintain the construction security plan. Work will be performed in Oahu, Hawaii, and is expected to be completed by December 2023. Award of this modification brings the total cumulative contract value to \$218,561,048. Fiscal 2022 working capital (Navy) funds in the amount of \$88,033,754 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a not-to-exceed \$57,749,000 firm-fixed-price undefinitized order (N0001922F2498) against a previously issued basic ordering agreement (N0001921G0006). This order provides for the procurement of various initial spares and repair equipment in support of the MQ-25A Stingray air vehicle for the Navy. Work will be performed in St. Louis, Missouri (80%); and Indianapolis, Indiana (20%), and is expected to be completed in July 2025. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$57,749,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

TyBe-Garney Federal JV LLC, Newbern, Tennessee, is awarded a \$51,797,390 firm-fixed-price contract for replacement of potable water lines, and the energetics production fire suppression line at Naval Support Facility (NSF) Indian Head, South Potomac, Maryland. The work to be performed provides for replacement of potable water lines and fire suppression system throughout 80% of the NSF Indian Head site, consisting of approximately 140,000 linear feet of potable water and fire suppression water lines. The contract also contains eight unexercised options, which if exercised would increase cumulative contract value to \$64,518,681. Work will be performed in Indian Head, Maryland, and is expected to be completed

by June 2025. Fiscal 2019 military construction (Navy) funds in the amount of \$34,543,335 are obligated on this award and will not expire at the end of current fiscal year. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$17,254,055 are also obligated on this award and will expire at the end of the current fiscal year. This contract was competitively procured via the Navy Electronic Commerce Online website with two proposals received. The Naval Facilities Engineering Systems Command, Washington, Washington, D.C., is the contracting activity (N40080-22-C-0009).

Sustainable Building Solutions LLC, Washington, D.C., is awarded a \$45,000,000 firm-fixed-price modification to a previously awarded contract (N40080-21-D-0015). This modification provides for the exercise of Option 1 and increases the maximum dollar value of an indefinite-delivery/indefinite-quantity contract for roofing repairs and replacement at Naval Air Station Patuxent River, Maryland; Naval Support Facility (NSF) Indian Head, Maryland; and NSF Dahlgren, Virginia. Work will be performed in Patuxent River, Maryland (40%); Indian Head, Maryland (30%); Annapolis, Maryland (15%); and Dahlgren, Virginia (15%). Work is expected to be completed by July 2026. The total contract amount after exercise of this option will be \$18,000,000. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$9,000,000 are obligated on this award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Washington, Washington, D.C., is the contracting activity.

RC Construction Co., Inc., Greenwood, Mississippi, is awarded a \$41,447,725 firm-fixed-price contract for construction of a new rifle range at Marine Corps Recruit Depot Parris Island, South Carolina. The work to be performed provides for construction of new rifle range and range support buildings. Work will be performed in Port Royal, South Carolina, and is expected to be completed by April 2025. The maximum dollar value, including the base plus five options is \$41,447,725. Fiscal 2018, 2019 and 2020 military construction (Marine Corps) funds in the amount of \$41,447,725 will be obligated at the time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the Government Point of Entry contract opportunities on beta.sam.gov website with two proposals received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-22-C-0031).

Triumph Gear System, Park City, Utah, is awarded a \$24,288,000 ceiling-priced, undefinitized contract action for the procurement of one item used on the V-22 aircraft. All work will be performed in Park City, Utah, and is expected to be completed by July 2024. Fiscal 2022 working capital (Navy) funds will be used and will not expire at the end of the current fiscal year. One company was solicited for this sole-source requirement under authority 10 U.S. Code 2304 (c)(1), with one offer received. Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity (N00383-22-F-S801).

Coastal Enterprises of Jacksonville Inc., Jacksonville, North Carolina, is awarded a \$21,902,275 firm-fixed-price, indefinite-delivery/indefinite-quantity modification to previously awarded contract N40085-21-D-0064. This modification provides for grounds maintenance services for landscaping, mowing and trimming grass, weed control, and fire ant treatment for Marine Corps Base Camp Lejeune, North Carolina, and tenant commands, which include the Naval Medical Center, Marine Corps Special Operations Command, and Department of Defense Dependent Schools. Work will be performed in Jacksonville, North Carolina, and is expected to be completed in July 2023. This award brings the total cumulative face value of the contract to \$43,734,084. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$5,738,700 will be obligated at time of award, and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

Booz Allen Hamilton Inc., McLean, Virginia, is awarded a \$21,444,735 firm-fixed-price, cost-plus-fixed-fee hybrid modification (P00021) to exercise Option Period 4 under previously awarded task order (M95494-

18-F-0009). The work to be performed provides a variety of professional services to support Marine Corps Installations Command (MCICOM) Headquarters' (HQ) directorates in fulfilling mission deficiencies and providing enhanced capabilities. Broad level task areas required are program management; logistics program support; information technology program support; operations support; planning support; government and external affairs support; facilities support; and enterprise content management support. Work will be performed in Arlington, Virginia (100%). Work is expected to be completed August 2023. Fiscal 2022 operation and maintenance (Marine Corps and Navy) funds in the amount of \$21,444,735 will be obligated at the time of award and will expire at the end of the current fiscal year. MCICOM HQ, Arlington, Virginia, is the contracting activity (M95494-18-F-0009).

Huntington Ingalls Inc., Pascagoula, Mississippi, is awarded a \$13,071,106 firm-fixed-price modification to previously awarded contract N00024-20-C-6319 for continued studies of a large unmanned surface vessel. This contract modification includes options which, if exercised, would bring the cumulative value of this contract modification to \$ 15,071,106. Work will be performed in Pascagoula, Mississippi, and is expected to be completed by September 2024. If all options are exercised, work will continue through September 2024. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$149,998 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Corp., Baltimore, Maryland, is awarded an \$11,320,904 firm-fixed-price modification to previously awarded contract N00024-20-C-6320 for continued studies of a large unmanned surface vessel. This contract modification includes options which, if exercised, would bring the cumulative value of this contract modification to \$15,070,904. Work will be performed in Moorestown New Jersey, and is expected to be completed by September 2024. If all options are exercised, work will continue through September 2024. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$149,941 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

EMR Inc., Niceville, Florida, is awarded a \$10,881,000 firm-fixed-price contract for construction of a cryogenics facility at Marine Corps Air Station Beaufort, South Carolina. The work to be performed provides for the new construction of a low-rise cryogenics facility to include an administration/maintenance section, a liquid oxygen/nitrogen production section, and a covered storage area for gas cylinder storage. Work will be performed in Beaufort, South Carolina, and is expected to be completed by October 2024. The maximum dollar value including the base period and the planned modification is \$10,977,000. Fiscal 2018 and 2019 military construction (Marine Corps) funds in the amount of \$10,881,000 are obligated on this award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.sam.gov website with five offers received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N400085-22-C-0032).

Marinette Marine Corp., Marinette, Wisconsin, is awarded a \$10,212,620 firm-fixed-price modification to previously awarded contract N00024-20-C-6317 for continued studies of a large unmanned surface vessel. Work will be performed in Marinette, Wisconsin, and is expected to be completed by September 2024. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$149,841 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Bollinger Shipyards Lockport LLC, Lockport, Louisiana, is awarded a \$9,428,770 firm-fixed-price modification to previously awarded contract N00024-20-C-6316 for continued studies of a large unmanned surface vessel. This contract modification includes options which, if exercised, would bring the cumulative value of this contract modification to \$13,958,770. Work will be performed in Lockport,

Louisiana, and is expected to be completed by September 2024. If all options are exercised, work will continue through September 2024. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$149,933 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Austal USA LLC, Mobile, Alabama, is awarded a \$9,115,310 firm-fixed-price modification to previously awarded contract N00024-20-C-6315 for continued studies of a large unmanned surface vessel. This contract modification includes options which, if exercised, would bring the cumulative value of this contract modification to \$13,285,309. Work will be performed in Mobile, Alabama, and is expected to be completed by September 2024. If all options are exercised, work will continue through September, 2024. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$149,878 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Gibbs & Cox Inc., Arlington, Virginia, is awarded an \$8,981,231 firm-fixed-price modification to previously awarded contract N00024-20-C-6318 for continued studies of a large, unmanned surface vessel. This contract modification includes options which, if exercised, would bring the cumulative value of this contract modification to \$15,071,231. Work will be performed in Arlington, Virginia, and is expected to be completed by September 2024. If all options are exercised, work will continue through September 2024. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$149,899 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Goodwill Services Inc., Richmond, Virginia, is awarded an \$8,581,953 performance-based, firm-fixed-price, definitive contract (N6523622C1005) to provide supply chain and warehousing management services. These services include supply support, tracking reports, material physical distribution support, Defense Reutilization and Marketing Office operations support, material movement support and command consumables support. The contract includes a base-year plus four one-year option periods and a six-month option period. The option periods, if exercised, would bring the cumulative value of this contract to an estimated \$49,019,064. Fiscal 2022 working capital (Navy) funds in the amount of \$7,700,144 will be obligated at time of award. Funds will not expire at the end of the current fiscal year. Work will be performed in Charleston, South Carolina (70%); Norfolk, Virginia (29%); and New Orleans, Louisiana (1%), and is expected to be completed by July 2023. If all options are exercised, work could continue until January 2029. The contract was not competitively procured because it is a sole source acquisition negotiated under 10 U.S. Code 2304(c)(5). Naval Information Warfare Center Atlantic, Charleston, South Carolina, is the contracting activity.

Hadal Inc., Oakland, California, is awarded an \$8,222,536 cost-plus-fixed-fee contract for the Low Cost Spiral Wound Hull that supports multiple payloads. This contract provides for using spiral winding technology to lower the cost of high-quality carbon fiber composite unmanned underwater vehicle (UUV) hulls. The contractor shall develop UUV hull designs and components suitable for spiral winding. In the base effort, the contractor shall develop and prototype the first-generation spiral wound hulls, associated internal housings and payload deployment systems to assess the technology maturity. The contract also contains three unexercised options, which if exercised would increase cumulative contract value to \$23,604,065. Work will be performed in Oakland, California, and is expected to be completed by July 28, 2026. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$8,222,536 are obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured under N00014-22-S-B001 long range broad agency announcement (BAA) for Navy and Marine Corps Science and Technology dated Oct. 1, 2021. Since proposals are received throughout the year under the long-range BAA, the number of proposals received in response to the solicitation is unknown. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-22-C-2023).

