

June 25, 2021

Alabama Shipyard LLC, Mobile, Alabama, is awarded a \$19,679,483 firm-fixed-price contract (N32205-21-C-4128) for a 76-calendar day shipyard availability for the regular overhaul/dry docking on USNS Lewis and Clark (T-AKE 1). The contract includes options which, if exercised, would bring the total contract value to \$21,847,693. Work will be performed in Mobile, Alabama, and is expected to be completed by May 24, 2021. Contract funds in the amount of \$19,679,483 are obligated in fiscal 2021 using working capital funds (Navy). This contract was competitively procured with proposals solicited via the beta.Sam.gov website and three offers were received. The Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Progeny Systems Corp.,* Manassas, Virginia, is awarded a \$15,480,788 cost-plus-fixed fee and cost-only modification to previously awarded contract N00024-19-C-6204 to exercise options for engineering and technical services for Navy submarines and aircraft carriers. This option exercise is under Small Business Innovation Research Topic N05-051, for software build production, engineering and technical services and includes all material travel, subsistence and incidental material in support of the related production orders and services. Work will be performed in Manassas, Virginia (30%); Groton, Connecticut (25%); Bremerton, Washington (15%); Las Vegas, Nevada (10%); Cleveland, Ohio (10%); Chesapeake, Virginia (4%); Pearl Harbor, Hawaii (2%); San Diego, California (2%); and Kings Bay, Georgia (2%), and is expected to be completed by January 2022. Fiscal 2017 shipbuilding and conversion (Navy) \$1,900,000 funding will be obligated at the time of award and will expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

General Electric Co., Niskayuna, New York, is awarded a \$10,197,968 cost-type contract to develop a mobile automated manufacturing platform to provide just-in-time manufacturing of nucleic acid countermeasures to rapidly produce, formulate and package doses of nucleic acid therapeutics or prophylactics. This two-year contract includes three one-year option periods which, if exercised, would bring the potential value of this contract to an estimated \$41,219,762. Work will be performed at the contractor's facilities in Niskayuna, New York (52%); San Diego, California (24%); Le Kremlin-Bicêtre, France (20%); and Seattle, Washington (4%). The period of performance of the base award is from Jan. 25, 2021, through Jan. 24, 2023. If all option periods are exercised, the period of performance would extend through Jan. 24, 2026. Funds in the amount of \$1,973,062 will be obligated at the time of award. Contract funds will not expire at the end of the current fiscal year. Fiscal 2021 funds will be obligated using research, development, test and evaluation funding from the Defense Advanced Research Projects Agency (DARPA). This contract was competitively procured via a DARPA broad agency announcement solicitation (HR0011-20-S-0006) published on the beta.SAM.gov website. Ten proposals were received and two were selected for award. The Naval Information Warfare Center, Pacific, San Diego, California, is the contracting activity (N66001-21-C-4014).

January 22, 2021

Transoceanic Cable Ship Co. LLC, Baltimore, Maryland, is awarded a modification to exercise and fund a 12-month option (P00036) in the amount of \$37,772,390 under previously awarded firm-fixed-price contract N32205-19-C-3506. The option will continue to provide one U.S. flagged cable ship CS Global Sentinel, which will be utilized to lay and repair cable for the Department of Defense worldwide. This contract includes a 12-month base period, two six-month option periods, two 12-month option periods and one 11-month option period. Work will be performed worldwide and is expected to be completed by Dec. 22, 2023. Operation and maintenance (Navy) funds in the amount of \$6,500,000 are obligated and will expire at the end of the current fiscal year. Other procurement (Navy) funds in the amount of

\$15,928,565 are obligated and will expire at the end of fiscal 2023. The Military Sealift Command, Norfolk, Virginia, is the contracting activity.

Vigor Marine LLC, Portland, Oregon, is awarded a \$21,543,401 firm-fixed-price contract for a 76-calendar day shipyard availability. The work to be performed provides services for the regular overhaul availability and dry-docking of the fleet oiler USNS Yukon (T-AO 202). The contract also contains 11 unexercised options, which if exercised, would increase the cumulative contract value to \$24,031,506. Work will be performed in Portland, Oregon, and is expected to be completed by May 2021. Fiscal 2021 working capital contract funds (Navy) in the amount of \$21,543,401 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.SAM.gov website, with one proposal received. The Military Sealift Command, Norfolk, Virginia, is the contracting activity (N3220521C4014).

Barnhart-Reese Construction Inc.,* San Diego, California, is awarded a \$19,108,424 firm-fixed-price task order (N62473-21-F-4264) under previously-awarded multiple-award construction contract N62473-17-D-4635 for the design and construction of a new academic training building at Naval Air Weapons Station (NAWS), China Lake, California. The task order also contains three unexercised options and two planned modifications which, if exercised, would increase the cumulative task order value to \$21,608,460. The work to be performed provides for the design and construction of P1924 - Academic Training Building project, which includes the demolition of the current building and construction of a new building. The facility will take over functions performed in the previous training facilities which were damaged by the July 2019 earthquakes. The buildings function as the training center for basic required trainings as well as training events for the science, technology and acquisition workforce. The facility will include computer laboratories, science laboratories, training and multi-configurable classroom spaces; rooms enabled with video teleconference capabilities, classified lecture spaces, and administrative and support areas at NAWS China Lake. The planned modifications, if issued, provide for collateral equipment that includes audio-visual equipment and furniture, fixtures and other equipment. Work will be performed in Ridgecrest, California, and is expected to be completed by April 2023. Fiscal 2020 military construction (Navy) funds in the amount of \$19,108,424 will be obligated at time of award and will not expire at the end of the current fiscal year. Four proposals were received for this task order. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a \$10,953,284 firm-fixed-price order (N00019-21-F-0207) against previously issued basic ordering agreement N00019-16-G-0001. This order procures 16 refurbished harpoon capsules and four All-Up Round encapsulated harpoon missiles for the Navy. Work will be performed in Burnley, United Kingdom (70.84%); St. Charles, Missouri (27.9%); Seattle, Washington (1.16%); and various locations within the continental U.S. (0.1%), and is expected to be completed in December 2022. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$10,953,284 will be obligated at time of award, all of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

January 21, 2021

Black Construction/Mace International JV, Harmon Industrial Park, Harmon, Guam, is awarded a \$28,877,806 firm-fixed-price task order (N40084-21-F-4134) under previously awarded design-build/design-bid-build, indefinite-delivery/indefinite-quantity unrestricted multiple-award construction contract N40084-18-D-0066 to perform various repairs to deep-draft wharf infrastructure at Naval Support Facility (NSF), Diego Garcia. Work to be performed includes demolition of seven wharf fender standoff

panels (FSOPs) and replacement of 24 FSOPs, including pile supports; replacement of broken/missing timber fender piles at the north end of the wharf; replacement of steel ladders; repair of concrete deck and sub-structure, including concrete slab replacement, crack sealing and paint striping; repair of cathodic protection, mooring hardware and pedestal/foundation cracks; repair of high mast lighting; providing additional lighting to meet current design criteria; and demolition and replacement of above-ground ductile iron water lines along the wharf edge where it interferes with FSOP work. Work will be performed at NSF Diego Garcia, British Indian Ocean Territory, and is expected to be completed by September 2023. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$28,877,806 will be obligated at time of award and will expire at the end of the current fiscal year. Two proposals were received for this task order. The Naval Facilities Engineering Systems Command Far East, Diego Garcia, is the contracting activity.