July 28, 2022

General Dynamics Electric Boat Corp., Groton, Connecticut, is awarded a \$697,894,932 cost-plus-incentive-fee modification to previously awarded contract N00024-20-C-4312 for the maintenance, repair, and modernization efforts to execute the engineered overhaul of USS Hartford (SSN 768). Work will be performed in Groton, Connecticut, and is expected to be completed by October 2026. Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$649,806,585 (96%); and fiscal 2022 other procurement (Navy) funds in the amount of \$26,279,977 (4%) funding will be obligated at the time of award, and funds in the amount of \$649,806,585 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Amentum Services Inc., Germantown, Maryland, is awarded a \$49,721,547 firm-fixed-price, indefinite-delivery/indefinite-quantity contract that will include terms and conditions for the placement of firm-fixed-price task orders to provide spectrum management support services including planning, retention, protection and effective use of electromagnetic spectrum resources in support of the Navy and Marine Corps Spectrum Center and Naval Information Warfare Developmental Center. The contract will include a five-year base ordering period with an additional six-month ordering period option pursuant of Defense Federal Acquisition Regulation 52.217-8 — option to extend services, which if exercised, will bring the total estimated value to \$54,982,153. The base ordering period is anticipated to begin August 2022, and is expected to be completed by August 2027 — if the option is exercised, the ordering period will be completed by February 2028. Work will be performed in Germantown, Maryland (30%); Fort Meade, Maryland (12%); Norfolk, Virginia (12%); Suffolk, Virginia (11%); Oak Harbor, Washington (11%); Silverdale, Washington (3%); Camp H.M. Smith, Hawaii (3%); Jacksonville, Florida (3%); San Diego, California (3%); Naples, Italy (3%); Yokosuka, Japan (3%); Manama, Bahrain (3%); and Guam (3%). Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$10,000 will be obligated to fund the contract's minimum amount and funds will expire at the end of the current fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. This contract was competitively procured with the solicitation posted on beta.sam.gov and Navy Electronic Commerce Online, with two offers received. Naval Supply Systems Command Fleet Logistics Center Norfolk, Contracting Department Philadelphia Office, Philadelphia, Pennsylvania, is the contracting activity (N00189-22-D-Z032).

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$35,630,377 cost-plus-fixed-fee modification (P00001) to an order (N0001921F0849) against a previously issued basic ordering agreement (N0001919G0008). This modification adds scope to provide continued support for migrating program management from the Waterfall process to the Agile process for software development in support of the Next Generation Mission Planning software development process to follow the Agile methodology. Work will be performed in Fort Worth, Texas (90%); and Eglin, Florida (10%), and is expected to be completed in April 2025. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$11,750,000; fiscal 2022 research, development, test and evaluation (Air Force) funds in the amount of \$11,750,000; and non-U.S. Department of Defense participant funds in the amount of \$4,315,349 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

American Petroleum Tankers LLC (APT), Blue Bell, Pennsylvania (N3220520C4105), is awarded a \$27,740,000 option (P00008) for the fixed-price portion of a previously awarded, firm-fixed-price contract with reimbursable elements to exercise a one-year option period to support the Defense Logistics Agency (DLA) and provide ocean going transportation to meet the Department of Defense's (DOD) bulk fuel movement requirements. The M/T Empire State will provide worldwide support to assist DOD and DLA in meeting its requirements for global transportation of petroleum products. This contract includes a one-year-firm period of the performance, three one-year options periods and one 11-month option period which, if exercised, would bring the cumulative value of this contract to \$136,560,500. Work will be performed worldwide and is expected to be completed, if all options are exercised, by July 23,

2025. Fiscal 2022 working capital (Transportation) funds are obligated in the amount of \$27,740,000, and will not expire at the end of the fiscal year. This procurement was released under full and open competition, with an unlimited number of companies solicited via the beta.sam.gov website and two offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Sauer Inc., Jacksonville, Florida, is awarded a \$27,175,205 firm-fixed-price modification to previously awarded contract N40085-21-C-0028. This modification provides for the design-bid-build of Navy Munitions Command ordnance facilities recapitalization and construction of Magazines 7-10 at Naval Weapons Station Yorktown. Work will be performed in Yorktown, Virginia, and is expected to be completed by July 2024. This award brings the total cumulative face value of the contract to \$79,366,945. Fiscal 2022 military construction (Navy) funds in the amount of \$27,175,205 will be obligated at time of award, and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity.

Northrop Grumman Systems Corp., San Diego, California, is awarded a \$21,600,000 modification (P00031) to a previously awarded, fixed-price incentive (firm-target) contract (N0001918C1028). This modification provides additional labor and material to inline modify MQ-4C Triton unmanned aircraft system production assets (B16, B17, B18) to an integrated functional capability 4.0 multiple intelligence configuration by the incorporation of production engineering change proposals for the Navy. Work will be performed in San Diego, California (52.5%); Palmdale, California (38.3%); Salt Lake City, Utah (3.1%); Medford, New York (2.5%); and various locations within the continental U.S. (3.6%), and is expected to be completed in December 2023. Fiscal 2019 aircraft procurement (Navy) funds in the amount of \$21,600,000 will be obligated at the time of award. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Rolls-Royce Marine North America Inc., Walpole, Massachusetts, is awarded a \$19,799,198 firm-fixed-price, basic ordering agreement order for the procurement of one MT30 Marine Gas Turbine Engine and associated parts. Work will be performed in Walpole, Massachusetts, and is expected to be completed by May 2024. Fiscal 2022 other procurement (Navy) funds in the total amount of \$19,799,198 will be obligated at time of award, and will not expire at the end of the current fiscal year. This order was not procured competitively via the beta.sam.gov website in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity (N64498-22-F-4205).

Baldi Bros. Inc., Beaumont, California, is awarded a \$19,552,132 firm-fixed-price task order (N6247322F4708) for the repair of the Combat Aircraft Loading Area (CALA) at Naval Weapons Station China Lake, California. The work to be performed provides for repair of the CALA at the Armitage Airfield to include installing full electrical grounding with grid system, extending servicing utilities, installing lighting meeting United Facilities Code requirements for coverage and clearances, repairing CALA Parking Apron 3, and extending Taxiway Alpha to the CALA, providing a vehicle access road to the CALA and providing a cement soil stabilized area for vehicle parking near the CALA. Work will be performed at Ridgecrest, California, and is expected to be completed by July 2023. Fiscal 2022 operation and maintenance (Navy) contract funds in the amount of \$19,552,132 are obligated on this award and will expire at the end of the current fiscal year. This contract was not competitively procured via the beta.sam.gov website, in accordance with Defense Federal Acquisition Regulation 16.505. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-19-D-2438).

Hensel Phelps Construction Co., Honolulu, Hawaii, is awarded a \$19,443,365 firm-fixed-price task order (N6247821F4079) modification (A00003) under previously awarded multiple award construction contract N62478-20-D-4003. This modification provides for additional design effort for customer requested

changes based on the concept design and procure long lead electrical and mechanical equipment. Work will be performed in Oahu, Hawaii, and is expected to be completed by February 2023. Award of this modification brings the total cumulative contract value to \$130,527,294. Fiscal 2022 working capital (Navy) funds in the amount of \$19,443,365 will be obligated at time of award, and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Hawaii, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

Lockheed Martin Corp., Syracuse, New York, is awarded a \$17,356,948 cost-plus-incentive-fee delivery order (N00024-22-F-6210) to previously awarded, indefinite-delivery/indefinite-quantity contract N00024-19-D-6200 for the procurement of submarine modernization kits, equipment and installation. Work will be performed in Syracuse, New York, and is expected to be completed by August 2024. Fiscal 2022 other procurement (Navy) funds in the amount of \$17,356,948 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Alpha Marine Services LLC, Cut Off, Louisiana, is awarded a \$12,656,010 firm-fixed-price option (P00005) with reimbursable elements contract N3220521C4030 for the long-term charter of one U.S.-flagged Jones Act offshore supply vessel, MV Gary Chouest, to support Navy fleet requirements for towing, diving and salvage operations, submarine rescue, and training exercises. This contract includes a 12-month base period with two 12-month option periods, which, if exercised, would bring the cumulative value of this contract to \$38,008,507. Work will be performed primarily in the Atlantic Ocean and is expected to be completed, if all options are exercised, by July 29, 2024. Fiscal 2022 working capital (Navy) funds in the amount of \$12,656,010 are obligated for the option period and will not expire. This contract was competitively procured with proposals solicited via the Federal Business Opportunities website and two offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220521C4030).

Northrop Grumman Systems Corp., San Diego, California, is awarded an \$11,001,069 modification (P00061) to a previously awarded fixed-price incentive (firm-target) contract (N00019-15-C-0002). This modification provides additional labor and material to incorporate production engineering change proposals that modify MQ-4C Triton unmanned aircraft system production asset (B12) to an integrated functional capability 4.0 multiple intelligence configuration for the Navy. Work will be performed in San Diego, California (54.6%); Palmdale, California (40.5%); Medford, New York (2.1%); and various locations within the continental U.S. (2.8%), and is expected to be completed in June 2023. Fiscal 2017 aircraft procurement (Navy) funds in the amount of \$11,001,069 will be obligated at the time of award. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Vectrus Systems Corp., Colorado Springs, Colorado, is awarded an \$8,049,491 indefinite-delivery/indefinite-quantity modification to previously awarded contract N62470-20-D-0004. This modification provides for the exercise of Option 2 for base operating support services at U.S. Naval Support Facility, Deveselu, Romania. Work will be performed in Deveselu, Romania, and this option period is from August 2022 to July 2023. After award of this option, the total cumulative contract value will be \$27,682,315. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$5,901,674 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Europe, Africa Central, is the contracting activity.

UPDATE: R.E. Staite Engineering Inc., San Diego, California, is being awarded a credit modification in the amount of -\$7,876,104 due to a reduction in the scope of work for task order N6247320F4350 for construction of maintenance dredging piers 1-3, 7-8, 10 -13, and Chollas Creek at Naval Base San Diego, awarded Feb. 27, 2020.

July 27, 2022

Lockheed Martin Corp., a Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a not-to-exceed \$213,303,095, cost-plus-incentive-fee undefinitized contract. This contract provides engineering, maintenance, logistics, and material support, in support of Phase 2 upgrade of the Australia Canada United Kingdom Reprogramming Laboratory for the F-35 Joint Strike Fighter program. Additionally, this contract provides a new mission data production and test line to support sovereign reprogramming capabilities for the government of Australia and the United Kingdom's F-35 air vehicles. Work will be performed in Eglin, Florida (65%); and Fort Worth, Texas (35%), and is expected to be completed in July 2027. Non-Department of Defense participant funds in the amount of \$53,325,774 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N0001922C0062).

DRS Laurel Technologies, Johnstown, Pennsylvania, was awarded a \$33,628,358 firm-fixed-price modification to previously awarded contract N00024-20-C-5605 to exercise options for consoles, displays, and peripherals Technical Insertion 16 hardware in support of the Navy's future surface ship combat systems. Work will be performed in Johnstown, Pennsylvania, and is expected to be completed August 2023. Fiscal 2022 other procurement (Navy) funds in the amount of \$16,870,191 (48%); fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$11,449,447 (33%); Foreign Military Sales (Canada) funds in the amount of \$1,667,309 (5%); fiscal 2021 other procurement (Navy) funds in the amount of \$1,308,724 (4%); fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$556,004 (2%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$511,508 (2%); fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$437,390 (1%); fiscal 2022 weapons procurement (Navy) funds in the amount of \$416,631 (1%); fiscal 2015 shipbuilding and conversion (Navy) funds in the amount of \$255,332 (1%); fiscal 2016 shipbuilding and conversion (Navy) funds in the amount of \$106,164 (1%); fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$43,299 (1%); and Foreign Military Sales (Korea) funds in the amount of \$6,359 (1%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded July 25, 2022)

Lockheed Martin, Rotary and Missions Systems, Liverpool, New York, is awarded a \$30,596,828 firm-fixed-price modification to previously awarded contract N00024-20-C-5503 for provisioned item spares for the full rate production of Surface Electronic Warfare Improvement Program AN/SLQ-32(V)6, AN/SLQ-32A(V)6 and AN/SLQ-32C(V)6 systems. Work will be performed in Liverpool, New York, (78%); and Lansdale, Pennsylvania (22%), and is expected to be completed by November 2023. Fiscal 2022 working capital (Navy) funds in the amount of \$30,596,828 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

July 26, 2022

Reyes Construction Inc., Pomona, California, is awarded a \$24,926,000 firm-fixed-price task order (N6247322F4796) for construction of a high explosive magazine at Naval Base Ventura County, California. The work to be performed provides for the construction of a missile magazine with shotcrete cover. Pavement and landscaping, along with site improvements of access road, electrical power, lighting, and lightning protection are included. The maximum dollar value is \$24,926,000. Work will be performed in Ventura County, California, and is expected to be completed by January 2024. Fiscal 2018 and 2019 operation and maintenance (Navy) contract funds in the amount of \$24,926,000 will be obligated at time of award. Fiscal 2018 operation and maintenance (Navy) contract funds in the amount of \$11,504,257 will expire at the end of the current fiscal year. Fiscal 2019 operation and maintenance (Navy) contract funds in the amount of \$13,421,743 will not expire at the end of the current fiscal year. This contract was competitively procured via the Procurement Integrated Enterprise Environment website,

with two offers received. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62743-18-D-5862).

Raytheon Technologies Corp., Pratt and Whitney Military Engines, East Hartford, Connecticut, is awarded a \$14,895,376 modification (P00006) to a previously awarded, cost-plus-incentive-fee contract (N0001921C0068). This modification adds scope to provide for the planning, implementation, management, and reporting of sustainment affordability in support of initiatives that reduce future F-35 propulsion sustainment cost for the F-35 Joint Program Office. Work will be performed in East Hartford, Connecticut (61%); and Oklahoma City, Oklahoma (39%), and is expected to be completed in September 2024. Non-Department of Defense participant funds in the amount of \$14,895,376 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Hornbeck Offshore Operators LLC, Covington, Louisiana, was awarded an \$8,766,200 firm-fixed-price contract (N3220522C3102) for the operation and crewing of one Jones Act-qualified, U.S.-flagged vessel to support the Navy's submarine fleet operational and rescue requirements. This contract includes one 182-day base period, one 182-day option period, and one 120-day option period, which, if exercised, would bring the cumulative value of this contract to \$19,336,200. The vessel, HOS Rosebud, will provide support for Navy operations in the Atlantic Ocean. Working capital funds (Transportation) in the amount of \$8,766,200 are obligated for fiscal 2022 and will expire at the end of the fiscal year. This contract was competitively procured with proposals solicited via the System for Award Management website, and one offer was received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220522C3102). (Awarded July 20, 2022)

July 25, 2022

Black Construction – Tutor Perini JV, Harmon, Guam (N62742-19-D-1328); Caddell-Nan JV, Montgomery, Alabama (N62742-19-D-1329); Core Tech-HDCC-Kajima LLC, Tamuning, Guam (N62742-19-D-1330); Gilbane SMCC ECC LLC, Concord, California (N62742-19-D-1331); and Hensel Phelps Construction Co., Honolulu, Hawaii (N62742-19-D-1332), are awarded a \$98,500,000 modification to increase the maximum dollar value of the multiple award, indefinite-delivery/indefinite-quantity, design-build construction contracts for projects located primarily in Guam and other areas in the Naval Facilities Engineering Systems Command (NAVFAC) Pacific area of operations (AO). The work to be performed provides new construction, renovation, and minor construction and may include, but is not limited to, barracks/dormitories; administrative facilities; communication facilities; educational facilities; medical/dental/hospital facilities; dining facilities; industrial facilities; warehouse facilities, ranges, operational/training facilities, roads, streets, bridges, site utilities/infrastructure, dredging, and aviation facilities (including hangars and aprons) and other base development facilities. After award of these modifications, the total combined contract value will be \$1,088,500,000. Work will be performed primarily within the NAVFAC Pacific AO, to include Guam (80%); Commonwealth of the Northern Mariana Islands (10%); Hawaii (5%), and other areas in the Pacific and Indian Oceans (5%). The term of the contracts is not to exceed 60 months, with an expected completion date of September 2024. No funds will be obligated for the award of the contract modifications. Funds will be obligated on individual task orders and task order modifications as they are issued. NAVFAC Pacific, Joint Base Pearl Harbor-Hickam, Hawaii, is the contracting activity.

DZSP 21 LLC, Marlton, New Jersey, is awarded a \$95,961,836 cost-plus-award-fee contract for the exercise of Option Two for base operating support services at installations within Joint Region Marianas, Guam. The work to be performed provides for facility operations and maintenance support services for the following: management and administration; port operations; facility management; facility investment; utilities management; electrical; wastewater; steam; water; and base support vehicles and equipment. After award of this option, the total cumulative contract value will be \$628,474,704. Work will

be performed in Guam, and this option period is from August 2022 to July 2023. Fiscal 2022 operation and maintenance (Navy); fiscal 2022 operation and maintenance (Marine Corps); fiscal 2022 operation and maintenance (Defense); fiscal 2022 operation and maintenance (Army National Guard); fiscal 2022 medical facilities; and fiscal 2022 family housing operation and maintenance (Navy) contract funds in the amount of \$30,278,076 are obligated on this award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Marianas, Marianas, Guam, is the contracting activity (N62742-20-C-1199).

Progeny Systems Corp., Manassas, Virginia, is awarded a \$19,110,275 cost-plus-fixed-fee modification to previously awarded contract N00024-18-C-6265 to exercise options for engineering and technical services for software development, and hardware and software integration to Navy submarines. Work will be performed in Manassas, Virginia (65%); Middletown, Rhode Island (25%); and San Diego, California (10%), and is expected to be completed by July 2023. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$1,872,079 (88%); and fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$259,797 (12%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Rockwell Collins Inc., a part of Collins Aerospace, Cedar Rapids, Iowa, is awarded a \$16,282,947 cost-plus-fixed-fee, cost reimbursable modification (P00001) to a previously awarded contract (N0001922C0045). This modification adds scope to provide for the adoption and application of updated security classification requirements, as well as to provide a preliminary design analysis and solution trade studies for an updated Very Low Frequency (VLF) receiver solution in support of the developmental design and obsolescence mitigation engineering efforts for the airborne VLF system modernization in order to meet program capability requirements. The modernization effort is required to provide a compatible and producible VLF system to be integrated into a C-130 aircraft. Work will be performed in Richardson, Texas (90%); and Cedar Rapids, Iowa (10%), and is expected to be completed in February 2024. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$1,247,142 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Northrop Grumman Systems Corp., San Diego, California, is awarded a \$12,565,396 firm-fixed-price, cost-plus-fixed-fee, and cost-only modification to previously awarded contract N00024-17-C-6327 to exercise options for operational spares and engineering services in support of Joint Counter Radio-Controlled Improvised Explosive Device Electronic Warfare (JCREW) Increment One Block One (I1B1) Systems. Work will be performed in San Diego, California, and is expected to be complete by June 2024. Fiscal 2022 research, development, test and evaluation (Air Force) in the amount of \$1,737,000 (68%); and fiscal 2022 operations and maintenance (Air Force) in the amount of \$831,948 (32%) will be obligated at time of award and funds in the amount of \$831,948 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Rotary and Mission Systems, Owego, New York, is awarded an \$11,629,904 cost-plus-fixed-fee order (N0001922F2376) against a previously issued basic ordering agreement (N0001919G0029). This order provides non-recurring engineering for implementation of retrofit upgrades into Block 1 MH-60S aircraft to add additional capabilities to reach parity with Block 3 aircraft. These efforts include the design and develop of retrofit kits, preparation and delivery of associated technical directives, and validation/verification (Val/Ver) of the installations and instructions. Additionally, this order procures two Val/Ver kits, installation of the first kit, and support for Navy-led Val/Ver efforts. Work will be performed in Owego, New York, and is expected to be completed in July 2024. Fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$10,000,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Lockheed Martin Corp., Archbald, Pennsylvania, is awarded a \$9,239,385 cost-plus-fixed-fee order (N0001922F2549) against a previously issued basic ordering agreement (N0001919G0029). This order provides product improvement initiatives focused on the BDU-59C/B technology refresh that addresses diminishing manufacturing sources and material shortages, component issues, evaluates cyber security enhancements and architecture expansion toward a multimode trainer. Additionally, this order provides for continued integration of the Twin Lug Laser Guided Training Round onto the F-35 platform. Work will be performed in Archbald, Pennsylvania (65%); Amityville, New York (19%); and Dallas, Texas (16%), and is expected to be completed in July 2024. Fiscal 2021 procurement of ammunition (Navy and Marine Corps) funds in the amount of \$9,239,385 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Northrop Grumman Systems Corp., Rolling Meadows, Illinois, is awarded an \$8,516,341 cost-plus-fixed-fee modification (P00012) to an order (N0001918F0453) against a previously issued basic ordering agreement (N0001915G0026). This modification adds scope to provide non-recurring engineering to upgrade testing, production and repair capabilities to the current Department of the Navy Large Aircraft Infrared Countermeasures (DoN LAIRCM) and to implement mid-term corrective actions that will comply with security guidelines for all components of the DoN LAIRCM equipment. Additionally, this modification provides for the implementation of two software patches to the non-developmental item software baseline that the system processor software is built on and for the integration of newly developed control indicator to operate on Navy and Marine Corps platforms. Work will be performed in Rolling Meadows, Illinois, and is expected to be completed in April 2023. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$8,516,341 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