Conflict Kinetics Corp., Sterling, Virginia, is awarded a \$28,164,522 single-award, indefinite-delivery/indefinite-quantity contract that will include terms and conditions for the placement of firm-fixed-price task orders for the procurement of Tactical Ocular Reaction Area™ (TORA™) small arms simulator support services to include on-site hardware; software and contracted information technology system security; air compressors; replacement equipment; and software modifications/software warranty as needed for all TORA™ simulators in support of Naval Expeditionary Combat Command within the continental U.S. and outside the continental U.S. locations. The contract will include a five-year ordering period with no options. The ordering period is expected to begin January 2021 and be completed by January 2026. Work will be performed in Williamsburg, Virginia (15%); Virginia Beach, Virginia (15%); Gulfport, Mississippi (15%); San Diego, California (15%); Port Hueneme, California (15%); Newport, Rhode Island (7%); Jacksonville, Florida (7%); Seal Beach, California (7%); and Guam (4%). Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$1,000 will be obligated to fund the contract's minimum amount and funds will expire at the end of the fiscal year. Individual task orders will be subsequently funded with appropriate fiscal year appropriations at the time of their issuance. One source was solicited for this non-competitive, sole-source requirement pursuant to the authority set forth in 10 U.S. Code 2304(c)(1) in accordance with Federal Acquisition Regulation 6.302-1, with one offer received. The Naval Supply Systems Command Fleet Logistics Center, Norfolk, Contracting Department, Norfolk, Virginia, is the contracting activity (N00189-21-D-0005).

San Juan-Black & Veatch International Ltd. JV,* Montrose, Colorado, is awarded a \$23,145,586 task order (N40084-21-F-4131) under previously awarded, firm-fixed-price, design-build/design-bid-build, indefinite-delivery/indefinite-quantity, unrestricted multiple-award construction contract (N40084-18-D-0068) to provide long-term repairs to the north parking apron, Phase I, at Naval Support Facility (NSF), Diego Garcia. The work to be performed will provide long-term repairs to the north parking apron at NSF Diego Garcia, including demolishing existing concrete pavement and replacing with new 330 mm-thick portland cement concrete pavement complete with joints, dowels and sealants; removing cement-treated base and sub-base, replacing or reusing excavated material and re-grading/compacting to recommended design elevation; scarifying, re-grading and compacting existing subgrade; providing tie-down moorings and static grounding points; repairing/repaving parking apron cement-treated shoulders; and providing airfield markings. Work will be performed at NSF Diego Garcia, British Indian Ocean Territory, and is expected to be completed by May 2022. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$23,145,586 will be obligated at time of award and will expire at the end of the current fiscal year. Two proposals were received for this task order. The Naval Facilities Engineering Systems Command, Far East, Diego Garcia, is the contracting activity.

January 20, 2021

Detyens Shipyard Inc., Charleston, South Carolina, is awarded a \$19,150,225 firm-fixed-price contract for a 76-calendar day shipyard availability. The work to be performed under this contract provides regular overhaul availability and dry-docking services for the fleet replenishment oiler USNS Laramie (T-AO 203). The contract also contains six unexercised options, which if exercised, would increase cumulative contract value to \$19,841,567. Work will be performed in Charleston, South Carolina, and is expected to be completed by June 4, 2021. Fiscal 2021 working capital contract funds (Navy) in the amount of \$19,150,225 are obligated on this award and will not expire at the end of the current fiscal year. This contract was competitively procured via the beta.SAM.gov website, with two proposals received. The Military Sealift Command, Norfolk, Virginia, is the contracting activity (N32205-21-C-4001).

January 19, 2021

General Dynamics Electric Boat, Groton, Connecticut, is awarded a \$41,554,227 cost-plus-fixed-fee contract for engineering and technical design effort to support research and development concept formulation for current and future submarine platforms. This contract includes options which, if exercised, would bring the cumulative value of this contract to \$305,521,179. Work will be performed in Groton, Connecticut (96.1%); Bremerton, Washington (1.7%); Kings Bay, Georgia (1.7%); and Newport, Rhode Island (0.5%), and is expected to be completed by September 2021. If all options are exercised, work will continue through September 2025. Fiscal 2021 research, development, test and engineering (Navy) funds in the amount of \$250,000 (80%); and 2020 research, development, test and engineering (Navy) funds in the amount of \$63,000 (20%), will be obligated at time of award, of which funding in the amount of \$63,000 will expire at the end of the current fiscal year. This contract was not competitively procured and is a sole-source award pursuant to 10 U.S. Code 2304(c)(3) – Industrial Mobilization. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Sundance-EA Associates II, Pocatello, Idaho, is awarded a maximum-value \$30,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for environmental compliance services at Joint Region Marianas, Guam. The work to be performed is for a full range of environmental support activities for naval installation environmental compliance programs to ensure the supported components, tenant commands and facilities and contractor operations demonstrate and maintain compliance with all applicable federal, U.S. territory, and local statutes, and with Department of Defense and Navy policies, permits, instructions and guidance. Environmental compliance programs include clean air, safe drinking water, clean water, hazardous waste, pollution prevention, solid waste management, pesticide compliance, emergency planning and community right-to-know act, ozone-depleting substances management, storage tank management, environmental quality assessment, environmental sampling and analysis and overall environmental compliance oversight. Future task orders will be primarily funded by operation and maintenance (Navy) funds. Work will be performed in the Joint Region Marianas area of responsibility and is expected to be completed by January 2026. Work under the initial task order will be performed in Guam and is expected to be completed by January 2022. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$1,447,016 will be obligated under the initial task order at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.SAM.gov website, with six proposals received. The Naval Facilities Engineering Systems Command, Marianas, Guam, is the contracting activity (N40192-21-D-1820).

Northrop Grumman Systems Corp., Melbourne, Florida, is awarded a \$29,776,196 firm-fixed-price, cost-plus-fixed-fee order (N00019-21-F-0064) against previously issued basic ordering agreement N00019-20-G-0005. This order procures five aerial refueling retrofit kits and installation on the E-2D Advanced Hawkeye. Work will be performed in Ronkonkoma, New York (44.53%); Baltimore, Maryland (16.62%);

Irvine, California (6.48%); Hauppauge, New York (5.85%); Columbia, Maryland (4.75%); Dorset, England (3.17%); East Aurora, New York (2.64%); North Hollywood, California (2.02%); and various locations within the continental U.S. (13.94%), and is expected to be completed in May 2022. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$29,776,196 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

January 15, 2021

Huntington Ingalls Industries Fleet Support Group, Newport News, Virginia, is awarded a \$174,910,371 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract to provide Navy aircraft carrier Elevator Support Unit maintenance and repair. Work will be performed aboard Navy CVNs (aircraft carrier nuclear propulsion) within the continental U.S.; outside the continental U.S.; and forward deployed locations according to individual task orders and is expected to be completed by January 2026. No funds will be obligated at the time of award. Funding will be obligated on individual orders as they are issued. This contract was competitively procured and solicited via the beta.SAM.gov website. The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-D-4103).

CSRA LLC, Washington, D.C., is awarded a \$57,000,000 modification (P00002) to previously awarded, firm-fixed-price, cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract N61340-18-D-0002. This modification increases the ceiling to provide the Navigation Seamanship Shiphandling Trainers program, training systems and upgrades to meet fleet emergent requirements based on the Chief of Naval Operations mandated expansion in navigation related training hours and navigation related training capability at schoolhouses throughout the world. Work will be performed in Norfolk, Virginia (44%); Everett, Washington (14%); Pearl Harbor, Hawaii (14%); Yokosuka, Japan (14%); Rota, Spain (13%); San Diego, California (0.5%); and Sasebo, Japan (0.5%), and is expected to be completed in September 2022. No funds will be obligated at time of award and funds will be issued against individual orders as they are issued. The Naval Air Warfare Center, Training Systems Division, Orlando, Florida, is the contracting activity.

EG Designbuild LLC, Germantown, Maryland, is awarded a \$16,239,000 firm-fixed-price task order (N69450-21-F-0872) under previously awarded multiple-award contract N69450-19-D-0919 for construction of a Special Operations Forces watercraft maintenance facility at Naval Air Station, Key West, Florida. The task order also contains three unexercised options which, if exercised, would increase the cumulative task order value to \$18,385,020. The work to be performed includes construction of a new maintenance facility for the repair of special operations forces' hard-hulled and soft-hulled watercraft, including electrical, mechanical, plumbing and fire protection utilities. This includes demolition of the existing bunker, KW-800, currently used as a climate-controlled exercise facility by facility personnel; construction of a new vehicular entrance ramp and exit ramp to the maintenance facility; and modifications to the existing storm water permit to address the new construction. The options, if exercised, provide for a hard-hull shop, vehicular ramp and overhead cooling door, and furniture, fixtures and equipment. Three proposals were received for this task order. Work will be performed in Key West, Florida, and is expected to be completed by October 2022. Fiscal 2020 military construction (Army) funds in the amount of \$16,239,000 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity.

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$13,036,252 cost-plus-fixed-fee order (N00019-21-F-0227) against previously issued basic ordering agreement N00019-19-G-0008. This modification procures non-recurring site stand-up activity, capability development, information technology systems integration and associated changes to F-35 Lightning II program and industry processes as needed to allow the Defense Logistics Agency and U.S. Transportation Command to assume North American regional warehouse and global transportation and distribution product support provider responsibilities. Work will be performed in Fort Worth, Texas (63.9%); Orlando, Florida (26.6%); Bethesda, Maryland (8.5%); and Greenville, South Carolina (1%), and is expected to be completed in March 2022. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$6,518,126; and fiscal 2019 aircraft procurement (Air Force) funds in the amount of \$6,518,126, will be obligated at time of award, \$6,518,126 of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

EC America Inc., McLean, Virginia, is awarded a \$9,053,930 firm-fixed-price order (M67854-21-F-4906) against previously issued Department of Defense Enterprise Initiative blanket purchase agreement N66001-19-A-0057. This blanket purchase agreement call order provides for the renewal of Tanium brand software license subscriptions currently deployed in the Marine Corps Enterprise Network environment and associated onsite technical support in Quantico, Virginia (100%). Fiscal 2021 operation and maintenance (Marine Corps) funds in the amount of \$9,053,930 will be obligated at the time of award and funds will expire Sept. 30, 2021. This was a limited-source acquisition in accordance with the policy and guidelines in the Defense Federal Acquisition Regulation Supplement, Section 208.74 and the Federal Acquisition Regulation, Part 8.405-6. The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-21-F-4906).

Raytheon Missiles & Defense, Tewksbury, Massachusetts, is awarded an \$8,963,961 cost-plus-incentive-fee modification to previously awarded contract N00024-17-C-5145 to exercise options for DDG 1000 ship class integrated logistics support. The Total Ship Activation (TSA) contract includes mission system activation, hull mechanical and electrical activation efforts to include waterfront integration, activation and test of Zumwalt class mission systems and mission system equipment at the system and subsystem levels; development and conduct of the Zumwalt class TSA test program; personnel, program management, planning, training and other efforts required to effectively support the execution of the Zumwalt class TSA; development and review of design drawings, technical data packages, installation control drawings and change documentation in support of Zumwalt class TSA; and development and implementation of government-approved proposed changes and the implementation of Zumwalt class cybersecurity/information assurance requirements. Work will be performed in Portsmouth, Rhode Island (50%); and Tewksbury, Massachusetts (50%), and is expected to be completed by January 2022. Fiscal 2020 shipbuilding and conversion (Navy) funding in the amount of \$138,349 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was procured under the statutory authority of 10 U.S. Code 2304(c)(1). Only one responsible source and no other supplies or services will satisfy agency requirements. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

January 14, 2021

DoD Marine Constructors JV, Napa, California (N62473-21-D-1403); The Dutra Group, San Rafael, California (N62473-21-D-1404); Granite-Healy Tibbitts JV, Watsonville, California (N62473-21-D-1405);

Manson Construction Co., Seattle, Washington (N62473-21-D-1406); Marathon Construction Corp., Lakeside, California (N62473-21-D-1407); R.E. Staite Engineering Inc., San Diego, California (N62473-21-D-1408); Reyes Construction Inc., Pomona, California (N62473-21-D-1409); and TNT Constructors, Bremerton, Washington (N62473-21-D-1410), are each awarded a firm-fixed-price, indefinite-delivery/indefinite-quantity multiple-award construction contract for new construction, repair and renovation of waterfront facilities at various government installations located in the Naval Facilities Engineering Systems Command Southwest area of responsibility. These eight businesses may compete for task orders under the terms and conditions of the awarded contract. No task orders are being issued at this time. The maximum dollar value, including the base period and one option year for all eight contracts combined, is \$750,000,000. The work to be performed provides for new construction, repair and renovation of waterfront structures and dredging within the North American Industry Classification System Code 237990 by design-build or design-bid-build. Types of projects may include, but are not limited to, dredging and disposal, piers, wharves, quay walls, bulkheads, relieving platforms, cellular structures, dry docks/caissons, break waters, fixed moorings, docks and marinas, pile driving, primary and secondary fender systems, sheet piles and sea walls. The solicitation's requirement for two or more awards to be reserved for highly qualified small businesses was met by the awards to Marathon Construction Corp. and R.E. Staite Engineering Inc. Future task orders will be primarily funded by operation and maintenance (Navy); Navy working capital; and military construction (Navy) funds. Work will be performed at various government installations in states including, but not limited to, California (90%); Arizona (6%); Nevada (1%); Utah (1%); Colorado (1%); and New Mexico (1%) and will be completed by December 2026. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$5,000 will be obligated to each awardee at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.SAM.gov contract opportunities website, with 15 proposals received. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity.