July 22, 2022

Austal USA LLC, Mobile, Alabama, is awarded a \$156,171,650 fixed-price incentive (firm target) modification to previously awarded contract N00024-21-C-2209 to exercise options for construction of two additional towing, salvage and rescue ships (T-ATS 13 and 14). This contract was originally awarded for the detail design and construction of T-ATS 11-15. The option for T-ATS 12 was exercised in 2021. These additional two options being exercised allow for the first four ships of the planned five ships. This contract includes options for associated support efforts related to the ship design and construction for special studies, engineering and industrial services, provisioned items orders, and pilot house mock-up. Work will be performed in Mobile, Alabama (54%); Chesapeake, Virginia (20%); Jacksonville, Florida (6%); Boca Raton, Florida (4%); and other suppliers representing less than 1% of contract value (16%). Work is expected to be complete in January 2026. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$156,171,650 will be obligated at time of award and will not expire at the end of the current fiscal year. This is a sole source contract. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

J&J and ALMS Mission Support Solutions LLC, Anchorage, Alaska, is awarded a \$27,856,781 single award, indefinite-delivery/indefinite-quantity contract for base operating support (BOS) services at Naval Air Station Pensacola and outlying areas, Saufley Field, Corry Station, and Bronson Field, Florida. The work to be performed provides for BOS services to include port operations, facility management, facility investment, pavement clearance, utilities management, electrical, natural gas, wastewater, steam, water, chiller, base support vehicles and equipment, environmental, and other related services. The contract also contains seven unexercised options, which if exercised would increase cumulative contract value to \$221,159,194. Work will be performed in Pensacola, Florida, and is expected to be completed by March 2024. Fiscal 2023 Defense Health Program; fiscal 2023 operation and maintenance, Navy (O&M, N); fiscal 2023 O&M, Marine Corps; fiscal 2023 family housing O&M, N; fiscal 2023 O&M, Air Force; fiscal 2023 O&M, Army Reserve; and fiscal 2023 operations and support, Coast Guard, Homeland Security, contract funds in the amount of \$21,058,265 for recurring work will be obligated on individual task orders

issued during the base period. No funds will be obligated at time of award. This contract was competitively procured via the Contract Opportunities SAM.gov website with eight proposals received. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity (N69450-22-D-0043).

Raytheon Missile and Defense, Tucson, Arizona, is awarded a \$17,514,310 cost-plus-fixed-fee modification (P00013) to a previously awarded contract (N0001920C0071). This modification adds scope to procure 40 learn to build AIM-9X Systems Improvement Program (SIP) III configured guidance units (GUs), and associated nonrecurring tooling and test equipment to support build and checkout of the SIP III GUs in a production factory environment for the Navy and Air Force. Work will be performed in Tucson, Arizona (52%); North Logan, Utah (10.9%); Saint Albans, Vermont (9.3%); Linthicum Heights, Maryland (5.8%); Murrieta, California (5.72%); Goleta, California (2.53%); Heilbronn, Germany (2.2%); Ann Arbor, Michigan (1.95%); Minneapolis, Minnesota (1.95%); Anaheim, California (1.62%); San Diego, California (1.37%); Midland, Canada (1.22%); and various locations within the continental U.S. (3.44%), and is expected to be completed in July 2024. Fiscal 2022 weapons procurement (Navy) funds in the amount of \$8,149,730; and fiscal 2021 missile procurement (Air Force) funds in the amount of \$8,149,730 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

EMR Inc., Niceville, Florida, is awarded a \$12,129,900 firm-fixed-price task order (N6945022F0661) under a multiple award construction contract for storm damage repairs to Buildings 4149 and 646 at Naval Air Station Pensacola, Florida, as part of Hurricane Sally Recovery Package 7A. The work to be performed provides for repairs to the buildings to include roof and exterior envelope repairs and interior damage repairs including, but not limited to, fire alarm system, heating, ventilation and air conditioning (HVAC) system, lighting and electrical distribution, ceilings, walls and flooring. Works also includes replacement of doors and windows on the east and west side of Building 646, replacement of HVAC on the east side of Building 646, suspended ceiling demolition, and fire alarm system repairs. The base bid plus Options 1 and 2 will be exercised at time of award. Work will be performed in Pensacola, Florida, and is expected to be completed by July 2024. Fiscal 2022 operation and maintenance, Air Force contract funds in the amount of \$12,129,900 are obligated on this award and will expire at the end of the current fiscal year. Five proposals were received for this task order. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity (N69450-22-D-0025).

Bath Iron Works (BIW), Bath, Maine (N00024-22-C-2318); and Huntington Ingalls Inc., Ingalls Shipbuilding (Ingalls), Pascagoula, Mississippi (N00024-22-C-2319), are being awarded cost-plus-award-fee, cost-plus-fixed-fee, and firm-fixed-price contracts for shipbuilder engineering and design analysis in order to produce design products in support of the Guided Missile Destroyer (DDG(X)) preliminary design and contract design. The specific contract award amounts for these requirements is considered source-selection sensitive information (see 41 U.S. Code 2101, et seq., Federal Acquisition Regulation (FAR) 2.101 and FAR 3.104) and will not be made public at this time. BIW work will be performed in Bath/Brunswick, Maine (99%); and Washington, D.C. (1%), and is expected to be completed by July 2023. Ingalls work will be performed in Pascagoula, Mississippi (84%); Avondale, Louisiana (12%); and Newport News, Virginia (4%), and is expected to be completed by July 2023. If all options are exercised, work will continue through July 2028 for each respective contract. Fiscal 2022 research, development, test and evaluation funds will be obligated at time of award for each contract, and will not expire at the end of the current fiscal year. These contracts were not competitively procured and are awarded without full and open competition per 10 U.S. Code 2304(c)(3), Industrial Mobilization; Engineering, Development, or Research Capability; or Expert Services. The Naval Sea Systems Command Headquarters, Washington, D.C., is the contracting activity (N00024-22-C-2319).

July 21, 2022

MN-BMcD ML JV, Norfolk, Virginia, is awarded a \$95,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity, architect-engineering (A-E) contract for waterfront large project services primarily in the Hampton Roads area of Virginia. The work to be performed provides for comprehensive A-E services and design and engineering services for projects ancillary to waterfront projects, such as buildings, roads, parking areas, railroads, bridges, culverts, foundations, retaining walls, and underground structures, etc. Engineering services may include, but is not limited to engineering investigations, failure investigation with destructive and non-destructive testing, seismic evaluation and retrofit, progressive collapse analysis, blast resistant design, civil engineering, survey, and engineering studies. Work will be performed at various Navy and other government facilities within the Naval Facilities Engineering Systems Command (NAVFAC) Mid-Atlantic area of operations. The term of the contract is not to exceed 60 months, with an expected completion date of July 2027. Task order 0001 is awarded at \$5,000 for the minimum contract guarantee. Fiscal 2022 operation and maintenance (Navy) funds in the amount of \$5,000 are obligated on this award and will expire at the end of the current fiscal year. Future task orders will be primarily funded by operation and maintenance or military construction funds. This contract was competitively procured via the beta.sam.gov website with three SF-330s received. NAVFAC Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-22-D-0047).

Fincantieri Marine Systems North America, Chesapeake, Virginia, is awarded a \$75,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract (N40027-22-D-1005) for support of Original Equipment Manufacturer (OEM) engineering and technical support on Littoral Combat Ship Freedom-Variant ships service diesel generators worldwide. This contract includes options which, if exercised, would not increase the cumulative value of this contract above \$75,000,000. Base year period of performance will take place from July 21, 2022, through July 20, 2023. Option Year One, if exercised, would have a period of performance from July 21, 2023, through July 20, 2024. Option Year Two, if exercised, would have a period of performance from July 21, 2024, through July 20, 2025. Option Year Three, if exercised, would have a period of performance from July 21, 2025, through July 20, 2026. Option Year Four, if exercised, would have a period of performance from July 21, 2026, through July 20, 2027. No funding will be obligated at time of award. This contract was procured as a sole source via the solicitation posted on the System for Award Management. The Southeast Regional Maintenance Center, Jacksonville, Florida, is the contracting activity.

Raytheon Missiles and Defense, Tucson, Arizona, is awarded a \$67,250,750 firm-fixed-price modification to a previously awarded, indefinite-delivery/indefinite-quantity contract (N0001921D0050). This modification exercises an option to continue to provide High-speed Anti-Radiation Missile guidance section and control section repairs, guidance section refurbishments, and guidance section subassembly repairs for the Navy, Air Force, and Foreign Military Sales customers. Work will be performed in Tucson, Arizona, and is expected to be completed in March 2024. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

KBR Wyle Services LLC, Lexington Park, Maryland, is awarded a \$37,962,837 cost-plus-fixed-fee, cost reimbursable, indefinite-delivery/indefinite-quantity contract. This contract provides technical analysis, engineering solutions, hardware integration, and life cycle services, to include: shipping of systems, components and parts, training and provision of training materials, technical manuals, system support, and technical assistance by phone, email, or on-site — in support of the Fleet Area Control and Surveillance Facility Air Control Tracking Systems for the Air Traffic Control and Landing Systems Division's Area Control Systems Branch at Naval Air Warfare Center Aircraft Division, Webster Outlying Field, Maryland. Work will be performed in St. Inigoes, Maryland (89.7%); Syracuse, New York (6.2%); Stafford, Virginia (1.9%); Twentynine Palms, California (1.8%); and Glendale, Colorado (0.4%), and is expected to be completed in February 2028. No funds will be obligated at the time of award. Funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; one offer was received. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity (N0042122D0097).