TechFlow Mission Support LLC, doing business as EMI Services, Idaho Falls, Idaho, is awarded a maximum value \$128,970,744 indefinite-delivery/indefinite-quantity contract for base operation support services at Naval Air Station Patuxent River, Maryland; Webster Field, St. Inigoes, Maryland; Solomons Annex, Solomons, Maryland; and Point Lookout, St. Mary's County, Maryland. Work will be performed in St. Mary's County, Maryland (92%); and Calvert County, Maryland (8%), and is expected to be complete by March 2029. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$13,269,831 for recurring work will be obligated under the initial task order at time of award and will expire at the end of the current fiscal year. The base operation support services to be performed include general information; management and administration; airfield facilities; and facilities support, including facility management, facility investment, integrated solid waste management, swimming pool services, special event support, utilities management, wastewater management, water services and environmental services. This contract was competitively procured via the Navy Electronic Commerce Online website, with seven proposals received. The Naval Facilities Engineering Systems Command, Atlantic, Norfolk, Virginia, is the contracting activity (N62470-21-D-0002).

The MIL Corp., Bowie, Maryland, is awarded an \$80,864,126 cost-plus-fixed-fee, cost-reimbursable, indefinite-delivery/indefinite-quantity contract. This contract provides for systems engineering services for assigned Global Radio Frequency Intelligence Networks related technologies and systems in support of the Naval Air Warfare Center Aircraft Division Webster Outlying Field Integrated Command, Control and Intel Division. Work will be performed in Saint Inigoes, Maryland, and is expected to be completed in April 2026. No funds will be obligated at the time of award. Funds will be obligated on individual task

orders as they are issued. This contract was competitively procured via an electronic request for proposal; one offer was received. The Naval Air Warfare Center Aircraft Division, Patuxent River, Maryland, is the contracting activity (N00421-21-D-0010).

Kay and Associates Inc., Buffalo Grove, Illinois, is awarded a \$69,515,496 cost-plus-fixed-fee, cost reimbursable modification (P00012) to previously awarded contract N00421-17-C-0044. This modification exercises an option to procure maintenance and support services for F/A-18 aircraft and associated equipment in support of the government of Kuwait. Work will be performed in Kuwait and is expected to be completed in January 2022. Foreign Military Sales funds in the amount \$69,515,496 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center, Aircraft Division, Patuxent River, Maryland, is the contracting activity.

Teledyne Brown Engineering Inc., Huntsville, Alabama, is awarded a \$39,211,704 firm-fixed-price modification to previously awarded contract N00024-19-C-6402 to exercise options for the production of MK11 shallow water combat submersibles. Work will be performed in Huntsville, Alabama, and is expected to be completed by September 2024. Foreign Military Sales (country name withheld per international agreement) funding in the amount of \$39,211,704 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Raytheon Co., Keyport, Washington, is awarded a \$16,095,857 modification to previously awarded indefinite-delivery/indefinite-quantity requirements contract N61331-17-D-0001 to exercise options for maintenance and support for the AN/AQS-20 sonar mine detecting set. Work will be performed in Portsmouth, Rhode Island (65%); Keyport, Washington (30%); and Panama City, Florida (5%), and is expected to be completed by January 2022. No funds will be obligated at time of award. Funds will be obligated on individual task orders as they are issued. The Naval Surface Warfare Center, Panama City Division, Panama City, Florida, is the contracting activity.

Heffler Contracting Group El Cajon, California, is awarded a maximum value \$15,000,000 firm-fixed-price, indefinite-delivery/indefinite quantity contract for specialty trade work, additions, alterations and repairs at various facilities located at Travis Air Force Base, California. No task orders are being issued at time of award. The work to be performed will be primarily design-bid-build (fully designed) task orders or task orders with minimal design effort (e.g. shop drawings). Projects may include, but are not limited to, specialty trade work. The work performed may include new work, additions, alterations, maintenance and repairs. Future task orders will be primarily funded by operation and maintenance (Navy) funds. Work will be performed at Travis Air Force Base, California, and is expected to be completed by January 2026. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$2,000 will be obligated at time of award in order to meet the minimum guarantee and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.SAM.gov website, with nine proposals received. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-21-D-1018).

Agile-Bot II LLC Reston, Virginia, is awarded a \$14,075,424 cost-plus-fixed-fee contract for advanced cyber support services in support of the Marine Corps Cyberspace Operations Group. This one-year

contract includes four one-year option periods which, if exercised, would bring the cumulative value of this contract to an estimated \$72,996,224. All work will be performed in Quantico, Virginia. The period of performance of the base period is from Jan. 14, 2021, through Jan. 13, 2022. If all options are exercised, the period of performance would extend through Jan. 13, 2026. Fiscal 2021 operation and maintenance (Marine Corps) funds in the amount of \$2,991,443 will be obligated at the time of award. This contract was competitively procured via request for proposal N66001-18-R-0011 published on the Federal Business Opportunities website and the NAVWAR e-Commerce Central website. Five offers were received and one was selected for award. The Naval Information Warfare Center, Pacific, San Diego, California, is the contracting activity (N66001-21-C-0043).

Electrical Equipment Co Norfolk, Virginia, is awarded a \$10,976,873 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides for the delivery of up to a maximum quantity of 620 XVR16 and 380 XVR19 Versa Module Eurocard Single Board computers; four annual XVR19 Open Linux software development kit maintenance licenses; and 120 RES-3000 Ethernet Switch System components for multiple AN/UPX-24(V) Interrogator Set and AN/UPX-46(V) Interrogator System projects in support of Naval Air Warfare Center, Aircraft Division, Combat Integration and Identification Systems. Work will be performed in Norfolk, Virginia, and is expected to be completed in January 2026. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured via an electronic request for proposal; one offer was received. The Naval Air Warfare Center, Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N68335-21-D-0047).