Rolls-Royce Corp., Indianapolis, Indiana, is awarded an \$8,472,695 modification (P00001) to a firm-fixed-price order (N0001922F2249) against a previously issued basic ordering agreement (N0001919G0013). This modification adds scope to provide test cell labor and associated materials and test cell commissioning in support authorized military overhaul facilities stand-up for the V-22 AE 1107C engine to include establishment of an indigenous depot-level maintenance and repair capability for the Rolls-Royce AE 1107C engine and integration of an AE 1107C engine test cell into existing facilities in support of the government of Japan. Work will be performed in Indianapolis, Indiana (27%); and Hyogo, Japan (73%), and is expected to be completed in February 2025. Foreign Military Sales funds in the amount of \$8,472,695 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

July 20, 2022

Heffler Contracting Group, El Cajon, California, is awarded a \$13,229,114 firm-fixed-price task order (N6247322F4694) for Bachelor Enlisted Quarters Building 634 repairs at Marine Corps Air Station Yuma, Arizona. The work to be performed provides for essential repairs, restoring all rooms to current standards for finishes, mechanical, plumbing and lighting systems. Work will be performed in Yuma, Arizona, and is expected to be completed by January 2024. Fiscal 2022 operation and maintenance (Marine Corps) contract funds in the amount of \$13,229,114 will be obligated at time of award, and will expire at the end of the current fiscal year. This contract was not competitively procured via the beta.sam.gov website, in accordance with Defense Federal Acquisition Regulation 16.505. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-20-D-1122).

July 19, 2022

Insitu Inc., Bingen, Washington, is awarded a \$160,317,104 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides training, test and engineering, development of engineering change proposals, operations support, organizational level maintenance, field service representatives, land and ship surveys, hardware site activations, hardware installs, repairs, and development of noncommercial software and data in support of RQ-21A Blackjack and ScanEagle unmanned aircraft platforms. Work will be performed in Bingen, Washington (88%); and various locations outside the continental U.S. (12%), and is expected to be completed in June 2026. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The contract was not competitively procured pursuant to 10 U.S. Code 2304(c)(1). The Naval Air System Command, Patuxent River, Maryland, is the contracting activity (N0001922D0038).

Crane Electronics Inc., Fort Walton Beach, Florida, is awarded a \$9,093,558 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the upgrade of ALQ-218 Weapons Replaceable Assembly 9 power supply Navy assets. This contract covers purchases for the Navy (96%) and the government of Australia (4%) under the Foreign Military Sales program. Work will be performed in Fort Walton Beach, Florida, and is expected to be completed by July 2027. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$710,064; fiscal 2021 aircraft procurement (Navy) funds in the amount of \$1,926,668; fiscal 2020 aircraft procurement (Navy) funds in the amount of \$340,956; and Foreign Military Sales funds in the amount of \$288,588 from the Royal Australian Air Force will be obligated at time of award. This contract was not competitively procured in accordance with 10 U.S. Code 3204(a)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. Naval Surface Warfare Center (NSWC), Crane Division, Crane, Indiana, is the contracting activity (N0016422DWS59).

July 18, 2022

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a not-to-exceed \$224,875,729 undefinitized modification (P00014) to a previously awarded, fixed-price incentive (firm-target), advanced acquisition contract (N0001920C0009). This modification increases the ceiling to procure long lead-time materials, parts, components, and effort for the production of three Lot 15 F-35A

aircraft and nine Lot 16 F-35 aircraft for the government of the Netherlands. Work will be performed in Fort Worth, Texas (57%); El Segundo, California (14%); Warton, United Kingdom (9%); Cameri, Italy (4%); Orlando, Florida (4%); Nashua, New Hampshire (3%); Baltimore, Maryland (3%); San Diego, California (2%); Nagoya, Japan (2%); and various undisclosed locations outside the continental U.S. (2%), and is expected to be completed in May 2026. Non-Department of Defense participant funds in the amount of \$224,875,729 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Conrad Shipyard LLC, Morgan City, Louisiana, is awarded a \$34,872,992 firm-fixed-price modification to previously awarded contract N00024-22-C-2253 for the detail design and construction of two additional Yard, Repair, Berthing, and Messing craft. Work will be performed in Amelia, Louisiana, and is expected to be completed by September 2024. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$34,872,992 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

L3 Technologies Inc., Camden, New Jersey, is awarded a \$14,949,148 fixed-price incentive (firm target), firm-fixed-price, cost-plus-incentive-fee, cost-plus-fixed-fee, cost-plus-award-fee, and cost reimbursement contract for Cooperative Engagement Capability (CEC) system production and repair. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$378,885,893. This contract will support Navy, Marine Corps, and future Foreign Military Sales requirements. Work will be performed in Largo, Florida (60%); Johnstown, Pennsylvania (20%); Salt Lake City, Utah (18%); and Lititz, Pennsylvania (2%), and is expected to be completed by November 2023. If all options are exercised, work will continue through November 2028. Fiscal 2022 research, development, test, and evaluation (Navy) funds in the amount of \$1,494,780 (43%); fiscal 2022 other procurement (Navy) funds in the amount of \$1,272,602 (37%); fiscal 2022 operations and maintenance (Navy) funds in the amount of \$300,000 (9%); fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$270,398 (8%); and fiscal 2017 shipbuilding and conversion (Navy) funds in the amount of \$100,000 (3%) will be obligated at time of award, of which \$300,000 will expire at the end of the current fiscal year. This contract was competitively procured via Sam.gov with two offers received. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-5218).

July 15, 2022

Booz Allen Hamilton Inc., McLean, Virginia, is awarded a \$171,768,424 cost-plus-fixed-fee, cost reimbursable, indefinite-delivery/indefinite-quantity contract. This contract provides technical, analytical, and managerial services to support the Naval Aviation Enterprise for strategic objectives and initiatives in support of its mission to sustain required current readiness and advance future warfighting capabilities. Work will be performed in Norfolk, Virginia (32%); San Diego, California (27%); Patuxent River, Maryland (13%); Arlington, Virginia (7%); Cherry Point, North Carolina (3%); New River, North Carolina (3%); Fort Worth, Texas (2%); Millington, Tennessee (2%); Washington, D.C. (1%); Yuma, Arizona (1%); various locations within the continental U.S. (8%); and various locations outside the continental U.S. (1%), and is expected to be completed in August 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; one offer was received. The Commander, Fleet Readiness Centers, Patuxent River, Maryland, is the contracting activity (N6852022D0002).

Q.E.D Systems Inc., Virginia Beach, Virginia (N55236-22-D-0005); South Bay Sand Blasting and Tank Cleaning Inc., National City, California (N55236-22-D-0006); and Bay City Marine Inc., National City, California (N55236-22-D-0007), are awarded an overall maximum ceiling value \$34,625,320 firm-fixed-price, multiple-award, indefinite-delivery/indefinite-quantity contract with a five-year ordering period to provide Commercial Industrial Services (CIS) heat exchangers repairs. The contract will provide labor,

services, equipment, and materials for the cleaning (high-pressure water jet, mechanical, and/or acid) of various shell-and-tube type heat exchangers, condensers, and/or coolers onboard Navy ships within a 50-mile radius of San Diego, California. These three companies will have an opportunity to compete for individual delivery orders. Each contract's ordering period begins July 15, 2022 and completes on July 14, 2027. Contract funds in the amount of \$30,000 (\$10,000 for minimum guarantee per contract) will be obligated under each contract's initial delivery order and expires at the end of the current fiscal year. The initial delivery orders are being funded with fiscal 2022 operation and maintenance (Navy) funds. These contracts were competitively procured via the beta.sam.gov website with four offers received. The Southwest Regional Maintenance Center, San Diego, California, is the contracting activity.

Lockheed Martin Rotary and Mission Systems, Baltimore, Maryland, is awarded a \$23,368,814 cost-plus-fixed-fee and cost-only modification to previously awarded contract N00024-20-C-5392 to exercise options for the engineering, design, and technical services in support of the MK 41 Vertical Launching System electronic systems and computer programs. This contract combines purchases by the U.S. (76%); and the governments of Japan (15%); Spain (7%); Canada (1%); and Chile (1%) under the Foreign Military Sales (FMS) program. Work will be performed in Baltimore, Maryland (35%); Moorestown, New Jersey (18%); Seattle, Washington (18%); San Diego, California (18%); and Ventura, California (11%), and is expected to be completed by July 2023. Fiscal 2022 research, development, test, and evaluation (defense-wide) funds in the amount of \$2,400,000 (73%); FMS (Japan) funds in the amount of \$500,000 (15%); FMS (Spain) funds in the amount of \$228,311 (7%); operation and maintenance (Navy) funds in the amount of \$99,951 (3%); FMS (Canada) funds in the amount of \$49,850 (1%); and FMS (Chile) funds in the amount of \$19,940 (1%) will be obligated at time of award, and funds in the amount of \$99,951 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington Navy Yard, Washington, D.C., is the contracting activity.

Professional Solutions¹ LLC, Alexandria, Virginia, is awarded a \$20,000,000 indefinite-delivery/indefinite-quantity contract (M67854-22-D-7904) for Marine Corps communication instructional services. This contract provides for instructional services in Microsoft, Cisco, radio wave, satellite, over-the-air transmissions systems, virtualization, network storage, and information assurance, as well as curriculum management and test administration for that training. Work will be performed at Camp Pendleton, California; Camp Lejeune, Jacksonville, North Carolina; and Marine Corps Base Camp Smedley Butler, Okinawa, Japan with an expected completion date of Jan. 14, 2028. The maximum dollar value is \$20,000,000. No funds are obligated at time of award. This contract was a competitive acquisition issued via the beta.sam.gov to all qualified offerors and four offers were received. The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity.

Georgia Tech Research Corp., Atlanta, Georgia, was awarded a \$9,284,660 cost reimbursement contract to develop and manufacture a point-of-need pathogen detection technology that will identify the underlying pathogens responsible for the human diseases of sepsis (bacteremia) and respiratory infection, as well as meet Food and Drug Administration requirements for regulatory approval. This two-year contract includes five options which, if exercised, would bring the potential value of this contract to \$24,582,734 and a period-of-performance of four years. Work will be performed at the contractor's facilities in Atlanta, Georgia (46%); Boston, Massachusetts (29%); Thurleigh, United Kingdom (19%); and Daresbury, United Kingdom (6%). The period of performance of the base award is from July 18, 2022, through July 17, 2024. If all option periods are exercised, the period of performance would extend through July 17, 2026. Contract funds in the amount of \$3,607,000 will be obligated at the time of award. This contract was competitively procured via a Defense Advanced Research Projects Agency broad agency announcement solicitation (HR001120S0016) published on the beta.sam.gov website. Seven proposals were received and two were selected for award. Naval Information Warfare Center Pacific, San Diego, California, is the contracting activity (N66001-22-C-4012). (Awarded July 14, 2022)

July 14, 2022

General Dynamics Mission Systems, Pittsfield, Massachusetts, is awarded a \$272,978,513 cost-plus-incentive-fee, cost-plus-fixed-fee, and cost-no-fee contract (N0003022C1003) for the technical engineering services necessary for Strategic Weapons Systems Fire Control Subsystem production to support the Common Missile Compartment production requirement. This contract award contains option line items and benefits a foreign military sale to the United Kingdom. Work will be performed in Pittsfield, Massachusetts (79%); Groton, Connecticut (7%); Kings Bay, Georgia (4%); Bangor, Washington (4%); the United Kingdom (4%); and Quonset Point, Rhode Island (2%). Work is expected to be completed June 30, 2028. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$22,954,906; and fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$11,707,422 are being obligated on this award. Of this amount, no funds will expire at the end of the current fiscal year. This contract is being awarded to the contractor on a sole-source basis under 10 U.S. Code 2304(c)(1) and was previously synopsisized on the System for Award Management online portal. Strategic Systems Programs, Washington, D.C., is the contracting activity.