January 13, 2021

Data Link Solutions LLC, Cedar Rapids, Iowa (N00039-21-A-1001); and DRS Laurel Technologies Partnership, Johnstown, Pennsylvania (N00039-21-A-1002), are each awarded \$150,000,000 firm-fixed-price blanket purchase agreements (BPAs) for electronic equipment cabinets. These BPAs cover the production of up to 150 units per contractor along with the associated program management, testing and logistics support to deliver the units. Units will be manufactured in Cedar Rapids, Iowa; and Johnstown, Pennsylvania, with an expected completion date of January 2023. The total potential value of these BPAs is \$150,000,000 per vendor. The total length of the ordering period is 24 months. Fiscal 2021 other procurement (Navy) funds will be obligated on a delivery order level issued under the BPA at the time of placement of individual delivery calls. These BPAs were negotiated using the procedures defined under Federal Acquisition Regulation 13.5 for individual orders less than \$15,000,000. The Naval Information Warfare Systems Command, San Diego, California, is the contracting activity.

General Electric Aviation, Lynn, Massachusetts, is awarded a \$101,470,782 firm-fixed-price, cost-plus-fixed-fee modification (P00015) to previously awarded contract N00019-18-C-1007. This modification procures 21 T408-GE-400 turboshaft engines and associated engine, programmatic and logistics services in support of CH-53K Lot Five low-rate initial production aircraft. Work will be performed in Lynn, Massachusetts, and is expected to be completed in December 2024. Fiscal 2021 aircraft procurement (Navy) funds in the amount \$101,470,782 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

MN-BMCD SE JV, Tampa, Florida, is awarded a maximum-value \$60,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity, architect-engineering contract for professional architectural and engineering services in support of waterfront projects in the Naval Facilities Engineering Systems Command (NAVFAC) Southeast area of responsibility (AOR). The work to be performed provides for preparation of professional architectural and engineering services for preparation of design-bid-build documents and design-build requests for proposals for various project types in support of waterfront and marine facilities at Department of Defense (DOD) and non-DOD activities in the NAVFAC Southeast AOR. Future task orders will be primarily funded by operation and maintenance (Navy) and military construction (Navy) funds. Work will be performed at various Navy and Marine Corps installations in the NAVFAC Southeast AOR including, but not limited to Florida (30%); Georgia (30%); Andros Island, Bahamas (10%); Guantanamo Bay, Cuba (10%); South Carolina (5%); Louisiana (5%); Mississippi (5%); and Texas (5%) and is expected to be completed by February 2026. An initial task order to conduct a site engineering investigation and concept design workshop for P-021 lighterage wharf and lift-launch pier at Marine Corps Support Facility Blount Island, Florida, is included with the award and is expected to be completed by April 2021. Fiscal 2021 military construction (Navy) funds in the amount of \$202,780 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was competitively procured via the Navy Electronic Commerce Online website, with two proposals received. The Naval Facilities Engineering Systems Command, Southeast, Jacksonville, Florida, is the contracting activity (N69450-21-D-0002).

Chatmon-VJR JV LLC, La Place, Louisiana, is awarded a maximum-value \$49,000,000 indefinite-delivery/indefinite-quantity contract for roofing projects at various military installations in the metropolitan San Diego, California, area, including Naval Base Coronado, Naval Base Point Loma, Naval Base San Diego, and Marine Corps Air Station Miramar. No task orders are being issued at this time. The work to be performed is for repair, removal and replacement of roofing systems at various military installations in the metro San Diego area. Projects may include, but are not limited to, roofing services with minimal design requirements for new minor construction, facility repair, rehabilitation and alterations for a broad range of renovation and construction work. Future task orders will be primarily funded by operation and maintenance (Navy) funds. Work will be performed in San Diego, California, and is expected to complete by January 2026. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$5,000 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via the Navy Electronic Commerce Online website, with seven proposals received. The Naval Facilities Engineering Systems Command, Southwest, San Diego, California, is the contracting activity (N62473-21-D-2601).

Essex Electro Engineers Inc., Schaumburg, Illinois, is awarded a \$46,638,225 firm-fixed-price indefinite-delivery/indefinite-quantity contract. This contract provides for the production and delivery of up to a maximum quantity of 575 land-based mobile electric power plant units to provide 120KVA 115 VAC 400 Hz/270VDC/28VDC electric power to support general aircraft maintenance for all Navy aircraft platforms. Work will be performed in Schaumburg, Illinois, and is expected to be completed in January 2027. No funds will be obligated at the time of award; funds will be obligated on individual orders as they are issued. This contract was competitively procured as a small business set-aside and five offers were received. The Naval Air Warfare Center, Aircraft Division, Lakehurst, New Jersey, is the contracting activity (N68335-21-D-0049).

Team Corp., Burlington, Washington, is awarded a \$26,417,062 firm-fixed-price contract. This contract provides 24 environmental testing systems that simulate the effects of climatic, induced thermal, dynamic and loads environments. The environmental testing systems support the development, design,

environmental qualification, airworthiness, product improvement and failure investigations of Department of Defense weapon and target systems. The scope of this requirement is to design, manufacture, test and install the environmental testing systems. Support services include lead system integration, building and laboratory design specifications support, project management, equipment installation and training. Work will be performed in Burlington, Washington (50%); and China Lake, California (50%), and is expected to be completed in January 2024. Fiscal 2020 other procurement (Navy) funds in the amount of \$26,417,062 will be obligated at time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to Federal Acquisition Regulation 6.302-1. The Naval Air Warfare Center, Weapons Division, Point Mugu, California, is the contracting activity (N68936-21-C-0032).

January 12, 2021

WR Systems Ltd., Fairfax, Virginia, is awarded a \$19,191,662 non-commercial, cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract for engineering and program support services in support of the Relocatable Over-the-Horizon Radar Life Cycle Management Department at the Forces Surveillance Support Center, Chesapeake, Virginia. The contract will include a 48-month ordering period with no options. The ordering period is expected to begin April 2021 and be completed by March 2025. Work will be performed in Chesapeake, Virginia (42%); Fairfax, Virginia (39%); New Kent, Virginia (6%); Corpus Christi, Texas (3%); San Juan, Puerto Rico (3%); Adelaide, Australia (1%); San Diego, California (1%); Dayton, Ohio (1%); Colorado Springs, Colorado (1%); Washington, D.C. (1%); Arlington, Virginia (1%); and Key West, Florida (1%). Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$10,000 will be obligated to fund the contract's minimum amount and funds will expire at the end of the fiscal year. One source was solicited for this non-competitive, sole-source requirement pursuant to the authority set forth in 10 U.S. Code 2304(c)(1) in accordance with Federal Acquisition Regulation 6.302-1, with one offer received. The Naval Supply Systems Command, Fleet Logistics Center, Norfolk Contracting Department, Philadelphia Office, Philadelphia, Pennsylvania, is the contracting activity (N00189-21-D-Z015).