Reyes Construction Inc., Pomona, California, is awarded a \$17,841,480 firm-fixed-price task order (N6247322F4774) for repair and stabilization of the landslide at Range 314C at Marine Corps Base Camp Pendleton, California. This contract provides for repair and stabilization of a newly constructed earthen cut slope and prevention of further erosion to the site. The maximum dollar value is \$17,841,480. Work will be performed in Oceanside, California, and is expected to be completed by Dec. 30, 2025. Fiscal 2022 operation and maintenance (Marine Corps) in the amount of \$17,841,480 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via Procurement Integrated Enterprise Environment website, with two offers received. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62743-18-D-5862).

North Star Scientific Corp., Kapolei, Hawaii, is awarded a \$14,389,417 firm-fixed-price order (N6833522F0001) against a previously issued basic ordering agreement (N6833519G0037). This order provides for the production and delivery of forty-one high power amplifier (HPA) units: six HPA units for System Configuration Set-11 E-2C aircraft; nine HPA units for E-2D crypto modernization and frequency remapping aircraft retrofits; eleven spare HPA units; and 15 HPA units for the government of Australia. Additionally, this order provides for the production and delivery of 19 HPA units and vibration isolating tray assemblies with integral air plenums: fourteen that are Multi-functional Information Distribution System - Joint Tactical Radio System (MIDS-JTRS) compatible, and five that are MIDS-JTRS Link-16 compatible. As well, as provides engineering and engineering data support for HPA units kitting, installation, and testing. Work will be performed in Kapolei, Hawaii (74%); and Carlsbad, California (26%), and is expected to be completed in July 2024. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$3,139,417; fiscal 2021 aircraft procurement (Navy) funds in the amount of \$6,250,000; and Foreign Military Sales funds in the amount of \$5,000,000 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

Harper Construction Co., Inc., San Diego, California, is awarded an \$11,758,822 firm-fixed-price modification to a previously issued task order (N6247320F4476) placed against contract N62473-17-D-0817. This modification provides for additional utilities for the aircraft protective equipment shelters, site/civil work for Hangar 95 site improvements, hazardous material storage locker and accessories, realignment of Taxiway C and F connection, and apron edge lighting at Marine Corps Air Station Yuma, Arizona. This modification brings the total cumulative face value of the contract to \$69,361,726. Work will be performed in Yuma, Arizona, and is expected to be completed by June 2023. Fiscal 2020 military construction (Navy) in the amount of \$11,758,822 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity.

July 13, 2022

Lockheed Martin Corp., Fort Worth, Texas, is awarded a \$70,939,979 cost-plus-incentive-fee modification (P00019) to a previously awarded contract (N0001920C0032). This modification increases scope to provide Reliability and Maintainability Improvement Program implementation and the Anomaly Failure Resolution System backlog in support of establishing improvements to the reliability, availability, and maintainability to the F-35 and continued improvements to the F-35 total ownership costs for the Air Force, Navy, Marine Corps, Foreign Cooperative Program partners, and Foreign Military Sales (FMS) customers. Work will be performed in Fort Worth, Texas, and is expected to be completed in July 2025. Fiscal 2022 aircraft procurement (Air Force) funds in the amount of \$26,126,160; Foreign Cooperative Program partners funds in the amount of \$23,054,504; fiscal 2022 aircraft procurement (Navy) funds in the amount of \$13,797,129; and FMS funds in the amount of \$7,962,186 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

General Dynamics-OTS Inc., Williston, Vermont, is awarded a \$7,800,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract action for the 40mm MK47 MOD0 Advanced Lightweight Grenade Launcher (ALGL) Weapon System sustainment parts, spares, and associated sub-assemblies for U.S. Special Operations Command, Special Operations Forces, and other warfighting commands. Work will be performed in Saco, Maine, and is expected to be completed by December 2023. Fiscal 2022 defense operation and maintenance in the amount of \$15,114 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) — only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Surface Warfare Center, Crane Division, Crane, Indiana, is the contracting activity (N0016422DJN64).

July 12, 2022

Management Services Group Inc., Virginia Beach, Virginia, is awarded a \$27,919,743 firm-fixed-price modification to previously awarded contract N00024-20-C-5608 to exercise options for Network, Processing, and Storage Technical Insertion 16, Modification 1 production equipment, spares, and engineering services. Work will be performed in Virginia Beach, Virginia, and is expected to be completed by February 2025. This contract combines purchases for the U.S. government (78%) and the government of Australia (22%) under the Foreign Military Sales (FMS) program. Fiscal 2022 other procurement (Navy) funds in the amount of \$12,688,709 (44%); fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$8,378,147 (30%); FMS (Australia) funds in the amount of \$6,152,185 (22%); fiscal 2020 shipbuilding and conversion (Navy) funds in the amount of \$299,727 (1%); fiscal 2021 other procurement (Navy) funds in the amount of \$286,651 (1%); fiscal 2019 shipbuilding and conversion (Navy) funds in the amount of \$94,513 (1%); and fiscal 2020 other procurement (Navy) funds in the amount of \$19,811 (1%) will be obligated at time of award, and \$19,811 will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

KBR Wyle Services LLC, Lexington Park, Maryland, is awarded a cost-plus-fixed-fee, cost-reimbursable \$9,578,933 modification (P00008) to a previously awarded contract (N0042120C0032). This modification exercises an option to provide F/A-18 program management, engineering, financial and logistics support for the governments of Finland and Kuwait. Work will be performed in Kuwait City, Kuwait (75%); and Patuxent River, Maryland (25%), and is expected to be completed in August 2023. Foreign Military Sales funds in the amount of \$8,975,346 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity.

July 11, 2022

WSM Pacific SIOP JV, Honolulu, Hawaii, is awarded \$35,991,143 for a firm-fixed-price modification to a previously issued task order (N4425522F4035) placed against basic contract N62742-21-D-0001. This modification provides for architect-engineer design services for the multi-mission dry dock at Puget Sound Naval Shipyard, Washington. Work will be performed in Bremerton, Washington, and is expected to be completed by September 2023. Fiscal 2022 military construction – planning and design (Navy) funds in the amount of \$35,991,143 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Northwest, Silverdale, Washington, is the contracting activity.

L-3 Communications Vertex Aerospace, Madison, Mississippi, is awarded a \$23,467,814 modification (P00021) to a previously awarded, firm-fixed-price, indefinite-delivery requirements contract. This modification extends services and adds hours for continued depot level maintenance, logistics, and sustaining engineering services in support of the C-12 Navy aircraft and the C-12 Marine Corps Reserve aircraft. Work will be performed in Belle Chasse, Louisiana (13.79%); Okinawa, Japan (13.79%); Bahrain (10.34%); Atsugi, Japan (10.34%); Guantanamo Bay, Cuba (10.34%); Iwakuni, Japan (6.9%); New River, North Carolina (6.9%); Beaufort, South Carolina (6.9%); Yuma, Arizona (6.9%); Patuxent River, Maryland (6.9%); Camp Pendleton, California (3.45%); and Misawa, Japan (3.45%), and is expected to be completed in January 2023. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded an \$18,775,412 firm-fixed-price modification (P00032) to a previously awarded contract (N0001918C1046). This modification exercises options to procure the following aircraft armament equipment for F/A-18E/F production aircraft: SUU-79C/A wing pylons for ten aircraft, SUU-80A/A low drag pylons for four aircraft, and ADU-773A/A adapters for twenty-two aircraft, as well as provide sustaining engineering. Work will be performed in Mesa, Arizona (79%); and St. Louis, Missouri (21%), and is expected to be completed in August 2028. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$18,775,412 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

BAE Systems Land & Armaments L.P., Minneapolis, Minnesota, is awarded an \$11,368,565 firm-fixed-price modification to previously awarded contract N00024-21-C-4106 for the manufacture and delivery of Virginia-class propulsor components and assembly. Work will be performed in Louisville, Kentucky (90%); and Minneapolis, Minnesota (10%), and is expected to be completed by February 2025. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$11,368,565 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is awarded a \$9,035,577 cost-plus-incentive-fee contract modification to previously awarded contract N00024-17-C-6259 to exercise an option for engineering design development and kit procurements. Work will be performed in Manassas, Virginia (65%); Clearwater, Florida (32%); Syracuse, New York (2%); and Marion, Florida (1%), and is expected to be completed by May 2027. Fiscal 2022 other procurement (Navy) \$9,035,577 funding will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

July 8, 2022

Environmental Chemical Corp., Burlingame, California, is awarded a \$126,361,709 firm-fixed-price contract for replacement of the Water Treatment Plant at Marine Corps Base Camp Lejeune, North

Carolina. The work to be performed provides for construction of an eight-million-gallons-per-day water treatment facility that utilizes membrane filtration technology to better enable compliance with current and future regulatory requirements in addition to addressing possible saltwater intrusion into the water supply aquifers. The contract also contains two unexercised options, which if exercised would increase cumulative contract value to \$128,979,095. Work will be performed in Jacksonville, North Carolina, and is expected to be completed by August 2025. Fiscal 2018 and fiscal 2022 military construction (Marine Corps) funds in the amount of \$126,361,709 will be obligated at the time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the Government Point of Entry Contract Opportunities on beta.sam.gov with three proposals received. The Naval Facilities Engineering Systems Command, Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-22-C-0026).

Jacobs Technology Inc., Fort Walton Beach, Florida, is awarded a \$64,643,734 cost-plus-fixed-fee, cost reimbursable contract. This contract provides air launch testing and materials to maintain, modify and/or enhance the Air Launch Test Capability Special Test Equipment (STE) as well as provides for the design and development of STE for the Underwater Launch Test Capability. Work will be performed in China Lake, California, and is expected to be completed in July 2024. Fiscal 2022 research, development, test, and evaluation (Navy) funds in the amount of \$4,212,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to U.S. Code 2304(c)(1). The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity (N6893622C0036).

Sikorsky Aircraft Co., a Lockheed Martin Corp., Stratford, Connecticut, is awarded a \$32,645,168 firm-fixed-price order (N6134022F7009) against a previously issued basic ordering agreement (N0001919G0029). This order procures one CH-53K containerized flight training device (2F243-2) based on low-rate initial production Lot 4 configuration in support of CH-53K phase II training system efforts. Work will be performed in Chantilly, Virginia (67%); Stratford, Connecticut (18%); and Orlando, Florida (15%), and is expected to be completed in December 2024. Fiscal 2022 aircraft procurement (Navy) funds in the amount of \$32,645,168 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Training Systems Division, Orlando, Florida, is the contracting activity.

Grammatech Inc., Ithaca, New York, is awarded a \$27,568,205 cost-plus-fixed-fee modification (P00007) to a previously awarded contract (N00014-21-C-1032) for the effort entitled, "Matured and Enhanced Total Platform Cyber Protection (TPCP) Technologies for Improved Security (METIS)." This modification provides for the execution of Options II and III. Work will be performed in Ithaca, New York, and is expected to be completed 12 months from date of option exercise. This action brings the cumulative value of this contract to \$27,568,205. The total value of Option II is \$6,893,203, and the total value of Option III is \$6,893,002. Option II will be fully funded in the amount \$6,893,203, and Option III will be incrementally funded in the amount of \$5,460,611. The remaining funds in the amount of \$2,586,186 provided under this modification will fully fund Option I previously exercised. Fiscal 2022 research, development, test, and evaluation (Navy) funds in the amount of \$14,940,000 are obligated at time of award and will expire at the end of the current fiscal year. The Office of Naval Research, Arlington, Virginia, is the contracting activity.

Raytheon Co., Largo, Florida, is awarded a \$27,066,210 firm-fixed-price modification to previously awarded contract N00024-20-C-5203 to exercise options for the Planar Array Antenna Assembly production requirements to support the Cooperative Engagement Capability program. This contract combines purchases for the U.S. government (90%) and the government of Canada (10%) under the Foreign Military Sales (FMS) program. Work will be performed in Largo, Florida (59%); McKinney, Texas (35%); St. Petersburg, Florida (3%); and Andover, Massachusetts (3%), and is expected to be completed by June 2024. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$10,826,484 (40%);

fiscal 2022 other procurement (Navy) funds in the amount of \$5,413,242 (20%); fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$5,413,242 (20%); fiscal 2018 shipbuilding and conversion (Navy) funds in the amount of \$2,706,621 (10%); and fiscal 2022 FMS (Canada) funds in the amount of \$2,706,621 (10%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Northrop Grumman Systems Corp., Linthicum Heights, Maryland, is awarded a \$15,418,946 cost-plus-fixed-fee contract for the Cooperative Engagement Replacement Elemental Digital Beamforming (EDBF) System (CERES) for Multi-Beam Array for Cooperative Engagement (MACE) — an advanced AESA (Active Electronic Steered Aperture) transceiver system for shipboard application. This contract provides for the development of a next-generation MACE transceiver array system prototype. This effort pursues an upgrade to the Planar Array Antenna Assembly (PAAA) Line Replacement Modules (LRMs) and array with new radio frequency and digital LRMs that provide simultaneous multi-beam communication capability. Work will be performed in Linthicum Heights, Maryland, and is expected to be completed by July 10, 2025. The maximum dollar value, including a 36-month base period with no option periods, is \$15,418,946. Fiscal 2021 research, development, test, and evaluation (Navy) funds in the amount of \$3,476,732 are obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured from Special Notice (N00014-21-S-SN13) entitled, “Multi-Beam Array for Cooperative Engagement (MACE) under (N00014-21-S-B001), entitled “Long Range Broad Agency Announcement for Navy and Marine Corps Science & Technology”. Seven proposals were received in response to the notice. The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-22-C-1067).

July 7, 2022

L3Harris Technologies Inc., Northampton, Massachusetts, is awarded a \$53,427,751 cost-plus-incentive-fee modification, cost-plus-fixed-fee, and firm fixed modification to previously awarded contract N00024-20-C-6249 for the procurement of production hardware and engineering services in support of new construction and in-service class submarines. This contract includes system production and associated components in support of all new-construction and in-service class submarines. Work will be performed in Northampton, Massachusetts (85%); and Manassas, Virginia (15%), and is expected to be completed by May 2025. Fiscal 2022 shipbuilding and conversion (Navy) funds in the amount of \$36,839,163 (69%); fiscal 2022 other procurement (Navy) funds in the amount of \$15,388,811 (29%); and fiscal 2022 research, development, test and evaluation (Navy) funds in the amount of \$1,199,777 (2%) will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

GW Management Services, Rockville, Maryland (N40080-20-D-0022); Biscayne Contractors Inc., Alexandria, Virginia (N40080-20-D-0023); Tuckman-Barbee Construction Co. Inc., Upper Marlboro, Maryland (N40080-20-D-0024); C.E.R. Inc., Baltimore, Maryland (N40080-20-D-0025), Belt Built-CFM JV, Crofton, Maryland (N40080-20-D-20026), EGI HSU JV LLC, Rockville, Maryland (N40080-21-D-0027); Desbuild EGMS JV LLC, Hyattsville, Maryland (N40080-21-D-0028); and Tidewater Inc., Elkridge, Maryland (N40080-21-D-0029), are awarded a combined \$48,000,000 firm-fixed-price modification under a multiple award construction contract. This modification provides for the exercise of Option 1 for construction projects located with the Naval Facilities Engineering Systems Command (NAVFAC) Washington Integrated Process Team (IPT) Blue area of operations (AO). The total cumulative contract amount after exercise of these option will be \$96,000,000. Work will be performed in the NAVFAC Washington IPT Blue AO, but not limited to, Maryland (35%); Virginia (35%); and Washington, D.C. (30%). The option period is from July 2022 to July 2023. No task orders are being issued at this time. No funds will be obligated at the time of award. Funds will be obligated on individual task orders as they are issued. Task orders will be primarily funded by fiscal 2022 and 2023 military construction (Navy); and operation and maintenance (Navy) funds. NAVFAC Washington, Washington, D.C., is the contracting activity.

Wiley Wilson Burns & McDonnell JV, Alexandria, Virginia, is awarded a \$15,000,000 firm-fixed-price modification under an indefinite-delivery/indefinite-quantity contract N40080-20-D-0018. This modification provides for the exercise of Option 2 for miscellaneous architect-engineering services for the general and administrative facilities at various locations in the Naval Facilities Engineering Systems Command (NAVFAC) Washington's area of operations (AO). The total contract amount after exercise of this option will be \$45,000,000. Work will be performed at various administrative facilities within the NAVFAC Washington AO, including, but not limited to, Maryland (35%); Virginia (35%); and Washington, D.C. (30%). The option period is from July 2022 to July 2023. No task orders are being issued at this time. No funds will be obligated at time of award, and funds will be obligated on individual task orders as they are issued. Task orders will be primarily funded by fiscal 2022 military construction (Navy); and operation and maintenance (Navy) funds. NAVFAC Washington, Washington, D.C., is the contracting activity.

Leidos Inc., Reston, Virginia, is awarded an \$11,970,130 cost-plus-incentive-fee contract for the design of the Medium Unmanned Undersea Vehicle. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$358,486,444. Work will be performed in Lynnwood, Washington (70%); Arlington, Virginia (10%); Newport, Rhode Island (10%); Long Beach, Mississippi (5%); and San Diego, California (5%), and is expected to be completed by June 2023. If all options are exercised, work will continue through June 2032. Fiscal 2021 research, development, test, and evaluation (Navy) funds in the amount of \$7,084,895 (59%); and fiscal 2022 research, development, test, and evaluation (Navy) funds in the amount of \$4,885,235 (41%) will be obligated at time of award, of which \$7,084,895 will expire at the end of the current fiscal year. This contract was competitively procured via the SAM.gov website, with four offers received. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-22-C-6303).

Cardno-Amec Foster Wheeler JV, Charlottesville, Virginia, is awarded an \$11,590,699 firm-fixed-price task order N6247322F4429 for BUILDER Sustainment Management System implementation at Marine Corps Base Hawaii, Hawaii; MCB Camp Smedley D. Butler, Japan; Marine Corps Air Station Iwakuni, Japan; and Marine Corps Installation Camp Mujuk, South Korea. Work will be performed in Hawaii, Japan, and South Korea, and is expected to be completed by October 2023. Fiscal 2022 operation and maintenance (Marine Corps) funds in the amount of \$11,590,699 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was not competitively procured via the sam.gov website in accordance with Federal Acquisition Regulation 16.505. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-20-D-0615).

July 6, 2022

Albatrosses Global Shipping Services LLC, Dubai, United Arab Emirates (N68171-22-D-H001); Fine Foods Logistics WLL, Manama, Bahrain (N68171-22-D- H002); Gelasakis Tourism Hotel Services S.A., Piraeus, Attica, Greece (N68171-22-D- H003); Medmar Tramp SRL, Genoa, Italy (N68171-22-D- H004); National Shipping Agency S.A., Souda, Crete, Greece (N68171-22-D- H005); Norton Lilly International Inc., Mobile, Alabama (N68171-22-D- H006); Serco Inc., Herndon, Virginia (N68171-22-D- H007); and Ziya Göksel Shipping Agency Ltd., Istanbul, Turkey (N68171-22-D- H008), is awarded an estimated \$1,061,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity multiple award contract under previously awarded request for proposal N68171-20-R-0005 adding new husbanding service provider contractors to an existing 2020 global multiple award contract (GMAC) for the remaining three years and two months within the initial GMAC. The existing GMAC included a five-year base ordering period with one five-year option with individual requirements performed under task orders when specific dates and locations are identified. The GMAC is to provide husbanding, management and integration services consisting of general charter and hire, utilities, force protection, communications, and land transportation services to support maritime forces of the Department of Defense, other U.S. government agencies, and other nations to include Navy ships, Marine Corps, Military Sealift Command (MSC), Air Force, Army, Coast Guard, NATO, and other foreign vessels participating in U.S. military or NATO exercises and

missions. If the option period is exercised, the total estimated value of the contracts combined will have a ceiling value of \$2,122,000,000. The ordering period of the contract is expected to be completed by October 2025; if all options are exercised, the ordering period will be completed by October 2030. The contracts will run concurrently, and work will be performed in thirty geographic regions: United Arab Emirates (14%); Philippines (10%); Djibouti (7%); Eastern U.S. and U.S. territories (6%); Southeastern Asia 2 (5%); Indian Ocean (5%); South Korea (5%); South America (5%); Singapore (4%); Western U.S. California (4%); Southeastern Asia 1 (3%); Bahrain (3%); Oman (3%); Oceania (2%); China and Russia (2%); United Kingdom/Western Europe (North Sea) (2%); Italy (2%); Eastern Europe/Black Sea (2%); Western Europe (Mediterranean) (2%); Northern Atlantic (2%); Panama (2%); North America (2%); Japan (1%); Greece (1%); Africa (1%); Middle East (1%); Central America (1%); Caribbean and Bermuda (1%); Eastern U.S. territories (1%); and Western U.S. territories (1%). Due to the fact that the specific requirements for husbanding support cannot be predicted at this time, more specific information about where the work will be performed cannot be currently provided. Fiscal 2022 operations and maintenance (Navy) funds in the amount of \$24,000 will be obligated (\$3,000 on each of the eight contracts to fund the contracts' minimum amounts), and funds will expire at the end of the current fiscal year. Additional funds will be obligated at the task order level with the appropriate fiscal year funding as issued by the main type commanders for each area of responsibility. Typical funding issued by each of the customers include operations and maintenance (Navy) funds from U.S. Fleet Forces Command and working capital funds (Navy) from MSC. The requirement was competitively procured for the award of multiple contracts with the solicitation posted on SAM.gov with thirty offers received. Naval Supply Systems Command Fleet Logistics Center Sigonella, Naples Detachment, Italy, is the contracting activity.