Container Research Corp., Aston, Pennsylvania, is awarded an \$11,539,383 firm-fixed-price, indefinite-delivery/indefinite-quantity contract. This contract provides for the procurement of up to a maximum quantity of 275 V-22 Mission Auxiliary Tank System storage containers for the Navy, Marines, Air Force and Foreign Military Sales customers. Work will be performed in Aston, Pennsylvania, and is expected to be completed in January 2026. No funds will be obligated at the time of award. Funds will be obligated on individual task orders as they are issued. This contract was not competitively procured pursuant to Federal Acquisition Regulation 6.302-1. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity (N00019-21-D-0006).

Advanced Computer Learning Co. LLC, Fayetteville, North Carolina, is being awarded an \$8,207,152 single-award, firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the development of curriculum material and the instruction on the use of unique networks in the Joint Staff Joint Tactical Operations Interface Training Program and the U.S. Message Text Formatting Training Program in support of the Joint Staff, Joint Interoperability Division at the Joint Multi-Tactical School. The contract will include an 11-month base ordering period with an additional three consecutive one-year ordering period options, which if exercised, will bring the total value to \$33,207,839. The base ordering period is expected to begin in January 2021 and be completed by December 2021. If the option is exercised, the ordering period will be completed by December 2024. All work will be performed in Fort Bragg, North Carolina. Fiscal 2021 operation and maintenance defense-wide funds in the amount of \$10,000 will be

obligated to fund the contract's minimum amount and funds will not expire at the end of the current fiscal year. This contract was competitively procured with the solicitation posted on Navy Electronic Commerce Online and beta.SAM.gov as a service-disabled veteran-owned small business set-aside, with nine offers received. The Naval Supply Systems Command, Fleet Logistics Center Norfolk Contracting Department, Philadelphia Office, Philadelphia, Pennsylvania, is the contracting activity (N00189-21-D-Z014).

January 11, 2021

American Superconductor Corp., Devens, Massachusetts, is awarded a \$14,940,659 hybrid firm-fixed-price, cost-plus-fixed fee, indefinite-delivery/indefinite-quantity contract in support of the supplies and services required to deliver a high temperature superconducting degaussing system (HTS). This procurement is for the delivery of an HTS, in accordance with the landing platform docks-class configuration. This includes the fabrication, testing and delivery of a ship's set of components/materials; the analysis of configuration-based engineering change proposals; and vendor representative support during installation. The HTS degaussing system components/materials include a control unit, power modules, junction boxes, cryo-coolers, accumulation tanks, HTS degaussing cable assemblies and cold gas lines. Work will be performed in Ayer, Massachusetts (95%); and Pascagoula, Mississippi (5%), and is expected to be completed by September 2023. Fiscal 2021 shipbuilding and conversion (Navy) funds in the amount of \$10,497,232 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) (only one responsible source and no other supplies or services will satisfy agency requirements). The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity (N64498-21-D-4011).

Raytheon Missiles and Defense, Tucson, Arizona, is awarded an \$8,520,414 cost-type undefinitized contract for procurement of long lead material in support of Standard Missile-2 (SM-2) Foreign Military Sales (FMS) production requirements to include all up rounds, instrumental kits, engineering services and spares. This contract involves FMS to Korea, Denmark, Netherlands, Spain, Taiwan and Japan. Work will be performed in Hengelo Overijssel, Netherlands (51%); McKinney, Texas (32%); and Tucson, Arizona (17%), and is expected to be completed by March 2023. FMS Korea funding in the amount of \$1,807,362 (42%); FMS Denmark funding in the amount of \$1,073,800 (25%); Memorandum of Understanding Netherlands funding in the amount of \$494,872 (12%); FMS Spain funding in the amount of \$451,840 (11%); FMS Taiwan funding in the amount of \$344,259 (8%); and FMS Japan funding in the amount of \$86,064 (2%), will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with the authority from 10 U.S. Code 2304 (c) (4) (international agreement). The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-C-5411).

January 8, 2021

Alberici-Mortenson JV, St. Louis, Missouri, is awarded a \$359,738,706 fixed-price-award-fee modification to exercise the first and second options under previously awarded contract N69450-20-C-0016 for design-bid-build recapitalization of the dry dock at Naval Submarine Base Kings Bay, Georgia. The work to be performed provides for concrete repairs in various locations throughout the dry dock; overhauling and repairing the steel caisson; and upgrading power distribution, chilled water and fire detection and alarm systems. The project will also repair corroded steel members of the dry dock superstructure, re-coat the entire superstructure and replace roof and wall panels. The project will remove one bridge crane and overhaul two other bridge cranes. The scope also includes rebuilding/replacing sluice gates and

actuators, roller gate rails, flap valves and frames and all piping. This project will also upgrade control systems and electronic components and upgrade the auxiliary seawater system. This award increases the total cumulative value of the contract to \$554,465,051. Work will be performed in Kings Bay, Georgia, and is expected to be completed by October 2022. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$359,738,706 will be obligated at time of award and will expire at the end of the current fiscal year. The Naval Facilities Engineering Systems Command Southeast, Jacksonville, Florida, is the contracting activity.

Oceaneering International Inc., Chesapeake, Virginia, is awarded a \$56,878,408 cost-plus-fixed-fee and cost-only modification to previously awarded contract N00024-18-C-6413 for configuration changes, engineering services, material, maintenance and repair. The total cumulative face value of the contract is \$131,895,943. Work will be performed in Chesapeake, Virginia, and is expected to be completed by September 2021. No funds will be obligated at time of award. The Naval Sea Systems Command, Washington, D.C., is the contracting activity.

Atlantic Signal LLC, Topeka, Kansas, is awarded a \$45,128,388 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for the purchase of up to a combined maximum quantity of 233,736 units inclusive of hearing enhancement devices, cables, push-to-talks, hygiene kits and helmet adapters. Work will be performed in Topeka, Kansas, and is expected to be complete by September 2025. Fiscal 2020 operation and maintenance (Marine Corps) funds in the amount of \$9,999,420 will be obligated on the first delivery order immediately following contract award and funds will expire on March 19, 2021. This contract was competitively procured via the beta.SAM.gov website, with seven offers received. The Marine Corps Systems Command, Quantico, Virginia, is the contracting activity (M67854-21-D-1809).

Raytheon Co., McKinney, Texas, is awarded \$7,825,657 for a firm-fixed-price delivery order (N00383-21-F-PF03) under previously awarded basic ordering agreement N00383-19-G-PF01 for the repair of 10-line items associated with the APY-10 radar system used in support of the P-8A aircraft. Work will be performed in Jacksonville, Florida (70%); and McKinney, Texas (30%). Work is expected to be completed by May 2023. Annual working capital funds (Navy) in the full amount of \$7,825,657 will be obligated at time of award and funds will not expire at the end of the current fiscal year. One firm was solicited for this non-competitive requirement in accordance with 10 U.S. Code 2304 (c)(1), with one offer received. The Naval Supply Systems Command Weapon Systems Support, Philadelphia, Pennsylvania, is the contracting activity.

January 7, 2021

Lockheed Martin Corp., a Lockheed Martin Aeronautics Co., Fort Worth, Texas, is awarded a \$13,125,284 cost-plus-fixed-fee modification (P00001) to previously awarded contract N00019-20-C-0052. This modification exercises an option to procure continued maintenance and sustainment operation support for Norway Italy Reprogramming Laboratory systems and consumables in support of the Joint Strike Fighter aircraft for the governments of Norway and Italy. Work will be performed at Eglin Air Force Base, Florida, and is expected to be completed in December 2022. Non-Department of Defense participant funds currently obligated on this contract in the amount of \$4,214,678 will be realigned at the time of award to fund this effort, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Mason and Hanger Group Inc., Lexington, Kentucky, is awarded a maximum-value \$10,000,000 firm-fixed-price, indefinite-delivery/indefinite-quantity, architect-engineering contract for multi-discipline mechanical and electrical architect-engineering (A-E) services in the Naval Facilities Engineering Systems Command Mid-Atlantic area of responsibility and worldwide. The work to be performed provides for comprehensive architect-engineering services required for the new construction, repair, replacement, demolition, alteration and/or improvement of various types of facilities/systems. Types of facilities/systems include, but are not limited to, personnel housing facilities (bachelor enlisted quarters and bachelor officer quarters); office buildings; academic and training facilities (operational, maintenance and classroom); medical and dental facilities; dining facilities; recreational facilities, child development centers; airfield operations facilities (hangars, traffic control facilities, lighting); and supporting facilities/systems such as utilities, water treatment plants, parking structures, roadways, mechanical systems, steam or hot water distribution systems, electrical distribution systems, boilers, ground-source heat pumps, closed loop geothermal well systems, building automation systems, foundations for tanks and HVAC systems. Projects may also include selective demolition and site preparation. Although this contract is primarily for mechanical and electrical A-E services, projects may also include multiple or single disciplines, including but not limited to architectural, structural, mechanical, electrical, civil, planning, environmental studies, master planning, fire protection, audio/visual, cost estimating and interior design. Work will be performed at various Navy facilities at Marine Corps Air Station Cherry Point, North Carolina, and Marine Corps Base Camp Lejeune, North Carolina, and will be completed by December 2025. Fiscal 2021 operation and maintenance (Navy) funds in the amount of \$5,000 will be obligated at time of award to fulfill the minimum guarantee and will not expire at the end of the current fiscal year. This contract was competitively procured via beta.Sam.gov, with 12 proposals received. The Naval Facilities Engineering Systems Command Mid-Atlantic, Norfolk, Virginia, is the contracting activity (N40085-21-D-0016).

North Star Scientific Corp., Kapolei, Hawaii, is awarded a \$9,557,740 firm-fixed-price order (N68335-21-F-0003) against previously issued basic ordering agreement N68335-19-G-0037. This order provides for the production and delivery of 42 high power amplifier (HPA) units (13 HPA units for E-2D crypto modernization and frequency remapping aircraft retrofits; 10 HPA units for E-2D Tactical Targeting Network Technology (TTNT) production aircraft, 10 HPA units for spares; five HPA units for system configuration set-11 E-2C aircraft,; and four HPA units for E-2D TTNT aircraft retrofits) under Small Business Innovation Research (SBIR) topic N06-125 titled, "L-Band Solid-State High Power Amplifier for Airborne Platforms." Additionally, this order provides engineering and engineering data support for HPA units kitting, installation and testing. Work will be performed in Kapolei, Hawaii (92.3%); and Carlsbad, California (7.7%), and is expected to be completed in August 2022. Fiscal 2021 aircraft procurement (Navy) funds in the amount of \$4,551,305; and fiscal 2020 aircraft procurement (Navy) funds in the amount of \$5,006,435 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Warfare Center Aircraft Division, Lakehurst, New Jersey, is the contracting activity.

The Boeing Co., Seattle, Washington, is awarded an \$8,756,417 modification (P00005) to cost-plus-fixed-fee order N00019-19-F-4058 against previously issued basic ordering agreement N00019-16-G-0001. This modification exercises an option for contractor logistics support for the P-8A Poseidon in support of the government of the United Kingdom. Work will be performed in Seattle, Washington (60%); and Lossiemouth, Scotland (40%), and is expected to be completed in December 2021. Foreign Military Sales funds in the amount of \$1,200,000 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

Kellogg, Brown, and Root Services LLC, Houston, Texas, is being awarded an \$8,203,733 indefinite-delivery/indefinite-quantity contract for base operating support (BOS) services at the Navy Compound, Quay 9, Jebel Ali, United Arab Emirates. The BOS services to be performed include general information, management and administration; force protection; unaccompanied housing, facility support (facility investment, facility management, custodial, integrated solid waste management, pest control and pavement clearance); utilities (electrical and wastewater); and transportation. The maximum dollar value including the base period and seven option periods is \$67,391,232. Work will be performed in Jebel Ali, United Arab Emirates, and is expected to be complete by August 2029. No funds will be obligated at time of award. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$7,879,740 for recurring work will be obligated on an individual task order issued during the base period. This contract was competitively procured via the Federal Business Opportunities website with 10 proposals received. The Naval Facilities Engineering Systems Command, Atlantic, Norfolk, Virginia, is the contracting activity (N62470-21-D-0001).

January 6, 2020

Raytheon Co., El Segundo, California, is awarded a \$34,298,657 cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract. This contract provides engineering and test support services for the ALQ-249 Next Generation Jammer (NGJ) currently in development for the Navy EA-18G aircraft. The scope includes H16/H18/H20/H22 software support for NGJ pod and integration including requirements analysis, design, development, integration, testing, training and tools related to and in support of ALQ-249 and advanced electronic warfare initiatives for Navy and Foreign Military Sales customers. Work will be performed in El Segundo, California, and is expected to be completed in January 2025. Fiscal 2021 research, development, test and evaluation (Navy) funds in the amount of \$110,000 will be obligated at the time of award, none of which will expire at the end of the current fiscal year. This contract was not competitively procured pursuant to Federal Acquisition Regulation 6.302-1. The Naval Air Warfare Center Weapons Division, Point Mugu, California, is the contracting activity (N68936-21-D-0009).

Wartsila Defense Inc., Chesapeake, Virginia, is awarded a \$12,287,373 firm-fixed-price, indefinite-delivery/indefinite-quantity contract for Navy submarine propeller and propulsor for on-site repairs. The contract will have a five-year ordering period. Work under the contract will be completed at various shipyards within and outside of the continental U.S. according to individual task orders and is expected to be completed by January 2026. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$186,357 will be obligated at time of award and will expire at the end of the current fiscal year. This contract was competitively procured via beta.Sam.gov with one offer received. The Naval Surface Warfare Center, Philadelphia Division, Philadelphia, Pennsylvania, is the contracting activity (N64498-21-D-4006).