Ultra Electronics Ocean Systems Inc., Braintree, Massachusetts, is awarded an indefinite-delivery requirements contract in the amount of \$42,099,961. The contract contains firm-fixed-price, cost-plus-fixed-fee, and cost reimbursable contract line items supporting the production and delivery of Acoustic Device Countermeasure (ADC) MK 2 and ADC MK 2 training devices used on surface vessels and submarines. This contract has a five-year ordering period from fiscal years 2022 to 2027, and potential deliveries of Foreign Military Sales units and services in support of the United Kingdom and the Netherlands. Work will be performed in Braintree, Massachusetts (96%); Chantilly, Virginia (2%); and Wake Forest, North Carolina (2%), with an ordering period through July 2027. Fiscal 2022 weapons procurement (Navy) funds in the amount of \$2,245,494 (39%); fiscal 2022 other procurement (Navy) funds in the amount of \$2,194,266 (38%); and fiscal 2021 weapons procurement (Navy) funds in the amount of \$1,357,542 (23%) will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively solicited via the System for Award Management website, with one offer received. The Naval Undersea Warfare Center Division Keyport, Keyport, Washington, is the contracting activity (N00253-22-D-0002).

Booz Allen Hamilton Inc., McLean, Virginia, is awarded a \$15,542,959 firm-fixed-price modification (P00014) to previously awarded contract M67400-18-F-0065 to exercise Option Year Four for analysis support services for III Marine Expeditionary Force and Marine Corps Installations Pacific (MCIPAC). Work will be performed in Okinawa, Japan, and is expected to be completed July 7, 2023. Fiscal 2022 operations and maintenance (Marine Corps) funding in the amount of \$15,542,959 will be obligated at the time of award and will expire at the end of the current fiscal year. The MCIPAC Regional Contracting Office, Marine Corps Base Camp Butler, Okinawa, Japan, is the contracting activity.

July 5, 2022

Lockheed Martin Rotary and Mission Systems, Manassas, Virginia, is awarded a \$185,922,484 cost-plus-incentive-fee contract modification to previously awarded contract N00024-20-C-6117 to exercise an option for engineering design and development. Work will be performed in Manassas, Virginia (65%); Clearwater, Florida (32%); Syracuse, New York (2%); and Marion, Florida (1%), and is expected to be completed by September 2023. Fiscal 2022 research, development, test, and evaluation (Navy) funds in the amount of \$17,829,479 (97%); and fiscal 2022 shipbuilding and conversion (Navy) funds in the

amount of \$535,657 (3%) will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington Navy Yard, Washington, D.C., is the contracting activity.

Lockheed Martin Corp., Fort Worth, Texas, is awarded a \$22,636,575 firm-fixed-price modification (P00079) to a previously awarded contract (N0001917C0001). This modification adds scope to procure 22 Electro-Optical Distributed Aperture System shipsets for Distributed Aperture System for Technology Refresh-3 developmental and operational testing, Block 4 testing, the Electromagnetic Environmental Effects aircraft, and a spare sensor set provision in support of F-35 Lightning II next generation capabilities. Work will be performed in McKinney, Texas (90%); and Fort Worth, Texas (10%), and is expected to be completed in July 2023. Fiscal 2022 research, development, test, and evaluation (Air Force) funds in the amount of \$9,275,181; and fiscal 2022 research, development, test, and evaluation (Navy) funds in the amount of \$9,275,180 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

July 1, 2022

Northrop Grumman Systems Corp., Woodland Hills, California, is awarded a \$337,943,520 cost-plus-fixed-fee, firm-fixed-price and cost reimbursable indefinite-delivery/indefinite-quantity contract. This contract provides researching alternatives, investigating, and documenting new capabilities and anomalies related to H-1 avionics and weapons; and the development, integration, verification, validation, and testing of H-1 Integrated Avionics Systems, as well as identifies maintenance capabilities, upgrading and/or updating test equipment and other support equipment required to support the systems. Work will be performed in Woodland Hills, California (99%); and various locations within the continental U.S. (1%) and is expected to be completed in June 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to Defense Federal Acquisition Regulation 6.302-1. The Naval Air Warfare Center Weapons Division, China Lake, California, is the contracting activity (N6893622D0028).

Tactical Air Support Inc., Jacksonville, Florida, is awarded a \$265,300,000 firm-fixed-price, cost reimbursable, indefinite-delivery/indefinite-quantity contract. This contract provides non-recurring engineering, inspection, modification, and block upgrade efforts for 16 F-5E and six F-5F Tiger II aircraft from a Swiss Confederation configuration to a Navy/Marine Corps N+/F+ configuration. Additionally, this contract procures eight block upgrade retrofits to existing fleet aircraft. Work will be performed in Jacksonville, Florida (32%); Emen, Switzerland (16%); Carlsbad, California (8%); Clarksburg, Maryland (7%); Grand Rapids, Michigan (6%); Woodland Hills, California (5%); Olathe, Kansas (5%); Stead, Nevada (5%); Salt Lake City, Utah (3%); Minneapolis, Minnesota (2%); Waco, Texas (2%); Auburn, Alabama (1%); Deerfield, Illinois (1%); Fairborn, Ohio (1%); Avenel, New Jersey (1%); Jupiter, Florida (1%); Camarillo, California (1%); Warner Robbins, Georgia (1%); Franklin, North Carolina (1%); and Nashville, Tennessee (1%), and is expected to be completed in June 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was not competitively procured pursuant to U.S. Code 2304(c)(1). The Naval Air Warfare Aviation Division, Patuxent River, Maryland, is the contracting activity (N0042122D0095).

Lockheed Martin Corp., Rotary and Missions Systems, Moorestown, New Jersey, is awarded a \$192,393,066 cost-plus-incentive-fee modification to previously awarded contract N00024-21-C-5127 for technical engineering and management efforts for the Australia Surface Combatant program. This contract involves Foreign Military Sales to the government of Australia. Work will be performed in Moorestown, New Jersey (94%); Camden, New Jersey (5%); Adelaide, Australia (1%), and is expected to be completed by September 2025. Foreign Military Sales (Australia) funding in the amount of

\$60,755,703 will be obligated at the time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Nakapuna Solutions LLC, Arlington, Virginia, is awarded a \$24,000,000 sole-source, indefinite-delivery/indefinite-quantity contract for the maintenance and support services for the Contract/Grant Award Management Information System (CAMIS). This contract provides for the performance of post-award administration on contracts and grants with universities and nonprofit research organizations. These services include but are not limited to payment administration, closeout, purchasing system reviews, negotiation of indirect cost rate agreements, quality assurance, and other efforts needed to facilitate performance under awards to those institutions for the Office of Naval Research (ONR), University Business Affairs, ONR Code 24. CAMIS facilitates cash management of grants and ensures that universities can expend funds at a rate sufficient to protect ONR research budgets. It also tracks other Department of Defense delegated awards from issuance to closeout and has many automatic functions that support monitoring performance, report submission, property administration, and electronic invoice processing. Work will be performed remotely or in Arlington, Virginia. The maximum dollar value, over the seven-year ordering period from Sept. 6, 2022, through Sept. 6, 2029, is \$24,000,000. Fiscal 2022 research, development, test, and evaluation funds in the amount of \$1,100,000 will be obligated on a cost-plus-fixed-fee task order at time of award. The first task order will be issued for a cost-plus-fixed-fee total of \$3,123,105. This contract was solicited on a sole source basis under the authority of 10 U.S. Code 2304(c)(5). The Office of Naval Research, Arlington, Virginia, is the contracting activity (N00014-22-D-4002).

Detyens Shipyards Inc., North Charleston, South Carolina, is awarded a \$22,670,778 firm-fixed-price contract (N3220522C4254) for a 120-calendar day shipyard availability for the regular overhaul and dry-docking on the fast combat support ship USNS Supply (T-AOE 6). The contract includes seven options, which, if exercised, would bring the total contract value to \$24,462,335. Work will be performed in North Charleston, South Carolina, and is expected to be completed by Jan. 19, 2023. Contract funds in the amount of \$22,670,778 are obligated in fiscal 2022 working capital funds (Navy); and do not expire at the end of the fiscal year. This contract was competitively procured with proposals solicited via the beta.sam.gov website and three offers were received. The Navy's Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Tyonek Services Overhaul Facility - Stennis LLC, Kiln, Mississippi, is awarded an \$8,847,124 cost-plus-fixed-fee contract. This contract provides maintenance support services for aircraft, aircraft engines and associated components/materials, including diagnostic testing performed with automated equipment, calibration, repair, or replacement of damaged or unserviceable parts, components, or assemblies, limited manufacture of parts, and on aircraft/equipment technical assistance to operational level activities for the Fleet Readiness Center Mid-Atlantic detachment Patuxent River. Work will be performed in Patuxent River, Maryland, and is expected to be completed in June 2023. Fiscal 2022 working capital (Navy) funds in the amount of \$1,657,471 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was competitively procured via an electronic request for proposal; four offers were received. Commander Fleet Readiness Center, Patuxent River, Maryland, is the contracting activity (N6852022C0010).