January 5, 2020

Lockheed Martin Rotary and Mission Systems, Moorestown, New Jersey, was awarded a \$731,132,618 cost-plus-fixed-fee and cost-only contract for engineering and technical services for Aegis in-service combat systems engineering, ship integration and test engineering, computer program maintenance, integrated logistics support and planning and in-country support for multiple international partners employing Aegis. This contract provides in-service lifetime support efforts, including engineering, technical and logistical support related to the maintenance and modernization of the Foreign Military Sales (FMS) Aegis Combat System and Aegis weapon system equipment and computer programs. This contract includes options which, if exercised, would bring the cumulative value of this contract to

\$750,000,000. This contract involves FMS to Japan, Australia, Republic of Korea, Norway, Spain and Canada. Work will be performed in Moorestown, New Jersey (81%); Mount Laurel, New Jersey (7%); Changwon, Republic of Korea (2%); Tokyo, Japan (1%); Maizuru, Japan (1%); Yokosuka, Japan (1%); Nagasaki, Japan (1%); Adelaide, Australia (1%); and various other locations less than one percent each (5%) and is expected to be completed by December 2024. If all options are exercised, work will continue through December 2024. FMS (Canada); FMS (Japan); FMS (Australia); FMS (Republic of Korea); FMS (Norway); and FMS (Spain) funding in the amount of \$113,612,854 will be obligated at time of award and will not expire at the end of the current fiscal year. This contract was not competitively procured in accordance with 10 U.S. Code 2304(c)(1) (only one responsible source and no other supplies or services will satisfy agency requirements); and 10 U.S. Code 2304(c)(4) (International Agreement). The Naval Sea Systems Command, Washington, D.C., is the contracting activity (N00024-21-C-5119). (Awarded Dec. 30, 2020)

LTM Inc., Havelock, North Carolina, is awarded a \$124,083,257 indefinite-delivery/indefinite-quantity, cost-plus-fixed-fee, cost contract to assist the Fleet Readiness Center (FRC) East Fleet Support Team with integration of Naval Aviation Enterprise (NAE) maintenance and supply functions, maintenance scheduling in accordance with NAE constructs, as well as provide logistics and technical support services. Work will be performed in Cherry Point, North Carolina (85.94%); Richmond, Virginia (3.63%); San Diego, California (3.63%); Norfolk, Virginia (1.82%); Yuma, Arizona (1.37%); Patuxent River, Maryland (1.36%); and various locations within the continental U.S. (2.25%) and is expected to be completed in January 2026. No funds will be obligated at time of award. Funds will be obligated on individual task orders as they are issued. The Commander, FRC Procurement Group, Patuxent River, Maryland, is the contracting activity (N68520-21-D-0002).

Premier Scaffold Inc., Bakersfield, California (N55236-21-D-0016); Vertical Horizon Marine LLC, Santee, California (N55236-21-D-0017); W. V. Construction Co., Jamul, California (N55236-21-D-0018); and Leading Edge Scaffold Inc., Las Vegas, Nevada (N55236-21-D-0019), are each awarded firm-fixed-price, indefinite-delivery/indefinite-quantity, multiple award contracts with a five-year base period to accomplish commercial industrial services – scaffolding services. Work will be performed within a 50-mile radius of San Diego, California, for Southwest Regional Maintenance Center (SWRMC). These contracts have an overall maximum ceiling value of \$31,028,750. These four companies will have an opportunity to compete for individual delivery orders. Work will be performed in San Diego County, California. These contracts have a five-year base ordering period and work is expected to be completed in January 2026. Fiscal 2021 operation and maintenance (Navy) funding in the amount of \$40,000 (\$10,000 for minimum guarantee per contract) will be obligated under each contract's initial delivery order and will expire at the end of the current fiscal year. These contracts were competitively procured via the beta.SAM.gov web site; six offers were received. The SWRMC, San Diego, California, is the contracting activity.

The Boeing Co., St. Louis, Missouri, is awarded a \$20,864,609 modification (P00008) to previously awarded firm-fixed-price, cost-plus-fixed-fee contract N00019-19-C-0033. This modification adds new scope for integrated logistics support for 22 F/A-18E and six F/A-18F Super Hornets in support of the government of Kuwait. Work will be performed in St. Louis, Missouri (86%); San Diego, California (8%); China Lake, California (5%); and Fort Walton, Florida (1%), and is expected to be completed in December 2023. Foreign Military Sales funds in the amount of \$20,864,609 will be obligated at time of award, none of which will expire at the end of the current fiscal year. The Naval Air Systems Command, Patuxent River, Maryland, is the contracting activity.

SAFE Boats International LLC, Bremerton, Washington, was awarded a \$19,969,119 not-to-exceed, firm-fixed-price, undefinitized contract action for long lead time material and associated pre-production and planning support for two MK VI patrol boats to be delivered to the government of Ukraine. Work will be performed in Rock Hill, South Carolina (69%); Kent, Washington (21%); Woodinville, Washington (5%); Bellingham, Washington (4%); and Seattle, Washington (1%), and is expected to be completed by December 2022. Fiscal 2020 Title 10 Ukraine Security Assistance Initiative funding in the amount of \$5,463,500 was obligated at award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, D.C., is the contracting activity. (Awarded Dec. 31, 2020)

January 4, 2020

H2O Guam JV, Aiea, Hawaii, is awarded a \$97,995,000 firm-fixed-price contract for the repair and modernization of Lima Wharf and appurtenances at Apra Harbor, Naval Base Guam. The work to be performed provides for the repair and modernization of Lima Wharf and associated facilities, to include comprehensive civil, structural, mechanical, utilities, fire protection, electrical and telecommunication repairs. Site utility system repairs include potable water, storm sewer, sanitary sewer, steam system connections, bilge and oily wastewater system connections, replacement of the electrical power substation and power mounds, ship-to-shore and lighting electrical distribution and installation of telecom duct banks, fiber optic lines and supervisory control and data acquisition system. Environmental site mitigation and monitoring will be provided as required during dredging and sheet pile work. Work will be performed in Santa Rita, Guam, and is expected to be completed by November 2023. Fiscal 2021 operation and maintenance (Navy) contract funds in the amount of \$97,995,000 are obligated on this award and will expire at the end of the current fiscal year. This contract was competitively procured via the beta.SAM.gov website with three proposals received. Naval Facilities Engineering Systems Command, Marianas, Guam, is the contracting activity (N40192-21-C-1300).

CORRECTION: The contract awarded on Dec. 29, 2020, for Compendium International Inc., Foothill Ranch, California (N62473-21-D-1017), was announced with an incorrect award amount. The correct award amount is \$25,000,000.
